GERMANS HAVE AGAIN EVACUATED CITY OF LILLE

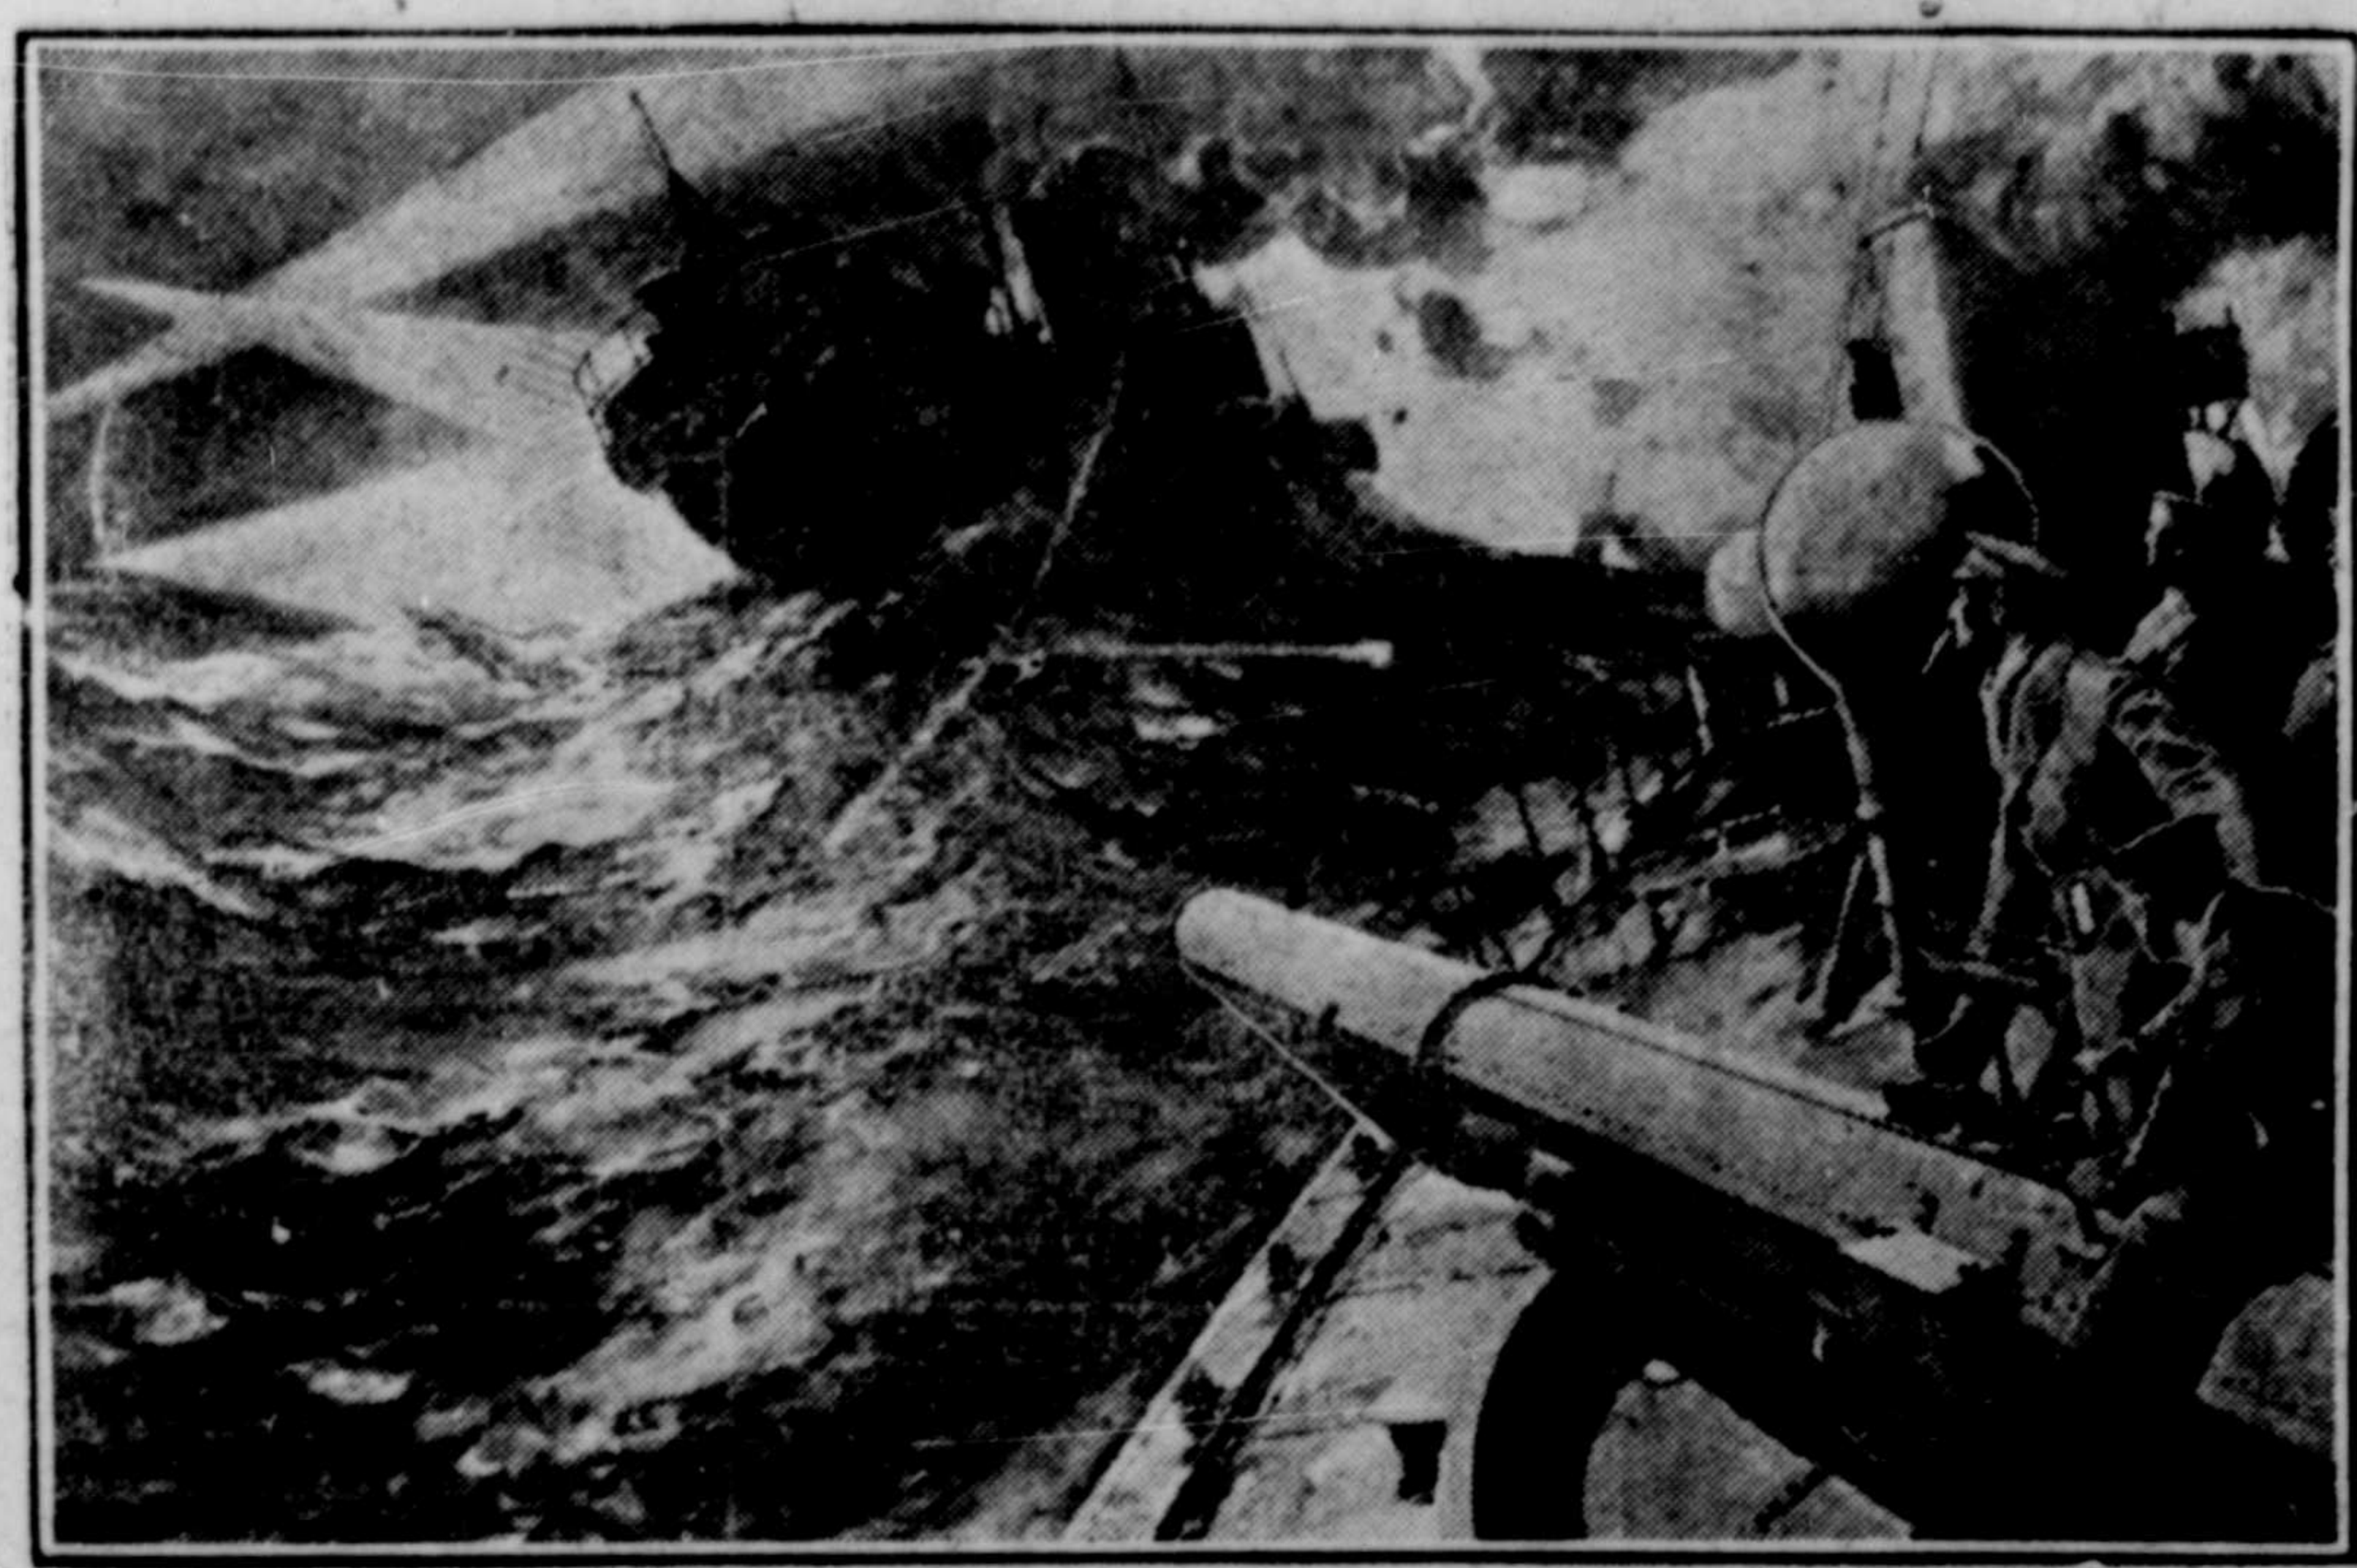

THE ENEMY HAVE BEEN DRIVEN BACK OVER THIRTY MILES IN THE LAST FEW DAYS

GERMANY EVACUATES LILLE SUCCESS FOLLOWS THE FLAG

GERMAN RIGHT IN EXTREME DANGER — BELIEVED THEY CANNOT HOLD OSTEND—RUSSIANS DEFEATED THE GERMANS AT VISTULA RIVER.

(Special to The Daily News—12 Noon)
London, Oct. 19.—A dispatch to the Telegraph says that Lille has been evacuated by the Germans for the third time. The evacuation was made necessary by the capture of Laventie and Mair. Everywhere along the west bank the Allies have been successful and the Germans are falling back under pressure. It is certain that they will hold the position of the German front is one of extreme peril.

Paris, Oct. 19.—The situation in France and Belgium today is regarded as more hopeful than at any period since the German advance on Paris was checked. Reports from various sources indicate that the Allies are employing naval craft of some sort on the canals of Flanders. In Poland the battle seems progressing in favor of the Russians, who have checked the German attempt to cross the Vistula. The Austrians are chafing at the command of the Germans whom they claim place them in unadvantageous positions and loot Austrian supply trains.

"FIRE NUMBER ONE TORPEDO TUBE"

An exciting moment on board a British torpedo boat destroyer. The little vessel has crept up on a German auxiliary cruiser in the early mists of the morning and is about to send after her a death dealing torpedo. Some of the best men of the British naval service are aboard these scout ships of the fleet, and their work so far has shown the skill and daring of which the British Empire can well be proud.

ROVE ENEMY BACK THIRTY MILES DURING LAST FEW DAYS

ACCORDING TO OFFICIAL REPORTS ALLIES ARE DOING ALL RIGHT — VILENT ATTACKS AT ST. DIE ARE REPULSED.

(Special to The Daily News—10:30 A. M.)
London, Oct. 19.—The official news bureau says the British have made good progress during the last few days. In the northern area the Allies have driven the enemy back more than thirty miles.

Paris, Oct. 19.—An official dispatch issued by the War Office says that during the course of last night two violent attacks attempted by the Germans to the north and east of Saint Die were repulsed with serious losses to the enemy.

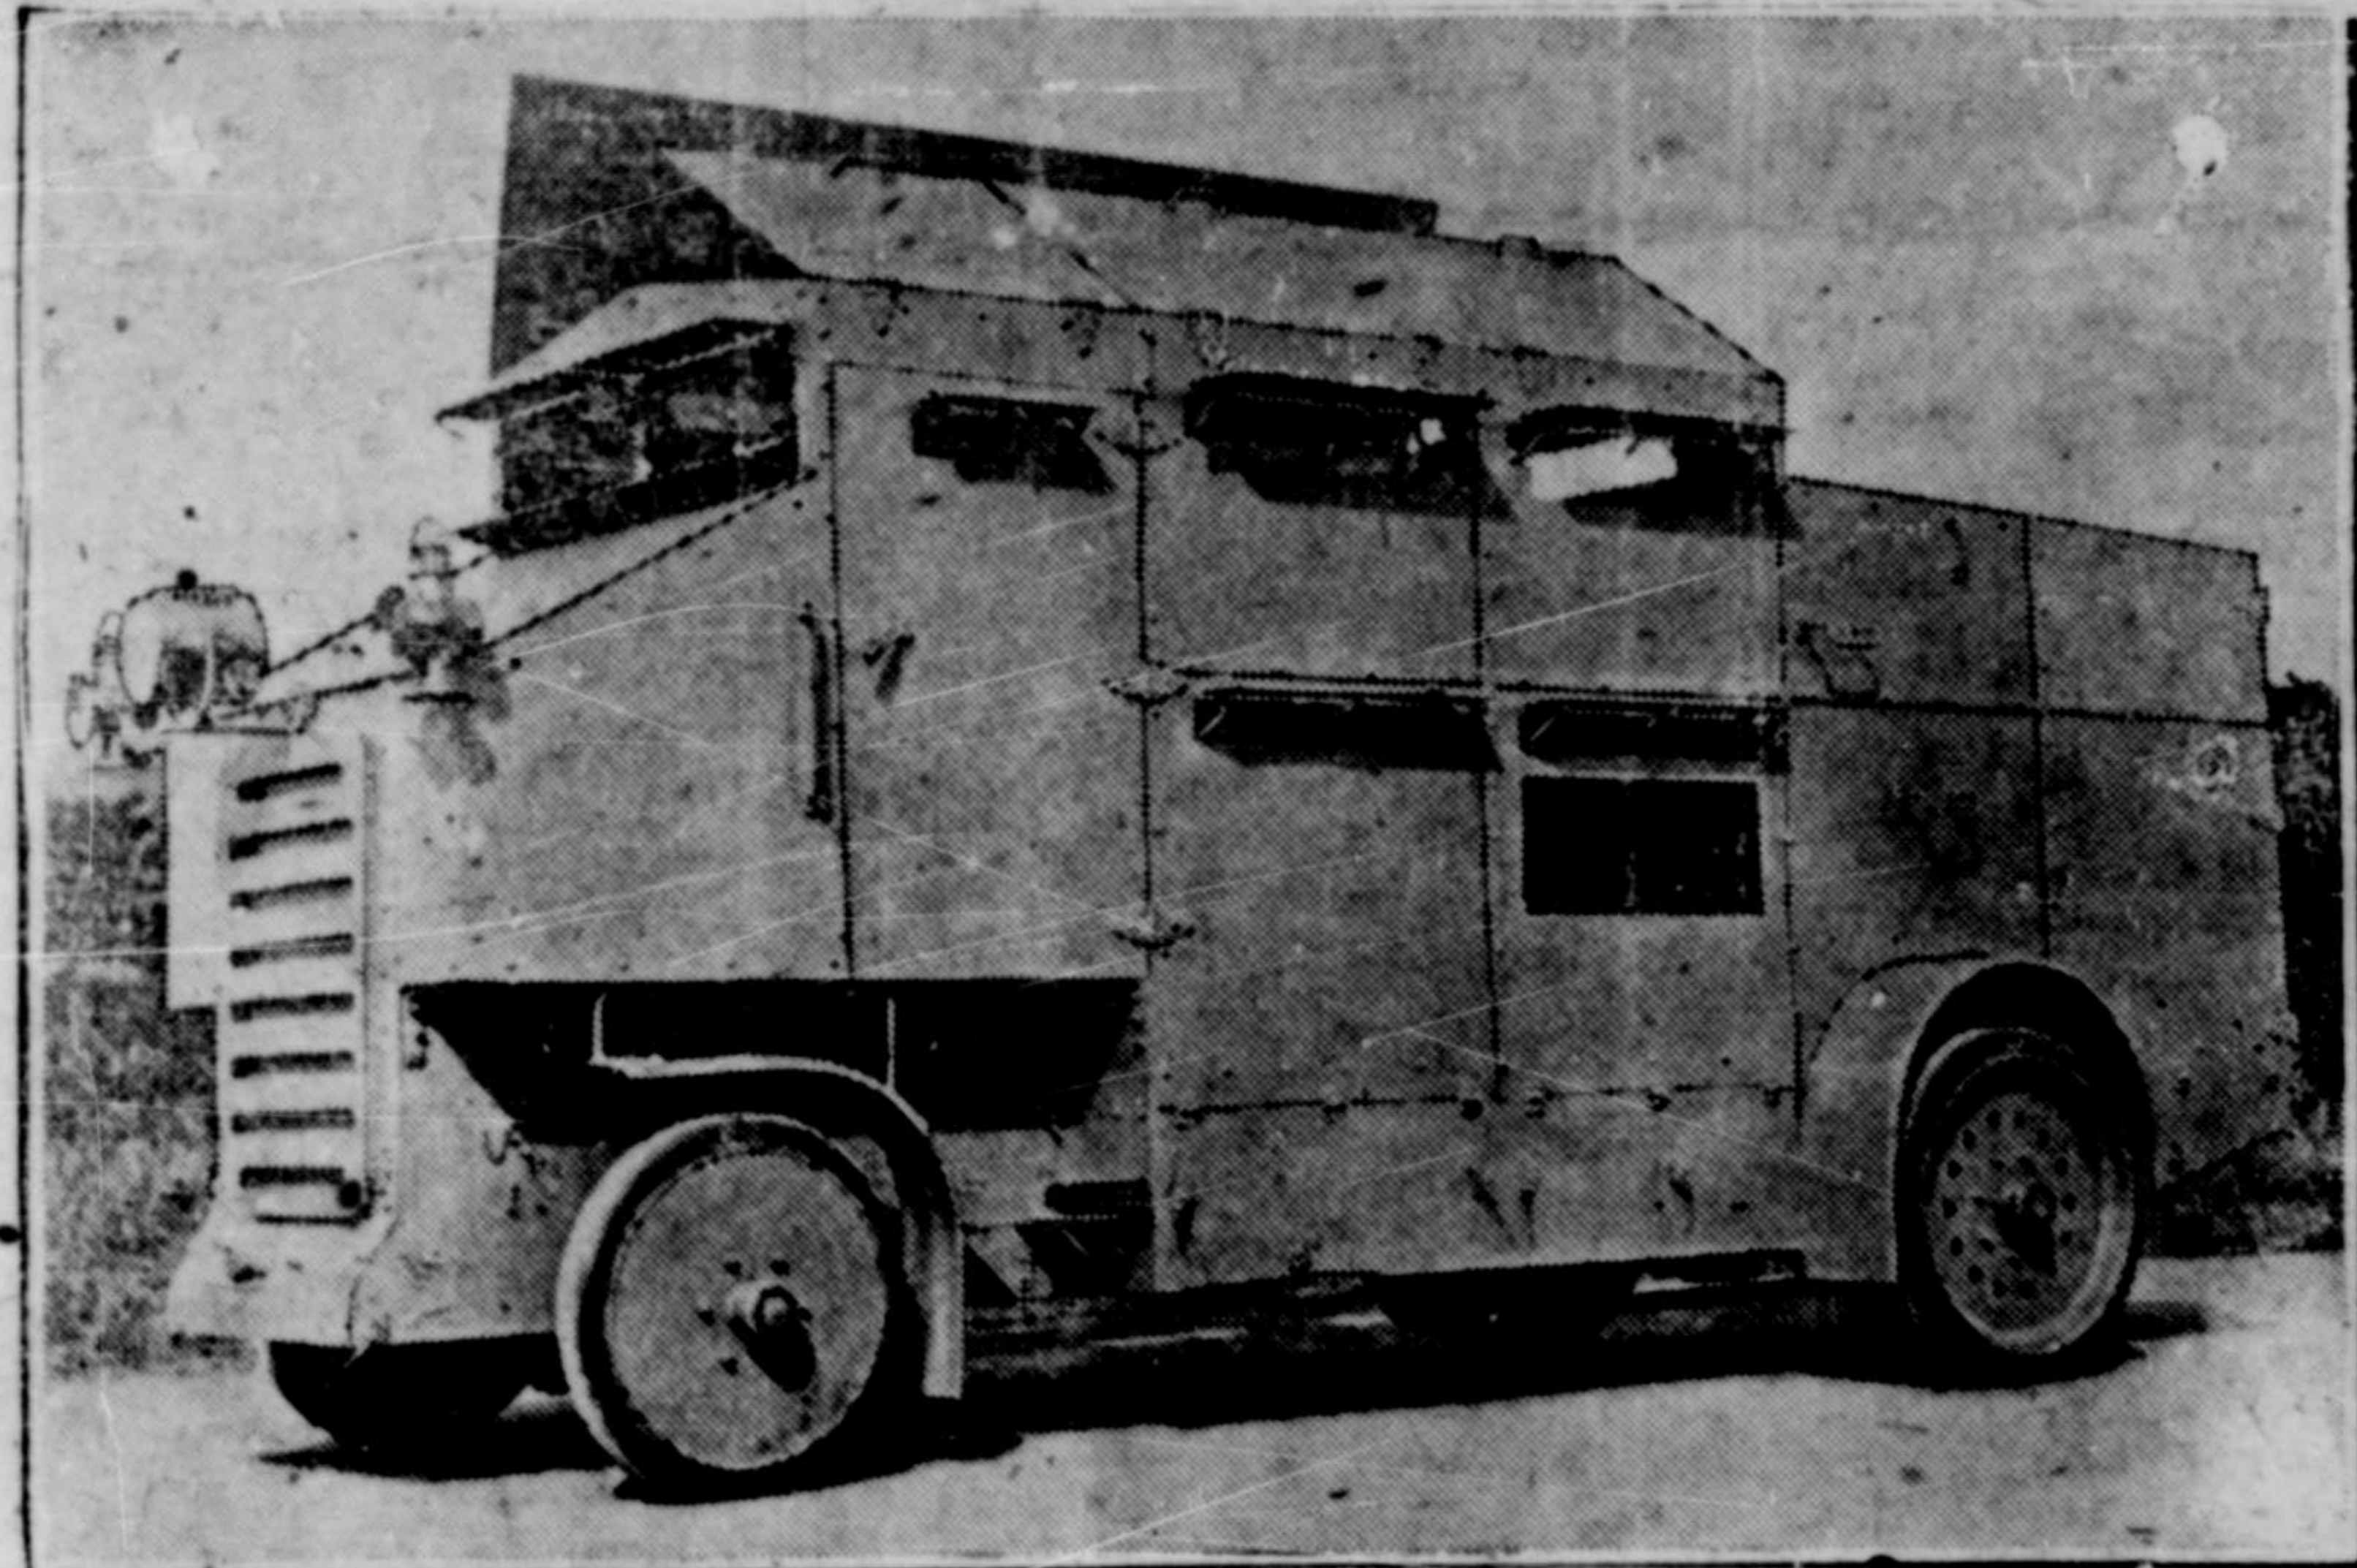

HEARD UNCANNY SOUND.

While two local citizens were dining on Saturday night from a back shooting expedition across the harbor they met with a most uncanny experience. It was after midnight quite dark and the wind was blowing a hurricane. Suddenly a scream of terror as of a woman broke through the air. Both men heard the cry distinctly. The boat was put out and they searched the sea for half an hour but no trace of life nor of the existence of a boat could be found. As no accidents have been reported, it is possible that the sound was caused by the howling of the wind.

GENERAL BOTHA TAKES THE FIELD

Will Move Earlier Than Was Expected Because of Maritz Rebellion — General Hertzog Offers Services.

Cape Town, Oct. 17.—As a result of Colonel Maritz' rebellion in the northwest of the Cape province, General Louis Botha, Premier of the Union of South Africa, and commander of the troops of the Union, is taking the field earlier than he originally intended to. General Botha is placing himself at the head of several strong Dutch commands, organized on the old burgher line, which are affiliated with regiments trained by the Union defence force. Commandants, field units and burghers who served under General Botha in the South African war are rallying to his call, irrespective of their political feeling, to fight side by side in the defence of the Empire, against which they were in arms twelve years ago. This fact has had a marked effect on the waverers, who are now flocking to General Botha's standard. The other rebels within the Union, having openly declared themselves, the government considers itself not obliged to deal gently with them out of consideration for certain Dutch people, who, although they are not strong supporters of the government, are said to have drawn the line at rebellion. The government also is adopting stern measures by arresting prominent men who are suspected of sowing sedition, charging them with high treason. General Hertzog, who has been one of General Botha's most bitter opponents, has placed his services at the disposal of the Premier.

AN ARMORED MOTOR FORTRESS.

One of the great features of the present war has been the armored car combats, and some very good work has been executed with them by the various armies in the field.

BELIEVED THAT GERMANS WILL SOON BE DRIVEN FROM FRANCE

ALLIES MAKING STRENUOUS EFFORTS TO BREAK GERMAN CENTRE — WOULD PUT VON KLUCK IN A DANGEROUS POSITION.

(Special to The Daily News.)
Bordeaux, Oct. 17.—(Saturday 5 p. m. Special.)—A correspondent of The Times states that the general impression which prevails is that we are on the eve of the liberation of the French soil of the invaders. It is believed

that the Germans cannot long resist the combined pressure of the Allies and will be forced to weaken their center, thus relieving Soissons and Rheims. This will endanger Von Kluck, who is in jeopardy especially because snow is falling on the Ardennes.

GERMANS CAN'T TAKE DUNKIRK AND CALAIS

(Special to The Daily News.)
London, Oct. 17.—(Saturday 5 p. m. Special.)—On the battle front the attempt of the Germans to turn the flank of the Allies and obtain possession of the ports of Ostend, Dunkirk and Calais has been unsuccessful. The Germans came face to face with the strongly opposing allied army, which compelled them to fall back after severe fighting. A Melbourne dispatch states that advice of the capture of a German gunboat were received by the government of New Guinea.

TSING TAU FORTS PARTIALLY DESTROYED

(Special to The Daily News.)
Tokyo, Oct. 17.—(Saturday 5 p. m. Special.)—The bombardment of Tsing Tau was renewed forcefully by the Japanese and British. The Itilio and Suichan forts were partially destroyed. One British seaman was killed and two wounded. The Japanese losses are not given.

GERMAN ARMY IN WEST TOTALS 1,500,000

Heavy Reinforcements of Landwehr and Landsturm Are to Fight Allies.

London, Oct. 19.—The Times' military correspondent says: "The information gleaned from the Dutch press, from travelers in Germany, and from other sources, points to the conclusion that during the last ten days the German armies in France have been heavily reinforced. There has been a steady flow of trains to the western front, mainly through Aix-la-Chapelle, and some ten or more Landwehr and Landsturm divisions must now be added to the German troops acting in Belgium and France. "By one expedient or another, the Germans have contrived to mass between eighty and ninety divisions in the west. If we add the marine fusiliers army and the Otappen troops and cavalry divisions, the aggregate German forces in the west may total 1,500,000."

"MILLION DOLLAR MYSTERY" Will Be the Attraction at The Westholme Tonight.

Tonight and tomorrow night the eighth installment of the famous "Million Dollar Mystery" will be shown at the Westholme opera house, together with an exceptionally good program. In this episode, which bears the title, "The Wives of a Woman," Norton the reporter, has a narrow escape from the hands of the conspirators. He is captured and thrown down a man-hole into the sewers, from which perilous position he has a miraculous escape. There are many other exciting incidents and no one should miss this episode. On Wednesday and Thursday there will be a most extraordinary attraction at The Westholme, the occasion being the presentation of the wonderful six-reel feature, "The Last Days of Pompeii." This feature is by far the most expensive ever brought to Prince Rupert. The pictures are even better than the famous Indian "Durbar" in the kinemacolor, which is saying a great deal. A matinee will be given on Thursday afternoon at 4 p. m. for the benefit of the school children at popular prices.

The agitation carried on by a certain section of the Conservative party to have a Federal election this fall deserves the stern reproof of every high-minded Canadian. It would be bad enough to have an election that would stir up party strife if the full term of the government were expired. Under the present circumstances and with two sessions yet to run it would be little short of treason to force an election on the people. Sir Wilfrid Laurier was the first man in Canada to call a truce in party affairs while the war lasted and the calling of an election would not only be taking a mean advantage of the patriotic Canadian but also would outrage the best feelings of the country. Let there be no election till the international crisis is past.

The United States are doing their utmost to reap the full advantages of their competitors' misfortunes. Not only do they aim to secure industrial supremacy but they believe they will now become the financial centre of the world. It would appear that they forget that industrial supremacy depends largely upon cheap labor, a condition that so far has not existed in the States. Financial supremacy besides requiring huge sums of capital needs also to have the advantage of position that makes it a natural centre. The supremacy of the British in finance, commerce and industry is no mere accident. It depends as

much as anything else upon certain fundamental laws of nature that cannot be changed while those conditions exist. While hostilities last no doubt they will get some temporary advantage but when international business starts up again the same old forces will drive it again along the lines of least resistance.

Professor Mavor, of Toronto University, who has just completed and published his monumental "Economic History of Russia," refuses his support to Germany's claim that her war with Russia is a conflict of civilization against barbarism. He insists that the best educated men in Russia are superior to the best minds in Germany, and that in music and literature Russia is contributing as much as Germany to the progress of the world. Professor Mavor holds that Russia has carried good government into Siberia, and that the Russia Empire is as solidly constructed as the Empire of Germany. As Prussia has risen by her own strength and assumed control of Germany, so the Duchy of Moscow has obtained control of Russia, and Dr. Mavor believes that Russian authority will fully vindicate itself. Professor Mavor knows Russia better than most Canadians, but the testimony from Belgium is even better evidence than he can furnish that in the conflict of barbarism Germany is not on the side of civilization.—Ex.

"FALL IN!" RECRUITING SONG.

(By Harold Begbie in The London Daily Chronicle.)

What will you lack, sonny what will you lack
When the girls line up the street,
Shouting their love to the lads come back
From a foe they rushed to beat
Will you send a strangled cheer to the sky
And grin till your cheeks are red?
But what will you lack when your mate goes back
With a girl that cuts you dead?

Where will you look, sonny, where will you look
When your children yet to be
Glamor to learn of the part you took
In the war that kept men free?
Will you say it was naught to you if France
Stood up to her foe or bunked?
But where will you look when they give the glance
That tells you they know you funk'd?

How will you fare, sonny, how will you fare
In the far-off winter nights
When you sit by the fire in an old arm chair
And your neighbors talk of the fight?
Will you slink away, as it were from a blow,
Your old head shamed and bent?
Or say—I was not with the first to go,
But I went, thank God, I went.

Why do they call, sonny, why do they call
For men who are brave and strong?
Is it naught to you if your country fall
And right is smothered by wrong?
Is it football still and the picture show,
The pub and the betting odds,
When your brothers stand to the tyrant's blow,
And England's call is God's.

British Steamer Sussex Evades Warship Awaiting Her Departure From Brazilian Port.

Boston, Oct. 17.—The British steamer Sussex, which has arrived here from Australia and New Zealand ports with 2,300 tons of frozen mutton, narrowly escaped being captured by a German cruiser, which, according to her officers, followed her into the harbor of Pernambuco, Brazil, on September 7.

The Sussex had been at Pernambuco only a short time when the cruiser appeared. Her name had been painted out. That night the cruiser left the harbor, but the Sussex remained until September 9, meantime having her coal bunkers replenished. As it was considered that the warship was undoubtedly lying in wait for the Sussex, upon leaving port, followed a course that regularly carried her between the two lanes regularly used by merchant vessels, and for several nights afterwards ran with all lights screened to avoid being seen.

WORLD'S GREATEST KIDNEY REMEDY

"Fruit-a-tives" Have Proved Their Value in Thousands of Cases

WONDERFUL RECORD OF A WONDERFUL CURE

Only Remedy That Acts On All Three Of The Organs Responsible For The Formation Of Uric Acid In The Blood.

Many people do not realize that the skin is one of the three great eliminators of waste matter from the body. As a matter of fact, the skin rids the system of more Urea (or waste matter) than the kidneys. When there is kidney trouble, pain in the back and acid urine, it may not be the fault of the kidneys at all, but be due to faulty skin action, or constipation of the bowels.

"Fruit-a-tives" cures weak, sore, itching kidneys, not only because it strengthens these organs but also because "Fruit-a-tives" opens the bowels, retards the stomach and stimulates secretion of the skin.

"Fruit-a-tives" is sold by all dealers. Get a box, 6 for \$2.50, trial size, 2, or will be sent postpaid on receipt price by Fruit-a-tives Limited, Toronto.

ONE OF THE MANY CANTEENS COURTESY OF C.N.R.

CANTEEN AVENUE AT VALCARTIER CAMP.

Canteen Avenue has proved the most popular part of the camp at Valcartier. The soldiers develop enormous appetites in the mountain air and frequently supplement their rations with the food they can buy at these canteens. The sales of biscuits, jams and "pop" have been enormous.

the left bank. The twelve detached forts, erected by General Brialmont since 1886, surround the city at a distance of three and a half to five and a half miles. Coal mining forms the basis of the industrial prosperity of Liege, but almost as important is the manufacture of weapons of all kinds, which have enjoyed a world-wide reputation since the end of the eighteenth century. The workmen, some 40,000 in number, work at their own risk, for it is said that a piece containing the slightest flaw is at once rejected.

Returning to Brussels, we pass through old and dull Louvain, the ramparts surrounding the walls of which have been partially converted into promenades, and so to Neerwinden and Tirimont. Neerwinden is well known on account of the two great battles fought near it. In 1693 the French under Marshal Luxembourg, defeated the Allies under William III of England. In 1793 the French, under Louis Philippe (then "General Egalitie," afterwards King of France), were defeated by the Austrians, under the Prince of Coburg, and driven out of Belgium.

Of Tirimont it need not be mentioned that the six miles' circumference of the town encloses quite a large extent of arable land.

EXEMPTIONS ARE REVOKED BY GERMANS

Petrograd, Oct. 17.—The German losses have forced the German government to revoke all exemptions to military service, says a statement given out by the official press agency.

"The German army being short of equipment an order has been issued to bury the dead soldiers without uniforms and shoes. "The Novoe Vremy's correspondent at Fukuchima, Japan, says that Japan will prove to Russia the sincerity of her policies.

"Agents of the committee of union and progress continue to excite public opinion in Constantinople by giving out news of the war at patriotic meetings."

COUNTRY DEVASTATED BY WAR WAS A LOVELY COUNTRYSIDE

SHORT HISTORY OF DISTRICT SHOWS MANY FACTS OF INTEREST—SCENE OF MANY OF THE WORLD'S LEADING EVENTS.

It is one of the most beautiful countrysides in the world. From Brussels, the spacious built capital of Belgium, now occupied by the German hosts, to Namur, picturesquely situated on the Meuse, the route is, say The Daily Telegraph, practically one long avenue of lime trees, which give place as one proceeds to noble oaks and elms, and to forests of firs as the traveler penetrates the Ardennes.

Namur itself, which may at any moment become the scene of heroism as that shown at Liege, has always been a point of strategic importance, and it was fortified at an early period. It is a strong link in the chain of fortifications along the Meuse, and is surrounded by a circle of nine detached forts, two and a half to four and a half miles distant, which were constructed by General Brailmont, the same soldier-engineer who made Antwerp one of the strongest fortresses in Europe. The numerous sieges which Namur has undergone (Louis XIX in 1692, William III in 1695 and again in 1746, 1792, 1794) have left few of the old sixteenth century buildings standing, but those that remain are as picturesque as any of the period in Europe. A beautiful cathedral in the Renaissance style occupies a place in the center of the town. Near by is the former Jesuit church of St. Loup, with an imposing facade in the baroque style, the interior of which contains twelve Doric pillars of red marble.

The old citadel on the Montagne de Champeau stands on the site of a Roman fort and of the castle of the Counts of Namur. Of the latter only two towers remain. In 1891 the municipal authorities laid out a park with a spacious recreation ground, an open-air theatre and a museum of forestry.

Marble Quarries. The valley of the Meuse above Namur offers commanding views of wooded hills and great cliffs, beneath which repose dainty white cottages and old chateaux. Continuing to Dinant, we pass the ancestral home of one of Belgium's old nobility, the Duke of

Fernan-Nunez, near which rises the vast and precipitous Rocher de Neveau. The way lies below the cliffs at Taiffer and the rocks of France, the caverns of which, according to tradition, are inhabited by gnomes. Marble quarries and precipitous tree-clad cliffs, among which more splendid dwellings are perched, are to be seen on either hand, until, via Anhee and Houx, we reach Bauvigne, one of the oldest towns in the district, where, it is told, when the French besieged the town in 1554, three beautiful women, who were the sole survivors of the ill-fated garrison, threw themselves from the summit of the tower of Creve-Coeur, and were dashed to pieces on the rocks below.

Dinant, which gives its name to the "dinanderies," or chased copper and brasswares, which were in high repute when the town was at the height of its prosperity in the thirteenth, fourteenth and fifteenth centuries, has been three times the scene of battle. In 1466, Philippe le Bon, Duke of Burgundy, besieged and took Dinant, and is said to have caused 800 of the townspeople to be thrown into the Meuse. In 1554 the town was taken by storm and plundered by the French under the Duc de Nevers. In 1675 it was again taken by the French. Dinant has now dwindled to a mere village.

Still beautiful and mountainous is the route to Arlon, which is a prosperous town on the frontier, with a population of about 14,000 souls. It was destroyed by the Duke of Guise in 1558, and in the seventeenth century received new fortifications, which were razed in 1844.

Immortal Liege. Liege, the center of the recent splendid Belgian defence, lies in a strikingly picturesque situation. The great and ancient city rises on the high bank of the Meuse, which flows through the city and forms an island, which is connected with the right bank by five bridges and with the left by six bridges and a small passerelle. The principal part of the town, with the large public buildings and the churches, lies on

PACIFIC COAST TO SUPPLANT EUROPE AS TOURIST MECCA

A telegram received by the local Grand Trunk Pacific Railway officials today confirms the opinion already held by transportation experts that the European war is likely rather to increase travel to the Panama-Pacific International Exposition, opening in San Francisco on February 20th, next year, than reduce it. The flood of American and Canadian tourists to Europe will be far less than in ordinary years, and the inquiries flowing into headquarters in San Francisco prove that the thousands of travelers who ordinarily flock to the various pleasure resorts of the Continent will turn their faces towards the Pacific Coast in 1915.

"Under worst possible conditions," wired Mr. G. H. Perry, director of exploitation for the exposition, "we shall lose about 6 per cent of our promised exhibits from Europe, and we have the assurance, from all participating nations now involved in the struggle that their plans will not be seriously interfered with. We have heard from exhibitors' committees in both Germany and Great Britain within the past few days, requesting that the space be originally reserved for them be held and in the case of the German committee, an intimation was given that increased space might even be asked for. Requests for space and for additional space from manufacturers and producers in this country and South America and of European nations not at war show marked increase since war broke out."

ITALY'S NEUTRALITY IS ONLY TEMPORARY

Seattle, Oct. 17.—The Italian ambassador to this country on Thursday officially stated the policy of his country. He declared that while Italy would be neutral, yet that was only a temporary phase and would depend upon any overt act. He explained mobilization as a defensive measure.

The Rome Tribuna, however, in a similar review said the war would be long, since it was a war of races, not dynasties. Italian neutrality is a transitory condition which may change with circumstances.

The appointment of General Zupelli to the ministry is still causing comment, as he is believed to be anti-Austrian.

IT PAYS TO WIN.

Philadelphia, Oct. 15.—The arrival of the defeated Philadelphia team in this city was like a funeral. But six fans were at the depot to welcome, and these couldn't raise even the semblance of a cheer. When seen by newspapermen Connie Mack had nothing to say for publication.

Boston, Oct. 15.—Boston fan-dion wine and dined her victorious ball team last night, the lid being wide off and the town wide open. The members of the team left for their homes today.

HERRING BAIT IS SHORT AT KETCHIKAN

Ketchikan, Oct. 18.—The supply of local herring for bait purposes continues short, neither the Margeret nor the Pirate having brought any in since early in the week. The supply of frozen herring received from the south on the Alki and the Princess Sophia by the New England Company helped matters out a little, but the fishermen are anxious to see the local run start.

COAL BILL PASSES.

Washington, Oct. 15.—The Senate passed the Alaska Coal Land Leasing Bill last night and the same will come up for consideration by the House today.

"LOVE, COURTSHIP AND MARRIAGE"

Tonight Prof. Alexander delivers his lecture on training children and will contrast little ones on the stage at the close. Tuesday night, however, will no doubt see the house crowded, when he gives his great lecture on "Love, Courtship, Marriage and Jealousy." In this he will explain the signs of love in head and face, how to tell a flirt or jealous person, will describe wrong and right courtships, popping the question and how to manage the mother-in-law.

In Vancouver and Victoria the crowds were so great that hundreds were unable to gain admittance and the lecture had to be repeated.

BLACK CHIEFS WOULD GIVE BRITAIN AID

One of Them Would Assess His People While Other Would Go to War.

London, Oct. 19.—The Chief of Basutoland has sent to His Majesty an expression of deep loyalty, and adds: "I ask whether as my king is engaged in fighting his enemies, I his servant, will be doing well to keep aloof, watching him being attacked? As I am unable to be with my chief in person, I beg to know whether I may show my loyalty and the loyalty of all Basutos by giving monetary assistance to be raised by calling on each Basuto to pay the sum of one shilling as a contribution to the fund now being raised for the relief of the sufferers. As the Basutos and myself are grieved at seeing our king attacked by enemies, and we, his servants, cannot assist him."

This offer has been "gratefully accepted."

An expression of loyalty has also been received from Lawanika, chief of the Bartose tribe of Northern Rhodesia. He adds: "The indunas (native chiefs) and myself want to call in all our people, and then when they hear we shall tell them to make ready for war, to help the government. We shall stand always under the British flag, under which we have remained years in peace."

GERMAN SPY SYSTEM STILL IN EXISTENCE SAYS LORD BERESFORD

London, Oct. 17.—Notwithstanding the reassuring statement issued by the home office last Thursday to the effect that the spy system established by Germany in this country has been completely broken up, Admiral Lord Charles Beresford, retired, is convinced that it still exists and constitutes a grave menace to the safety of the country.

In a letter published yesterday Lord Charles calls upon his countrymen to take strong action with regard to the crowd of alien enemies in our midst. He urges that "meetings be held in every town and that resolutions be adopted protesting against the present state of affairs and sent to the prime minister."

GIFTS FOR SOLDIERS.

Princess Mary Issues Appeal for Funds to Provide Christmas Presents for Soldiers.

London, Oct. 19.—Princess Mary has issued an appeal in which she says: "I want you all to help me send a Christmas present from the whole nation to every sailor afloat and to every soldier at the front. On Christmas Eve, when, like the shepherds of old, they keep their watch, doubtless their thoughts will turn to home and loved-ones left behind. Perhaps, too, they will recall the days when as children themselves they were wont to hang up their stockings, wondering what the morning had in store."

"I am sure we will be happier on Christmas morning to feel that we have helped by sending our little token of love and sympathy—something useful or of permanent value, the making of which may be the means of providing employment in the trades adversely affected by the war."

It is hoped that the appeal will result in the raising of funds for the provision of gifts taking the form of an embossed brass tobacco or cigarette box, pipe and tinder lighter, and candies for the Indian troops.

CAPT. FRED STORK HAS RETURNED HOME

Capt. Fred Stork and family returned today by the Princess May from an extended visit to Ontario. This was the first holiday that Captain Stork has had in three years and he has enjoyed every minute of it. He reports that all interest in the East is centered on the war, but in spite of that business is keeping up very well.
