**Advance of Germans Repeatedly Wiped Out by Shrapnel
Of Allies---French Marines Rout Germans With
Bayonets After Stand of Forty Hours---
16,000 Germans Were Killed**

(Special to The Daily News—11 A. M.)
London, Oct. 28.—The Times correspondent in West Flanders says the Germans have paid a terrible price for the crossing of the Yser and for the strip they still hold at the bend of the river. Again and again, they have been practically wiped out by the Belgian shrapnel but have continued to pour their men into the death trap.

At Dixmude and Nieuport the struggle was equally severe. At Dixmude the French marines were compelled to stand for forty hours in a continuous attack but

finally routed the Germans at the bayonet point.
The Germans made a crossing Saturday near St. George's Chapelle and a frightful struggle ensued. The fighting continued until Sunday morning, when the arrival of French reinforcements drove the Germans back across the river. The German attack on Dixmude was also repulsed with heavy loss. Heavy street fighting resulted in the capture of the greater part of a German battalion.

A Daily Mail dispatch says the Germans have abandoned the at-

tempt to force a passage through the Dixmude-Nieuport line and are concentrating farther south on the Dixmude-Ypres line.

The German losses on the Dixmude-Nieuport line are estimated at 16,000 killed and 30,000 wounded.

"BREWSTER'S MILLIONS"

The Attraction at The Westholme This Evening.

Not very long ago Mr. Geo. M. Cohan produced a play, taken from the book entitled, "Brewster's Millions." Both the book and the play were a huge success, and still more recently this story has been reproduced in moving pictures, which will be shown at The Westholme tonight and tomorrow night. "Brewster's Millions" is a comedy of adventure in five reels, in which the leading character is a young man, Monte Brewster, who has the herculean task before him of spending one million dollars in one year. Why and how he does this forms a very exciting story.

In addition to the above there will be a Gazette, showing a number of late war scenes and other items of interest.

New Hazelton, Oct. 24.—Rev. Father Godfrey purchased the big warehouse from Foley, Welch & Stewart and is having it torn down by the Indians. The lumber in it will be used in the construction of missions at points along the railway east of New Hazelton. An effort was made to get the G. T. P. to purchase the building to be used as a shipping shed for ore, for which it was particularly adapted, but the railway company could not see its way clear to provide this accommodation for mining men.

Courteous Rival (a Man) Telephones Her and She Speeds to Auditor in an Auto.

Davenport, Wash., Oct. 27.—County Superintendent of Schools William U. Neeley, who is Republican candidate to succeed himself, by a act of courtesy enabled his opponent, Miss Gertrude Cosgrove, Democratic candidate, to make the race. She had neglected to file her credentials with the county auditor.

On the afternoon of the last day for filing the papers Mr. Neeley appeared at the auditor's office, and after filing inquired if Miss Cosgrove had filed. The auditor said she had not. Mr. Neeley immediately called her by telephone and explained the law.

He offered as superintendent to certify to the necessary facts, but she declined to take that chance and immediately secured an auto and started from her home at Sprague, arriving in Davenport a few minutes before midnight, just in time to comply with the law.

An agitation has been started in Eastern Canada because large military orders which Canada can supply had been given to the States. As a result, both the French and British governments have appointed agents to make purchases for them in Canada.

One of the interesting sidelights on the war is the presence of Canadians fighting for the liberties of old France. Canada is in many respects the child of France and if it were not for stern fortune might have been so still.

What an idle thing it is to argue over the question whether the British regular is a better soldier than the Canadian volunteer. Yet there are a few who persist in this

vain contest. It reminds one of the old school days, when the little boys quarreled over the fighting qualities of their big brothers. The chief fame of which the Canadians can boast today is that they are a chip off the old block.

A few months more and Prince Rupert will be in the throes of a municipal election. The coming year is likely to produce a crisis in this city. There is a million and a half of treasury certificates coming due in June and the city is not likely to have the funds.

UHLANS CAUGHT IN DEADLY TRAP

Two Regiments Found in Camp Driven Out and Riddled With Shrapnel—Germans Retreat.

Northern France, Oct. 26.—In Northeastern France the situation remains vague, but the greatest optimism is everywhere. One staff officer says that the Germans are quitting Northeastern France as quickly as possible.

He said that the German cavalry had paid heavily for their temerity in recent operations, especially a couple of Uhlan regiments, which were found in camp in Caestere, near Hazebrouck. Their bivouac was discovered by an airman just before dawn.

The German sentries gave the alarm, and the Uhlans took the obvious way out, which happened to be along a tree-lined road. Five hundred yards from the road a battery of artillery was posted, and as the long, gray column of horsemen broke cover, the guns opened with a sheet of shrapnel fire.

The French Minister of the interior has deposed the mayor of Vitry-le-Francois, Dr. Forfer, and his assistant, for having, as is officially announced from Bordeaux "failed in their duty by abandoning their posts at a moment when they ought to have given the inhabitants of their village an example of coolness and self-possession."

PASSING EVENTS

The charges made by Prof. Harnack and other prominent Germans that Great Britain had stored quantities of ammunition at the French fortress of Maubeuge before the outbreak of the war, which the Germans claimed was evidence that she intended to violate the neutrality of Belgium, is officially denied.

The Kaiser has conferred the iron cross on the commander and each member of the crew of the German naval airship Schuckelanz II. This distinction is conferred for services rendered the Fatherland by "the magnificent aerial reconnoitering that led to the destruction of the three British cruisers recently torpedoed in the North Sea by German submarines."

The German military commander at Saarburg, Lorraine, has issued a proclamation ordering the removal of all French signs and inscriptions from the shops, buildings and schools. The commander also forbids the use of envelopes, letters and bills with French headings.

The President of France has received information that the Germans on October 8th again bombarded his country house at Sampigny, in the Department of the Meuse. Forty-eight shells were fired at the buildings, which were completely destroyed.

English and French warships have captured an Austrian steamer, which was masquerading under the Greek flag. The steamer had a cargo of arms and ammunition which was destined for Albania, where the Austrians are arming the Malissori tribesmen against the Montenegrins.

While a French commission, headed by M. Mollard, the Under Secretary of Fine Arts and of which M. Paeulle is a member, which was charged with investigating the violation of the rights of nations in the previous bombardment of Rheims, were making a tour of the town in an automobile on October 9th, shells were fired toward the car by the Germans.

PROMPT EVACUATION OF VERA CRUZ EXPECTED

Washington, Oct. 26.—Prompt withdrawal of the American forces from Vera Cruz is foreshadowed by the approval given by the Mexican National Convention at Aguas Calientes to the requests of the American government for protection of Mexicans who served the United States and other desired guarantees.

The State Department received word that the convention had instructed General Carranza to comply with the American government's requests.

The American government asked not only that clericals and Mexicans who supported the American forces during their occupation be free from molestation or punishment, but that taxes and customs duties already collected by the American officers be not reimposed.

General Obregon headed a commission which called on General Carranza and invited him to attend the convention at Aguas Calientes and sign an agreement to abide by decisions of that body, according to advices from Mexico City. General Carranza declined the invitation to go personally or send a delegate. He reserved the right to approve or disapprove of the final acts of the convention.

FISH GOING TO WASTE AND PEOPLE HUNGRY
Some Assistance From Government Would Help Struggling Industry at Present.

New Westminster, Oct. 26.—With food supplies short in Belgium and in many sections the people on the verge of starvation, with a shortage of food in Europe and with thousands right here in British Columbia finding it hard to combat the high cost of living, fish by the millions, considered as nutritious as beef, if not more so, are going to waste on the Fraser River and all for the lack of a little government assistance.

In New Westminster fishermen are selling "Aqualas" or dog fish salmon for five cents the fish and in many cases giving them away. The canneries are paying from two and one-half to three cents for them, while in Eastern Canada as high as twelve cents for the same fish is quoted.

These fish can be salted, packed and delivered in Europe for three cents per pound, according to Mr. Martin Monk, one of the best authorities in the fishing business, and his plans were placed before Dominion Inspector of Fisheries Cunningham, Mr. Monk remarking on the deplorable waste of this excellent food. Mr. Cunningham has promised to take the matter up with the government, but so far nothing has been done.

Not only can the fish be delivered in Europe at three cents per pound, but the fishermen are unable to make a living at fishing owing to the low price paid locally would be receiving ten cents the fish for them. The plan proposed by Mr. Monk is for the government to supply the barrels, costing one dollar, and one dollar's worth of salt for each barrel. It takes thirty fish to fill a two hundred pound barrel; this would be three for the fish at ten cents the fish, making the entire cost five dollars for the two hundred pounds. To this is added one-half cent per pound freight, making a total cost of six dollars for two hundred pounds of fish.

It is estimated that at least 50,000 barrels could have been put up this year, although there is practically no limit to the fish that could have been caught. At five dollars the barrel this means a clear loss of a quarter of a million dollar's worth of food that is lost forever, aside from the money that the fishermen would have earned. Every fisherman would gladly have salted his own fish under this plan if he could have secured ten cents the fish; and the people of Europe would have secured a good cheap food and prices of beef could have soared sky high so far as local people were concerned. All this, however, has been lost this season owing to lack of government aid.

MARITZ TOOK ARMS AWAY FROM LOYAL GARRISON

Cape Town, via London, Oct. 26.—The correspondent of The Cape Times at Carnarvon, Cape Colony, describing the recent revolt of Lieut.-Col. Solomon Gerhardus Maritz, says:

"When Maritz came to Kakamas, in the Cape province, as commandant of the defence force, he took away all the rifles of the local garrison on the plea that he needed them to form a force against the Germans. Maritz went away and was returning with 700 Germans and traitors when the garrison luckily heard of his approach.

"Thirty-eight daring men went to his camp in the night and took rifles and ammunition and horses. Maritz caught up with them thirty miles away. There was a three hours' fight, then the

men from the garrison took to the bush, where they played hide and seek for several days before they escaped, with the loss of only one man."

SUGGESTS A ROMANCE.

Is Belgian General Leman Former Deserter From Germans?

The Hague, Oct. 27.—Newspaper advices from Halle, Germany, say the German authorities have opened an inquiry to discover whether General Leman, the defender of Liege, who is a prisoner at Magdeburg, can be identified as Heinrich Lehmann, a soldier of the German army, who deserted during the war of 1870. There appears to be an extraordinary likeness, the advices say, between the men.

TO CANADA

(By Percy MacKaye) Men of Canada, Fellow Americans, Proud our hearts beat for you over the border: Proud of the fight you wage, Proud of your valiant youth Sailing to battle for freedom and order.

On our own battlefields Many's the bout we had— Yankee, Canadian, redecoat and ranger; But our old brotherhood Stanch through the centuries, Shouts in our blood now to share in your danger.

Ah, it's a weary thing Waiting and watching here, Numbing ourselves to a frozen neutrality: Yet, in a world at war, 'Tis our good part to keep Patient to force the strong peace of finality.

Though, then, our part be Peace, Yet our free fighting souls League with your own 'gainst the world-lust of Vandals; Yea, in the dreadful night, We, with your women, weep And for your shroudless dead burn our shrine candles, So, by the gunless law Of our sane borderline, By our souls' faith, that no border can sever, Freedom!—now may you fight, Waging the death of war, Silence the demons of cannon forever!

Kin-folk of Canada, . . . So may your allied arms Smite with his legions the Lord of Disorder! God speed your noble cause! God save your gallant sons! Would we might sail with them—over the border!

(The above verses, which appeared in the Boston Transcript of October 17, and which were sent to The News by a subscriber in the East, shows the sentiment of the American people toward Canada in the present war.)

MOUNTAIN GOAT BACK OF TOWN

Boys Were in Full View of New Hazelton When They Shot Big Prize.

New Hazelton, Oct. 26.—The successful hunters who secured the mountain goat on Roucher de Boule Mountain, which was mentioned in last week's issue, were Chris Dedrickson and Albert Mercer, two residents of New Hazelton, who have been prospecting and working in the mines around here for the past couple of years. Mr. Mercer informed The Herald that he knew of at least two bunches of goats on the Roucher de Boule Mountain which travel from Mud Creek down around by Sealey Gulch and back again. The one they got was on the high peak just back of New Hazelton and when they shot the goat the boys were in full view of the town. That same day they saw three other goats but were too far away to attempt a shot. The first day that the sky is clear of clouds they are going on another expedition in the hopes that they will secure sufficient meat for the winter. The hide from the first goat they got they have cured and intend to preserve it as well as the head of the animal.
