PRICE FIVE CENTS

## RUSSIANS WIN GREAT VICTORY IN EAST PRUSSIA

### ENEMY LOSE THOUSANDS—GERMANY OFFERED PEACE TO FRANCE BEFORE BATTLE OF MARNE

#### MANY OFFERED PEACE TO FRANCE BEFORE MARNE BATTLE

WAS REPEATED AFTER BATTLE ON BETTER TERMS—FRENCH WAR MINISTER, WHO FAVORED PEACE, RESIGNED.

(Special to The Daily News.)  
Feb. 10.—The government that, before the battle of Marne, Germany offered demanding Madagascar, two French towns, and unity. After the Marne, offered to give us Alsace-Lorraine, except Strassburg, in exchange for a small strip of the north coast, and to acknowledge the annexation of Belgium by Germany.

The situation forced the resignation of War Minister Messimy, who favored the peace terms.

#### SPIRITED ARTILLERY ENGAGEMENT CONTINUES

(Special to The Daily News.)

Paris, Feb. 10.—The French official report states that there have been artillery engagements along the entire western front, particularly in the Champagne region and on the Aisne.

#### MINERS LOST IN NORTH SEA STORM

(Special to The Daily News.)  
Feb. 10.—Frederick reports the loss of a Zepherus days ago in a storm in the North Sea off the coast of the Netherlands. The crew was lost.

#### SPECIAL FEATURE AT MAJESTIC THEATRE

Tonight the Majestic Theatre will show the life story of Petrosino, the Italian-American detective, in three reels. In addition to this thrilling series there will be the latest war and world's news in pictures, concluding with the comedy, "A Victim of Competition." Don't miss this specially fine display at usual prices, 10 and 15 cents.

#### ARRIVALS ON PRINCE GEORGE THIS MORNING

The following were amongst the first-class passengers on the Prince George this morning: Mr. McMillan, Mr. Kerr, Miss Wilson, Mr. Evanson, Mr. McRoberts, Mrs. Houser, Miss Johnson, Miss DeLorme, Mr. Ambrose, Mrs. Ambrose, Mr. Tomlinson, Mr. McFayden, Mr. Ramsay, Mr. Jameson, Mr. Macdonald, Mr. Heaman, R. H. Cairns, Dr. Gilroy, Mr. Michaels, Mr. Dingwayl, Miss Vance, J. C. Kelly, Mr. Rayl, Mr. Strachan, J. Hammond, Mr. Elliott, Miss Brooks, Mr. Alma, Mrs. Murray and child, Mr. Hansard, Mr. Ruggles, Mr. Mathie, Dr. Whitehouse, Dr. Dixon, Mr. McEroy, Mr. Selyn, Mrs. Hubbard, Mrs. Svenska and Mr. Strombeck.

#### MAY REDUCE THE CITY HALL STAFF

It was moved by Alderman Beveridge and seconded by Alderman Maitland that a meeting of the Council as a committee of the whole be called to consider the reduction of the City Hall staff, which motion carried. It was later added that this meeting should consider whether or not the heads of each department should not have complete control of their help, etc. The meeting is called simply for discussion, and the formation of a policy to be submitted when the absent members of the Council return. The meeting is called for Thursday night.

#### PORTLAND MAKES BID FOR HOCKEY CHAMPIONSHIP

(Special to The Daily News.)

Portland, Ore., Feb. 10.—The Portland ice hockey team beat Victoria 3 to 2 in a fast game last night. Portland is only a half game behind Vancouver for the championship.

#### Prince Rupert Merchant May Have Solved The Fish Problem

After experimenting for two years, Mr. Arthur Spurr, of this city, has discovered a preservative which will keep fish perfectly fresh for weeks without freezing.

Several weeks ago Mr. Spurr consigned a quantity of spring salmon, in this new preparation, to Billingsgate Market, London, England.

Today, he received a cable stating that the salmon arrived in perfect condition and requesting "more of the same." Knowing the London market thoroughly, Mr. Spurr has long been satisfied that fresh, and not frozen, fish was the demand there, and today he feels satisfied that he has done something towards making Prince Rupert both famous and prosperous.

Mr. Spurr is to be congratulated on this most gratifying result of his enterprise, and it is up to Prince Rupert to see to it that a business with such prospects is located permanently here. Mr. Spurr has applied for patent rights in the United States, United Kingdom and Canada.

#### CAPTAIN CLAYTON'S BOYS ON PARADE

A Company, of the 68th Battalion, March to Wharf to Strains of Bagpipe.

Last evening an extra parade of A Company, 68th Battalion, was held, when advantage was taken of the excellent weather for a march out. Assembling at the Exhibition Building, the company, to the number of about sixty-five, under the command of Capt. W. B. Clayton, with Lieut. L. Bullock-Webster and Lieut. Van der Byl, marched through the streets in uniform to the G. T. P. wharf, where for about an hour they were drilled. Later, they marched up town again and were dismissed.

The men of the command made a fine showing. They have made wonderful progress in their drill and are a credit to the officers and to the city.

The company was headed by the Scottish bagpipes, which provided inspiring marching airs. In addition to this the Cadets turned out in force and marched at the head of the company from the building to the wharf.

Gen. Supt. Mehan, of the G. T. P., showed his appreciation of the spirit of the local regiment by clearing the wharf and having it fully lighted up for the company.

#### PRINCE RUPERT WILL SEND MORE SOLDIERS

Recruiting for the third contingent is expected to start shortly in Prince Rupert. Word has reached the local officials to this effect and the call for 100 recruits will likely be made in a few days. They will be drawn from the whole district as far east as Prince George.

In the meantime it is expected that the second contingent, in which the local corps at Victoria is included, will proceed at once to Europe, or perhaps to Egypt. They are expected to sail on Saturday.

#### ENEMY AUXILIARY CRUISER SUNK BY H. M. S. AUSTRALIA

Buenos Ayres, Feb. 9.—The Buenos Ayres newspapers announce that a German auxiliary cruiser, formerly of the Woermann Line, was sunk on January 7, off the Patagonian coast by the British cruiser Australia. She was taken to the Falkland Islands.

The many friends of "Bill" Lynch will be pleased to see him around again like his old self. He returned from California this morning.

ON H. M. S. TIGER.

Lieut. Theodore K. Elmsley, fourth lieutenant, commanding one of the gun turrets on H. M. S. Tiger, which was slightly damaged in the recent fight in the North Sea when the Bluecher was sunk.

#### REVENUES OF NATION FALL OFF BY MILLIONS

United States' Receipts for January Alone \$8,116,427 Less Than Expenses.

Washington, D. C., Feb. 10.—Revenue collected by the government in January failed by \$8,116,427 to meet the month's disbursements. Receipts usually are low at this time of the year, but in January, 1914, the excess of disbursements was only \$4,512,262.

Neither customs nor internal revenue brought in the expected returns. Customs receipts were \$16,558,193, compared with \$23,528,080 in January, 1914, and \$14,890,982 in December. Internal revenue receipts, including returns from the war tax were \$27,098,155, less by \$5,000,000 than in December, and only about \$2,500,000 more than in January, 1914. The estimate of government revenues for the fiscal year ending June 30 next, contemplated internal revenue receipts of \$32,500,000 per month. Officials are hopeful of an increase in the next few months.

The seven months of the fiscal year show an excess of disbursements over receipts of \$70,855,270, compared with a corresponding excess for the same period last year of \$17,867,609. At the close of the month the net balance in the treasury's general fund was \$57,020,589, and cash assets in the treasury totaled \$1,991,453,159.

The government lighthouse tender Quadra came in from Casey Bay this morning for supplies.

#### POWERFUL NEW EXPLOSIVE USED

"Champagne Bottle" Projectile Tears Hole Forty Feet Deep in the Ground.

Paris, Feb. 10.—An officer has just given some interesting details regarding a new and extremely powerful explosive the Germans have been employing.

"My battalion calls these missiles bottles of champagne," he said. "They are cylindrical and about as long as a champagne bottle. We suppose they are filled with liquid air or liquid carbonic acid.

"They are thrown from a distance of from 300 to 400 yards without any great initial velocity. You can follow the course of the projectile through the air and tell where it is going to drop. They are apparently thrown by mortars.

"When they fall and explode the effect is the equivalent to the discharge of from 110 to 132 pounds of melinite. The explosion of a single 'champagne bottle' makes a hole fifty feet wide and forty feet deep in ordinary ground.

"We conjecture that the liquefied air is in a glass receptacle with a thin metal casing. This probably makes it impossible to fire them with guns, the initial explosion of which would be capable of causing the explosion of the projectile in the bore of the gun. Therefore they are compelled to use mortars, which explains why they can only send the 'champagne bottles' a very short distance."

#### ROSS RIFLE FACTORY BOOKS LARGE ORDER

Quebec, Feb. 10.—The Ross rifle factory has contracted to furnish the Russian government with 3,000,000 rifles during the next two years. It will also supply Great Britain and Canada with 500 rifles per day simultaneously. The plant, which has already been doubled since the outbreak of war, will be doubled again before November, when it is expected that some five thousand men will be given employment. Representatives of the factory waited on the City Council, saying it was their intention to bring over some 1,200 expert hands from Europe, and Belgium in particular.

#### AN UNLIMITED AMOUNT VOTED FOR WAR PURPOSES

London, Feb. 10.—For the first time in 200 years the British government yesterday invited the House of Commons to give it a blank cheque for army purposes.

#### THE RUSSIANS GAIN GREAT VICTORY IN EAST PRUSSIA

GERMANS LOSE TENS OF THOUSANDS—WHOLE BATTALION ANNIHILATED—MANY PRISONERS TAKEN IN THE CARPATHIANS.

(Special to The Daily News.)  
Petrograd, Feb. 10.—The official report states that as a result of a battle along both wings in East Prussia, we annihilated a battalion and moved on Rypin with cavalry.

The enemy lost several tens of thousands of men in six days of hard fighting. In the Carpathians, the enemy retired, leaving many prisoners. In one day at Mount Lopkow we

took 69 officers, 5,200 men and 18 guns.

#### REPORTED EXECUTION OF BOER REBEL LEADER

(Special to The Daily News.)

Pretoria, S. A., Feb. 10.—Lieutenant-Colonel Maritz, the Boer rebel leader, is reported as having been executed by the Germans for treachery. There is no official confirmation.

#### ALL HOPE ABANDONED FOR ENTOMBED MINERS

(Special to The Daily News.)  
Nanaimo, V. I., Feb. 10.—All hope of rescuing the twenty-one miners entombed in the flooded South Wellington mine has been abandoned.

#### WHEAT FAMINE IN DUAL MONARCHY

Hungarian Government Requisitions Supplies—Forbids Export to Austria.

Rome, Feb. 10.—It is reported from Trieste that the Hungarian government has requisitioned wheat and other cereals held by farmers and merchants, who have been forbidden to export any to Austria. Even consignments already contracted and paid for by Austrian importers have been seized and will not be allowed to be delivered.

This measure has provoked widespread discontent and indignation in Vienna, where it is considered to be illegal, as all wheat available in the dual monarchy should be equally distributed through the Empire, lest a wheat famine should be averted in Hungary and hastened in Austria and other less privileged regions. The Poles are equally indignant against the Austrians and Germans, who are expelling Galician refugees from Vienna and Prague owing to the impossibility of feeding them.

The government has ordered the proportion of flour and rye used in bread making to be limited to 5 per cent. Rice, potatoes, oats and Indian corn are to replace wheat. This remedy, however, is insufficient to avert the inevitable wheat famine and the situation is aggravated owing to the necessity of feeding the German troops sent to defend Hungary.

#### MOTHER SEEKS HER SON.

The local police are in receipt of a letter from the mother of Harry Abley, in England, asking for information about her son. He was police constable at Port Essington about two years ago but left about that time for Australia, but from information received he never arrived there. Anyone knowing anything about him would confer a favor by notifying the chief of police.

#### TRADES AND LABOR COUNCIL MEETING

The regular meeting of the Trades and Labor Council was held in Carpenters' Hall last evening. A good attendance of delegates was present. President Nicol occupied the chair. The minutes of the previous regular and special meetings were read and adopted. The legislative committee was entrusted to forward to the proper authorities the names of eligible working men to act as provincial election commissioners.

An efficient system for the compilation of records of accidents and amount of compensation paid, together with other general information of value, was adopted by the council.

Public propaganda meetings dealing with matters of especial interest to all working men are to be conducted semi-monthly under the auspices of the council.

#### BOXING NOTES.

(Special to The Daily News.)

New York, Feb. 10.—Young Shugrue, the Jersey City lightweight, got a popular verdict over Freddie Welsh here last night in a no-decision match. Fight critics gave Shugrue eight out of ten rounds.

Vancouver, Feb. 10.—Joe Bayley shaded Harry Anderson, the former Northwest champion, in a four-round bout before the Hastings Athletic Club last night.

DAILY EDITION

Wednesday, Feb. 10, 1915.

**EDITORIALS**

Some men are born to greatness, others achieve it and still others have greatness thrust upon them. So said a wise man. Premier McBride belongs to the last class. He is a fair weather statesman. In the days of chivalry he would have been known as a "carpet knight." Thoughtful his political career he has been lulled to sleep by the flattery of those whom he has allowed to exploit the resources of this province. He never knew what it was to have to do anything strenuous. The country was too busy making money to even seriously question the weakness of his policy. As a result he has sprung up like one of those sickly plants that has never seen the light of day and when the province needs a man at the helm they find Sir Dick a lamentable failure.

Sir Richard cannot stand the criticism of his opponents. He almost cries like a child because the connection of the Attorney General with the Dominion Trust has been exposed. He doesn't deny the charges but his plea is, "Tell it not in Gath." In other words, it's not the wrong itself, but the exposure of it that he condemns. He is foolish enough to think that if the Liberal press had remained silent the outside financiers would not know about it and the credit of the government would be sustained. As a matter of fact, the connection of the government with the bad speculations of this province is better known in London than in British Columbia, and the only way to restore our credit is to turn out the "spoilers" and put clean men back in their place.

The weak wail of the Premier also tells another story. It reveals the fact that he knows the end is near. Men who are sure of victory do not wail with despair. They walk along with the strength of giants. Indeed, it is no wonder that the Premier feels the advance of his impending doom. From every quarter of the province come reports of dissatisfaction. The flow of money that was squandered in the past for the upkeep of the faithful is all gone and there is no more to come. The element of selfish interest now being removed, the people are looking to the welfare of their country and they are going to vote out a government that they know to be corrupt. If this

is accomplished the hard times that made the people think will not have come in vain.

Is it possible, therefore, that the government should appeal to the people under such trying circumstances? The first thought is to discredit it. They have still another session to their credit and would it not be wisdom to hold what they have. This would be good business, if they did not still have a vain hope of winning by a "fluke." With almost a unanimous House they may hope to save enough out of the wreck to preserve the government in power; but this is taking a long chance. Their chances, moreover, are continually getting worse. Every day they wait they lose. It seems almost certain, therefore, that they will shortly dissolve the House and make a sudden appeal to the country. Nothing would please the Liberals better and the quicker it comes the better.

Has the morning Journal changed its politics since 1911? Today it has a lengthy article on the increasing trade between the States and Canada, loudly proclaiming the mutual advantage of it. American money, too, it declares, is fast finding its way to Canada. Surely this must be treason on the part of The Journal, that took such a strong stand in 1911 on the campaign of "No truck or trade with the Yankees." It is hardly possible that, like such a large portion of the Canadian people, the truth has already broken through the shell of this esteemed contemporary. It may be the forebodings of better things to come.

**BERLIN ENRAGED BY SHIP BILL AMENDMENT**

Berlin, Feb. 9.—A news dispatch has been received here from Washington saying that President Wilson has consented to an amendment of the ship purchase bill, which provides that no vessel is to be bought by the United States if such purchase would lead to conflict with any one of the belligerent powers.

Nearly all the German newspapers criticize this course sharply. They virtually unite in calling it a backdown before Great Britain on the part of President Wilson. The Kreuz Zeitung says:

"This tender consideration for Great Britain is more remarkable inasmuch as it injures America herself."

**EIGHT INMATES OF HOME KILLED OFF BECAUSE OLD**

Appalling Story Told by Attendant at German Oddfellows' Institution.

Yonkers, N. Y., Feb. 9.—Investigation of Fred Mors' story that he put to death eight aged and infirm inmates of the German Oddfellows' Home here because they were too old and a nuisance, extended today to physicians who are said to have signed the death certificates in some cases.

Adam Bangert, superintendent of the home, and three porters are under arrest as material witnesses. Mors is in Bellevue Hospital, New York City, under the surveillance of alienists. The coroner said that three porters told him that when an inmate of the home died a certain mark was chalked on the door of the room in which the body lay and that a physician was supposed to see this mark and examine the body before issuing the death certificate. The porters said, according to the coroner, that in some instances the doors had been passed by and the death certificates made out, showing the cause of death to be apoplexy. According to the story told by Mors, when he walked into the district attorney's office in New York several days ago, five inmates were killed with an anaesthetic and three with other drugs.

**GOVERNOR IS HERE.**

The new governor has arrived—not the Lieutenant Governor, but the naughty one which has been kicking around between Berlin and Prince Rupert since the war started and which is required to complete the electric plant. The Cow Bay plant will be started up to take the load while this is being installed. As a matter of fact, the Cow Bay plant is used on Sundays as a rule to give the hydro-electric a rest or to enable the plant to be overhauled. A supply of coal is therefore still required for the old plant and tenders were opened last night for 100 tons, long measure, there being forty tons on hand now. The tenders submitted were as follows: Union Transfer, \$7.25; New Wellington Coal Co., \$7.19; Lindsay Cartage, \$7.20; Pacific Cartage, \$7.20.

Alderman Montgomery pointed out that the price of coal didn't always determine which was the best bargain, and that the electrical superintendent should be consulted. He moved, therefore, that the contracts be referred to the light committee and the superintendent with power to act. This was carried.

**GERMANY SENDS SUBMARINES TO ZEEBRUGGE BASE**

Amsterdam, Feb. 9.—Several German submarines have been sent to Zeebrugge from the naval base at Wilhelmshaven and Cuxhaven. It is assumed in Amsterdam that Zeebrugge will be the base of the naval operations which Germany will deliver against the transports carrying English troops across the Channel to France.

**EARL CHANGES TITLE.**

Earl of Aberdeen Decides to Add Temair Instead of Tara to His Title.

London, Feb. 9.—The Earl of Aberdeen, retiring Lord Lieutenant of Ireland, whose announced intention of assuming the new title of Marquis of Aberdeen and the Tara, provoked strong protest from Ireland, has reconsidered his decision in view of the criticism. It has been announced now that he will style himself the Marquis of Temair, a name which is anciently associated with the historic Hall of Tara.

**SIR GEO. PERLEY AT FRONT.**

Acting High Commissioner to Spend Few Days at British Headquarters on Continent.

Ottawa, Feb. 9.—Sir George Perley has left for France, according to a cable which has been received here. He will spend a few days at the headquarters of the British troops. He will make an inspection of the arrangements that have been made for the troops of the Canadian expeditionary force when they go to the front.

**TWENTY STEAMERS HELD FAST IN ICE**

No Chance of Releasing Lake Michigan Craft Until the Wind Shifts.

Chicago, Feb. 9.—Twenty steamers are fast in the ice along the western shore of Lake Michigan between Chicago and Milwaukee, according to reports received by officials of transportation lines, and there is no likelihood of releasing them until the wind changes. Low temperature and high northwesterly winds are held responsible for the fields of ice.

The steamer Alabama, of the Goodrich Line, has been fast in the ice nine miles northeast of this port for two days. There are no passengers on board and the steamer is in no danger.

Six steamers are held fast in Milwaukee harbor, including the Iowa, Georgia and Arizona, of the Goodrich Line, and the Racine and Kansas, of the Racine Line, and a Pere Marquette car ferry.

Several other vessels are marooned off Racine, Wis.

The difference between a working girl and a chorus girl is that a working girl makes up every morning and a chorus girl never takes her make-up off.

**WE'RE FROM CANADA.**  
Chorus of a new Canadian marching song which is "taking on" rapidly in Canadian cities where the second and third contingents are mobilizing and being trained for overseas service. It is British-Canadian through and through, the sentiment is patriotic and the air catchy. It was composed and set to music by Miss Irent Humble, of Toronto.
