AUSTRALIANS COMPLETE ROUNDUP OF THE PACIFIC

THE AUSTRILIANS LOSE HEAVILY IN DUKLA PASS—TONG TRAGEDY IN VANCOUVER CHINATOWN

ARTILLERY ACTIVE ALONG THE WHOLE WESTERN FRONT

AEROPLANES DRIVEN OFF FROM VERDUN—TWO GERMAN MINES BLOWN UP AT ARRAS—AUSTRILIANS ARE DRIVEN BACK AT DUKLA PASS.

(Special to The Daily News.)
Paris, Feb. 13.—There is a violent bombardment going on from sea to Lys, around Nieuport the country of the dunes. Our artillery has replied effectively. Artillery is active on both sides between the Oise and the Meuse.
German aeroplanes which dropped bombs on Verdun were driven off without damage done.
At Arras, we blew up two mines, and captured the enemy's outposts.
Austrilans Hard Pressed.
Strograd, Feb. 13.—In violent fighting in the Dukla

Pass, the Austrians lost 8,300 killed, and 4,000 were taken prisoners. The enemy was driven back to Seabor, where the conflict continues in the snow. The fighting has been resumed on the Donaja River and the Russians have advanced to Krosionko.
More Shipping Losses.
Havre, France, Feb. 13.—Shipping circles believe that the British steamer Oriole, which has been missing since January 30, has been sunk in the Channel by a submarine. A London trader was sunk on the same day, four survivors landing here today.

THE FINAL SCENE IN FALKLAND ISLANDS VICTORY.

This photo was made from the crow's nest of H. M. S. Invincible. The captain of the German flagship refused to surrender. The rescue boats are seen setting out from the big British dreadnought inflexible to pick up the survivors, who are seen swimming in the sea. The victors saved 160 lives.

AUSTRALIAN EXPEDITION COMPLETES ITS ROUND-UP

GERMAN POSSESSIONS THROUGHOUT THE PACIFIC HAVE BEEN TAKEN OVER AND OFFICIALS DEPORTED TO AUSTRALIA.

(Special to The Daily News.)
Sydney, Australia, Feb. 13.—The first Australian naval-military expedition has returned after capturing every German possession and depot in the Pacific, including New Guinea, Kaiser Wilhelmsland, Bismarck, Pelew, Ladrones, Caroline, Marshall, Bougainville and the Admiralty group of Islands. The German officials have been superseded and deported to Australia. Six killed and six wounded were the only casualties.

war. From the sinking of the Emden to this latest masterly piece of work everything seems to have been carried out in most businesslike fashion, and at little cost in lives on either side.

HOCKEY NOTES.

(Special to The Daily News.)

Vancouver, Feb. 13.—The Vancouver hockey team defeated Victoria by 6 goals to 4 last night, in the fastest game ever witnessed here. The victory gives Vancouver a clear lead of one game over Portland for the championship.

Australia has done wonders on her own initiative in the great

WAR IN VANCOUVER CHINATOWN

(Special to The Daily News.)
Vancouver, Feb. 13.—A fierce war in Chinatown here led to last night which resulted in the Chinese being killed and three wounded at 7 o'clock morning. In a second-story flat at 115 Pender Street East, a murderer, Chin Guck, attacked his victims in bed and then fled from the window to escape but injured his back so badly he blew his brains out. Chin was a "hatchet man" of the Tong.

HON. NEIL PRIMROSE SUCCEEDS F. D. ACLAND

London, Feb. 13.—Hon. Neil Primrose, son of the Earl of Rosebery, and member of Parliament for the Wisbech division of Cambridgeshire since 1910, has been named Parliamentary Under Secretary of Foreign Affairs. Mr. Primrose succeeds Francis Duke Acland, who becomes Financial Secretary of the Treasury.

Lord Rosebery's younger son is one of the coming young men in the House of Commons. He possesses much of his illustrious father's ability and attractiveness and seems destined for leadership.

INTERESTING PAPER AT DEBATING SOCIETY

A most interesting paper on "The Influence of Music on Character" was given by Mr. E. V. Ling at the Young Men's Progressive Debating Society on Thursday evening last. The salient feature of the address was a plea for more effort towards musical culture in both instrumental and song; the mere listening to good music was described as ephemeral, whereas, the most feeble effort, even though it be upon a mouth organ, really had more character building value in it.
Mr. Ling's paper was freely commented upon by the members but the matter having been treated broadly and upon general principles as affecting the masses, the gathering finally agreed to the views set forth by the opener of the discussion.

BAPTIST CHURCH.

Morning worship, 11 a. m.; subject, "Faith Rewarded." Evening worship will be at 7 in place of 7:30; subject, "Relative Goodness." Sunday School, 2:30.

The Horticultural Society meets on Thursday, February 18, at the City Hall, when the officers for the ensuing year will be elected. Mr. Tomlinson will lecture on "The Utilization of Vacant Lots." A large attendance is looked for.

AEROPLANE SUCCESSES—GERMANS ARE DAMAGED

(H. P. R. Private Wire.)

London, Feb. 13.—Thirty British naval aeroplanes raided German positions at Bruges, Zeebrugge, Ostend, and Blankenberg, yesterday. Considerable damage was done, and all pilots returned safely.

Graham White, the aviator, fell into the sea, but was rescued.

ANOTHER VICTIM TO GERMAN METHODS

Scarboro, Feb. 13.—The new cargo steamer Torquay, of Dartmouth, has been towed into Scarboro in a sinking condition. This was due to her either striking a mine or being torpedoed.

AN INTERESTING LEGAL POINT RAISED IN CALGARY

R. A. Collings, of Calgary, paid his taxes last fall with an accepted cheque for \$500 drawn on the Dominion Trust Company. The city treasurer took the cheque and issued a receipt to Mr. Collings. At that time the Dominion Trust was in good standing, and the cheque would have been cashed on presentation.

But in the rush at the city treasurer's office at that time, some time passed before the cheque was deposited. In the meantime the Dominion Trust Company had closed its doors, and the cheque could not be deposited.

City Treasurer Mercer sent the cheque back to Mr. Collings, and demanded his receipt and another remittance on the taxes. This Mr. Collings has not done. He maintains that the cheque was good at the time he drew it, and that the city should have collected the money.

It is a nice legal question whether or not an accepted cheque is the same as cash. It depends on the answer whether the city of Calgary is out \$500 or not.

When buying, buy Canadian made goods. See our window. WILLIAMS & McEELKIN.

FINDING OF WATERFRONT COMMITTEE OF BOARD OF TRADE

At the monthly meeting of the Board of Trade last night, the waterfront committee presented the following recommendations:

1. Applications be received by the Minister of Lands for the renting of waterfront government property, that it be put up to auction, the price quoted by applicant being the upset price, and that the successful bidder deposit with the government security for the carrying out of the conditions of the lease as to development, etc. It was pointed out that this was the only feasible way to keep this important question out of the hands of speculators.

2. That the government be asked to cancel any leases already in existence where the conditions made at the time of leasing have not been carried out.

3. That Block "B" be exchanged with the Grand Trunk Pacific Railway for a piece adjoining Block "K" on the north end extending to the center of Seal Cove. In as much as this addition to Block "K" would permit of the government furnishing industrial sites to all industries needing sites on the waterfront for some time to come.

4. That Block "D" be graded, and opened to applicants, and should sufficient applications be received that it have an inclined approach built to it.

5. That the northerly 100 feet of Block "K" be improved according to the plan submitted, or other suitable plans, and the space thus provided be rented to those industries engaged in dealing in fish or wishing to enter the business. The rentals from these industries, to provide funds for interest, depreciation, and sinking fund.

The committee strongly urges the importance of the waterfront lease questions in connection with the location of industries at Prince Rupert, and points out the detriment, the unsettled state of this question has been to the city of Prince Rupert.

Copies of the report are being sent to Colonel Thompson and the local member, Mr. Wm. Manson.

THANKSGIVING FOR CENTURY OF PEACE

Tomorrow is the day set apart by the peace committees of Canada and the United States as the day when thanksgiving shall be made in all churches for the hundred years of peace between Great Britain and the United States. In the Church of England in this city there will be a specially suitable service at 11 a. m., the whole service being in accordance with the idea of the day. The address will be given by Bishop Du Vernet, who can be trusted to do justice to this very special occasion.

All American citizens are cordially invited to attend.

ADMIRAL JELlicoe HONORED BY THE KING

London, Feb. 13.—King George has been pleased to bestow upon Admiral Sir John Jellicoe the Order of the Bath.

MUSICAL EVENING BY ST. PETER'S LADIES AID

A musical evening of an especially good order was given Thursday evening at the home of Mr. and Mrs. Thompson, Seal Cove, for the benefit of St. Peter's Church building fund. Members of the Ladies Aid, with the addition of friends, made a total of about forty guests, and all agreed that one of the best programmes ever arranged at this end of the town was given. Great willingness was displayed by all to contribute to the evening's enjoyment, so that without pause—except for the welcome refreshments—item succeeded item.

Among the ladies who sang were Mrs. Blanie, Mrs. and Miss Freeman, Mrs. Jedine, Mrs. Larter, and Mrs. Tattersall; and of the gentlemen, Messrs. Cox, Clayton, Cumming, Johnson, Freeman, Smith, and Thompson. Readings were given by Mrs. Klower, Mrs. Patterson, Mr. Jedine, and Rev. Mr. Larter. Pianoforte solos by Mr. Patterson and violin selections by Mrs. Freeman and Mr. Thompson. Mrs. Thompson (Sr.) was the accompanist of the evening.

PRINCE RUPERT ASKS FINANCIAL LEeway

Wants to Renew Treasury Certificates More Than Three Years If Necessary.

The terms upon which the renewal of treasury bills by municipalities may be made, occupied the attention of the municipal committee of the Legislature this morning, the matter coming before it on the request of the city of Prince Rupert for an amendment to the Municipal Act which would meet the special circumstances which have arisen there. Mayor Newton and Alderman Morrissey, chairman of the finance committee of the council, laid the position of that city plainly before the committee. The city has outstanding, and due in June, treasury certificates to the amount of \$1,366,000, and as a result of the war and the attitude of its bankers it finds itself obliged to take these up when the time comes. They are for three years, and have, of course, been approved by the lieutenant-governor-in-council.

In order to have what the council representatives described as an open door for negotiations in the endeavor to secure the necessary sum on treasury bills to take up the existing issue Prince Rupert desires to have section 96 of the Municipal Act amended so that the renewal of treasury certificates may be for a period not exceeding five years, and at any rate of interest which the municipality may be able to arrange. The act as it stands compels the redemption of treasury certificates within three years, and restricts the interest rate to an agreed rate not to exceed 6 per cent. For the protection of the ratepayers Prince Rupert proposes that the renewal should be subject to the approval of the Lieutenant Governor-in-council, just as with the original issue.

F. A. McDiarmid, representing the Union of B. C. Municipalities, objected to the approval of the Lieutenant Governor-in-council being made necessary, and pointed out that at times a council might be in a position where it had not time to secure this. He instanced the case of Victoria last December, when it was called upon, two days before they were

WAR OBNOXIOUS TO THE SOCIALISTS

Berlin, Feb. 13.—Speaking at the opening of the Prussian Diet, the President of the Chamber said the German troops had supported with unqualified bravery the winter campaign, protected the country against hostile encroachments and made progress.

The sacrifices, he added, were becoming heavier, and Germany still was a long way from securing her aims, but the greater the sacrifices the more fixed would be her determination to persevere until victory was secured.

Amsterdam, Feb. 13.—In submitting the budget to the Prussian Diet, August Lentze, the Minister of Finance, declared that economically Germany was able to cope with the war for a long time.

After Herr Lentze had spoken, Herr Hirsch, a Socialist deputy, created a scene by asserting that the Socialist party refused further to support the government, and demanded the termination of the war.

Dr. Karl Liebknecht, another Socialist, interrupted the speech of the Conservative member, Herr Heyderbrand, who was expatiating on the unity of the German people, declaring, "You have no right to speak in the name of the people."

This utterance caused a great commotion, and there were numerous cries of "shame," but quiet was soon restored.

The budget was sent to committee. due, to pay to the Bank of England treasury certificates amounting to \$500,000 which it had previously been assured would be taken care of when they became due. Through the exertions of Sir Fenning Williams, general

EDITORIALS

There is a feeling in a great many quarters that the present war, with its impoverishing effect, will make impossible the luxury of the last few decades. The standard of living as well as the cost has been going up for a great many years; but it is the misuse of wealth that is most to be condemned. Many people, even in matters of dress, do not seem to appreciate the difference between being "well dressed" and "over dressed." The amount of money that is annually wasted on needless and hideous adornment would almost be enough to pay the cost of the war. If the economy forced by the struggle will cause the sobering of the minds of the present generation it will to some extent compensate for the awful slaughter of human lives that is now taking place.

The worst aspect of this mad rush for display, however, is not the immediate effect, bad as that may be; it is the influence it has on future generations. The boy or girl who is brought up in a home where frivolity of dress is the chief topic of conversation cannot have the wholesome outlook upon life that would otherwise be possible. Carlyle's philosophy of clothes would lead one to indicate that it would give a very superficial point of view. His attention is diverted from what he is to what he appears to be. Perhaps, indeed, this is the reason why the world's great men are mostly recruited from among the sons of toil. Under their conditions men retain more of their normal characteristics. They become men instead of fops and when they go out into the world it does not require even the lantern of Diogenes to discover them.

Notwithstanding the fact that great men and great wom-

en are the ones who are closest to nature, it is surprising how many crave the artificial. When Robert Burns was introduced into society he became lionized, not because of his finished manners, but because he was a man fresh from the heart of nature and throbbing with her strength and tenderness. Great people all the world over are never "snobs." That is left for the little "ape" who in some sides of his nature has not evolved much further than his fallen antetype. True greatness never exists without being tempered with humility, although sometimes the sham gets a very good run for his money.

The Good Book says that, "To him that hath shall be given and from him that hath not shall be taken away even that which he seemeth to have." That may require a puzzling bit of interpretation under some circumstances, but if it is applied to the qualities of the mind there can be no dispute. Nature is not only just, but severe. If a man does not make use of the qualities of mind with which he is gifted they will soon become dwarfed and disappear. Nature will not stand for imitation. It will not do to pretend that you have such a sweet voice or gentle disposition unless that conviction comes from the depth of the soul. You cannot hide the secret from nature and soon it will be written on your countenance. The reverse is true, on the other hand, of the man or the woman who would seek elevation of character with an honest purpose. The very music of the spheres is working with the man or the woman who is genuine and in whose heart there is no room for hypocrisy or sham. "An honest man's the noblest work of God."

WAR GIVES CANADA NEW INDUSTRIES

Ontario Bed Company to Install a Plant and Manufacture Shells.

Ottawa, Feb. 13.—The tremendous importance of shell industry to Canadian manufacturers, and to the Dominion generally may be gathered from the fact that over 100 firms will shortly be working upon a big order for 18-pounder shrapnel for the Imperial government. This order, the value of which approximates thirty million dollars, calls for the turning out of several million shells, and not only will the steel companies, whose plants have been more or less running half time, be benefited, but nearly every manufacturing firm in the country can do something in the turning out of one or more of the parts required. This new industry, which has just sprung up within the past two months or so, is probably one of the most important which war conditions have engendered, and there appears to be scarcely any limit, while the war shall last, to the demands which will be made upon Canadian firms to turn out the products for the Allies' armies.

In fact, Great Britain and the Allies are finding out every day some new thing which the Dominion can supply, and it is expected that further new industries will find birth during the coming season to ensure a certain degree of prosperity at least to Canadian manufacturing, and to the country in general.

One of the latest firms to receive a contract for shells is the Canadian Bed Company, of Chesley, which will endeavor to find compensation for the decreased demand for its normal product by manufacturing 25,000 shrapnel shells, valued at least at \$100,000, and calling for the installation of \$12,000 worth of new plant. This is only an instance showing the wide range of firms which may embark in this enterprise. It is expected that later orders will be placed for the larger calibre projectile.

To such an extent does the industry promise to grow that the government, it is understood, contemplates the establishment of a shell testing and inspection plant in the Dominion.

The Atholl Highlanders, a force of men drawn from the Atholl country, and commanded by the Duke himself, is the only private regiment which still exists in Great Britain.

C. P. R. BRIDGE DYNAMITED BY GERMAN.

The bridge on the C. P. R. at Vanceboro, Maine, marks the boundary between Maine and Canada where the C. P. R. crosses. Werner Von Horn, a self-styled German officer, dynamited a section of the bridge recently. He claimed his act was a "political" one and therefore not extraditable. He is now serving sentence for damage to surrounding property caused by the explosion.

EMPRESS OF INDIA HAS BEEN TRANSFORMED

Victoria, Feb. 11.—With a red band painted around her hull and two red crosses on her funnels the Indian hospital ship Loyalty, formerly the Canadian Pacific liner Empress of India, is now running between Mombasa, British East Africa, and Bombay, India. This news was brought to Victoria yesterday by A. McIntosh and G. J. Trapp, who sailed from here on the white steamship last August and who remained with her until a month ago. They arrived in Victoria from Bombay on board the Nippon liner Aki Maru, which docked yesterday afternoon.

The former members of the Loyalty's crew say that the outward appearance of the crack ship has not been changed to any marked degree, but that it is difficult to recognize the interior. For nine weeks the vessel lay at Bombay while mechanics assailed her elaborate fittings with crow-bars, axes, hammers and other tools. The interior was completely gutted, and then the work of equipping her as a hospital ship started. Space was reserved for 450 swinging cots and 100 stationary berths. Operating and X-ray rooms were provided, and the ship carries one of the most complete sets of surgical instruments ever placed on board a hospital ship. Many European doctors and nurses are included in the ship's complement.

When McIntosh and Trapp left the Loyalty she was operating between Mombasa and Bombay, taking home to the Indian empire the brave native fighters who are too seriously wounded to return to the struggle between the British and German forces in Africa. There is a report that the ship will be sent to Marseilles at a later date to carry to India the men who have sustained serious wounds in the mighty conflict now raging in Flanders and Northern France.

The Loyalty was purchased from the C. P. R. by the Gaekwar of Baroda, one of the most prominent princes of the great Indian empire. Capt. Hailey, R. N. R., who was master of the vessel for about one year before she was taken over by the Gaekwar, is still in command of her, and most of her other officers are sailing on her.

NO MARKET NOW FOR SEAL SKINS AND OIL

Huntsmen Take Year's Holiday and Let the Supply Increase During Depression.

St. Johns, Nfld., Feb. 13.—Unless some plan can be devised within a month whereby the skins and oil of the hair seal can be utilized by the British government for war supplies there is a strong possibility that the seal hunt, which has been an important factor in the commerce of Newfoundland for many years, will be abandoned for the coming season. Because of industrial depression and the war, none of last year's catch of 372,000 skins in 1913 remains in the hands of brokers in London and New York. The war has prevented the transport of seal oil to Germany, formerly one of the principal markets for the commodity.

Some time ago negotiations were started which it was hoped would result in an arrangement for the British government to take over the entire catch for the coming spring, for use in making winter garments for soldiers. Word has been received, however, that the manufacturers of clothing for the army find the material unsuitable, and that no practicable method of using seal oil in connection with military operations has been found.

In addition, owners of the ten steel steamers ordinarily sent to the sealing grounds in March say that there is a brisk demand for the chartering of their vessels for transatlantic service. It is argued by many persons, who believe that restrictive measures are necessary to protect the seals, that present conditions present a favorable opportunity for omitting the hunt this year and thus permitting the animals to increase, probably by about half a million.

RUTHERGLEN ORE CREATING SENSATION

North Bay, Ont., Feb. 13.—Prospectors are still pouring in from the Rutherford region, returning to North Bay with marvelous samples of mineral ore in silver, gold, molybdenum, platinum and zinc. There is no doubt that Rutherford will be one of the biggest mining camps in this country, as the samples brought in by Mr. James T. Lindsay are creating a big sensation among people who understand minerals. It seems to be a refractory ore.

POSITIVE CURE FOR RHEUMATISM. Hundreds of People Have Found "Fruit-a-tives" Their Only Help.

READ THIS LETTER. Superintendent of Sunday School in Toronto Tells How He Cured Himself of Chronic Rheumatism After Suffering for Years.

For a long time, I have thought of you regarding what I term a remarkable cure effected by your "Fruit-a-tives". I suffered from rheumatism, especially in my hands and feet. I have taken "Fruit-a-tives" for 18 months now, and am able to tell you that I am cured. The enlargement has not left my hands and perhaps never will, but the pain is all gone and I can do any work. I have gained 35 pounds in weight.

R. A. WAUGH. Rheumatism is no longer the dreaded ailment it once was. Rheumatism is no longer one of the "incurable ailments". "Fruit-a-tives" has proved its power over Rheumatism, Sciatica, Lumbago—in fact, all such diseases which arise from derangement of stomach, bowels, and skin.

"Fruit-a-tives" is sold by all dealers in a box, 6 for \$2.50, trial size, or sent postpaid on receipt of \$1.00 by Fruit-a-tives Limited, Ottawa.

THOSE LITTLE BROWN IMPS FROM INDIA. Well might the Germans allude to the Gurkhas as "those little brown imps." Here is one of the many gallant exploits they have performed. The attention of the Germans in a certain trench was distracted by a British biplane which circled over them, and they filled the air with lead in the hopes of bringing the machine down. Then, while the majority of them were still gazing skywards, out crept the little brown men. The distance between the two lines was short, and before the sky-gazers had realized it a dusky wave of eel-like bodies was on them—on them, through them, and driving them out neatly and expeditiously. In a few moments the trenches were empty and the Gurkhas were happy again. It had been a good fight. As they say, all war is good, but this war is the best of all.

UTTERS PLEA FOR U. S. INDIVIDUALITY. Mrs. Thomas A. Edison, the wife of the great inventor, says in the Woman's Home Companion: "For a number of years, as I have visited some of our best houses and leaders of fashion, I have begged the designers to use their fine brains and great talent in creating an individual style for our women. "Now, if our women recognize this talent, the designers will do this, and we shall have in dress a national individuality equal to the greatness of our country in other lines. Why should we be mongrels, following first Paris, then London, Berlin, Vienna, etc., and not their best form at that, but allowing the big houses of those various cities to put on our backs the demi-monde type, we accepting it because it is imported? "For the past three or four years it has been impossible to go upon the streets without a shudder. Surely our designers can make for us stylish, more womanly costumes. Should we be willing to wear clothes which do not distinguish us from our most unfortunate sisters? "Let us demand of our manufacturers the finest of material and fabrics; let our women use the brain they are blessed with in aiding our designers and manufacturers. "The same is true in other vocations. Music and art of all descriptions is unpatronized unless a foreign label designates it. A singer must have come from abroad, in fact, must change his name for plain American Richard to Riccardo, the imported name, before he is recognized as a singer. "Mr. Edison, in his search for voices for his phonograph, has made trial records of more than three thousand singers in nearly every city in Europe and almost an equal number of trials in America. He finds that as a rule the European voice is afflicted with a very disagreeable tremolo, variable timbre and poor interpretation—whereas the American voice is far more frequently free of tremolo, has a fairly even timbre, and as to interpretation the Americans can surpass the European singers. But notwithstanding that fact the Americans demand the foreign talent. "When are we to form our own opinions and be independent enough to stand for our own expression? At one time it may have been necessary to gain knowledge abroad, but not so now. We have learned, and have great people in our midst; should we not now pause and enjoy that which we have? "Do we not show ourselves an advanced nation when we compare our methods in war with those of the present terrible condition in Europe?"

PROHIBITIONS HELP TO WEAKEN GERMANY. British Government Keeping Oil-Bearing Products From German Factories. London, Feb. 12.—Gradually the economic phases of the great war are becoming more apparent in Great Britain. The military activities, which monopolized attention at the opening of the struggle, are now overshadowed at times by the blockade of the North Sea and the strict measures the navy is enforcing against German commerce and trade with the neutrals adjoining Germany, which have hitherto been supplying foodstuffs to Germany and Austria. From time to time the contraband list has lengthened as it became possible for British officials to make a more thorough study of the needs of their adversaries and the probable source of supplies. Every week the government is also increasing the list of articles whose exportation from the British Isles is prohibited. Immediately after the exportation of copra had been forbidden, the price fell appreciably in England, as little of the material is consumed here. The Germans extract an oil from the cocoon which is used as the basis for oleomargarine. It is known that within a few days additional lists of oil-bearing products will be given a place with copra on the prohibited lists of Great Britain. Peanuts, palm nuts, sesame seeds, lard and several other products which Germany uses extensively in making artificial butter and cooking fat, are to be barred from exportation. In the colder portions of Germany imitation butters are in great demand while the troops use large quantities of oleomargarine and other substitutes for butter.

TO A RECRUIT. Now is your time of trial, now When into the dusk the glamor pales And the first glow of passion fails That lit your eyes and flushed your brow In that great moment when you made your vow. The Vision fades; you scarce recall The sudden swelling of the heart, The swift resolve to have your part In this noblest quest of all By which our word is given to stand or fall. Your mother's pride; your comrades' praise— All that romance that seemed so fair Grows dim, and you are left to bear The prose of duty's sombre ways The labor of the long, unlovely days. Yet here's the test to prove you kin With those to whom we trust our fate; Sober and steadfast, clean and straight, In that stern school of discipline Hardened to war against the foe within. But only so, in England's sight, By that ordeal's searching flame Found worthy of your father's fame With all your spirit's armor bright Can you go forth in her dear cause to fight. —Sir Owen Seaman in Punch. FATHER'S SACRIFICE VAIN. London, Ont., Feb. 13.—Transfusion of blood from the body of Rev. D. C. McGregor, pastor of St. Andrew's Church, this city, and formerly of Toronto, into the veins of his 10-day-old son, failed to save the life of the child, which was suffering from blood defecation. Mrs. McGregor is Marion Keith, the well known Canadian authoress.

In the Letter Box

Editor, The Daily News:

Sir—In your report of the proceedings at the City Council meeting on Thursday night, you report me as having used the word "connived" in such a way as to infer that I was casting some reflection on the character of Alderman Montgomery and on that of the light superintendent.

My statement was not in any sense an attempt to show that these gentlemen had acted dishonorably, but that the purchase of so much wire looked like a bad business proposition.

Thanking you, I am Yours faithfully, WM. BEVERIDGE, Prince Rupert, Feb. 12, 1915.

PRINCE RUPERT ASKS FINANCIAL LEEWAY

(Continued From Page One.)

manager of the Bank of Montreal, and the managers of the Royal, B. N. A., and Commerce Banks, the governor of the Bank of England was prevailed upon to renew certificates for \$400,000, and the four banks each lent the city \$25,000 to pay off the rest. In that case the matter was all arranged by cable, and there would have been no time to secure the approval of the executive: That would not be any safeguard, as the Prince Rupert men suggested, in any case, as the Lieutenant Governor-in-council, having approved the original issue, would not withhold approval of any renewal.

Alderman Morrissey considered that it would be a safeguard for the people, as it would make the council seek to secure the best terms it could, knowing that the government, for the protection of the provincial credit, would not consent to any sacrifice by too long a term or by too high a rate of interest or discount.

Robert Baird, the inspector of municipalities, agreed that Prince Rupert was in a position where it must get some consideration, and the department was willing, but it desired that the term of renewal should not be more than three years. The only way Prince Rupert could get over the situation in which it was placed was either by renewal of the certificates, which was impossible, according to the representatives of the city, by the sale of fifty-year bonds, which was impracticable now, or by the issue of new certificates.

On the motion of Frank J. Mackenzie the committee unanimously endorsed the application and asked the inspector of municipalities to draft a section to cover the case.—Victoria Times, Feb. 9.

HUNDRED AND TWENTY-FIVE MEN TO BE RECRUITED HERE

CAPTAIN CLAYTON IS EXPECTED TO COMMAND THE LOCAL COMPANY—EXPECTED TO JOIN THIRD CONTINGENT AT VICTORIA IN TWO WEEKS.

Instructions have been received by Major McMullin, commanding the 68th Regiment, the local corps, to enlist 125 men for service overseas as part of the third contingent. It is expected the local contingent will go out under the command of Captain W. B. Clayton, the senior officer of the regiment volunteering for service abroad.

The contingent to be raised will be composed of 125 men, to be recruited here and as far east as Prince George. Major McMullin is now considering the number to be allotted to each place along the line of the G. T. P. There will be three commissioned officers from here. Under the new system the number of men and officers from Prince Rupert will comprise a half battalion.

In order to ascertain just how many are available here, Major McMullin has ordered a parade this afternoon at 2:30 at the Exhibition Building of all local militia members who wish to volunteer for service. The parade will be in civilian clothes. Those so volunteering will be inspected by Dr. Tremayne, the officer charged with the duty of examining the local applicants. All who wish to join in Prince Rupert should be present this afternoon to hand in their names.

HAZELTON NOTES

C. Gibbs, of Victoria, is here on a business visit.

Miss Irwin, of Prince Rupert, is visiting Mrs. R. E. Allen.

Gus Olson and Jim Bates came in from Omineca this week.

Miss Kate Carr, of Smithers, is spending a few days in town.

J. C. K. Sealey left for his ranch in the Bulkley last Wednesday.

Born, to Mr. and Mrs. Hugh Taylor, at the Hazelton Hospital, a son.

C. P. Richardson, of Kitselas, was a business visitor in town this week.

Frank Jackson is out of the hospital, and will leave for the Coast tomorrow.

Constable C. F. Evans, of Fort Fraser, spent the first part of the week in Hazelton.

W. N. Jenkins, who has spent several months in Groundhog, left for the Coast Thursday.

The Hazelton second team played at New Hazelton Tuesday night, winning from the latter team by 7 to 2.

A dance held after the hockey game Thursday night was well attended. Those present had an enjoyable time.

A. N. McDonald and W. Watson are now in Atlin, having made the trip from Hazelton, via Carcross, Y. T., in seven days.

While watching the hockey game on Thursday night, J. D. McDougall had the misfortune to fall on the ice, breaking his collar bone.

The special train carrying the Smithers hockey team ran into a handcar on Thursday, near Porphyry Creek. A section foreman on the car had several fingers cut off. He was brought to the hospital on the train.

Billy Reid, who has spent the last six months at the Coronado group on Hudson Bay Mountain, is in town for a few days and reports some splendid showings. Two shifts are working steadily on development work, and three carloads of ore are alongside the track ready for shipment.—Omineca Miner.

At Prince George inspection of the volunteers will be made by Dr. Richardson, of that city. There are reported to be a good number of men available there, and many have already been drilled for service. There are a number at different points along the line of the G. T. P. between here and Prince George. It is the expectation that the members who pass the medical inspection will leave here in about two weeks for the South to train. They will form a part of the regiment under Colonel Holmes and will get their preliminary training in Victoria. It is anticipated that there will be no difficulty in securing sufficient men to fill the half company in a very short time.

ENJOYABLE PARTY— I. O. D. E. ENTERTAIN

A most enjoyable bridge party was given by the Queen Mary Chapter of the Imperial Order of the Daughters of the Empire. Mr. and Mrs. Mobley very kindly lent their charming and most comfortable home for the occasion, and with Mrs. P. I. Palmer, the convenor, received the guests. All the Daughters of the Queen Mary Chapter were invited, together with a gentleman friend, husband, brother, or fiancé. About one hundred people were present, and the large and spacious rooms set off to perfection some of the very handsome gowns that were worn. The tally cards and supper cloth, decorated with crimson hearts and winged cupids, reminded one that St. Valentine's Anniversary is close at hand and that Cupid's quiver will have many opportunities of demonstrating the blind boy's marksmanship during the coming season.

LAND NOTICES

Skeena Land District—District of Coast, Range Five.

TAKE NOTICE that William Watson, of Remo, B. C., occupation Contractor, intends to apply for permission to lease the following described lands:—Commencing at a post planted on the northerly limit of the Right-of-Way of the Grand Trunk Pacific Railway Company, and about 35 chains southwesterly from Mile 84, east from Prince Rupert, B. C.; thence north 20 chains; thence west 30 chains; thence south 46 chains, more or less, to the northerly limit of the Right-of-Way of the Grand Trunk Pacific Railway Company; thence northeasterly along the northerly limit of the said Right-of-Way to point of commencement; and containing about 80 acres, more or less.

WILLIAM WATSON, Dated December 26, 1914. 25-85

NAVIGABLE WATERS PROTECTION ACT.

R. S. C., Chapter 115.

The Imperial Oil Company hereby give notice that it has, under Section 7 of the above Act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Prince Rupert Land Registration District at Prince Rupert, B. C., a description of the site and the plans of the wharf and approach proposed to be built in Prince Rupert Harbor, British Columbia, in front of Waterfront Block "G," according to registered plan of the townsite of the said City of Prince Rupert deposited in the aforesaid Land Registry Office as No. 923.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the said Imperial Oil Company will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plans and for leave to construct the said wharf and approach.

Dated at Prince Rupert, B. C., this 29th day of February, A. D. 1915.
