RUSSIAN GUARD

HAS BEEN ALMOST ANNIHILATED BY THE ALLIES

RUSSIAN LEFT WING MAKES LONG STRIDES FOR BERLIN

AUSTRIAN ARMY UTTERLY DEFEATED—THIRD LINE OF DEFENCE BROKEN UP—WHEN RUSSIANS TAKE CRACOW THEY WILL MARCH ON TO BERLIN.

(Special to The Daily News.)
Petrograd, Sept. 29.—The Austrian troops have been routed in their third line of defence Galicia. The Russians are approaching Tarnow, fifty miles from Cracow and have captured Tarnopol and Szwatana, Hungarian towns on the southern slope of the Carpathian Mountains.

This news was given in a statement by the General Staff, and shows that the Russian steam roller is progressing with amazing rapidity and that only a very stiff defence at Cracow and along the line from there to Thorn, where there is another Russian army, can prevent the Russians from being well along the way to Berlin in a very short time.

THE WAR FEVER AT PETROGRAD (ST. PETERSBURG).

This photograph, which is one of the few to pass the censor out of a batch of over one hundred, shows one of the many patriotic demonstrations that have taken place at the Winter Palace, Petrograd, since August 2.

PRUSSIAN GUARD DESTROYED—NEARLY ALL OFFICERS KILLED

THIS BODY HAS BEEN IN THICK OF IT LAST THREE DAYS—COMPANIES REDUCED FROM 250 TO 100—OTHERS COMPLETELY WIPED OUT.

Bordeaux, Sept. 29.—Dispatches yesterday from the front tell that the Prussian Guard has been cut to pieces during the last three days. The strength of some companies was reduced from 250 to 100 men. Two battalions were annihilated. Virtually all the original officers of the guard were either killed or wounded.

WAR WILL GO ON TO EXHAUSTION POINT

The opinion of military officers interrogated at Washington.

Washington, D. C., Sept. 28.—War will last from nine to ten months. Germany, unless she is superhuman, will be defeated.

The foregoing is the consensus of opinion entertained by active military officers on duty in this city and its environs. Only those officers of and above the rank of major were interrogated. In the opinion of the President's order, government officers not to be sent on the war, and his fellow-countrymen not to engage in discussions, more than three-score officers were asked the following two questions, the understanding that their answers would not be used and that answers were to be wholly unemotional, from a military standpoint, without regard to personal feelings:

How long will the war in Europe last?

Which side will be victor? Germany, Austria, or the Entente?

What is the question of how long the war will last, the opinions of the officers estimated as follows: Twenty officers decided to reply. One officer said he had a fighting chance to win one thing upon which all agreed was: This is not a war of resources, but of all resources; and until one side has exhausted all its resources, fighting will go on.

KRUPP'S YACHT HELD.

London, Sept. 29.—The racing yacht Germania, owned by Lieut. Gustav Krupp von Bohlen und Delbrueck, head of the Krupp Gun works of Germany, has been ordered detained by the British government. The yacht was sent to England to participate in the regatta.

To Be Held in Andrew's Society Hall ON TUESDAY September 29, 1914

LACK OF DETAILS IN SHOOTING ACCIDENT

There seems to be a dearth of information concerning the shooting accident at Essington whereby L. J. Hoyt is reported to have lost his life. The first information came from the provincial police at Essington in a telephone message to the local force and saying that Mr. Hoyt was accidentally shot. This was on Sunday afternoon. Last evening the local office got a wire saying that a local party was out all day but got no trace of the body. From these details it is not known whether he was alone when shot or whether his body was left in the woods while they went for help. He was accompanied by his partner, Scadden, and Mr. Marks. Full details will likely come in by train tonight.

Later—A man who came in from Essington today reports that Marks was along with Hoyt when he got shot. He was crawling over a big log when the gun went off. Marks became somewhat excited and on the way out lost his way. Later he found the trail, but when he got out he found that he could not go back to where the body was. It is located about five miles in the woods from Mile 21, G. T. P.

LOCAL FISH BUSINESS MAKES GOOD PROFITS

During the month of September there was taken at this port \$155,060 worth of fish at the set valuation of 5 cents a pound. Of the catch, halibut represented the largest. There were 11,020 hundredweight of that variety.

Salmon came very close to the halibut with 10,552 hundredweight. Of that amount 4,100 cases were canned, and 7,680 hundredweight salted.

Of cod, 4,440 hundredweight represented the catch. Forty hundredweight of this was used fresh, while 4,700 hundredweight were shipped green salted.

The Canadian Fish and Cold Storage Company brought in 235 tons of cod from Bering Sea, as previously recorded.

"ISLE OF SPICE" A HIT.

Another large house gathered at The Westholme last night, when the Juvenile Bostonians presented "The Isle of Spice," which proved to be about the best offering these clever little artists have appeared in to date. This clever comedy has a snap and dash to it which keeps everyone on their toes from the rise to the fall of the curtain. Patsie Henry scored a great hit with her "Goo-Goo Man" song, taking all fourteen encores.

CAPT. KENDALL HAS STILL MORE ILL LUCK

Montrose, Commanded by Late Empress Skipper, Ashore in River Loire.

Nantes, France, Sept. 28.—The British steamer Montrose, from Quebec, is ashore in the River Loire, with her stokehold full of water. The Montrose is the steamer that carried Dr. Harvey H. Crippen, the London wife murderer, and Ethel Le Neve, on their flight to America in July, 1910. Her captain is the ill-fated H. G. Kendall, in command of the Empress of Ireland when she was run down and sunk in the Lower St. Lawrence last May with a loss of more than 1,000 lives.

FIRE IN MASSET.

A disastrous fire took place a few days ago at Masset, including three or four buildings next to Jas. Martin's store, three of which belonged to Charles Harrison. The damage amounted to about \$8,000.

CIVIC HOLIDAY.

TAKE NOTICE that the City Council has declared Thursday, October 1, 1914, a Civic Holiday, in order to enable all desiring to do so to attend the Second Annual Exhibition of the Northern B. C. Agricultural and Industrial Association.

The Retail Merchants' Association has requested that the retail merchants of the City be not expected to observe the said Civic Holiday, unless they so wish. Its request has been acceded to by the Council.

ERNEST A. WOODS, City Clerk.

In the list of donations to the Fair the list should read \$5,000 from the city and \$3,000 from the provincial government.

FIRE THE MAGAZINE.

Amsterdam, Sept. 29.—The indirect cause of the war is regaled by a report from Vienna that the trial of the alleged assassins of the Austrian heir-apparent, Archduke Francis Ferdinand, and his consort, will open at Agram, November 5.

Authentic information about football games, either scheduled or postponed, can be had by calling up Fitz Cigar Store.

Ten days' sale now on at Demers. Come in and see the bargains. 2241f.

HAND TO HAND FIGHTING LITTLE PROGRESS MADE

(Special to The Daily News.)

London, Sept. 28.—The Times correspondent telegraphs from Bordeaux: "The rival armies are now close together, a few hundred yards only separating the trenches yesterday. Everywhere the German attack was unavailable and the close of the day found the Allies reaching still farther to the north. The battle has become to some extent a race between the Allies' movement on the left and the German movement against the Allies' center and right."

TWELVE BRITISH SHIPS ALREADY BEEN SUNK BY GERMAN CRUISERS

(Special to The Daily News.)

London, Sept. 28.—(Special 5:30 p. m. Monday)—It is officially announced that Duala, the capital of German Kameruns, West Africa, has surrendered to the British forces. The Admiralty report today tells that twelve British ships have been sunk on the high seas by German cruisers up to Wednesday last. Eight other ships were sunk by mines. This refers only to merchantmen and not to ships of war, of which the Germans officially admit the loss of seven up to the present and the British eight.

SOLDIERS BEING INOCULATED AT VALCARTIER.

To guard against any outbreak of fever or disease in the camp, every soldier is inoculated with a serum which renders the body immune from contagious diseases.

BIGAMY CASE HAS ATTENTION OF COURT

Several Witnesses Called to Prove Case but Identity of Party Called in Question.

Alfred T. Harrison, charged with bigamy, appeared before Police Magistrate Carss yesterday afternoon.

W. Shrubbsall was the first witness called. He gave evidence that the accused had worked for him and that he had received letters from Mrs. Harrison in England purporting to be "this man's wife."

Gordon S. Wilson, brother of the injured girl, testified that Harrison married his sister and lived with her in the interior, afterwards moving to Juneau, Alaska. When reports of Harrison's first marriage came out he thought them untrue. Finally, he followed them up and believed they were true. He went to Juneau to bring his sister home. He had hot words with the accused, during which he referred to a picture of the first wife and that the accused admitted her existence, but said: "How are you going to prove it? If you want trouble why you can have your fill of it." With this he offered to fight, but Wilson walked away.

Rev. J. F. Dimmick testified to having married Harrison to Henrietta Wilson on December 31, 1913. He had taken the usual precautions and asked the usual questions.

J. H. McMullin testified to the marriage certificate of the accused.

L. W. Patmore, for the accused, showed that by the code of law it was necessary to (1) prove the fact of the first marriage and its validity, (2) prove the identity of the individuals concerned in it, (3) prove the existence of a second marriage and (4) connect the identity of the party in both cases. He contended that the Crown had not proven any of these things. While the original marriage certificate was produced, he contended that there was nothing to show that it was the same man.

A. M. Manson, for the plaintiff, showed the accused had written a letter to J. H. McMullin in which he admitted that he had been married and had a "legal separation," which, of course, didn't entitle him to marry again.

F. Peters, acting on behalf of the Crown, also contended that while there may not have been produced evidence enough to convict him, there certainly was enough to send him up for trial. Sentence was deferred until Wednesday morning.

SHOULD CITY MARKET PAY LOCAL LICENSE?

Hot Discussion in Council Over Matter—Finally Decided to Try It Out as It Is.

The public market caused a big discussion at last night's City Council meeting. The regulations covering it allow a farmer to appoint an agent to handle his produce.

Alderman Morrissey said this was simply establishing a commission business in which the agent had free rent, water, light, and no license fees. This, he concluded was working a hardship on competitors. It was shown on the other hand that a farmer from up country could not afford to come down with each shipment, which would be necessarily small for a time. The people should be allowed to get this fresh produce as cheaply as possible and the farmers should be encouraged to trade. After a great deal of talk, not much to the point, it was decided to try it out and leave any changing till experience proved the necessity.

FREE GUESSING CONTEST.

On Wednesday, Thursday and Friday of this week we are running a Free Guessing Contest on a \$45.00 eight-day Gold Clock.

Each person is entitled to one guess each day and the person guessing nearest the time this clock will run down will win the clock.

The clock was wound at 10:45 a. m. on September 21.

Call every day and try your luck at Mark's Jewelry Store on Third Avenue. 225-27

TRANSIENT DISPLAY ADVERTISING—50 cents per inch. Contract rates on application.

DAILY EDITION Tuesday, Sept. 29, 1914.

The letter of a local rate-payer with respect to the demand of the sanitary department, that all scavenging cans must be standardized, is well taken. This is not a time to heap expense on the public.

The official report and copy of evidence, being a volume of over six hundred pages, of the commission which inquired into the sinking of the Empress of Ireland has just arrived at this office. It is a stately volume and full of scientific and technical information as well as a good deal that "he who runs may read."

It can only be guessed and that vaguely, what will be the effects of this titanic European

struggle, but one thing seems certain: we are witnessing the horrible death-throes of a tyrant militarism.

Since the Bismarckian regime everything in Germany has been subservient to the dictates of this hydra-headed monster. For forty years it has swallowed up hundred of millions of dollars every year from the earnings of the German people, and demanded a similar outlay by France and Britain to keep up what was practically a European naval and military police force.

When Prussian militarism has shouted its last "hoch" and dug its last trench, but not till then, will the grim struggle cease, and then what?

Again it can only be guessed at, but it seems certain that democracy in all Europe will come into its own. That absolute monarch, the Czar of Russia, has already promised wide measures of reform, and they must be more than mere promises. To form a republic seems to be the only solution for Germany.

All this looks like taking a great deal for granted, but, being British, how can we do otherwise? In this struggle Right must be Might and unconquerable. Universal peace may still be a long way off, but in Europe, it could only be reached through war, and when the last shot has been fired we will be one great step nearer the goal.

"The Golden Slipper" Will Be Presented at The Westholme Tonight.

Bringing Doris Canfield back into one of her favorite characterizations (that of an English Johnnie), the Juvenile Bostonians will step "The Golden Slipper" onto the boards at The Westholme tonight and there is little doubt that this, one of the most charmingly tuneful musical comedies, will with little effort take one more step which will land it in the good graces of local theatre patrons.

WOMEN ASKED TO HELP.

Belts and Socks Will Be Badly Needed This Winter.

London, Oct. 26.—Belts and socks are the prime need of the British expeditionary army, and every woman in the Empire is asked to do her share to supply this demand.

With the approach of winter 300,000 pairs of socks and an equal number of belts, knitted or woven, according to the War Office estimate, should be supplied to supplement the regular provisions of the government.

Almost any lazy cuss can make a noise like a hustler when out on parade.

TWO B. C. LACROSSE TEAMS TO PLAY AT BIG FRISCO FAIR

San Francisco Will See Two Canadian Twelves in Action at Exposition.

The athletic attractions officials of the Panama-Pacific Exposition at San Francisco next year are corresponding with Mr. Norman DeGraves, president of the Vancouver Amateur Lacrosse Association, with a view to arranging for a visit of two British Columbia lacrosse teams to compete at a lacrosse tournament to be held at the big fair next year.

One of the chief features of the international athletic program at the exposition is a lacrosse tournament. For this event four days are being set apart in October for the Canadian national game. President DeGraves is now outlining plans for the California trip.

That the V. A. C. Mann Cup-holders will be one of the teams to make the trip is practically assured. Just what other team will go will not be determined until next season. It may be Victoria or New Westminster, or an all-star team made up of players from both cities. The winners in the tournament will be presented with medals.

CANADIAN PACIFIC RLY. SUMMER EXCURSIONS FROM PRINCE RUPERT TO

COL. ROOSEVELT SUBSCRIBES TO NEW DOCTRINES

Wichita, Kan., Sept. 28.—Addressing a statewide meeting of Progressives here, Theodore Roosevelt elucidated his position on important subjects of legislation. He discussed the relations of capital and labor at some length, pointing to the Colorado labor troubles as illustrating the failure of national and state governments to enact and enforce effective laws, and pointed to the New York, New Haven & Hartford Railroad scandal as an example of capital gone wrong in the absence of proper governmental control.

Business, he asserted, is entitled to its profits, and we must learn to accept the principle of combination of capital as of the highest economic value but this acceptance, he insisted, must carry with it a fair share of the profit for the employee. The industrial situation has greatly changed in the last twenty-five years, he said, for whereas at the beginning of the period mentioned only about 25 per cent of the people were employees, at this time half of the people live on wages.

Congressmen erred in defeating reform measures proposed by Progressives, the speaker asserted, mentioning the Murdock trust bill, the tariff commission bill, the federal employment bureau bill and the bill for the abolition of child labor, as measures which, he said, were blocked by opponents of the Progressives.

This opposition, he said, emphasized "the need of our demand for a reform of the political machinery, notably the reform of the presidential nominating system." Expanding the labor theme, Col. Roosevelt said: "There must be full participation in the industry of the three big factors—adequate capital, successful management and highly paid and highly effective labor. There must be full and ungrudging recognition of labor's rights in industry and, on the other hand no less recognition by labor of its responsibility as to output and its share in the responsibility to the public for stability and peace in industry."

"Conditions in Colorado," he asserted, "are primarily due to our failure as a nation to provide the kind of remedy and to adopt the kind of attitude that I advocate, and that all of us who feel as I do are endeavoring to bring home to the national conscience and to the national understanding. In the case of the Colorado Fuel and Iron Company we see the absolute negation of the principle of industrial democracy."

The colonel emphasized his belief that every wise employer or corporation should recognize the right of men working for wages to bargain collectively, whenever and so far as they desire, and in the form which they decide. "We must turn the laborer into a capitalist," he said, "giving him a share in his profits and management of the industry."

KIDNEY TROUBLE AFFECTED HIS SPINE

Suffered For Forty Years Until He Used "Fruit-a-tives"
 BRONTE, ONT., OCT. 31st. 1913.
 For about forty years, I was troubled with Lame Back brought on by Kidney and Bladder Trouble. I was never able to get to my bed with the trouble, and it affected my spine and I had to get up for a time. I took advertised medicine which never did me any good. I saw "Fruit-a-tives" advertised and decided to try them. They did more good than any other remedy. My son suffered from the same trouble and frequently had to leave off his job, but "Fruit-a-tives" remedied his trouble. I would strongly advise anyone suffering from Kidney and Bladder Trouble to use "Fruit-a-tives".

DEADLOCK WITH GERMANS IS A VICTORY FOR ALLIES

TIME IS ON THE SIDE OF THE ALLIES — TO WIN THE GERMANS MUST HAVE ACTED QUICKLY—IF ALLIES EVEN HOLD THEM THEY WIN.

For two weeks the artillery duel between the big guns of the Allies and the Germans has continued, and both sides report that "there is no change in conditions." All along the vast battlefront birdmen are flying in the endeavor not only to locate the masked batteries of the Germans, but to discover where the lines are weak and offer opportunity for attack. There have been forward rushes here and there, followed by vigorous German counter-attacks, but, speaking generally, the position of both armies remains unchanged. Is it, then, a drawn game? Even that would be a French win, for the Germans were the invaders, and they are now on the defensive, holding less than a tenth of the soil of France. But the end is not yet. The well-chosen and admirably prepared positions now held may save the Germans from a repetition of the disaster of the Marne, but every day they remain where they are is a day lost for an army which can serve its country's cause only by the utmost haste in compassing the destruction of the allied forces.

Germany is being drained not merely of her life-blood on the battlefields, where the dead are counted in thousands, but she is being drained of her wealth, which is almost as important in waging war in this age of machinery as the men who handle the engines of death. Every day millions are spent on provisions and ammunition. Every day the nation loses the productive capacity of almost six million men. Every day German industry comes nearer to a complete standstill because raw material can no longer be brought in by sea or land save through the quite inadequate ports of Holland, nor can the finished product be exported. Germany is bleeding to death, and every day that her greatest army remains entrenched on the hills around Rheims and Laon and on the banks of the

Aisne brings appreciably nearer the inevitable collapse. Courage cannot take the place of food, nor will daring strategy make good the failure of ammunition and supplies.

The Allies have no such urgent need for haste as the Germans. Britain and Russia, as has already been pointed out, have only begun to fight. For a year at least their forces in the field will be constantly increased, while Austria already has called up all citizens capable of bearing arms, and immature youths and gray-bearded men are now in the German ranks. There is no hurry. Time will do more for the Allies than the most resourceful of their generals. Gallieni thinks that the general engagement now in progress will continue for a fortnight. It may be terminated by the landing of Britain's Indian army at Dieppe or Havre, and the addition of enough British troops to constitute an army sufficiently large to turn the German right flank north of La Fere and Laon.

If the German invasion of France fails definitely as a result of the battle now being fought the line of retreat must be through Luxemburg and eastern Belgium. The Allies will be under the necessity of following close upon the retreating Germans, and this will take them to the Rhine in the vicinity of Coblenz and Cologne. The crossing of the Rhine in the face of strong German defensive forces on the right bank will be one of the greatest tasks that could be given an army. The probability is that before it is attempted the Allies—who by that time will include half a million Italian troops of the first line—will seek to create a diversion and draw away part of the defenders by an advance through the Tyrol into Wurtemberg and Bavaria. The "turning" of the Rhine defence would practically end the war, for the interior of North Germany offers few strong defensive positions.

BOMB-DROPPING TOUR GERMAN ZEPPELINS

Paris, Sept. 27.—German aeroplanes today dropped a bomb into Paris, blowing the head off a man and shattering the limbs of his daughter. The bomb fell close to the Eiffel tower. It was probably intended to destroy the wireless station there or the army stores near by. Many houses, including that of the Prince of Monaco, were badly damaged. Three other bombs fell in the city but did no damage.

A German Zeppelin made a bomb-dropping tour of several Belgian cities last night. Five bombs were dropped at Dyzne, mortally wounding an old man and damaging the roof of an hospital. The other bombs did no damage.

CORPORATION OF THE CITY OF PRINCE RUPERT.

Notice.

To Citizens re Garbage and Night soil Collections: After September 30, 1914, all cans that are not of regulation size and dimensions will be collected and destroyed. The regulation cans, as provided by Bylaw, may now be obtained from the City by making application to the Collector's Office, upon payment of:

- Night soil cans.....\$.80
 - Garbage cans (15 gal.) \$2.25
 - Garbage cans (30 gal.) \$3.00
- L. PORTER,
 Sanitary Inspector.

ENEMY SHOWS ACTIVITY ALL ALONG LINE

London, Sept. 26.—The official press bureau this afternoon issued a statement reading as follows: "There has been much activity on the part of the enemy all along the line in France. Some heavy counter-attacks have been repulsed and considerable loss has been inflicted on the enemy."

CITY COUNCIL DOINGS.

There will be no bylaw to pay for the redecking of Fifth and Sixth avenues, against which the property holders protested so strongly without avail. Most of the work is already done, as the Council decided to go ahead with the work in the face of the protest. Now it happens that this must be paid out of general funds. The city solicitor reported last night that a bylaw could not be brought in after the work was done. It was decided to drop the rest of the planking in view of the muddle.

In discussing the city market affair, Alderman Montgomery said it would be a good thing to see some of the local merchants out of business, as there were too many parasites now. Alderman Morrissey took it as a personal reference and told him so in plain talk.

The city weigher wants a raise. In other words, the half commission he makes on weighing coal doesn't give him a living wage. He wants for the remainder of the season to be given all he makes. The city supplies him a free store building and other incidentals. This brought up the whole question of weighing coal. Some of the aldermen didn't know that the city paid for weighing its coal. Others, including the mayor, believed that all coal should be weighed before delivering. Somebody else pointed out that weighing the coal gave no protection for if a dealer wanted to be crooked he could take the coal off after weighing it. No action was taken.

DESTROYER OF LIEGE AND NAMUR KILLED

Berlin, Sept. 29.—The German General Staff, referring to the death of Lieut.-Gen. Steinmetz, says he was killed by a fragment of shrapnel which severed his jugular vein. General Steinmetz directed the fire of the 42.5 centimeter pieces during the siege of Liege, Namur and Baubeuze. Later he was placed in command of a division of infantry. Continuing, the staff says that Rev. Martin Hohohm, captain of a reserve division, was killed by a shell after carrying many wounded men out of the range of fire of the French heavy artillery.

CAPTAIN DE MUSSY NOW AT THE FRONT

Mr. Philpott had a cable today from Mrs. de Mussy in which it is learned that she is stopping in Montredon, Province of Larn, Southern France. Mr. de Mussy is at the front, being a captain of Hussars, and is probably taking part in the big fight now on.

No Criticism Allowed.

London, Sept. 29.—A dispatch Reuter's from Amsterdam says: "A telegram received here says the German Socialist paper Volksblatt, published in Bochum, Westphalia, has been suppressed by the German military authorities and its editor arrested for criticizing the military movements."

PIANO TUNING AND REPAIRING

All my work is guaranteed. Orders by mail promptly attended to. A. Hoelscher, 338 Seventh Ave. East. Piano instruction given by Mrs. A. Hoelscher at above address. 2244f.

Wm. Grant wrote the City Council protesting against a certain kind of trap for plumbing, which, he contended, worked a hardship on the trade. It was referred to the building inspector.

Lindsay's Cartage wants to get paid for removing their coal from the wharf at the time of the Leipzig scare. The order, however, was a military one and the City Council is not responsible. This was the report of the city solicitor on the question.

The City Council will test a carload of coal from Alberta. Mr. Dalrymple offered to transport a carload free and the Council accepted the offer. Some of them wished to make it two cars in order to test two kinds of coal. They will get half a car of each kind.

The old days, when the City Council was a variety show, were renewed last night, when the mayor let loose all the furies at his command and ripped up and down the Council chamber while at the same time trembling from head to heel, and his countenance white as wool. The whole trouble arose over Alderman Basso-Bert expressing satisfaction over the defeat of the street planking scheme on Fifth and Sixth avenues. The mayor was very wrathful because this scheme was defeated and he only wanted someone to vent his rage on. Alderman Basso-Bert remained squelched.

The city purchasing agent presented a report about certain envelopes for city use which he ordered in Vancouver, contending that the local price was too high.

ANTI-WAR PLACARDS POSTED IN BERLIN

London, Sept. 29.—Despite the watchfulness of the German authorities, says a dispatch from Copenhagen to the London Evening News, syndicalist posters proclaiming: "We want peace; down with the Kaiser," are appearing on the walls of buildings in Berlin. Travelers driving through the city between railway stations are ordered to keep the blinds of their vehicles drawn so the posters may not be seen.

German papers received here seem to be adopting a sober tone, some of them even mentioning a possible retreat "for strategic reasons" from France for the purpose of "punishing the Russians."

The prices of food in all the German towns are mounting slowly but steadily. At Hamburg an egg costs one mark (25 cents).

BRITISH COLUMBIANS WILL DO THEIR DUTY

Sir Richard McBride has received the following message from Lieut.-Col. A. W. Currie from the Valcartier Camp, in reply to a message from the Premier the previous day:

"British Columbians with the Overseas Contingent acknowledge with sincere thanks your kind message received this morning. They are determined that when the hour of trial comes their conduct will be such as will justify every confidence placed in them and merit the respect and love of the dear ones at home."

A meeting of the Canadian Fraternity will be held in the Court House on Monday evening at 8 p. m. sharp. All members are urged to attend.

Everything in season cooked the way you like it. London Cafe.

THE NEW POPE, BENEDICT XV.

Above is a picture of Cardinal Della Chiesa, Archbishop of Bologna, elected to succeed the late Pope Pius.

In the Letter Box

Editor The Daily News. Dear Sir—If you will allow me space in your valuable paper I wish to protest against the action of the City Council in their notices saying that after September 30 we must purchase new night soil cans and also garbage cans. If the cans we are now using suit us why should we be compelled to buy new ones, especially at a time when many of us have not a nickel to spare for anything unnecessary.

Surely the Council is acting very high handedly when courts all over the land are showing the greatest leniency in these times of stress—yet they calmly go ahead and sell our property for taxes and order us to buy new garbage cans. Thanking you for this space, A CITIZEN.

PEACE RIVER IS A GREAT COUNTRY

The following, written from the Peace River to a party in this city, speaks for itself: "I have just returned from my trip to the Peace River. I had the best trip of my life and saw the best country that I have come across yet. Great stretches of prairie land as far as the eye could see with bunches of poplar growing here and there and grass growing everywhere up to your waist, made it one of the prettiest pictures I ever saw. This is a country that beats the prairie land to the south along the line of the C.P.R. all to sticks, and, moreover, the climate is better. What is lacking, is transportation. This will come in a few years and a big city will spring up somewhere on the Peace."

NEW REGULATIONS FOR CITY MARKET

The health committee submitted last night the following proposed regulations to the City Council covering the operation of the City Market, which it is proposed to open on the 30th inst.:

- 1.—The market shall be open to any producer or his bona-fide agent or representative, who sells produce from any producer in the district. 2.—The market shall be open every day except Sundays and legal holidays from 8 a. m. to 7 p. m. Saturdays from 8 a. m. to 11 p. m. 3.—The stalls, etc., shall be rent free. 4.—All the stalls shall be kept clear of refuse, and in a clean and sanitary condition. 5.—Fish shall only be sold at the stalls on the concrete floor. 6.—All applications for stalls, etc., shall be made to the sanitary inspector. 7.—All stalls, etc., shall be allotted daily, and must be released nightly. 8.—Neither the corporation nor any of its officers or servants will be responsible for any damage to or loss of stock, goods or wares whatsoever, left in the market building, such stock, goods or wares being entirely at the risk of the owner.
