on, Sept. 15.—In the sev-
days' battle of the Rus-
sians against the Austro-German
army just ended the following
results: Prisoners taken,
field guns captured, 450;
artillery captured, 1,000
pieces; transport wagons taken,
4,000. Aeroplanes taken, 7.
The Russian embassy at Rome
says the German army command-
ed by General Von Hindenburg
has been defeated near Miawa,
with a loss of 50,000 men. The
Russians have commenced to lay
siege to Koenigsburg.

Petrograd, Sept. 15.—The fol-
lowing is the official War Office
statement: "On the Austrian
front the Russian troops are now
crossing the San River. On tak-
ing a position near the Rawa
Ruska the Russian troops captur-
ed 30 cannon and 8,000 prisoners,
besides an enormous amount of
stores, war material and provi-
sions. The results of the pursuit
of the enemy in this territory is
still unknown. In the marshes
of Belgoraiom the Russians found
more Austrian batteries sunk in
the mud and abandoned during
the flight. The general army
while repulsing the last desper-
ate Austrian attack took the offensive
and a great number of prisoners
and guns were taken, the total
number not yet being determined.
General Brussloff declares that
the troops gave proof of their

25,000 GERMANS HAVE SURRENDERED

(Special to The Daily News—1 P. M.)
London, Sept. 15.—The cor-
respondent of the Central News at
Dieppe transmits a report that
the German army under General
Von Kluck has been forced to sur-
render with 25,000 men.

GERMAN ARMY STILL INTACT BIG CLASH IS YET COMING

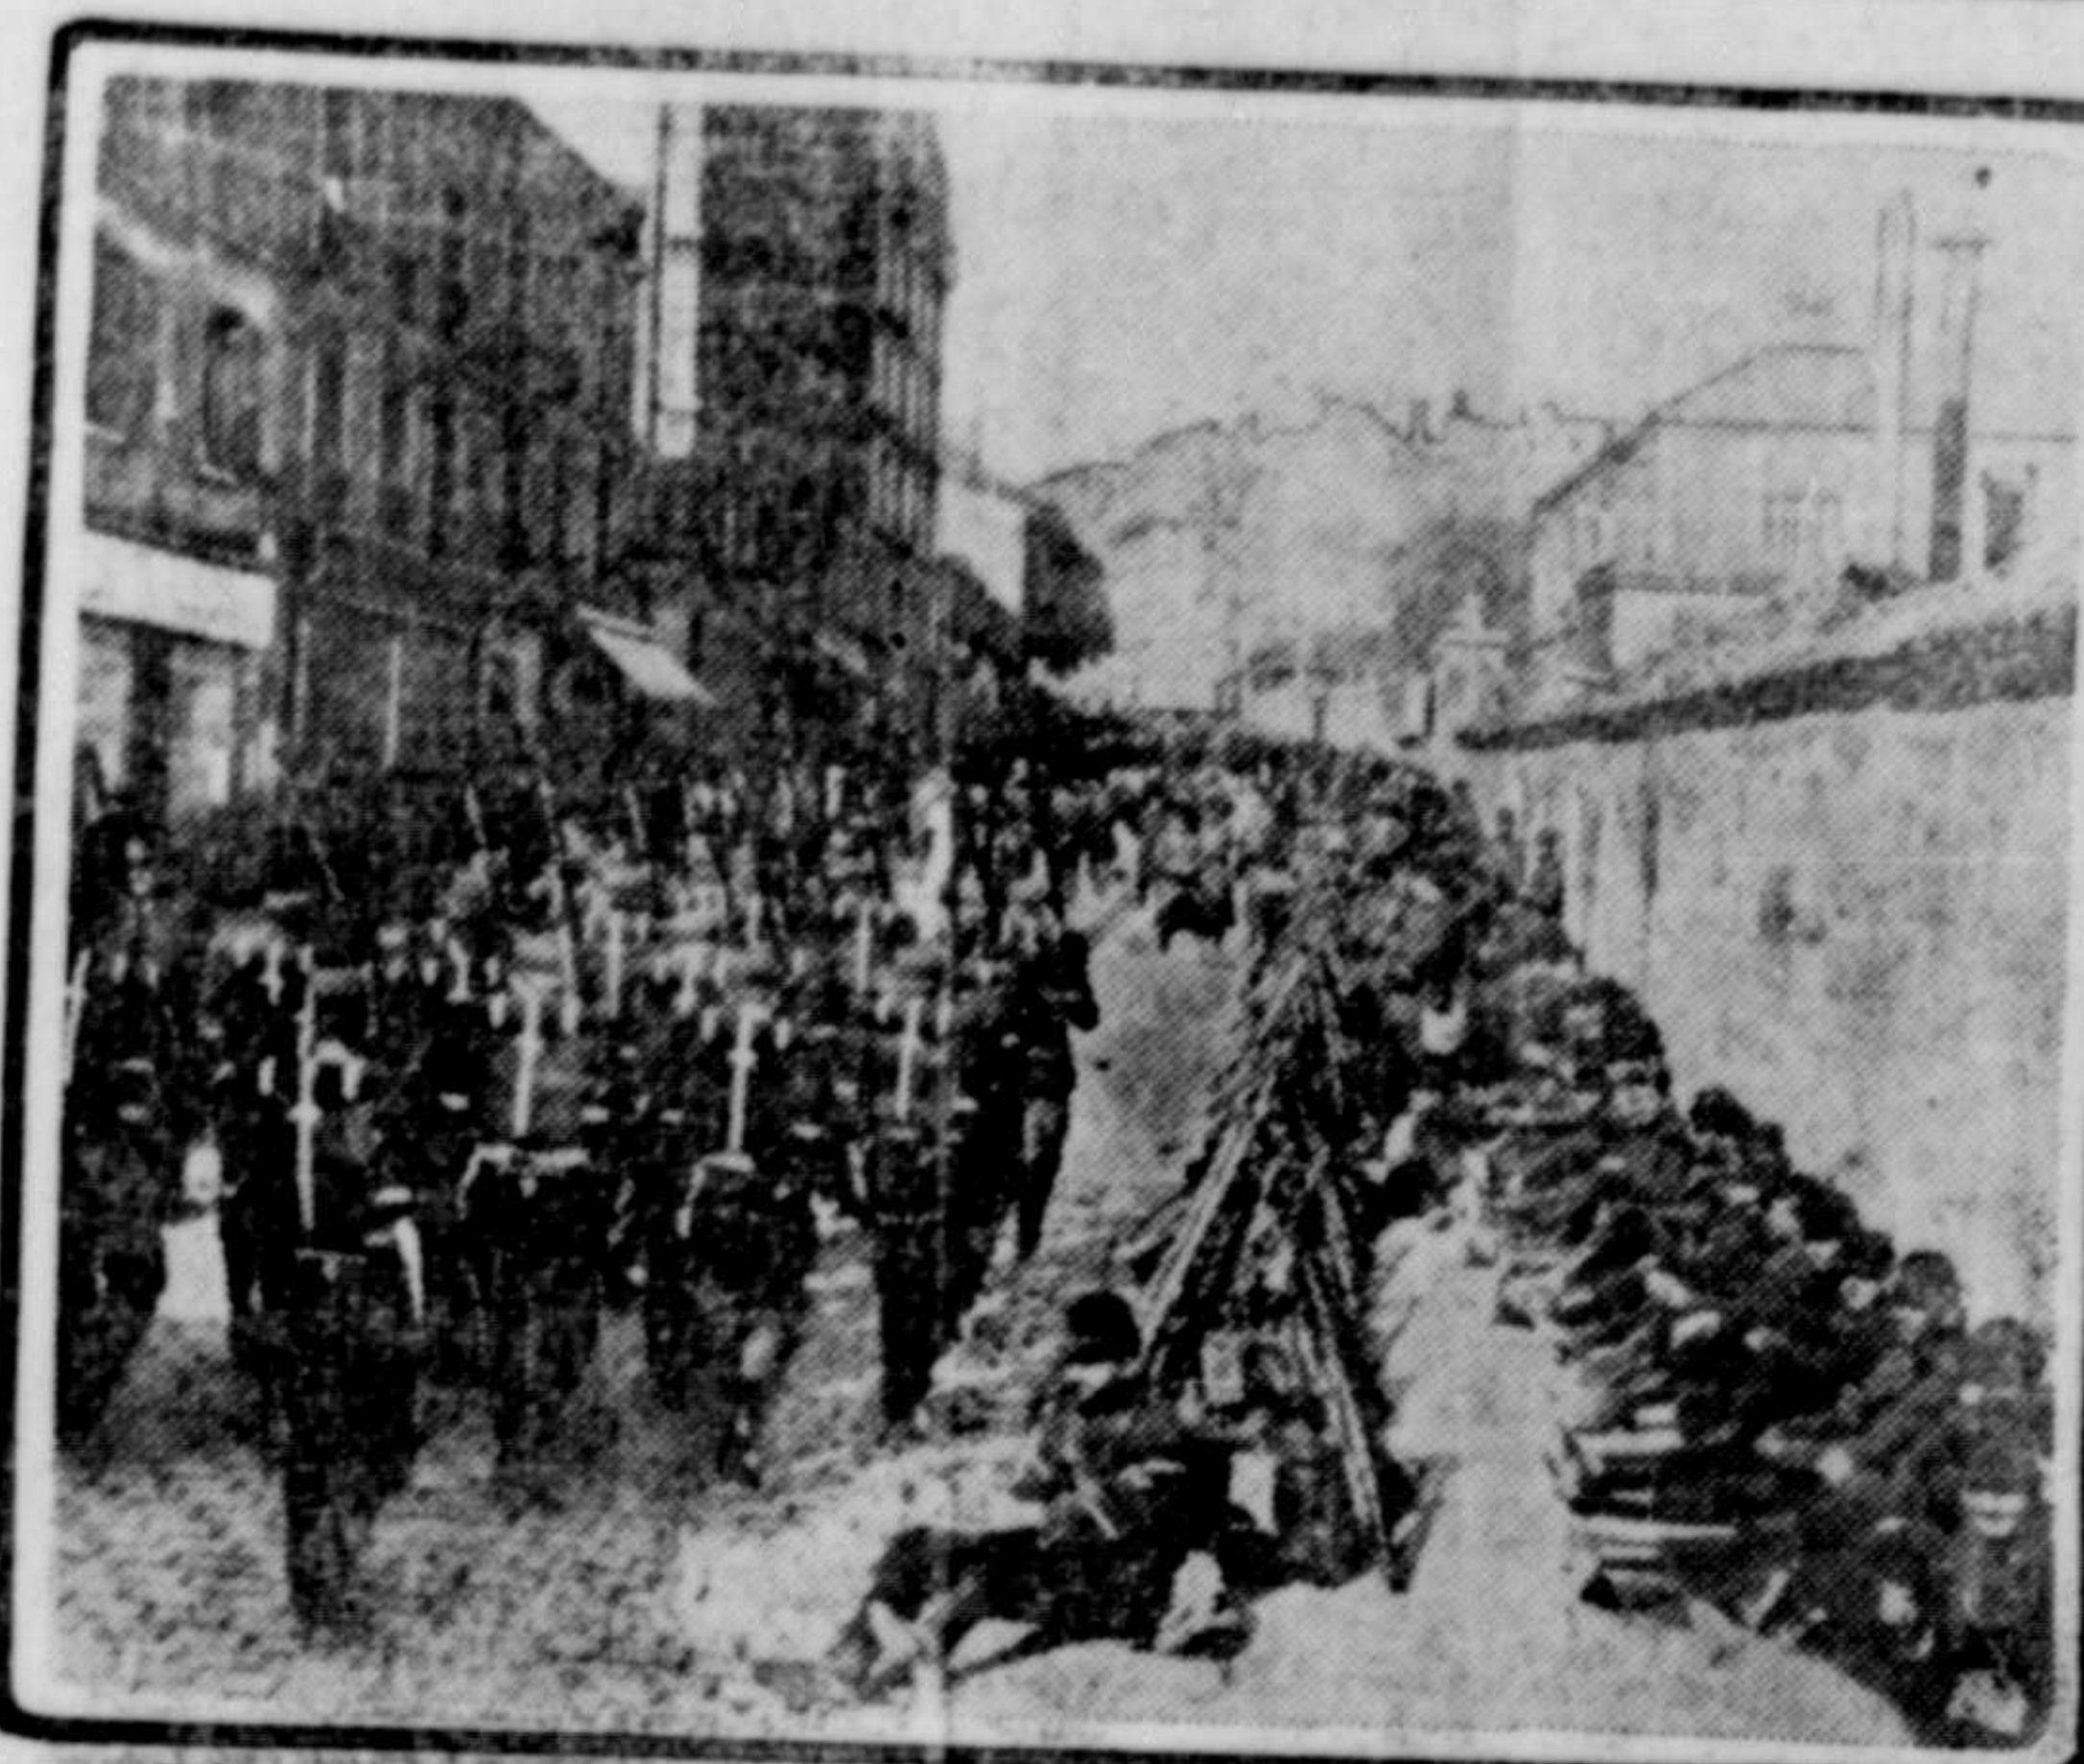

FIRST ROUND OF BATTLE OF MARNE WON BY ALLIES—
AS "BATTLE OF THE AGES"—ANOTHER BIG
CLASH BEFORE THE END COMES.

(Special to The Daily News.)
Sept. 15.—The first
battle of Marne,
numbers of fighting
and the extent of
terrible slaughter, is
perhaps correctly described as
"the battle of the ages," and ap-
pears to have been won by the
French and British armies but
the main German army is still in-
tact, and the supreme clash is yet
to come.

These are some of the first pictures taken since the outbreak of hostilities in Europe. The upper left picture shows one of the crack French regiments leaving Paris for the front. In the lower picture are seen some of the famous German Uhlans from whom so much has been heard in the first battles of the war.

NEW PONTIFF CHEERED ON FIRST APPEARANCE

Great Scene at the Vatican as He
Imparts Apostolic
Blessing.

Rome, Sept. 12.—After the Sac-
red College of Cardinals had
elected Cardinal Giacomo Della
Chiesa, Archbishop of Bologna,
Supreme Pontiff, to succeed the
late Pope Pius X., the Pope was
asked to present himself before
the people for the first benedic-
tion. He turned to Cardinal Mer-
ry del Val, Papal Secretary of
State, and said: "I hope I shall
have strength to overcome my
emotion."

Crowds outside clamored to see
the new Pontiff, and several of
the cardinals, including Cardinals
Farley, Gibbons and O'Connell,
tried to calm the assemblage to
obtain silence.

The excitement reached a cli-
max when the Pope finally emerg-
ed. He was alone, and a hush
fell over the multitude. All
kneelt, and the Pontiff raised his
hand, with three fingers out-
stretched, and imparted with me-
lancholic voice the apostolic bless-
ing. A great cheer rang out as
he turned to withdraw.

One of the brothers of the Pon-
tiff is an admiral in the Italian
royal navy, and another is a cap-
tain in the Italian navy.

EVERY CANADIAN CITY NEEDS A HOME GUARD

Germans in United States Said
to Be Well Armed—Plan-
ning Invasion.

Hamilton, Sept. 14.—Scout
Commissioner Heming, an ex-
alderman, who is busily engaged
in organizing a home guard here,
told a startling story this morn-
ing to a small army of German
reservists at Buffalo. "The feel-
ing in the German section there
is intense," he said, "and we have
information that there are 7,000
armed Germans in Buffalo alone,
who are better equipped than the
New York state militia. The cry
is often heard in German quar-
ters in the States, 'On to Can-
ada.' Every city in Canada, he
said, should have a home guard
to make up for the shortage that
will be felt in militia circles
when the second call comes for
troops to cross the water."

GERMANS FIGHTING FIERCELY IN E. PRUSSIA

(Special to The Daily News)

Petrograd, Sept. 15.—Instead of
the Russian troops capturing
Koenigsburg, they were forced to
retreat. Yesterday's official an-
nouncement admitted this. Gen-
eralissimo Grand Duke Nicholas
communicates the following:
"Our rapid movement in East
Prussia is retarded owing to the
necessity of giving our main at-
tention to fighting in Galicia.
Consequently General Rennen-
kampf suspended his march on
Gerdauen and Labimu. On Sep-
tember 7 the German troops be-
gan a general offensive against
this army and spread the move-
ment in the direction of their
southern frontier."

"SIR SAM" CANNOT REPLY TO THIS LETTER

Boy Wrote "Dear Lord Sam" Of-
fering "137 Cents"—For-
got Address.

Ottawa, Sept. 14.—Young Can-
ada is temporarily dropping its
pennies into the country's war
chest instead of into the mission-
ary box, and is contributing its
mite for the defence of the flag.
The Minister of Militia received
the following letter in his mail:
"Dear Lord Sam,—Will you
tell me how much money it takes
to send a soldier to the war? I
have 137 cents. I had a heathen
of my own to help last year. Let
me be told soon. I want to send
one for my own dear country."
(Signed) Willie Strong.

The young patriot put no home
address on his letter, and a for-
mal reply cannot therefore be
sent. The letter was addressed to
"Sir Sam Hughes, Minister of
War, Parliament (Private)."

FRANCE'S FOOD SUPPLY.

Assured by Home Crops and by
Imports From the States.

London, Sept. 14.—The French
police are very active in stop-
ping people on the street in order
to make sure that all foreigners
are provided with permits of re-
sidence and that no Frenchmen are
in Paris who should be with the
army, says the Paris correspon-
dent of Reuter's Telegraph Com-
pany. In one night they ques-
tioned more than 3,000 persons
in the Montmartre section of
Paris alone. Several suspects
were arrested.

It is said that despite Argen-
tina's prohibition of the exporta-
tion of corn, the French supply
is amply assured by the home
crops and imports from the
United States.

BELGIUM ARMY HAD NARROW ESCAPE

(Special to The Daily News)

Antwerp, Sept. 15.—Surprised
by a sudden offensive movement
on the part of the German forces,
the Belgian army commanded by
King Albert in person was forced
to retreat to Antwerp. The Ger-
mans apparently led the Belgians
into a trap, aiming to get between
King Albert's army and Antwerp,
but by hard fighting the Belgians
escaped. The losses on both sides
were heavy.

GERMANS PUSHED BACK— REAR GUARD ACTION ALL ALONG THE LINE

(Special to The Daily News—2:30 P. M.)

Paris, Sept. 15.—The French
official statement says: "The
French troops have reoccupied
Amiens, which was abandoned by
the Germans, but the Germans
are making a stand near Aisne."

The statement follows: "On our
left wing we have everywhere
caught up with the rear guard
and even with the main body of
the enemy. Our troops have re-
entered Amiens and the enemy
appear to be making a stand at a
prepared front along the River
Aisne. On the center it similarly
would seem as if the enemy in-
tends to resist. On the heights
northwest to north of Rheims in
the region between the Argonne
and the Meuse they continue to
retire. On our right wing we suc-
ceeded in relieving the front of
Tryono, which had been stubborn-
ly attacked the second time again
during the last few days. In Lor-
raine we are pursuing detach-
ments and keeping as everywhere
else in touch with the Germans.
The morale and sanitary condi-
tion continue excellent."

lines of racial sympathies. The terrible price of the present war can only be compensated by a lasting peace and if this is to take place it is only by removing as many causes of friction as possible and the best way to do that is to let Europe divide itself along racial lines and to refuse to hold in subjection an unwilling power.

Idealists, prophets and semi-prophets have always predicted an "Armageddon" when the powers of unrighteousness would be destroyed; when spears would be turned into pruning hooks; when the lamb and the lion would lie down together and a little child should lead them. Others have gone a little farther than this and have associated it with the "Christian second coming," and others with the end of the world. Fanatical sects throughout history have named "days" when the great event was to take place. One of the numerous sects of the United States have had themselves on record for years that 1914 would be the date. The coincidence is interesting, though few people will be much disturbed. Such ideas take their rise from old ideas of the world which looked upon it as a doubtful and temporary experiment. The new ideas of evolution seem to teach that the only possible goal for the world is perfection and that since we are a long piece from that yet so are we from the end of the world.

Canada's gift to the nation --flour--a priceless gift!

A gift in times of war more precious than gold. The greatest gift of all when the enemy is at the gates and the shot and shell are whistling without. Names like Lucknow, Sebastopol, Ladysmith, would never have made history if their most powerful ammunition—Flour—had given out. Canada's flour is made from the finest wheat in the world. It is this same wheat, scientifically milled, that has made famous the name

PASSING EVENTS

Field Marshal Baron Von der Goltz, Inspector-General of the Second German Army District, has been appointed military governor of the occupied part of Belgium. He is 71 years old, has written many books on military subjects, his best known, "A Nation at Arms," being one of the ablest arguments for military obligatory duty, and the maintenance of a sufficient permanent military establishment. Notwithstanding his age, he was regarded by many as the probable choice of the Kaiser for the leadership of the German armies against Russia, much of his work for the German army having been the reorganization of the army on the eastern frontier and the mapping out of the defence which Germany is now using against the Russian armies of invasion.

The French Ministry has been reconstructed, and stronger men brought in to grapple with the war problem, among them being such energetic and well tried statesmen as MM. Ribot, Briand, Millerand and Jules Guesde, the Socialist. M. Millerand takes the War portfolio, which he held before with great ability.

Xavier de Castelnau, the 12-year-old son of General Castelnau, French Chief of Staff, was among the killed in the recent action on the Belgian border.

King Charles of Roumania is so seriously ill that it is said he will shortly abdicate.

A number of Danish and Norwegian vessels and one Scotch trawler have been sunk, and many of their crews drowned by coming in contact with floating mines sent into the North Sea by Germans.

Airmen are reported to be taking a prominent part in directing the German artillery in the war against the Allies. Aeroplanes hovered over the British positions, and their pilots signalled the German batteries by means of a disk swung at the end of a line.

Betrayed by a German spy disguised in a Belgian uniform, 348 Belgians were killed at Merbes-lez-Chateau, when tricked by the spy into taking a path of danger. The refugee who brought the story to the Allies declared that the Belgians kept several thousand Germans at bay for three days until the spy showed them a path which he said was a safe retreat. The Germans, said the refugee, then shot them down.

Characterizing the German official statements which are being circulated broadcast and are declared to be sent from Germany "by wireless," as "mendacious and absolutely at variance with the true facts," the British War Office announces that it will reply to them.

The British forces in the Gold Coast Colony have seized the Port of Lome in German Togoland, on the West Coast of Africa. South Togoland, up to 120 kilometres north from the coast, was simultaneously surrendered. During the operations one British and two French officers and twelve British and sixteen native troops were killed. Togoland is situated between the Gold Coast and Dahomey, the French colony, and, although the coast line is small, the territory inland widens considerably, and the area exceeds 33,000 square miles. It has belonged to the German Empire for some thirty years. Lome, which was seized, is the chief port and the capital of the colony.

GERMANS REINFORCED RUSSIANS RETREAT

(Special to The Daily News.)

Berlin, Sept. 15.—A new German army is being sent to France. The Russian army which has advanced through East Prussia on Königsburg has been forced to retreat. This important news was officially announced late yesterday. It is understood that a new reinforcing army consisting of three corps (120,000 men), under General von Bohen, came to the German's assistance. General von Hindenburg reports that the Russians retreated in haste, abandoning guns and supplies.

IF CANADA WERE ATTACKED.

A curiously perverted notion of the Monroe Doctrine is found in various newspapers written by correspondents who assume that the United States would not permit a German attack upon Canada if such an attack were possible. There is nothing in the Monroe Doctrine that would prevent German troops from marching from one end of Canada to the other if they could get there. If Germany tried to annex Canada, that would be a different matter. The Monroe Doctrine does not apply to war. It applies to the alienation of territory.

Patriotic Aldermen.

Alderman Montgomery made a great patriotic speech last night. It came up in connection with the report as to the number of British subjects employed by the city. The report said that the city had 135 employees, 123 of which were Britishers. The doctory alderman took up the cudgels for the British and waxed eloquent over Britain fighting for the liberties of the world.

GERMANS IN FRANCE ARE STILL RETREATING

(Special to The Daily News.)

Paris, Sept. 15.—It was officially announced late yesterday that the Germans still are retreating everywhere. They are abandoning all the positions which they erected to cover a possible retreat. The official statement adds: "On our left wing the enemy had prepared to the north of Aisne, between Compiègne and Soissons, a line of defence which it has been forced to abandon. Some detachments which had held Amiens now have retired on Perrone and St. Quentin."

"On the center the Germans took up a defensive position behind Rheims, but were unable to hold it. In the Argonne region they turned back towards the north beyond the forest of Belvaux and beyond Traincourt."

"On the right wing the retreating movement of the Germans is general from Nancy to Vosges. Sunday evening the French territory in this vicinity had been completely evacuated."

NET PRICES CHARGED FOR ELECTRIC POWER

The charges for electric power hereafter will be net instead of the 25 per cent reduction heretofore if paid before the fifteenth of the month. The service will now be discontinued if not paid on time.

The minimum charge is still \$1. D. H. Morrison thought it should be reduced to 50 cents, so that the small consumer would get the benefit of the reduced rates. Alderman Morrissey did not like to pay during summer months, the same minimum charge as Kelly-Douglas and Stewart & Mobley. This view, however, was turned down.

CITY COUNCIL MAY ENTER COAL BUSINESS

Owing to the recent rise in the price of local coal the City Council ordered the purchasing agent to inquire into the cost. He presented a report last night which shows that after paying for all incidental cost it could be delivered west of Hays Creek for \$9.15 per ton and beyond that for \$10.45 per ton. The council, however, wanted a detailed report and sent it back to him. It is possible that the city will go into the coal business as they feel \$2 per ton too much margin of profit. The local price is \$11.

PRICE OF ELECTRICITY HAS BEEN LOWERED

The price of local electricity has been reduced, starting September 1. Residence and business lighting has been dropped from 18 to 11 cents per kilowatt hour per month as a maximum. Power rates are lowered to 7 cents for 100 kilowatt hours per month or 3 1-2 cents for 720 kilowatt hours. The lighting superintendent, in explaining the move, said the price of coal had been materially reduced this year and there was a good surplus to the credit of the plant. The hydro-electric would be ready by November 1, otherwise he would not recommend the change.

GRANDSTAND PLAY.

The lumber contract supplied by the Westholme Lumber Company is causing a little friction among the longshoremen. The Westholme people will not pay longshoremen's union wages, saying they will unload with their own staff. This union had a letter before the Council last night asking that in future a clause be inserted in the contract compelling all companies unloading lumber for the city to pay union wages. All the aldermen who are seeking labor votes played this to a finish and after all the talk it turned out that there was no one opposed to it.

A VETERAN WHO WAS WITH LORD ROBERTS

Laid Low With Rheumatism—But Cured By "Fruit-a-lives".

CHATHAM, ONT., APRIL 3rd, 1913. "I am a veteran of the Crimean War and the Indian Mutiny, volunteering from the Royal Artillery into the Royal Engineers, and served under Lord Roberts during the Indian Mutiny, and am a pensioner of the British Government. I was a hand-to-hand fighting and continual exposure left me a great sufferer from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk. "Fruit-a-lives". They cured me of both the Rheumatism and Constipation. In my regular employment, I walk thirty miles a day and enjoy perfect health".

RECENT HAPPENINGS

C. W. Bailey, of the city police force, has returned from the south on the Chelohsin, where he has been on a vacation.

Captain McIntosh and W. Kramer, two Victoria men, largely interested in Graham Island, returned from Masset last week and went south on the Princess Beatrice. They are both as enthusiastic as ever about Graham Island, which they consider has an excellent future for mixed farming. Captain McIntosh is actively engaged in the development of part of his holdings near Massett.

W. Garde is in town from his contracts up the inlet. He is building a new powder magazine and wharf for the Western Explosives Co. A great improvement has been made in the method of handling this dangerous substance at the new depot. A float and stairway is being put in to facilitate the loading and unloading of motor boats. This new magazine is to replace the old one across the harbor, which, owing to recent developments for town-site and industrial purposes has been condemned as unsafe and the use of which is now discontinued.

Staff Sergeant O'Brien, a veteran of the R. N. W. M. P., and South African veteran, left town on the Venture en route to London. He intends joining the staff of General French at the front. Mr. Oliver was with General French on the latter's famous ride from Blomfontein to Pretoria. Mr. Oliver is only one of many ex-service men in Rupert, who have already left for the front.

A searchlight was easily playing on the harbor last evening, and it was very interesting to see

the way the light suddenly picked out small craft on the water.

Several local parties were out over the week-end hunting deer and wild fowl. They report deer very shy, and hard to get. Prince Rupert's increasing population now renders the task of getting venison much harder than it was in the early days, when a trip across the harbor at this time of the year generally met with success when hunting for deer.

It is rumored that the government is about to do some more clearing and improvement work around the wireless station on Digby Island. If true, this should be a great boon to the many idle men in town.

The war excitement has taken a great hold of the Prince Rupert's younger generation and the youngsters all seem to be busy learning how to play the bugle. How about the Boy Scouts? A local corps might easily be formed as Prince Rupert can certainly boast of a plentiful supply of strapping youth.

From accounts of people reaching Prince Rupert from Edmonton and the interior, things are much quieter than in Prince Rupert. The busiest town seen on the trip through was Vanderwort, near Francis Lake, where considerable activity in the building line was in evidence.

R. D. Featherstonough and party returned recently from the Omineca district and went south. Omineca District, where they have been engaged in prospecting and development work for an Edmonton syndicate, and went south. They staked several leases on the Omineca River. The Omineca District has witnessed considerable development work this year.

REV. JOHN McNEILL HAS CALL FROM DENVER

Pastor of Cooke's Church May Go to Colorado City From Toronto.

After a considerable amount of disagreement over the choice of a candidate, the selection committee of one of the largest Presbyterian churches in Denver, Col., has solved the problem by sending a call to Rev. John McNeill, pastor of Cooke's Presbyterian Church, Toronto. Numerous candidates, it seems, had preached before the committee, but an agreement as to choice of one of these candidates could not be reached. Mr. McNeill never preached in Denver, and the call it is understood, came as a surprise. It is considered probable that he will accept the offer. Mr. McNeill, it is understood, had been considering removing from Toronto for some time on account of the health of his eldest boy. Medical men in the city had assured Mr. McNeill that his son should not remain in this climate, but should be removed to one milder and more equable.

CANADIAN NEWS IN BRIEF.

The army worm has made its appearance in Nova Scotia.

Thirty thousand dollars were collected on tag day in Toronto for a hospital ship.

The government of Nova Scotia is contributing 100,000 tons of coal for such purposes as will best serve the interests of the Empire at the present time.

Rev. J. D. McEwen, who has spent some years as a missionary in Brazil, preached in Oxford Street Methodist Church on Sunday morning and in Trinity Church in the evening.

The executive of the Halifax Canadian Club has voted \$1,000 to the Canadian National Fund for the assistance of the families of those who have given up their positions in obedience to the call for active military service.

Four hundred and eighty-two of Vancouver's foreign population have applied to become naturalized British subjects since August 1, doubtless on account of the war. Thirty-seven Germans and 19 Austrians wish to desert their home land. More than 200 applications came from Japanese who wish to qualify to serve in Canadian regiments to be sent to England. Judge Brant, before whom the applications come, has asked the Minister of Justice what he will do with this great prospective influx of citizenship.

The Hon. E. H. Armstrong, Commissioner of Public Works and Mines, on behalf of the province of Nova Scotia, has handed over the new building at the Nova Scotia Hospital to the naval department for housing any wounded sailors brought into this port. The staff of physicians and nurses at the Nova Scotia Hospital has generously volunteered its services. The hospital will be able to accommodate about fifty men at an hour's notice. If cots can be obtained there will be room for many more men.

BUILDERS' REQUEST REFUSED

Building Trades Unwilling to Have Wages Cut in Half.

Montreal, Sept. 14.—The Contractors' Association of Montreal has asked men engaged in the building business in Montreal to accept half wages until conditions improve. The business board of the men's organization has decided not to accept a cut.

The serious step of suspending all standing agreements between masters and men in the building trades is to be considered at an extraordinary meeting of building trades members in the Labor Temple. The labor leaders are faced with the problem of scanty labor and increased cost of living.

RED CROSS ORGANIZER TELLS THRILLING TALE

London, Sept. 14.—Mrs. Stobart, who went to Brussels in the middle of August to establish a hospital under the auspices of the Belgian Red Cross, has returned to London after thrilling experiences. While trying to get from Brussels through the German lines she was arrested with her party outside of Louvain and taken in a coal truck to Tongres, where she declares she was submitted to insulting treatment as a suspected spy at the hands of German officers.

Mrs. Stobart and her party spent the night in a guardroom, expecting to be shot in the morning. They were, however, sent on to Cologne. They were deprived of all their documents and mobbed by crowds of howling German soldiers at Liege, Aachen and other stopping places. They were finally liberated, and escaped through Holland after encountering many difficulties.

"THE MILLION DOLLAR MYSTERY" MAKES A HIT

A crowded house turned out last night to see the third episode of the great "Million Dollar Mystery" at the Westholme opera house, and it may be safely asserted that a better pleased audience never filled the theatre. Not only was the "Million Dollar Mystery" fully up to the expectation, but every item on the program was good to see. The opening reel, showing scenes of the modern city of Athens, was exceptionally good. The same may be said of both the comedies and the Reliance feature entitled "The Broken Bottle," a story dealing with the cupid of certain elements of modern society, and quite as good in a way as the "Million Dollar Mystery," and that's going some.

For Wednesday only, a splendid three-reel feature, "Colleen Bawn," will be shown. This is a strong Irish play of unusual merit. All of the scenes take place on true Irish soil, the company producing these pictures having made a special trip to old Ireland, partly on vacation and partly on business. "Colleen Bawn" being one of the results of the business side of the trip.

"GIVE ME BACK THE WORLD I KNEW"

Plea of Church Visitor to Far North on Hearing of the War.

To be seven weeks out of touch with the world and not hear that Great Britain was at war with Germany, this was the experience of Rev. J. H. Arnup, of the Methodist Missionary Society, who recently returned from a tour of the mission stations throughout the country between Lake Winnipeg and Hudson Bay, having traveled eight or nine hundred miles in a canoe.

"I left the world at peace; I went into a more peaceful world, and I came out into a world of fire." This is how Mr. Arnup described his experience to the Toronto Globe. "I can't tell you how I felt when they told me all about it; my first feeling was one of unreality. I could not believe that the world could change so swiftly. I said, 'Give me back my world as I knew it before I went away.'"

In the country through which Mr. Arnup traveled the official mail only reaches the people four times a year. Mr. Arnup describes the missionaries as their "far flung battle line."

SHOT GERMAN GENERAL AND TOOK HIS HORSE

Wounded Belgian Soldier Did Not Know He Was Prince Von Buelow.

London, Sept. 14.—In a dispatch from Amsterdam the local correspondent of the Central News says that the shot which ultimately resulted in the death of Prince Von Buelow, one of the German generals, was fired by a Belgian private named Rosseau, who has since been decorated by King Albert for his conduct in the battle of Haelen.

Rosseau was lying badly wounded among a group of dead comrades, when he saw a German officer standing beside his horse and studying a map. Picking up a rifle from the side of a dead German, Rosseau fired at this officer and wounded him. He subsequently proved to be Prince von Buelow. Exchanging his hat for the German general's helmet and taking the general's horse, Rosseau made his way to the Belgian line and was placed in a hospital at Ghent.

COLLEGIATE ATHLETICS THROWN INTO TURMOIL BY THE EUROPEAN WAR

Kingston, Sept. 12.—The athletic directorate of Queen's University has been informed that there is some likelihood of inter-collegiate athletics being abandoned this year on account of the war and its effects. The suggestion is not welcomed here.

It has also been suggested that the net proceeds, in the event of the various sporting schedules being played, be devoted to the Canadian Relief War Fund. To this Queen's would heartily agree. All of the big college teams have been more or less depleted by the hockey and football men enlisting for active service. This is particularly true of the Royal Military College here. The latter has not as yet decided what to do under the circumstances, but the Queen's University athletic directorate will meet in a few days to consider the situation.
