### WORKS REPULSED AND COMMERCE RESUMED ON SUEZ CANAL—JOS. MARTIN BUYS DAILY PAPER

#### TRAFFIC RESUMED ON SUEZ CANAL, ENEMY BEING ROUTED

ENEMY WERE ALLOWED TO ADVANCE TO CANAL BUT AFTER STARTING TO BRIDGE IT WAS ATTACKED AND FLED IN DISORDER.

(Special to The Daily News.)  
Cairo, Egypt, Feb. 4.—An official statement given out says that Tuesday the enemy attacked to cross the Suez Canal. The Turks were repulsed. The loss was sixteen killed and wounded, and forty taken prisoners. Our casualties were only three men wounded.

in the disorder which followed. The enemy also attacked up on the Elkantra front. They were easily repulsed. The loss was sixteen killed and wounded, and forty taken prisoners. Our casualties were only three men wounded. **Unwilling Fighters.** Cairo, Egypt, Feb. 4.—Turkish prisoners captured in the fighting at the Suez Canal yesterday say they were forced against their will into the fighting. Traffic is resumed on the canal today.

THE PRINCE OF WALES AS HIS OWN CHAUFFEUR.

The heir to the British throne is today at the battlefield in France as an aide-de-camp to Sir John French. He is here seen driving his own car, with Prince Alexander of Teck, our future Governor General as passenger.

#### THOUSAND GERMAN RIFLES CACHED ON GERMAN'S B. C. RANCH

REPORT GIVES FURTHER EVIDENCE ABOUT THE PROPOSED GERMAN RAID—GUARDS WERE IMMEDIATELY INCREASED ON WESTMINSTER BRIDGE.

(Special to The Daily News.)  
New Westminster, B. C., Feb. 4.—The wild rumors of a German raid on British Columbia which have been current for some time have had further fuel added to their flames. It will be remembered that Von Mackensen, a brother of the German general of

that name, who owns a ranch at Port Kells, B. C., was recently placed under arrest. Today rumors are current that a thousand German rifles and machine guns have been found in a cache on his ranch. Guards were immediately increased at the New Westminster bridge, and other steps taken to prevent any outbreak.

#### G. T. P. STEAMSHIP SERVICE TO BE DOUBLED

(Special to The Daily News.)  
Seattle, Feb. 4.—It is officially announced that the G. T. P. are going to resume their semi-weekly service between Seattle and Prince Rupert and Granby on April 1. The Prince Rupert line will be operated by an overhaul, and later Prince George will do likewise.

#### JOSEPH MARTIN TO BECOME JOURNALIST

(Special to The Daily News.)  
Vancouver, B. C., Feb. 4.—Hon. Joseph Martin, K. C., has purchased The Daily Times, a one-cent sheet which has been running only seven weeks. He will bring out a five-cent evening paper in March, which will be named The Journal, under his own editorship.

#### GREEN LAKE GIVES UP WOMAN'S BODY

Instances Indicate Suicide—Body Given to Mrs. A. L. Tregent, of Vancouver, B. C.

Seattle, Feb. 4.—The body of a drowned woman, believed to be Mrs. A. L. Tregent, of Vancouver, was found yesterday after floating in Green Lake about a mile west of the Woodland Park boathouse by Sergeant Tom Deputy Coroner Macdonald. The circumstances indicating the woman committed suicide are being investigated by Detective McLennan.

#### "NEW FREEDOM" IS STILL IN THE AIR

(Special to The Daily News.)  
Washington, D. C., Feb. 4.—The President, in addressing the Chamber of Commerce of the United States urged co-operation between business men and the government in framing laws for all the people. He declared that "We must all pool our interests."

#### AMERICA SHIPS BIG GUNS TO BRITAIN

The voyage of the Cunarder Transylvania across the Atlantic will be watched with interest. She carries two great naval guns of either 14- or 16-inch calibre and a steel turret, into which they are to be fitted. The guns are consigned to Harland & Wolff, of Belfast, from the Bethlehem Steel Works, and the Transylvania will be escorted by a British cruiser. It looks as if Harland & Wolff might be building one or two huge monitors for service on the Belgian coast, mounting guns great enough to face anything the Germans have upon the shore. Some day there is going to be a British landing force along that coast.

#### BOWSER BRINGS IN MORATORIUM BILL

(Special to The Daily News.)  
Victoria, Feb. 4.—The moratorium bill promised by the Attorney General was introduced into the House yesterday. It provides power for the judges of courts to defer payments of principal and to withhold foreclosure proceedings with regard to payments due on land purchases where hardship would be done to a deserving debtor. Any sales contravening the order of the court in this respect will be null and void.

#### GENERAL ELECTION A FARCE OR FOLLY

One Seems Necessary in Britain This Year but May Be Deferred.

London, Feb. 4.—Under the altered form of the constitution a new Parliament must be elected some time this year but everybody recognizes the farcical impossibility of holding a general election contested on domestic controversies temporarily forgotten and the suicidal folly of appealing to the electors on national questions of moment that should be agreed. There was a notion that the government might propose a sort of uncontested general election, but J. W. Gulland, the new Liberal whip, repudiates the suggestion which, in any case, as there would have to be another appeal to the country directly the war is ended and politics become normal, seems rather absurd and needlessly inconvenient. The only other feasible arrangement seems to be to wait until the duration of the war can more accurately be foreseen and, unless peace is likely to come soon, to postpone dissolution by special enactment. In all probability, this will be necessary before.

#### SACRED CONCERT TO AID EARTHQUAKE VICTIMS

Next Sunday evening, at the Majestic Theatre a grand evening concert will be given in aid of the sufferers of the recent earthquake in Italy. It has been organized by Mr. Delasala and a local committee. They have been fortunate enough to secure the services of a number of the city's leading soloists, who no doubt will give a splendid program. Included in the artists of the evening will be Messrs. Davey, C. D. Jones, Evans, Clapperton, Fletcher, and several others who have promised their services. An augmented orchestra will give selections during the evening. It goes without saying that the cause is a worthy one, and with such a program should be well supported. Further details and the full program will be published later in the week.

#### GEN. VILLA PROCLAIMS HIMSELF PRESIDENT

(Special to The Daily News.)  
El Paso, Texas, Feb. 4.—General Villa has proclaimed himself President of Mexico. He has announced it by telegraph to his agents here, and has appointed three ministers to take charge of the civil government.

#### BOER REBELS HAVE GIVEN UP STRUGGLE

(Special to The Daily News.)  
Pretoria, S. A., Feb. 4.—Rebel Leader Bezuidenhout, "Prophet" Vankensburg and Lieutenant Colonel Kemp, with 48 officers and 500 burghers, have surrendered at Upington. Colonel Maritz and his men are expected to surrender before the end of the week.

#### OUTLOOK SEEMS BAD FOR STEFFANSSON PARTY

(Special to The Daily News.)  
Dawson, Y. T., Feb. 4.—Letters from Fort McPherson, at the mouth of the Mackenzie River, say there is no news there of the Steffansson party.

#### RUSSIAN AVIATORS DROP TELLING BOMBS

(Special to The Daily News.)  
Petrograd, Feb. 4.—The official report states that Russian aviators, on February 3, dropped bombs on the German mobilized reserves and trains at Rawa, near Zarzece and Boguszyce, southwest of Warsaw.

#### INDIANS MUTINY.

(Special to The Daily News.)  
San Diego, Cal., Feb. 4.—A mutiny of 1,000 Yaqui Indians took place yesterday at Guayamas and four persons were killed and twenty wounded, including two officers. Rear Admiral Howard, aboard the flagship San Diego, is at Guayamas.

#### DACIA DEPARTS FOR ROTTERDAM ON RUSH ORDER

Cotton Ship Gets Out of Galveston After Delay From January 22.

Galveston, Texas, Feb. 4.—The steamship Dacia departed at noon Sunday, from Galveston for Rotterdam, with 11,000 bales of cotton to be transported to Bremen. Telegraphic orders to get under way were received by Capt. Geo. McDonald from E. N. Breitling, of New York, the owner. In two hours the vessel had taken on a pilot and was outside the harbor. The Dacia cleared January 22. Her delay here is yet unexplained and her agent and master said they did not know why she was waiting. The Dacia's cotton cargo is valued at \$880,000, or 16 cents a pound laid down in Bremen. Trouble is expected. The sailing of the Dacia is expected to add another chapter in the national incident which was begun when the former Hamburg-American Line steamer was transferred from German to American registry shortly after the vessel was interned at Port (Continued on Page 4)

#### SHIPPING BILL NOT YET DEAD

Washington, D. C., Feb. 4.—The fight over the ship purchase bill continues. Congressman Kern, of Indiana, at the close of last night's session said: "We are through caucusing. The shipping bill is not dead by any means."

#### JITNEY BILL IN OREGON.

Proposes to Put Them Under State Railroad Commission  
Salem, Ore., Feb. 4.—Agitation in Portland against the 5-cent fare automobile has resulted in Salem yesterday, when a bill was introduced in the Senate to place all auto busses under control of the State Railroad Commission, in common with trolley cars.

#### TWO MILLION READY FOR ALASKA ROAD

Washington, D. C., Feb. 4.—Alexander Pearson is here seeking a contract for the construction of the government Alaska railroad. The commission's report will go to Secretary Lane this week and will be passed on to the President and later to Congress. Secretary Lane has asked only two million dollars as an advance. He could get no more.

#### DOCTOR SHOT DEAD FOR ILLEGAL CONDUCT

(Special to The Daily News.)  
Augusta, Ga., Feb. 4.—Dr. A. B. Culberson was shot dead by a posse of citizens here today after a lengthy search for him. He was accused of attacking the daughter of a prominent citizen.

#### MENINGITIS DID NOT ORIGINATE AT VALCARTIER

Ottawa, Feb. 4.—The militia authorities here take issue with the statement reported to have been made in England by Sir William Osler that the epidemic of cerebro-spinal meningitis, which has been responsible for at least twenty-seven deaths among the Canadian troops at Salisbury, had its beginning in four cases among the troops before they left Valcartier. There were no cases of the disease at Valcartier, according to the best information available at the Militia Department, and the outbreak did not occur until after the troops arrived in England. It is further stated that there was an outbreak of the disease on Salisbury Plain a few years ago. Latest advices received here are that the epidemic has now been entirely checked, and no new cases are expected.

#### CRUISER KARLSRUHE HAS SUNK ELEVEN COMMERCIAL VESSELS

Berlin, Feb. 4.—The commander of a German warship reports that the German cruiser Karlsruhe during the past fortnight has sunk eleven commercial ships flying the flags of hostile belligerents.

#### FRENCH ARTILLERY KEEPS UP REPUTATION

(Special to The Daily News.)  
Paris, Feb. 4.—The official report states that there was a spirited artillery engagement north of Lens today.

A determined attack at Lens was driven back by the artillery, which also silenced the bombardment near Arras and Bethune.

German blockhouses were destroyed in an artillery engagement in the Aisne Valley yesterday and convoys were dispersed in the Valley of Seille.

#### CONSPIRATORS HAVE BEEN PUT TO DEATH

(Special to The Daily News.)  
Amsterdam, Feb. 4.—A Berlin dispatch says that the execution of the three conspirators in the assassination of Archduke Francis Ferdinand took place yesterday at the prison court of the fortress of Sarajevo, Bosnia.

#### ROCKEFELLER PHILANTHROPY As Seen by Official of the United Mine Workers.

In his testimony before the Federal Commission on Industrial Relations, John R. Lawson, member of the executive board for Colorado of the United Mine Workers of America, characterized the Rockefeller philanthropy as follows: "Health for China, refuge for birds, food for the Belgians, pensions for New York widows, university training for the elect—and never a thought or a dollar for thousands of men, women and children who starved in Colorado, for the widows robbed of husbands, children of their fathers. There are thousands of Mr. Rockefeller's employees in Colorado who wish to God they were in Belgium to be fed, or a bird to be tenderly cared for."

Prince Rupert is enjoying one of the finest winters on record. So far the thermometer has barely reached the freezing point and there hardly has been enough snow at any time to cover the ground. The average days is more like spring than winter. When one reads of temperatures running all the way from 35 to 50 below in the surrounding cities, one begins to realize what great advantages Prince Rupert has. Forget that thought of yours if you ever had it that would lead you to seek for fairer climes. They do not exist if you average the whole year and you will waste much good money if you try to investigate that it is the distance that makes fields afar look green. Start something in Prince Rupert, and let the growth of the city carry you to the top.

The report given yesterday of the Kaiser investing his millions in New York State bonds in anticipation of the loss of his throne is probably without very much foundation. It is doubtful whether the transfer of such a large sum of money could be arranged at present between Germany and the States. The British dogs of war are too active for the Kaiser to take such a long chance with his private fortune. Then if the Kaiser handles himself properly in the case of defeat there is no reason why he could not find a scapegoat who would carry his particular faults to the wilderness in so far as his own subjects are concerned, and with his power for evil destroyed the Allies are hardly likely to insist on his imprisonment. What the Kaiser will find hardest to get rid of will be his guilty conscience.

In a recent issue of the New York Herald there is a cartoon

entitled, "A Scrap of—Asbestos." It shows the German Chancellor trying to set fire to the "scrap of paper" on which the neutrality of Belgium was assured—but it will not burn. There is something tremendously tragic in the thought and the cartoonist has "scored a hit." It demonstrates again a well known law of life that you cannot outrage nature and escape the consequences. The "scraps of paper" that have been buried in the depths will not stay there. They return again to haunt the scenes of their former sufferings. Shakespeare had the idea when he represented Lady MacBeth with hands of blood that couldn't be washed. What an awful spectacle that must appear in the dreams of a man like the Kaiser or his war lords that have drenched this world again with innocent blood.

Periodically a discussion breaks out in the newspapers about the nature of the Biblical place of Torment. One school holds to the idea of a material Hell with all its concomitant horrors, forgetting too often that they have secured their ideas indirectly from John Milton instead of directly from the Old Book. Another school finds comfort in the fact that if there is a future punishment it is mental and not material. For anyone who can appreciate the mental state of a man who has outraged all the fundamental laws of nature there will be small comfort in this. The pains of the body are small matters compared to the pangs of the mind when despair has overwhelmed the last ray of hope. When the armies of the Kaiser have been routed he will be just such a man. His fate is too awful to contemplate.

An attempt is on foot to make it appear that the suggestions of politics in connection with the Hospital Board was intended to include every member of the Board. As a matter of fact, it was specifically provided that there were a few independent members on the Board but that the control was in the hands of men with well known political proclivities. It is to be regretted if His Honor Judge Young will take the charges to himself for nobody has ever suggested that he had dabbled in local politics. It is also to be regretted if in the exposure of the villainy of Tammany poli-

**NO PROTEST MADE, SAYS MR. BRYAN**  
**Denies That Any Government Is Exercised Over the Shipping Bill.**

Washington, D. C., Feb. 3.—Secretary Bryan has formally denied that any government has protested against the bill pending in Congress for the purchase of ships by the United States. Mr. Bryan issued this statement: "No nation has protested against the passage of the shipping bill and it is not likely that any nation will or would, as the bill does not necessarily raise any diplomatic questions.

"It is not proper for the State Department at this time to discuss the manner in which the authority conferred by the bill will or should be exercised. We assume that the authority conferred upon the President and those who will be associated with him in the matter will be exercised properly and with a due regard to the nation's welfare."

In administration spheres close to President Wilson it was reiterated that it is not the administration's intention to buy vessels under the shipping bill which will cause friction with the belligerents.

President Wilson and Secretary Bryan have taken the attitude that the administration could be trusted not to do anything to involve the United States in international trouble.

Friends of the President stated today that it could be taken for granted that no ships of belligerents would be bought unless a satisfactory arrangement were made.

Pat and his bride had come to London for a few days, and had taken their places, at the dinner table of an hotel, when a young man opposite took a stick of celery from the glass in the center of the table and began to eat it.

The bride looked at him a moment with disgust, and then nudged her husband, with the remark: "Pat, just look at that blackguard eating the bouquet."

About the only way to settle a dispute over a bill is to settle the bill.

**CANADIAN CONTINGENT WILL NOT BE SPLIT UP**

Salisbury Plain, Feb. 3.—I have never seen so many smiling faces in the Canadian Contingent as today. The weather, as though in sympathy with them, is bright, crisp, sunny and frosty. Everyone is happy. The Canadian Contingent will form a division in the British army. So far as it is possible its men will be kept together from first to last, even when ill and wounded. The British authorities have never intended destroying a valuable feature of the national strength by scattering the main force of the Canadians in different British divisions. Today the Canadians are an army division. Before the war is ended, the men believe they will form, with the fresh forces pouring from Canada, an entire army corps.

Much nonsense has been talked about illness among the troops until even high officials have received an idea that this is a camp of cripples. Sir George Terley, visiting the camp a few days ago, expressed amazement at the remarkable fitness of the boys. "I have seen many soldiers of many nations, but I have never seen a fighting army, huskier, heartier, better built physically, or in finer form than this," said he. Sickness at present is 3.4 per cent, but this sickness is of a minor character. There is, perhaps, 1.5 per cent of others, chronic grumblers, men who want more time for physical preparation, and others who, for one reason or another, are not ready for the fighting line. These are being kept in the base camp. Ninety-five per cent of the Canadians are magnificent soldiers, whose conduct under trying conditions, has been admirable; whose physique is perfect, and who will bring glory upon the Dominion.

A tremendous sifting process has been proceeding continuously since the contingent arrived here, and investigations have been made to remove any possible German potential spy. Practically every soldier's record has been minutely examined, and a few amazing discoveries made, which read more like fiction than fact. Thus one man proved to be the son of a German who had been charged with espionage in England, and another was regularly in touch with a German Jew in East London. Every suspect who has not been able to clear himself has either been returned to Canada or sent to the base camp. The commanding officers of the different regiments have been given wide discretion regarding the removal of any man from the ranks whom they consider unsuitable. This has led to a number of chronic grumblers remaining at home.

Practically the entire hospital staff will accompany the contingent. It is intended to use the base hospital for cases likely soon to recover or too bad to send home. Colonel Jones informs me they will have abundant orderlies, with the further men now sent from Canada. Tonight the camps are thrilling with excitement. There are rumors concerning a visit by the King and Lord Kitchener.

**THE ONLY WAY TO FINISH THE WAR**

An interesting letter has been sent home by Dr. P. W. James, of Croydon, who is serving as a lieutenant with the Seaforth's. He says:

"The only way to finish the war is to pour in crowds of men. Numbers must tell; that's the way to reach Berlin. Let no man run away with the idea that the German army is rotten. Their artillery is wonderful in its aim. The explosive that they use is not so good as our own, but honor where honor is due, and to see their batteries seeking and often finding our own is pure science. "Of their infantry, they are brave men, but what I have said from the beginning is that their discipline is that of fear, ours of respect, and the latter must always tell. Don't run away with the idea that because of this one Englishman is equal to two Germans—he isn't where war is concerned.

"We approach war sportingly; they approach it professionally. Let me give you a few examples. Every German soldier carries in his knapsack a stick of licorice, meant, of course, to check a cough when on outpost or sentry-go. Their equipment is aluminum-made; their waterproof sheet not only shelters from a rain on march or dew by night, but also makes a bivouac. Again, in wire entanglements, which often are put up in turnip fields, the posts supporting are painted green, like the leaves. Every trick, every artifice, and rightly, too. War is war, is the lesson that Englishmen have yet to learn."

Although a fool and his money may be easily separated they are hard to find!

Is silence golden? Then no woman is worth her weight in gold!

### DYSPEPTIC GET WELL

King "Fruit-a-tives" says Capt. Swan

Very miserable to those who suffer from Indigestion, Dyspepsia, Flatulency, and Biliousness. This is what I mean by "Fruit-a-tives" which help me to get quick relief from such trouble.

WELL, ONT., May 8th, 1913. I have a poor chance of living life when I cannot eat. I have what was wrong with me. My appetite and indigestion were cured by Constipation. I have used these for several years. For the last few years, I have taken "Fruit-a-tives" and have been pleased with the results. I have recommended them to my friends and they have helped me greatly. By the diet rules and taking "Fruit-a-tives" according to directions, I with Dyspepsia will get well.

### KENTUCKY GRAND JURY AFTER NIGHT RIDERS

Operations of Bands Terrorizing Residents to Be Investigated.

Greenville, Ky., Feb. 4.—Under instructions from Circuit Judge Rhea, the Muhlenberg County grand jury yesterday began investigating the operations of bands of night riders in this section.

Recently a white man was decoyed at night from his home near here and hanged to a tree. At various times men and women have been seized, stripped and flogged and on two occasions tenant houses in mining camps have been riddled with bullets.

The night riders originally harassed coal operations in western Kentucky who employed non-union labor. Later, for no known reason, the warfare was extended to farmers, business men and other individuals.

### GREATEST WHEAT CROP WILL BE THIS YEAR

E. A. JAMES, OF WINNIPEG LOOKS FOR NEW RECORD—SAYS WESTERN GROWERS WILL GET REMARKABLE RETURN FOR THEIR LABOR

Seven years of unexampled prosperity, at least, are ahead for Canada as a result of the great European war, says Mr. E. A. James, a former prominent C. P. R. official, who is now engaged in looking after his extensive private interests in the West. Mr. James' first visit to Vancouver was in 1885 when he arrived on the first train with Sir William Van Horne. With Sir William and two others he started to survey and plot the present townsite of Vancouver out of the bush surrounding the C. P. R. terminus.

"I could have bought the present Bank of Commerce site at the corner of Hastings and Granville for three hundred dollars, but I didn't. I did not have three hundred cents at that time. Van Horne bought lots from the C. P. R. station all the way up to where the Hotel Vancouver now stands and made quite a bit of money when he turned them over," said Mr. James as he reviewed the early days of the city. Though kept very busy in travelling to and fro across the continent, so that today he does not claim any particular home town, Mr. James has a great fondness for Vancouver. After nearly two weeks of balmy sunshine and mild Vancouver weather during his present stay, he did not like the prospect of the snow and frost and hard weather to be endured, as he left on Saturday evening for Eastern Canada and New York.

As an authority on conditions in the middle west, Mr. James' opinions on the wave of prosperity to come are worth quoting. "This year," he said, "we are going to witness the greatest wheat crop in the history of Canada. Not only will it bring high prices, but so far as it is possible to see ahead, it will be by far the greatest bulk crop we ever had. Following the outbreak of the war in which the countries which produce half the wheat crop of the whole world are engaged, the farmers of western Canada saw that it was going to be good business as well as good patriotism to plow every available acre and plant it with wheat. Farmers from the States saw the opportunity too and have flocked over the boundary in great numbers. New land has been broken in all the provinces and a report covering Alberta, Saskatchewan and Manitoba shows that 45 per cent. more land will be planted this year than last.

"The prospects for a big crop are splendid. The weather was mild till late and the farmers were able to keep plowing till Christmas. A deep frost has now struck the ground and this is a good thing, for the deep frost which goes into the ground, freezing up all moisture for a depth of seven or eight feet, ensures moisture through the hot, dry months, while the wheat is growing and ripening. With wheat today all the way from \$1.35 to \$1.55, the western farmer is going to make huge returns this year. It will take seven years for the militant countries to get settled and back to normal production again, and for the next seven years the western farmers will draw big returns from their wheat.

"This prosperity in the wheat district is going to help both the East and British Columbia. The development and wealth of the Prairie provinces will stimulate the market for lumber, fish and fruit from British Columbia, and for manufactures both from here and the East. I look this year to see a strong revival of industry throughout Canada as a result of the wheat crop."

A feature of western farming which Mr. James stated is having well deserved attention to it now

### TORONTO MAN'S HEROISM IN FRANCE

Toronto will read with interest of the gallantry of Private Watt, of the Royal Munster Fusiliers, who was in business in that town until the outbreak of war and who has now been invalided to England. On the River Aisne a French officer's horse bolted and ran away with him. It jumped into the river, and as the officer could not swim, he was in danger of drowning. He shouted for help, but on account of the heavy fire no one would go in for him, until Private Watt took his chance, dived into the river, and swam under water till he came to the officer and succeeded in bringing him out. He then thought it was just as well to save the horse, so he dived in again and brought the animal to the bank. But the horse was so full of bullets that it ultimately dropped dead.

### GETTING INTO THE TRENCHES

Mr. L. A. Perkins, of Lloyd's Bank, now serving with the London Rifle Brigade at the front, writes:

"Getting into the trenches, which is always done by night, is quite exciting; the Germans have a charming way of sending up rockets from time to time, which light up the whole place, and simultaneously set their machine guns going on everything in the way, or indulge in a regular volley of musketry. To get to the trenches one has to traverse about one hundred yards along a straight road commanded by one of their machine guns, and you would laugh if you could see us, when one of these rockets goes up, go down on our bellies like a shot, into mud and water, and wait until the light goes out. We then double for it, and generally get into the trenches safe and sound.

"There was at least one humorous incident in a very wet experience. Suddenly a more than usually bright rocket went up; down we went, officers and all, into the mud and water, only to find that the moon had appeared from behind the clouds, and for at least one minute was shining brightly. The titter of subdued laughter and polite curses was worth going quite a long way to hear."

Trouble never dodges an alley when it meets a man who is looking for it.

PRINCESS PATS DID EXCELLENT WORK

Kaiser's Men Within Forty Yards of Canadian Trenches at One Time.

Northern France, Jan. 30.—(By courier to London).—The Princess Patricia's helped furnish the Kaiser with his British birthday present of heavy German losses. There was stiff fighting on Wednesday and the Germans got within forty yards of the Canadians' trench, but no farther. A terrific volley and machine gun fire stopped them. More wounded, who came down today, tell the details of the recent fights. Private John Cooper, of London, who is in the hospital with a shrapnel shattered arm; Lees, of Calgary, shot through the hand, and Private Gowie, also from Alberta, are men who have been injured in the last fighting. They are all doing well, but there are two officers and about half a dozen men who have been killed since I sent the last estimate of losses.

Lees and Gowie are two of the best snipers in the regiment and had been located in a ruined farm house ahead of the main trenches. They helped celebrate the Kaisers' birthday by capturing twelve Germans who ventured too far forward through the frozen mud. They killed the snipers of the detachment without their location being found out and when the rather nervous remnant reached the burned cottage, out dashed the two Westerners and demanded their surrender and the trenches saw the amazing sight of the two bringing in their prisoners. They were complimented by the British officers.

Lieutenant Charles Price is one of the officers killed. He had taken one company into the trenches and was returning for another when a sniper shot him. At the hospital I am unable to trace who the officer was, but the men are positive he was a lieutenant. Sergeant Major Smith got a badly shattered arm, which he got in directing his company's fire when the Germans were within forty yards of the trench. There are several cases of sickness which have been sent down to the base hospital. Otherwise, to use the words of one wounded man I talked with, "we are all happy."

NAVIGABLE WATERS PROTECTION ACT.

R. S. C., Chapter 115.

The Imperial Oil Company hereby give notice that it has, under Section 7 of the above Act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of Titles, Prince Rupert Land Registration District at Prince Rupert, B. C., a description of the site and the plans of the wharf and approach proposed to be built in Prince Rupert Harbor, British Columbia, in front of Waterfront Block "G," according to registered plan of the township of the said City of Prince Rupert deposited in the aforesaid Land Registry Office as No. 923. AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the said Imperial Oil Company will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plans and for leave to construct the said wharf and approach.

Dated at Prince Rupert, B. C., this 2d day of February, A. D. 1915.

GENERAL ELECTION A FARCE OR FOLLY

(Continued From Page One.)

cause the war will almost certainly go on well into the autumn and for some time after actual hostilities cease objection to a general election may be as grave as now. No one can foretell what controversies the peace settlement may give rise to, though everybody hopes and believes that after such an appalling object lesson Europe may agree really to set its house in order without any paltering or bickering.

The Commons, for six weeks, will devote itself almost entirely to finance, other legislation being confined to war emergency measures.

Mr. Winston Churchill and Earl Kitchener are respectively expected to make statements concerning the naval and military position. There is every reason to expect, in regard to Lord Kitchener, that His Lordship will give a compact summary of what is already perfectly well known and will then straightway resume his seat. In spite of what some newspapers say, the average citizen is not disposed to get hot because he is told so little.

Questions to the Prime Minister and Home Secretary are likely, from the private members, concerning the alleged gradual return of the Germans to their old situations in London and elsewhere. At the beginning of the war, something like a clean sweep was made of all men of German birth, whether naturalized or not, but it is asserted that many of these are being taken quietly back and even Englishmen displaced to allow this. The London police, it is further said, have actually given such proceedings their active assistance. Hotel servants of alien extraction have been released from concentration camps in order to resume their ordinary work. Last night it was stated that the Home Office does not release those detained in concentration camps, such orders proceeding in every case from the War Office and then only when two British-born subjects will guarantee that the released persons are harmless and not likely to become destitute. The Home Office asserts that the number of Germans thus lately re-employed is less than one hundred.

DACIA DEPARTS FOR ROTTERDAM ON RUSH ORDER

(Continued From Page One.)

Arthur, Texas, following the outbreak of the European war.

Her new owners announced that the Dacia was bought with the intention of engaging in the cotton trade with Germany, but immediate opposition from the British government caused the destination of the vessel to be changed from Bremen to Rotterdam, a neutral port. The United States government asked the British government if safe conduct would be given the Dacia to carry one cargo of cotton to Rotterdam to help the cotton situation, the vessel then to return to the United States.

Contraband to British.

This proposal brought reply that the vessel itself must be considered contraband by the British, who have not recognized the legality of her transfer to American registry in time of war, but that every facility would be afforded to have the cotton reach its destination. It was said the cargo would be transferred to another steamer for shipment to Rotterdam if the Dacia was seized.

Seizure of the steamer is expected to result in prize court proceedings and diplomatic representations that may be far reaching in importance.

PRESBYTERIANS HOLD ANNUAL MEETING

Last evening at 6:30 sharp the members and adherents of the Presbyterian Church sat down to a sumptuous repast provided by the ladies of the church in the church hall. Everything supplied was of the very best and the ladies are to be congratulated on the elaborate spread provided.

Dinner being over, the business of the evening was taken up, which consisted of the annual meeting of the congregation. Reports were read from the Session, the Ladies' aid, the managers, and the other organizations of the church, showing the affairs of the congregation to be in an excellent shape. There was a considerable surplus for the year notwithstanding the hard times.

Two vacancies in the board of managers were filled by the election of J. H. Thompson and T. McClymont.

Votes of thanks were also passed to the various societies that had done their work so well during the year—especially the ladies.

The experiment of holding a supper in connection with the annual meeting proved to be such a success that it may be repeated in other years.

JAPAN ASKS CHINA FOR LARGE RIGHTS

Pekin, China, Feb. 4.—Certain political and territorial demands which Japan has made upon China following the Japanese occupation of Kiao-Chau, have become known in Peking, and their extent is disquieting to Chinese officials.

These demands, twenty-one in number, were communicated to the Chinese government January 23 by the Japanese minister here. They include: First, that China turn over to Japan all existing German and Austrian concessions; second, that China pledge herself not to give concessions in the future to any country except Japan; third, permission to build a special territorial railroad, and, fourth, mining privileges in Shan-Tung and Fukien provinces, in Manchuria, in eastern Mongolia and in the Yangtse Valley.

If these demands were granted it is felt in Peking that the result would be tantamount to turning over the above named as spheres of influence, to the detriment of the treaty rights of other nations. Up to the present time the Peking government has not replied to the Japanese note.
