will demand compensation for the
Frye and her cargo. The cargo
was of wheat and was consigned
to Queenstown "for orders."

The steamer Charcas, also an
American owned boat was sunk by
the Eitel.

It is likely that the Eitel will
be forced to intern. She can only
remain in port long enough to do
necessary repairs and there is lit-
tle chance of her facing the Brit-

A RECRUITING RECORD—ALL THE MEN LEFT IN ONE VILLAGE.

The village of Kitty Brewster, in Northumberland, England, holds the recruiting record. The picture shows all the men left out of sixty families. They are all over age or cripples. Ninety-six per cent of the men in the village enlisted.

PRINCE RUPERT GETS CONCESSIONS--- MEANS MUCH GROWTH AND PROSPERITY

American Fishery Business Must Now Be Drawn Here in Order to Compete With Short Routes---Final Order Signed by Gov.-General

Word has been received in the
city that the fishery concessions
demanded by Prince Rupert have
finally passed the Federal Council
and were signed by the Gov-
ernor General. This is the bst
news that the city has received
for many a day. It will mean that
Prince Rupert will be placed in a
class by itself with regard to the
fishing business. The firms doing
business in the South cannot hope
to compete in the big Eastern
American markets without open-
ing a branch here.

The concessions allow all
American fishing boats to dispose
of their catch here to parties who
will undertake to ship it across
the line in bond. Heretofore the
party who caught the fish had to
do the shipping and this meant
that only the big concerns could
benefit, as the fish had to be con-
signed to themselves, making it
necessary to have a branch at the
other end.

These American fishermen have
the privilege of buying bait and
supplies here. The city would
not benefit much if the fish were
simply shipped through, and no
other transactions carried on. As
head of the fishing business,
Prince Rupert wants to secure the
trade of the fishermen, to which
she has a right. The privilege,
therefore, of allowing the Ameri-
can fishermen to buy their bait
and other necessities here with-
out having to pay duty is an im-
portant one. It will mean that ev-
ery merchant in town will feel the
benefit.

There is another advantage
that this city will derive from
making this the shipping port for
the fish of the North. It will mean
that all the men connected with
the fishing operations will make
their homes here. As a result,
there should spring up a large
number of families supported by
the fishing business. Prince Ru-
pert is now in a fair way to attain
the prosperity that is justly hers.

BOOST FOR RUPERT. (Special to The Daily News.)

Ottawa, March 11.—An
ordere-in-council has been
passed and signed which
permits all foreign bot-
toms to sell fish in Prince
Rupert or other British
Columbia ports to Cana-
dian fish dealers, who
must assume the bonding
regulations. Boats may
purchase all supplies and
ship crews at Prince Ru-
pert.

Seventy million pounds
of halibut were caught in
the North Pacific last year,
of which fifty millions
went through Seattle.
Mr. George H. Collins,
interviewed by The Van-
couver Province late yes-
terday afternoon, said this
order-in-council will in-
crease the Prince Rupert
payroll \$250,000 monthly.
The Seattle fishing fleet
will move to Prince Ru-
pert.

GERMANY HAS LOST ELEVEN SUBMARINES

(Special to The Daily News.)
Copenhagen, March 11.—It is
reported in German naval circles
that eleven-submarines have been
lost since February 18. Four
are officially admitted as lost, and
seven have been missing for
three weeks.

The lady members of the Home
Nursing Class of St. John Am-
bulance-Association are request-
ed to meet for business at the

CARLOTTA G. COX WILL BE TOWED IN

The Atlin Fisheries, Limited,
received a wire last evening from
Juneau saying that the Carlotta
G. Cox had broken her shaft and
was anchored in Tenekee Inlet,
about twenty-five miles from Ju-
neau. The wire asked for in-
structions about a tug. Mr. Noon-
nan, the local manager endeavor-
ed to secure a local tug, but found
that there were none available.
He accordingly wired to have a
Juneau tug bring her back to Ru-
pert, where she will be repaired.
She left here about February 25
and probably has a load of fish
on board.

The Zorra and Borealis, of the
Atlin Fisheries, left yesterday for
the halibut banks.

ITALY WILL SOON TAKE PART IN WAR

Rome, March 10.—The Giornale
de Italia, which, although it is
not the official government organ,
represents the political majority
supporting the Cabinet, in an edi-
torial argues that it will be dif-
ficult for Italy to remain neutral
longer, declaring the attack of the
allied fleet on the Dardanelles has
brought up three great problems
affecting Italian interests.

"In the first of these prob-
lems," the newspaper says, "the
new rule to allow Russian access
to the Mediterranean through the
Dardanelles; the second concerns
the equilibrium of the Balkans
and the third the partition of Asi-
atic Turkey, which affects the
equilibrium of the eastern Med-
iterranean.

"It is impossible for Italy to
keep out of the solution of such
problems, unless she is satisfied
to see not only the powers of the
Triple Entente settle these affairs
according to their interests, but
also the small but audacious and
resolute nation, Greece."

ALLIES WIN ATTACK IN FRANCE--- TOOK MILE AND HALF TRENCHES

BRITISH MADE THE ATTACK ACCORDING TO THE OFFICIAL
REPORT—TOOK 1,000 PRISONERS AND MANY GUNS—
BIGGEST MOVEMENT IN MONTHS.

(Special to The Daily News.)
Paris, March 11.—The most
important advance the Allies have
made in months took place yes-
terday. They attacked and cap-
tured a mile and a half of Ger-
man trenches before Neuve Cha-
pelle and took a thousand pris-
oners and a large number of guns.
This is reported official.

The Germans still hold La-
basse, although very insecurely.

THE ISSUE.

We shall soon be in the
heat of a Provincial elec-
tion, and that the most
bitterly fought election
this province has ever
seen. On the one side
there is a ponderous ma-
chine, used in the past for
doing things on a big
scale, but rendered almost
useless by an awakened
public conscience and a
lack of the needful "oil" of
gladness. On the other
hand, there is a revived
Liberal party, backed by
the solid independent vote
of the province which has
got weary of the wicked-
ness of the McBride gov-
ernment. This is not
strictly a party fight. It is
first of all a fight for pub-
lic morals. Governments
are no better than the
people who elect them
and this campaign should
endeavor to crystallize
public opinion in such a
way that the abuses of the
past few years would be
impossible. Let every
man who is worthy of
British liberty take a hand
in de-throning the present
autocracy.

GERMANS IN POLAND PLAN ANOTHER ATTACK

(Special to The Daily News.)
London, March 11.—Following
the German retirement, a re-
grouping of the German forces in
northern Poland, aided by strate-
gic railroads, is noted. The en-
gagement before Ossowetz is still
active.

THE DARDANELLES ATTACK CONTINUES

(Special to The Daily News.)
Paris, March 11.—The vigorous
bombardment of the Dardanelles
continues. A heavy fog yesterday
prevented aviators from report-
ing results, but the Turkish bat-
teries weakened.

FRENCH TRANSPORTS IN MEDITERRANEAN

(Special to The Daily News.)
Malta, March 11.—A large fleet
of French transports has been
sighted. They are believed to be
carrying land forces to take part
in the Dardanelles operations.

PASSED EXAMS.

All the ladies who sat for the
examination in home nursing
held last night in the Borden
School have successfully passed.
The examiners, Dr. L. W. Kergin,
Dr. Tremayne and Dr. Eggert,
are unanimous in their praise of
the excellent standard the ladies
are maintaining. The ladies
were as follows: Mrs. Duncan,
Miss I. Jenns, Mrs. M. S. John-
son, Mrs. C. Johnson, Mrs. Park-
in, Miss Jessie Scott, Mrs. Hum-
ble, Miss Maud Eason, Mrs.

EDITORIALS

The question of selecting a candidate for the Liberal party is an important one. The first requisite of that man is that he be a fighter. Northern B. C. has never got a square deal from the south and we will never get it unless we are prepared to fight for it. In the next place that man must have an aptitude for constructive statesmanship. The Liberals are certainly going to be returned to power and the best man we have is none too good. His services will be greatly required in restoring prosperity to the province and in untangling the land policy of the province and getting the land back to the people. When the choice of the party has been made—as it will be tonight—there is only one thing left and that is for everyone to get behind him and give him a loyal support. The Liberals must and shall win, but every man must do his share.

Premier McBride, in announcing to his followers the decision to appeal to the country, said: "It is my conviction that we are only at the beginning of provincial development." No truer words were ever said, for everybody knows that there has been no real development in British Columbia since the present government took charge. Big cities and skyscrapers do not constitute development. Development means something permanent—production. Certainly the province is still at the beginning of its development and it will stay there unless new men are put in power.

Do the citizens of this country realize the stigma that is attached to a government when a member of the cabinet is forced to resign because of improper practices. This work has been going on for years but it was all right until it was exposed. In other words, it is being caught that is the crime, and not the actual deed. Another member of the cabinet is guilty of a greater wrong. He assisted robbers to fleece the hard working people of this country of their cash through the Dominion Trust Company. W. J. Bowser would be sacrificed, too, if he were not the boss. As it is he is the most dangerous man in the lot. The McBride government cannot "fire" Bowser. The people, however, can and will. You can assist in this. Lend us a hand.

"Take it from me that William Manson will get nothing from the McBride government," was the significant statement made today by a local business man of Conservative leanings. "Bowser may be a boss and all the rest of it, but he has no use for a man who gets down and licks his feet, as William Manson does." All the same it would not be surprising to see bland Bill come home here and tell us that he had the portfolio in his inside pocket. Bowser, of course, wants to use William Manson. Indeed, William Manson is the only type of man Bowser can use, for Bill is a total non-register when it comes to party leaders. Let the people not be fooled by any dangling of political honors for Manson. In the first place they would fit badly and in the next place he will never get them.

ALASKA TERMINAL NOT YET SELECTED

Wild Rumors and Stories of Press Agents Started by Boosters For Various Routes.

Washington, March 9.—Contrary to the many wild rumors and press agent stories, there has been no decision yet made regarding the terminus of the Alaska railroad. One rumor printed in several cities yesterday was that Ship Creek had been selected.

Ship Creek is a possibility as a temporary terminal for this year's work to the Matanuska fields. This does not necessarily mean that Ship Creek will be the permanent terminal and even its selection as a temporary terminal pending the decision of the president is uncertain. Interested parties both here and in New York are busy circulating rumors to their advantage.

The only certain point in the whole terminal matter is that no decision has as yet been made.

LIQUID FIRE THROWN FROM GERMAN RANKS

French Soldiers Set on Fire in Their Tranches by Blazing Jets.

Paris, March 10.—The effect of the burning of oil and chemicals sprayed by the Germans upon the French advanced trenches in the woods of Malancourt, which was mentioned in a recent official communication, is described in La Liberte by a nurse at the front. Incidentally it has been learned that this new instrument of warfare, which is a German invention, was patented in France.

The nurse was at a railway station when the soldier victims arrived. Their faces were badly burned, their limbs blistered and their uniforms charred. A soldier who acted as spokesman told the nurse of their experience. He said that at nightfall after a relatively calm day the Germans began to attack with flaming liquid.

Incredulous at first, the French soon discovered that this liquid was being directed at them from several jets.

Special appliances were used in some instances and at times an apparatus resembling a fine engine was used. Incendiary grenades were also hurled by the Germans. The trenches were soon in flames.

"None of us could escape from this torrent of fire," said the soldier. "Our clothes flowed with oil and some of us became living torches. Surrounded by flames, we had to retire, but not until our comrades of the second line were ready to resist the attack of the enemy which began six minutes after."

"A bayonet counter attack by the French was carried out with a veritable fury, so great was their desire for revenge."

At the end of the combat the Germans had lost 150 killed and sixty taken prisoners.

HORN WEEPS WHEN SHACKLED TO DEPUTY

Man Who Attempted to Blow Up Vanceboro Bridge Loses His Nerve.

Machias, Maine, March 10.—Werner Horn, the German who attempted to blow up the international bridge at Vanceboro, was taken to Bangor Monday for arraignment before a United States commissioner on a Federal indictment charging violation of the laws regulating interstate transportation of explosives. He was arrested Sunday on the expiration of a sentence of thirty days in the county jail for damaging property at Vanceboro.

United States Marshal John S. P. Wilson deemed it advisable to handcuff Horn to a deputy. The prisoner protested and wept when the shackles were fastened. Counsel for the prisoner was prepared to request a continuance of the proceedings at Bangor.

H. C. BREWSTER SCORES CONDUCT OF GOVT.

Vancouver, March 10.—"I do say to you in all sincerity that I believe the maladministration of the lands of the province is an immoral act," declared Mr. H. C. Brewster, before a crowded gathering of Port Haney electors on Saturday night last. "In other words, let me say that when you deprive a man of the right which the Almighty designed that he should have of making the earth productive, of creating for himself a home in which to shelter a wife and family. When you deprive a man, I say, of that right, then you create a condition which causes those who should be thus happily situated to flock to the cities, to congest in the slums of those cities; to come in keen competition with the labor there, and in that manner bring about a condition out of which the greatest immorality arises."

"But, you say, we have an agricultural bill now before the Legislature and it will be of benefit to the farming population of this province. Yes, we have an agricultural bill before the Legislature, and it is the outcome of a report by the Agricultural Commission which has cost the province not less than seventy, or possibly eighty, thousand dollars, and for which, I ask you, have you received your money's worth. Not to be Law."

"Now, we are told that this agricultural bill is not to become law until such time as it may be proclaimed by order-in-council. In other words, while I do not think you received your money's worth from that commission, it is quite evident the government intends to use its report in such a manner as to reap political benefit from it and hold it as a bait before the electorate pending an appeal to them for re-election. If it is a good bill and in the interests of the farmer and for the benefit of British Columbia, why does it not become law. Oh, but, Sir Richard says, it is impossible at the present time owing to the financial crisis which is upon us, to raise sufficient money to put it into effect."

"Yes, I would call your attention," said the speaker, "to the fact that by the budget which is brought into the House an expenditure of more than four millions over the estimated income is to be made this year on other works not nearly so important as the agricultural act. It appears, however, that this government cannot even get a land bill before the people without playing politics with it. How absurd it is, however, to expect the government that passes legislation in favor of the speculator making it easy for him to hold lands he obtained as fraudulent—absurd, I say, to expect them really to take an interest in a true land settlement policy."

Ellison's Purchases.
Speaking of the Colony Farm episode, Mr. Brewster said he had had no opportunity to see any statement from the Minister of Finance as to his purchases, and so would not criticize too severely, for, perhaps, it was as some

GEORGES CARPENTIER,

The famous French pugilist, who is reported to have been captured by the Germans while serving at the battlefront with a French regiment.

people suggested, only an evidence of the kind-heartedness of the Minister of Agriculture when he took pity on that poor animal "Meta Clothilda P." which was sore stricken with age and in a debilitated condition and could not stand the humid atmosphere of the Coast, and bought her, which had cost the Colony Farm well in excess of \$400, for the sum of \$25, so that she could be taken to the more invigorating, higher altitudes of the Okanagan, where she could inhale the ozone-laden breezes from the lakes, and in peace and happiness end her days in fields of plenty.

"No doubt, I say," said the speaker, "it was but the desire of a kindly heart to show such solicitude for the dumb brutes of the Colony Farm and, therefore, it would never have done to open the sale to public competition for fear some hard-hearted farmer in Dewdney might have secured some of these animals and their old age would not have passed so peacefully."

"The land question, the Dominion Trust, Ellison's cows, Indian reserve commissions, junketing royal commissions—are they not all of one piece? Are they not all tainted with the same taint of dishonor and lack of sincerity on the part of the administration? Are they not supported in this by the member you sent to Victoria? Can you not see your responsibility in this matter? Is it not true that for the good name of your province, the building up and establishing on a permanent basis as prosperity that will extend through your years and on to your children, is it not time you considered your responsibility and put in charge of your affairs a government that will make for purity, peace and prosperity in this, Canada's greatest province?"

SNOW TO INSURE ENORMOUS CROPS

Omaha, Neb., March 11.—The heavy snow storm which has prevailed over Nebraska, South Dakota and western Iowa for the last forty-eight hours has abated, though snow is still falling in isolated parts. The storm impeded railroad traffic, but the temperature was not severe and no suffering has been reported. Farmers declare this unprecedented fall of snow will insure a bumper crop.

Editor, The Daily News:

Sir,—I take up my pen in regard to your letter in last night's issue about Germans and Austrians working on the drydock and at the coldstorage. I have been a waterfront man here in Prince Rupert since 1908, and am a fisherman. I came here from the East and am Canadian born. This winter I have been down to the cold storage to look for work six times; and I can say all the crew using the seine nets for herring are Austrians and not one of them from the captain of the boat down to the cook has taken their papers out to be British subjects and they say they don't intend to do so. I have been idle this last three months and I have a wife back East to look after. I have applied for work at the City Hall; but I don't vote their way, and they know it, so there is no chance for me. At the drydock, I have tried to get work; but the watchman told me at the gate I would have to get a letter from some politician. He mentioned his name. So I did not bother any more. I am almost ashamed to call myself a Canadian in this part of the country. I think the best people in Prince Rupert went to the front and left their jobs to the aliens. I don't think at the drydock there are any more than twenty British subjects working—and that on a government subsidized plant. You cannot work on any government job in the States without being a citizen. They are very different in Canada. The aliens get the preference.

Hoping you take a note of this during the coming election, I am,
Yours truly,
"CANADIAN NO. 2."

**NEW PROPOSED ACT
FOR CIVIL SERVICE**

Following is the new proposed act to remove the civil service entirely out of politics:

His Majesty, by and with the advice and consent of the Senate and the House of Commons of Canada, enacts as follows:

1. Section 43 of The Civil Service Amendment Act, 1908, chapter 15 of the statutes of 1908, is repealed and the following is substituted therefor:

"43. No officer, clerk or employee in the Civil Service,—

(a) shall vote at any Dominion or Provincial election; or,

(b) shall engage in any partisan work in connection with any such election; or,

(c) shall be a candidate at any election for a member of any Provincial Legislature, or be a member of any such Legislature; or,

(d) shall be a candidate at any municipal election or be a member of any municipal corporation or of any other body the members of which are elected by the votes of the people.

2. Any person violating any of the provisions of this section shall be guilty of an offence and liable upon summary conviction to a penalty of \$200 and a further penalty of \$20 for each day such person continues to be a member of any Provincial Legislature, municipal corporation or other such body in violation of this section.

3. The provisions of this section shall not apply to any officer, clerk or employee in the Civil Service whose annual salary does not exceed..... dollars."

**PORT EDWARD TOWNSITE
COMPANY SUES AGENTS**

A lawsuit full of local interest is likely to be tried at the next Assizes. Indeed, it includes a series of suits. The difficulty is between the Port Edward Townsite Company and Harrison, Gamble & Company, of this city.

In the first place, the townsite company had an agreement with Harrison, Gamble & Company, their local agents, covering a term of years whereby they had exclusive privileges of sale on the understanding that they were to report monthly and hand over all cash received, say the townsite people. They claim, moreover, that their agents have not reported regularly and that large sums of money have been kept on deposit by them without the knowledge of the company. For this reason the company has issued a writ against their agents and are asking for an injunction forbidding them to make further sales, or, in short, to break the agreement with their agents. A circular letter was also sent to the purchasers of lots informing them that Harrison, Gamble & Company were no longer their agents and that payments should be made to L. W. Patmore for the company.

Harrison, Gamble & Company retaliate by issuing a counter writ asking for \$100,000 damages on account of the circular letter sent out to their clients. They will also fight the granting of an injunction to forbid them carrying out an agreement.

L. W. Patmore represents the townsite company and W. E. Fisher the agents.
