THE EAST GERMAN LINE BROKEN BEYOND NANCY

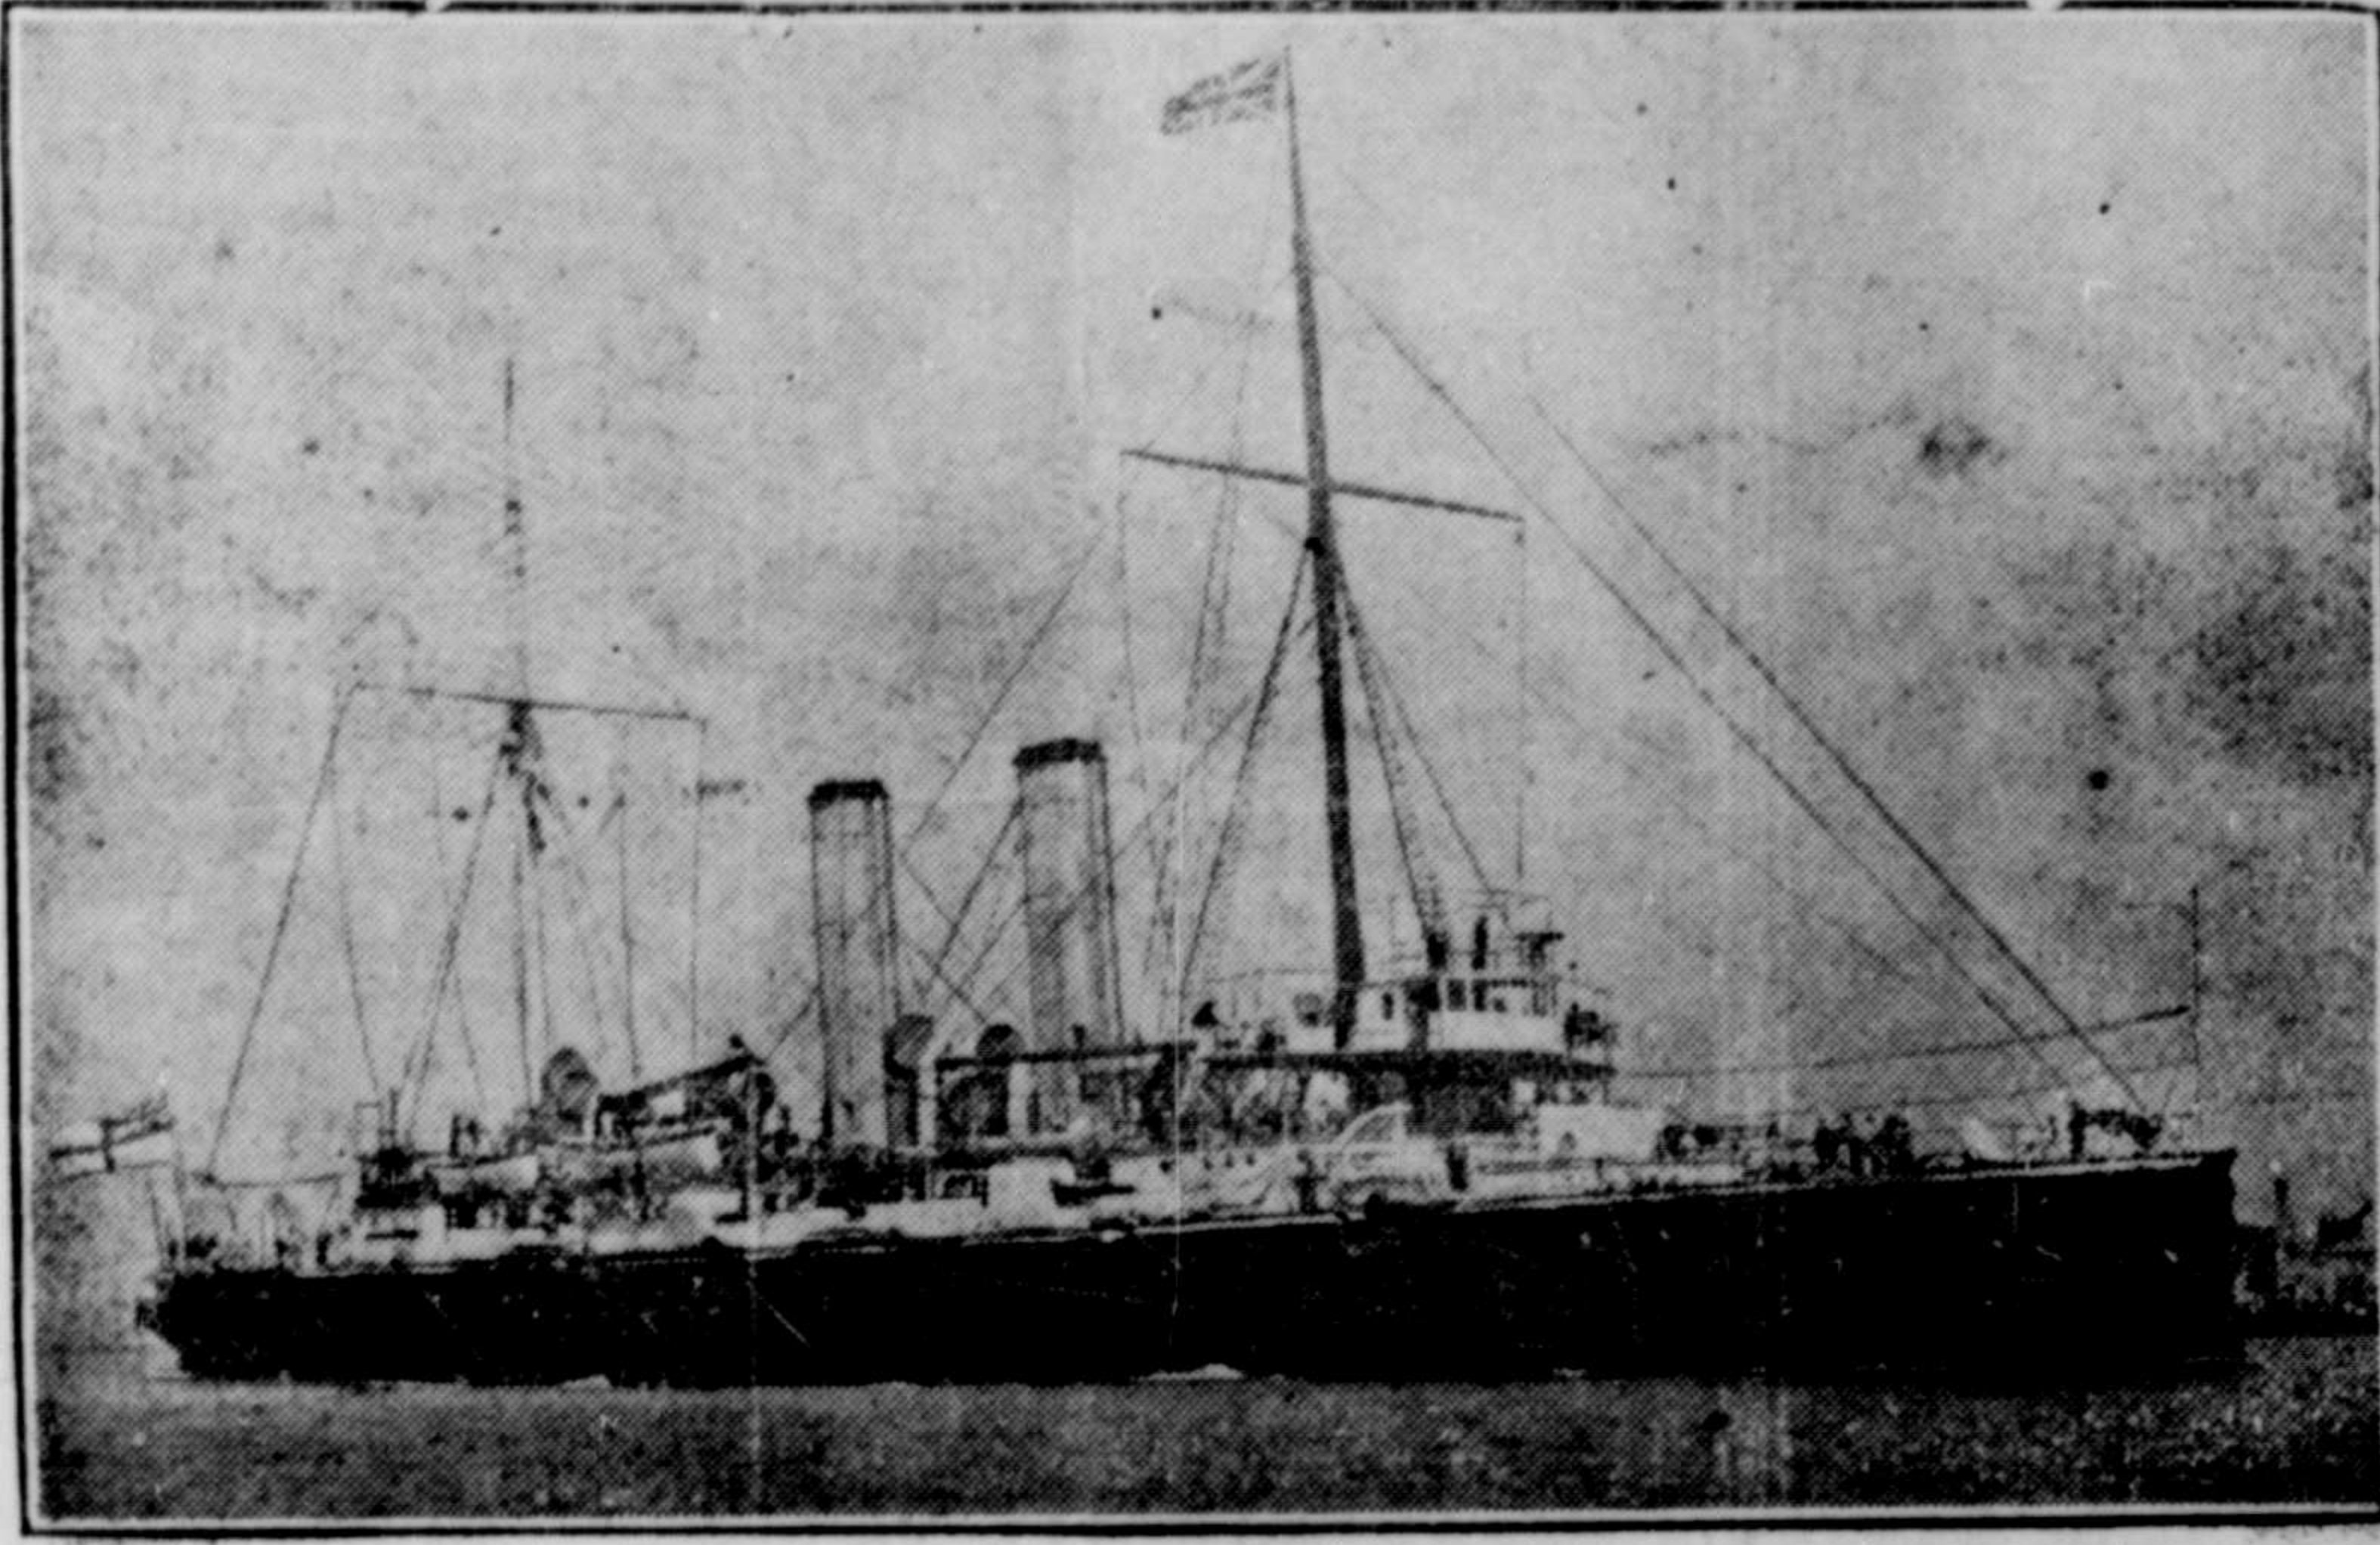

ALLIES GAIN ADVANTAGE IN TERRIFIC ARTILLERY DUEL -- ENEMY ARE NOW ON GERMAN SOIL

EAST GERMAN LINE BROKEN DRIVEN BACK ON GERMAN SOIL

OFFICIAL REPORT SAYS GERMAN LINE WHICH HAS STRETCHED ACROSS FRANCE FOR SIX WEEKS HAS BEEN BROKEN -- ENEMY NOW ON GERMAN SOIL.

(Special to The Daily News—1:30 P. M.) Paris, Oct. 27.—The battle of Monday was marked by terrific artillery duels, in which the Allies gained some advantage. In the evening the Germans attempted several infantry attacks, but these were repulsed with enormous losses. The official report today tells

that the German line, which for six weeks has stretched across France, has been broken beyond Nancy near the eastern end and driven back on German soil. The offensive has been resumed by the Allies at other points on the line. There is heavy fighting at Soissons.

H. M. S. HAWKE, LAUNCHED 1891, SUNK OCTOBER 15, 1914, IN NORTH SEA.

The British cruiser which was sunk while on patrol duty in the North Sea on October 15 by a German submarine. Out of a crew of 400 men only fifty were saved. H. M. S. Hhesus was attacked also, about the same time, but managed to escape the torpedo. The Hawke was of 7,350 tons displacement, 360 feet long and 60 foot beam.

OFFICIAL RUSSIAN REPORT SHOWS GOOD PROGRESS

(Special to The Daily News—9:30 A. M.) Petrograd, Oct. 27.—(Official.) Combats upon routes leading to the Yser have assumed the character of a great battle. In the night combat near the village of Mazameroff we captured two batteries and machine guns. Our troops command the fortress of Englove, where we took 400 prisoners in the forest between

Radom and Kozvitz. In a tenacious combat as we progressed along the route between Nova and Alexandra, where we captured numerous prisoners and cannon. The stubborn resistance of the Austrians in Galicia is weakening. Our troops are making vigorous progress in the region of Sambor and Staromiassto. We took eleven

BELGIANS TAKE TRENCHES AT POINT OF THE BAYONET

(Special to The Daily News—9:30 A. M.) London, Oct. 27.—A dispatch to the Telegraph declares that the German success in crossing the Yser was only short-lived. The Belgian entrenchments which the Germans took were retaken at the point of the bayonet. The enemy stumbled pell-mell over the Yser, being many by drowning. The Germans evacuated several im-

portant positions near Arras, along the center and at Rheims. Correspondents declare that many villages in which there has been fighting have been partly burned. At Beilechappelle there was a ferocious encounter in the cemetery between the French and the Germans, during which the church tower was destroyed and the walls of the edifice wrecked.

GERMANS ADDING TO WESTERN ARMY

(Special to The Daily News—1:30 P. M.) London, Oct. 27.—An Amsterdam report says that the Germans continue to send large masses of troops to the westward. On Sunday 10,000 Austrians arrived at Ghent.

KAISER IS MADE COMMANDER IN CHIEF
(Special to The Daily News—1 P. M.) Copenhagen, Oct. 27.—Under the new military agreement between Austria and Germany, Emperor William takes the leadership of the united armies.

MINERS ENTOMBED.
(Special to The Daily News.) St. Louis, Mo., Oct. 27.—Two hundred and fifty miners were entombed by an explosion at Royalton, Illinois. Thirty bodies have been recovered.

ANOTHER EARTHQUAKE.
(Special to The Daily News.) Florence, Italy, Oct. 27.—A severe earthquake occurred here today and caused a panic. There was no damage.

G. T. P. ENGINEERS IN TOWN.
Last evening there arrived by special train, the private car Ottawa, with Collingwood Schreiber, the Dominion government engineer, and H. A. Woods, chief engineer of the G. T. P., on board. They are making a tour of inspection of the line. Mr. Schreiber has watched the construction of the G. T. P. line from its beginning, and is well pleased to be able to travel over it with all the comforts of a private car.

ALLIES ADVANCING—ENEMY REPULSED
(Special to The Daily News.) London, Oct. 26.—(5 p. m. Special.)—Reuter's Paris correspondent says that advices from the front indicate a general allied advance between Neuport and Ypres as well as east of Arras. The French War Office says the German movement across Yser, which presented a menacing aspect, has been checked.

AMERICAN CONSUL GETS IN HIS WORK
The first official act of the new American consul, Mr. I. N. Linnell, was to give a bill of health to the Princess Sophia, which left this port yesterday afternoon for Alaska. On leaving Victoria the ship was informed of the new regulations here and interviewed the consul. The official forms not yet having arrived, a letter was given conveying the official instructions.

Hereafter all ships leaving this city for American ports must secure a bill of health from the consul, for which a fee is paid. Likewise, all shipments from this port to American centers must be certified whether by water or by rail. When the city develops a little more the consul will be a busy man.

FINES ARE IMPOSED.
Toronto, Oct. 26.—After a consultation with their counsel, the Canadian Pacific Railway Company's conductors accused of breach of the Secret Commission Act have determined to plead guilty on this count, which is punishable by a fine. Fines of \$200 or three months in jail were imposed.

CITY PAYS LIGHT BILL FOR SOLDIERS
The question of bringing soldiers to Prince Rupert came up last night and was threshed all over again. The incentive was a report of the Light and Telephone Committee that a bill for \$75 be charged to the government for the light used in the old Premier Hotel. The mayor contended it was unpatriotic to present it. He said the Council had instructed him to secure the soldiers and he had told the authorities that he would assist in any way he could. The aldermen, in reply, said that the defence they asked him to secure was in the way of big guns or batteries, and not soldiers. There were lots of men here. The city would have to pay its share of Canada's war tax, and why not present our bill for this? After an endless discussion the vote to omit the charge was a tie and the Mayor gave the casting vote in favor of the city standing the cost.

SCHOOLBOYS COULD ASSIST THE COUNCIL
The city made a big mistake in building a new school. At any rate, since the High School moved out of the City Hall most of the intelligence seemed to depart from that sanctuary. The light superintendent presented a reporting advising that all extension phones be reduced \$6 per year. That looks simple, but it took half an hour to find out what an extension phone means. It took another half an hour to figure out how the reduction would act. It was clearly explained that the present price was \$2 per month, or \$24 per year, for an extension line with a bell, and \$1.50 per month, or \$18 per year, for an extension line without a bell. It was also pointed out that an extension line was not a party line but was an extension of a phone from one room to another in the same business or home. That wouldn't do. The Mayor wanted to know if the whole cost of the phone would now be \$6 per year. Alderman Morrissey wanted to know if his party line would be likewise reduced. He insisted on understanding it thoroughly before passing. Alderman Maitland, who had "seen the light," moved that the matter be left over for a week so the Mayor and Alderman Morrissey could study it and see through it. The motion carried.

EXPECT NAVY ATTACK.
(Special to The Daily News.) London, Oct. 26.—(5 p. m. Special.)—Britain is now full of expectation as to when the Germans will bring their navy into action off the Belgian coast. Their submarines have been active for some days but have met with no success. It would not surprise the British if the sea phase of the fight would be really pronounced soon, though a general action is not expected.

RAISE OF SALARIES WAS LIVE TOPIC
Raising of civic employees' salaries was a live question for a little time in the Council. The electric superintendent recommended that B. Daniels be given a raise from \$60 to \$75 per month. It was explained that Daniels was an apprentice for a year and that he was making good. It was also recommended that Sinclair, who is temporary foreman of the Cow Bay lighting plant, while James Black is installing the hydro-electric, should be raised from \$125 to \$135 while acting-foreman.

ALDERMAN MORRISON WAS OPPOSED TO RAISING SALARIES WHEN EVERYBODY WAS HARD UP.
Alderman Montgomery pointed out that he was really taking the place of a man who was entitled to \$150, so that it was not really a raise.

ALDERMAN MORRISSEY CONTENTED THAT IF THERE WAS OVERTIME THE MAN'S TIME SHOULD BE KEPT AND PAID ACCORDINGLY.
Alderman Montgomery said that would give a chance to make the raise far more than \$10 per month. After a half-hour of wasted talk the report was adopted.

BRITISH HELD HALF A MILLION GERMANS FIVE CRITICAL DAYS
ENEMY'S INFANTRY ADVANCE TO WITHIN A FEW HUNDRED YARDS BUT WERE PUSHED BACK BY BAYONETS—MANY KILLED AND PRISONERS TAKEN
(Special to The Daily News—1 P. M.) London, Oct. 27.—A Times dispatch says most of the furious German attack along the Yser was at Ypres, where a quarter million Germans were held back by the British forces for five critical days. The artillery fire against the British in the trenches was terrible, often burying men in dozens. The enemy's infantry advanced to within a few hundred yards repeatedly but every time our men leaped from the trenches and went at them with the bayonet. The Germans fled. Hundreds were captured and thousands killed.

Paris, Oct. 27.—The official bulletin says that spirited fighting continues between Lens and the mouth of the Yser. The Allies have advanced between Ypres and Roulers and elsewhere.

GERMAN RETREAT FROM WARSAW CONTINUES

(Special to The Daily News—1 P. M.) London, Oct. 27.—A Reuter's dispatch from Petrograd says that the capture of Lowicz by the Russians virtually ensures the possession of the country for eighty miles west of Warsaw. The Germans are in retreat from Warsaw, and covered thirty miles in the first march. They left their artillery to mask the retreat.

CLASSICAL CONCERT TO AID BELGIAN FUND
A concert of classical music will be given by the Ladies Musical Club in aid of the Belgian Distress Fund on November 12 in the Empress Theatre, which promises to be one of the best ever given in the city. The club has secured the aid of the very best local talent and an exceptionally good program is being arranged. Noted artists, such as Mrs. A. S. B. Lucas, Mrs. Dolling, and others, very kindly offered their services for that evening. Mrs. Dolling is a new arrival in town and a finished pianist. She will no doubt be very much appreciated by lovers of good music in Prince Rupert. This will be a good chance to donate to the Belgian Fund as tickets will only be 50 and 75 cents.

GENERAL ALDERSON WILL LEAD CANADIAN CONTINGENT

"SPOKE TO US AS A MAN TO MEN," SAID ONE SOLDIER IN GIVING HIS IMPRESSION OF THE BRITISH OFFICER WHO WILL COMMAND FIRST CONTINGENT.

Salisbury Plain, Oct. 23.—The Canadian camps are rapidly getting into working order. I hear from all ranks the highest praise for the general administration of affairs. There were a few little troubles following the arrival, but these were insignificant and rapidly eliminated. The boys are happy, the Westerners being particularly delighted with the situation, which reminds them of their native prairies. They can walk twenty or thirty miles over plains just as at home. The boys are discovering the excellence of their equipment and abundance of the provision for their comfort, by comparison with the camps of Kitcheners' army, near to hand, and the comparison makes them appreciate, more strongly, their lot. When during their route marches they pass through villages the schools pour out, the children line the roads and the villagers press forward to shout a welcome.

"We're just having a dandy time," typifies the general sentiment.

General Alderson's visit to the camp on Wednesday made an exceedingly favorable impression upon all ranks. He announced in a speech to the men that a wet canteen would be opened and beer but not spirits will be sold. Most observers, including the police and some religious workers, consider this step advisable and likely to improve the good conduct of the camp. One result of the long-enforced abstinence of the men and the absence of drink-selling in camp was that on Saturday and Sunday small parties visited the neighboring villages and towns, including Salisbury Market, Lavington and Tilehurst, causing some uproar. Their outbreak, which was in marked contrast to the magni-

cent behavior of the overwhelming majority of the troops, would probably have been avoided had there been wet canteens in camp. General Alderson explained to the men in a speech that they would be treated like men, not boys. The older soldiers were relied upon to keep the younger in order. General Alderson, by his frankness and good humor, immediately gained the confidence of the men. One soldier, describing the scene on the roadside Wednesday afternoon, said:

"Our brigade was route marching when the general met us. We halted and he told us to break ranks and gather closer round him, the officers standing outside. 'I want you all to see me,' he said. 'I want every individual soldier in this contingent to know me personally.'

"He made us come right up to him and then he gave us a straight talk, told us how we would be trained, what we were expected to do, and how he relied upon us to do our best. He talked to us like a man to men. Then he told us he wanted to see what we could do without our officers and put us through some quick formation. He wanted to test our intelligence. We all felt he was the right general for this contingent."

I found the same sentiment echoed on all sides. General Alderson has taken the right way to win the hearts of the men.

The camps now present an exceedingly animated appearance. Aeroplanes fly constantly overhead. Canadian airmen are practicing, too. The distance of the camps from any town prevents an excessive number of visitors, enabling work to be conducted to the best advantage. The thing the boys miss most are shower baths, such as they had at Valcartier, and Canadian newspapers.

The desperation shown by the bank robbers in the south indicates the class of criminals that this country has to deal with. It was thought that the exploits of Jesse James could never be repeated, but the events of the past few months show that they can. These men are not rough barbarians, who have just broken into the robbing game, but men who have the system down to a science. There appears also to be a large hoard of them and in spite of the fact that many of them were killed, both in Washington and at Hazelton, there are many to come. The authorities even in the north cannot be too careful in watching the movements of this class of men.

helping hand. It is no fault of the management that the present crises has come.

Another wholesale firm in Vancouver has been obliged to assign. The assets are said to be \$45,000 and the liabilities be \$150,000 of which \$100,000 is owing to the bank. What most people cannot understand is why some concerns seem able to get credit in excess of their assets, while others with high class securities cannot get anything like the same advances. There surely must be a day of reckoning for some of those big concerns. The people of Canada should see to it that their banks are taken in hand and brought into line with modern business.

The worst crash happening in Canada for many a day is the difficulties into which the Dominion Trust Company has been placed. There are even rumors that the impending crisis was the cause of the tragic death of the company's leading official. The estimated assets and liabilities, however, would indicate that the concern was in good shape, apart from the panic caused by the war. This would appear to be a case where the government should have interfered. They have already placed the chartered banks on a high pinnacle of safety and if a trust company has the necessary assets they should likewise be given a

A crisis always brings out the best gems of human character. A young Scotchman who recently left this town to enlist in the British army did so on the request of his aged mother, who already has two sons at the front. That's the kind of patriotism that has made the British Empire great and which will see it through the present fight.

Real faith is needed before a man can buy a bottle of hair restorer of a bald-headed druggist.

A homely young woman may live long enough to become a pretty old one.

Never despise little things. The biggest man that ever lived was once an infant.

S. S. Camosun arrived in port on Sunday last. Docking at the government wharf, she landed a number of passengers besides a consignment of freight, after which she proceeded to the cannery, where she loaded some 3,000 cases of salmon.

Mr. C. H. Gibbs, representing the Computing Scale Co. of Canada, Ltd., spent the week in town on business with the local merchants.

Mr. and Mrs. Martin Nygaard came in on the last steamer and will spend a couple of weeks in town before returning to Kimsquit for the winter.

John B. Sylvester, manager of the Beaver Cannery, Schooner Passage, returned to Bella Coola by the last steamer after a successful season.

Gust. Pearson and A. Gothard, who have been employed at the Kimsquit Cannery during the past season, returned home by the last steamer. Mr. Pearson returns to Kimsquit in the course of a week or two, where he will spend the winter as caretaker of the above mentioned cannery.

Road Superintendent R. Jennings left on the last steamer after an inspection of the road and trail as far as Constantia Ranch, some sixty miles up the valley.

C. Mills, representing Kelly, Douglas & Co., and C. Garrett, of Gault Bros., left by the last southbound steamer after a week's stay in the valley. Both gentlemen were well satisfied with their visit and reported finding business quite brisk.

The crops throughout the valley have been abundant this year and the question is being asked on all sides, "What are we to do with our produce?" This is becoming a serious matter with the farmers of this valley. There is no doubt that Prince Rupert would be only too glad to handle all Bella Coola Valley can produce, but how to get the stuff to the northern city, is the question which confronts us. If Prince

Rupert is ever to become the great distributing center that it most assuredly should, it will devolve on the Board of Trade at that place to see to it that all outlying places to the north of Queen Charlotte Sound are brought into easy communication with that city.

Following on Mr. Fred Grant, who left here a few weeks ago to offer himself for active service, Messrs. Locke and Adams, both of whom are well known locally as being connected with Mr. Robert Lowe's survey party, have gone to offer their sword-arm for the honor of their King and country.

DO SUMMARY JUSTICE.

Highlanders Wreak Vengeance on Uhians for Treatment of Girl.

London, Oct. 26.—From France comes a tale of summary justice done to band of Uhians by Highlanders.

A Highland patrol sergeant and a dozen of his men discovered fourteen saddled horses tied in a farm yard, not far from the battle front. They heard loud laughter in coarse voices coming from a bedroom above.

Believing something was wrong, the sergeant and his men crept silently up the stairs and listened before the door of the bedroom from which came the commotion. What they heard made them gasp with rage.

In a moment they had launched themselves through the half-open door. The work inside was sharp and bloody. The Highlanders had discovered the unconscious form of a young girl lying bound across the bed.

With blood aflame, the Highlanders drove into the screaming devils who were the girl's captors, ramming home their bayonets with savage joy. Some of the wretches tried to escape by the windows, but they were given no quarter, and not a Uhian was left alive to tell the story of how a French girl's honor was avenged by the "kilties."

RATES THROUGH CANAL DOWN TWENTY PER CENT

Harrison Direct Line Makes Substantial Reduction in the Official Announcement.

Vancouver, Oct. 25.—That the Harrison Direct Line, on account of the shorter route from Europe to this coast, will make a reduction of 20 per cent in freight rates, was announced yesterday by Mr. J. B. Duncan, vice-president of the B. C. Manufacturers' Association. The first ship of this line which will be here via the canal will be the Discoverer. It is estimated the time to this port from Glasgow will be shortened to 33 days. This, Mr. Duncan said, is an instance of the value of the new canal to British Columbia. Other lines must reduce rates, and have, as the result of the opening of the canal.

The manufacturers of British Columbia now have exceptional opportunities before them to do away with the prevailing opinion in Great Britain that it is hard to reach this province with British goods; owing to lack of co-operation on the part of local manufacturers. Mr. Duncan makes a suggestion to the association that, when a prominent British business man comes to this city, or a British official, the manufacturers look after his entertainment instead of letting city officials do it.

Instead of taking the visitors only on a scenic trip around the city they ought to be shown what this city and New Westminster, and other cities as well, have in the way of factories. This will go a long way toward inspiring confidence in British Columbia investments, some unsuccessful flotations in recent years having caused British investors to be very wary of putting money into this province.

BRITON HELD FOR COALING GERMANS

Bankdale Taken as Prize of War Off This Coast by H. M. S. Newcastle—Ordered to Esquimalt.

Victoria, Oct. 22.—Her movements directed by a prize crew from H. M. S. Newcastle, the freighter Bankdale, of British registry, is due to put in an appearance at the Canadian naval base at Esquimalt. As in the case of the steamer Lowther Range, the Bankdale was seized under suspicion of carrying coal that might be for German men-of-war. She was sighted by the Newcastle, and as she appeared to ignore the signal to heave to, a shot was fired across her bow, with the result that she immediately stopped. Her movements had caused suspicion and a boarding party was sent from the cruiser. As she is only capable of averaging ten knots, the Bankdale was left in charge of the prize crew under an officer, who was given instructions to deliver

the vessel at the Esquimalt naval base.

Circumstances attending the capture of the Bankdale are not available, but it is understood that she carried 6,000 tons of coal and was bound from Norfolk, Virginia.

The Bankdale steamed from Norfolk on September 20 for Guaymas or Mazatlan, Mexico. The coal carrier steamed from the Atlantic to the Pacific by way of the Panama Canal. Upon her arrival here the vessel will be held under suspicion until the case is thoroughly investigated by the naval authorities.

The Bankdale is a vessel of 2,464 tons register and is owned by William Just & Co., of Liverpool, also owners of the British steamer Bankfields, recently sunk off the Peruvian coast by the German cruiser Leipzig.

Laurier stimulates recruiting, while some of Toronto's professional patriots figure on making party gain out of the national peril.

DETAINED IN GERMANY.

Montreal Mining Broker Likely to Be Kept as Prisoner Until Peace Is Declared.

Montreal, Oct. 26.—That Mr. J. T. Armand, a Montreal mining broker, who is now held by the Germans as a prisoner of war at Baden, is not likely to be released until peace is declared between Britain and Germany, was the substance of a letter from Hon. George Perley, acting High Commissioner for Canada, read Saturday at the monthly meeting of the Chambre de Commerce.

Mr. Perley's letter contained the information that the German government had passed a regulation prohibiting any British subject between the ages of 18 and 55 leaving Germany during the war.

Mr. Armand is a member of the Chambre de Commerce, and was visiting relatives in Alsace when war was declared. He was first held as a spy and sentenced to be shot, but this sentence was commuted to imprisonment, through the intervention of the American consul.

German plans include a levy of a billion dollars on Paris. They would be willing to make a liberal discount on any advance payment.
