## GERMANS HAVE RENEWED THE ATTACK ON CALAIS

### RUSSIA REPLIES TO TURKEY THAT HER APOLOGY IS TOO LATE--RUSSIANS TOOK 4,000 PRISONERS

#### GERMANS TO RENEW ATTACK-- WILL RISK ALL FOR CALAIS

THEY DO NOT APPEAR EXHAUSTED--MUCH ACTIVITY BEING SHOWN BY THE GERMANS IN EFFORT TO CUT WAY THROUGH TO CALAIS.

Special to The Daily News--3 P. M.) London, Nov. 3.—Much activity is reported from Belgium and there is evidence that the invaders have not been exhausted. All their resources are being brought to bear in the campaign to cut their way through to Calais.

#### RUSSIAN OFFICIAL REPORT STILL APPEARS OPTIMISTIC

RUSSIAN ATTACKS HAVE BEEN REPULSED--HAVE DRIVEN THEM BEYOND VISTULA--ADVANCE OF RUSSIANS MEETS LITTLE RESISTANCE.

Special to The Daily News--9:30 A. M.) Petrograd, Nov. 3.—(Official.) The front in East Prussia has been repulsed. The German forces are directed against Vladislav and have driven the enemy to the eastern end of the Romi forest. We have advanced to north of Lake Raigerod beyond the Vistula. Our troops continue the offensive without opposition only in the region of Opatawa. The Austrians attempted to resist with considerable force beyond Opatawa. The Austrians, who held a fortified position in Galicia on the San River entered Nisid, where fierce fighting took place.

#### INDIAN ARMY TO BE 45,000 STRONG

Special to The Daily News--9:30 A. M.) New Delhi, Nov. 3.—The second contingent will consist of 15,000 men to form, with the extra which went to Salisbury, to complete an army division. This means that the total strength of the contingent which will get away about November 4 will be about 45,000 making a total expeditionary force of 45,000 men. This does not take account of the continuous stream of reinforcements which is calculated at a yearly 75 per cent of the total engaged.

#### TOLL TAKEN OF GERMANS IN FLANDERS

London, Nov. 2.—In a dispatch from Amsterdam, a correspondent of the Central News quotes a representative at Ostend of the newspaper Tyd to the effect that thousands of wounded German soldiers are returning from the battlefield in Flanders. Loaded into trucks and vans, the sad procession of wounded men is moving forward; those not so seriously hurt are traveling on foot. Hundreds of unburied bodies lie on the battlefield, the work continues, and no one has any adequate idea of the number of victims falling in this mad fight. Between Lepe and Middelkerke German guns have ceased firing because their shells would be captured by the British troops as well as the Allies. Consequently, only hand to hand fighting is taking place.

#### Farewell Smoker

All members of St. Andrew's and Sons of England Societies are requested to attend Smoker to be held in St. Andrew's Hall on Thursday night at 8:30 P. M. in honor of the Prince Rupert contingent leaving for the front.

BRITISH MARINES SIGNALING.

Recent dispatches indicate that British sailors and marines have played an important part in the fighting on the south shore of the English Channel. The picture shows British marines on the decks at Dunkirk, France, sending heliograph messages to transports and warships.

#### RUSSIANS ORDERED TO ATTACK THE TURKS

(Special to The Daily News--12 Noon) London, Nov. 3.—A Reuter dispatch from Tiflis, in Russia, says it is announced that the Czar has ordered his Caucasian regiments to cross the frontier and attack the Turkish possessions.

#### CITY WILL HONOR RUPERT'S CONTINGENT

The local contingent will be given a fitting send-off from the city on Friday next. The details are yet to be worked out, but the enthusiasm of the citizens is intense and they will be fittingly honored. At the Council meeting last night \$2,000 was set aside to aid in this. The expenditure of the money will be gone into this morning at a meeting of the finance committee of the City Council and those citizens interested. The officers of the regiment will be asked to co-operate in arranging for some presentation to the men that will be of value and use to them.

A petition was presented at the Council meeting last night by Rev. H. R. Grant, who was supported by a deputation including G. W. Morrow, M. M. Stephens, Rev. Canon Rix, D. G. Stewart, J. A. Kirkpatrick, J. Y. Rochester and many others. The Council was unanimously in favor of assisting in the work and decided upon the course referred to.

Later in the evening, when a report came from the fire chief favoring keeping the position of driver held by J. A. Craib of the department open for his return, Alderman Montgomery proposed to pay him half a month's pay, which was agreed to, as well as the keeping of his position for him on his return from the front.

#### CITY GOT TAXES.

The city received in taxes up to 5 o'clock last evening \$132,600. Of this the G. T. P. Development Company paid the sum of \$32,672.46. Thorsch, the Austrian syndicate, had their taxes paid by Mr. Aldous, of Winnipeg, and it amounted to \$7,000. There is still \$85,000 to be paid and most of this is due from outside, the local taxpayers having paid up very well.

#### BRITISH TARS TAKE AKABAH ON THE RED SEA

(Special to The Daily News--12 Noon) London, Nov. 3.—The fortified town of Akabah, in Arabia, on the arm of the Red Sea, was shelled and occupied by the British cruiser Minerva yesterday. There were some losses to the troops holding the positions but no British casualties.

#### GERMANS ABANDON POSITIONS ON YSER

(Special to The Daily News--12 Noon) London, Nov. 3.—It is officially announced that the Germans appear to have completely abandoned the left bank of the Yser below Dixmude and the Allies have re-occupied points on the river.

#### INDIAN POTENTATE ISSUES MANIFESTO

(Special to The Daily News--12 Noon) Bombay, Nov. 3.—The Nizam of Hyderabad, the largest Mohammedan state in India, has issued the following manifesto: "There is no country in the world where Mohammedans enjoy the same freedom as they do in India."

#### FRENCH PRESIDENT VISITS HIS TROOPS

(Special to The Daily News--12 Noon) Paris, Nov. 3.—While the Germans bombarded Furnes yesterday President Poincare, M. Millerand, French Minister of War, and King Albert of Belgium, reviewed the French and Belgian troops in the town. President Poincare spent the afternoon with the French troops on the Ypres front. He and Lord Kitchener conferred on Sunday at Dunkirk.

#### PROVINCE NEEDS THE MONEY.

Hon. Thomas Taylor, Minister of Public Works, in a statement made last night, said that Sir Richard McBride had gone to England on financial matters. The provincial government requires more money and hopes to raise it in London. Hon. Thomas Taylor's appropriation of \$5,000,000 for public buildings, roads, bridges and trails had been practically exhausted, and more money was needed for development. The minister is spending a short time at the Hotel Vancouver, Vancouver World.

#### TWO FRENCH AVIATORS BRING DOWN GERMAN

#### Corporal and His Mechanic Are Given Medals for Feat.

Paris, Oct. 31.—Two French aviators, Corporal Strobecke and Mechanic David, yesterday pursued and brought down a German aeroplane east of Amiens. Both were decorated with the military medal of honor on the field.

#### JAPANESE BUSY IN THE SOUTH SEAS

Tokio, Oct. 30.—A special dispatch received from Sasebo says that the Japanese in their recent raids on the German islands in the South Seas destroyed the German military equipment and seized \$250,000 in gold, and also ammunition and rifles. Ten officials on each of the captured islands surrendered to the Japanese.

#### Prince Louis Given Appointment.

London, Nov. 2.—The King has appointed Prince Louis of Battenberg a member of the Privy Council.

#### GERMANS DETERMINED TO TAKE CALAIS--MOVE FARTHER SOUTH

DRIVEN FROM THEIR POSITION ON THE YSER THE GERMANS ARE TRYING TO BREAK THROUGH FARTHER SOUTH IN A DESPERATE EFFORT.

(Special to The Daily News--12 Noon) London, Nov. 3.—A Rotterdam dispatch says heavy fighting is reported along the Yser, apparently to cover the movement of a large body of troops in a southerly direction. The German forces are evidently making a desperate effort to break through to Calais farther south. Three German staff officers are reported to have been killed by a bomb at Thielt.

#### CLOSED NORTH SEA ALL BEING MINED

London, Nov. 3.—The North Sea has been declared a military area. Merchant vessels entering it do so under grave danger of mines. Cruisers are employed searching suspicious craft in the sea to avoid further danger.

#### CITY TO ADVERTISE FOR ELECTRICIANS

At the City Council meeting last night the question of a staff for the electric plant at Woodworth Lake came up. It was decided to take steps towards advertising for such a staff. The superintendent of electric light will be consulted in the matter and the staff will be advertised for. The mayor last night raised the point of submitting a telegram he had sent to Mr. Ross, the expert of the city plant in Seattle, and the reply of Mr. Ross. The mayor had asked what in his judgment should be the qualifications of the men employed, whether they should be steam engineers or electricians. Mr. Ross had replied that he was of the opinion that the first requisite should be that of an electrician with a knowledge of steam engineering. This brought about considerable discussion. Alderman Morrissey felt this was something that should be attended to. The enterprise had cost about \$350,000. It was necessary to have a first-class staff on duty. He rather favored advertising in the open for the best class of men. He moved that the Council should advertise for the staff as required. Alderman Basso-Bert agreed with this. Alderman Dybhavn thought it advisable to have a report from Superintendent Duncan on the staff required. He therefore moved that the superintendent submit a report as to the staff required.

#### U. S. PROTESTS.

Washington, Nov. 2.—Formal protest to the British government against the detention of the American copper-laden steamer Kroonland at Gibraltar, was made Saturday by the State Department through Ambassador Page at London.

**HOMAGE IS PAID TO TROYON DEFENDERS**

Half of Brave 450 Died in Holding Up 10,000 Foes Attacking With Big Guns.

Paris, Nov. 2.—It has already been related how gallantly the little fort at Troyon defied the Germans on the Meuse, but it is only just being realized what service its garrison rendered the allied forces.

For five days 450 of them kept 10,000 Germans at bay, notwithstanding an awful pounding from the terrible guns that gave their deathblow to Liege, Namur and other strongholds. After two days' bombardment the enemy tried to carry the fort by storm. They got within ten yards, but fell in such numbers they had to withdraw.

The next day they summoned the garrison to surrender. "Never!" was the reply.

"Then we shall shell you with our heavy guns until you and your fort are but a heap of timber," the Germans returned.

They almost had time to carry out their threat before relief came. When the siege was raised practically nothing was left of the fort, while more than half of its defenders had been buried alive in its ruins. The captain in command was wounded in twenty-eight places. His lieutenant had his leg blown away.

The governor of Verdun went in person to congratulate the garrison on their magnificent feat, and high officers from all sides have been to see the damage done. Every regiment that passes has orders to halt and render the garrison military honors, and the defenders are being loaded with presents in recognition of their heroic defence.

**"TOMMIES" DESCRIBE GERMAN SHELLS AS "JACK JOHNSON'S RIGHTS"**

Private Sullivan, of the King's Royal Rifles, told an interviewer the West Ham Hospital:

"At 2 o'clock one morning we were told we had to shift some Germans who held some ridges. At about 3 o'clock during our march we were suddenly met with a terrible rifle fire from a hill. The colonel in charge ordered us to 'At them with bayonets,' and we did. We got to the top of the hill with Germans flying in all directions, but all at once German machine guns began to fire on us. A look around, and it was seen that they had two machine guns on top of a haystack, but two of our boys crept forward and set fire to them, and those Germans were soon roasted.

"Ten minutes after that I was hit, but I managed to go on for about three-quarters of a mile before I became dizzy.

"The fighting is terrific and hard and the German shelling is terrible, but our boys are all cool, cheerful, and calm. Every time a shell comes over you hear a shout, 'Look out! Here comes another of Jack Johnson's rights.'"

**EDITORIALS**

Dr. Alfred Salter, an English divine, believes in carrying out literally the New Testament injunction with regard to war. If a man strikes him on the one cheek he will turn the other. If somebody wants his coat he may take his cloak likewise. If his company is wanted for the distance of one mile he will go twain. If it is treason to refuse to fight for his country then he will be shot rather than comply. He takes this point of view because he thinks that is what the founder of Christianity would do. This is what he says:

This is surely interpreting Christianity entirely from one point of view. Just because certain characteristics of the Christ have been emphasized to the exclusion of other points of view we must remember that the real Christ was not necessarily a one-sided being, as some people would portray him. We must also remember that a great deal of his teaching was allegorical and not expected to be taken literally. This was the Oriental way of doing it. Then he always dealt with principles and never precept. In other words, he endeavored to establish a spiritual fellowship in the light of which every man was to use his own conscience.

"Look! Christ in khaki, out in France thrusting his bayonet into the body of a German workman. See! The Son of God, with a machine gun, ambushing a column of German infantry, catching them unawares in a lane and moving them down in their helplessness. Hark! The Man of Sorrows in a cavalry charge, cutting, hacking, thrusting, crushing, cheering. No! No! That picture is an impossible one, and we all know it.

The important thing for each person is therefore not, "Would Christ go to war or do this or that?" but, "Can I go to war or do this or that and still be a Christian?" There are scores of things that Christ never did and that a good many people might think he never would do but which are quite proper for other men to do. While war is a dreadful thing, it is only through war and fighting that liberties have come. Suppose that Cromwell had held this point of view, where would the liberties of England be? Suppose that Queen Elizabeth had been a non-resister, what would have been the result of the Spanish Armada? If Abraham Lincoln

"That settles the matter for me. I cannot uphold the war, even on its supposedly defensive side, and I cannot, therefore, advise anyone else to enlist or take part in what I believe to be wrong and wicked for myself. A country, as an individual, must be prepared to follow Christ if it is to claim the title of Christian."

**DECLINE SUBSTITUTES**

was opposed to war there would be no United States. It's the old story that the things worth while are costly; that the best things in life only come as the result of tremendous sacrifice. If freedom only comes through fighting, then a man who won't fight doesn't deserve to be free.

It is no more wrong, ethically, for a man to go to war and fight for his principles than it is to bring his fellows into the court that justice may be done or that a man should take up whatever weapons are at his disposal in order to oppose corruption in the state. The chief wrong lies on the head of the man who plunges a country into war without having exhausted every other means of settlement. Every action must be judged in the light of its results and whatever adds materially to the welfare of the world or which had that in view cannot be wholly bad.

**ADVERTISED ONE THING AND DID ANOTHER**

The city had been officially advertising that applications for the voters' list would be received up to 9 p. m., October 31, and telling where the official could be located. A local citizen left off this duty till the last hour and then sought the official—but found him not. After some searching, he located him; but it was one minute after five and he was told there was nothing doing. This, too, in spite of the fact that it was advertised as closing at 9 o'clock. The result is, there may be an action taken to show whether the city can advertise one thing and do another.

**AN IRISH GIRL'S JOY AT ESCAPE FROM GERMAN LIES**

"To hear at last true news of the war, and to see England safe and sound and in such good heart—that was the best thing of all our home-coming."

The speaker was a bright little Irish governess, Miss Florence Sullivan. She was among the British refugees who arrived from Germany last week.

"To be day after day in Germany," she said, "hearing such news as we heard—oh, it was dreadful. According to German news our army and navy were losing every battle; our people were starving and rioting for food. Our young men would not enlist, and Lord Kitchener's appeal had yielded only a handful of recruits. Our trade was stopped, our cities empty. London was at the mercy of German airships. Ireland was in arms.

"Oh, what a morning we have had, learning the truth! First we read back numbers of newspapers; then we went for a walk in the streets. We could have clapped hands over and over again with delight. Our army fighting so well; our recruiting so strong and good. And London streets were just a marvel to us.

"In Germany the shops are almost without a customer. It is only by the law that many of them remain open. You see scarcely a man in the streets. Women drive the omnibuses and tramway cars. London is as usual, with shopping and omnibuses all in full swing and everyone so sanguine and so sure."—Ex.

**ADEQUATE PENSIONS FOR CANADIAN TROOPS**

Ottawa, Nov. 2.—The pensions which will be paid to the widows, families and dependents of Canadian soldiers who may be killed in the war will be adequate. Also the pensions which will be paid to Canadian soldiers who may be disabled will be sufficient to protect them from want to the end of their lives.

A meeting of the cabinet was held Saturday morning at the Militia Department and a scale of pensions was suggested. This was handed over to the officers of the department for classification and modification, and will be submitted to an early meeting of the cabinet for approval.

It is stated that the pension will approximate at least three-quarters of the regular pay received by the men at the front.

GOING MAD FROM THE TERRIFIC PAIN

Prominent Merchant Thinks His Life Was Saved By "Fruit-a-tives"
DRYSDALE, ONT., JUN 15th, 1913.
"I am a general storekeeper at the above address, and on account of the great good I have experienced from using "Fruit-a-tives", I recommend them to my customers. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrific pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain, but I took "Fruit-a-tives" readily until I was cured. I have gained fifteen pounds since taking "Fruit-a-tives", and I verily believe they saved me from a disastrous illness."

NEARLY 7,000 MEN AT WORK.

Large Force Is Now Engaged on Construction Along P. G. E.

Vancouver, Oct. 31.—Intimation was given this morning by Mr. J. W. Stewart, president of the Pacific Great Eastern Railway, that construction is proceeding with undiminished vigor all along the route of the new line from the end of steel near Pemberton to Fort George. He said that a force of nearly 7,000 men is engaged in the task of projecting a new line into the interior. Incidentally, he mentioned that a sum aggregating between \$1,250,000 and \$1,500,000 was being spent each month in the work of construction.

Mr. Stewart returned last night from Winnipeg, where he has been spending a few weeks. On his way back to the Coast he stopped off at Glacier to inspect the progress of the work of excavating a five-mile tunnel under the Selkirk range. The railway president will go to Victoria tonight to meet Mr. D'Arcy Tate, vice-president of the P. G. E., and consult with him on railway affairs.

FINISHING TOUCHES TO N. TRANSCONTINENTAL

Ottawa, Oct. 31.—The finishing touches are being added to the National Transcontinental Railway by the employees of Mr. M. J. O'Brien, contractor for the line from Cochrane to Moncton, and in a few weeks the last of a big army of men that built the road will be discharged.

DUEL TO THE DEATH IN MID-AIR—MODERN WAR THRILLER.
The London Times correspondent describes an air duel which he witnessed while on the Continent recently. The lighter British airships have a slight advantage over the heavier protected German airships and in the duel which he witnessed the British plane soon swerved into the better position above his antagonist. A puff of smoke followed, and the German swerved and then fell from his machine.

BELLA COOLA AND DISTRICT NOTES

Mr. and Mrs. West, of Seattle, are among the late arrivals. Mr. West is a mining engineer and comes for the purpose of making an inspection of the placer gold claims on the Skowquilt River, a tributary of Dean Channel, for which place he left on Monday accompanied by Jesse and Fred Hendricks, the discoverers of the property. Mrs. West is registered at the Grand View Hotel.

Constable Broughton returned last Sunday from Vancouver, where he had been attending the Assize Court.

Captain and Mrs. W. D. Stephenson and Mr. E. Whitehead, of Nootsatsum, left on the last southbound steamer. They intend spending the winter in Alberta, where they will engage in evangelical work, returning here in the spring.

R. Demorest, until recently a partner in the local fox farm, left on the last Camosun. He is on his way to Western Australia. Mr. Demorest's interest in the fox farm has been purchased by one of the original partners, who is a well known local man.

Mr. Gibbs, representative of the Computing Scale Company of Canada, went south on Sunday after a well spent week in town.

Mr. E. M. Haynes, of Victoria, assistant postoffice inspector, left the valley by the last steamer after inspecting the local postoffices as far as Firvale.

Among the many other outgoing passengers by the last southbound steamer were Mr. and Mrs. J. B. Saint, who are returning to their home at Steveston. Mr. Saint has spent the past nine summers at Bella Coola as manager of the local cannery operated by the B. C. Packers' Association. Under his able management the cannery this year put up the record pack of 26,000 cases.

The local Ladies' Aid met on Wednesday afternoon at the home of Mrs. Wm. Sutherland. At the conclusion of the general business the president distributed material for home work among the many members present. A quantity of mixed vegetables, kindly donated by Mr. S. Le C. Grant, were sold among the members and the proceeds placed to the general fund of the society. Any contributions of a like nature will be gratefully received. The Ladies' Aid meets the third Wednesday in each month. The next meeting will be held at the home of Mrs. I. Fougner, when all members are requested to attend.
A sad drowning fatality occurred on Tuesday, when a young Indian girl, aged 9 years, the daughter of Wm. Pollard, met her death in the Bella Coola River. The deceased was alone at the time she met her death, consequently the exact circumstances are not definitely known.

Lovers of music will do well to drop into the Grandview Hotel this evening, when they will be treated to some selections by Mrs. T. P. Saugstad, piano; T. P. Saugstad, violin; Fred Renworth, flute; and others. No charge will be made and everyone is asked to attend and join in a real social evening.

An instance of what Bella Coola land is capable of producing comes from Mr. B. F. Jacobson. Mr. Jacobson had a small patch of land in the corner of his farm in which he planted potatoes. The patch is exactly three-eighths of an acre and has yielded the immense crop of 131 sacks, which is approximately equal to eight-een tons to the acre.

AGE OF THE GENERALS.

What do we find? General von Emmich, the capturer of Liege, is 66, and General von Kluck is 68—the one two years and the other four years above the compulsory American retiring age. General von Hausen, who has just given up the command of the Saxon army, because of real or assumed illness, is 68; General von Heerington is 64; General von Einem 61, General von Moltke, upon whose shoulders rest the heaviest burdens, is 66. Nearly all these officers are campaigning in France for the second time, having been young ensigns or lieutenants in 1870. General von Hindenburg, whose success on the Russian boundary has made him famous, is 67. On the English side, Kitchener is 64, Smith-Do-rien 56, Sir John French 62, and General Grierson, who died in France the other day, was 55; while the three French generals, Pau, Joffre and Gallieni, are all approaching 70. Plainly, among the generals of this war, the Osler theory does not apply, nor the American military belief that you must have middle-aged men for the highest positions.—N. Y. Post.

GERMAN SPIES SEIZED BY HALIFAX AGENTS

Halifax, N. S., Nov. 2.—The intelligence service has arrested three men in a house on Hollis Street, in which there was a wireless plant and also wiring for telephones, which it is thought was to intercept telephone messages. The suspects are believed to be Germans, and it is claimed the installation was to be used to intercept British naval messages.

"EVERY YARD THEY GAIN WE THROW THEM BACK THREE"

"You can't shave or do anything with the Germans staring at you. That's why we must fight, and in the last week there wasn't a morning passed that we didn't have an appetizer with the bayonet before breakfast. Sometimes the Germans push their trenches forward in this way to use them as a sort of jumping-off board for an attack in force in the night or the early morning in the hope of defeating us. When that's the case we have to fight all we know, because they are generally at least three times our strength.
'They must be getting sick of all these attacks, because for every yard they come forward we throw them back at least three, and sometimes more. Our chaps are in the best of form, and aren't homesick. They won't be that till they've finished their little job."—Ex.

RUMORED GERMAN PEACE WITH FRANCE

London, Oct. 30.—The Daily Chronicle's Paris correspondent asserts that with a view to detaching France from the Allies, Germany made an offer to conclude peace on the basis of the cession of Metz and possibly a portion of Alsace to France. The offer, according to the correspondent, was rejected.

The proposal, the correspondent says, was conveyed to certain influential Frenchmen, who were expected to act as intermediaries. The proposal was that the German government, recognizing the courage of the French armies and never having regarded France as a principal enemy, was ready to make peace on terms not merely honorable but generous for the Republic. These terms would include the transfer of Metz and the neighboring portion of Lorraine.

35,000 IRISH JOINED ARMY SINCE WAR BEGAN

Belfast, Ireland, Oct. 31.—Addressing a meeting of Irish volunteers today, John E. Redmond, the Irish Nationalists leader, said that when the Irish government came into being the volunteers must be absolutely at the disposal of that government, and he declared that in spite of emigration Ireland would maintain her place as a fighting nation.

"Ireland's rights," said Mr Redmond, "are not to be defended merely within the Irish shores. If the manhood of Ireland refused to strike a blow where real fighting is going on, the country would be covered with disgrace. Ireland would be humiliated if, after the war, it had to be admitted that the safety and liberties of Ireland had been guarded by the sacrifices of other men, while Irishmen remained at home and took none of the risks."

Thirty-five thousand men from all parts of Ireland have joined the army since the beginning of the war, Mr. Redmond added.

STRONG PROGRAM AT WESTHOLME TOMORROW

Another excellent program will be shown at The Westholme tomorrow night, headed by a new British War Gazette showing scenes direct from the seat of war. Following this, a fine four-reel society feature, "The Brute," will be shown. This is a strong story, full of life and action, splendidly staged and acted and undoubtedly one of the very best features ever produced.

A special program of patriotic and other music is in preparation by the Westholme orchestra which is sure to enhance the entertaining value of the performance.

MINES OFF IRISH COAST.

Suggestion That Merchantmen Professing Neutrality Laid Them.

London, Nov. 2.—The Morning Post asks whether there is not a leakage to the enemy regarding secret British trade routes. The shipping trades here and in America include many alien enemies, who though excluded from the various British exchanges keep in close touch with the business, and know the exact movements and routes of ships.

The assumption is that the mines northwest of Ireland were laid, not by ordinary minelayers or North Sea trawlers flying a neutral flag, but by ordinary merchantmen professing neutrality.

The Daily Telegraph hints at the grave consequences to United States commerce supposing a great American liner crowded with passengers should be sent to the bottom by a German mine.

FRENCH PEASANT'S DESCRIPTION OF OUR "HIGHLANDERS"

"Much has been written in our newspapers about the British soldiers. They are the best fighters in the field; there is no doubt about that. They are as brave as they are skillful. You cannot realize how proud we are to fight side by side with the world famous Scottish regiments. Last time I met a peasant who ran away after the battle of Mons. Upon my asking whether he had seen British soldiers at Mons he told me that he had seen 'Englishwomen with bare knees, fighting like devils.' I tried to persuade him that they were not women, but I failed."—Glasgow Herald.

WHEAT GOES TO \$1.11 IN SEATTLE MARKET

Highest Price Ever Paid for Export Trade.

Seattle, Nov. 3.—Club wheat sold in Seattle at \$1.11 per bushel, or \$1 to the farmer, the highest price ever paid on the Seattle market for the export trade. The high level in August was 13 cents under this figure. Local grain buyers say that purchasers for the United Kingdom, to whom the wheat will go, were not particular as to the price but only as to how much wheat could be supplied. The normal export basis is 70 to 80 cents, and buyers usually cease operations when the market reaches the top figures. Germany has not yet appeared in operations on the North Pacific.

BRITONS TO COMMAND FLEET OF THE ALLIES

New Anglo-French-Russian Naval Pact Concluded.

London, Nov. 3.—A dispatch received by the Marconi Wireless Telegraph Company from Berlin says that the Vienna Reichspost reports that several days ago a new Anglo-French-Russian naval convention was concluded, under which chief command of the Russia Baltic and Black Sea fleets is placed in the hands of British admirals. Great Britain, according to the newspaper, undertakes to reinforce these fleets with its own squadron.

NEW SEA LORD CLOSED NORTH SEA

London, Nov. 3.—With the announcement that Lord Fisher succeeds Prince Louis of Battenberg as First Sea Lord of the Admiralty the newspapers believe that the warfare on the part of the navy will be prosecuted sternly.

"The essence of war is violence; moderation in war is imbecility," is one of Lord Fisher's sayings.

A majority of the newspapers express confidence in the loyalty to the country of Prince Louis of Battenberg, but a few of them consider that his resignation was wise and desirable.

CANADIAN MINISTER IS AT BATTLE FRONT

Ottawa, Nov. 3.—Major General Sam Hughes, Canadian Minister of Militia, who has been in England for a fortnight with the Canadian expeditionary force, is reported to be at the battle front in France. It is said he intends to visit the entire line of the Allies in Belgium and France before sailing for New York this week.

LUSITANIA ARRIVES SAFE.

New York, Nov. 2.—Anxiety regarding the Cunard liner Lusitania, which had not been heard from since she left Liverpool Saturday week with 961 passengers, until she reported her position by wireless Saturday night, was relieved when she arrived here yesterday, more than twenty-four hours overdue. Bad weather was responsible for her delay.
