GERMANS CRUSHED ALLIES HAVE THEM ON THE RUN --RETREATING

RUSSIANS DEFEATING AUSTRIANS IN RETREATING MOVEMENT

Washington, D. C., Sept. 14.—(Special to The Daily News—12 Noon) The Russian army has defeated the Austrians at Opole and Turobin have been taken by our troops after a stubborn battle and fighting continues along the line from Rawa and Rusk to the River Dnieper. On the east front the Germans continue to advance. Their main effort seems to be directed toward the region of Mazur Lake, near Myshinetz and Herjele. Our troops repulsed the Germans, inflicting heavy losses at the two last named points on the east of the Russo-Prussian frontier southeast of Orenburg.

THREE ARMIES FORCED TO RETREAT AFTER ATTACK

THE ALLIES ATTACKED ANGLo-FRENCH CENTRE BUT WERE FORCED TO FALL BACK AND THE ALLIES TOOK OFFENSIVE.

Wurtemberg were hurled against the Anglo-French centre. They could not break in, however, and then the Allies took the offensive and forced the German attackers there to retreat.

MY PICTURE OF AUSTRIA

armies, Openly Mutinous, Beaten by Russians at Every Point.

on, Sept. 11.—The correspondent of the Daily Mail in Vienna has lately been in Vienna and gives a gloomy picture of the empire. He says:

the rules in Austria. The unwieldy and bankrupt emperors dragged reluctantly at the reins of a state that is a mere muddle and fear, half-hearted at first, now openly mutinous, are being driven back by the Allies.

The policy of mixing in each other the different elements which compose the empire and the result that there is no esprit de corps in the army. The men were driven into the point of the bayonet and were shot by their officers to terrorize their fellows.

the Russian avalanche on Bosnia is in open retreat. Trieste paralyzed by fear, attack from Serbia is banked, is at a standstill and the hands of business men are paralysed by a war which they hate.

Vienna is menaced by the army and prices are steadily rising. In resentment the popular has turned against the emperor and Serbia have been pieces in the streets. Two newspapers were shot by the police and foreign journalists are now on.

utter fear, the government begun to fortify Vienna, and attempts have been made to large tracts of low-lying ground around the city. Riots have broken out in many towns, and to the terror of the Cossack and the will be added those of revolution and famine.

GERMAN CENTRE ON RUN FULL ARMY IN RETREAT

Vancouver, Sept. 12 (Paris via London).—It is officially announced that the German centre was retreating yesterday, as well as the right wing already pushed back by the British.

GERMANS DEFEATED AT EVERY POINT NOW IN RETREAT

Washington, Sept. 12.—The French embassy has received a message that the First German army continues in retirement. Three German army corps were repulsed last night between Villers, Collette and Soissons. In the Second army the Tenth corps and the Third German army is retreating in Champagne. After a hard fight the Fourth German army was pushed back to the north of the Trois Fontaines forests and the Fifth German army was thrown back by the French right wing. The Germans are thus retiring all along the line.

GERMAN ATROCITIES RECALL DARK AGES

Paris, Sept. 11.—A Havas agency dispatch from Petrograd says the official journal there publishes a long list of alleged cruelties committed by Germans on Russians who were in Germany when war was declared. Following the list this is added: "After the communication of these facts public opinion in all civilized countries will not fail to condemn German's behavior, which recalls the darkest period of the Middle Ages."

"BUSINESS AS USUAL," IS MOTTO OF BRITAIN

New Arrival From London Says Conditions Are Normal There. Opportunity for Canada.

Mr. Douglas Robertson, of London, England, has arrived in town. He came out for the special purpose of opening an insurance department in all lines for Harrison, Gamble & Company.

Mr. Robertson left England on August 20, and says that even then business in that country had become entirely normal. They have adopted the motto of "Business as Usual," and while determined to go on with the war are also determined in true British fashion to take advantage of the trade thrown away by the rest of Europe.

The paper money turned out in Britain is having a splendid effect in making financial conditions normal. The banks were closed to the public for several days after war was declared and the first day they were opened many millions more came in than went out. Mr. Robertson has samples of the pound notes and ten-shilling notes issued by the government and says there was a rush to secure them as souvenirs.

The response of Canada in the war, Mr. Robertson says, "brought Canada 3,000 miles nearer Britain." He says that the magnificent opportunity of Canada to take advantage of the trade of the world now going begging should be grasped at. There is far greater excitement in the war than in England over the paper but this should be dropped and go right after the business.

Mr. S. Harrison, who has been spending his honeymoon in England, is expected back in a few days.

ALLIES CRUSH THE GERMANS IN BIG BATTLE NEAR PARIS

COMBINATION OF BRITISH AND FRENCH CUT OFF A LARGE GERMAN FORCE AND TOOK SIX THOUSAND PRISONERS AND FIFTEEN GUNS.

London, Sept. 12.—A Central News dispatch states that the first and second divisions of the British army with the French cavalry and artillery cut off and defeated a large German force 66 miles north of Paris, taking 6,000 prisoners and 15 guns. The Germans are reported as demoralized. Fifty British cyclists wiped out a body of 150 German cavalrymen.

GERMAN ARMY NOW IN DIRE STRAITS FOR FOOD

London, Sept. 12.—The German army is in dire straits for lack of food. Ghent is unable to furnish the supply of foodstuffs demanded by the Germans, who are now pushing their column of 40,000 to 60,000 men toward Coutrai. The Belgian government makes this statement: "The provinces of Antwerp, Limburg and the whole of Eastern Flanders are free from the enemy. Our troops have reoccupied Termonde. The last engagement occurred in the vicinity of Termonde, costing the Germans serious losses. The German column from Melle is going in the direction of Oudenarde and attempted during the night to return northward, but finding itself checked at Ennane Heights turned southward. Operation was undertaken by our field army against the Germans by masking fortified position. Antwerp had the first result, which was continued at Aerchot, and inflicted important losses on the Germans. The work of our new field guns was decisive."

Mr. Douglas Robertson, of London, England, has arrived in town. He came out for the special purpose of opening an insurance department in all lines for Harrison, Gamble & Company.

Mr. Robertson left England on August 20, and says that even then business in that country had become entirely normal. They have adopted the motto of "Business as Usual," and while determined to go on with the war are also determined in true British fashion to take advantage of the trade thrown away by the rest of Europe.

FRENCH OFFICIAL STATEMENT SHOWS PROGRESS OF ALLIES

Paris, Sept. 12.—This official statement was just issued: "First, on the left wing our progress was continued north of the River Marne in the direction of Soissons and Compiègne. The Germans abandoned great quantities of ammunition and stores. Some were wounded and some prisoners were taken with their flag. The British army captured 11 guns and some important stores and have taken from 1,200 to 1,500 prisoners. Second, in the centre the enemy has given in on its front. In Rivigny the Germans on both flanks have fallen back from MArgonne. Notwithstanding the strain our troops were subjected to in the last five days' battle they still find energy to pursue the enemy. On the left wing in Lorraine and the Vosges, there is no change. In the Austro-Hungarian center the operations of the Austrian army which was defeated at Lemberg was unable to assume the defensive despite heavy reinforcements, it being repulsed on the front between Jalome and the Rawa Ruska River. On the Dneister the Russians are besieging the fortified town of Grodek. The Second Austrian army is being attacked near Tomaszow and are compelled to retreat. In the Austro-Serbian centre the Serbian troops have crossed the river at Shabats in Bosnia and have assumed the offensive in the district of Visegrad.

FRENCH ARMY CAPTURES ALL GERMAN ARTILLERY

London, Sept. 12.—According to an official announcement the Third French army has captured all the artillery of the entire German army corps. The enemy's retreat is reported by aeroplane to be very rapid.

Mr. G. Turner, an old-timer in the city and who spent the past several months up the line, is again in the city.

RUSSIANS TOOK FORTRESS AFTER SUDDEN ASSAULT

Petrograd, Sept. 12.—Tomaszow has been taken after a desperate fight. The German troops near Myszynek and Chorzele, in Russian Poland, were repulsed with heavy losses. The Russian forces took by assault the fortified position of Opole, Tourbine, in Russian Poland, and pursued the enemy a distance of 25 miles. The Russian cavalry is still driving the rear guard of the enemy. The Allies continue to force the Germans to retreat. The British captured 11 guns and many prisoners.

POWERS TELL TURKEY TO STAY WITH TREATIES

Paris, Sept. 12.—It is announced from Constantinople that the foreign ambassadors, including the German representatives, have informed the Turkish government that the Powers will not accept the abolition of the treaty rights accorded to foreigners.

NOT FRENCH BUT GERMANS WHO USE DUM-DUM BULLETS

Bordeaux, Sept. 12.—President Poincare has cabled President Wilson as follows: "Mr. President—I am informed that the German government has sought to surprise Your Excellency's good faith by alleging that dum-dum bullets manufactured in a French state factory were used by our soldiers. This calumny is but an audacious attempt to reverse the roles, since Germany since the beginning of the war used dum-dum bullets and violated daily the law of nations. On August 18 and several times since we have had occasion to bring these acts to the notice of Your Excellency and the Powers signatory to The Hague Convention.

FRENCH ARMY CAPTURES ALL GERMAN ARTILLERY

London, Sept. 12.—According to an official announcement the Third French army has captured all the artillery of the entire German army corps. The enemy's retreat is reported by aeroplane to be very rapid.

Mr. G. Turner, an old-timer in the city and who spent the past several months up the line, is again in the city.

DAILY EDITION

Saturday, Sept. 12, 1914.

Everybody is aware of the vast difference between conservative business methods and the loose ways of the dashing speculator. The hard-headed man of business is never caught napping. He is always master of the situation and no stress or panic can seriously interfere with his success. The speculator, on the other hand, makes for larger dividends. In times of prosperity his wealth often doubles and trebles several times during the year. He is, however, very much like the man who hurriedly built his house upon the sands and when the storms and the winds of adversity began to beat upon it it fell and great was the fall thereof.

This two ways of doing business is not confined to individuals. Corporations can do likewise and some of Prince Rupert's ventures seem to clearly illustrate the man who built his house upon the sands. During this year the City Council instead of conducting the affairs of the city along sane and business lines took a long chance on the future and if the city is not seriously embarrassed it is entirely because it has a "solid rock" foundation. In the first place, instead of providing money to take up the certificates of a million and a half due in a few months and for which a splendid offer was given, they dilly-dallied until

it was too late. In the next place, they turned down at least a reasonable offer to supply temporary power to the city and jumped into building a costly municipal plant. Had they had a real stroke of luck this might have been successful, but it was speculation and not business and, the way things turned, very had speculation at that.

Besides this miscarriage of their plans, what a boon it would be to Prince Rupert today to have a strong company outside our gates and deeply interested in our welfare. Besides supplying a large amount of labor they would be under necessity to induce industries to locate here in order to make a market for their power. This craze for city owned utilities is all very good but every little city cannot jump into great undertakings, and especially is this true of a city that has the physical problems to overcome that we have. Good luck might have pulled us out of this all right but, as a budding orator recently said, "You mustn't depend upon the Almighty to pull you out of all your scrapes." In this case the slang phrase of "biting off more than you can chew" is aptly applicable.

Will Prince Rupert learn the lesson and refuse hereafter to elect men who cannot be guided by the dictates of business? If she does not, then look out for squalls.

FARMERS URGED TO PLANT MORE WHEAT

Ottawa, Sept. 9.—A patriotic appeal to Canadian farmers to plant as large an area of wheat as possible this coming season has been made by the government.

The following statement was issued by the department: "The Minister of Agriculture is in receipt of a cable from Liverpool expressing the views of some members of the Liverpool Corn Exchange in regard to increasing wheat acreage for the next year. It is pointed out that the area likely to be sown to wheat in Europe would be seriously reduced owing to the mobilization of nearly twenty million men. The Dominion government is strongly impressed with the desirability of increasing the acreage in Canada. Apart from the practical condition that wheat next year will yield a large financial return to the growers, there is the great fact that Canadian farmers who, by extra effort, enlarge their wheat acreage are doing the best thing possible to strengthen the Empire in its day of trial."

GERMANS HAVE ABANDONED LUNEVILLE

Paris, Sept. 10.—A dispatch from Nancy states that it is rumored the Germans have evacuated Luneville. In commenting on the dispatch The Temps says it seems certain that the Germans have abandoned the heights surrounding Luneville.

NOW'S THE TIME TO LICK GERMANY IN TRADE WAR

Ottawa, Sept. 10.—Sir George Foster, Minister of Trade and Commerce, has issued an appeal to Canadian manufacturers to war situation to capture German trade, both in Canada and throughout the world. Sir George says, in part:

"For the British Empire, home and overseas, the instant pressing duty is to possess itself of a generous share of the production and trade lost to Germany and so to reap the advantages of a great industrial and commercial victory which shall in some measure compensate the country for the sacrifice of war. Not only should we fill to the greatest possible extent the void thus created, but we should make our position so strong in these markets as to secure ourselves from being ousted by Germany hereafter."

"Whilst a comparatively small number of our manhood fights the battle for Imperial existence and control of our ocean highways, those who remain should with spirit and energy throw themselves into the task of attacking possession of the markets from which our enemies have been driven and supply them with the products of our own fields and factories. Here is a peaceful field of operation in which we can carry out a bloodless but most effective and profitable warfare."

"First, let us fill as far as possible the call for the \$16,000,000 worth of goods with which Germany and Austria provided us last year and which will this year be absolutely debarred, and, secondly, what we cannot supply ourselves let us purchase from Great Britain and the other parts of the Empire. Let us covenant together to buy goods 'made in Canada,' 'made in Britain' and 'made in the Empire,' and thus shall we give employment and the profits of production to the Empire's home workers."

VETERAN WHO WAS WITH LORD ROBERTS

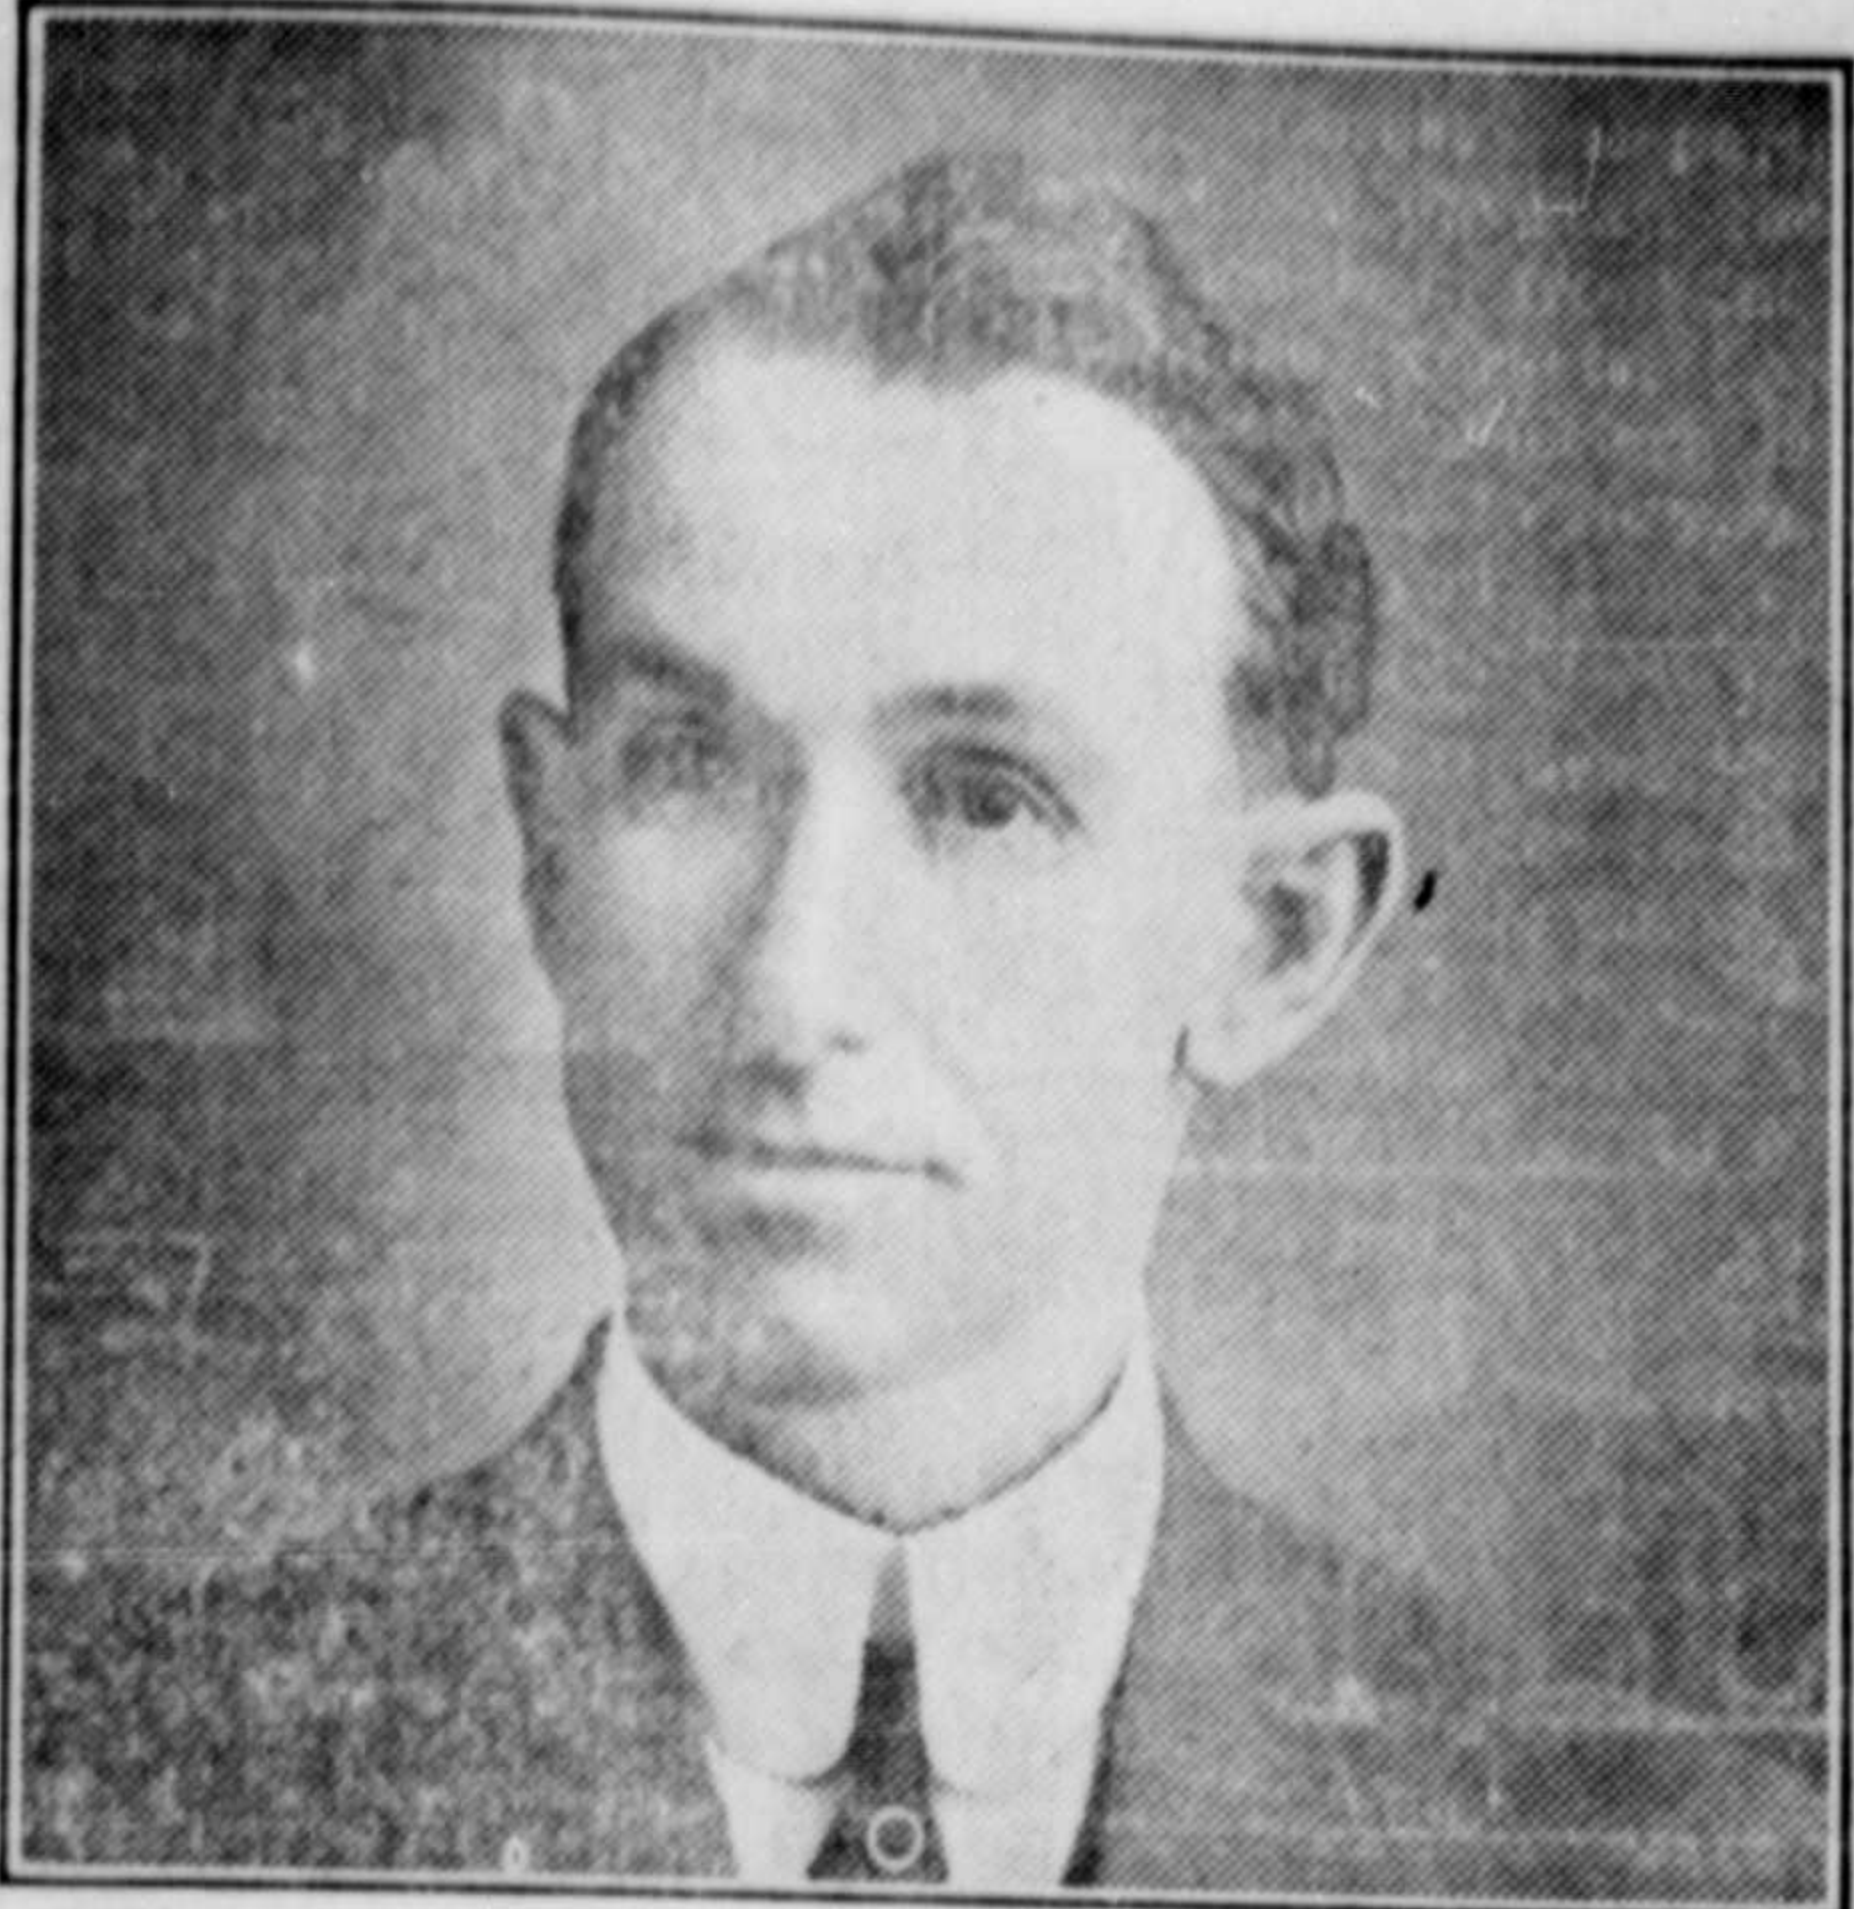

Laid Low With Rheumatism—But Cured By "Fruit-a-tives".

CHATHAM, ONT., APRIL 3rd, 1913.

I am a veteran of the Crimean War of the Indian Mutiny, volunteering in the Royal Artillery into the Royal Engineers, and served under Lord Roberts during the Indian Mutiny, and am a pensioner of the British Government. Fierce hand-to-hand fighting and continual exposure left me a great sufferer from Rheumatism, such so that my legs swelled up, making it impossible for me to walk. "Fruit-a-tives" cured me of the Rheumatism and Constipation. My regular employment, I walk my miles a day and enjoy perfect health.

TORTURED NO LONGER WITH ASTHMA

Sometimes, He Had To Sit Up All Night For Weeks At A Time—Suffered For 15 Years Until He Cured Himself With "Fruit-a-tives".

D. A. WHITE, ESQ.

21 Wallace Ave., Toronto, Dec. 22nd, 1913

"Having been a great sufferer from Asthma for a period of fifteen years (sometimes having to sit up nights for weeks at a time) I began the use of "Fruit-a-tives". These wonderful tablets relieved me of Indigestion, and through the continued use of same, I am no longer distressed with that terrible disease, Asthma, thanks to "Fruit-a-tives" which are worth their weight in gold to anyone suffering as I did. I would heartily recommend them to all sufferers from Asthma, which I believe is caused or aggravated by Indigestion."

D. A. WHITE

Asthma is a disease of the Nerves. It usually attacks those of a highly strung nervous system—those whose nerves are easily affected by any disturbance of digestion. This is why 98% of those who suffer with Asthma, also suffer with Indigestion, Dyspepsia or Constipation. In Mr. White's case, his Asthma was cured at the same time that his indigestion was cured.

Why? Because "Fruit-a-tives" acts directly on stomach, bowels, kidneys and skin. "Fruit-a-tives" cleans the whole system of the poisons that are irritating the nerves. "Fruit-a-tives" sweetens the stomach, insures sound digestion and healthy appetite. "Fruit-a-tives" is a positive cure for Asthma and Hay Fever.

MASSET NOTES

(Q. C. Islander)

A slight earthquake occurred on Friday morning about 7 o'clock. The tremor only lasted a few seconds and was the means of getting a few local people out of bed a little earlier than usual.

Capt. J. B. Gillatt, of Sandspit, has, we understand, offered his services to the military authorities in connection with the formation of a regiment on the Queen Charlotte Islands. It is proposed to form two companies, one at Queen Charlotte City and the other at Masset. Captain Gillatt was formerly a commissioned officer in the British army, and his offer to organize and instruct the proposed regiment, will, we hope, be granted by the authorities.

Fishing for cahoe salmon has been engaged in off the mouth of Masset Inlet and one fisherman is credited with having caught 32 salmon with a trolling line in one day.

The residence of Chas. Adam at Graham Center was totally destroyed by fire last Monday. The loss is estimated at \$500.

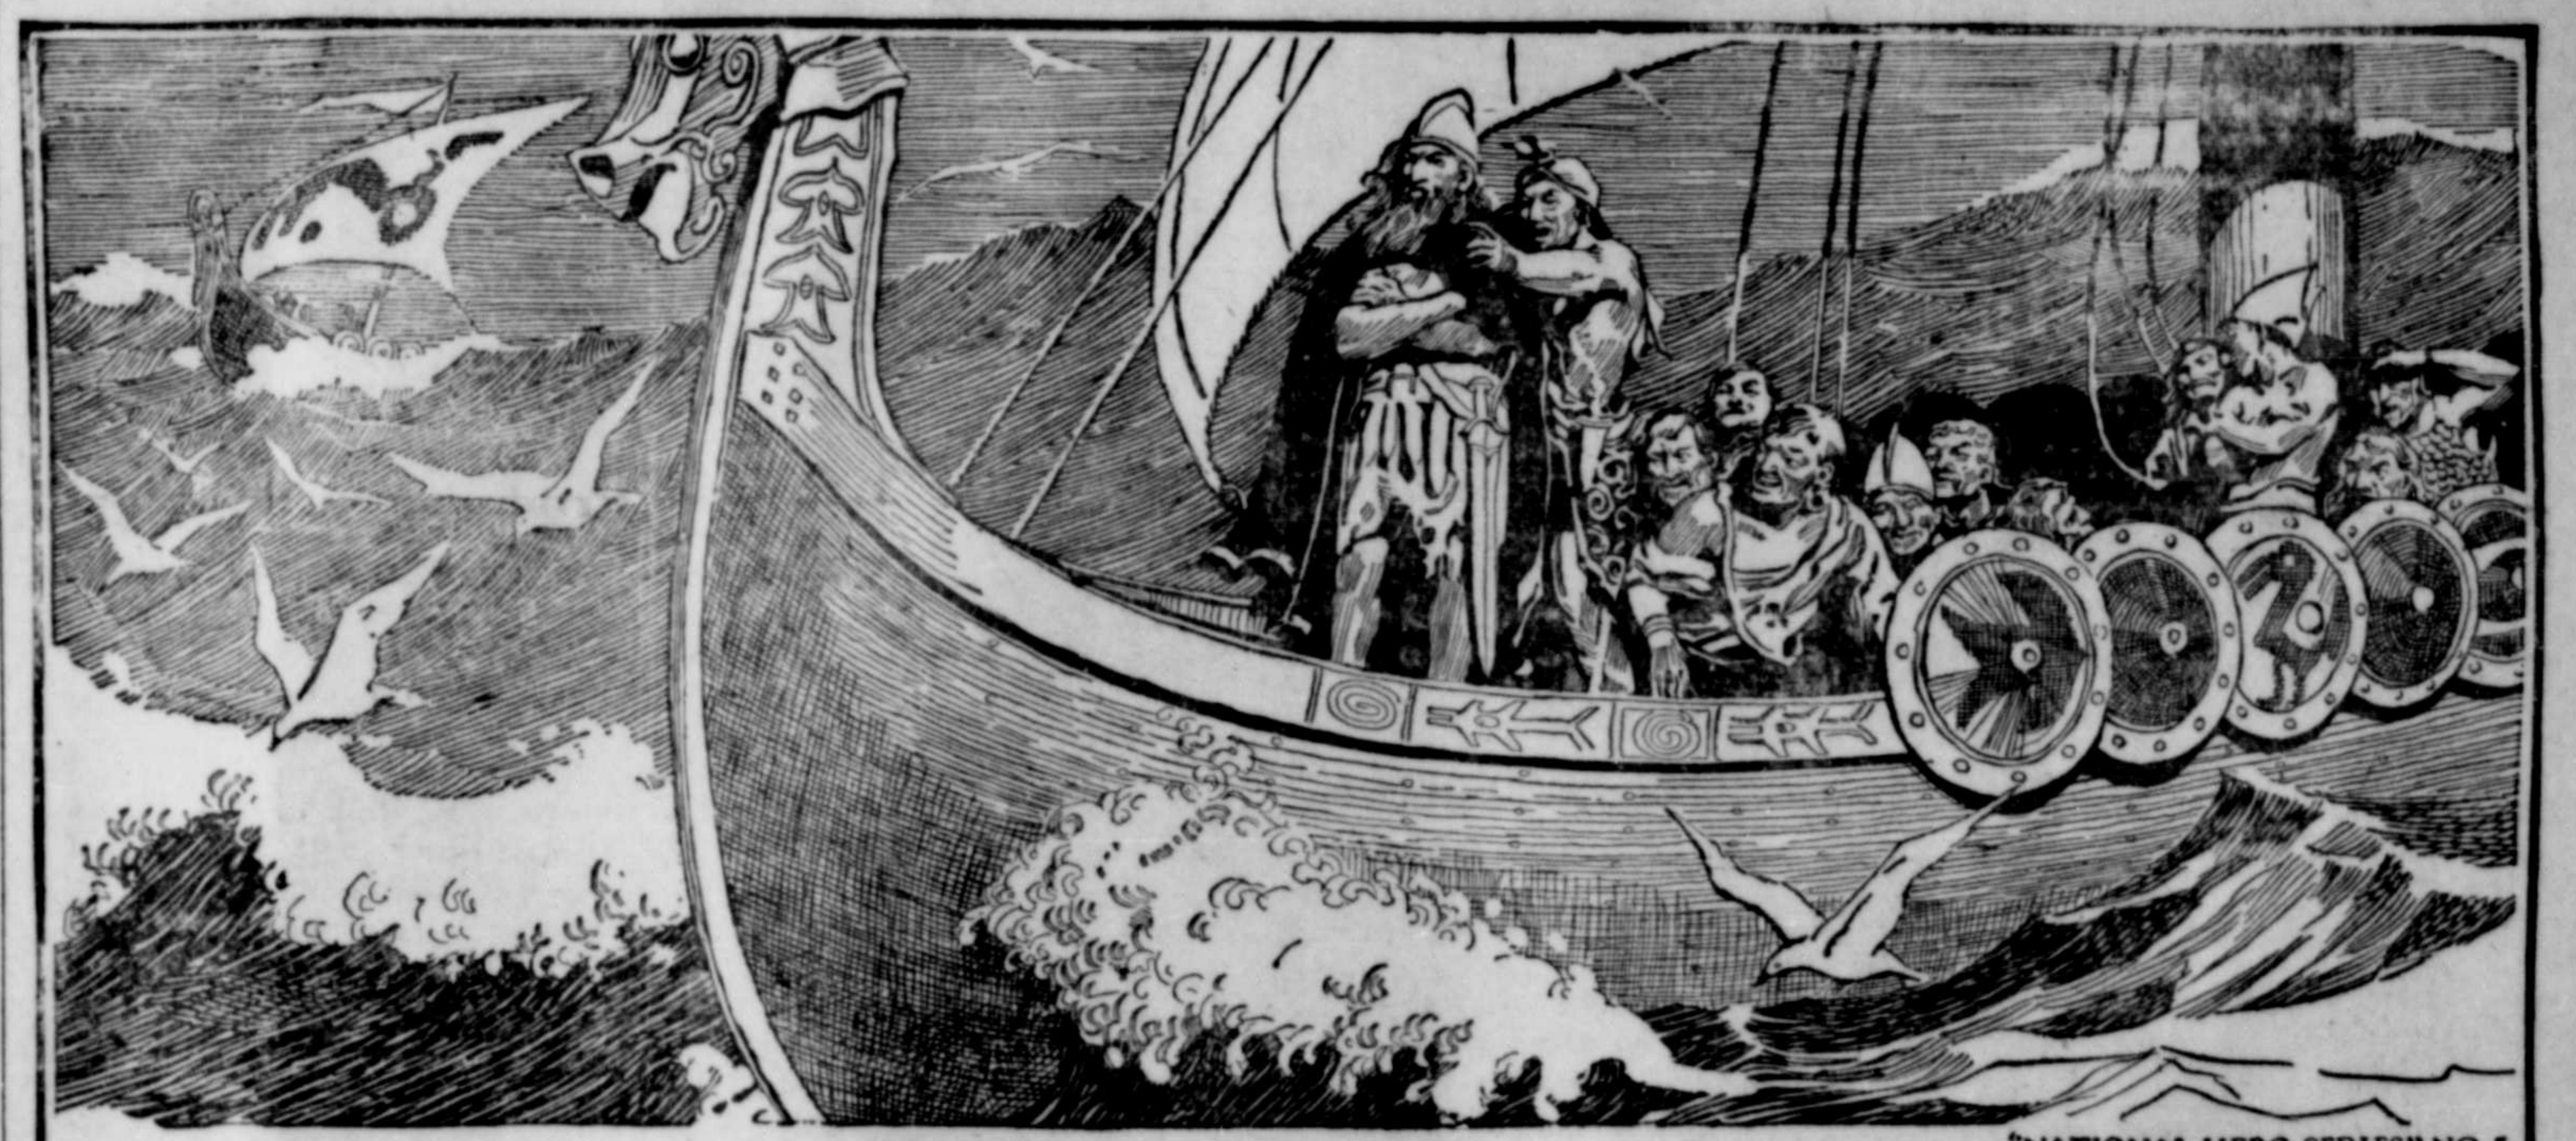

W. A. Brown, of Hydah, was married at Queen Charlotte City last week to Miss Lea Delucusse, of Kenmore. Mr. Brown is an old-timer on Graham Island and was among the first to locate near Lawn Hill.

The Massett and Skidegate Indians arrived at their reserves last week from the river canneries on the steamer Coquitlam, which was specially engaged to bring them home from the Oceanic cannery.

The Massett Indians have gone to their river fishing grounds to prepare their winter supply of salmon. It is their intention to smoke and salt a large supply and it is possible that a quantity will be prepared for export.

Dave Rutten, the well known Oeanda rancher, spent a few days in town this week. The settlers, he says, have all been busy putting up hay, and the crops are in excellent condition. Messrs. Vaish, Verheyden and Rutten are working on a big ditch, 10 feet wide and about 600 feet long.

During the week a flagstaff 64 feet in length was erected at Jas.

Leif Ericsson—The Discoverer of America

THE FIRST WHITE MEN to tread American soil were Leif Ericsson and his sea-dashed Viking crew. This was nearly a thousand years ago, when the Scandinavian peoples ruled the seas and held the secrets of navigation. The history of the fair-haired, liberty-loving sons and daughters of Sweden, Norway and Denmark is rich in song and story. We have millions of these splendid folk in our own land, and wherever the standard of Liberty and Human Progress has been raised they are found in the front rank, bravely fighting for the Right. Better citizens or greater lovers of Personal Liberty are unknown. For centuries our full-blooded Scandinavian brothers have been moderate users of Barley-Malt brews. Who can truthfully say it has injured them in any way? It is the ancient heritage of these peoples to revolt at Prohibitory Laws, and their vote is registered almost to a man against such legislation. For 57 years Scandinavians have been drinkers of the honestly-brewed beers of Anheuser-Busch. They have helped to make their great brand BUDWEISER exceed the sales of any other beer by millions of bottles. Seven thousand, five hundred men, all in all, are daily required to keep pace with the natural public demand for Budweiser. ANHEUSER-BUSCH - ST. LOUIS, U.S.A.

Both Boys Out to Win.

It is evident that the boxing bout to be put on tonight at the rooms of the National Athletic Association will be one of the fastest ever staged here. Both men have reputations to live up to. Barrieau is aspiring to the top notches in the fighting line and will fight for all that is in him. On the other hand, Hagen has scores to wipe out and hopes by beating Barrieau to get into higher class company as far as the ring is concerned.
