sheds. A branch of the Russian
Bank of Foreign Commerce took
fire. At the conclusion of the
bombardment the ship left in a

NO MARKET FOR OUR EVAPORATED APPLES IN U. K.

American Consignments for Ger-
many Are Offered to Britain
at Low Prices

Ottawa, Oct. 30.—A report re-
ceived by the Trade and Com-
mission from the Canadian Trade
Commissioner at London, Mr.
Harrison Watson, indicates that
there is not much opportunity this
year for the hoped-for market
for Canadian evaporated apples
in the British market. Before
the war Germany placed in the
United States large orders for
evaporated apples, doubtless hav-
ing in view their use as a neces-
sary and convenient fruit food
supply for the army. But the
American shippers found it im-
possible to fill the contracts be-
fore the outbreak of the war, and
now delivery to Germany is found
impossible, owing to transporta-
tion conditions. The stock on
hand is now being offered at low
prices to Great Britain, where the
market is already flooded. Mr.
Watson reports that, in view of
the low prices now ruling for
evaporated apples, there is little
chance for a profitable trade be-
ing worked up this year by Cana-
dian shippers.

GERMAN CHIEF BANDMASTER CAPTURED

London, Oct. 29.—A corre-
spondent of The London Daily
Chronicle, telegraphing from Pas-
de Calais, says that at Ypres, no
less a person than the bandmas-
ter-in-chief of the German army
was taken prisoner. The band-
master-in-chief was weighted
with so many decorations and
medals that identification was a
matter of considerable difficulty.
He looked as though he might be
a divisional commander, but he
wasn't. The prisoner made an un-
successful effort to escape.

CHANGE OF SEA LORD.

The forced retirement
of Prince Louis of Batten-
berg from the position of
First Sea Lord shows the
caution of the British in
seeing that no possible
loophole will be left for
the enemy. Prince Louis
was born in Germany but
after his marriage with
his cousin, Princess Vic-
toria, a granddaughter of
Victoria the Good by her
youngest daughter, Prin-
cess Alice, became a Brit-
ish subject. He entered
the British navy in 1868,
before the Franco-Prus-
sian War, and before the
present ideals of Germany
were thought of and of
course before the present
United Germany came into
existence. It is hardly
possible he has the least
sympathy with the pro-
gram of the Kaiser; and
yet the British people
cannot be blamed in de-
manding that men with
British blood in their
veins shall be put in the
highest places of trust.

Prince Louis' successor,
Baron John Fisher, is
known as the Fighting
Lord of the Navy and is to
the fleet what Kitchener is
to the land forces. Al-
though 73 years of age,
his step is still firm and
his strength unabated. Al-
though Sir John left the
position because of some
personal feeling that ex-
isted at the time this
shows another triumph of
British statesmanship that
chooses the best man in
spite of personal feelings.

EUROPEAN WAR SHOULD TEACH U. S. A LESSON

Ex-President Taft Urges Fulfill-
ing to Letter Treaty Obli-
gations of States.

Washington, D. C., Oct. 29.—
The United States should draw
from the European war a lesson
regarding its own conduct, said
ex-President William Taft, in an
address here before the Ameri-
can Bar Association, in discuss-
ing charges of violations of
treaties by European nations. Mr.
Taft said that this country
should put itself in such a posi-
tion that it could fulfil to the
letter the obligations imposed by
its treaties, and he recommended
legislation to that end, in his ad-
dress delivered as president of
the American Bar Association.
Mr. Taft also said that the Pro-
gressive party was departing
from the "preposterous nostrum"
of the recall of judicial decisions,
because it apparently had become
a burden to the party.

In speaking of the European
war, Mr. Taft said that President
Wilson should have the warmest
approval and sincerest co-opera-
tion in his efforts to maintain the
strict neutrality of this country.
"We are the principal nation,"
he continued, "of the Christian
world, not so related to the strug-
gle that both sides may really re-
gard us as disinterested friends.
It is our highest duty, and the
President makes plain his appre-
ciation of this, that we should
not sacrifice and destroy this
great leverage for successful me-
diation when the opportunity
arises, by ill-advised and prema-
ture judgment upon the merits.
We must hold our tongues to be
useful to mankind."

Turning to the anti-trust leg-
islation of the Wilson adminis-
tration, Mr. Taft analyzed the
Trade Commission Act and the
Clayton Act.
"In so far as the field of gen-
eral interstate trade is within the
practical range of supervision
and regulation," he said, "the ma-
chinery adopted, it seems to me,
is as effective as any could be."

BRITAIN READY FOR TURKEY— ALL PREPARATIONS ARE READY

EMBASSIES OF ALLIED POWERS LEAVE CONSTANTINOPLE—
TURKISH TORPEDO BOATS ATTACKED AND SUNK
RUSSIAN GUNBOAT.

(Special to The Daily News—11 A. M.)
London, Oct. 30.—The Times
says Britain is ready for war with
Turkey. She has long ago made
all preparations in Egypt and
along the Suez Canal.
The embassies of the allied
powers have made arrangements
to leave Constantinople.
Turkey's entrance into the war
will likely bring in Greece and
possibly the other Balkan pow-
ers. Great forces of Turkish
troops are supposed to be massed

on the frontiers of Russia and
Egypt.
London, Oct. 30.—The Russian
ambassador has withdrawn from
Constantinople, an official bul-
letin says.
Bordeaux, Oct. 30.—An official
bulletin says that two Turkish
torpedo boat destroyers yesterday
entered Odessa harbor and sank
a Russian gunboat and damaged
the French liner Portugal.

2,000,000 BELGIANS OUTSIDE OF COUNTRY

Belgians in Britain Want to Work
and Object to Being Sup-
ported by Charity.

London, Oct. 30.—"There are
perhaps 2,000,000 Belgians out-
side the borders of their coun-
try," is the estimate of a promi-
nent Belgian now in London. "It
is doubtful which are the better
off, those outside or those inside.
Millions more would have gone
but were too poor, or too opti-
mistic. It is useless to urge them
to return and live under German
rule. They will remain away un-
til the war is over, no matter
what happens. I came out with
my family of four persons. All
our baggage was in two handbags
and we had little money. I have
a city home in Brussels and a
country home outside. I do not
care to see them while the Ger-
mans are there."
Countless suggestions have
been made in the English press.
These include colonization in
Ireland and the establishment of
new lace factories and similar in-
dustries. The fact that British
unemployed has been increased
by the war accentuates the prob-
lem. One London newspaper has
collected more than \$155,000 for
the refugees.

The same paper has published
an interview with King Albert,
who expresses his gratitude for
what has been done on behalf of
"poor Belgium," now merely the
edge of a nation.

The King urges that the Bel-
gians be given work and not sup-
ported by charity.
The contributions to the va-
rious relief funds are almost too
numerous to describe. They in-
clude cash gifts from British
brides who renounced expensive
weddings and have given the
money these would have cost;
money saved by factory em-
ployees denying themselves and
their children outings; cash ob-
tained by the selling of toys at
auction and money gained by dis-
posing of personal effects.

One man auctioned off a vase
given him by the late Emperor of
China.

Lord Gladstone said yesterday:
"We still want acceptable homes,
warm winter clothing and shoes.
Many of these refugees arrive in
families and they dislike to be
separated. The principal prob-
lem is to get work for them. Glas-
gow alone has taken 3,000 from
the committee and one small
Welsh village has taken 300. The
embassies are now negotiating
concerning the shipment of food
supplies to Brussels. Organiza-
tion and sympathetic generosity
should combine to mitigate in
Belgium the physical suffering
which comes from the war and
which will increase with the ad-
vent of winter. The question of
the repatriation of these refugees
is too involved in the outcome of
the war for the making of definite
plans at the present time."

TORTURED BY CONSTIPATION

"Fruit-a-tives" Cured Paralyzed Bowels and Digestion

ST. BONIFACE DR. SHAWINGAN, QUE.
Feb. 3rd, 1914.

"It is a pleasure to me to inform you that after suffering from Chronic Constipation for 2 1/2 years, I have been cured by 'Fruit-a-tives'. While I was a student at Berthier College, I became so ill I was forced to leave the college. Severe pains across the intestines continually tortured me and it came to a point when I could not stoop down at all, and my Digestion became paralyzed. Some one advised me to take 'Fruit-a-tives' and at once I felt a great improvement. After I had taken four or five boxes, I realized that I was completely cured and what made me glad, also, was that they were acting gently, causing no pain whatever to the bowels. All those who suffer with Chronic Constipation should follow my example and take 'Fruit-a-tives' for they are the medicine that cures."

MAGLOIRE PAQUIN

"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

TRADE BOOM IS CAUSED IN THE EQUIPPING OF ARMY

BRITISH FIRMS WORKING AT HIGH PRESSURE TO TURN OUT GOODS—ONLY 400 OUT OF 40,000 WORKMEN ARE IDLE IN SHEFFIELD.

London, Oct. 28.—The equipment of the army in the field and of Lord Kitchener's new army is providing work for thousands who would otherwise be unemployed and creating something like a trade "boom." British firms also have large orders from France to make good her wastages of war material.

The demands on industrial firms are enormous. Cannon and boot-laces, cartridges and motor-lorries, razors, socks, cooking tins and tinned beef, blankets and jam-pots, harness and hair-combs—these are only a few of the many requirements.

In Sheffield, out of 40,000 insured workers only 400 are out of work. In Leicester some concerns are working twenty-four hours a day. Leeds and Birmingham hum with industry. Bristol is making army boots as fast as it can turn them out.

Worsted and woolen manufacturers in Huddersfield and the Holme and Colne Valleys are tremendously busy on orders for both the British and French governments.

ermments. Clothiers work overtime, both in khaki and in navy-blue serge. Spinners produce yarns at the rate of a big trade "boom." Norwich firms are making tunics, trousers and pegamoid combination suits and oilskins for the navy.

Need Boots Badly.

Six weeks of wearing the same boots night and day has played havoc with the leather of our army. England is booting not only her own men but also the French troops. The established centers of boot manufacture are at work night and day.

Northampton is making 500,000 pairs of boots. Some 50,000 pairs are on order at Bristol for our army, but the largest order is from France, which has asked for 100,000 pairs, to have been made by October 25. Some fifteen firms are sharing the work. The first delivery is to be on Friday, and there will be weekly deliveries afterwards. Negotiations are going on for an order from the Greek government of something like another 100,000 pairs of boots.

Leicester spinners and manufacturers are very busy making socks, sweaters, and warm winter underclothing. Between 10,000 and 15,000 persons are engaged directly or indirectly on army work. Some factories are at work day and night, in successive shifts. Others are working for from sixteen to eighteen hours a day. Nottingham is working overtime.

Guns and Ammunition.

The Coventry Ordnance Works are heavily engaged in the big work for both the army and the navy. The Birmingham Small Arms Company are at work night and day. Two thousand men are turning out 3,000 Lee-Enfield rifles for the army every week, as well as rifles and revolvers wanted by patriotic civilians for shooting practice.

Kynochs, working at full pressure, employ thousands of men in the production of cartridges and cordite. Many machine shops are concentrating on the manufacture of cartridge cases, Swords and bayonets are turned out by the thousand; accoutrements-makers (a special trade) are overwhelmed with orders for regimental buckles and buttons.

In Sheffield two bayonet-making plants have been started again, after two years idleness. They are employed twenty-four hours a day for six days a week.

All harness equipment for the French army as well as the British is now being made in this country. A leather and strap order of the value of 38,000 pounds has been divided among the firms of Walsall; there is a scarcity of skilled labor in that employment.

In Huddersfield leather straps and belts are being made as fast as ever the factories can make them.

In Birmingham skilled artisans are making bedsheets by the thousands for hospital and camps; also buckets, motorcar shields, and canteen tins. Canteen utensils are also being made at Coventry. They are of the first necessity, for the soldier at the front has to be his own kitchen-maid.

Hundreds of thousands of blankets, rugs and overcoats have been ordered in Yorkshire. The entire population of Dewsbury and Batley is working for the troops. Special privileges, in extension of the factory acts, have been granted to some firms. Norwich is busy with bedding.

In Coventry the Daimler Company and Messrs. White and Pope are making engines for both British and French aeroplanes. Similar work is going on in Birmingham.

Motor-Lorries and Pontoons.

In Huddersfield and Coventry the factories are working double tides to turn out motor-lorries, some of them armored. Military bicycles are being turned out at a rapid rate; Birmingham is supplying cycle-repair outfits. In Birmingham 3,000 rubber workers are making tires for war-motors—several orders of about 10,000 pairs each have been received. Birmingham is also making pontoon bridges in sections.

UNIVERSITY STUDENTS TO FIGHT FOR RUSSIA

The Order and an Announcement of Victory Cause of Great Demonstration.

Petrograd, Oct. 30.—Under instructions from Emperor Nicholas, orders have been issued from the War Office calling out the students of universities and high schools, who ordinarily are exempt from military service.

The order, in conjunction with the report that the Russians had gained a decisive victory, caused great enthusiasm among the populace. A small parade, which started in the afternoon, grew in volume until the wide Nevsky Prospect was choked with people. The demonstration surpassed any

held in Petrograd since the commencement of the war.

The paraders carried pictures of Emperor Nicholas, the new Russian flag, and also the British, French and Belgian colors, and sang the national anthem as they marched.

The demonstration reached its height before the embassies of the allied nations, where the cheering crowds were greeted by the diplomats.

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

TRUST FUND SAFE

Vancouver, October 28.—Mayor Baxter stated this morning that \$5,000 invested through the Dominion Trust Company for the widow of Police Constable Archibald, who was shot on Powell st. on May 28 last, was safe in a satisfactory first mortgage on Dufferin street property, which was sold recently for \$15,000 cash. Of this money \$2,000 was donated by the City Council, \$2,000 raised by public subscription and the whole, including some money of Mrs. Archibald's was given to the Dominion Trust Company to handle. The trust company did so free of cost.

REBEL BOURASSA FINDING EXCUSES FOR THE KAISER

Says Germany is Not the Only Country Which Has Invaded a Smaller One.

Montreal, Oct. 29.—"Whether victory rests with England, or Germany, or France, Belgium will survive as Ireland, as Poland and as French Canada have survived," said Henry Bourassa, leader of the Nationalists, at a patriotic meeting of the St. Jean Baptiste Society held here. Mr. Bourassa also criticized those who want Canadians to unite as the Belgians have united in face of the invader by the remark that people forget that Belgians are fighting for their own country.

Mr. Bourassa proceeded to show that France had invaded Belgium a great many times and that Germany was not the only nation that persecuted small nations, for he declared the greatest barbarism had been practiced in Ireland that the world had ever seen since Christ came to earth. "Belgium," he said, "has in the past rebelled against and distrusted the imperial tendencies of England, Germany and France, and if she had leaned finally towards Britain in preference to Germany, it was because there was a stretch of water between them"—a sentiment that was cheered by the small audience.
