REPUBLICANS SEEM TO BE COMING BACK

(Special to The Daily News--10 A. M.)
New York, Nov. 4.—Sweeping Republican gains throughout the country which reached a climax in the state by the overwhelming victory of C. S. Whitman for governor and James W. Wadsworth to succeed Elhu Root as senator is indicated in the early returns of the general election. Indications for Washington and California are overwhelmingly wet; Oregon is uncertain.

TURKISH AMBASSADOR PLEADED FOR PEACE

(Special to The Daily News--10 A. M.)
Petrograd, Nov. 4.—The Turkish ambassador before leaving Russia stated that he tried by all the force at his command to convince the Russian Foreign Minister that Turkey was not actuated by hostile feelings toward Russia. If untoward events had taken place, they were not at fault. He was firmly convinced the war would be of extremely short duration, and Turkey will assume the position she maintained before German influence became paramount at Constantinople.

ROSS FACTORY STARTS WORKING ON SUNDAY

Quebec, Nov. 3.—For the first time, the Ross Rifle Factory, on the twenty-fifth, started Sunday work, besides working night and day week days to get ahead with the contract for 100,000 rifles which it has just received from the British government, and which calls for complete delivery in the space of a year. There are now about 800 employees at the factory, and this number will be gradually increased until there are practically double that number, which will be shortly after New Year's. The rifle demanded by the Imperial authorities is the same as issued to the Canadian contingent. Extensive additions are being made to the factory.

The Ladies' Musical Club will give a "Grande Musicale" in aid of the Belgian distress fund, at the Empress Theatre, on November 12. A splendid program is being arranged, which is sure to delight all lovers of good music. The concert is the first of its kind ever given in Prince Rupert, and embraces the very best local talent. The committee in charge has decided that the prices will not be higher than 50 and 75 cents. Further particulars will be given later.

OFF FOR MERRY ENGLAND.

Mrs. J. E. Hammond and little son left by this morning's train for their old home in England, where they will remain with Mrs. Hammond's mother until the war is over.

Mr. Hammond, who has so ably played his part in training Prince Rupert's first contingent to its present state of high efficiency, will leave on Friday for Victoria and to the front, where his untiring and energetic efforts in the interest of the Empire are sure to bear fruit.

During their residence in Prince Rupert Mr. and Mrs. Hammond have formed a very large circle of friends, who will extend their very kindest wishes and will eagerly look forward to their safe and happy return. Seldom, if ever, has Prince Rupert seen a larger turnout to bid farewell to a citizen than was Mrs. Hammond's pleasure on her departure for the East.

The carrier of a deadly weapon who says he does not want to kill is typical of the German nation in the protest against a desire for war.

NAVAL FIGHT.

A second wire this morning seems to confirm the naval disaster off the coast of Chile, which was first given by The Daily News yesterday afternoon. As the Goodhope was by far the largest and best armed ship in the fight the result cannot be very well understood with the little information available. Local interest is added to the event from the fact that a brother of Mr. A. J. Morris was serving on the Monmouth. The following is the standing of the chief ships engaged

German—The Scharnhorst and the Gneisenau are of 11,420 tons, have 26,000 horsepower, make 22.5 knots, have 4 6-inch side armor, and 6 to 6.75-inch protection for the big guns. They carry eight 8.2-inch guns, six 5.9-inch quick firers, twenty 3.4-inch quick firers, eighteen smaller guns and four torpedo tubes. They were built in 1907-1908.

British—The Goodhope is of 14,100 tons, 30,000 horsepower, 22 knots, and has 6-inch side armor and 5 to 6-inch protection for her guns. She has two 9.2-inch guns, sixteen 6-inch quick firers, fourteen 3-inch quick firers, three smaller rapid fire guns, two machine guns and two torpedo tubes.

The Monmouth is of 9,800 tons, 22,000 horsepower, 23 knots, and has 4-in. side armor, 5-in. to protect the guns, and her armament consists of fourteen 6-inch rapid fire guns, eight 3-inch quick firers, five smaller guns and eight machine guns and two torpedo tubes.

PUBLIC HALF-HOLIDAY

In response to the request of a large number of citizens, I hereby proclaim a Public Half-Holiday for Friday morning, November 6, in order to enable all citizens to participate in the farewell to the Prince Rupert contingent for the war.

It is hoped the hotels, wholesale liquor houses and the clubs will specially aid in a complete suspension of business until the departure of the boat, about 11 o'clock in the morning.

MORE BIG BRITISH CONTRACTS FOR CANADA

Ottawa, Nov. 2.—Further contracts have been let by Mr. Fred Sobart, buyer for the British government, amounting to \$900,000. The last contract is for 600,000 sweater coats for the winter campaign of the British army. In addition a further order for 400,000 sweater coats will be let at once, bringing the total up to \$1,500,000. The contract was divided among a number of firms in Quebec, Ontario and the maritime provinces. Mr. Sobart has already let contracts for the British army, estimated at \$5,500,000, which means that many Canadian factories, otherwise closed, will be able to run full time, and in many cases overtime, most of this winter.

Union prayer meeting will be held in the Salvation Army Barracks this evening at 8 o'clock. Rev. Mr. Grant will be in charge, assisted by the other ministers. The meeting is in behalf of the British Empire and the war.

ARCHIE McDUGALL DIES AT VICTORIA

News has reached this city that Archie McDougall died yesterday afternoon at St. Joseph's hospital in Victoria. While this has been expected for some time it will bring a great deal of grief to a lot of people all over the country.

Archie McDougall has been a pioneer all his life and having followed the railroad construction business was exceedingly well known. He, himself was a very successful railway subcontractor and his ability was so well recognized that when Foley, Welch & Stewart wanted a first-class man for any particular work he was usually given the preference. Most of the excavation work in Rupert was done under his direction.

The generosity of the railway contractors is proverbial, but Archie McDougall was a prince among them; not that he did not know how to drive a tight bargain, and indeed he always did, but when the work was done he saw to it that his sub men always made good.

About nine months ago the effects of a strenuous life under pioneer conditions began to tell on his health. Accompanied by Mrs. McDougall he did everything possible to overcome this without success. He visited Rupert a few months ago in order to straighten out some of his business and those who saw him then knew the end was near.

GERMAN RETREAT BEGINS-- HEADQUARTERS MOVES BACK

OFFICIAL REPORTS CONFIRM THIS--NIEUPORT EVACUATED AND IN RUINS--ALLIES ARE TOO STRONG FOR THE ENEMY.

(Special to The Daily News--2 P. M.)
London, Nov. 4.—Official reports from the Belgian headquarters are becoming more positive in their assertions that Germany is preparing to withdraw from a hard-won position on the southwest coast of Belgium. Nieuport has been evacuated, but not before the city had become untenable and in ruins. The German staff headquarters has been moved back from Thielt to Ghent and new lines are being entrenched feverishly.

NAVAL BATTLE REPORTED OFF SOUTH AMERICAN COAST

APPEARS TO HAVE BEEN DISASTROUS TO THE BRITISH--FIVE GERMAN SHIPS ATTACKED THREE BRITISH AND SUNK ONE OUTRIGHT.

BRITISH AND FRENCH BOMBARD DARDANELLES

(Special to The Daily News--10 A. M.)
London, Nov. 4.—The Secretary of the Admiralty has announced that the combined British and French squadron bombarded the Dardanelles forts at long range at daybreak this morning. The forts replied but no ships were hit. The statement added that the damage to the forts cannot be estimated, but a great explosion, accompanied by dense volumes of smoke occurred at Holtes fort.

MORE RECRUITS.

The following are the latest recruits to the local force, which leaves Friday for Victoria to prepare for active service: W. Matheson, J. McLeod, James Stewart, Malcolm M. Lamb, L. Greenhalgh, Ernest A. Cole, Thomas Stewart, Arthur Carr, Lewis H. Rogers, Dan McGregor, J. A. Allan, R. B. Johnston, P. Flemming, Joseph de Mayer and Gordon Joy.

The Canadian Fraternity is giving a dance tonight in St. Andrew's Hall in aid of the Patriotic Fund. It will also serve as a send off to the boys who have enlisted for the front.

Rae's Market, on Fifth Street, has changed hands. It has been purchased by Messrs. McDonald & Donnelly. Mr. McDonald is an old-timer in the city, while Mr. Donnelly is a recent arrival from Edmonton. They have a good stand and should make a success.

EDITORIALS

The next few days are likely to see big events in North France. The Germans appear to have great forces of reinforcements and are under instructions to take Calais at any cost. Already, they are reported to have lost 100,000 men in this attempt and they appear to be willing to lose as many more if only they can reach their goal. They are therefore apparently throwing everything into a gambling chance of taking Calais. Should they fail in this it will not only mean that they have lost many thousands of men in vain but that their spirits will be well nigh broken as it would mean another miscarriage for their well laid plans.

The editor of The Fatherland, a special German war publication issued from New York, is enraged because the paper has been refused transmission through the Canadian mails.

It was an absurd piece of impudence on the part of the agents of the enemy to even attempt to use His Majesty's mails for the circulation in this British country of a publication that was from its first word to its last, devoted to unblushing falsehoods and venomous slanders against the government, the army, the navy and people of the British Empire.

And yet the very expectation of these conspirators that they would be permitted to carry on their propaganda through the Canadian mails conveys a tribute to British institutions. Nobody would expect for a moment that, in any

country under German rule, such a hostile publication would be tolerated for an hour. Not only would it be seized instantly and ejected from the mails, but no passenger on a train or citizen on the street dare be seen with such a paper in his possession. Away from home the Germans are very keen to claim the British and American rights of free speech and a free press. At home they are docile enough. In Belgium the Belgian press, wherever the German soldier came, was forced to cease publication or issue papers in the German language, and print only such news and views as the invaders approved.

Yet these people fancied that they could print in New York and circulate freely through the mails of this country all kinds of false news about the war and libels on everybody and everything British!

What the mischief is the matter with them? Of course they want the earth, but why do they expect other people to want them to have it? Why do they expect other people to fetch it to them?—Toronto Star.

Prejudice is the daughter of ignorance.

WOMEN SPIES ARE BEING SHOT

North France, Nov. 4.—No lists or even figures are officially disclosed, but the shooting of batches of spies takes place daily in this and other towns of the district, and in the past few days there have been nearly as many women shot as men. It is most hard for the veteran, who loathes the task of shooting women, but, according to the laws of war, it must be done. They are lined up with men, often young girls or women of refinement, at the zenith of their charm and beauty, and so, according to their lights, they give their lives for their country, and meet their death as bravely as any man. So many spies have been caught in France recently that the possession of papers, apparently in good order, avails a man or woman nothing once an accusation has been made or a suspicion leveled.

It is claimed that no German fougou can ever pronounce certain French words without betraying their Teuton origin. It is failure to pass tests of this kind which condemn. The papers may have been stolen and the signature on the passport learned so that the holder of it can produce a passable imitation of it at will. Spies even have been caught with their own photographs superimposed upon others on the passports and the official stamp on the photograph counterfeited. I saw a woman challenged in the street yesterday, seized and haled to the gendarmerie. She was well dressed, and the last type which the ordinary home-staying British people would suspect of espionage, apparently a prosperous widow of about thirty, leading a little boy by the hand, but I have heard since that it proved a clear case. She had evaded the war regulation of the local authorities, that strangers must not remain more than twenty-four hours in any town in this part of France without reporting personally to the police, by changing her lodgings literally every day of the week. Her plan was apparently to take a Folkestone boat as soon as she was ready.

No matter when it comes it is going to be peace at the highest price.

Prince William of Wied has abdicated the Albanian throne to fight for Germany. Anything for a quiet life.

"OUR BRAVE PRINCE RUPERT BOYS"

New Patriotic March by George Werner to Be Played for First Time at Westholme Tonight.

In connection with the War Gazette to be shown at the Westholme tonight and tomorrow night, the Westholme orchestra will play a new patriotic march composed by Mr. George Werner and bearing the title "Our Brave Prince Rupert Boys." This march has been dedicated by Mr. Werner to the boys who are leaving for the front on Friday next, with the purpose of cheering them on their way and wishing them a safe and glorious return.

The Prince Rupert contingent has been invited to attend Thursday night's performance by the Management of the Westholme and it is expected that in spite of the many engagements between now and Friday morning arrangements will be made to afford the entire company an opportunity to hear the new march and see the pictures.

BRITISH STEAMER PLAYS WAR PRANK ON GERMANS IN HARBOR OF CALLAO

Seattle, Nov. 4.—Officers of the British steamship Oreoma at Callao are reported here by the British bark Inverclyde, fifty-one days from Callao, Peru, as having had considerable merriment over a joke played on the Germans in that port. The crew of the Britisher cut two enormous guns out of wood, and after painting them black mounted them on deck, pointing in the direction of the German vessels. The craft flying the flag of the Kaiser, in fear of being sent to the bottom by shot and shell, did not venture from port.

However, the ruse of the Oreoma became known when the authorities at Callao ordered all vessels in the harbor to dismount their guns.

Peruvian naval officers who boarded the Britisher were surprised to find that the frowning guns of the Oreoma were made of wood.

CANADIAN INDIANS IN THE SECOND CONTINGENT

Redskin Company of One Hundred and Twenty to Be Formed.

Brandford, Ont., Nov. 4.—The Six Nation Indians will furnish a company of 120 officers and men, all redskins, for the second contingent. They will mobilize at Cayuga at once. Capt. G. Smith will assume command. Other officers are not yet chosen.

The company is being formed at the instigation of Major-General Leonard, of Toronto, who asked that the Indians, on account of their relation to the Crown, should send a separate and distinct unit.

SPY TRIED BY COURT MARTIAL IN G. BRITAIN

First Military Court of Its Kind Hold on English Soil in Many Generations.

London, Oct. 30.—A court martial, the first convened in England to try a civilian for many generations, met today under the presidency of Lord Chylesmore at the Middlesex Guildhall, in the shadow of Westminster Abbey, for the trial of Carl Hans Lody, alias Charles A. Inglis, on the charge of espionage.

Prosecutor Archibald Bodkin, opening the case, declared that the crime of giving information to an enemy was properly triable by a court martial, and that the defendant was an alien enemy—a German subject—although he spoke English fluently with an American accent.

The prosecutor said that the accused, posing as an American tourist, visited Edinburgh, London, Liverpool and Dublin and had sent valuable reports to Berlin. August 4 he received a passport from the American embassy in Berlin under the false name of Charles A. Inglis. Late in August Lody arrived in this country, going from there to various other places.

AUSTRIAN MONITOR SUNK

Temes Struck a Mine in the River Save and Went Down

London, Nov. 2.—In the official Austrian statement from Vienna via Amsterdam is the following: "Returning from a successful action on the River Save, our monitor Temes struck a mine and sank. Thirty-three men are missing, but the others are saved."

The Temes was 183 feet long with a displacement of 433 tons, and her light draft, four feet, made her particularly valuable for river operations. She was built in 1904, and was equipped with two 4.7-inch guns forward, and one 4.7 howitzer aft, as well as two machine guns.

NEW ICEBREAKER.

Dominion Government to Construct One to Replace Craft Sent to Archangel.

Ottawa, Nov. 3.—The construction of a 10,000-horsepower icebreaker has been commenced at Montreal by the Canadian Vickers Company to take the place of the Earl Grey on the Straits of Northumberland.

This new boat will be more powerful even than the Earl Grey, which was able to cut through anything between Prince Edward Island and New Brunswick, though the ice there runs to a thickness of fifteen feet. The new icebreaker will not be ready for the service this winter, but will be completed in 1915.

GOING MAD FROM THE TERRIFIC PAIN

Prominent Merchant Thinks His Life Was Saved By "Fruit-a-lives".

DRYSDALE, ONT., JUNE 15th, 1913.

"I am a general storekeeper at the above address, and on account of the above ailment, I recommend using 'Fruit-a-lives'. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrific pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain, but I took 'Fruit-a-lives' from then until I was cured. I have steadily gained fifteen pounds since taking 'Fruit-a-lives', and I verily believe they saved me from a disastrous illness."

GERMANS' FURY EXPENDING IN ITS RAGE AT BRITAIN

DESPERATE DESIRE TO GET WHERE ENGLAND MAY BE INVADED—SUBMARINES MAY BE GOT ACROSS THE STRAITS AND INTO HARBORS.

London, Nov. 3.—The Flanders battle is the most severe of this war. The Germans are availing themselves of a magnificent system of railways behind them, and have rallied considerable forces from other parts to their front, throwing them beyond Lille, in the effort to reach Calais. The military critic of the Berliner Tageblatt says "The battle is for us a question of life or death, because on the issue of this encounter will depend the fate of German operations in France."

Fantastic Proposals.

The German press is full of plans for utilizing Calais against the English. Some of these plans, such as using the port for submarine torpedo work, are practical, but others are merely fantastic, like a scheme for building a pontoon several miles out across the Channel in order to mount 17-inch guns where they could reach Dover.

Curiously enough, various London newspapers discuss German occupation of Calais as a possibility, attempting to discount its importance. These disturbing symptoms are not justified by any news that yet has reached the writer.

The Times' correspondent says:

"If the Germans got to Calais it must be admitted that in time, under cover of night, batteries could be prepared and heavy guns brought up and placed in position. To deny that this is a possibility is only to ask to be disappointed."

Submarines Across Channel.

"Also it must be admitted that German submarines could reach these harbors because these pests have a habit of coming and going as they please, and it is not inconceivable that small torpedo boats might reach the Channel ports by rail or canal. The canal system in this part of France permits overland transfers of small torpedo boats from one port to another. The Germans could no doubt worry us a little by playing the game on which they seem bent."

The Mail editorially describes Germany's new plan as "a new obsession to reach Calais with all possible speed at whatever cost, to occupy the southern shore of the Straits of Dover, then make matters as hot as possible for the hated English."

It declares the German purpose remains unshaken. Broken it must be if the cause of civilization is to be saved.

GOLD IN THE WAR.

Both the Bank of England and the Imperial Bank of Germany have continuously increased their holdings of gold since the war began until in each case their stocks of the metal have become the largest ever known to them. The German bank now holds \$111,000,000 more gold than at the outbreak of the war; the British bank holds \$158,000,000 more.

It is easier to explain the gain of the British than that of the German bank. England's foreign trade is still unbroken, though reduced by the war. The Bank of England is having the benefit of the large weekly shipments of gold from South Africa. It has been gaining gold on debt account from the United States in shipments to Ottawa, which are counted as its own vaults.

But Germany has practically been cut off from the outside world. Its bank cannot gain gold either from the foreign trade, which has virtually been destroyed, or from foreign borrowings. It has been presumed that the gold carried by the government in the famous and mysterious warehouse of Spandau has been transferred to the Reichsbank, but as this sum is not supposed to exceed \$60,000,000, against a fabled sum of a billion or so, we have \$51,000,000 still to account for.

Where did the German bank get that sum? Apparently from the pockets of the German people, who have voluntarily turned over their circulating gold coin to the bank and accepted paper instead. It is not an impossible thing, but it would be the first instance on record of a people desperately involved in war who spontaneously and unannouncedly refused to respond to the hoarding instinct and emptied their pockets and stockings and chimney niches of the money which most seeks hiding at such times.

An ounce of prevention is better than a pound of repentance.

ANTWERP CONQUEROR IS REPORTED SUICIDE

General von Beseler Said to Have Shot Himself.

London, Nov. 3.—Most startling of the unconfirmed reports of the day received from France was that published in a dispatch to The Evening News from Rotterdam that General von Beseler, the commander of the German besieging army which took Antwerp, had committed suicide by shooting himself in his quarters at Bruges. One report was that the conqueror of Antwerp was overcome by grief because after opening the way for the Germans to the coast, the supreme command of the troops operating against the Allies to the west of the scene of his triumph was given to the Duke of Wurtemberg.

1,500,000 MEN ON ROLL OF THE BRITISH ARMY

Soldiers Divided Into Three Branches in Field and Preparing for Service.

London, Nov. 3.—The British army on rolls and drilling in the United Kingdom now amounts to one and a half million men, apportioned as follows:

Kitchener's army (recruited since the war began) 800,000
Territorials 500,000
Special reserves and regular army 200,000

The Territorials are considered the flower of the force, as a great majority of them belong to the middle and upper classes, and are men accustomed to athletic pursuits. Both physically and mentally, they are considered by military men to be the finest body of its members ever assembled under arms.

They are drilling with feverish enthusiasm and are anxious to go abroad for service on the firing line. A considerable portion of Field Marshal Lord Kitchener's army, of course, is not yet fully equipped but is working hard. They are being armed and clothed with great rapidity. The Canadian contingent is not included in this total.

N. Y. ASTROLOGER PREDICTS VICTORY

It will be a thin bread-line of heroes when the smoke is cleared away.
