Good Food For Thought

We again reproduce some facts connected with Provincial expenditures taken from the public accounts. Our morning friend doesn't like the people to guess that there is a Reptile Fund where the largest proportion of the money goes. This is the explanation The Journal has for the expenditure:

'In a reception expenditure of the kind referred to is it not a fact that the great bulk of the money so spent goes into the hands of workers in various lines?"

According to that view the poor workingmen got the \$10,-000 that went for "furnishings for the occasion." Whose furniture store got that and what happened the goods after the reception. They were still as good as ever. David Spencer got \$2,662 for rent of carpets. Doesn't everybody know that that amount would more than buy all the carpets required for the occasion. But why charge all of this amount to the Provincial treasury? Why didn't Victoria City chip in, as all other cities in the province had to? Read the following over again and figure out if all this money was required for a public reception and then ask yourself if this government is fit to handle your hard earned money:

Illuminating the Parliament Buildings	. \$11,712
Furnishings for the occcasion	. 10,982
B. C. Electric, for illumination and lamps	. 1,408
Automobile hire	. 1,301
Hire of house plants	. 220
D. Spencer, rent of carpets	. 2,662
Setting up and overhauling billiard tables	. 1,212
Refreshments for our guests	. 4,586
Refreshments for employees (no wine for them)	31
B. C. Horse for escort	. 1,000

The Journal evidently thinks it's all right to waste money so long as it is done in the name of patriotism or flag waving. The Governor General himself would be the first to condemn this wasteful use of public money if he knew it. Nobody can convince an unbiased mind that the most of this money did not go into the Reptile Fund.

PROPOSAL TO CONTROL ALL EXPORTS OF FOOD

Ottawa, Feb. 19. - Mr. W. F. Cockshutt, of Brantford, has IN THE FRENCH CAPITAL given notice of a resolution providing for government control over all food exports. His resolution is as follows:

DAILY EDITION

EDITORIA

A few days ago Canada and the United States celebrated the centenary of a hundred years of peace. Historically, this may be all right, but as far as the people of this generation are concerned, it seems almost superfluous. Apart from a small coetrie in the States that has little influence there is not anybody in either country who expects that there ever will be anything but peace between these two countries. The United States has all the territory they want for national expression and, indeed, some of the possessions they do hold they would lkie to get rid of. If there was any desire on their part for further expansion, the present state of affairs in Mexico furnishes an excellent excuse to secure a country. When they refuse to take over a rich country that is being torn to shreds by war, an action that would meet with the approval of the civilized world, there is little danger of them having an eye on Canada, which is united and progressive.

Once in a while some mischievous idiot arises to say that the friendship of Japan for Britain is founded on the MAID SERVANT SHOOTS hope that she will have Britain for an ally "when she fights the States." Such a state of hand, with Japan is purely de- had run away from him.

than was Italy with the Triple Alliance. Britain will never CONCERT IS HEARD fight the States unless it is for defence, and even this seems New York Music Entertains Mayor impossible; and anybody who is given to making such unwarranted statements should be immediately brought to task. Let us talk peace and not war,

The threat of Germany to sink by submarines all merchantmen found in British waters, surely is like the last resort of a desperate man. It is such a flagrant violation of the law of nations that none would think of attempting it unless it was planned for a final grandstand play. It is an admission that Germany feels that her grand army has already been defeated and that she has not a chance in a thousand to win. Coming as it does, just before the final charge of the new allied armies, it will only have the effect of speeding the end, if, indeed, proposals of peace do not follow their unsuccess. ful raid. . Germany has shot her bolt; and all her little sideshows are nothing but a waste of energy.

IMPARTIAL

INDEPENDENT

INTELLIGENT

for Prince Rupert and Northern B.C. The Daily News goes into nearly every home in

Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate opti-

mism and reliability. The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.
