

## TURKEY HAS AT LAST DECLARED WAR ON RUSSIA

### GERMAN REGIMENT DESTROYED -- RUSSIANS DEFEATING AUSTRIANS -- KAISER AT BRUSSELS

#### WAR SITUATION TODAY

Reports to The News last evening indicated that the Germans inflicted a crushing defeat on the Russians in Prussia, 70,000 men. In today's dispatches the Russian authorities admit a defeat of two army corps which probably resulted from the same engagement. The number of prisoners is probably large. Even should this large number have been taken, it means little for Russia, who has millions to spare.

On the west the Germans seem to have been getting the worst of their losses are terrific. The Allies' lines, however, are still intact and the Germans are not able to break through. Still up their march to Paris and are within forty miles of the city. Paris has immense fortifications eleven miles out. Surrounding buildings have been destroyed to allow the French artillery to have a clear swing and if the Germans break through it will be at an incredible loss, which they cannot afford.

In Brussels sounds of revelry were again heard by night but it was the Kaiser gloating over the thousands of dead. In Galicia there is a big battle on between the Russians and Austrians in which the former appear to be winning.

The number of British killed and wounded is the total number of the fighting so far.

#### ALLIES' LINES STILL INTACT-- BRITISH MAKING GREAT FIGHT

The News - 12:30 noon Sept. 2.—The Times produced a great quality of efficiency. One story says that a British force mounted quick-firing guns behind bags of potatoes which German helmets were placed. The killed a huge number of Germans by this ruse.

#### REGIMENT WAS DESTROYED BY ALLIES

Wounded—Fifty-seven officers and 629 men.  
Missing—Ninety-five officers and 4,183 men.

#### GUNS ON EIFFEL TOWER TO GET AEROPLANES

#### GREAT BRITAIN EXPECTS WAR WITH TURKEY

Washington, Sept. 2.—Great Britain has asked the United States to take care of its diplomatic interests in Turkey in case of a declaration of war against the Allies by the Porte, which is momentarily expected.

#### RUSSIANS CLAIM GREAT VICTORY

Paris, Sept. 2.—The Colonial News publishes a dispatch from Rome stating that the Austrian defeat in Galicia has been colossal. Trains transporting tens of thousands of wounded are being hurried from the front to the rear. Many Austrian regiments have been destroyed.

#### DROPPED ANOTHER BOMB IN PARIS

London, Sept. 2.—Lieutenant Faulkner, H. M. S. Larties, is to be added to the list of British wounded in the Heligoland naval engagement.

#### CENTRE ARMY IS HOLDING ENEMY LIKE BULLDOG

(Special to THE NEWS) Paris, Sept. 2.—"Our line is holding out like a bulldog in the center," said the minister of war today. He refused to make any further comments on the situation, but showed no trace of anxiety.

#### DEFEAT OF AUSTRIANS MEANS GENERAL INSURRECTION

(Special to THE NEWS) Paris, Sept. 2.—A dispatch to Bucharest says the Roumanian general staff considers that if the battle on the Austro-Russian frontier be decisive they believe the defeat of the Austrians will be followed by a general insurrection. Whatever the sacrifice, the Austrians will not fall back.

#### U. S. AMBASSADOR IN PARIS PROTESTS AGAINST BOMBS

(Special to THE NEWS) Paris, Sept. 2.—An American committee, organized by the ambassador, asked the French minister of war for proof of bombs being dropped in Paris by a German machine. The minister presented proof which decided the ambassador to cable his government a report on the war methods of the Germans, which are not only contrary to humanity but a violation of the convention at The Hague signed by Germany herself. The committee decided to ask the American government, while remaining neutral, to protest energetically to the German government.

#### CANON RIX ADDRESSES DAUGHTERS OF EMPIRE

Organization Held Afternoon Tea at Home of Mrs. Du Vernet—Patriotic Music.

The Queen Mary Chapter of the Imperial Order of the Daughters of the Empire held afternoon tea at the residence of the honorary regent, Mrs. Du Vernet. The Rev. Canon Rix, B.A., gave an inspiring address on imperialism and the cause and effect of the war. The meeting was largely attended and the ladies very much appreciated the remarks made by the speaker.

Miss Chase-Brown, L.R.A.M., played during the afternoon the national airs of the different allies. The house was gaily decorated with flags—the Union Jack being the most prominent—while the flags of Canada, Scotland, Ireland, Belgium, France, Russia, Serbia and Japan were in evidence. Mrs. McB. Young and Miss McTavish presided at the tea table and were assisted by the officers and members of the chapter.

(Special to THE NEWS) Rome, Sept. 2.—A despatch says the Turkish army has mobilized and the first line will consist of two hundred thousand men.

#### GERMANS 40 MILES FROM PARIS IN SPITE OF CRUSHING DEFEAT

WOUNDED SERGEANT TELLS OF WITNESSING TERRIBLE GERMAN DEFEAT—DEAD LYING YARDS HIGH ON FIELD.

Special to The News - 12:30 noon Paris, Sept. 2.—Immigrants from Crepy and Envalois, in the Department of Oise, 23 miles southeast of Compeigne, report that the Germans were crushed near there, and piles of dead bodies are lying yards high. A sergeant wounded there witnessed, he said, the annihilation of a German division by the French artillery. Reports of the refugees indicate that the Germans are now fighting at Compeigne in Oise, which is much closer to Paris than Laferre, where last reports had them. The Germans are evidently still advancing and are now about forty odd miles from the city.

#### RUSSIAN INVASION WORRIES BERLIN—PLANS IN THE EAST

VICTORY FOR RUSSIANS OVER AUSTRIANS MEANS A MARCH ON TO BERLIN—IMPORTANT BATTLE PENDING.

(Special to THE NEWS) London, Sept. 2.—The following summary of the Russian operations make clearer the situation on the eastern frontier of Germany and Austria.

There are four main theatres of war, two concerning the German and two the Austrian army. The first Russian advance is in the east of Prussia. This probably is the least opposed because of the two German reputes and the most distant of approach. A Berlin Russian advance might be expected, though not expected to be so rapid as the second advance of the Warsaw army over the frontiers of the Prussian province of Posen. Here, on the shortest Russia route to Berlin, the first most important natural obstacle is a network of lakes and marshes. These seem to have been surmounted by the Russians.

Progress in this direction cannot be pushed much farther until a Russian success is assured in the third operation. The third sphere is south of Russian Poland, where a large Austro-Hungarian force, acting under German direction, has taken the offensive over a wide front. Last week it seems to have obtained a considerable victory at Krasnik, pushing on to another battle fought at Lubin, where the Russians claim to have won the fortunes of war.

This field is of special importance because sufficient Austro-Hungarian successes would cut the Russian lines of communication through Poland, and so interfere with their progress toward Berlin. The fourth sphere is where the Russians have invaded Galicia, striking Lemberg across this region. This is not so important for the main strategy, but will have a considerable moral effect on Austria.

#### CROWN PRINCE STARTED THE WAR PREDICTS BETTER TIMES

Emperor So Angry at Situation on Return He Struck Son, Says Story

New York, Sept. 2.—A cable from Paris to the American tells this unusual tale:—Crown Prince William of Germany, always bellicose, not his august father, set the nations of Europe at each other's throats, according to a graphic story which comes here from Berlin.

When the Kaiser, returning to Berlin from his cruise in Scandinavian waters, learned the position in which his beligerent heir and the war party had placed Germany—a position from which it was impossible to withdraw without compromising the empire—he flew into a terrible rage.

Summoning the Crown Prince, his father upbraided him frightfully, and at the height of his fury actually struck his son in the face.

So overcome was the Kaiser by the force of his passion that, exhausted, he sank in a chair and the painful scene ended.

While the Kaiser was off the coast of Norway, the Crown Prince busily co-operated with the most aggressive militarists. They found a way to declare war against Russia, which, superficially at least, afforded a specious pretext. Returning, the Kaiser found it was impossible to repudiate what had been done without humiliating himself, the Crown Prince, and the empire in the eyes of his allies; indeed, of all Europe.

Under the guise that they wanted him to act as a guide, David Green, aged 60, of Bedford Mills, near Kingston, was arrested by the police, charged with a serious crime by one of his daughters.

#### RUSSIANS ADMIT THE REPORTED GERMAN VICTORY

(Special to THE NEWS)

Lodon, Sept. 2.—St. Petersburg officials frankly admit the disaster to two army corps, including the loss of three generals. This probably refers to the claim of the Germans of a victory in East Prussia, where they claimed the capture of 70,000 Russians. Following the Russian successes against the Austrians in Galicia, the latter prepared to evacuate Lemberg.

DAILY EDITION

Wednesday, September 2

It is safe to say that no event which has yet transpired has had any deciding effect on the war. Indeed should the Germans take Paris they would only then be just beginning. This is a fight for race superiority. It is a fight to determine whether autocracy or democracy shall rule and in that struggle Britons will win or die. There will be no temporary or make-shift peace. It must and will be fought to a finish. The entire resources and strength of the British Empire will be thrown into the fight. Britain has always been noted for a slow and unsuccessful beginning. Her people have not lived for a military career but once they do get in they are hard to stop.

The next few weeks will likely determine the length of the war. A telling victory for the Allies might compel the Germans to sue for terms, while

a victory for the Germans would only mean a prolonged conflict. Should this happen it will mean that Britain will have to put a million men in the field. The chief difficulty in the way of that will be the supply of arms and accoutrements. In that respect Canada can help considerably. They can induce some of the big American arms companies to open branches in Canada to manufacture guns and other requisites and duty could be taken off the products required. This is one of the best ways for Canada to help at present and it is to be hoped they will take it up. Besides supplying the needs of the army it would considerably help trade in this country.

The recent drowning in the harbor shows the value of everyone taking the course now being given through the St. John Ambulance Association.

The man was only in the water for a very few minutes when first seen and had the needed care been taken his life might have been saved. There seems to be a foolish notion among a lot of people that a man found dead should not be interfered with until an officer appeared. In this case the order was given by a body of soldiers and those in attendance naturally did not want to interfere with that order. When a life is at stake nothing should be left undone to render immediate assistance.

The opening of the G. T. P. service through to the coast will give a feeling of relief to every man in the city. With a trade route open to the East there is every chance for this city to prosper. Under other circumstances a big celebration would be in order but as it is the best way is to go quietly about our business and make the best use possible of this great outlet. The difference in trade should be felt at once if every business man will show a little progressive spirit. Trade doesn't come begging to one's back door. You must go after it and if Prince Rupert's business men will do this there will be good times for all in sight.

## STEEL GALENA AT THE SUNRISE MINE IS GOOD

Large Quantity of Very Fine Ore On the Dump and in Sacks Taking Out Rich Ore Right Now

(Omineca Herald)  
The Sunrise is doing pretty fair work since the fine weather set in. They have a lot of very fine ore on the dump and in sacks. That which has been taken out lately is a steel galena and a beautiful sample at that. Good judges say it is the finest ever seen in this section. So soon as what is now out is sacked the mine will have to close, unless shipping instructions come forward. In case the ore is held it will have to be housed for the winter. If the prices change for the better and the smelters say so, then the ore will go forward at once.

The snow is off the ground in the interval since last report, exposing a ledge from six to ten ft. wide, carrying a good grade of silver-lead. This ledge will receive attention presently.

## BRITAIN'S POOR FOOD LAWS

British Authority Says People Are Defrauded of 300 Million Yearly Through Adulterated Food

London, Sept. 1.—The United States' pure food laws are held up as a model by Mr. A. Moore, secretary of the British Pure Food and Health Society, who upbraids the Briton for his apathy along this line. The British public, he says, is defrauded of over \$300,000,000.00 annually through adulterated foods, yet refuses to take the slightest interest in protective laws.

"In this country," asserts Mr. Moore, "the people seem to prefer to go on having plaster of paris in their flour, foreign fats and unwholesome preservatives in their butter, imitation cream, cheese with the rind made of barytes and talkw, re-dried tea leaves instead of tea, chicory instead of coffee, starch and powdered bean shell instead of cocoa, French chalk masquerading as rice, water and salicylic acid as wine, and so on ad nauseam."

Besides adulteration, Mr. Moore charges that the people also tolerate filthy ways of handling foods, such as carting meat uncovered through the streets.

Seven boys between the ages of 11 and 14 years were in the Montreal juvenile Court last week for crimes that would have sent adult offenders to long terms in jail. A boy of 15 is supposed to have forced the others to steal at the point of a revolver.

### BEEF EIGHTEEN YEARS OLD

London, Sept. 1.—A quarter of beef kept for eighteen years in cold storage was exposed to the public view for an hour and a half at the Smithfield markets recently.

No tests was made of its eating qualities, but the meat appeared perfectly sound, although slightly f. It was put back into storage to remain an object of curiosity, the owners hoping it may be allowed to complete a century, at least.

The quarter was shipped from Brisbane, Australia, in February, 1896, to a firm of military contractors at Malta, who used it for experimental purposes. When the Government recently took over the storage at Malta, the firm shipped the piece to London.

The system of refrigeration employed during this period was brine circulation produced by an ammonia compression machine.

Special to THE NEWS)  
Berlin, Sept. 2.—(By Wireless to Sayville, N.Y.)—The Germans claim a great victory over the Russians, defeating three Russian army corps and taking over

Two Russian Generals were captured along with three hundred officers and all the artillery of the Russian army operating in the district.

## ANOTHER VERSION OF FIGHT AROUND ST. QUENTIN DISTRICT

(Special to THE NEWS)  
Washington, Sept. 2.—The German Embassy here has received a report to the effect that General Von Buelow has defeated the French force at St. Quentin. After capturing a British infantry battalion, General Von Hausen forced back the French at Ethal.  
Monty garrison and fortress have been captured by the Germans.  
A British despatch Sunday stated that on Saturday the German corps under Von Buelow had been forced by the British to retire from St. Quentin to Chimay over the Belgian border.

## LEFT WING ALLIES RETIRED SOUTH SITUATION UNCHANGED

(Special to THE NEWS)  
Paris, Sept. 2.—On our left wing, as a result of a turning movement by the German army in order not to accept battle under unfavorable conditions, our troops retired toward the south. Southwest, in the region of Rethel, our forces arrested the enemy momentarily on the center right. The situation remains unchanged.

## CRUISER NURNBERG NOW AT HONOLULU ---PACIFIC IS SAFE

(Special to THE NEWS)  
San Francisco, Sept. 2.—The British Admiralty cable says the Pacific is now safe for shipping. The German bark Barmbek which sailed from here in April for Queenstown, was caught at Brest as a prize of war.  
The German cruiser Nurnberg is at Honolulu today.

## PARIS WAR OFFICE ALSO PUT ON LID

Paris, Sept. 2.—That the French have checked the German advance in the north is announced in a censored dispatch. The dispatch says the censorship on all news of military operations in Northern France has become exceedingly strict. The afternoon papers of Paris came out with all reference to the progress of military events blocked out.

## REJOICING IN ANTWERP OVER FRENCH VICTORY

## ASKED FOR ARMISTICE TO BURY GERMAN DEAD

London, Sept. 2.—The Evening News publishes a dispatch from a French chauffeur to the general staff which says the German advance has been checked by their terrible losses during the last few days. ## REDMOND BRINGS UP PARTY FEELING

London, Sept. 2.—A regrettable party feeling occurred in the Commons yesterday when the Premier moved to adjourn for ten days.  
Premier Asquith, referring to the Irish question, expressed once again the hope that it might be possible, without a revival of the acute controversy, to arrive at something in the nature of a settlement.  
Redmond was conciliatory in the opening but his tone hardened when he asked that the circumstances of the war should not endemify his party position, on which he stood. He finally asked all sections to take such action as would enable him to go back to Ireland and translate the election spirit of the words recently used by him in the House.

## PREDICT BRITISH WILL MAKE REAR ATTACK ON GERMANS

New York, Sept. 2.—The Dow Jones Company stock market wire reports that the London censorship was tightened at noon yesterday, holding up many messages regarding the operations in France and Belgium.  
It is believed here that the British propose a rear attack on the Germans by a large force which has been landed at Ostend.

## Wearmouth-Brand.

The marriage of two of Prince Rupert's popular young people yesterday was the making of a very pretty event. It took place at 3 o'clock in the afternoon at the Anglican Church, with Rev. Canon Rix officiating.  
The groom was Capt. C. W. Wearmouth, of the G. T. P. steamer Prince John and the bride is Miss Kate Brand, a daughter of Mr. and Mrs. C. E. Brand, and a very pretty and charming young lady.

Many guests assembled at the church and at the appointed hour the bride was given away by her father. The bridesmaid was Miss Nora Brand, a sister of the bride and the groom was supported by Mr. Miles Henderson. After the marriage ceremony a reception was held from four to six at the home of the bride's parents, where many went to offer best wishes to the happy young couple.  
The bride carried a bouquet of pink and white roses and lily of the valley. The bridesmaid's bouquet was of white carnations and lily of the valley.  
Among the many handsome gifts was a cabinet of cutlery from the officers and crew of the John.  
The bride and groom left in the evening on the Prince John for a trip south. At the wharf a host of friends were present to give them a merry start on life's journey. Colonel McSpadden, of the Irish Fusiliers, took a prominent part in the organizing of the assembly. As the boat pulled out the bride and groom were given three hearty cheers.  
Among the guests were Canon Rix, Captain and Mrs. McCoskrie, Captain and Mrs. Groves, Captain A. Slocomb (uncle of the bride), Captain D. McKenzie, Mr. and Mrs. Cawley, Mr. and Mrs. Munro, Mr. and Mrs. Reilly, Mr. and Mrs. Godenrath, Mr. and Mrs. Miller, Mrs. Stephens and Miss Stephens, Miss Boston, Mr. and Mrs. Jackson, Mrs. Roberson, Mr. and Mrs. Dalton, Miss Campbell, Miss Walker, Miss Hardy, Miss Fayle, Mr. and Mrs. J. A. Smith, Mr. Parkin and Mr. Newy.

## TEA MEN FACE GREAT DIFFICULTIES

"If the embargo is lifted it will certainly have a good effect on the tea trade, for as it is we will have no tea in three weeks or less," said the manager of the 'SALADA' Tea Co. when told that a cablegram stated that the tea embargo was to be raised, "although we are cutting down all orders to the smallest possible dimension. For instance, we had orders from Detroit last week for 42,000 pounds. We cut these down to less than 20,000 pounds—so throughout the United States as well as Canada. If it is a fact that the embargo is to be taken off it will still take five weeks to get tea here from London, and it may take very much longer, because of the difficulties of getting steamers to carry.  
"To be sure we have lots of difficulties with which to deal besides the embargo—freights have nearly doubled—war risk insurance—the impossibility of obtaining exchange on London, which none of the banks here have to sell—at least, they had not two or three days ago when we were trying to buy.  
"To add to our troubles, on Friday last we received a telegram stating that the S.S. Kee-long had arrived at Boston with a lot of tea for us which we hoped to have rushed here, but the American Express Co., who were to rush the shipment up here, advises us that the steamship company is holding up the whole cargo. We have other teas on the City of Norwich and the City of Durham, both of which are some place in the Mediterranean, but away behind time.  
"As to the future of tea—we are just as much in doubt as though we were not in the trade at all. We have never had so much worry and trouble in our forty years' experience. This has been brought chiefly about by abuse from our customers for not delivering them their orders in full, when we positively have not the tea to deliver.  
"The public can depend on the 'SALADA' Tea Co. serving them as it has for twenty-five years back, with the finest quality of tea at the very lowest price at which it can be sold"
