OUTFLANKING ENEMY LIFE AND DEATH STRUGGLE IN FRANCE STILL ON

REVERSES AND SUCCESSES MARK TODAY'S DISPATCHES

(Special to The Daily News.)
Paris, Sept. 26.—The French were forced to give ground to superior forces northwest of Noyon in violent fighting. The Germans have had success on the heights of Meuse but have not succeeded in crossing the river except at St. Michael, where they were thrown back again. The Germans were forced to give way on the French right wing, where heavy attacks were made from Nancy and Toul. They also retired in the southern region of Woivre. Heavy fighting is now going on at both east and west wings of the battle.

AUSTRIAN ARMY IN GALICIA CONTINUES GENERAL RETREAT

(Special to The Daily News.)
Lemberg, Sept. 26.—Several engagements with the front of the Austrians in West Galicia. The Austrian army driven out of the region a general retreat.

FRANCE ARE TRYING TO OUTFLANK VON KLUK

(Special to The Daily News.)
London, Sept. 26.—A battle of ordinary severity is now raging in the western end of the Artois and German battle at Notre and Noyon, sixty miles north of Paris, where the French are trying to outflank von Kluk's reinforced army.

GERMAN FORCE TO MEET RUSSIANS

(Special to The Daily News.)
London, Sept. 26.—The inhabitants of Cracow have fled from the city, which has been taken by the Germans, who have sent three army corps into the city to meet the advancing Russians. The Russians have killed Khyrow.

JUVENILE BOSTONIANS.

Terpsichore, who had the concession under the feign of Greek mythology, should see "Tango Maid" at the West-end tonight. Perhaps if she would drop the lyre (not the press agent), borrow a gown, and from all reports it is a gown, and take a try at herself. She might find it a different from the classic, and the disposition of the dancers is more confidential, but no doubt she would enjoy it as much as her present day disciples seem to.

50,000 PRISONERS IN GERMAN HANDS— 30,000 ARE RUSSIANS

(Special to The Daily News.)
Paris, Sept. 26.—A message from Berlin says that the general staff, having agreed to exchange official lists of prisoners found it necessary to admit that the totals already announced were erroneous. The aggregate number of prisoners in German hands is reduced from 250,000 to 50,000, of whom 30,000 are Russians.

TWO MORE CAVALRY REGIMENTS TO BE SENT

Strathcona Horse and Royal Canadian Dragoons to Be Added to Expeditionary Force.

Valcartier Camp, Que., Sept. 25.—The Canadian Government, after communicating with the War Office, has decided to increase the first Canadian expeditionary force by adding two complete cavalry regiments of 575 men and 27 officers each. The regiments to go will be the Strathcona Horse and the Royal Canadian Dragoons. Both regiments are of the permanent force, but at present they number only about 300 men in each regiment. They will be at once recruited up to the full war strength of 602 officers and men. They will be in addition to the two cavalry squadrons already assembled at Valcartier.

The British War Office has intimated that further cavalry troops from Canada will be welcomed, and the men of both regiments here are eager to go. The decision of the Government to send them means that practically the whole of the permanent force in Canada will go abroad, either for service in France or Belgium, or doing temporary garrison duty in Bermuda, as in the case of the Royal Canadian Regiment, which left Halifax some days ago.

SPECIAL RATES FOR COAL WILL BE GIVEN IF CITY HAS BUSINESS

After the Board of Trade conference with Mr. Dalrymple and Mr. Rosevear a committee from the City Council, consisting of the Mayor, Alderman Morrissey and Alderman McLymont presented the case of the city for cheaper rates for coal from Alberta. The present rate is \$5.90, and is prohibitive.

The committee was asked if it was prepared to enter into a contract for coal in case of cheaper rates being granted and replied that they could not since the coal was never sampled. Mr. Rosevear pointed out that they never made special rates unless the party had some definite business to offer. He then offered to transport a car of coal consigned to the city from any mine in Alberta free of charge and if after a test of the coal they wished to do business a special rate would be given.

GERMANS RETREAT— SOUTHWEST AFRICA

(Special to The Daily News.)
London, Sept. 26.—A Cape-town dispatch says the British forces occupied Inderitbuch in German Southwest Africa. The German garrison had retreated after blowing up the railway and destroying the wireless.

GERMAN AVIATORS WASTE AMMUNITION ON AMIENS RACETRACK

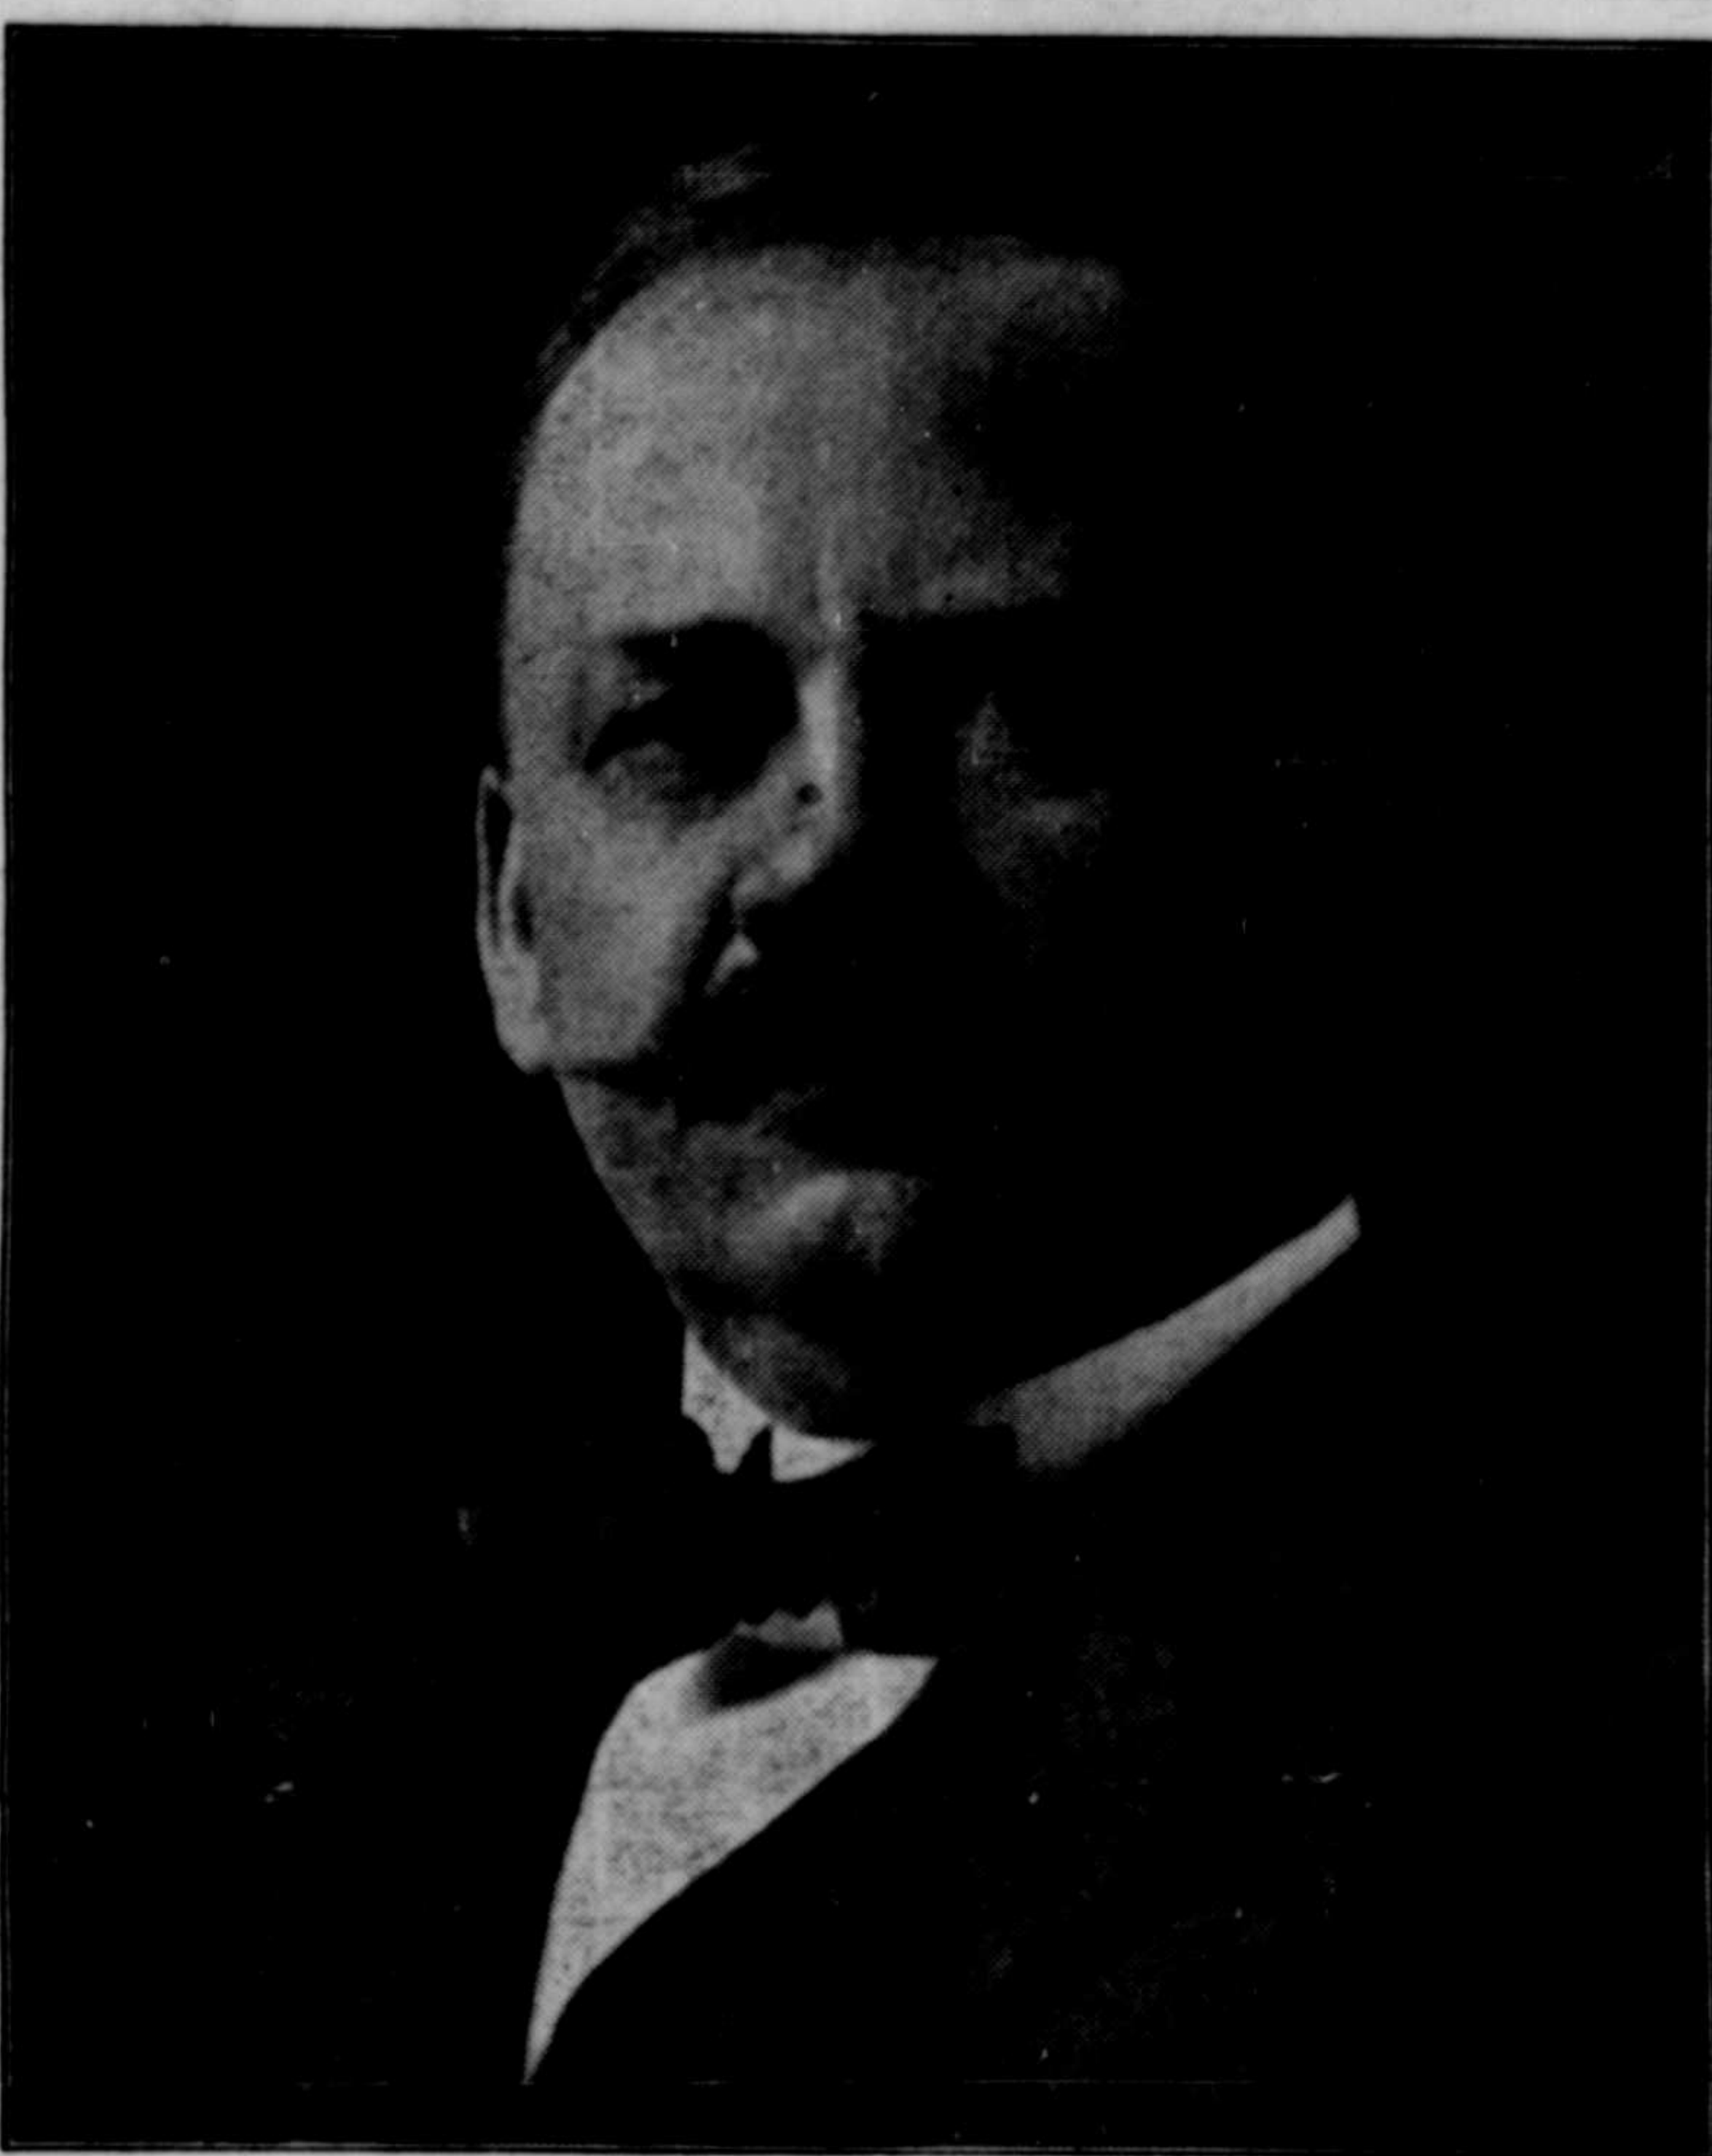

(Special to The Daily News.)
London, Sept. 26.—German aviators dropped bombs on the racetrack at Amiens, mistaking it for an aviation camp.

E. J. CHAMBERLIN, President of the G. T. P. Railway, Now Visiting This City.

PRESIDENT E. J. CHAMBERLIN AND PARTY VISITS THIS CITY

PARTY MAKES FIRST TRIP OVER NEW ROAD AND IS VERY ENTHUSIASTIC ABOUT COUNTRY OPENED UP—WILL LEAVE FOR EAST THIS AFTERNOON.

The official party of the G. T. P. reached this city last night on a tour of inspection. The party included President E. J. Chamberlin; W. Molson McPherson, director; M. Donaldson, vice-president and general manager; J. E. Dalrymple, vice-president (traffic); J. A. Hutcheson, chief medical inspector; W. P. Hinton, assistant passenger traffic manager, and A. E. Rosevear, general freight agent. General Superintendent Mehan met the party at Prince George and accompanied them to the city.

The party is real enthusiastic about Prince Rupert's climate and the progress they find here. It was the first trip across the new country opened up by the railway and they have great confidence in the route, not only as opening up a great country, but also for its scenic beauty, both of which will contribute to making Prince Rupert a city with a great future and a future which should not be very far away. It is expected that the party will leave for the East again this afternoon.

BRITISH AND FRENCH FLAGS FLY AT LISSAU

(Special to The Daily News.)
London, Sept. 26.—A Central News dispatch from Rome says that the Austrian seaport of Lissau, in Dalmatia, was bombarded by the French fleet on September 19. Later troops were landed from French warships and went into garrison. The British and French flags were hoisted over the semaphore station at Lissau.

BRITISH MARINES FIGHT IN AFRICA

(Special to The Daily News.)
Bordeaux, Sept. 26.—The French gunboat Surprise, on September 21, took possession of Coco Beach, in German, or Western Equatorial Africa. Her marines defeated a German force. The gunboat had previously sunk the Rhiow and the Italo, two German auxiliary war vessels.

FREIGHT RATES DISCUSSED WITH G. T. P. OFFICIALS HERE

PRESENT RATES TO RUPERT CONSIDERABLY GREATER THAN TO VANCOUVER VIA C. P. R.—COMPANY WILL EQUALIZE RATES TO WINNIPEG AND CONSIDER THOSE TO EDMONTON.

A committee of the Board of Trade, of which W. P. Lynch was chairman, had an interview this morning with Mr. A. E. Rosevear, head of the freight department of the G. T. P., and Mr. J. E. Dalrymple. A formal communication was read, pointing out that the rates of the G. T. P. from Winnipeg and Edmonton were considerably greater than similar rates over the C. P. R. to Vancouver. The C. P. R. rate on flour from Winnipeg is 45 cents per cwt., while the rate over the G. T. P. to Prince Rupert is 61 cents. Butter and eggs from Edmonton to Vancouver via the C. P. R. are \$1.35 per cwt., while to Prince Rupert it is \$1.74. It was pointed out that with these unfavorable rates Prince Rupert could not compete with Vancouver for the north coast trade. It was also shown that the original sale of lots was made under the promise that rates to Prince Rupert would successfully compete with those to Vancouver. In reply, Mr. Rosevear stated that so far class rates from the East were the same as to Van-

couver. It was only commodity rates that were higher and his department had been working steadily for three months in an effort to get them adjusted. As far as the rates to Winnipeg were concerned, he could assure the Board of Trade that the rates would be made the same as to Vancouver. With regard to those from Edmonton, he was not so sure, as the mileage was considerably more than to Vancouver. It was their intention at all times to work for the best interests of Prince Rupert and the matter would be gone thoroughly into.

After a considerable amount of discussion, in which it was pointed out that on the completion of the P. & G. E. they could not possibly get a bigger rate from Edmonton than the C. P. R. is charging and that Prince Rupert should get the same rate now, it was practically admitted that the contention of the Board was correct. It was then announced that Mr. Rosevear would remain over for a few days to adjust all these matters and that a "town" rate for Prince Rupert would go into effect on October 14.

MISS MARY TUPPER IS ANXIOUS FOR SERVICE

Canadian Statesman's Granddaughter Wishes to Join Nursing Staff.

Valcartier, Sept. 24.—Miss Mary Tupper, a granddaughter of Sir Charles Tupper, has written to Colonel Sam Hughes, asking that she be allowed to join the nursing staff which will accompany the troops. The application has been sent to Colonel Jones, of the army medical service, who is in Ottawa.

A grandson of Sir George Etienne Cartier, Jacques Cartier, is with the engineer signaling corps. He holds an aviator's license and is also an expert wireless operator.

AUSTRALIANS SEIZED KAISER WILHELM'S LAND WITHOUT OPPOSITION

(Special to The Daily News.)

London, Sept. 26.—The Admiralty announces that a telegram has been received from Vice-Admiral Sir George Patey stating that the town and harbor of Friedrich Wilhelm, the seat of government of Kaiser Wilhelm's Land (the name applied to the German portion of New Guinea), has been occupied by an Australian force without opposition. Armed forces of the enemy appear to have been concentrated at Herbertschoz, where they were annihilated.

DAILY EDITION  Saturday, Sept. 26, 1914.

Nothing can better show the authenticity of the war news being received in this country than the fact that bad news as well as good is allowed to come through. Once in a while a pessimist turns up to say that the chances of the Allies' success is not nearly so bright as the information received would have us believe. In denial of this it is sufficient to point out that in the earlier stages of the war the news that was allowed to come through all pointed out too clearly that the Allies were being repulsed. When the tide turned in their favor so did the news received. Both naval skirmishes, too, were reported as accurately as could be desired without any attempt at hiding the facts. Indeed, an examination of foreign and British papers with our own show that in Prince Rupert we get the facts as fully as they do in the larger centers.

From a good deal of comment seen in the daily papers it would appear that the Canadian banks are not coming up to the mark that was expected of them. The action of the government in making bank notes legal tender and otherwise enlarging the credit of the banks is a veritable boost for these institutions. It will mean

hundreds of thousands of dollars for them and at the same time remove all cause for worry. This action of the government was intended for the benefit of the people. It was expected that the banks would act as the custodian of the people's trust and deal out credit in a reasonable manner. If they fail in this they may secure a temporary advantage but the time will come when they will pay dearly for their treachery.

The ebb and flow of the moral stamina of a country is an interesting study. In the early days of Canada it was quite the thing for respectable people to overindulge themselves with "the cup that cheers." Then followed a period of opposition and to be guilty of over indulgence was to become socially ostracized. Now, again, we seem to be upon a period of moral laxitude in this respect and a good many people not only think they cannot have a good time but cannot be socially "smart" unless their social events allow a free use of the forbidden drink. If half the reports one hears about town are true, there is need for a return of the old temperance lecturer or his modern equivalent.

YEAR EXTENSION TO OIL PROPERTY LEASE HOLDERS

Vancouver, Sept. 25.—In view of the European war, lease-holders who have filed on petroleum and natural gas rights under lands in the province of Alberta will be given a flat year's extension of time in fulfilling requirements which the Government sets down in the mining regulations.

Announcement to this effect has just been made by R. B. Bennett, K. C., M.P. At the request of Robert Goodwin, of the Alberta New England Oil and Gas Company, Limited, Mr. Bennett recently got into touch with Dr. Roche, Minister of the Interior. He put the matter clearly before the minister, pointing out how the war had completely upset the plans of various companies and individuals who otherwise would have been in a position to go ahead this year with the development of their leases, as the regulations required. Dr. Roche then unofficially assured Calgary's representative in the House that due consideration would be given all lease-holders, and that a flat extension of one year at least would be granted.

This means that leaseholders whose leases are dated from March 2, 1914, may hold these leases until March 2, 1916, without making any further payments. The same privilege will be extended to lease-holders whose second year of ownership commences this fall.

UNEASINESS IN AUSTRIAN CITIES

People of Adriatic Seaport Kept in Ignorance of the Real Situation—Riotous Scenes in Capital.

Vienna, Sept. 25.—According to reliable reports from Trieste, the Austrians have now 60,000 soldiers at Pola, 60,000 in the neighborhood of Bisino, and over 200,000 on the Italian frontier.

Uneasiness regarding the situation is increasing in Trieste. Little war news outside the official report is obtainable. The Russian successes in Galicia are reported as being without significance.

The position of the Italian inhabitants of Trieste is exceedingly uncomfortable. Hundreds have been arrested, and many houses belonging to Italians have been searched by the police. A large number of Italians are leaving Trieste, especially the younger men, many of whom are enlisting in the Italian army.

The few British subjects remaining in Trieste, many of them women and elderly men, have been advised by the police to leave Austria in order to avoid unpleasant consequences.

PASSING EVENTS

More than 100,000 English Boy Scouts are now rendering active service to the country.

English and French boys carrying German sausages impaled on swords are parading the streets of the West End of London nightly.

A deserter who scooted from the army five years ago has just given himself up in England because he "wanted to have a smack at the enemy."

The two Dublin policemen dismissed for refusing to disarm National volunteers, and the sixteen constables suspended at the same time, have been reinstated.

The Wilson liner *Rita* was sunk by a contact mine in the North Sea. Trawlers came to the rescue of the passengers and saved the lives of nearly all on board.

The British Admiralty has announced that it will not resort to the use of mines in naval warfare. These despicable methods of warfare will be left to the Germans, who refused to sign The Hague convention prohibiting the use of marine mines.

Many hundreds of girls employed in London drapery stores, millinery establishments and dressmaking houses, and a large number of waitresses and domestic servants have been thrown out of employment owing to the war.

Representatives of every woman's society in Montreal were called together recently at the Y. W. C. A. to form an auxiliary executive to co-operate with those conducting the local Patriotic Fund campaign. All classes and ages of women attended and flocked eagerly to the platform when the chairman, Miss Helen Reid, asked for volunteers to work under the new executive. Miss Reid was appointed convener of the committee.

The Canadian Women's Hospital Ship Fund, which was closed on September 1, has reached a total of \$218,034.61, over twice the amount originally called for. The said sum has been forwarded to the British Admiralty through Her Royal Highness the Duchess of Connaught, and will be used for a supplementary naval hospital at Haslar, near Portsmouth, which will bear the name, "The Canadian Women's Hospital."

A HEALTH MESSAGE TO THE WORLD

The Discovery of "Fruit-a-tives" Has Brought Health and Happiness to Thousands of People all over the Dominion.

FRUIT JUICE CURES MANY SERIOUS DISEASES

"Fruit-a-tives" Is the Only Medicine Made from Fruit Juices. It is Pleasant to Take and Acts Gently on the Whole System.

Fruit Juice consists of 91% water and 9% solid material. This solid material consists of about 8 parts sugary substance and one part of an intensely bitter substance, which is the medicinal or curative principle of fruit. In order to get the full benefit of fruit in the ordinary way, one would have to eat huge quantities of fresh fruit. By the discovered process of making "Fruit-a-tives", the bitter material in fruit juice is made to grow or increase and thus a stronger fruit juice is created. Then, this stronger fruit extract is mixed with valuable tonics and antiseptics and made into tablets. Thus, we have concentrated and intensified fruit juices, and the practical use of Fruit as a medicine is brought within reach of all.

Like fruit juice, "Fruit-a-tives" acts on the great blood purifying organs of the body—the liver, bowels, kidneys and skin—and stimulates all these parts to renewed activity. "Fruit-a-tives" is the most powerful liver stimulant in the world, and by it the kidneys and skin are stimulated to do more work. The splendid nerve tonics and antiseptics incorporated in "Fruit-a-tives" make this medicine the finest of nerve restorers, while germs in the stomach and bowels are destroyed.

"Fruit-a-tives" will cure Indigestion or Weak Digestion, Dyspepsia, Kidney Disease, Constipation, Biliousness and Liver Trouble, Backache, Rheumatism and Rheumatic Pains, Sciatica, Lumbago, Neuralgia, Headaches and all indications of Impure Blood. Remember that "Fruit-a-tives" is the only medicine in the world that is made of fruit. There is nothing else as good, because there is no other preparation anything like "Fruit-a-tives". If you cannot get "Fruit-a-tives" in your neighborhood, we will send you a supply postpaid, on receipt of 50c. a box, 6 for \$2.50, trial size, 25c. Fruit-a-tives Limited, Ottawa.

CANADIAN BANKS SAID TO VIOLATE THEIR PRIVILEGES

(Regina Daily Province.)

All the assistance which the government of Canada is endeavoring to give to the people through the medium of the banks is being held up by the banks for their own additional security. The banks are inviting reprisals thereby, which, unless we mistake the temper of the Canadian people, will not be long delayed.

In several articles recently this paper has congratulated the people of Canada upon possessing a government strong enough, in the present crisis, to take such emergency measures as would ensure a continuance of commercial and general credits. The government has done everything in its power. It has taken such steps as should ensure to Canada an enviable position as regards stability of trade and industry.

In only one thing was the government mistaken. It considered the Canadian banks a trustworthy medium through which to extend assistance to a country sorely stricken by the financial panic which, the world over, followed the alarm of war.

That medium has failed, thus far, at least. It may yet rehabilitate itself in the eyes of the people and the government. It must be prompt, or it will invite reprisals. The occasion, in fact, will demand them.

Ordinary commercial credits have been cut off. Every business in Canada is suffering. Farmers suffer—the security of the wheat, which is better than gold, is no longer taken. Municipal governments suffer. Canada is as badly off, in fact, as if she were without banking facilities. The assistance the government has extended has not reached the people—has not passed beyond the control of the banks. Credit is practically non-existent, and without credit the business fabric cannot hold together.

The banks have been extended privileges by the government, never before, in all Canadian history, allowed them.

After September 1 they can issue "paper money" in addition to the present issues, equal to 15 per cent of their combined capital and reserve.

Bank notes have already been made legal tender. The banks can receive, from the Dominion government, Dominion bills for securities deposited with them.

It was not intended by the government that these tremendous advantages should be possessed by the banks for their own uses. Those steps were taken solely for the purpose of aiding the people of Canada to maintain the general structure of business. It was intended that the banks should be in a position to carry on their ordinary business of supplying the country's needs in the way of credit. If those steps had not been taken the banks would have been justified in their present stand, to some extent at least. They would have had to protect their own interests. The Dominion government took upon itself the protection of the interests of the banks, so that the banks could protect the country's interests. But, protected in every way though they are, the banks are accepting all the assistance tendered them and passing none of it on.

Why, then, should the government continue to extend such protection?

There is the additional protection of a large amount of gold, established by the Bank of England at Ottawa for the purpose of facilitating Canadian exchange with Great Britain. That immense pile of gold, over twelve millions, guarantees the prompt repayment of Canadian banks for such credit as they extend to finance the crop movement. They are relieved of worry on that score.

Yet farmers are coming into

BITTER RESENTMENT.

Indication of Intensity of French Feeling as Result of Reported German Atrocities.

A striking illustration of the intense feeling aroused throughout France through the atrocities of which the German invaders are reported to have been guilty is found in a short article which was first published in the French Journal la Republique Francaise and, on August 14, reprinted in Le Matin. It follows:

"The Germans seem to be cock-sure of the destiny of the war. But the more they take on the spectre of defeat, the more they manifest resolution to give themselves up to bloody vengeance.

"Each day brings new evidence of their crimes. They seem by their barbarism to be giving themselves up to a task of disgracing themselves in their defeat. The accusation which will be brought against them before the tribunal of European conscience is already interwoven with a long series of defiance to honor and humanity. They will, if we take back Alsace, have made of that land of nops and vines a desert ravaged by flames and watered by blood. They are insensible in their delirious and savage fury of the moral reprisals which await them. They shall realize then, however, when all is finished, when there shall never more be a hand in Europe which will consent to shake a German hand; never more a city in Europe which will consent to shelter a German house; never more an academy in Europe which will consent to receive a German savant; never more a head of state in Europe who will receive with recognition the German sovereign who shall carry into history the burden of this disgrace and bloodshed."

GENERAL NOGI PREDICTED END OF GERMAN RULE

London, Sept. 25.—General Nogi's prediction, made at the siege of Port Arthur, is still fresh in the minds of Englishmen. General Nogi said:

"I believe the world will witness a great war which will have all Europe for its battleground, and will settle the Franco-Prussian question and the Anglo-German rivalry.

"France and Germany will meet in this last decisive conflict on the Belgian plains, probably near Waterloo, the only spot which will permit of the evolution of the great armies which will face each other. At the present time the French and German frontiers are too strongly fortified for either people to force its way through. I have little doubt as to the result of this war. France will beat Germany on land and Britain will crush Germany at sea.

"This will be the last great war in Europe for many years, perhaps for ever. The German states will emerge from this war so exhausted and so terrified that they will have no other object than to form some sort of condition that they may in the future obviate the recurrence of any such catastrophe."

Prayers have been offered in some churches specifically asking that the prediction of the Japanese strategist be realized.

Sensible Economies

are getting more than usual consideration in these troubled times, even from those who have hitherto spent freely. The steady toll of the barber shop is noticed now — and stopped — and more men every day are shaving themselves at home with the

GILLETTE SAFETY RAZOR

To their surprise they find, in the *Gillette Safety Razor* habit, other things even more important than economy.

It saves many valuable minutes a day — sends them to business clean and refreshed, with toilets completed — and enables them to enjoy anytime, anywhere, a shave as smooth and comfortable as the best barber could give them.

The *Gillette Safety Razor* eliminates honing, stropping and fussing, as well as the need of skill or practice. You just pick it up and shave with solid comfort the first time you try.

Cut out the waste of time and money! Get a *Gillette* and enjoy economizing! Standard Sets cost \$5.00 — Pocket Editions \$5.00 to \$6.00 — Combination Sets \$6.50 up. At Drug, Hardware and Jewelry Stores.

China Says She Is Helpless. Peking, Sept. 26.—The Chinese government has replied to the protest of Germany against the landing of Japanese troops in China, disclaiming responsibility for the violation of her neutrality, which she says she is unable to defend.

NOVA SCOTIA TO PROVIDE FOOD FOR THE BELGIANS

Halifax, N. S., Sept. 25.—Premier Murray has addressed an appeal to the people of the province of Nova Scotia to provide a steamer-load of food and clothing for starving Belgians. Mr. Murray says:

"The heroic stand of the people of Belgium has won the admiration of the whole world. They have made sacrifices so great that it almost passes comprehension. Their lands have been laid waste, their towns sacked, their homes wrecked, their famous churches and cathedrals pillaged, their priceless art treasures destroyed—everywhere across the Belgian country is the invader's ruthless trail of ruin and blood.

"In the face of this appalling condition, and almost unparalleled in the history of the world, I am sure that the people of Nova Scotia cannot remain unmoved." The government of Nova Scotia will charter a steamer which will be despatched early in October with a full cargo of necessities of life for Britain's faithful ally.

The Brazilian government has formally changed the name of the "River of Doubt," which Colonel Roosevelt claims to have discovered on his recent South American exploring expedition, into Rio Theodoro.

The growth of unemployment in Britain is said to be virtually stopped. In the trades where insurance against unemployment is enforced the percentage of unemployment is 6.24, almost exactly the same as last week, and compares with 3.34 last year.

NEUTRALITY WILL NOT GAIN ITALY REWARDS

Russian Authority Says Now is Time to Take Trent and Trieste.

Rome, Sept. 24.—The Giornale d'Italia quotes the Petrograd newspaper Birgowia Wiedomos as saying that it reflects the view of the Russian government in declaring that Italy must take Trent and Trieste now, with her own arms, or never, for if the Triple Entente is victorious it is not probable that they will give Italy those provinces as a reward for neutrality. Armed intervention by Italy, the Russian newspaper is quoted as saying, would be most useful now to assist Russia against Austria and Germany.
