GERMAN SUBMARINE SUNK ANOTHER BRITISH SHIP

FIGHTING ON LAND SEEMS TO FAVOR ALLIES--ENORMOUS LOSS TO GERMAN-AUSTRIAN FORCES

ENEMY HAS ALREADY LOST NEAR MILLION OF ACTIVE ARMY

GERMANY LOST 300,000 IN FRANCE AND BELGIUM--HALF OF THAT NUMBER IN EAST--AUSTRIANS HAVE LOST FIVE HUNDRED THOUSAND.

(Special to The Daily News--2:30 P. M.)
Petrograd, Oct. 16.—Refugees who fled from Warsaw at the approach of the Germans are returning, the Russians having beaten back the German advance chiefly through the excellent work of their artillery. Fighting in progress 50 miles from

Warsaw. The town Grodsk was taken by the Russians. The Chronicle learns from a correspondent that the authorities at Berlin estimated the total losses in France and Belgium at 300,000. The losses on the eastern frontier are estimated at 150,000. They acknowledge that the Austrian losses exceed 500,000.

BRITISH LOSE ANOTHER SHIP--SUNK BY GERMAN SUBMARINE

ONLY FIFTY MEN OUT OF FOUR HUNDRED WERE SAVED--SHIP WAS SEVEN THOUSAND TONS--LAUNCHED IN 1893.

(Special to The Daily News--2:30 P. M.)
London, Oct. 16.—The British cruiser Hawke was sunk in the North Sea by a German subma-

rine. Fifty men out of four hundred were saved. The Hawke is an old ship of 7,000 tons and was launched in 1893.

ALLIES' RIGHT WING HAS MADE GOOD SUCCESS AGAINST ENEMY

FRENCH ARE NOW ALMOST WITHIN CANNON RANGE OF THE CITY OF METZ AND MENACE COMMUNICATION OF CROWN PRINCE.

(Special to The Daily News--1:30 P. M.)
Paris, Oct. 16.—The steady hammering of the Allies on the German left wing has brought them almost within cannon range of Metz. The fighting on this end of the battle line is said to have been desperate during the past week.

The French are now in possession of the route from Nancy to Metz as far as Dagny on the Lorraine border and menace the route from Verdun to Metz, endangering the communications of the Crown Prince's army.

ALLIES MAKE STEADY PROGRESS

(Special to The Daily News--2:30 P. M.)
Paris, Oct. 16.—Official news today indicates gains at several points along the front on the left wing taken of Lys. The Allies have taken Estaires on the center of the northeast of Rheims and made an advance of nearly two kilometers on the Heights of the Meuse in the Woivre region; and made gains at South St. Mihiel and near Marcheville.

BRITISH DIPLOMAT SHOT BY YOUNG TURK

(Special to The Daily News--2:30 P. M.)
London, Oct. 16.—A dispatch from Bucharest came to Noel Buxton, a member of the British Parliament, saying that his brother, Charles R. Buxton, who was in Bulgaria to confer with the Bulgarian politicians regarding Bulgaria's attitude on the European war, was shot by a Young Turk, Bachel Hassan.

THE GERMAN ATTACK WEAKENING

(Special to The Daily News.)
London, Oct. 16.—A Times correspondent says the Germans have abandoned the attempt to enter their way to Paris through the Ardennes and are also slackening their efforts on the Heights of Arras and near Rheims, where the Allies have taken several formidable trenches. The German attempt to envelop Verdun was defeated.

GERMANS ARE HELD IN SEVERE CONTROL

(Special to The Daily News.)
London, Oct. 16.—An Express correspondent says that the severe fighting in the northwest of France in the last few days has resulted strongly in favor of the Allies. Unless the Germans bring in heavy reinforcements there is little danger of their reaching a Channel port. Albert and Arras are in the hands of the French but are still being bombarded.

(Special to The Daily News--6 P. M.)

London, Oct. 15.—The German attempts to cut off and capture or destroy the Anglo-Belgian force at Ostend have failed, according to excellent though unofficial authority. On the contrary, the British and Belgians are said to have been joined by French reinforcements and to have repulsed the enemy. The German line stretching

from northeast to southwest across the Franco-Belgian frontier is reported bent back by the strength of the Allies' attack. The British are understood to be bearing the brunt of the fighting in this region.

(Special to The Daily News)

GERMANS WANT MONOPOLY ON GOTT AND RELIGION

London, Oct. 14.—A copy of the Pan-London organ "Deutsche Tageszeitung" received here refers to the speech from the throne on the occasion of the prorogation of the British Parliament on September 18. It declares that without exaggeration almost every word of the speech can be designated as "a deliberate untruth"; and adds that King George's words, "I pray that Almighty God may give us His blessings" were "such a repulsive blasphemy" that the British King could boast of having outdone his predecessors on the British throne. Religious hypocrisy, the paper continues, was usual in a British monarch, and the King was a mere puppet in the hands of his ministers. All this, however, the paper declares, is no excuse for such blasphemous hypocrisy as the prayer in the speech from the throne.

It looks wonderfully good on paper to be shown that the city's electric light bill has been reduced from 18 cts. per kw. hour to 14 cts. When it is looked into, however, it appears to be more of a shadow than the real bone.

The rumor, long current, that the Orangemen of Belfast had given their rifles to the Belgians has been confirmed. Sir Edward Carson was asked about a month ago to come to the Belgians' help with a large number of rifles of the excellent pattern which Ulster volunteers were known to possess.

Speaking of the recent disaster in the North Sea, Lord Rosebury said: "This disaster and the relentless bloody struggle for mastery on the

Aisne will yield one good result. Like the heavy British losses at the battle of Mons, Charleroi and Namur and in subsequent retreat, it is certain to swell the stream of recruits into a flood.

PASSING EVENTS

Dalhousie University, Halifax, N. S., has opened with good classes and a bright outlook. The new dean of the Law School, Dr. MacLachlan, arrived last week.

The appeal for help for the sufferers in Belgium is meeting with a splendid response in Nova Scotia. Large quantities of clothing and food stuffs are being forwarded from all sections of the province.

The Dominion government has decided to give \$50,000 towards the fund for the relief of the victims of the war in Belgium. This amount will be supplemented later on if it should prove necessary.

The new shoe factory of Clark Brothers, St. Stephen, N. B., has been destroyed by fire, with several other buildings, the factory loss, including building and stock amounting to about \$35,000, with \$28,000 insurance.

The P. E. Island exhibition was formally opened last week by Lieutenant Governor Rogers. Other speakers were President F. R. Heartz, Premier Matheson and Mr. Justice Haszard. The addresses were interspersed with singing of patriotic songs by 1,500 city school children.

The Lunenburg County agricultural exhibition was held in Bridgewater last week. Warden Langille presided at the opening on Thursday and Premier Murray gave an opening address, followed by Hon. E. H. Armstrong.

Mayor Dawson of Bridgewater, Mayor Hall of Lunenburg and others. The exhibition was of a high order.

It is proposed that each farmer in the townships of Orillia and Medonte should be asked to contribute a bag of oats for the British army; and Oro, Rama and Mara will probably unite with the others in the scheme. The whole county of Wellington also proposes to have an "oat day" and some farmers, a few of German origin, have promised from ten to forty bushels each.

The British War Office is placing large orders in Canada for socks, sweaters, blankets, boots and other clothing necessary for the troops in the field. The Canadian government has been asked to make necessary arrangements for the supplies required.

An Order-in-Council has been passed at Ottawa, giving the government power to censor all telegraph and telephone messages transmitted to points outside the country and providing that the government can take possession of any telegraph or telephone office. When expedient the government can instead, or in addition to, taking possession of an office, place a censor in control to whom all messages must be first submitted. It is understood that the order is chiefly precautionary, but that a close watch will be kept on messages going to the United States from one or two points.

"Fruit-a-tives" Healed His Kidneys and Cured Him

Their action was mild and the result all that could be expected. My kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old-time vitality. Today, I am enjoying the best health I have ever had."

BRAVE JAPANESE.

Three Seamen Risk Their Lives in Securing German Submarine Mine Which Was Loose.

Vancouver, Oct. 15.—A brave deed done by three seamen of the Japanese navy—outside Tsing Tau is reported in Vancouver. The Japanese torpedo boat destroyer Kagero was engaged in mine sweeping in the harbor, when those on board saw a submarine mine which had broken loose from the spot where the Germans had moored it.

It was a potential danger which must be dealt with. Three seamen volunteered to jump overboard and secure it. Under a heavy fire from the Germans ashore, the men entered the water, swam to the mine and secured it with a rope and the electric wire by which it was discharged. The men, still under fire, returned to the torpedo boat safely, and the mine was then destroyed.

The Japanese government has suitably decorated the seamen for their gallant action.

IT IS MUCH EASIER TO GET MEN THAN ARMS AND EQUIPMENT

GREAT TASK OF LORD KITCHENER TO EQUIP BIG FORCE FOR BRITAIN—WITHIN A YEAR ONE MILLION MEN WILL BE IN THE FIELD.

Ottawa, Oct. 15.—It is only about eight weeks since Lord Kitchener took charge of the War Office, and he has accomplished some remarkable work. Canada has had in the dispatch of her expeditionary force of rather more than one division some idea of what an undertaking the outfitting of an army is. Some paragraphs from a recent issue of London Truth give some idea of what the Mother Country, under Lord Kitchener's guidance, has been doing.

The Army Council has now completed the framework of the new army organization, says Truth, and this is how they have done it. The Sixth Division has at last gone abroad, leaving Sir John Jellicoe to take care of invasion. Thus her two new divisions, the Seventh and Eighth, are being formed out of regular troops unallotted to Sir John Jellicoe's six divisions, together with the units which have been brought home from South Africa and the Mediterranean. When the artillery and transports for these two divisions are ready the field marshal will have a fourth army corps under his command, the Fifth Corps and a third cavalry division being on their way, if they have not already joined him, from India. Judged by the quantity alone, to say nothing of quality, this force of 200,000 men hardly answers the German Emperor's description of a "contemptible little army."

Now about the new armies. The

Army Council has got some half a million or more recruits of the best raw material to play and this is what they have done with them. Six divisions were organized on August 21, six more on September 11, and another six on September 13—18 divisions in all. Here we have the framework of three new expeditionary forces amounting in round numbers to 360,000 officers and men, with another 150,000 more remaining at training centers to replace casualties. As Lord Kitchener pointed out, men are easier to get than arms, ammunition or equipment, but the new war minister has plenty of driving power in his nature, and he is making the best of it now. The spring will soon come round.

In addition to these three new six-division armies is the prospect of a fourth army, which is to be formed out of reserve battalions created when the expeditionary force embarked for foreign service, these battalions being brought up to war strength by new recruits. This will give us another six divisions of what Kaiser Wilhelm calls "mercenary" troops, or 32 divisions altogether, yielding a total of 640,000 officers and men, who are increased to 710,000 by the Indian Contingent. As this figure does not include Colonials, Territorials or the local corps now to be raised in large numbers throughout the country, it is safe to say that within a year or less we shall have an army in the field amounting to a million of men, with plenty more behind them.

CANADA'S NEW COMMANDER.

Commissioner W. J. Richards, who is on his way from New Zealand to take command of the Salvation Army in Canada, succeeding the late Commissioner Rees, who perished in the Empress of Ireland disaster on the St. Lawrence.

STRONGER DEFENCE HERE.

Sir Richard McBride at Ottawa Urges Strengthening of Pacific Coast Defences.

Ottawa, Oct. 14.—Sir Richard McBride, premier of British Columbia, has been in Ottawa for several days discussing Pacific Coast defence with the Federal government. He has left for New York. The two American-built submarines, which are now guarding the approaches to Victoria, were brought out of American territorial waters an hour before orders reached Seattle to detain them, it is said. While here Sir Richard strongly urged the strengthening of Canadian defences on the Pacific.

ON BOARD H. M. S. "DREADNOUGHT"

(From the Montreal Weekly Witness.)

When the sea grows gray and silent, and the moon sinks out of sight,
 And the stars turn sick an' tremble after seven hours of fight,
 God keep us dirty sailor men, from the Pole Star to the Cross,
 For we need Almighty keepin', an' some high, Almighty Boss.

For when the whole deck's throbbin'
 There ain't no time for prayer;
 But it's "Point your Long Tom dainty
 Over twenty miles of air!"

When them wounded German fellows came a-shakin' up our side
 I was funny round my stomach, an' my bloomin' British pride
 Trembled like a silly pennant, they was all so human like;
 They had eyes an' hands an' faces just like any human tike.

But when the horizon's spittin'
 And we're coughin' back at it,
 Say, it's "Sweep the sea o' Germans!"
 An' "I guess—that—hit!"

I was walkin' past a cabin where we kept our prisoners tight,
 The sentry-go says, "Look here," an' I see a funny sight;
 There was two of them a-lookin' at a picture in their hand,
 Just as if there's German mothers in the German Fatherland.

But when we're in the fight line,
 It's "Forget your thoughts and fire!"
 While the look-out says beside you,
 "Steady! Nose her up a little higher!"

When I stopped an' looked to seaward in a tiny breathin' spell
 I see a Dreadnought stagger with her nose deep in the swell;
 She was struck below the belly, an' she sunk an' gurgled down
 Very casual like, an' careless; made me sweat to see her down.

But when we're stripped for action,
 Say, it's "Glory! glory!" then,
 An' it's "Sweep the sea o' Germans!"
 As we pick the range again.

We were lyin' close in harbor, coalin' up at Halifax.
 I was messin' with the range guns, streakin' polish down their backs.
 There was somethin' in the air—fell like a happy English rain;
 An' my mate, he says "You're bawlin'" an' I says, "I guess that's plain!"

But when we're sweatin' dirty,
 An' the sea's unholy red,
 Say, it's "Mates, we'll fight for England
 Tili the sun hisself is dead!"

September 15, 1914. —ARTHUR L. PHELPS.

The above poem, written for the Montreal Weekly Witness, is one of the many strong things appearing in that splendid journal, and coming so close upon the heels of our own ships grips us hard. The editorials of The Witness on the war situation have the right ring to them, and are the product of a mind more than usually well informed, and foresighted. Those not now getting The Witness may have it on trial to the end of the year by sending fifteen cents in stamps to its old time publishers, John Dougall & Son, Witness Block, Montreal. It costs little to try it, and people who are not getting The Witness do not realize what they are missing. Some do not agree with it in everything. Neither do we. But it is one of the few great worthwhile papers all the same—and fifteen cents gets it to the end of the year.

PROF. ALEXANDER AGAIN DELIGHTS LARGE AUDIENCE

Prof. Alexander again lectured last night to a well filled house. In his own inimitable style he de-scribed various types of human nature, and dealt in a most inter-esting and instructive fashion with the different temperaments. On the question of education he ridiculed the present method of cramming children's heads with a mass of information and advocat-ed a plan of developing the mind and body of the child equally along sane lines which would pro-duce a healthy mind in a strong, healthy body.

The professor's examination of the "bumps" of four local gentle-men produced the usual merrim-ent, and good-natured smiles from the victims.

Music will be discoursed during the afternoon. Admission 25 cents. 236-240

BYE-ELECTION OCTOBER 8.

Liberals Will Not Oppose Return of Hon. Macdormid.

Toronto, Oct. 15.—Hon. Finlay G. Macdormid, the new Provin-cial Minister of Public Works, will go before his constituents for endorsement on October 28. The nomination meeting has been ar-ranged for the 21st instant and the writs are now being issued by the government.

It is not expected that much of a contest, if any, will take place in his riding of West Elgin as the majorities which returned Mr. Macdormid of late years have been very substantial.

Premier Hearst intimated last evening that other contests are not likely for some time. He said he had not been able thus far to consider the situation in the rid-ing of Dundas, vacated through the death of Sir James Whitney.

Authentic information about football games, either scheduled or postponed, can be had by call-ing up Fitz Cigar Store. 1f

IT'S BRITAIN'S TASK TO CRUSH THE ENEMY

France is Doing Well, but Cana-da's Troops Will All Be Required.

London, Oct. 15.—"Will our men get a chance?" This insis-tent question is asked whenever Canadians foregather in London. The answer which the Daily Tele-graph makes to a similar ques-tion of Kitchener's new army also applies to Canadians.

It says: "The French are fighting nobly in defence of their soil, but the power of their armies to assume a more serious offen-sive movement grows less day by day. It must be the British who lead the Allies into German soil to reap the utmost fruits of vic-tory. Men who are training miles away from the fighting line are certain to find themselves in the van next year. No man need fear his six months' work in barrack square or rifle range will be spent in vain. All will be required and all will get their chance.

"When the Germans are driven back from the Belgian frontier we will only be beginning the struggle. As Kitchener said from the first, we must be prepared for a long war."

SKEENA CROSSING NEWS.

(From The Chalcopyrite.)

I. W. Anderson, a Tacoma, Wash., capitalist, was an arrival on Wednesday and is visiting the Great Ohio, in which he is inter-ested.

Alfred Kye, of Prince Rupert, representing Parkin, Ward & Co., came up on Wednesday to install the lighting feature in the Copper Tavern.

George Jennings, who has charge of operations at the Great Ohio, was a guest at the Copper Tavern on Wednesday night, and returned to the mine Thursday morning.

Mrs. M. R. Jamieson, who has been visiting her parents in South Fort George for several weeks, came to the Crossing last week and will reside with Mr. Jamieson at the Copper Tavern.

Raleigh P. Trimble, whose home is in Portland, Oregon, came up from the south last week and is now at the Great Ohio camp. Mr. Trimble, who is large-ly interested in the Great Ohio, will remain in the district for a week or two.

James Turnbull, of the forestry department, came down from Ha-zelton on Wednesday last, and after attending to office business, returned to headquarters on Friday.

E. C. Beardon, who has been prospecting for a few days in the vicinity of Gitwanzah, returned to the Crossing on Wednesday and left Thursday morning to vis-it his property on Skeena Moun-tain.

All is activity at the Rocher de Boule mine. We are not aware that the management has given out any information as to condi-tions in their underground work-ings, but seemingly reliable re-ports coming from unofficial sources state that they are drift-ing on five feet of vein matter with two feet of solid chalcopy-rite ore on the foot wall.

That recent developments are in every way satisfactory to the Montana Continental Develop-ment Company is evidenced by the fact that they are now busily en-gaged in getting everything ship-shape for continuous operations during the winter.
