A BIG BATTLE IS ON TO THE SOUTH OF OSTEND

TORRENTIAL RAINS HAVE TURNED THE ROADS INTO A SEA OF MUD, IMPEDING GERMAN GUNS

150,000 CANADIAN TROOPS WILL BE SENT TO ENGLAND

ORDER SENT OUT TO COMMANDING OFFICERS TO CALL FOR RECRUITS — THEY WILL RELIEVE BRITISH ARMY IN ENGLAND.

(Special to The Daily News—9 A. M.)
Ottawa, Oct. 20.—Orders were sent out this morning from the military Department to officers commanding the six military divisions to proceed at once with a view of recruiting 150,000 infantry volunteers, the immediate organizing of which was announced last night by Sir Robert Borden. These will proceed to England for home defence and in order to relieve a part of the regular army.

GERMAN LIST OF DEAD CONFIRMS ALLIES' REPORT

(Special to The Daily News.)
Rotterdam, Oct. 20.—The latest lists of casualties published by the German papers bear out the French and British claims that they wiped out whole battalions of Germans. The German reservist infantry regiment No. 17 lost in one battalion 800 men. Another battalion of the same regiment lost 740 killed at the Battle of the Marne.

ON BRITAIN'S HONOR ROLL: THE RETURN FROM THE CHARGE
From London Illustrated News.

BIG BATTLE SOUTH OF OSTEND— BELGIANS HOLD GOOD POSITION

HEAVY RAINS ARE IMPEDING THE MOVEMENTS OF THE GERMAN ARTILLERY — THE BELGIANS ARE NOW IN THE THICK OF IT.

(Special to The Daily News—1 P. M.)
London, Oct. 20.—There is fighting on the western wing of the battlefield now centered a few miles south of Ostend. The Belgian army is in the thick of it. Torrential rains have turned the flat country into a sea of mud, making the movement of the German guns very difficult. A French official bulletin says the Belgians are holding their position on the River Yser. Heavy fighting is incessant on the Meuse at St. Mihiel. French guns yesterday completely destroyed a German battery there.

HIGH TREASON BY TICKET AGENT

(Special to The Daily News.)
Montreal, Oct. 20.—Fourteen charges of high treason were laid against Israel Schafer, immigration and ticket agent in the police court yesterday morning. The charge against him was of assisting a public enemy by furnishing steamer tickets and money to Austrian reservists to enable them to return to the ranks. He is charged with having instructed them to represent themselves as Bulgarians.

THE MOTOR TRUCK IN MODERN WAREFARE

One great feature of the European war is the part played by the motor truck. In transporting men and heavy guns they have proved invaluable. The British War Office has corraled every truck that has been made within the last three years and the builders are working day and night, Sunday and Saturday turning out new vehicles. The cars are put through a simple yet effective test before shipment to France. Cars built in England are shipped from Scotch ports and Scotch cars from English ports, and the builders have to run the cars to shipping point. If they make the trip in good shape and time, they are accepted and immediately sent on active service.

WILL ASK GOVERNMENT TO FINANCE CITY LOANS

The City Council received a communication last night from the council of the district of Peachland asking for the approval of this city on certain matters to be brought up at the coming municipal convention. The matter in question was that the convention should ask the government to advance money to municipalities on the security of their sinking fund, which would be deposited. The fear was expressed that if the banks should continue their withdrawals, municipalities would find it hard to get temporary financing while taxes were being collected; and if advances were made they should be limited to 6 per cent in their interest charges. Peachland apparently is paying 8 per cent at present, although Prince Rupert gets it at 6 per cent still. Alderman Morrissey thought it a good scheme if the government had the authority to do this but when it was pointed out that Peachland might not have thought out all the consequences he withdrew his support. The city solicitor said the government had the authority, but certainly would take no action in the matter. It was tried before. After a lot of discussion on both sides it was decided to follow right in the footsteps of Peachland. A wire will be sent to that effect.

PROTECTION FOR GERMAN TRENCHES
The Germans have found a new plan for the protection of their soldiers in the trenches. Coils of wire are placed before the trenches and when a shell falls they prevent the fragments from spreading to the trenches.

IRISH NATIONALS PLEDGE FREEDOM OF BELGIUM

(Special to The Daily News—9 A. M.)
London, Oct. 20.—The Irish Nationalists have adopted a pledge never to sheath the sword until Belgium gets back her freedom and every inch of soil clear of the enemy, and until a treaty is made, not on a "scrap of paper," but on the foundation behind which stands millions of the British race.

CITY ENGINEER ANSWERS QUESTIONS OF ALD. BASSO-BERT

There was another dam-site row in the Council last night. The city engineer reported on the reason for changing the former site. This came up a week ago on a question from Alderman Basso-Bert, saying that as a member of the board of works he was never informed of the change and that even Alderman Matland, chairman of the board, was not aware of it. The city engineer's report said that there had been a great rush to get the plant installed. He tested the former selected ground with bars and thought he found a rock bottom as former engineers had reported. There had been high water at the time and instead of sinking on the dam-site the trench for the pipeline was dug out. When the water from the creek was turned down in the pipeline the creek was laid bare and he then started to excavate the dam-site. After partially completing this excavation he found that the supposed bottom was boulders with sand underneath. This made it obligatory to change to a new site, which he did. The report showed that there were some \$4,500 spent on the first site, including extra pipe purchased, since the present site is several hundred feet nearer the city. Alderman Basso-Bert said that in view of the report, the mayor should take back the reproaches he cast on himself for taking the matter up. He contended that the first thing to do in selecting a dam-site was to sink wells to find out the condition of the bottom. A little forethought like that would have saved the city all this money. The mayor had nothing to apologize for. He still believed the engineer did the best possible under the circumstances. He appeared to have the impression that \$4,500 was nothing compared to being able to finish the electric plant on time. On the surface it appears that the engineer and the mayor were in such a hurry to get along with the work that they did not use all the necessary foresight and wisdom to cover it up. When Alderman Basso-Bert insisted on dragging it into the light of day naturally there was a big row. The engineer's report was received and filed.

CANADIANS IN CAMP.

(Special to The Daily News—9 A. M.)
Salisbury Plains, Oct. 20.—Except for a few detachments working with supply and horse transports all the Canadians have arrived. Their four camps are scattered over Salisbury Plain.

CONGRESSMAN DECLARES GERMAN CAUSE IS UNHOLY

BELIEVES THE GOD OF BATTLES WILL VISIT DEFEAT ON THE KAIER'S EMPIRE — IS MENACE TO DEMOCRACY.

Washington, Oct. 19.—"I am entirely convinced that the German cause is unholy and, moreover, a menace to the principles of democracy. Furthermore, I believe that the God of battles will visit defeat on the Germans; but, no matter which side wins, we must remember that since the beginning of time victorious nations have proved headstrong and high-handed. We must begin at once to reorganize our military strength if we expect to be able to resist high-handed action when the day of necessity comes." Thus spoke Representative Gardner, of Massachusetts, who recently returned from the war zone, when introducing in the house a joint resolution demanding inquiry into the preparedness of the United States for war, "offensive or defensive," by a national security commission. "I have introduced this resolution to investigate the military status of the United States," said Mr. Gardner in a statement accompanying the resolution, "because I know that a public search will open the eyes of Americans to a situation which is being concealed from them. The United States is totally unprepared for a war, defensive or offensive, against a real power. In my opinion the effect of the vast sums of

DRASTIC ACTION BY CZAR OF RUSSIA

Will Interdict Permanently Russian Government Liquor Monopoly.

(Special to The Daily News—1 P. M.)
Petrograd, Oct. 20.—The Czar has announced his intention to interdict permanently the sale and manufacture of intoxicating drinks by the Russian government.

REPORTED DEATH OF GEN. VON MOLTKE

(Special to The Daily News—1 P. M.)
Paris, Oct. 20.—The Matin reports that Von Moltke, the Kaiser's chief of staff, has died in a hospital in France near the English channel.

RUMOR NAVAL FIGHT.

(Special to The Daily News.)
Vancouver, Oct. 20.—There has been a rumor here that a naval fight is taking place between Russia and Turkey in the Black Sea. It has not been confirmed.

A GREAT CARTOON.

Punch has a great cartoon in a recent issue. It shows the German Eagle after reporting to the Kaiser with its tail all plucked out. The following conversation takes place:
Kaiser: "My poor bird, what has happened to your tail feathers?"
German Eagle: "Can you bear the truth, Sire?"
Kaiser: "If it's not for publication."
German Eagle: "It's like this, then. You told me the British Lion was contemptible. Well, he isn't."

The fighting in France has assumed a new phase. The Battle of the Aisne may be said to have been a draw with whatever advantage there was on the side of the Allies. The taking of Antwerp and the new flanking movement of the Germans along the coast indicates a distinct change in the plan of campaign. There is no doubt but that the objective of the Germans is a blow at the heart of Britain. If it is true that the Krupps are turning out a new twenty-five-mile-range gun the Germans perhaps hope to land their transports in England under the protection of this huge artillery, since the straits of Dover is only twenty-one miles wide.

Before the Germans can do this, however, there are two things that demand their attention. They must furnish enough troops to hold the Allies in France in a death grip and raise a new army for the invasion of England. Besides this, they must be prepared to convoy their transports across the Channel. The big guns might well sweep the Channel of warships but they cannot hope to keep off the fleet of submarines which the British have at their disposal. They thus certainly have a few difficult nuts to crack in that attempt and considering the fact the Allies seem to have a little the better of them in North-

west France there is hardly much likelihood of them ever making this attempt.

One thing is becoming clearer every day and that is that we are in for a protracted war. While the Germans have not the numbers of men at their disposal they appear to have equipment for a much larger number than the Allies. It is therefore natural that they should make their best showing at the first. On the other hand, the Allies seem to have resources and Father Time on their side. They can continue pouring men and equipment into the fight for an almost unlimited period. It is therefore likely to resolve itself finally into a financial contest and, as Lloyd George put it, "the last hundred million will win."

MAY RECEIVE BELGIANS.

People of Eastern Townships Contemplate Providing Homes for Some During Winter.

Sherbrooke, Que., Oct. 19.—A meeting of the executive of the Eastern Townships Immigration Society was held here. The purpose of the meeting was to discuss means for providing in the Eastern Townships for a certain number of Belgians.

It was felt that a thousand people or more of the agricultural classes could find homes during the war, or permanently, in the Eastern Townships, and it was thought that many farmers, particularly in the rural parts, would

NO ALUM

be glad to receive one or more Belgians and provide them a home for the winter, receiving in turn such service as they would be able to give.

The details of this scheme would have to be carefully worked out, but it was felt that it was practical. The executive of the society will seek an interview in a few days with the Quebec government to discuss the matter further.

AN ALLIANCE OF PEACE THROUGHOUT AMERICA

Representatives of Nations of Both Countries to Meet to Form Defensive League.

Ottawa, Oct. 19.—That a conference is likely to be called of representatives of all the nation of North and South and Central America to form a league for peace, is the opinion of John A. Stewart, of New York, chairman of the executive committee of the United States Peace Centenary Association, who is in Ottawa conferring with the Canadian representatives. The purpose of the league, he declared, would be to bring about the respect of each nation for the territorial integrity of the others and to unite all against territorial aggrandizement by an outside nation.

"Apart from our neutrality," says Mr. Stewart, "and without particular regard to any given outcome of the war, the war itself has served to urge on the people of the United States the acceptance of a duty in the direction of safeguarding the interest collectively of the nations of the western hemisphere. I am advocating the calling of an international conference at Washington for the purpose of organizing under agreement a league of peace. The alliances among the two groups of European nations have shown us one phase of international association—that of defensive and offensive contractual obligations. The result of such contracts would seem clearly to impel us as people of the western hemisphere to organize, not a league for purposes of war, but a league for purposes of peace and for peaceful commercial, political and social life."

The nations of the western hemisphere, Mr. Stewart believes, might well bind themselves in an alliance, the underlying motive of which should be the extension of the fundamental principle of the Rush-Bagot agreement to all the nations of the western hemisphere. This would obligate each nation to respect the territorial integrity of every other nation and would be an alliance for defence only in the degree to which some nation outside the western hemisphere might make an attempt at territorial aggrandizement in that hemisphere.

Canada, says Mr. Stewart, should by all means be included in such an understanding. He stated that the celebration of the peace centenary would be carried out in its entirety, as planned, except that the date might be changed in some cases. The religious celebration will be on Sunday, February 14.

CROWN PRINCE RUPPRECHT OF BAVARIA.

Who is reported to have been captured by the Allies' troops near Nomeny. He was in charge of the German army hammering at the forts between Verdun and Toul.

OVER 200,000 GERMANS ARE IMMOBILIZED

One of the Fruits of Sea Power Shown by Keeping 200,000 Men Hors de Combat.

The Spanish steamer Montserrat, from Mexico, has but recently arrived in Barcelona. She had on board 200 Frenchmen from Mexico, who embarked there after the declaration of war to help in the defence of their native land; 160 Germans also embarked in the Montserrat at Vera Cruz, but were detained by British cruisers.

It is estimated that over 200,000 Germans living abroad have already been detained in this way, thanks to the vigilance of the British fleet. Even the Germans living in Spain have not yet been able to return to their own country, as they can neither cross France nor get to any Continental port by boat.

Two hundred thousand men hors de combat! This is as good as a great victory in the field. It is even better than a great military success, since the victory in this case has been gained without any loss, by the mere expression of will—"No thoroughfare!"

GERMAN GUNBOAT MAY BE INTERNED

Seattle, Oct. 20.—It is reported from Honolulu that the Geier, the German gunboat from Tsingtau, will not be ready to go to sea for weeks, as her engines are in bad repair. Washington advices, however, indicate that the vessel must go to sea if seaworthy with no delay, and if the Geier refuses to do this, she will be interned. An explanation has been demanded by the United States government of the Marconi Wireless Company of Honolulu as to its sending a wireless message indicating the arrival of the Geier.

SURTAX ON UNUSED LAND PROPOSED IN ALBERTA

Towns May Be Given Option on Imposing Tax on Businesses.

Edmonton, Alta., Oct. 19.—There are twenty million acres of unused land in the province of Alberta, and the greater portion of this will be affected by the surtax which the provincial government proposes to place on land of this character, in order to supplement the revenues, which have shrunk by about three or four hundred thousand dollars since the beginning of the war.

An amendment to the towns act will be introduced in the provincial legislation this week, by which the towns during the next four years will have the option of partly departing from the principle of single tax and being given the privilege of imposing a business tax.

The bill to tax "wild lands" will not only mark an important departure in the way of taxation, but is calculated to be of considerable assistance in eliminating, to a great extent, the holding of land for speculative purposes, and thus giving a considerable impetus to the agricultural development of the province.

THE CITY OF THE KRUPPS GUNS WOULD MAKE GOOD WAR PRIZE

DESCRIPTION OF THE CITY THAT LIVES BY THE KRUPPS— EVERY MAN IN WORKS IS NOW WORKING AT FIREARMS FOR THE GOVERNMENT.

(Toronto Globe.)

Essen is a job for the Allies' army of invasion when it sets forward for Germany next spring. If the Rhine is successfully crossed either up in Alsace or down near Cologne it is quite certain that Essen will be one of the first objects of attention. No other city in the world is so entirely given over to industry. Krupps is Essen. The great armament makers, who have given Germany her wonderful siege guns and many other man-killing devices, do not devote all their attention to war material. They make railway steel, steamship engines, locomotives and many other things of the sort at Essen in times of peace. But it is safe to say that the entire staff of Krupps today is working overtime to turn out weapons of war. And the staff of Krupps is the greatest industrial organization in the world with the exception of the United States Steel Trust.

A writer in the London Daily Mail thus describes the city recently:—"Looking down on the town from one of the pleasant wooded heights on which Alfred Krupp planted the colonies for aged or disabled veterans of industry, one sees a forest of tall chimneys, and a dozen of huge, lofty workshops marshalled like forts all round the habitations of men. On a nearer approach one discovers that some sixty factories make up this gigantic organization. Forty miles of standard railway link them together and carry their products abroad to the great world, and thirty miles of narrow lines are required as auxiliary for the shops. From the distance resounds the dull boom of the guns from the testing ranges at Meppen, where artillerymen, year in and year out, are trying new weapons or are experimenting with the resistance of armorplate. Forty thousand men, with 3,000 officials, make up the staff of this maze of factories and workshops in normal times. One can well believe how the staff has been increased in these anguishing days of war, when every German, great and small realizes that the future of his Empire largely depends on the power and number of guns which Krupps can place at the disposal of the armies of Germany and her Austrian ally. Besides this army corps of workmen at Essen, Krupps have 10,000 miners digging the earth for coal in the firm's German colonies; 15,000 hands at the rolling mills of Annen and Gruson and the blast furnaces of Rheinhäusen, Duisburg, Neuwied and Engers; about 7,000 workmen at the firm's shipbuilding yard, the "Germania," at Kiel, and 5,000 ore miners in Spain. It is symptomatic of the immense importance attached by the German General Staff to the continuance of work at Krupps at the highest pressure that the general commanding the Rhine District has expressly refrain from calling up the Landsturm in order that the great national work may proceed unimpeded in the Rhenish industrial region, where Krupps is the leading concern."

NEW MANAGER TAKES CHARGE OF COMPANY

Vancouver, Oct. 19.—Mr. C. G. Pennock, formerly manager of the Bank of Ottawa here, and afterwards general manager of the Bank of Vancouver, has taken over the management of the Dominion Trust Company, in succession to Mr. R. W. Arnold, deceased. The sudden death of the latter has necessarily somewhat unsettled many details of the large business carried on by the Dominion Trust Company, especially under circumstances such as obtain in the financial world at the present time.

Mr. Pennock is endeavoring to instruct himself as to all details of the transactions carried on by the company, and in order to fully inform himself, must necessarily obtain a full statement of the financial affairs of the company from all its branches as at October 10. In order that all the interests of the company and of its clients may be fully protected, he has considered it wise to temporarily enforce the regulation as to deposits, under which fifteen days' notice of withdrawals must be given. Both Mr. Pennock and the directors confidently expect that before the expiration of the notice this requirement will not be insisted on.

The auditors report the securities of the company to be such as to fully protect all depositors and other creditors. Moreover, under the will of the late managing director, the company is appointed the executor and trustee of the large estate left by him, and it also benefits directly under the provisions thereof.

A NEWSPAPER

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

If you cannot afford a permanent bookkeeper, let me handle your accounts for a reasonable figure. Clyde H. A. Rogers, Phone 116. 238-244

In discussing the hydro-electric dam last night Ald. Dyb-havn said there appeared to be some big secret about the original location of the site. Alderman Kerr insinuated that the "big secret" was that Engineer Agnew had something to do with that choice being taken. D. H. Morrison resented attacking a man behind his back, and Alderman Kerr withdrew the remark.

The mayor reported to the council that the Retail Merchants Association had sent a committee to interview the finance committee about certain charges against the city purchasing agent not treating the local dealers fairly. The mayor said that after some talk the committee went away satisfied that all was lovely. Alderman McClymont, in referring to the conference, said he was not sure that the retailers were satisfied. However, the agent was only obeying the instructions of the council in the matter.

ATTEMPT ON PRESIDENT.

German Aviator Endeavors to Drop Bomb on Tent of French President—Brought Down. London, Oct. 19.—The Paris correspondent of the Exchange Telegraph Company in a dispatch says: "Now that the headquarters of the French staff has been changed, it has become possible to announce that when President Poincare visited General Joffre a German aviator dropped a bomb into the town, doing no damage."

The news of the approaching visit of President Poincare had been communicated to the enemy by a spy. One of their best pilots was sent out with a bomb, which he was ordered to drop on the quarters occupied by the President and General Joffre. A French aviator named Framnz immediately pursued and brought down the raider. Framnz was rewarded by President Poincare, who pinned the cross of the Legion of Honor on the aviator's tunic."

TRAITOR IF NOT SOLDIER.

London, Oct. 20.—The Belgian government before removing to France, says a dispatch from The Hague to the Exchange Telegraph Company, ordered all male citizens between the ages of 18 and 45 to enter the army within two days or be treated as traitors.

GERMAN WIFE RECEIVES HEARTLESS OFFICIAL NOTE

Paris, Oct. 19.—The following is an extract from a letter sent by a German soldier to his wife: "Events are happening very differently from what we were led to expect. The French are courageous and fight admirably. Our fatigue is terrible. I am famished and will allow myself to be taken prisoner at the first opportunity."

The letter was forwarded to the woman with the inhuman official note: "The signatory of this letter has been shot."

THE DEATHDEALER BELOW THE WAVES.

The submarine preparing to deliver a torpedo at the oncoming destroyers. The small conning tower above the surface is not easily seen, and when the torpedo has been delivered, the submarine dives out of sight.

CAPSIZED BOAT MAY TELL TALE

Recent happenings would point to a serious accident having happened to someone in the neighboring waters. Yesterday afternoon Mr. H. Johnson, of Seal Cove, picked up a twelve-foot boat, with an Evenrude engine, upset in the water beyond the cold storage plant. The indications were that the engine was freshly in use.

It is possible that this story may be connected with that yesterday reported by The News, when cries of distress were heard on the harbor on Saturday evening. Another solution of the mystery is that somebody may have attempted crossing the rapids beyond Shawatlans during a rush of tide. A boat of that kind would be almost sure to swamp. Up to the present it has been impossible to locate either the identity of the boat or to find if anyone is missing, although everything points in that direction.

ROYAL PROCLAMATION TO GOVERN CORRESPONDENCE

London, Oct. 19.—A royal proclamation just issued forbids the transit, which is subject to the censor's scrutiny, of any letter or written message to any person of any nationality carrying on business in the enemy's country. It is further ruled that any person landing or embarking in the United Kingdom must declare whether he is carrying any letter or message. Officers are empowered to search the luggage of a subject and seize any letter if they are doubtful as to the character and submit the same to the military censor.
