Interesting pictures were secured about two months ago by a Canadian who had just returned from abroad. They give a good idea of the architectural beauty of the old city which has been the centre of bombardment between the German and British forces.

RIBLE SLAUGHTER GERMANS IN VOSGES DISTRICT BATTLE

REPORT FROM FRENCH WAR OFFICE--THE
BRITISH WERE ATTACKED BY SUPERIOR NUM-
BERS--HAD TO FALL BACK

to The News - 8:30 a.m.,
August 28.--The follow-
ing has been issued by the War
Office: "In the Vosges District our
troops have resumed the offen-
sive. They drove back the Ger-
mans and forced them to retire on
the Die side. The Germans
retreated to St. Die which is an
important town."
The region between Vosges
and the German offensive move-
ment continued uninterrupted for
several days. The German losses were
heavy, over 2,500 bodies
found in front three kilo-

metres and 2,500 bodies in four
kilometers, in the region of Vi-
triment.
"On the Meuse our troops re-
pulsed several German attacks.
"In the north the British at-
tacked forces greatly superior in
number and were obliged, after
brilliant resistance, to withdraw a
little to the rear. On our right
our armies maintained their po-
sitions.
"The Belgian army of Antwerp
by an offensive movement held

sions."

REPORT DEFEAT OF BRITISH AT MANBERG AND CHAS-
ING FRENCH OUT OF SOUTHERN BELGIUM--
BELGIANS TOOK OFFENSIVE

(Special to The News--11:30 a.m.)
Berlin, August 28.--By wire-
less to Sayville, N.Y.--The head-
quarters here has issued an of-
ficial report that the western
enemy has everywhere been de-
feated and is in full retreat after
nine days of fighting.
General Von Kluk defeated the
British army at Mauberg. He
renewed the attack yesterday and
threatened to surround the Brit-
ish.
Generals Von Buelow and Von
Hausen have completely defeated
the French and Belgian forces, of

Sambre River and Namur city and
the Meuse River, in several days
about eight corps, between the
battle, and are now pursuing
them to the east of Mauberge.
General Von Harringen con-
tinues the pursuit of the French
forces in Vosanges region.
Four Belgian divisions attack-
ing from Antwerp were repulsed.
Mauberge is just over the
French line about fifteen miles
south of Mons where the British
claim a victory yesterday. The
main French army is some miles
to the north and east of this point

CALL FOR VOLUNTEERS-- OWN SON RESPONDED

Paris, August 28.--Colonel
Eolque, commander of a division
of artillery at the front, recently
needed a few men for a perilous
mission, and called for volun-
teers.
"Those who undertake this
mission will perhaps never come
back," he said, "and he who com-
mands will probably be one of the
first sons of France to die for his
country in this war."
Volunteers were numerous. A
young graduate of a polytechnic
school asked for the honor of
leading those who would under-
take the mission. It was the son of
Col. Eolque. The latter paled
but did not flinch. His son did
not come back.

ALBERTA MILLERS TO GRIND ON SUNDAYS

Edmonton, August 28.--Claim-
ing that the necessity for flour
which the war situation creates is
one that must be met if Great
Britain is to succeed, the flour
millers of Alberta have come to
the Attorney-General's Depart-
ment with a request that they be
allowed to operate flour mills in
this Province on Sunday. The
Attorney-General has given his
promise that no flats would be is-
sued so long as the acute situa-
tion exists.

tant conversations are proceeding
at The Hague between the Neth-
erlands foreign minister, the
French minister and a special en-
voy from the French foreign of-
fice.

NEUTRAL GOODS SAFE

London, August 28.--Many en-
quiries are being made at the
American consulate concerning
American goods on seized ships,
but Consul General Skinner is
having no trouble in obtaining
the release of this merchandise
on proof of ownership to the
British authorities. The British
admiralty has ruled that neutral
goods are not subject to seizure.

Washington, August 27.--In
answer to many appeals for in-
formation from naturalized citi-
zens and foreign residents as to
conditions under which they may
be returned to their native lands
for military service, Secretary
Bryan today issued a statement
saying the United States was not
a party to any treaties under
which such persons might be
compelled to return for military
service and saying there was no
way in which they might be forced
to join the armies so long as
they remain in the United States.

COLOGNE PAPER SAYS SOCIALISTS ARE WELL

London, August 28.--A Berlin
dispatch to The Cologne Gazette,
under date of August 17th, a copy
of which paper has been received
here, says the report that Herr
Liebknecht, the Socialist leader,
was shot because he declined to
do military service, is untrue and
that Liebknecht at the time was
living in Berlin undisturbed. The
paper says that neither Rosa
Luxemburg nor any other Social-
ist had been shot or interfered
with.

War Situation To-day

The official reports from both the Paris and London War
Offices apparently do not consider the evacuation of the cities on
the French border yesterday as serious. This plan had been agreed
upon last Monday and the Allies armies have drawn back to po-
sitions selected previously, and which can be better defended.

Today's later despatches show that the main bodies of the
Allies' armies are still holding their ground in the vicinity of
Charleroi and Mons which are some miles north of the Franco-
Belgian border. They would appear to be in good position. Even
accepting the German version by wireless to Sayville, the outlook
is almost better than can be hoped for. Practically no progress is
being made by the Germans.

It must not be supposed, however, that the forward move-
ment of the great German army has been wholly checked. They are
bound to pierce the Allies lines in places by sheer force of their
numbers. In fact their whole plan of campaign has been to
throw overwhelming numbers into Belgium to sweep a path to
Paris in a few days. It was their only hope. In this they have
been greatly disappointed and with the British and French check-
ing the advance of the cream of the German army in front and
the Russians sweeping over the German reservists in the rear,
the Kaiser will soon see his bubble burst.

The occupation of Ostend by British marines gives Britain a
feeling of assurance that there is little danger of the Germans
getting a sea port near the channel.

Antwerp continues to hold out and is only troubled so far by
bombs from airships.

DAILY EDITION

Friday, August 28, 1914

Few queries are put more frequently these days than this: How long will the war last? It is obvious, of course, that any answer to the question must be conjectural. Russia is an empire of wide area and an enormous population, but the number can only be approximated, as no such census as is taken in Canada is ever taken in Russia. The country is very productive, but most of its peasantry are distressingly poor, and bear a burden of taxation that is crushing. Nothing is spared by the tax gatherer; nothing is exempt from seizure.

Germany has a population of about 55,000,000. As a whole the population of Germany is far more intelligent and capable and freer from superstition than is that of Russia. It has an immense regular or standing army, well officered, and usually enthusiastically patriotic.

Austria-Hungary is composed of many peoples of different nationalities and of diverse religious and political faiths, and is not financially or as concerns its army nearly so strong as is Germany.

France is financially the strongest of the foreign nations—using the term "foreign" as distinguished from Britain and nations speaking

the English language. Her people are the most thrifty and economical in the world, and their faith in their government is absolute and unquestioning, while for forty-four years they have cherished a purpose of revenge against Germany.

Britain is in many respects the greatest of all the European nations, the best governed, and with the most extensive dominions. Her superior power on the sea is unchallenged, and her financial resources are enormous. The Belgians are brave and patriotic, but Belgium is a small country, as is Serbia, and neither will control the result.

There will be millions of men on the battlefield, and they are in large part taken from the fields of productive industry, especially from the farms. There must necessarily be a great reduction in the production of foodstuffs, and, as Germany imports much foodstuffs at all times, it seems inevitable that the question of food, not only for the army but also for the non-combatants, must soon become a serious problem and one which must directly affect the length of time the war will last.

NOTES OF BELLA COOLA AND DISTRICT

Mr. Jos. Fall, Provincial Government engineer, arrived by the Camosun on Sunday and is at present registered at the Grand View Hotel. Mr. Fall is here for the purpose of permanently locating the route of the projected road from this place to Tatla Lake and will be accompanied on his trip by Mr. Frank Johnson, whose knowledge of the country and conditions should prove of great assistance.

Already several of our neighbors in the valley have responded to the call to arms and have left to join the various forces which are shortly expected to leave for the seat of war.

E. Gyllenspitze, the well known farmer of the Upper Valley, visited town during the week, returning to his ranch on Friday with a full load of supplies.

W. Gunn came through on foot from the Cariboo, arriving here on Friday morning. He reports that Mr. Robert Lowe, with his survey party, is on the way to this place and will arrive in a few days.

F. A. Johnson, Mrs. Kivett and Harry and Chester Kivett, of Firvale, spent last Sunday in town.

Local fishermen are prepared for the commencement of the coho season, but pending the settlement of the price of fish to the fishermen no start has yet been made. It is anticipated that the cannery will be in full swing again by the middle of next week.

The church service at the Mackenzie School on Sunday evening next will be conducted by Mrs. Livingstone, provincial organizer of the W. C. T. U. Rev. T. C. Colwell is paying his periodical visit to outlying districts.

Owing to the frequent rains which have fallen in the northern portion of the province this summer, the Forest Branch has concluded that in a number of districts the forest guards can be withdrawn from patrol and employment on permanent improvements, such as trails and cabins, and also in clearing dangerous slash.

London, August 28.—The correspondent of the Exchange Telegraph Company at Rome says a message has been received there from Berne, Switzerland, saying that the American government has informed Switzerland there is no reason why a Swiss loan should not be floated in the United States. This answer is in reply to a query from Switzerland regarding the possibility of a loan.

THE DAILY PRESS AS AN EDUCATOR

"The Journalist writes for his contemporary, not for posterity," says Professor Slosson. Perhaps that is the reason why all the kinds of literature that the printing presses of the world daily grind out, the newspaper is the most transient and the least preserved. It passes hurriedly through our hands to the waste-paper basket, and not to the library shelf. Yet, does one ever think how much he is actually influenced and educated by the short but regular contact with the reports of what his fellows are thinking and doing?

"The newspaper is the pulse of the world," says another writer. Place your finger on it and you perceive humanity's dull beat in the ordinary walks of life; the recording of births, marriages, deaths, the displaying of advertisements of lands, houses, shop sales, businesses, articles of luxury, medicines, books, stocks and shares, theatre shows, "wants" for assistants, servants, husbands, wives, represent merely its function as a cogwheel in the industrial machinery. Touch it again and you note the red blood running warm and fast telling of the thrilling upward march of science, art, discovery; or again and you feel the fevers of civilization run riot through the veins telling plainly of the inward convulsions of war, the panicky shrinkings of the stock market, the swelling of the oceans and the winds.

The daily press has hitherto been an institution for adults; it is only lately that it has catered to the youthful reading public. The magazines have undoubtedly set the example in this direction. For many years back there have existed special periodicals for boys and girls. Of later years

some of the big publishing concerns have issued and regularly put forth journals devoted almost exclusively to matters of interest in woman's sphere. Today nearly every big city "daily" has a page devoted to children's stories, and has one also where the fair reader may regale her mind with news items and spicy "clippings" of feminine interest. I am venturing to say here, because the trend of newspaper enterprise seems to justify it—that it will not be long before the young people's page will carry daily prepared lessons of different grades to the children. Such a step might be one of distinct benefit to people living in remote country districts. Am I stretching my imagination too far when I picture a second Lincoln relating to an admiring audience how he had walked weary miles of country road in wind and storm to get the daily paper and how lying before his rude open fire place, he had without a teacher, spelled over and over unsystematic symbols of sound and juggled with the mysteries of squares and cubes?

MORATORIUM ACT DOES NOT EFFECT SALARIES

GREAT BRITAIN'S DECLARATION HAS BEEN FOLLOWED BY OTHER COUNTRIES -- MORE EXPLANATIONS OF CONDITIONS

Montreal, August 28.—A moratorium has been declared at various times during the past month, in Great Britain, France, Sweden, Brazil, Peru and China. In Germany, says a Berlin despatch, a moratorium is deemed unnecessary.

The rising generation at least cannot be blamed for unfamiliarity with the word moratorium. It was a new one to Wall Street, which is generally reputed to know every word in the financial vocabulary and to have invented a few besides. A large bond house in New York received a cable last week from its London correspondent which ended up, "moratorium expected." The message was not in code, but the word "moratorium" stumped the cable clerk. He finally consulted his code book and discovered that moratorium was the symbol for "We draw on you for \$7,000." Unfortunately this interpretation did not fit in with the sense of the message. The office manager was called in. He couldn't help. The partners in their turn failed to shed any light on the matter. The cable company was persuaded to repeat and the message came back with that curious word still unchanged. The mystery remained unsolved until somebody happened to notice a piece on the news ticker to the effect

that a general moratorium had been declared in England.

What the Dictionary Says
The word "moratorium" according to the New International Encyclopedia, comes from the Latin moria, delay.

"An extraordinary act of a government by which the collection of all debts is suspended for a specified time. A recent instance is the moratorium decreed by Argentina in 1890, at the time of the great financial crisis which led to the suspension of the Barings of London. Such an act may cause international complications."

According to the Encyclopedia Britannica, "The term is sometimes used to mean the period over which the indulgence or period of grace stretches. A moratorium law is usually passed in some special period of political or commercial stress. For instance, on special occasions during the Franco-Prussian war the French government passed moratory laws. Their international validity was discussed at length and upheld."

Chancellor Lloyd George announced in the House of Commons that a general moratorium would be in effect for one month. Wages, salaries, rates and taxes, government payments and national insurance are not to come

within the scope of the moratorium.

London despatches state that it now transpires that had moratorium not been declared bills of exchange would have been presented on the following day for £350,000 without means of meeting them.

Brazil Wants a Long One

The Brazilian Congress has recommended a moratorium of four months, and a new issue of paper currency. Brazil is probably not in the best financial position, as it had contemplated in Great Britain, a large loan, which the war has prevented.

The various governments, including the British, French and Japanese, says a Shanghai despatch, have agreed to the moratorium which the Chinese government has declared for an indefinite period. It is pointed out that this cessation of foreign payments should enable the Chinese government to pay the troops regularly from the proceeds of various revenues pledged to foreign debts and thereby to eliminate the danger of mutinies.

The Peruvian government has issued a decree proclaiming a moratorium for thirty days from August 8th.

ZEPPELINS THUS FAR HAVE NOT DONE MUCH

Paris, August 28.—Zeppelin airships, of which the Germans expected great things, appear as yet to have been inoffensive, according to opinion in the French capital. Of the fifteen Zeppelin units, one is believed to have been disabled by the fire of the Liege forts on August 6th, and another was demolished in a shed at Metz by the French aviator Finck. Two others have been seen by Belgian aviators apparently wrecked by wind squally in the forest between Metz and Aix-la-Chapelle. Another has been brought down at Badonviller, near Luneville.

Of the remainder, two are supposed to be on the Russian frontier, and the others at Cologne, Hamburg and Kiel, and on the French frontier.

Chance to Make Money

Forty now in use and giving entire satisfaction. Ask for references. The reliable plumber, Harry Hanson, P. O. Box 395, Phone 489. 168ft.

Wanted, a boy; reference required. Apply 824 Third Avenue.

G. T. P. OFFICIALS ARRIVED LAST NIGHT

Came in on Special After Inspection of Completed Road

Chief G. T. P. Engineer B. B. Keliher, accompanied by Assistant Chief Engineer Wood, Division Engineer C. C. Van Arsdol, General Superintendent W. C. C. Mehan and Contractor J. W. Stewart, arrived in the city by special train last evening at 10 o'clock. They have just completed an inspection of the line prior to its opening for through traffic. The work is now practically completed, only some permanent bridge work and tunnel lining having to be finished. The road is ready for traffic and while there has been only one lift of ballast put on that is sufficient to keep the roadbed in good shape for a year at least.

BOARD OF TRADE WANT RUPERT BACK

A few days ago the executive of the Board of Trade authorized President G. R. Naden to wire Premier Borden requesting that the Dominion Government guarantee the war risk on the G. T. P. steamer Prince Rupert in order that she may be put back on the Rupert run. The Board pointed out that the cutting out of this boat leaves the city without sufficient service to the district coast ports.

The Premier replied by wire that he had turned the request over to the Minister of Trade and Commerce to report on.

SHORTAGE OF FLOUR

London, August 28.—The Rotterdam correspondent of The Daily Telegraph says that because of a shortage of flour the bakers in Rotterdam are making bread composed of equal parts of flour and potato. The mixture is palatable.

VISITOR TO BRITAIN ARRIVES IN RUPERT

In Glasgow When Was Was Declared—Tells of Enthusiasm of the People

Mr. W. J. Ledlie, the popular member of the Land Registry office staff, has just returned from a three months' holiday to Auld Ireland. He left here on the 6th of June and after touring the chief American and Canadian centres visited his old home in Ireland which he had not seen for eight years.

He was in Glasgow when war was declared and tells of the enthusiasm displayed by the people in taking up arms. Several days before the official mobilization took place crowds thronged the military headquarters offering their services. The people of Britain are united as never before in demanding that Germany be crushed.

NOTICE TO THE PUBLIC

This is to warn the public that patent is now pending for a patent on a coil I am installing in kitchen stoves and ranges, and anyone installing such coil or infringement on said coil, or any one having this installed, will be subject to be sued for damages upon my receiving patent papers.

Price until September 15th will be \$15.00. The Reliable Plumber, HARRY HANSON, Phone 489.

VANCOUVER DETECTIVE SHOT

Special to THE NEWS) Vancouver, August 28.—Detective Lewis was shot in the pit of the stomach with a shot gun held a few feet from him.

He was shot while attempting to arrest a man wanted in connection with a stabbing affray earlier in the evening. Lewis condition is serious and will probably be fatal.

APPROVES OF ACTION

(Special to THE NEWS)

London, August 28.—The London Economist, one of the leading British financial journals, strictly approves of the United States Government's action in refusing a loan to France, saying that if that were permitted, it would also be permissible to float a German loan, thereby prolonging the European war.

London, August 28.—A German cruiser, according to report, has been sunk in the Baltic. The disaster is ascribed to a mine.

George Davis, a man about 60 years of age, was found dead and floating in the harbor below the G. T. P. wharf yesterday. Davis was probably drowned on Wednesday night. He formerly worked at the Wales Island cannery and last May came to Rupert for medical treatment. He did not improve any and finally his money ran out.

He has been living at the Central Hotel since last May and was expecting money from relatives in England.

There were no marks of violence on the body and it is thought the man may have committed suicide.

PHENOMENAL RUN OF SALMON IN NORTH

Seattle, August 28.—Steamers from the north report a phenomenal run of salmon in the Seldovia district, Southeastern Alaska which has turned the tide of failure on the season's pack for canneries in that section to success.

E. F. Randolph, manager of the Seldovia Salmon Company says that in less than a month his cannery packed some 20,000 cases after a poor start that augured failure for the season. Less than 8,000 cases had been packed by the Seldovia cannery with little more than a month left of the season when the fish began to run.

The final league game in the soccer schedule will be played tonight on Market Place between the Callies and Hornets. If the Callies win there will be a tie with the Merchants for the championship each side having lost but one game. This will mean a play-off between the two at a date to be fixed later. If the Hornets win tonight the Merchants get the cup and championship.

AMERICAN OPINION SUPPORTS BRITAIN

Mr. John Jay Chapman, a visitor from the United States to Germany, in describing the "striking brutality" received by American fugitives from Germany, and the contrast of the kind reception in London, in a letter to the London Times concludes as follows:—

"The Americans in London are now organizing to effect transportation and credit for the thousands of our countrymen who are stranded in Great Britain and the Continent. We are at this moment receiving such aid and sympathy from the British people as is perfectly amazing, considering the crisis through which Britain is passing. Let us remember this in the near future. Let us remember that there are great things at stake than the safe return of ourselves to our country. Let us remember that the future of free government in the modern world is now being safeguarded by the blood and treasure of Great Britain. Let us remember that the era of Napoleon."
