

TWENTY THOUSAND AUSTRIAN SOLDIERS KILLED

GERMAN GENERAL DEMANDS 40 MILLIONS FROM BRUSSELS — INTERNAL GERMAN TROUBLES

WAR SITUATION TODAY

The news from Belgium in the past two days would indicate the Allies armies have fallen back with a concerted movement to a defence line which they have been throwing up in the two weeks. Brussels being taken without a shot would indicate that it was never intended to defend the city. The fights in Liege and Brussels would appear to have been for the purpose of gaining time to prepare a real defence farther back. In the southern part of Belgium the Germans have surrounded Namur but they keep out of range of the big guns of the fort and it will be almost impossible to keep open a line of communication through that city without first silencing the forts. Along the French border the French seem able to hold the Germans back and in Alsace and Lorraine are successfully taking the offensive. The French are pretty well into Alsace.

A despatch this morning says the German advance line has reached Ghent which is only about forty miles from the coast of the North Sea. Antwerp is the big shipping port of Belgium and the Germans have long cast envious eyes upon it. It is now strongly fortified and the Belgians and the Allies will be holding it.

An official communication from the Belgium war office says the situation is very good.

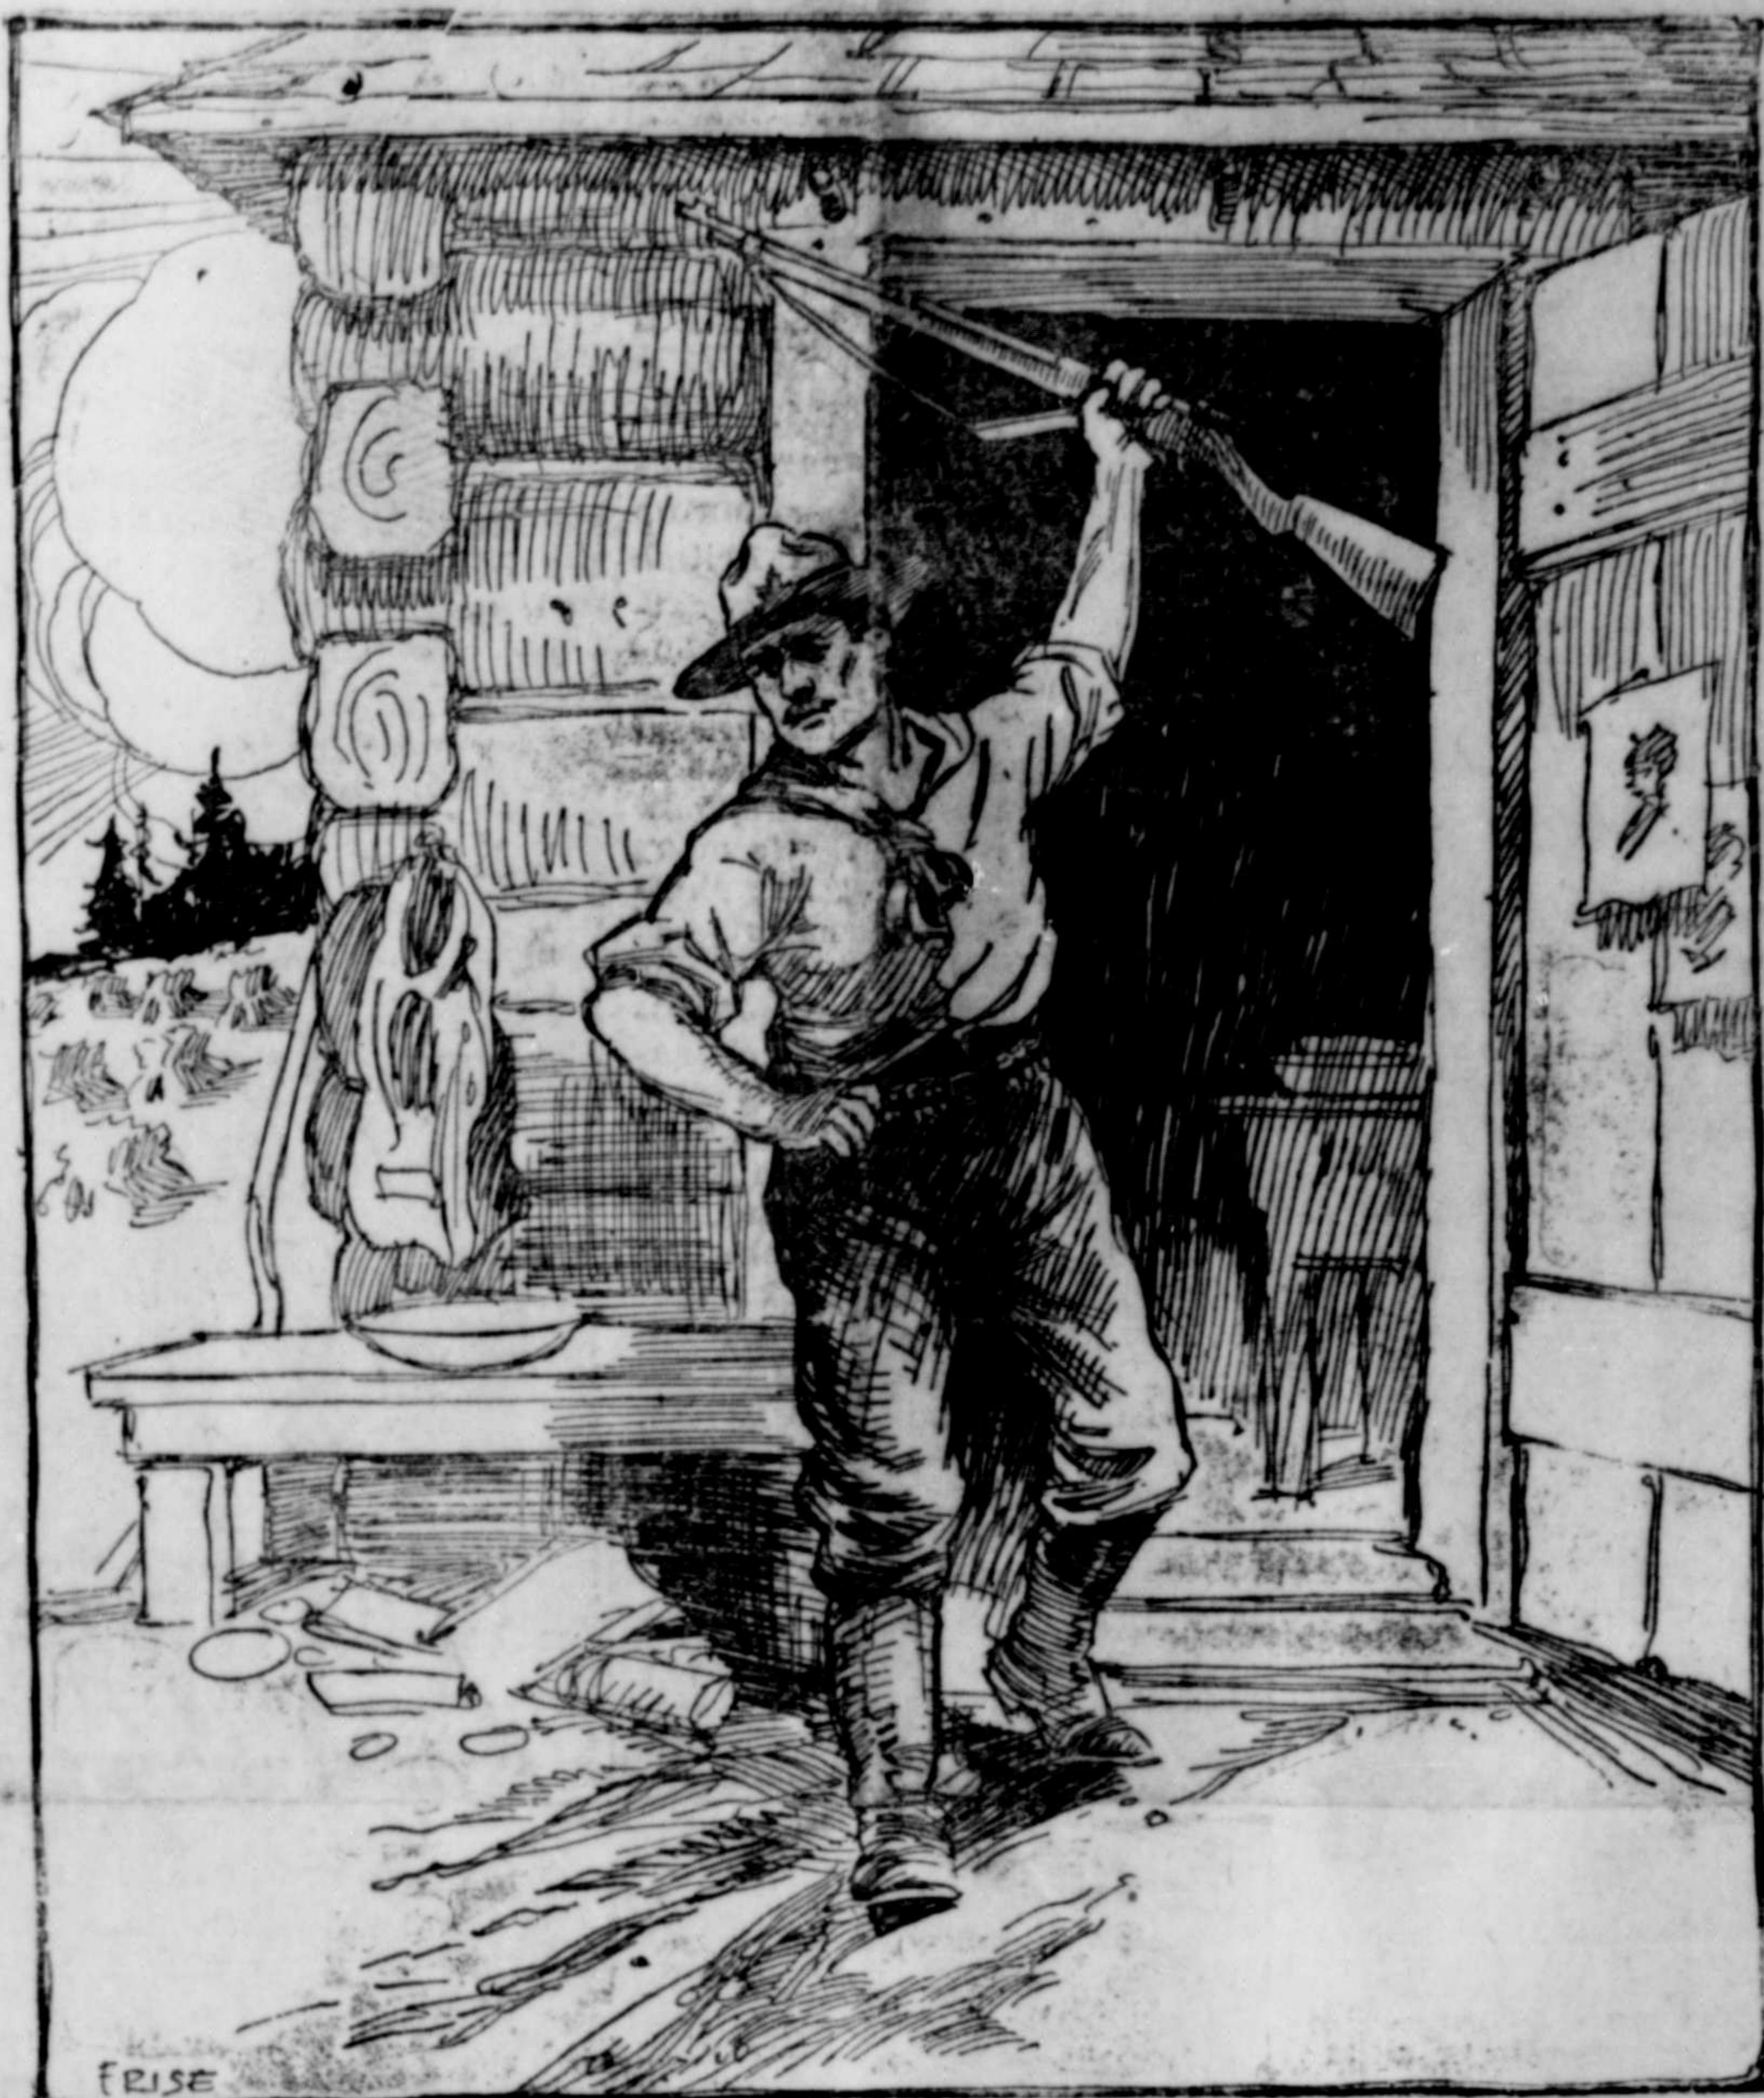

At the eastern end of the war zone the Servians seem to be the Austrians a series of defeats, and Austria finds herself compelled to call out all her reserves.

Russia, too, reports successful movements over the Austrian borders.

News is given out as to the movements of either the British or navy.

Day's news from the Orient tells of the active operations of the Japanese army and navy. A joint assault will be made on the naval base immediately upon the expiration of the time given in the ultimatum.

GERMANS BUSY MAKING DEFENCES ABOUT ANTWERP

(Special to THE NEWS)

London, August 22.—A despatch from the front says preparations for the defence of Antwerp are being made over an enormous area. The city is being joined to the coast by a line of fortifications day and night. There is no sign of panic or disorder. The gates driven in by the Germans have been closed and the work of preparation is proceeding steadily forward and Antwerp is a strange contrast. In every window appear Belgian and French flags, and a festive air to the city preparing to resist to the death.

GERMAN SOLDIERS ROB DEAD

(Special to THE NEWS)

Paris, August 22.—Eighty-three German prisoners, accused of robbing the dead on the field of battle, arrived at Clermont today and the police had difficulty in restraining the people from attacking them. When they were arrested in the vicinity of Mulhausen many had jewels and a number of wedding rings besides large sums of money on them. It is alleged the valuables were stolen from the bodies of officers and soldiers.

The German prisoners will appear in a court martial held by the thirteenth army corps. It is charged they wore the red cross to facilitate the robberies on the battlefield.

Paris, August 22.—"When our troops entered Blamont (department of Meurthe-et-Moselle), a few days ago they found notices posted on the walls that the next morning the mayor and prominent citizens of the town would be shot. The sudden arrival of the French and the disorderly retreat of the Germans, however, saved these persons from death," says an official bulletin of the French war office.

FORMER CAPTAIN EARL GREY'S RIFLES MAKES STATEMENT

Prince Rupert, B.C., August 14, 1914

To the Editor of the Daily News:

Sir.—Owing to many inquiries as to my attitude towards the re-organized Earl Grey's Own Rifles and in answer to many questions I wish to make the following explanation. A delegation waited on me some days ago and asked me if I would accept office under Mr. McMullin as Lieut.-Colonel. In view of the present serious situation in Europe which calls for unity and a spirit of compromise I informed them that I would do anything in my power to aid and assist in the present crisis and I agreed to accept any position under either Captain McMullin or Captain W. S. Fisher, who are the senior officers in town. Yesterday Mr. Peck called and offered me a position in his command and while I have no personal difference with Mr. Peck I was compelled to refuse for the reason that it is contrary to all military procedure and etiquette to place a Sergeant in command of a regiment over the heads of seven officers resident in the city, all of whom held field officers or captain's certificates. So far as I know Mr. Peck makes no claim that he has ever held a commission as an officer, or has an officer's certificate, even of the rank of Lieutenant.

Yours truly,

FRED STORK.

Clifford Laesser pleaded guilty at Windsor to stealing a check for \$156 from the G. P. R., but was let go on suspended sentence, after promising to make complete restitution.

WHO PAYS THE BILL?

Will the Mayor please explain why he stayed so long in Vancouver and Victoria and whether or not he will pay his own expense? In these hard times we want our Mayor to economize as well as other citizens. The Council declare the Mayor had no city business to attend to after the Hydro-Electric Co. again fooled our simpletons. The people want to know, and an explanation should be forthcoming.

FRENCH TRAIN ENGINEER TOOK 300 PRISONERS

London, August 22.—A despatch to The Morning Post tells of the capture of 300 German Uhlans singlehanded by an Alsatian locomotive driver. He was moving a train carrying Uhlans to the frontier, and purposely diverting it to another track, ran the cars full speed into France. He stopped at the first French station and handed over the whole trainload of Germans with their horses and equipment, to the French soldiers.

RUPERT MAY COME OUT

It is said that an effort is being made through the government to have the bondholders of the G.T.P. Steamship Company to consent to the Prince Rupert being put on her run again and it is possible the popular boat will be out again in a few days. In the meantime the Prince John will continue her regular schedule.

PRINCE GEORGE OF THE RED CROSS IN PORT AGAIN

All last evening the G. T. P. docks were crowded with spectators who went to get a glimpse of the Canadian cruiser Rainbow. This interest was increased during the evening when the Prince George came in and tied up at the wharf. The George looked almost like a stranger. Her hull has been painted white with a green hand around her main deck. The stacks are yellow and a big red cross appears on the centre pipe. This is the designation according to the Hague convention for a hospital ship, and the George is said to have the distinction of being the very first naval hospital ship put into commission.

Aboard she has been quite transformed. The carpets and curtains and trimmings are all removed and the shelter deck is changed to a modern hospital. In addition to the regular berth cots have been placed along the wide alleys. The elevator has been made over to carry cots and a big operating room has been fitted up in the lower deck forward.

There are several doctors aboard and a corps of trained nurses. The George came up here direct from Esquimalt and was unaware that the Rainbow was here. She is awaiting orders.

SUBMARINES COST OVER MILLION—30,000 NEW RIFLES ORDERED

Ottawa, August 22.—Copies of orders-in-council passed since the outbreak of the war and tabled in the House of Commons, show that the Government paid \$1,050,000 for the two submarines purchased at Seattle; that an order was placed with the Ross Rifle Company for 30,000 rifles and bayonets at \$33.25 for each rifle complete, aggregating approximately \$1,000,000, and that a third war expenditure was an order to the Canada Tool & Specialty Company of New Glasgow, for the conversion of 10,000 long Ross rifles and sights to correspond with the present Mark III rifle at \$3.50 each. This work is to be completed by April 1, 1915. The total expenditures on these three items is about \$2,100,000. The expenditure for the submarines, which had to be made at once, was covered by Governor-General's warrant.

Embarking Strength

An order-in-council providing for the Canadian expeditionary force of one army division defines the number of officers and men in the various units. The total embarking strength of the force is to be 22,218 although upwards of 25,000 men will mobilize at Valcartier. Commanders and staffs total 90; cavalry, 157; artillery, 3,888; engineers, 442; signal service, 698; army veterinary service, 11; ordnance corps 18; army pay corps, 2; postal corps, 16. In addition to this there will be 4,750 officers and men at the overseas base and 2,395 in the administrative units available for reserve or reinforcing purposes infantry, 12,925; army service corps, 567 an army medical service, 698.

Canadian troops will all be provided with the Mark III Canadian Ross rifle, declared by military experts here to be the latest and best military arm in the world.

At Disposal of Admiralty

In the correspondence there is a cable under date of August 8 from the Governor-General to the colonial secretary stating that the Canadian Government wished to place the two submarines at Esquimalt at the disposal of the Admiralty for general service. On August 9th this offer of the submarines was gratefully accepted by the Admiralty.

THE DAILY NEWS

THE LEADING NEWSPAPER IN NORTHERN BRITISH COLUMBIA
Published Daily and Weekly by
THE PRINCE RUPERT PUBLISHING CO. LTD., PRINCE RUPERT, B.C.

DAILY EDITION Saturday, August 22, 1914

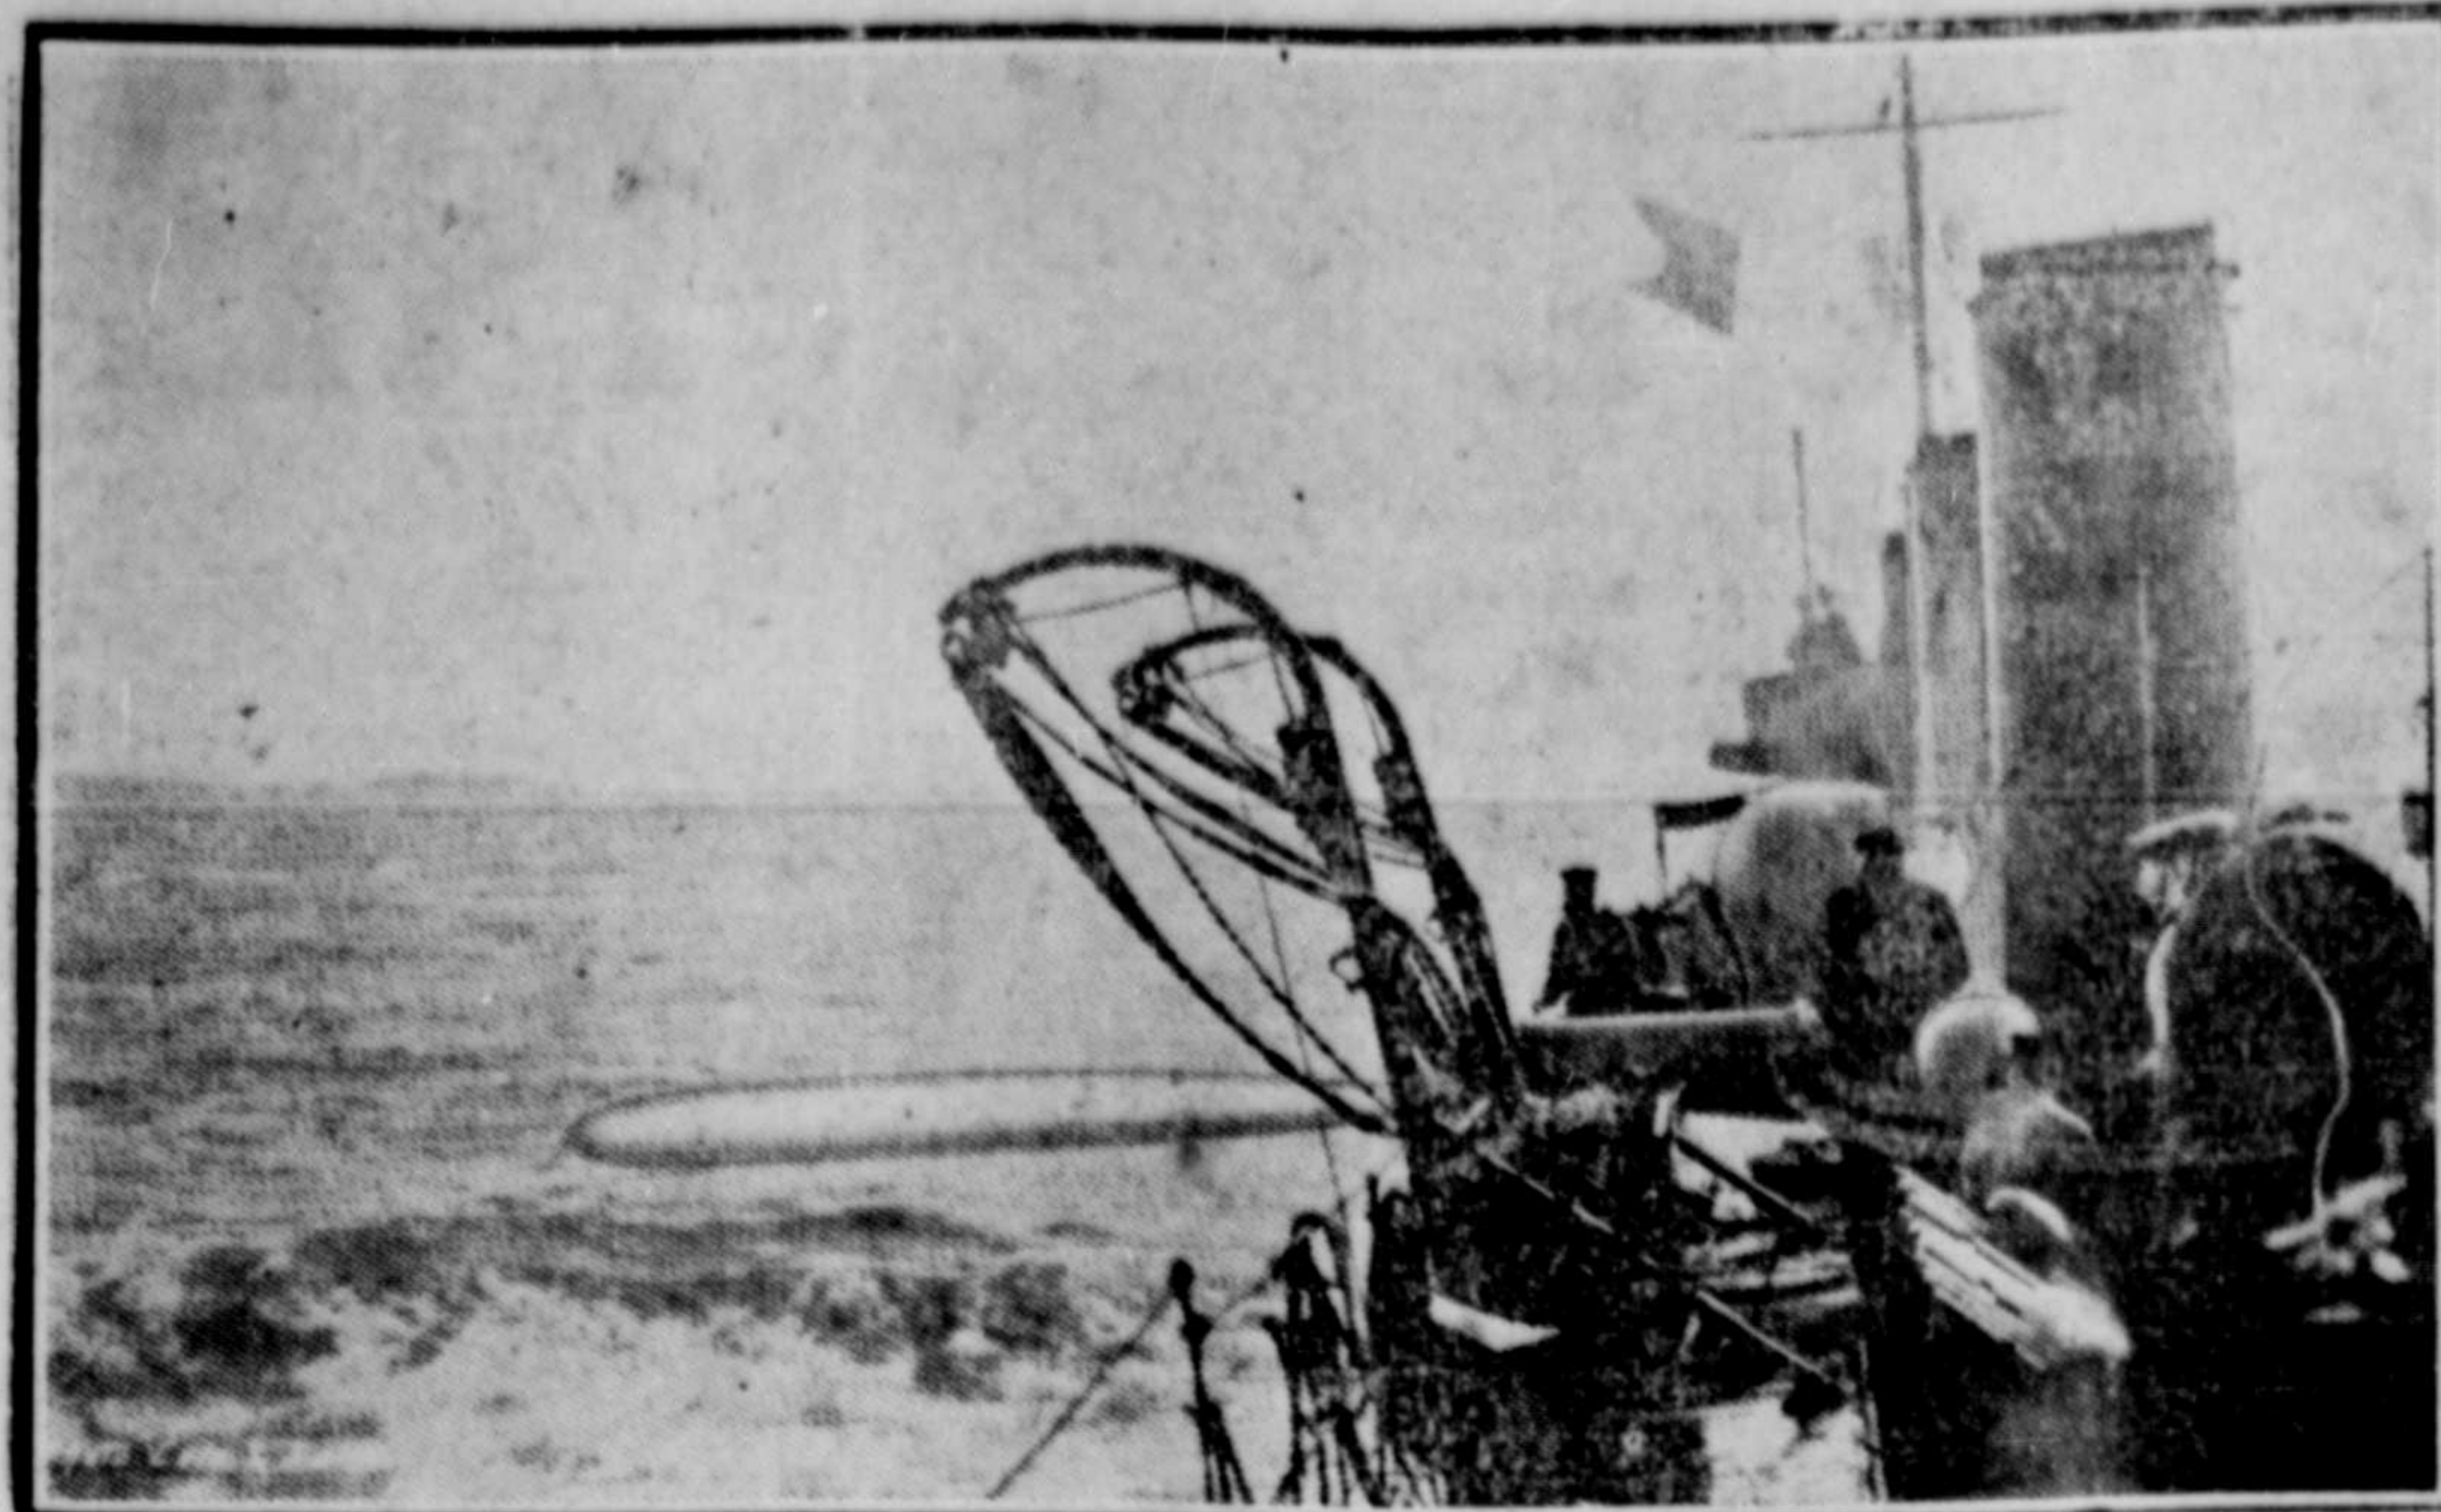

A contemporary calls attention to the boasting of the German cruisers that they will uphold the "traditions" of the German navy with the pertinent remark that Germany has no naval traditions. Britain, on the other hand, has the traditions of a thousand years and there are thousands of families in Britain that have followed the navy from father to son for centuries and who are enthused with the heroic deeds of their ancestors.

There has been a good deal of criticism of late about the news service given in Prince Rupert. Reports of one day are often contradicted the next. If anyone takes the time, however, to watch the Vancouver papers he will find the same trouble—only more of it. The Daily News has ordered a special service of from a thousand to two thousand words daily and must necessarily publish what is given.

the best news at the earliest possible moment.

Never was that principle of national self-government so conspicuously illustrated or so splendidly justified as in this very hour. Without command, without compulsion, without constraint, indeed without request, and—what? An army mobilizes by the order of the Canadian Minister of Militia; a million bags of flour go by order of Canada's Government; a half-million bushel of oats the gift of a Province; two equipped regiments of infantry at the charge of two Canadian citizens; several quick-firing batteries furnished by an unnamed Canadian; a whole people, the millionaire and the milkman, the man in the street and the man in the church, the native-born and the alien, each in his place, and all with their hearts serving and sacrificing for the cause they have made their own.

And—greatest gift of all, sacrifice unequalled, devotion to the fullest measure—fathers who hate war and all its vaunted glory, and mothers who love their sons more than their own lives, bid them go into the death-struggle which is none of their making and from which they may never return.

AMERICANS ARE NOT REGARDED AS ALIENS

Washington Gov't Furnished with List of Approved Ports—Restrictions at Others

London, August 19.—It has been officially declared here that the only steps taken by the British Government to prevent the landing of foreigners in the British Isles were those provided for by the sections of the Alien's Restriction Act, the object of which was to safeguard the country against aliens from countries with which Great Britain was at war.

An order of council signed by the King was published in The Gazette on August 5th limiting the entry of aliens to certain ports so that they could be subjected to examination. This order was not intended in the least to keep out Americans, it was said, and had no effect on the landing of Americans here.

Approved Ports
Washington, August 19.—Charge Barclay, of the British Embassy has submitted the following memorandum to Secretary Bryan:—

"The following is a list of approved ports in the British Isles: Dundee, Aberdeen, West Hartlepool, Hull, London, Folkestone, Bristol, Holyhead, Liverpool, Greenock.

"All other ports are prohibited ports, aliens, subjects or citizens of friendly powers, can land or embark at the approved ports only with the permission of the Secretary of State for Home Affairs in London. Aliens, subjects of the enemy powers, cannot land or embark at the prohibited ports; they can land or embark at the approved ports only with the permission of the Secretary of State. Permission to land by the Secretary of State in any case is to be obtained at arrival. Aliens desiring permission from the Secretary to embark should furnish proper passports of identity.

U. S. CAN SUPPLY BRITAIN WITH FOOD

It is probable that the United States is able to supply Great Britain with food just as easily, if not more easily than any other country could. The United States Government could not, and would not, do anything to prevent the free export of wheat to any of the countries at war. The United States has a record wheat crop this year, estimated officially at 930,000,000 bushels. The wheat crop of 1913 was 763,000,000 bushels. That means that 150,000,000 more bushels of wheat are available for export.

AS THINGS ARE IN THE BRITISH EMPIRE

Montreal, August 21.—The Monetary Times in its current issue sums the British position up as follows: "Once again British diplomacy has played fairly, satisfying the most delicate conscience. Once again it has maintained the British standard of honor, this time at the expense of valuable points in warfare, now gained by the enemy. Germany having pushed war, it has challenged a nation which has strained every diplomatic nerve and sinew to preserve peace.

Flouting Britain's heroic determination to strangle war, now it must face that determination in a grim shape. It is not war upon Great Britain alone. It is a challenge to the Empire, one which has done for civilization more than other empires have even tried to dream. That challenge the Empire has answered. Canada, Australia, South Africa, every dominion overseas join with the Motherland in this international struggle, one into which that Motherland has done everything possible to prevent the Empire having to plunge. Victory on one side may mean a new map of Europe, the flowering of autocracy and the predominance of belligerence. Victory where the British Empire may place it, will mean the preservation of individual nationalities, the progress of democracy, always arbitration and perhaps lasting peace.

Seldom has England girded its loins in such a good cause, especially as the struggle has been forced upon it. Heaven knows of the prayers which have been offered and the statesmanlike efforts made for peace. War has come to bring it. Having entered the fight, the British Empire will proceed to the end. In this struggle it has the help of some and the sympathy of all except perhaps two, of the civilized nations of the world. May Right ride as conqueror!

FOOD STUFFS ARE NOT CONTRABAND OF WAR

Toronto, August 21.—The Star says: "Foodstuffs in American vessels consigned to British ports could not be seized by German vessels except in very exceptional circumstances. Under the declaration of London, which epitomizes international maritime law, foodstuffs are not contraband of war, unless intended for the use of an army. When intended for the use of the non-combatant population they cannot be touched. The warships of belligerent powers would of course have the right to search American ships for contraband, but they could not seize grain cargoes without a direct breach of international law.

which the Americans would be certain to resent. Even the right of search would be dispensed with if the United States Government sent a warship along with a fleet of freighters to convoy them. American foodstuffs could be shipped to Britain from New York and Philadelphia and Boston direct, or if thought desirable via Canada from Montreal and Halifax.
