(Special to The Daily News—9:30 A. M.) London, Oct. 21.—The French marines yesterday gave a good account of themselves. The German troops tried to surprise the French but the French held their ground against a force of superior numbers. A thick fog descended and the marines under cover of the weather crept up to

(Special to The Daily News—9:30 A. M.) London, Oct. 21.—The warships of the British navy were ordered to the coast to co-operate with the Allies against the movements of the Germans. INTERESTING LETTER FROM CAPT. DE MUSSY AT THE FRONT

WRITING TO HIS BUSINESS PARTNER IN PRINCE RUPERT HE TELLS OF HARDSHIPS AND TRIALS OF THE SOLDIERS IN THE FIELD.

15 Rue Laurent Gaudet, Le Chesnay (S. & O.), France.
September 28, 1914.
My Dear Philpott,—I got your letter a few days ago when I came back home after having spent three weeks at the front. I was sick with bronchitis and thoroughly exhausted by lack of training, food and sleep; the average sleep was two and a half hours each night, and I had about two pounds of bread without anything else to live on for three days; that bread was soldiers' bread and so hard that I was obliged to take a mouthful of water to swallow that tough food. My regiment had to endure the shrapnel for two or three days, being in support of our artillery. The shells were exploding all around us with a noise that beats the Prince Rupert blasting. Happily, the losses were very light, the German field artillery not being very terrible; their heavy artillery,

BRITISH NAVAL GUNS DO SPLENDID WORK

(Special to The Daily News—9:30 A. M.) Dunkirk, Oct. 21.—A general advance has been made by the Allies, who are fighting mainly with artillery. The best work was done with the British naval guns. A large number of French and Belgian prisoners were taken from the retreating Germans. The assistance of the British warships bombarding the German lines advancing upon Nieuport was an important factor in the Allies' success.

AUSTRIAN BATTALION HAS SURRENDERED

(Special to The Daily News.) Petrograd, Oct. 20.—(5:30 P. M. Special.)—An entire Austrian battalion with all its officers and machine guns surrendered to the Russians south of Przemyśl.

REBELS IN PORTUGAL QUICKLY CRUSHED

(Special to The Daily News.) Lisbon, Oct. 21.—A revolutionary outbreak in Baganza and Adriaeco Beça, a former colonel, was promptly put down. Beça was arrested.

LIGHTWEIGHT CHAMPION HAS ARRIVED TODAY

Johnny O'Leary, the lightweight champion of Canada, arrived on the Prince George today. He is signed by the National Sporting Club to box for the championship October 31. His opponent is not yet selected. Harry Anderson, the late Pacific Coast featherweight champion, who for the past twelve months has been boxing professional and beating some of the best lightweight boys, is in Prince Rupert after a match and the National Sporting Club has signed him up to box J. Clark on Saturday next over the 15-round route as a trial and if he can prove his class by beating Clark he will be given the first contest with J. O'Leary. Should Clark prove successful and show he is in line to battle for the title he will get the bout. Clark, who has now been in Prince Rupert for two months, claims a good reputation as a boxer, and Saturday night will give him a chance. Johnny O'Leary will be given two bouts in Prince Rupert. His second opponent will probably be Lem Kegg. If he cannot be obtained Eddie Shannon will be selected.

IMMIGRATION AGENT SHOT IN COURT HOUSE BY HINDU

MAN SHOT HAD TAKEN ACTIVE PART IN KOMAGATA MARU AFFAIR—SIX HINDUS IN CORRIDOR WERE ARRESTED.

(Special to The Daily News) Vancouver, Oct. 21.—Inspector William C. Hopkinson, of the Canadian Immigration Department, Vancouver, was shot and killed in the court house here at 10 o'clock this morning by a Hindu. Six Hindus who were in the corridor at the time were arrested. Inspector Hopkinson played a very active part against the Hindus at the time of the Komagata Maru visit. Vancouver, Oct. 21.—4 p. m.—Mewa Singh, one of the nine Hindus arrested this morning following the murder of Inspector Hopkinson, has confessed that he alone did the shooting.

TWO HUNDRED ZEPPELINS IN SPRING TO ATTACK BRITAIN

ATTACK FOR THIS SEASON NOT LIKELY AS WINTER STORMS MIGHT WRECK THE AIRSHIPS IF ATTEMPT WAS MADE TO CROSS CHANNEL.

(Special to The Daily News—10:30 A. M.) London, Oct. 21.—London's fear of a Zeppelin attack is slackening. They have realized now that Germany's opportunity for the present season has passed. The winter storms might wreck any armada sent out now. A Berlin dispatch to New York says the Germans are building 200 aeroplanes of extra large type for a raid on London. But these will not be ready before spring. The Zeppelin factories are working night and day. They will have forty-six dirigibles by February.

REPORT OF NAVAL BATTLE IS STILL UNCONFIRMED

RUMOR WAS STARTED BY REPORT OF HEARING FIRING IN THE BLACK SEA—TURKEY WOULD HARDLY GO WAR WITH NATIONS.

(Special to The Daily News.) London, Oct. 20.—(5:30 P. M. Special.)—The reports of a naval battle in the Black Sea were current here today. A dispatch to the News Agency from Copenhagen says: "A Bucharest dispatch to the Berliner Tageblatt says that evidently a big Russo-Turkish naval battle has taken place in the Black Sea. Exceedingly heavy firing lasting considerable time is reported."

NEW POSTMASTER GENERAL SWORN IN

(Special to The Daily News.) Ottawa, Oct. 20.—Hon. T. Chase Casgrain was sworn in today as postmaster-general, and P. E. Blondin, deputy speaker, as minister of inland revenue.

GERMAN GENERAL BEATEN THEN COMMITS SUICIDE

(Special to The Daily News—1:30 P. M.) Ghent, Oct. 21.—A dispatch says that the result of the fight on the Belgian coast has caused great anxiety among the German officers, one of whom, a German general, committed suicide. Festivities announced to celebrate the German successes were suddenly canceled yesterday.

CAPSIZED BOAT TELLS GRIM TALE

The capsized boat found Monday in the vicinity of Seal Cove has been identified. L. L. Hall called at the police station last evening and said that the boat with the Evernude engine, which was found intact, belonged to Albert Ray and his son, who had lived in the vicinity of the Cold Storage. They have not been seen since October 16th, so that it is about certain that they met with an accident. It seems likely that they attempted to rush the big rapids forgetting that the biggest tides of the season were now on. The fall for the last few days was fully ten feet. At any time shooting these rapids is fraught with the greatest danger but there are a few who delight in making the attempt. Very little is known about the victims, but it is thought they came from Spokane. Mrs. Holtby, who went East about a year ago in the interest of her health, returned to Rupert last evening looking remarkably well. During her stay in the East she visited with her daughter, Mrs. O'Neill.

EDITORIALS

Somebody recently remarked that this war would crush the Faith out of a good many people and make them refuse to believe in the ultimate triumph of humanity. The intimation was that the Idealistic Philasaphy, which looked forward toward an evolved and emancipated humanity was thrown to the winds and that instead of evolving along a straight line to a perfect goal the process of evolution was moving in a circle. Following this idea out, the race had already reached the highest development of which it was capable. The world wide clash of arms in this day of enlightenment was a proof of this and that now humanity must again go around the circle, passing through another dark age of superstition and ignorance.

That class of thinking will no doubt appeal to a certain class of men, as it always has. There is, however, nothing ultimate or final about it. This war with all its terror and disappointment will not necessarily cause this world to forget its past nor to throw off its culture. Neither will it prevent it from taking a fresh start when the war is over and go still higher up the ladder. The chief mistake that the opponents make is that they think evolution should work out its goal in a few years. Rather allow it a few million years, and then perhaps a distinct advance may be found.

But why should this war more than a thousand other

events cause anybody to lose faith in humanity or in humanity's God. If it is true that the human personality has elements of freedom in it then we can always look forward for surprises, some of which will be along the line of good and others in the other direction. Better to be free and to go wrong than to be a machine incapable of moral actions. While great forces of men with big guns are facing each other in this war the fight is really a spiritual one striving for the mastery of ideals. The same thing has been happening daily for thousands of years and humanity has not lost its faith. The only difference is the magnitude of the issue at stake.

But perhaps there is a silver lining to the dark cloud. Perhaps the world has been getting too prosperous and ease-loving, and perhaps that human can only evolve toward a high ideal under strenuous circumstances. There may be too many middlemen and too many parasites on society and perhaps the only way to rid the world of these barnacles is to tear prosperity into shreds and again compel men to earn their living by the sweat of their brows. One thing is true: Human struggle and self-sacrifice are never in vain. It cleanses and purifies and ennobles the race and the next generation will show the results in the crop of great men that it will produce—like all other great wars of the past. It will also put a new life in religion and the pessimism of the past will disappear.

ENORMOUS INRUSH TO CANADA AFTER WAR

Calgary, Oct. 19.—After the war, what? Well, an exodus to Canada, if we are to believe what James Oliver Curwood, the American novelist, who has spent several years in the last great west, says. Mr. Curwood is in intimate touch with the resources of Western Canada, and he predicts that five Germans will come to the Dominion to every one that went to the United States after the Franco-Prussian war. Mr. Curwood's interesting observations are as follows:

"Following the signing of peace will follow an immigration movement that, I believe, will amaze the world. Have people forgotten what happened immediately after the Franco-Prussian war in 1870? Have they forgotten that three of the greatest states in the United States—Nebraska, Minnesota and Iowa are our three great German states, and three of our richest states. The Franco-Prussian war made those states. And where one German sought new opportunities across the sea in those days, I look to see five come after the present war. They will not go to the United States. In spite of tremendous real estate booms in Texas and other parts of our South, I cheerfully place myself on record as saying that there are no fit lands left open in the United States. To Canada and South America must go the immigrant of the future who is seeking land on which to make a livelihood."

Along with this influx must be included that from the other countries involved in the clash, and of these latter newcomers the Jews will form a large proportion. Canada will welcome the Jews, but we would welcome them far more warmly were they to devote their attention to the cultivation of the soil, but who in Canada has heard of a Hebrew farmer?

PASSING EVENTS

The Syrian colony in Halifax has contributed \$310 to the Patriotic Fund.

Ottawa's three days' Patriotic Fund campaign last week resulted in securing \$371,215. The amount aimed at was \$350,000.

The "Western Counties" exhibition, held at Yarmouth last week, was well attended and was a decided success. The fruit show especially is said to have been the finest seen for some years.

The King Edward Memorial, on Philadelphia Square, Montreal, was unveiled by H. R. H. the Duke of Connaught last week. The monument is the design of the Canadian sculptor, Louis Philippe Hebert.

In taking on 6,000 extra employees at regular wages in Eastern and Western Canada the Canadian Pacific Railway, which is the largest employer of labor in the country, is setting the rest of the Dominion an excellent example.

A movement under the leadership of Sir Wilfrid Laurier, Hon. Rudolph Lemieux and other leading French-Canadians is on foot to organize a French contingent to be sent to the front with the next Canadian force. Col. Sam Hughes approves of the proposal and the Premier has promised to recommend it to the government.

The Sons of Temperance celebrated the seventy-second anniversary of the organization of that order by a public meeting, in St. Paul's Hall, Halifax, last week. The speakers were Rev. A. B. Cohoe, Rev. Benjamin Hills, and A. M. Hoare. Mr. R. S. Theakston occupied the chair and gave a brief account of the history and purpose of the order.

Machine shops in Toronto, Hamilton, Dundas, Galt and four or five other places have secured contracts for the manufacture of 18-pound shrapnel shells during the past few weeks, and some are already at work. The government requires absolute conformity with specifications. The shells are wanted for war, in lots of 100, and one in each lot is tested. If it proves faulty the whole lot is returned.

The Republican Convention of Massachusetts last week endorsed the nomination of Samuel W.

McCall, of Winchester, as its candidate for governor.

Seven foreign vessels with an aggregate of 23,716 tons gross were admitted to American registry under the recent act of Congress during the week ending September 26. Six were British and one a German vessel.

A project is on foot for the holding of a conference which would be attended by representatives of Russia, Great Britain, Sweden and Norway to study the questions relating to commerce between Russia and Great Britain over the northern route.

English schools are likely to benefit considerably this winter by the withdrawing of British pupils from schools on the Continent. In some cases the principals of Continental schools are setting up schools in England. Many business men who are suffering in consequence of the war are looking for cheaper schools for their boys and girls.

Because German artillery shelled the Cathedral of Rheims, the Council of the Central Association of French Architects has decided to strike the following names from the list of its foreign correspondent members: William Doerpfeld, Berlin; Joseph Stubben, Posen; Otto Wagner, Vienna; and the Corresponding Associations of Architects of Berlin, Vienna and Budapest.

Answers from factories to inquiries addressed by the British Home Office show that more than one-half are working normally, and only 2 per cent have closed down. A cause of depression assigned by an overwhelming majority of the factories reporting slack trade is the withholding of normal orders for luxuries. In the raw materials of foodstuffs the only marked scarcity is in sugar.

The delegates of six international unions in the building trades have completed the forming of an alliance by which strikes over disputes involving the work one union should do will be averted. The six unions are the Bricklayers and Masons International Union, the Journeymen Stone Cutters International Union, the International Union of Engineers, the United Brotherhood of Carpenters and Joiners, the Plain and Ornamental Operative Plasters Society and the International Hod Carriers and Building Laborers Society of America. They represent more than 500,000 workers throughout the United States and Canada.

GOETHALS HOPES TO HAVE CANAL OPEN THIS WEEK

Washington, D. C., Oct. 20.—Colelen Goethals has cabled the War Department that traffic through the Panama Canal, blocked by a landslide into Culebra Cut, would be resumed this week unless there were further earth movements.

"The slide occurred east side of canal north of Gold Hill at 5 o'clock last evening, 1,500 feet long, completely blocking channel for 1,000 feet in length," Colonel Goethals cabled. Dredges were moved to the north of it when the movement began and are now operating to open up a channel for passage of the boats. Unless further movement occurs, expect to have channel open in one week."

RUSSIAN WINTER ADDS NEW HORRORS TO WAR

The rapid approach of winter has added new horrors to the fighting in the forces of Russia.

The correspondent of the Novevremya, who was with Rennenkampf's army during the fighting in the Suwalki district, reports that Red Cross rescue parties searching the dense undergrowth of Augustow forests for wounded, found a number of bodies partly eaten by wolves. In this region are vast tracts never trodden by man before the battle that resulted in the retreat of the Germans occurred. At one point searchers found a Uhlan who had been treed by a pack of wolves. He stood them off until his ammunition was exhausted and then managed to climb a tree, though wounded. He said a helpless comrade had been devoured by the ravenous beasts.

NORWEGIANS COMPLAIN.

British Seizures of Vessels Alleged to Be Carrying Contraband a Hardship.

Christiania, Oct. 20.—Considerable comment is being made in the Norwegian press upon British seizures of Norwegian vessels, an almost daily occurrence. The Trade and Shipping Gazette says: "The restrictions placed upon neutral trade by the regulations concerning contraband may be troublesome, but they are bearable provided shippers are correctly informed as to what is contraband and what are the regulations affecting it. Difficulty, however, arises when shippers are ignorant of these regulations, or having been informed of them find that they are not being carried out. "Neutral countries are loyally deferring to the wishes of the nations now at war provided their legitimate interests are not sacrificed."

Cream of Tartar, the chief ingredient of Dr. Price's Cream Baking Powder is a product of ripe grapes. It is pure and healthful beyond question.

PACKED HOUSE TO HEAR PROF. ALEXANDER

The Empress Theatre was packed last night to hear Prof. Alexander deliver his lecture on "Love, Courtship, Marriage and Jealousy," and it may safely be said that every individual present enjoyed thoroughly the stories, witty asides and sound common sense of the lecturer. They say the lookeron sees most of the game but Prof. Alexander not only looks on but has the faculty of looking in. The average person gets into a groove in bathing, working, thinking and liv-

ing generally. Last night the lecturer ripped up many deep, well trodden grooves and replaced them with solid roads of clear, sane thought and action.

Perhaps the most important part of the lecture was that in which he scathingly denounced marriage for money. In plain language, he described the woman who sells herself to one man for his money as being worse than a woman of the street, as the latter at least is honest in declaring herself for what she is, while the former pretends to be an honest woman. The fallacies in many of our modern ideas were

laid bare and absolutely riddled. The professor has the ability to make people think, which is the greatest gift a preacher and teacher can have in an age when people rush from one excitement to another in order to forget.

At the close two young ladies had their "bumps" examined, and Prof. Alexander picked the two young gentlemen from the audience whom he considered most suitable, mentally and physically, as mates for these ladies.

After last night the Empress Theatre should be too small to hold the crowd.

"THE LAST DAYS OF POMPEII."

MARVEL IN MOTION PICTURES.

"The Last Days of Pompeii" at The Westholme Tonight.

There are so many ideally beautiful scenes in George Kleine's photo-drama production, "The Last Days of Pompeii," that it is difficult to find any to praise more than the others. Among the unusual episodes, however, that are particularly pleasing to the discriminatingly artistic spectators are those showing Glaucus and Ione floating down the Bay of Naples in their beautiful barge, attended only by their slaves and slowly developing that glorious, steadfast love that sustained them later in the terrible ordeals that befel them—and the scene showing Ione at her bath, receiving the message from Arbaces to come to the temple. This is one of the most beautiful pictures of the group and gives an excellent idea of the luxurious manner in which the wealthy ancients performed these functions. Both the homes of Glaucus and Ione are gorgeous specimens of ancient beauty and luxury, denoting the artistic quality of the people of those times. The scene showing Ione and Glaucus feeding the fish and doves is exquisite in its daintiness.

"The Last Days of Pompeii" is a photo-dramatization of Lord Bulwer-Lytton's widely read romantic novel and is announced for tonight and tomorrow night

at The Westholme opera house, with a matinee on Thursday afternoon at 4 p. m.

A most prominent feature of tonight's initial production of the wonderful moving picture spectacle, "The Last Days of Pompeii," will be the splendid musical program provided by Mr. George Werner and his deservedly popular orchestra. The following are some of the beautiful gems of operatic and instrumental classics to be played during the performance:

"The Merchant of Venice" Bass
"Ballet Egyptian" Lutes
"Semiramide" overture Bass
"Aida" selection Violin
"Erl King" Violin
"Massaniello" overture Alto

The Henriette left this afternoon for Skeena River points to pick up a shipload of fish to be sent over the G. T. P. The A. B. C. Packing Company is sending through a car of canned salmon. The Wallace Fisheries are also making a shipment.

Mr. Montgomery, chief engineer for the Imperial Oil Company, arrived in town this morning accompanied by Mr. Beers, of Beers, Ltd., who have the contract for the oil tanks here. Work will start immediately on the construction.

Johnnie O'Leary and his manager, A. W. Madden, are ready to go to the hills for a short holiday, although O'Leary will be seen in a local bout. They intend to go to the hills for a short holiday as they believe in that kind of exercise as much as any.
