What Berlin Says.
 Berlin, Jan. 26.—The German official report says that two strong points of support in possession of the British were captured by the Germans in a general assault on the British positions near La Bassee.
Berlin Reports.
 Berlin, Jan. 26.—A large number of inhabitants were injured by the bombardment of Middellkirke and Westende in Belgium, including the Middellkirke burgo-master.
 In the region of La Bassee the Germans claim to have captured British positions of 4,200 yards. Three officers and 110 men were taken prisoners by the Germans, and one cannon and three machine guns captured. The British attempt to recapture the positions was repulsed with heavy losses. The Germans are bombarding

MAYOR AND MORRISSEY WILL MAKE TOUR

The mayor has always been jealous about that trip his predecessors made to London. Why shouldn't he have a trip, too? When he goes, though, he won't take the city solicitor—for he had his trip. It's Alderman Morrissey's turn now.

Last night he announced that the time had come to make the trip. No better chance would ever come. The mayor and the finance minister will first storm Victoria and if they don't get all they want there they are going to Montreal and take the general manager of the Bank of Montreal by the ears and demand that he hand over all the money in his vaults.

It is conceivable, however, that the worthy manager might object to this rough handling or that the aggressors might begin to quake at the knees. So if this fails they will go to Ottawa and tell Papa. Anyway, they are going to have a bonny time and if they can sell some of the city's debentures, so much the better. They will leave in a few days. Alderman Kerr was appointed acting mayor.

TELEPHONE POST BLOCKS CITY STREET

Aif Halligan got his car injured by coming in contact with a city telephone pole on Fourth Avenue East that stands on the street. Through Carss & Carss last night he informed the City Council that he would expect them to make good the damages. They amount to about \$32. The city solicitor and city engineer will report.

We have a few more suits, perhaps one that will just fit you.—

COMMITTEES NAMED NEW BOARD OF TRADE

The first meeting of the new executive of the Board of Trade was held yesterday in the Board of Trade rooms, Second Avenue.

The president, Mr. D. G. Stewart presided, and a number of matters were referred to the various committees appointed for action and report. It was decided to continue the publicity bureau, under the management of F. S. Wright, the commissioner. It was also decided that the fisheries committee should co-operate with the citizens committee to the fullest extent in connection with the obtaining of the concessions as to ruling regulations from the government. It was also decided to continue the luncheons of the board. The following committees were appointed, the first name on each committee being the chairman:
 Freight Rates—F. G. Dawson, F. H. Mobley, W. P. Lynch.
 Trade and Commerce—F. H. Mobley, W. P. Lynch, M. Albert.

 Cracow, Jan. 26.—Austro-German forces have occupied Kielce, in Russian Poland.

BURNS NIGHT WAS DULY CELEBRATED

The Night of Burns was celebrated last evening in St. Andrew's Hall. Instead of the formal banquet of former years, the spread last night was put on by the society's ladies' auxiliary and was a great credit to that organization. It could not be held in any of the local hotels, which is saying quite a lot.

About two hundred people were there at 8:30 o'clock to partake of the banquet that was spread, including a number of invited guests. About 9:30 the toasts and speeches began, and continued until about 2 a. m. In the meantime the lads and lasses who were yearning for the advent of the light fantastic were wishing they could administer Hobson's treatment to some of the long-winded orators. Finally the speeches were finished, the tables cleared away in short order and after that the dance commenced, which was enjoyed by young and old, and continued well into the morning.

Tenders will be called for the towing of the garbage scow. It will require a boat with a thirty horsepower engine and a contract to end at a notice of thirty days. It was specified that the insertion only appear once in the local papers.

FISH MEETING WELL ATTENDED— H. S. CLEMENTS CHIEF SPEAKER

PETITION WITH 2,500 NAMES TO BE PRESENTED TO AUTHORITIES—MEMBER PROMISES TO DO HIS UTMOST IN GETTING CONCESSION.

There was a crowded house last night in the Empress Theatre to hear the discussion on fishery concessions for Prince Rupert. H. S. Clements was the chief speaker.

After reading the memorandum to be presented to the government on the question, he expatiated on a few phases of the question, which are very familiar to the people of this city. He urged the people to do all they could to secure this industry, as Seattle and Ketchikan were doing their utmost to beat us. He did not say, however, why he objected to sending a delegation to Ottawa to support him, which is about the only thing the citizens have not already done.

At the close of the meeting, a resolution was put by Fred Stork, and carried unanimously, that the city in mass meeting endorse the requests already made of the government.

Mr. George L. Clayton presided and outlined the demands of this city along the line of allowing American fishermen to buy their supplies here and to sell their fish in bond without the trouble of shipping it themselves to the United States as the present regulations demand. Mr. Clements promised to do his utmost in the matter and will present the petition containing some 2,500 names to the authorities.

GERMAN CRUISER SEEN LAYING MINES

(Special to The Daily News.)
 London, Jan. 26.—The German armored cruiser, Friederich Carl, and numerous torpedo boats were seen off Aland Islands, at the entrance to the Gulf of Bothnia, steering south. It is believed they were laying mines in the gulf. All shipping there has been stopped.

CANON RIX WILL LECTURE IN ST. PETER'S CHURCH, SEAL COVE

Another opportunity is being given to hear Rev. Canon Rix deliver his masterly lecture on "The Flag." Many who wished to hear the canon on this, one of his favorite subjects, when he lectured at the Empress Theatre some time ago were disappointed owing to the inclement weather. However, next Thursday, January 28, at 8 p. m., at St. Peter's Church, Seal Cove, the lecture in its entirety will be repeated, together with a short program of songs, recitations, etc. A most interesting and profitable evening is promised. The proceeds on this occasion will be devoted to St. Peter's Church building fund of the Ladies' Aid. Admission, 25 cents.

SAW A BIG WHALE.

Victoria, Jan. 26.—The Japanese liner Chicago Maru, which reached port Friday afternoon from the Far East, sighted a dead whale early on Wednesday morning when 200 miles from the coast. The big mammal, 100 feet long, was floating upside down, and its great length attracted considerable attention. In addition to her local cargo, the Chicago Maru brought 1,266 tons of cargo for Vancouver, 934 tons for Seattle and 3,107 tons for Tacoma, including 744 bales of raw silk for overland shipment.

CITY ASSESSMENT IS UP FOR DISCUSSION

The city assessment was up for discussion last night. The mayor and Alderman Morrissey, for the finance committee, recommended that in ordering the assessor to proceed with the work "a suggestion" be included that there be no change made in the values. Alderman McClymont, the other member of the finance committee, presented a minority report, asking that the assessor be not interfered with.

A discussion brought out the fact from the city solicitor that the Council could adopt last year's assessment and that there could be no appeal from it. Some of the aldermen were under the impression that since other cities were reducing their assessment Prince Rupert should do likewise. According to the discussion it is possible that the Council will accept the assessment of last year.

Maintenance of men incapacitated by age, not as a degrading and demoralizing charity, but as a matter of obligation on the one hand and of right on the other, has been urged on the Dominion Premier by representatives of the Trades Congress. This policy is now free from the common terror of the unknown, for the British government has found it feasible, economical, and free from the alarming consequences predicted by the timid. The man who has worked productively during his active years, giving much and getting little, is entitled, out of the margin between the wealth he produced and the wages he received, to decent maintenance in his old age. That there is such a margin to draw upon is proved by the fact that wealth is obtained by non-producers. Somebody must produce without obtaining.

With regard to the practical aspect of the policy, it is now generally recognized as an intolerable disgrace to allow the aged to suffer want. They must be maintained. Many methods have been devised for their maintenance, but few have been free from highly objectionable features. As many have been adopted by people who have gratuitously taken up work the elected representatives should do, they involve costly and impractical organization and general waste of effort. The periodical payment of a pension is now generally regarded as the most effective and least objection method yet designed.

The idea of a great waste or vast burden in this connection takes strong hold on those who think every disbursement by a government is a loss. If all men were taxed equally to pay an equal pension to all there would be no loss or waste, although the figures of govern-

mental outlay would be vastly augmented. Money is not lost but merely changes hands, and the men who pay the old-age pensions are simply making advances to the public of money they will draw when they pass the age of useful service. Thus the system has all the advantages of enjoining and enforcing frugality and providing for the future, advantages now claimed for various complicated and generally neglected personal systems. It would not increase public burdens, for recipients as contributors make up the public.

To insure against loss or burden it would be necessary to provide that payments be made to residents only. The system could be extended so as to class the injured and incapacitated temporarily or permanently with the aged, thus covering a system of compensation now operated by complicated governmental mechanism. It is the lack of such provisions for the aged that prompts the grasping meanness and sinister duplicity so often noticed as the age of dismissal approaches. The simplicity of the old-age pension system seems to militate against it with legislators accustomed to complications and entanglements.

PREVENTS METALS FROM BURNING

Iron burns freely under favorable conditions, though such a metal is not commonly thought of as combustible. A piece of soft iron, when whittled into a candle-flame with a sharp steel knife, burns brilliantly. Fine iron filings are used in quantities to make fireworks. And no mass of iron, no matter how large, can be heated red in contact with the air without "rusting." In fact, we have no inexpensive metal that can be used at very high temperatures. The cheapest refractory material is probably the ordinary firebrick, but this is very little, which limits its usefulness. A recently discovered process, termed by its inventor "calorization," is said to protect combustible metals from atmospheric action at high temperatures and make them available for a much wider range of usefulness than is now the case.

NO ALUM

WHY HOSPITAL IS NO PLACE FOR HIM

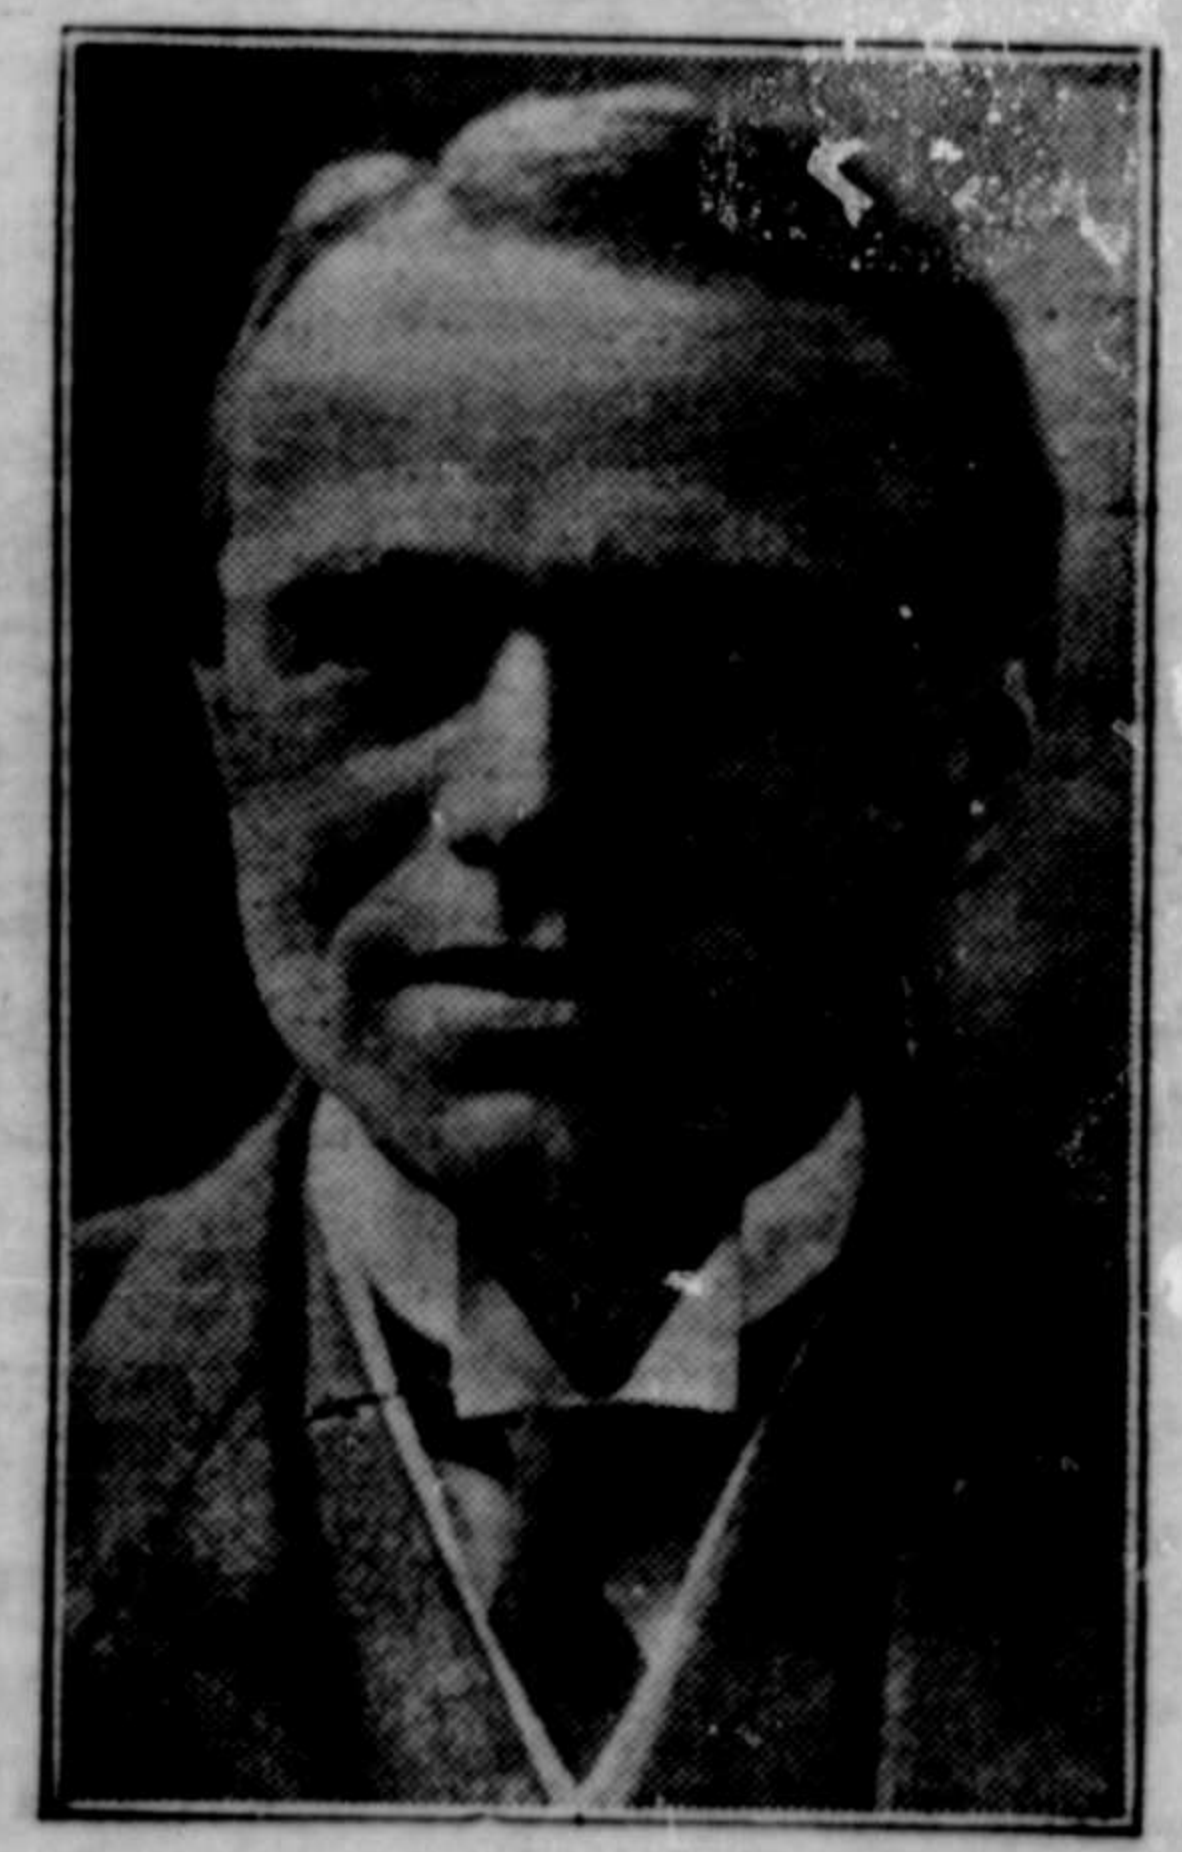

Private Leaske, of the 1st Battalion of the London Scottish, who has been invalidated home with a severe flesh wound in the thigh, has, it would seem, a charmed life.

When the Germans bombarded Antwerp Private Leaske was engaged in business there. A German shell wrecked the house in which he was living, and he at once returned to England and rejoined the London Scottish, to which previously he had belonged.

He was sent to France with the 1st Battalion, and during an engagement three bullets pierced his overcoat without injuring him. But a fourth bullet wounded him in the thigh. He was taken off to hospital, and had been there only a few days when the Germans commenced shelling the building. He was removed to another hospital, which the Germans also shelled. Leaske was again moved, but this time the Germans allowed him to rest peacefully.

Eventually he was moved to England and sent to a hospital in Hartlepool. But he had not been there twenty-four hours before this building was shelled by the raiding German cruisers! He then came to the conclusion that hospitals were not safe places for him, and he returned to London. We are able to record that he is now making good progress.—Old Country Exchange.

SIR MAX AITKIN,
 Who, according to a recent Ottawa dispatch, is to be the British "eyewitness" with the Canadian troops at the front.

BRITISH FIGHTERS GREATER THAN SIRE

"Our minds are full of the splendid fighting of our troops and sailors," says Mr. W. A. S. Hewins M. P. in the Morning Post. "We always had the utmost confidence in their courage and capacity, but we did not know that they would show finer qualities than even their forefathers had ever shown, and no rational man could have reckoned upon this exceptional and superb exhibition of capacity as a certain factor in the result of the war."

"It is probably essential that we should understand what this means. It looks as though there were some vast change going on in all ranks of society, of which the writers, philosophers and politicians did not dream. I should say it is the best evidence that we could want of the return to ancient tradition which is affecting all sides of British life.

"What has really been taking place during the last generation has been a return to the old English ideal, which is neither individualistic nor socialistic, but the idea of regulation and of the solidarity of classes. There can be no class-war in the United Kingdom after the war."

TIGHTENING UP THE LAWS OF MARRIAGE

Divorces From States Are Banned Further in This Province.

Victoria, Jan. 21.—Owing to the frequency of recent marriages in which the contracting parties have been of Caucasian and Oriental races, special instructions have been issued to the sheriffs of the different provincial counties. Specific orders have been given that "in future no licenses to marry, where one of the parties is an Asiatic and the other of the white race, are to be granted until after the application has been referred to the head office in Victoria."

The interpretation of the term "Asiatic" is described as embracing "Chinese, Japanese and East Indians." Those responsible also are cautioned as to giving licenses to "divorced persons where the divorce has been obtained in the United States, or to people coming from the United States." Care, it is stated, must be exercised in dealing with parties under the legal age (21 years) or who appear to be so.

BRITISH FARMER PROSPERS.

Higher Prices Are Obtained for Crops and for Cattle.

London, Jan. 26.—After many years of depression the British farmer is enjoying prosperity. Everything he raises is quickly saleable at prices which are gradually climbing higher and higher. Wheat and oats, which are the staple crops of most English farmers, are fetching excellent prices, while the live stock which they fattened for the holiday market was taken at figures which have not been touched in many years.

The more a man knows the less he thinks he knows.

THOUSAND SWORDS LEAP FROM SCABBARDS

"Burke said of Marie Antoinette before the French Revolution, in which she was sacrificed, that she was so exquisitely beautiful when he saw her that he believed every sword in France would leap from its scabbard to defend her. I use that expression now," said Lord Rosebery recently, "not with regard to a beautiful woman, but to an exquisite country dear to us all. I say if the insult offered to our shores by the hurried visit of a German squadron does not make every Scottish sword leap from its scabbard I am greatly mistaken in the nature of my fellow-countrymen."

CARDINAL MERCIER FORMALLY PROTESTS

His Report Shows the German Claims Are Far From Being the Truth.

London, Jan. 20.—The Amsterdam correspondent of Reuters Telegram Company telegraphs that Cardinal Mercier has made a formal protest against his treatment at the hands of the German authorities in Belgium. The cardinal has published his protest in the form of a letter dated January 10, and has sent copies to all priests in his diocese. The letter follows:

"Without doubt you have seen the communication from the German government of Brussels, as published in the daily papers and in which it is declared, 'Cardinal Mercier, Archbishop of Malines is in no wise hindered in the exercise of his episcopal work,' the facts show how far this report is from the truth.

"On the evening of the first of January, and the next day, soldiers forced their entry into the vicarage, seizing my pastoral letter and contrary to my episcopal order they prohibited reading of the letter before congregations, threatening the severest punishment, which would have been inflicted on vicars or parishes. My own dignity they did not spare.

"On the second of January, early in the morning, at 6 o'clock, I received an order to appear on that same morning before the governor general to answer for my letter to the priests and parishioners. The next day I was forbidden to attend the services at the cathedral at Antwerp. Finally I was not allowed to move freely to visit other bishops in Belgium.

"Your and my rights are thus violated. As a citizen of Belgium, as pastor and as a member of the Holy Congregation of Cardinals, I strongly protest against it. However others may interpret it, this experience has proved that my pastoral letter has caused no danger of a rebellion. On the contrary it has been instrumental in calming minds and appeasing them."

The chairman of last night's meeting in his opening remarks, emphasizing the importance of the concessions demanded, said, "And what shall we do if the government doesn't grant this." A voice from the rear of the hall said, "Vote for reciprocity," and he struck the nail right on the head.

George L. Clayton and M. J. Hobin appeared before the Council last night asking that the Council send a wire to Ottawa supporting the resolution passed by the mass meeting of the citizens for fishery concessions and also asking the Council to consider giving financial support in case it was decided to send one. The Council agreed to the former proposition but with regard to the second decided to think it over.

HEADS OF DEPTS. ARE NOT TO BE RESPONSIBLE

The authority for hiring the City Hall staffs was up for discussion last night. During the last weeks of the old Council a rearrangement was made in the staff of the electric light department by which a new man was added, although the aggregate salaries was not only not increased but actually reduced. Alderman Montgomery, chairman last year of the light and telephone committee, explained that the rule last year was that the heads of departments had the hiring of their men and that although he favored it he left it with the superintendent.

The mayor, however, was enraged because he had not been notified. A recommendation was therefore brought in that the new addition to the staff, Mr. E. H. Patterson, who left a good situation at the cold storage plant to take it—should be asked to resign and that new applications be called for.

When it came to a vote Aldermen Morrissey, Beveridge, Maitland and Nicol supported it, while Aldermen Montgomery, Kerr, Edge and McClymont opposed, resulting in a tie. The mayor gave the casting vote in favor of the motion and as a result Mr. Patterson will be compelled to resign and applications will be called for. It also means that the heads of departments will not have charge of their men but must be guided by the Council. The mayor, indeed, said that he has already notified the heads of departments to that effect.

LABOR CONVENTION HAS SOLUTION FOR BOGEY

(Special to The Daily News.)
Nanaimo, B. C., Jan. 26.—At the Provincial Labor Convention here, last night Delegate Robinson, of Nanaimo, submitted a resolution that the workers of Canada and the United States call a general strike simultaneously in case of war being declared between Britain and the United States. The resolution was supported by Robinson and Foster, of Nanaimo, and opposed by Delegate McVety, of Vancouver. The debate on the resolution was adjourned.

MAYOR AND ALDERMAN IN CITY HALL WAR

Alderman Montgomery has committed the unpardonable sin. So the mayor thinks. He had the audacity to put in a written request last night that the mayor reveal the facts in connection with the finance committee's relation with the Bank of Montreal. The reports on the street say that the trouble is with the personnel of the committee, rather than the city's finances, and the reports are likely correct for the mayor has hopes of patching the matter up. He wouldn't answer Alderman Montgomery's question last night, however, and the result was a bombardment of 12-cen. guns from both quarters. They could be heard all over the city. The alderman insisted on having his say and he stayed right on his feet in spite of protests till a motion of the Council sustained the chair. The mayor was white with rage, and he trembled from head to feet.

CONTRACTORS WANT DEPOSIT MONEY BACK

Walters & Seeberg, one of the successful contracting firms for the construction of plank roadways, wrote the city last night saying that as they had made some mistake in the figuring the price was too small to even make wages at it and suggested that their deposit be returned. In case this was not done they would proceed with the work even at a loss. It was felt, however, that it was bad practice on the part of the city to treat deposits in such cases too lightly and accordingly they will be notified to proceed with the contract.

The proof of the pudding is in the digestion.

"MY OFFICIAL WIFE."

Splendid Six Reel Feature at The Westholme Wednesday and Thursday.

One of the very best features ever shown at the Westholme Opera House is "My Official Wife," booked for Wednesday and Thursday. This feature is in six reels and deals with the adventures of an American diplomatic attache in Russia. It is intensely interesting and contains some scenes of gorgeous magnificence, notably the grand ball room scene at the St. Petersburg court. The action is strictly up to date and while not bearing on the present war it has a distinct military atmosphere and deals directly with the diplomatic developments which led up to it.

Next Friday and Saturday the "Adventures of Kathlyn" will be shown as usual.

PORT CLEMENTS SHOWS PROSPERITY

A letter just received from Eli Tingley, of Port Clements, Q. C. I., says that the new sawmill there will soon be ready for cutting but would require five or six men. Barton is also going to start up his mill again here, so there will soon be three new mills in operation in the Inlet. C. Clayton is remodeling a boat for Barton which will be a fine craft when ready. The Colson brothers arrived a few days ago from Victoria with a fine new boat which will make this its home port and will be by far the best on the inlet. They also brought up four men, who will locate here as settlers. A large 90-foot boat, built of yellow cedar and equipped with a Diesel engine, will be built here this spring employing fourteen to sixteen men. She will be the pioneer boat for a new company to

engage in the fishery business. So it looks very promising for the future of Port Clements, which stands on a deep water harbor to which a railroad has already been surveyed from the coal drills up the Yakoun River.
