GERMAN ADVANCE CONTINUES ON BELGIAN CITY OF ANTWERP

GERMAN FIGHTING STILL CONTINUES IN NORTH FRANCE WITHOUT DECISIVE RESULTS—ANOTHER GERMAN CASUALTY LIST SHOWS 10,000 KILLED OR WOUNDED.

(Special to The Daily News—9:30 A. M.)
London, Oct. 8.—The official press bureau says that at North and at Lens there is hard fighting. Elsewhere slight advances and retreats vary throughout the line. The reports are generally satisfactory. The French army is fighting with the

GERMAN GENERAL STAFF ON THE FIELD. The general staff, comprising the chief officers of one of the German armies recently engaged in heavy fighting. They are shown making plans for their advance on Paris, when the Germans were meeting with such overwhelming success in the first stages of the battle.

AIR CRAFT PASSED OVER CITY, DROPPING BOMBS—REFUGEES FROM ANTWERP ARE RUSHING TO HOLLAND—CITY WILL BE BOMBARDED.

(Special to The Daily News—11 A. M.)
Antwerp, Oct. 8.—The conditions of panic among the population was increased today by the appearance at 11 yesterday morning and 3 yesterday afternoon of a German aircraft which dropped bombs, destroying several houses and killing a score of people.
London, Oct. 8.—The Times correspondent at Rotterdam says there are a hundred thousand Antwerp refugees in Holland. The Germans succeeded in crossing the River Nethe on Tuesday, though three times the detachments were thrown back or wiped out. Great numbers of refugees are leaving. Presumably Antwerp will now have to submit to bombardment or stand a siege.

AUSTRO-GERMAN ARMY TRIED TO TURN FLANK OF BIG RUSSIAN FORCE

(Special to The Daily News—9:30 A. M.)
London, Oct. 8.—The Austro-German flying column, which advanced from Silecia toward the sea, attempted to outflank the Russian forces massed on the banks of the Dnieper, threatening Cracow. The river was flooded and therefore unable to be crossed. The Austro-German force was easily driven back with great losses by the Russian artillery on the opposite bank of the Vistula.
The official statement given from Antwerp says that a very violent engagement was fought on all lines, but the situation is unchanged.

BELGIAN CAPITAL MOVED TO OSTEND

(Special to The Daily News.)
London, Oct. 8.—An Amsterdam despatch says the Belgian capital was moved from Antwerp to Ostend yesterday. This does not necessarily mean the early fall of the city. The Germans are naturally making a desperate attempt to take it, but there are two circles of fortifications yet intact. In the meantime the government staff is safer at Ostend.

BRITISH SUBMARINE MAKES RAID AND RETURNS IN SAFETY

(Special to The Daily News.)
London, Oct. 8.—The Admiralty announces that the British submarine E-9 has returned safely after having torpedoed a German destroyer off the estuary of the Ems. The submarine is the same that sank the German cruiser Hela.

POPULAR TRAVELLER VISITING RUPERT

Prince Rupert is honored by a visit from Mr. Will J. Long of Toronto, who is making his first trip to our city in the interests of the R. V. Long Co., Toronto.
Mr. Long expresses his admiration of Prince Rupert in glowing terms and trusts that he will have the pleasure of returning shortly for a longer stay.
Mr. Long is one of the most popular travelling salesmen in Canada, besides being one of Canada's best amateur golfers, and incidentally a crack driver of speedy motor cars. The famous car known all over Eastern Canada as "John Furlong" is one of Mr. Long's pets.

BUY HORSES OF UNCLE SAM

Ten Thousand to Be Handled for British Use.

Pittsburg, Pa., Oct. 7.—J. S. McFayden, general manager of the Herr's Island Stock Yards here, today was notified by the Pennsylvania Railroad to prepare to handle 10,000 horses tomorrow, feeding and watering and unloading them for a rest of five hours. They are being brought from East St. Louis and are on their way to New York, where they will be shipped to Europe by the British government. Nine thousand more are to follow as rapidly as can be handled. The horses are traveling in special trains, fifty cars to the train.
Mr. J. Smilie, representing Louder Co. of Toronto, who build 20th Century clothes, arrived in the city yesterday. He is paying a business visit to the local agents, Brant Company, Ltd.

BURGOMASTER MAX SHOWN AS MAN OF INFINITE RESOURCE

Rome, Oct. 5.—Reports from Berlin give particulars of the negotiations between General von der Goltz, the German governor of Belgium, and Burgomaster Max of Brussels, which ended in the imprisonment of the plucky official.
Von der Goltz ordered the burgomaster to remove the Belgian flags from the public buildings and Max published a manifesto which explained to the people the necessity to comply before force. Von der Goltz was furious and let it be known that nobody was entitled to publish a manifesto except himself.

He ordered that all Max's manifestos be covered with white paper, but the next morning revealed that all the covering sheets had been oiled and were thereby rendered transparent.
Railway Not Worrying.
London, Oct. 6.—News of the confiscation of the Canadian Pacific Railway Company's Austrian property caused amusement here, as, seeing that dividends are being withheld from hostile countries, the company will in the long run be able to recover possession of its property on its own terms, which are unlikely to be a figure agreeable to the enemy.

IDENTIFICATION DISC WORN ON ACTIVE SERVICE.

The identification disc is worn by all soldiers in the British army. It is made of aluminum and is worn on a cord around the neck. With the cord the disc weighs a half ounce. Its actual size is that of a 50 cent piece. On the disc are punched in raised letters the wearer's name, regiment, official number and religion. This disc will be supplied to the men of the Canadian contingent when they arrive in England before going to the front.

GERMANS REINFORCED; RUSSIANS HELD UP

(Special to The Daily News.)
Petrograd, Oct. 8.—A Russian bulletin says the Germans have brought up reinforcements from Koenigsburg and continue to oppose with tenacious resistance, profiting by the defiles and marshes.

UNKNOWN MAN DIES IN THE HOSPITAL

The man taken to the hospital a few days ago suffering from a loss of memory died last evening without having given any definite information as to his identity. The letters "G. M." were tattooed on his arm. When addressed as "George Martin" he made signs of recognition, but they were not definite. A post mortem examination showed that he died from a hemorrhage of the brain. The first few days after being taken in by the police he was detained in jail, but as his strength appeared to be melting away he was removed to the hospital.

MASSETT HOSPITAL SOCIETY ORGANIZED

A meeting was held on Tuesday night at the St. Ives Hotel for the purpose of organizing a society in connection with the Massett Hospital. The following officers were appointed to act until December, 1915: President, James Martin; vice president, W. E. Wanless; secretary, Charles Harrison; directors, J. K. Anderson, F. Hicks, S. Ives and R. O. Daviss. A. E. Jessup was appointed as one of the government directors. President Martin then read over the bylaws, which were slightly altered and afterward adopted. The membership fee was fixed at \$5 per annum.

Presentation to Capt. Wearmouth

A deputation at Massett waited on Captain Wearmouth, of the G. T. P. steamer Prince John, on Thursday afternoon and asked him to come up town. The party proceeded to Hicks' cigar store, where Mr. Charles Harrison, in a few well chosen words, presented the captain with a set of pipes, cigar case and a box of cigars, subscribed for by a number of friends on the occasion of his recent marriage.—Islander.

Mr. and Mrs. W. M. Law returned to the city yesterday after an extended trip across the continent. They spent considerable time around Boston. On their return they visited in Seattle and Portland. Mr. Law reports business on the lower coast considerably improved. The American shoe trade is also booming.

KAISER URGES AIRMEN TO DROP BOMBS IN BRITISH CAPITAL

Amsterdam, Oct. 5.—Information has been received here from Berlin that the Kaiser has promised to confer the special decoration of the second class of the Order of the Red Eagle on the first German aviator who succeeds in dropping explosives on London, and other honors are promised to German aviators who succeed in dropping explosives on some other town in England or a British warship.

FOUR AUSTRIAN SHIPS SUNK BY SEA MINES

London, Oct. 8.—Four Austrian torpedo boats and two destroyers were reported lost off the coast of Albania by coming in contact with mines. The majority of the crews lost their lives.

FIRST EXECUTION IN TEMPORARY CAPITAL

Bordeaux, Oct. 5.—Pierre Nascia was put to death today "for military reasons." It was the first execution under military law at the temporary capital.
Nascia faced the end bravely. As he stepped from the patrol wagon that brought him to the Arlac parade ground he was rolling a cigarette, which he smoked while he listened to the reading of his sentence. Then he shook hands with the chaplain and stepped briskly to the execution post, folded his arms and looked straight at the firing squad.
He refused to have his eyes bandaged. At a sharp command a volley sounded and Nascia sank to his knees dead. Detachments from all the regiments of the Bordeaux garrison witnessed the execution, and when it was over defiled past the body.

TEMPORARY BUILDING FOR IMMIGRATION DEPT.

The Dominion government has decided not to proceed with the immigration building on Digby Island and a temporary one is being put up on the G. T. P. wharf, next to the Rupert Marine Iron-works. The building is 32 by 70 feet, one and a half stories high and will be finished inside by two coats of plaster. Mr. G. H. Munro has the contract, and a force of men are at work, the first floor being already laid.

At certain points they have moved back, particularly to the north of Arras, where the fighting is developing under conditions favorable to us. Operations of opposing forces of cavalry are developing almost as far as the sea coast on the north.

DAILY EDITION  Thursday, Oct. 8, 1914.

All philanthropic people are trusting that the present war will be the last and that the conquerors will dictate the armaments of the future. Incidentally it might be said that the Allies must be the dictators. Were Germany crushed there is no reason why the rest of the world could not get together and arrange to prevent any future race in armaments. The Czar was the first to suggest an international tribunal at The Hague, and his attitude toward the Poles and Jews since this war began shows that he is still thinking along philanthropic lines. Britain has always been anxious for an arrangement of this kind and the present war may be the means of bringing it about.

If this is an arrangement "devoutly to be wished," why does not Italy and the United States take a hand in it now and settle the question quickly? If an agreement for disarmament were guaranteed the fight would become more of a world struggle than it even now is and most of the nations now concede that the Allies are fighting for the liberties of the world. While the Allies are likely to win in any case, the assistance of Italy and the States would shorten the struggle and reduce the misery to a minimum. The Allies co-operating with Italy and the United States could easily compel the

nations to let their armaments remain as they are and save the world a huge waste. Only such an arrangement will save the nations from bankruptcy, for they cannot pay the cost of this war and keep up the race at the same time.

Cholera, the eastern scourge, is reported to have broken out in the Austrian army. If this is true, there is no reason why it should not spread to the Russians and perhaps to the other armies in the field. Indeed it is conceivable that the disease should be spread on purpose in order to weaken the ranks of their opponents. If the dread disease ever gets a hold it will end the war quicker than any number of battles.

The activity of the Zeppelin plants will bear watching and no doubt the British government is doing this. The great airships about which we used to hear so much have done very little damage to date and only two solutions of their inactivity seem possible. Either the whole system has resulted in a "frost" or they are kept quiet for the purpose of making an unexpected raid in the future. It is hardly possible that they would attempt to land troops in Britain by means of airships and with the latest guns it is difficult to see how they could attack the fleet. The most probable solution is that the air fleet is not as practical as was expected.

SIR WILFRID LAURIER TO URGE RECRUITING

Ottawa, Oct. 6.—Sir Wilfrid Laurier will go to Montreal this week to address a mass meeting at Shomer Park, with a view to stimulating the recruiting for the French-Canadian brigade being raised for service at the front. The recruiting and equipping of this brigade will be the next serious task of the militia department, and the four regiments may constitute the first reinforcements to be sent from Canada.

Col. Hughes says that arrangements will be made as quickly as possible for the enlistment and training of troops at various Canadian centres in order to provide all necessary reinforcements for the Canadian forces.

PASSING EVENTS

A young laundress, wearing the uniform of a French soldier, was among the wounded who have arrived at Noisy-le-See in the Department of the Seine, France. The young woman had fought by the side of a company of Zouaves in the trenches and her sex was not discovered until she was wounded. The commanding officer complimented her on her bravery before sending her to the rear.

The total number of aeroplane pilots killed thus far in the war is estimated at fifty, divided among the belligerents as follows: Russian, 16; French, 12; English, 4; German, 18. This does not take into consideration pilots and crews of dirigibles, many of which have been reported destroyed.

General Jacobus Hendrick De La Rey, the well known Boer general, has been shot dead near Johannesburg by bushrangers, who when pursued and brought to bay committed suicide. General De La Rey was born in 1848. He was a member of the first Volksraad of the Transvaal and commanded the Lichtenburg Burghers during the Boer war, during which he won a high reputation as a military leader. After the war he went to England with Generals De Wet and Botha, and took an important part in the peace negotiations.

The British parliament was prorogued on September 18th, amid scenes of enthusiasm seldom witnessed in that staid deliberative body. The King's speech, which was read by commission, said: "After every endeavor had been made by my government to preserve the peace of the world, I was compelled, in the assertion of treaty obligations deliberately set at naught and for the protection of the public law of Europe and the vital interests of my empire, to go to war. My navy and my army have with unceasing vigilance, courage and skill sustained, in association with our gallant and faithful allies, a just and righteous cause. From every part of my empire there has been a spontaneous and enthusiastic rally to our common flag. We are fighting for a worthy purpose and we shall not lay down our arms until that purpose has been fully achieved."

When the announcement was made that the royal assent had

been given to the Irish home rule, the Welsh church disestablishment bill and to a number of emergency bills, cheers were given for the passing of the Irish and the Welsh bills, the Nationalists and Liberals broke into loud cheers, the National Anthem, at the suggestion of Mr. Will Crooks, the Labor leader, closing the proceedings. As the members filed out of the chamber Mr. Crooks cried out: "God save Ireland!" Mr. John Redmond, the Irish Nationalist leader, replied: "God save England!" Parliament will sit again October 27.

An order in council has been issued at Ottawa prohibiting airships from flying within ten miles of any of the chief cities or fortified points in Canada, or carrying passengers across the international line, except under certain conditions.

The Belgian commission which came to the United States to protest against the cruel acts of German troops in Belgium saw President Wilson on September 17th, and formally presented their report, which is a shocking indictment of the invaders of their country. Mr. Wilson gave the commission a cordial and sympathetic reception, but declined to express any opinion, leaving that for the tribunal of history to decide.

The British Pacific fleet has occupied Herbertshoehoe, on Blanche Bay, the seat of government of the German South Sea possession of the Bismarck Archipelago and the Solomon Islands. The archipelago includes a large number of islands, with a total area of about 18,000 square miles, came under German influence by an agreement with Great Britain in 1885. The islands are north and northeast of New Guinea and German New Guinea is included in the same jurisdiction. They have a population of about 200,000.

One of the most venerable ikons in Russia, representing a vision of the Virgin to the Russian saint Sergius Radonejsky at the time of the overthrowing of the Tartar yoke has arrived from Moscow at the headquarters of Grand Duke Nicholasievitch at the front. It was received by the Grand Duke and his staff and a procession of clergy. This ikon has accompanied the Russian armies since the time of Alexis, father of Peter the Great.

AFRAID SHE WAS DYING

Suffered Terribly Until She Took "Fruit-a-tives"

JEAN DE MATHA, JAN. 27th, 1914.

"After suffering for a long time with dyspepsia, I have been cured by 'Fruit-a-tives'. I suffered so much that I would not eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives', and did not wish to try them but, seeing little confidence in them but, seeing that my husband's sister, I decided to do so and at once I felt relief. Then I was cured. While sick, I lost several pounds, but after taking 'Fruit-a-tives', I quickly regained what I had lost. Now I eat, sleep and feel well—in a word, I am completely cured, thanks to 'Fruit-a-tives'."

REDMOND APPEALS FOR IRISH PEACE BY WAY OF WAR

Dublin, Oct. 5.—John E. Redmond, the Irish leader, in making recruiting speeches at Wexford on Sunday eloquently appealed for a reconciliation on the home rule question. He said:

"I will meet Andrew Bonar Law by gentleness and by reason. I pray with all my heart and soul that out of this terrible war one blessed result comes for Ireland, and that is that as Irishmen go on fighting side by side, Catholics and Protestants and north of Ireland Irish by south of Ireland Irish, it may prove a sign of future unity of our Irish nation."

"German domination would mean the loss of all the liberties we have won. I will put it quite plainly, as General Botha did in his speech. Are you for Britain and her colonies, or are you on the side of Germany?"

"I believe we cannot remain aloof. The war has come upon us and we must take our choice. The only choice of honor, of safety and of statesmanship is to defend the empire's liberties against their declared enemies."

The number of new recruits for the British army obtained in Ireland amounts to about 26,000. More than 8,000 of these are from the Dublin district, 4,000 from the Cork district and the remainder from Belfast. Not all the Belfast recruits are Unionists nor all the southern recruits Nationalists.

WILL THERE BE NATIONAL BANKS FOR CANADA?

(From the Toronto World.)

The banking and currency question grows in interest for the general public. Our banking magnates should attend a meeting like that in West Toronto or the one at Runnymede, in the same district, both within the past ten days. The people appeared much concerned as to the scarcity of money, lack of work because of the refusal by the banks of credit to employers, and the granting by parliament of a moratorium on banks—suspension of gold payments for bank notes—while no one had yet come forward with a reasonable plan for the deferment of payments in the case of mortgages on poor people's homes, where the owners were not able to meet them because of lack of work or in cases where payment in full was called for, the time limit of the mortgage having expired and renewals were not to be had.

leadership of credit in Canada, are under no compulsion to discharge the function that should go with the right to issue currency and sell credit. They can refuse to act, and they have refused to act, in time of war, and they have withheld their own currency and they have refused credits; because in the last analysis it will be found that they came to the conclusion that there was a risk in business of this kind in war time—and there was no force compelling them to take this risk!

These are the questions that the people of Canada must discuss from this time on, and there must be no let up until such time as national currency is established and that the nation has control of the credit created by the nation for the benefit of business generally. This may be a big undertaking, and it may be hard to get support for it at the start, but the cause has been launched, and it will win here, as in every other country. The pioneers in this work need not be discouraged if business men are slow in expressing themselves; they are thinking a great deal, and it might be as much as financial life is worth to directly antagonize those who now have a monopoly of credit. And this same dread has more or less characterized parliament, and parliament up to date has practically been a registering machine for strengthening the monopoly of chartered banks! As Mr. Money said in his article, there are many things that will never be the same again after the war," and that "one of these miracles will be the way in which financial credit is transferred from the control of individuals to the control of the state."

"I believe we cannot remain aloof. The war has come upon us and we must take our choice. The only choice of honor, of safety and of statesmanship is to defend the empire's liberties against their declared enemies."

 Smould'ring flames of war have fanned,
 Truth already robs of glamor
 Death for King and Fatherland.

It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

Carry Your Patriotism Into Your Buying!

For ten years we have been talking practical patriotism—urging Canadians to buy the Canadian-made Gillette Safety Razor in preference to cheap German makeshifts.

The war has clinched our arguments.

So confident are we of the future of the only safety razor made throughout in Canada, that we are bringing out within a few weeks a New Model the

GILLETTE "BULLDOG"

It's British to the hilt, and looks the part. The price stands at \$5.00—no increase over the Standard Gillette Set. Watch for the Gillette "Bulldog" ["what we have we'll hold"] in the shop windows—you'll like it.

The war has not checked Gillette progress. Our factory is running full time, with complete staff. Thus we are doing our part toward maintaining Canada's prosperity. Do yours by buying, in preference, goods

EMPEROR'S OPINIONS

German Ruler's Comments on French Army Interesting in View of War Developments.
An extract from a recent issue of the Echo, one of the newspapers of Paris, gives an interesting account of a conversation in which Emperor Wilhelm of Germany expressed his opinion of the French army. It follows:
"In June, 1897, the nephew of the Marquis of Noailles, then lieutenant of dragoons, came to pay a visit to his uncle, who was our ambassador at Berlin.
"He was invited to dinner by some German officers and the Emperor, falling in with the party unexpectedly, took his place among the guests. He conversed familiarly with the lieutenant and spoke to him of the French army in these terms, which lend a lively interest to the present circumstances:
"You have in your country a very fine army; I have been able to appreciate that when I have been in France.
"Your infantry is admirable. I think, nevertheless, mine is not inferior. I cannot, unfortunately, say as much for my artillery. As for material, as well as teams, French artillery has a superiority over German artillery, but I do not despair of remedying this inferiority.
"On the other hand, my cavalry, as you have been able to judge, is much better than yours, notwithstanding you have had a man whose counsels, if they had been followed, would have given you the first cavalry in the world."
"This was General de Galliffet, whose papa and grandpapa, like himself, had always admired and applied theories.
"Thus seventeen years have elapsed since we possessed these marvellous engines which are making such ravages in the German ranks. William had already recognized the superiority of French artillery. And, as for the superiority of his cavalry, he ought to be now strongly edified on this subject."
