Paris, Oct. 22.—(Official Bulletin)—On our left wing the German forces are in considerable strength and have made violent attacks, particularly in the vicinity of Dixmude, Warneton, Armentieres and Labassee, but the positions occupied by the Allies have been maintained. On the east front the enemy

The forward movement of the Russian forces is positively announced. Important successes in the region of Warsaw have driven the enemy back more than thirteen kilometers.

GOT AN IMMENSE MOUNTAIN GOAT

Two Local Hunters Secured Valuable Prize on the Rocher de Boule Recently.

Last week two local prospectors and hunters went up on the Rocher de Boule Mountain and the next day came down with one of the largest mountain goats that has been seen in this district, according to the Omiceca Herald. They secured the animal on one of the highest peaks and in order to get it down they had to take the hide off and cut the carcass into pieces and line around the peak to a place where they could make a descent with some degree of safety. The animal weighed 230 pounds. It required four shots to kill it, the one doing the work piercing the left lung. Mountain goats are fairly numerous on Rocher de Boule Mountain and several have been secured during the past couple of years, although they are very wild and most difficult to approach within gun range.

BIG POW-WOW LAST NIGHT AT METLAKATLA

There was a big pow-wow last night at Metlakatla. Indeed, it was the event of the season, for their fine new town hall was thrown open for the first time and the occasion was used to raise money for the Patriotic Fund. The event opened with a basket social and was followed by songs and speeches and dancing; and it was surprising to see the amount of good talent there is in the village.

SERIOUS ACCIDENT NARROWLY AVERTED

Another accident has happened to the city's big "Red Devil," as the fire auto has been dubbed. Strange thing, too, is that the accident occurred at the very place where it upset before, causing the death of a well known citizen. The accident took place shortly after 9 o'clock, near the junction of Ninth and Eighth Avenues at Hays Creek. The auto was out for its usual morning run and was going in the direction of Hays Creek. The machine at the turn began to skid and slipped right off the street. At that place there is a fall of several feet and the auto turned over and fell on its upper side. Strange to say, no one was seriously injured for everybody jumped when they saw the danger.

MASSETT WEDDING.

A pretty wedding was celebrated last Saturday night at the residence of the bride's mother, the Hotel St. Ives, when Nellie, only daughter of Mrs. Ives, and Leonard A. Graef, Dominion government telegraph operator at Massett, were united in marriage. Only the immediate relatives of the bride were present. Rev. Mr. Crarey, of St. John's Episcopal Church, Massett, performed the ceremony. The bride was given away by her brother, Mr. Sam Ives, and looked very sweet in a gown of white lace and chiffon and orange blossom. After the ceremony the company partook of an elegant supper, during which toasts were proposed by Rev. Mr. Crarey and Mr. Charles Harrison, wishing the bridal pair every happiness and good fortune.

FRENCH PRIEST DIES HEROICALLY

Paris, Oct. 19.—The heroic death of Abbe Delebecque, curate of the parish of Maing, is described in L'Echo de Paris. The abbe, who had gone to a religious ceremony, was bicycling back to Maing when he was arrested by a German patrol. The abbe was searched by the soldiers, who found some letters given him by French soldiers for their families. He was court-martialed at midnight and sentenced to death for spying.

The priest confessed to a German chaplain and spent his last night in praying at the front altar of St. Nicholas Church at Valenciennes. He took communion and then started on foot towards Dampierre, where he was going to be executed.

It was 5 o'clock in the morning when he arrived at the spot for the execution. He knelt down and handed over to the German officers a letter for his mother, saying, "I am offering my life for France without regret."

A few minutes afterwards he fell down pierced by twelve bullets. The inhabitants of Dampierre piled stones in the shape of a cross and strewed flowers upon the martyr's grave.

L'Echo de Paris adds, "This is the seventh priest in the Diocese of Cambrai shot by Germans."

David G. Stenstrom, Mrs. Stenstrom and son, Jack, left Tuesday morning for Vancouver and will reside there in future. Mr. Stenstrom will be connected with the Vancouver office of Foley, Welch & Stewart.

Al. Halligan, of Prince Rupert, was in town several days this week loading the small auto truck which was used a couple of years ago in this district. Al is taking it down to Rupert where he will put it into commission.

G. H. Crabtree, of the Foley, Welch & Stewart staff here, left Tuesday morning for Vancouver where he will be connected with the same firm. Mr. Crabtree has made many friends in this town and they regret his departure.

D. McLeod, L. J. Conkey and H. F. Gorman, of the Foley, Welch & Stewart staff, left on Thursday morning for the south. Mr. McLeod will be in Vancouver for some time, while Mr. Conkey will go to his home in Seattle and Mr. Gorman to Portland, Ore., and Spokane, Wash.

Constable Lavery ran across a couple of Ontario men peddling maps and selling magazines in town on Thursday without a license. He soon got in touch with them and they took a trip over to see the chief and arrange for a license. The license fee is \$25.

On exhibition in the Omineca Herald office are samples of the roots grown on the Harris ranch this year, consisting of parsnips, carrots and turnips. It is hardly necessary to describe these large and excellent vegetables, one has only to see them to realize that the soil in the district is very fertile. The Harris ranch produced an immense crop this year.

BRITISH DEEPLY RESENT AMERICAN PEACE PROPAGANDA

London, Oct. 20.—The financial and commercial relations of the United States with Britain are being injured by persistent reports from Washington that the American government is contemplating the renewal of peace proposals.

These hints, coming mostly from Washington and New York, are subtly phrased, but there is an obvious intention to make it appear that they are semi-official, representing the actual view of the President and his cabinet. The British public, now convinced that lasting peace is impossible, until Germany is completely beaten, is being goaded by such reports into positive anger.

All classes of the public are averse to a disagreeable impression that the United States intends to use its influence to save Germany from the consequences of the German-made war.

A distinguished public man, one whose name would compel instant attention if it were possible to disclose it, says: "Personally I have no notion that the United States government intends to press mediation proposals. I have reason to know that Washington understands and respects the sincerity of the British position. But the agitation in America for bringing about peace is having a most disturbing effect, one that cannot but affect deleteriously our financial and commercial relations. That agitation should be curbed. Reports that the United States government is to take such steps should be stopped. I state the case plainly: The gravity of the situation cannot be overestimated."

PIONEER LAUNDRY STAFF REORGANIZED

The Pioneer Laundry, Ltd., which has given the public such excellent service in the past is continually being improved. New machinery has recently been installed until it has become one of the most modern plants on the Pacific Coast.

One of the latest transformations was to reorganize the office end of the business and Mr. Douglas Sutherland, one of the heaviest stockholders in the concern, has taken charge. This will mean better service than ever and that every patron will have his wants attended to immediately.

Mr. E. Dehon, who has given such excellent service during his term of two years, is still in charge of the mechanical department and oversees the work as it passes through. Mr. Dehon has been successful in getting together a staff of such excellence that the work now being turned out is equal to that done in the large cities.

EDITORIALS

A late issue of Colliers calls upon the American people to become savers instead of borrowers. A table showing the percentage among the nations of those who save put the United States at the bottom of the list, with only ninety-nine savers out of every thousand. Incidentally, it might be pointed out that Canada did not appear at all, since no doubt the percentage of savers was still smaller. This, of course, does not mean all Americans and Canadians are spendthrifts. It is rather because this being a new country a large proportion of the people are investors and prefer the profits of buying and selling to the trifling amount that comes from interest at bank rates.

Municipalities who go to the markets for funds should turn their attention to even the small investor in their midst. Some cities have put small denomination debentures on the local market with excellent results. Prince Rupert has been chasing over the earth to get some one to buy her debentures and never thought of trying to sell them at home. Of course a large amount would not be sold but at the rate the last certificates went at—10 per cent—there might be a good deal of them disposed of. Then if this practice was carried on it might induce a good many people to practice thrift and invest. If ten dollar bonds were for sale a campaign might be started like the "Buy a bale of cotton" slogan.

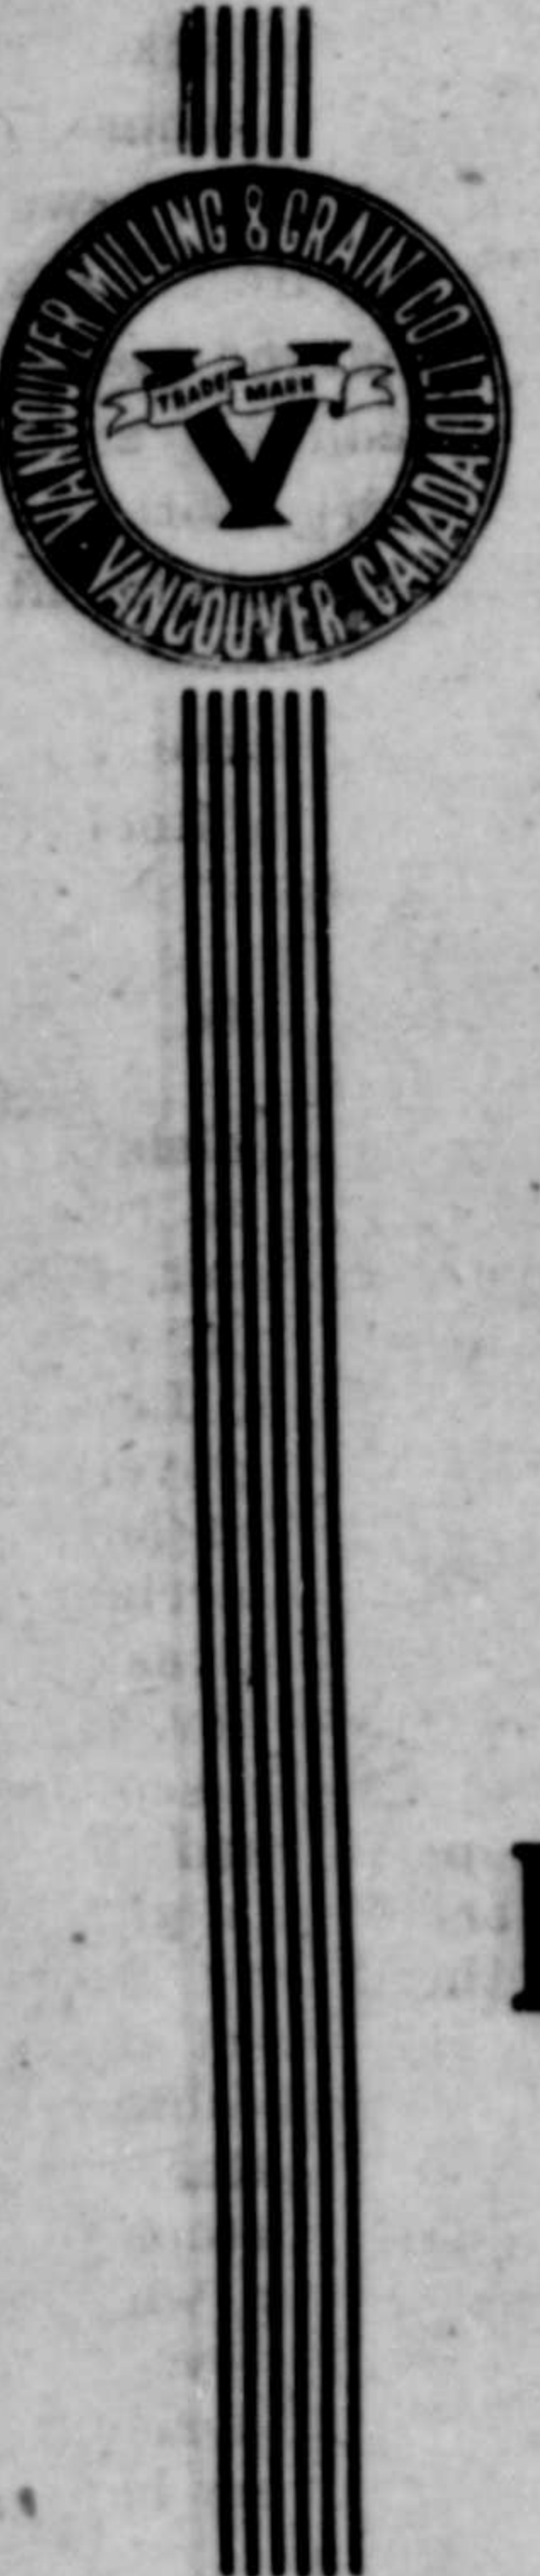

There is a large class, however, who do not use their money for any profitable purpose but let it go as fast as it comes. A large number of workmen are of this type. They say it takes every cent they earn to keep them going and no doubt it does. But that is because no method is employed. No matter what the income, a man can easily get away with it if he wishes. On the other hand, no matter how small it is, a certain amount can be saved if the will to do it is present. It is most stupid for a man to grow old without a little set aside. It is also a splendid practice for the business man to set a little of his profits aside or to place it in good conservative securities. It would give a good training in economics and at the same time give him greater security.

The question of fire insurance rates is a live one in this city but there is a more vital one, and that is, do you get any insurance after you pay your good money. A local business man on examining policies to the extent of ten thousand dollars which he had just received found that not one of them were made out properly and consequently were of no actual value to the insurer. Another man who paid insurance for three years found that the agent had the wrong description of his property and that during that period he got no value for his premiums paid. Most people throw their insurance policies into the safe without ever examining them, and this is fatal to his safety. Of course it may not always be the agent's fault, for he may not be aware of any change in the risk. If you pay for insurance see that you get it.

Cured Both Stomach Trouble and Headaches

PALMERSTON, ONT., JUNE 20th, 1913.

"I really believe that I owe my life to 'Fruit-a-tives'. Ever since childhood, I have been under the care of physicians and have been paying doctor's bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old stomach, trouble and distressing headaches nearly drove me wild. Sometime ago, I got a box of 'Fruit-a-tives' and the first box did me good. 'Fruit-a-tives' are making you look so well, go ahead and take them. They are doing more for you than I can".

AUSTRIA OFFERS ITALY BIG PRICE FOR NEUTRALITY

Trentino and Avlona to Be Hand-Over Agreement Reported to Have Been Reached.

London, Oct. 17.—The Stockholm correspondent of The Daily Telegraph has sent a report from Austrian sources to the effect that Austria-Hungary and Italy are on the eve of concluding an agreement under the terms of which, in exchange for the maintenance of Italian neutrality in the war, Austria-Hungary will cede to Italy the Trentino, a district in the Austrian Tyrol bordering on Italy and containing the city of Trent, and permit a permanent Italian occupation of Avlona, the seaport on the Adriatic.

The Telegraph expresses the opinion that the report would be received with the utmost caution.

NUMEROUS INQUIRIES ABOUT NEW DISTRICT

G. T. P. Expects Many Settlers to go to Francois Lake Next Spring.

Victoria, Oct. 19.—Numerous inquiries are being received at the Grand Trunk Pacific offices from people in different parts of this continent as to the conditions and prospects for settlement along the route of Canada's new transcontinental railway. C. E. Enny, J. of Vancouver, general agent of the passenger department of the G. T. P., informed the press that Jacob Blitzen, of Loyalton, South Dakota, was now on his way into the Francois Lake district to look for pre-emptions for twenty-five families who will move to the northern country if everything comes up to the expectations of Mr. Blitzen.

While during the winter the officials of the Grand Trunk do not expect many settlers to make their way into the center of British Columbia, they are fully confident that next spring many Canadians as well as a great many Americans and Old Country newcomers will head for the newly opened section of this vast province an dput countless acres of land under cultivation.

Mr. Jenny said that Mr. Blitzen will arrive in the Francois Lake district by the end of this week. He will make a careful inspection of the land and if it meets with his liking he will arrange for the pre-emption of 25 sections. Crops in the vicinity of Loyalton have been rather bad for the past year or two and quite a few of the farmers decided to sell out and come to British Columbia. Mr. Blitzen was delegated to make the trip of inspection and the others will await his report. The land around Francois Lake is exceptionally good and the pioneer will no doubt have an easy time picking out sections suitable to himself. The railroad passes quite close to the Lake district.

Many persons are inquiring about and in other shrdulbrdruu province, and nex tspring it is expected that many settlers will take up land in Central British Columbia.

WALDRON APARTMENTS HAVE BEEN COMPLETED

The Waldron Apartments, on Fourth Avenue West, the property of Mr. James Gilmore, architect, have just been completed and is a credit to the city, being one of the best buildings in the city. The site itself makes it very attractive and the quaint home-like atmosphere about it makes it very desirable in every way. There are ten suites in all and six of them are already taken. Mr. Gilmore himself occupies the ground floor. Other tenants are G. D. Hull, M. H. Craig, M. J. Hobben, G. Bryant and Miss Gleason. The suites are all of five rooms with bath, toilet, open fireplaces and all steamheated. Each suite also has its own range. There are also a back and front approach to the suites, with coal bins and dumb waiter, etc. The back entrance has a separate door to the street that is used for delivery purposes.

Mr. Gilmore is certainly to be congratulated not only for the excellent location chosen but the taste he has shown in arrangement. Mr. M. M. Stephens is agent for the property.

A WONDERFUL PICTURE.

"The Last Days of Pompeii" an Unqualified Success.

The initial performance of George Kleine's wonderful spectacular production, "The Fall of Pompeii," drew a large house at the Westholme Theatre last night and it is only fair to state

that in announcing these pictures as the "best ever made," the theatre management did not go beyond the bounds of truth. It would be difficult to imagine anything more nearly perfect in moving pictures than "The Fall of Pompeii."

Bulwer-Lytton's fascinating story is faithfully illustrated. No detail is lacking and the actors are perfect in their various parts. The love scene between Glauens and Ione, the storm scene on the mountains, the devotional scene at the Temple of Isis, and the awe-inspiring finale showing the eruption of Mount Vesuvius and the destruction of Pompeii are all praiseworthy in the extreme.

Much credit is due the Westholme orchestra for the splendid musical numbers played during the performance. There will be a matinee at 4 o'clock this afternoon for the benefit of the school children. The final performance takes place tonight.
