BRITISH COASTERS SUNK BY GERMAN SUBMARINES—AUSTRIANS ATTACK ITALIAN FISH BOATS

AUSTRIAN DESTROYERS HAVE ATTACKED ITALIAN FISHERMEN

FISHING BOATS FLYING THE ITALIAN FLAG WERE ATTACKED BY DESTROYERS AND AEROPLANES—POPULAR INDIGNATION AROUSED.

(Special to The Daily News.)
Rome, Feb. 22.—Italy is un-
derstandably drifting toward war.
The sentiment of the people in
Italy of the Allies has all along
been very strong, but popular in-
dignation was aroused yesterday
by the attack of Austrian destroy-

ers on Italian fishing boats. The
boats were flying the Italian flag
and were proceeding on a voyage
from Antavari to Bari when they
were attacked. Besides the at-
tack from destroyers, aeroplanes
dropped bombs on them. None of
the shells hit the boats.

INDIANS AND WHITES HAVE PITCHED BATTLE

(Special to The Daily News.)

Denver, Col., Feb. 22.—Bands of
Indians and whites engaged in
an all-night battle near here
last night. Two Indians and one
white were killed and several
wounded. It started on Sunday
morning when the sheriff's posse
of twenty-six men from Cortez
attempted to arrest Piute Chief
Negat on a charge of murder.
The two Indians started the
fight, with both sides since heavily
armed.

NEWFOUNDLANDERS ARRIVE.

Contingent Reaches Liverpool and Will Proceed to Scotland.

Johns, Nfld., Feb. 22.—News
received yesterday that New-
foundland's second contingent,
numbering 250 men, had arrived
at Liverpool. They will proceed
to Fort George, Inverness,
Scotland, where the first contin-
ent is being trained.

The second contingent boarded
the British steamer Dominion off
Liverpool, February 5, the Domin-
ion stopping for the purpose on
its voyage from Philadelphia to
Liverpool.

GENERAL RETIRES GENERALS.

Paris, Feb. 22.—General Jof-
fre, the French commander-in-
chief, continues to carry out his
policy of weeding out
officers in the high ranks of the
army in favor of younger and
more active men. Saturday's ap-
pointment list, made public by
General Joffre, contains the
names of nine generals of divi-
sions who have been placed on
the reserve list and succeeded by men
promoted to brigadier general-
ships.

PAARDEBURG DAY.

Saturday, February 27, at 3
p. m., under the auspices of the
P. D. E., a lecture will be de-
livered by Rev. H. R. Grant on
"The New Patriotism." It will be
held in the Roman Catholic Hall,
which has been kindly lent for the
occasion. Tea will be served. Ad-
mission 25 cents. All are cordially
invited.

TAYLOR WILL RUN.

Vancouver, Feb. 22.—L. D. Tay-
lor will again be a candidate for
mayor in Vancouver. His prop-
erty qualifications were corrected
on December 31, so that he is
eligible to run. There is a move-
ment on foot to have him elected
with acclamation and no oppo-
sition has yet developed.

GERMANY MAY SEND FIVE MILLION MEN TO NEUTRAL LANDS

Copenhagen, Feb. 22. (via Lon-
don)—The report is in circula-
tion here that, owing to the ne-
cessity to restrict food consump-
tion, the German government in-
tends ordering five million Ger-
mans who possess independent
incomes who are ineligible for
military service to leave Germany
for neutral countries and remain
there until the war is over.

It is planned, according to the
report, that three million of these
people will go to the Scandinavian
countries, one million to Holland
and one million to Switzerland.

QUALIFICATIONS CHANGED.

Private Bills Committee Inserts Section in Vancouver Charter.

Victoria, Feb. 22.—At Wednes-
day's session of the Private Bills
Committee of the Legislature the
committee inserted two sections
in the Vancouver City Bill relat-
ing to the qualifications of can-
didates for civic office. City
Counsel J. G. Hay and City Solic-
itor Jones protested, and an op-
portunity will be given them
later to present their arguments
again. One clause provides for
the qualification being in exist-
ence for six months prior to
nomination day, instead of thirty
days, as hitherto. The other
clause deals with the certificates
which a candidate must present
to the returning officer, covering
property on which he proposes to
qualify. This is designed to clear
up any obscurity or conflict be-
tween existing sections of the
charter.

ALLEGED LAND FRAUD ACTIVITY IS DISCLOSED

Vancouver, Feb. 22.—Another
alleged land fraud has come to
light and resulted in the arrest of
Provincial Chief Constable Smith,
Chief of Detectives Green and
Constable Blair, of W. J. Taylor,
J. E. Lewis and H. H. Hartman on
charges of fraud, the three being
on Thursday remanded with bail
fixed at \$3,000.

They are alleged to have been
engaged in selling tracts of Ore-
gon land, and the police are in
possession of information to the
effect that a number of people
who paid \$250 each to the de-
fendants in June of last year have
been unable to get title or satis-
factory papers in regard to the
transactions.

CAN'T STOP THE TIDE

Speaking at the over-
crowded meeting at Van-
couver a few nights ago,
Mr. M. A. Macdonald,
one of the party leaders,
had the following to say,
which is also true of
Prince Rupert and North-
ern British Columbia:
"This splendid demon-
stration tonight seems to
indicate that so far as
Vancouver is concerned
the days of the McBride
government are number-
ed; that a solid Liberal
contingent will be sent to
Victoria from this city
after the next election, and
I believe that as Vancou-
ver goes, so will the whole
province. The feeling of
lost confidence in the Mc-
Bride government is be-
coming more pronounced
day by day. No hall the
Liberal party can secure
will accommodate those
who wish to attend. It is
the indication of that ris-
ing tide of sentiment, slow
to start but irresistible
when once aroused, and
no machine organization,
however well oiled by the
use of public funds, can
withstand it."

ADVANCES PROTESTED BY AUDITOR GENERAL

Advances of Ten Million Dollars To C. N. R. and Six Millions To G. T. P. Protested

Ottawa, Feb. 20.—The report
of the auditor-general, Mr. J. A.
R. Fraser, which was laid on the
table of the House this afternoon,
contained a protest by him
against advances of ten million
dollars to the Canadian Northern
Railway, and six million dollars
to the Grand Trunk Pacific, in the
form of Dominion note issues.
This is apparently part of the
over-issue of Dominion notes in
regard to which there has been
considerable discussion in the
press recently. The amounts
were secured by pledge of part of
the securities of the railways
guaranteed a year ago by Parlia-
ment. The issues of notes was
placed to the credit of the Min-
ister of Finance in two chartered
banks and advances made out of
these accounts. The protest of
the auditor-general is based on
the fact that in neither case was
the action authorized by Parlia-
ment. He therefore declined to
sign the certificates. The corre-
spondence does not go farther but
presumably the protest was over-
ruled by the treasury board.

The auditor-general also ob-
jects to the charging of \$24,620
for the expenses of the Minister
of Militia and a number of officers
to the British maneuvers in 1913
to annual military drill.

In this he was upheld and the
amount was covered by a supple-
mentary estimate.

NETHERLANDS CAPITAL IS SAFE IN CANADA

Financiers There Are Drawing Attention to Opportunities in This Country.

Ottawa, Feb. 22.—Canada as a
field for the investment of foreign
capital even in times of European
war is being favorably advertised
by financiers in the Netherlands.
A report received by the Depart-
ment of Trade and Commerce
from Canadian Trade Commis-
sioner John T. Lithgow, of Rot-
terdam, quotes a circular recently
issued there by a leading financial
house. It says in part:
"The considerably larger yields
of agricultural and forest prod-
ucts will greatly favor the posi-
tion of Canada, as the working
classes in Europe are largely pre-
vented from producing, and there-
fore larger quantities must be
purchased from America. The
prices of the foodstuffs of Cana-
da have already substantially
advanced, and will continue to ad-
vance when the rates of exchange
and transatlantic navigation have
recovered. A large increase in
the national wealth of Canada will
result from this. Without any
more cost or trouble Canada will
be able to obtain considerably
larger riches from her natural re-
sources than she has ever done
before or could do in a number of
years under normal circum-
stances.

"We wish to bring the above
under the notice of the money in-
vesting people in order to show
that the capital invested by us in
a country such as Canada is safe
even in times of European war."

LIBERAL PARTY SURE TO SOLVE MANY PROBLEMS

"I stand here to assure
you that when the Liberal
party is elected to power in
this province these prob-
lems will be honestly dealt
with and, what is more to
the point, they will be
solved.
"These problems must
be solved by somebody if
we are ever to have a re-
turn of prosperity to this
province. You must trust
somebody to solve them.
"Whom are you going to
trust?"—Mr. H. C. Brew-
ster, leader of the Lib-
eral party in British Co-
lumbia.

The McBride govern-
ment is building a fancy
park, called Stratheona
Park, for the millionaires
of the South and while it
is still unfinished it has
cost the province already
\$234,215. They tell us
they have no money to fin-
ish the road around Kaien
Island. No wonder.
In 1903 the Attorney
General's department cost
the province \$128,945.
Last year the cost was
\$804,960. W. J. Bowser
seems to be an expensive
luxury.
In 1903 the salaries of
the government officials
amounted to \$260,000.
Last year the total was
\$1,329,707. The popula-
tion of British Columbia
has not increased very
much in that time except
that of our largest cities.
What do you think hap-
pened to all that money?
Is it any wonder the prov-
ince is hard up? Surely,
it's time for a change.

March 5. Dr. Herridge is one of
the leading pulpit orators of
Canada and beside that has a big

address a meeting in the Presby-
terian Hall. It would so be quite
fitting to have him address the
Canadian Club.

GERMAN SUBMARINES ARE BUSY; TWO BRITISH COASTERS SUNK

AUSTRALIAN MAIL BOAT WITH FOUR HUNDRED PASSENGERS WAS CHASED IN THE ENGLISH CHANNEL BUT MANAGED TO ESCAPE.

(Special to The Daily News.)
London, Feb. 22.—The German
submarine U-12 sank the British
coasters Cambank and Downshire
off Liverpool Saturday. The Cam-
bank was taking on a pilot when
she was hit without warning.
Four lives were lost.
The Australian mail boat, Ma-
loja, with 400 passengers, in the
English Channel, on Saturday was
ordered to stop by an unidenti-
fied armed merchantman. The
order was ignored, and the Maloja
speeded for Plymouth. Five shells
were fired at her but all fell short.

THE LONGER THE FIGHT THE HARDER WILL BE THE TERMS

New York, Feb. 22.—The New
York Times says in regard to the
German war zone order and the
replies:
"If the German people have not
enough to eat, or face the near
and certain prospect of not hav-
ing enough, it is evidently time
to renew the suggestion that they
should ask what they are fighting
for. Certainly not for victory; if
there is already a shortage of
food, victory is not to be hoped
for. They cannot be fighting for
better terms of peace—the longer
the fighting is kept up the harder
the terms. If they are fighting
only because their Emperor and
his military advisers tell them to
fight, is it not time for them to
inquire whether they should
not have a voice in a matter so
gravely affecting themselves? To
their ruling class the prolonga-
tion of the war means only the
postponing of an inevitable hu-
miliation; to multitudes of the
German people it means death
and life-long sorrow."

"RUNAWAY JUNE"

At the Westholme Opera House
Tonight.
It is certainly a difficult mat-
ter to follow one unqualified suc-
cess with another equally great.
This proposition confronted the
Westholme management at the
close of "The Million Dollar Mys-
tery," which without doubt is the
most popular moving picture
story ever shown in this city. The
question has been successfully
solved, however, by the booking
of "Runaway June," a thirty-reel
serial story in fifteen episodes by
George Randolph Chester, the
cleverest story writer of today.
"Our Mutual Girl," Norma Phi-
lips, plays the leading role of
"June." An interesting and high-
ly mysterious character in this
story is "the man with the Van-
dyke beard," who figures promi-
nently throughout, and whose
identity remains a profound mys-
tery until the end of the story.

AMERICAN SHIP SUNK BY A GERMAN MINE

(Special to The Daily News.)

Washington, D. C., Feb. 22.—
The American consul at Bremen
reports of the sinking of the
American steamer Evelyn by a
mine on the German coast. The
crew was landed at Borkum Is-
land. Secretary of the Navy Dan-
iels has ordered the naval attaché
at Berlin to investigate.

"HOCH DER KAISER!" BROUGHT RESULTS

It's not safe to stand around a
local hotel bar and call out,
"Hoch der Kaiser!" One man
tried that Saturday night and he
got something under the jaw that
sent him into the middle of next
day. The unconscious part of
him was carried to the hospital
and after some coaxing treatment
the absent element was induced
to return.

The case came up today in the
Police Court but it appeared the
victim had more hooch than
hochs at the time so he was un-
able to identify his assailant. If
he is ever discovered there is
probably a brand new medal
awaiting him.

WEDDING BELLS.

a large number of local people
was solemnized in the Methodist
Church Saturday night, when Mr.
George Waddell and Miss Lottie
Jacob were united in the bonds of
holy matrimony by Rev. J. F.

ed by Myrtle Downard and Ruby
Dimmick and A. D. Harris was

from "Lohengrin" was played
by Mr. John Eason.

About fifty invited guests were
present and a reception took
place after the ceremony, at
which toasts and speeches of good
will were made.

Mr. Waddell is a member of the
hydro-electric staff at Shawatians
and they will occupy one of the
cottages built for the employees.
Both are very popular locally and
will have the good wishes of a
large number of friends.

President Wilson sent a note to Germany protesting against the sinking of neutral ships and saying that he would hold them responsible for any American ships sunk. To this the Kaiser's government replied that the American note had caused strained relations with Germany and that the German government would not recede one step from the stand they had taken. This means more than that, too. It means that the United States has made a demand on Germany that they cannot carry through without going to war. Will President Wilson back down and apologise for the stand he has taken—the stand of a man?

The first thought of the Germans in this new crisis reflects their moral outlook. They predict that the British submarines will sink a few American ships so as to stir up the States with the notion that the Germans were guilty. Nobody but a man of low ideals would think of such profound villainy. The war craze has had a demoralizing effect on virtuous and pious Germany. Behind this, however, there is the other thought, that Germany will not sink any American ships if they know it. The submarine blockade is a bluff as far as the neutral countries are concerned and as far as the British shipping is concerned they are ready for them.

A story from Germany says that in the event of German victory in the war the Kaiser has offered the British throne to Prince Rupprecht, of Bavaria. He is the direct descendant of Henrietta Maria, a daughter of Charles I, and thus represents the Stuarts.

It may seem rather generous of the Kaiser to make so handsome a promise to a young

prince of Bavaria, when he has so many younger sons of his own in need of thrones. We had supposed that he would give the Crown Prince the enlarged Germany that would result from the war—that is to say, the German Empire of today, with Belgium, Holland, Denmark, Norway, Sweden, Switzerland, and part of France, including Calais. That is the way we figured he would, as a generous father, provide for his oldest son in the event of winning in this great war. What we fancied was that he would set up a new throne at Washington where he could rule over the United States, Canada and Mexico.

The Kaiser has the name of being a good husband and a devoted father, and he would wish to do well by his boys. This story from Germany that he would pass over his own sons in favor of young Rupprecht of Bavaria, we are inclined to think, must be an unfounded rumor, unless, of course, the Kaiser foresees that he will not have any thrones to give away except his own, and would rather make empty promises to outsiders than to members of his own household.

What a fine little thing young Rupprecht would have on the British throne! But since he has been promised preferment, how would he like to be chosen by the powers of Europe to succeed the present unsuitable King of Prussia?—Toronto Star.

LANE ON HIS WAY WEST.

Secretary Tells Chicagoans About Alaska Railroad.

Chicago, Feb. 20.—Franklin K. Lane, Secretary of the Interior, passed through the city yesterday on the way to the Panama-Pacific International Exposition in San Francisco. He told of the projected government railroad in Alaska, along which government owned telegraph lines will be run, and declared that if big concerns in large cities would provide farms close to the cities where employees might labor and be self-supporting in times of stress, great part of the problem of the unemployed would be settled.

BELGIANS POLITICALLY UNDISCIPLINED PEOPLE

Germans Having Trouble in Belgium With Postal and Railway Officials.

Brussels, Feb. 20.—"The Belgians," said General Von Bissing, the new German Governor General of Belgium, in an interview with a representative of the Associated Press, "are politically undisciplined children. They believe their liberation from German rule may come at any moment, and they are strengthened in this belief by the French newspapers, as well as by some neutral newspapers which continually are smuggled in."

"When, as frequently happens," continued the Governor General, "a favorable wind brings the sound of cannon to the city the Belgian believe the longed-for day has come. On several occasions the very date for the return of King Albert has been set and no number of disappointments seem to crush the hopes of the people."

"We have had much trouble with the postal and railway officials. The former are being gradually won over to co-operate with us, but the latter, feeling that the railroads are an important adjunct of warfare—a conception which is quite true and justifiable—have generally refused to do anything to help us. They feel it would be unpatriotic and disloyal to assist us, even though indirectly, in carrying a war against their own land."

German Courts in Belgium.

"The Belgian civil courts," the general said, "still exist, and they try ordinary cases of breaches of the law of the land. All crimes against soldiers or the military government are tried by so-called field courts, which are military courts presided over by German judges."

General Von Bissing left unanswered the question whether he believed that if Belgium or a part of that country eventually became a part of Germany it would ever be possible to completely Germanize the country, making it a harmonious portion of the German Empire.

"I don't think that is a question I can answer at the present time," he replied.

FOR DEFENSE OF CANAL.

Colonel Goethals and General Edwards Hold Long Conference.

Panama, Feb. 20.—Col. G. W. Goethals, governor of the Panama Canal zone, and Brig. Gen. Clarence R. Edwards, commander of the American forces in the canal zone, conferred at length yesterday regarding military matters on the Isthmus, including the disposition of troops and measures regarding the defense of the canal and the completion as soon as possible of all the fortifications. Colonel Goethals is understood to have endorsed the location of the permanent \$2,000,000 army post within sight of Panama City.

WHY NOT PRUNE ESTIMATES INSTEAD OF INCREASING DUTY?

SPECIAL CORRESPONDENT DISCUSSES WAR TAX OF FEDERAL PARLIAMENT—WILL INCREASE IN POSTAGE REDUCE THE REVENUE?

(BY H. F. GADSBY.)
(Copyrighted.)

It took a European war to justify Major General Sam Hughes and the new tariff. Liberal opinion of Parliament Hill takes the view that the major general probably has the greatest number of excuses.

Faced with a deficit this year of \$110,000,000 and next year of \$180,000,000—most of it for war—Finance Minister White took the bull by the horns and raised the general and intermediate tariff seven and a half per cent and the British preferential five per cent. The tariff increase apply to all articles dutiable or on the free list and cover all materials and finished products.

More than that, he called to life a lot of new special taxes—taxes on bank circulation, on trust and loan company incomes, on insurance premiums, on cable and telegraphic messages, on railway and steamship tickets, on sleeping berths and seats in parlor cars. In short, he did a little Lloyd George but not enough to hurt. The banks, loan companies, insurance companies, telegraph and cable companies, and railways may be trusted to pass it on one way or another to the consumer. There isn't a moan out of one of them.

Warming to his work, the Finance Minister dipped into the remote past, into the twilight period before Confederation, into the still more twilight period when British North America was largely a crown colony—he dipped, I say, as far back as the eighteenth century to bring up an outfit of stamp taxes on sparkling and still wines, patent medicines and commercial paper. He showed the resourcefulness of a Necker or a Turcot in tapping veins of revenue. If he had been present to bolster up Louis the Sixteenth he might have stayed off the French Revolution. He produced taxes we never thought he had about him, drawing them like rabbits out of a conjurer's hat. He wound up by lifting postage one cent all round.

The Finance Minister avoided income tax for three good reasons—because his special and stamp taxes had gone far enough along the road to direct taxation, because the provincial governments will probably do something in that line themselves and because the first Dominion government that tries that on will land in the boneyard. The Borden government (loyal though it is, is not prepared, like Quistus Curtius, to leap into the abyss—at least not just now when King and country need it so badly. Besides, as the Finance Minister candidly admitted, the tariff is his mainstay and he would be recreant to his principles if he didn't give it another squeeze. We're a long way from the rind of the lemon yet.

If the Finance Minister's calculations are correct, he will

raise eight to ten million dollars from his special taxes and twenty to twenty-five million dollars from increased customs. His bookkeeping for 1915 will run this way: Outgo, \$300,000,000; income, \$120,000,000; ordinary revenue, \$150,000,000, of which \$100,000,000 is borrowed money, and \$35,000,000 from special taxes and increased customs duties. He contends that his new tariff will strengthen the home market, build up industries, encourage immigration, offset the

MIRACULOUS CURE OF ASTHMA

Suffered Terribly for 15 Years Until He Tried "Fruit-a-tives"

D. A. WHITE, Esq.
21 WALLACE AVE., TORONTO,
Dec. 22nd, 1913.

"Having been a great sufferer from Asthma for a period of fifteen years (sometimes having to sit up at night for weeks at a time) I began the use of 'Fruit-a-tives'. These wonderful tablets relieved me of Indigestion, and through the continued use of same, I am no longer distressed with that terrible disease, Asthma, thanks to 'Fruit-a-tives' which are worth their weight in gold to anyone suffering as I did. I would heartily recommend them to all sufferers from Asthma, which I believe is caused or aggravated by Indigestion". D. A. WHITE

WHY NOT PRUNE ESTIMATES INSTEAD OF INCREASING DUTY?

shrinkage in trade, wipe out current deficits, meet the interest account on the war loans—in short, do everything protection is supposed to do in times of peace and enough more to keep the balance even. But his main argument is that he needs the money. It is worth remembering, however, that this year's war loan of \$100,000,000 from the British government is merely a war credit until it is spent and if the war ends suddenly we may not have to post it to the debit side of the ledger. England lends us this money for war purposes only and if there is no war we get no money. The Finance Minister states the worst we can expect, so that anything less will look like a blessing.

The exceptions are well contrived to hold the foe in play. Among other things to which the tariff increases do not apply are wheat, flour, tea, sugar, tobacco, anthracite coal—that heads off such as chafe at the increased cost of living, the workman please pay attention. Reapers, mowers, binders, harvesters, binder twine, are immune, but ploughs, which are more closely allied to the Conservative party and are indeed represented in Parliament, get seven and a half per cent more protection, presumably against the Monroe Doctrine. Meanwhile, the farmer is supposed to reflect what kind of a father he has in the government at Ottawa. Newsprint paper, newspaper presses and type setting and casting machines are not touched—the moulders of public opinion will please remember this in their editorials. They are perfectly safe as long as the paper manufacturers on both sides of the international line don't get together and make the war an excuse for boosting prices—a scheme which is said to be under way already.

Imported whiskey is the means to pull off a good day's work for the home producer. The foreign stuff is boosted seven and a half per cent, but as there is no corresponding excise duty on the native product the Canadian distiller naturally gets the benefit of the increased tariff. Thus do they kill the cat by choking it with cream.

The exemption list embraces seventy-seven articles of the tariff and includes the usual number of humorous contrasts and inconsistencies. Tea escapes, but coffee gets the limit—the idea being, no doubt, to break up the coffee habit and discourage the use of coffee beans as a breath-disguiser. Why should a Canadian patriot be ashamed of drinking Canadian whiskey and helping to the best of his ability the revenue and the cause of freedom for which the Allies are now battling? It is passing strange, however, that cocoa should be treated with the same consideration as tea, because cocoa is notoriously the beverage of English Radicals and the chief nourishment of the Nonconformist conscience.

Wooden legs stand where they were, but glass eyes, which come from Germany, are deservedly penalized to the full extent. False teeth may come in one at a time, but if they attempt to mobilize in sets with a view to biting the British North America Act in the leg, they must first pierce our tariff barrier. Limes, which are used in gin rickys, are exempt, but oranges and bananas, which are used by children and sick people, are assessed. Arrowroot is not blessed, for without it many occupants of the Red Chamber would never live to see the Senate reformed by abolishing the Liberal majority.

Homing and messenger pigeons are made welcome, no doubt at the instance of the Minister of Militia, who plans to organize them as part of his Intelligence Department. Bees will not be stopped by the custom officers,

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

"OVER THE PRECIPICE."—THE PRUSSIAN GRAND REVIEW OF 1915.—James Frise.

PAPER BLOCKADE IS NOISY, RIDICULOUS

Was Meant for the Neutrals to Raise Their Voice in Britain.

Rome, Feb. 22.—Commenting on the diplomatic exchange between the United States and Germany on the question of the submarine blockade of England, the Giornale D'Italia says: "The German note to the United States does not deny the rights of neutrals of which the great American republic has become the champion, nor does it renounce the threatened reprisals."

"The German purpose has not been revealed. All the noisy and somewhat ridiculous maneuvers of the imaginary maritime blockade had for their sole object the compelling of neutrals to make their voices heard in Britain, asking the British government to permit provisions to enter Germany. Germany has been asserting that the danger of famine was absolutely non-existent; as a matter of fact, Berlin is seriously anxious, the scarcity of food already is being felt among the less well-to-do of the German civilian population."

RELIEVING FINANCIAL STRAIN

Power to lend to manufacturers who have been forced to suspend by the reduction of bank advances will be sought by the Union of Canadian Municipalities. It is complained that the cautious attitude of the banks resembles that of the laborer who let go a rope with which he was lowering a fellow-workman from a lofty wall. He explained to the man who fell in the mortar box that he let go the rope for fear it would break. Being afraid of a shortage of money the banks reduce credits, thus curtailing the operations of all industries dependent on them for current working capital.

Municipalities would be more interested in keeping industries active than in protecting their own balances, and in that there would be danger as well as an assurance. "When a banking system fails to provide working capital for the fulfilling of absolutely safe contracts by capable firms it fails to serve the purpose for which it is brought into existence. If municipal advances could be confined to such cases there would be little objection to this extension of authority. But until municipal responsibility is taken more seriously the trying function of loaning will not be accorded except in meeting unprecedented emergencies.—Toronto Globe.

KAISER IS FILLED WITH MISGIVINGS

Daily Telegraph Correspondent Says German Emperor Has Aged Terribly.

London, Feb. 22.—A correspondent of the Daily Telegraph who has recently had exceptional opportunity for close personal observation of the Kaiser writes: "His physical appearance shocked and almost frightened me. He has aged terribly. His hair is gray and he has an air of fixed depression. He speaks little, and his articulation is abnormally slow."

"I was convinced that he at last recognizes what the future has in store for him and his people and that he sees his bright future in the present."

"The officers of the general staff share his downcast mein and are apparently filled with similar misgivings."

LOCAL EFFORT TO AID OUR WOUNDED SOLDIERS

The local centre of the St. John Ambulance Association has decided to assist the headquarters of the organization in England to equip and maintain a general hospital of 525 beds for wounded soldiers.

The members of the association are now energetically collecting on behalf of this most worthy object and we feel sure the citizens of Prince Rupert will assist them to the utmost of their ability.

Donations may be handed to any member of the St. John Ambulance Association or to Mr. David H. Hays, on or before noon, Thursday, February 25.

BIG ORDER FOR RAILWAY

Burlington Route Said to Be Arranging to Buy British Columbia Timber

Vancouver, Feb. 22.—Orders for between seven and eight million feet of British Columbia timber will be placed within the next few days by the Burlington Route, according to a report current in railway circles this morning. The Burlington Route, which is one of the largest of the American transportation systems operating in the Middle Western states, has been in touch with local timber interests for some time and it is understood that tenders will be let before the end of the week.

The Burlington Route has purchased nearly 200,000,000 feet of lumber during the past eighteen months from mills in Washington, it is reported. The report about the new orders is accepted as an indication that the railway situation is improving. The Northern Railway placed a large order for British Columbia lumber with local firms a few days ago.

Quotations are being sought by the British war office through the purchasing agent of the C. R. R. here for clear timber. Some 25 carloads, amounting to nearly 400,000 feet, are required. Orders for several million feet of lumber for the French government were placed with local concerns a few weeks ago.

SAYS ITALY'S TO MOBILIZE.

London, Feb. 22.—The prophecy that Italy would mobilize her army within a fortnight was made here today by Ricciotti Garibaldi, the Italian patriot. He said that unless the Italian government decided to participate in the war there would be a revolution.

GERMANY IS ON THE VERGE OF FAMINE

Shortage of Wheat Has Been Concealed and Country Will Only Escape by Narrow Margin.

London, Feb. 22.—Telegraphing from Copenhagen, the correspondent of The Daily Mail says he learns from Hamburg that the belief prevails there that Emperor William is going to Heligoland personally to direct Germany's blockade. "The wheat shortage in Germany," the correspondent adds, "was concealed until the last moment for fear of discouraging the people. It is much greater than has hitherto been believed. Germany will only escape famine before the next crop by a narrow margin."
