ITALY PREPARING TO ENTER THE WAR--GERMANS SHOOT FRENCH WOMAN WHO SOLD NEWS

NOVA SCOTIANS ARE READY TO KNOCK STUFFING OUT OF HUGHES

RESULT TO NOVA SCOTIAN OFFICERS CARRIED TO FLOORS OF PARLIAMENT--SAM HUGHES IS FORCED TO DENY THE STATEMENTS.

(Special to The Daily News.)
Ottawa, March 25.—There were many scenes in the House of Commons yesterday during the passing of the militia estimates. The Nova Scotia members attacked General Sam Hughes for alleged insults to the Nova Scotia officers.

How It Started.
The original trouble arose over the treatment of the Nova Scotia Highlanders at Salisbury Plains. It appears that friction arose between the commanding officers and the officers of the Nova Scotia battalion with the result that they were discriminated against during their stay there, their commanding officer relieved of his charge and the battalion absorbed into other corps. This has created such a storm in Nova Scotia that the Minister of Militia's life would not be safe there for allowing such a state of affairs.

ITALY IS PREPARING FOR WAR-- FIFTY MILLION WAR CONTRACT

ITALIAN GENERAL IN NEW YORK PLACING ORDER ADMITTED COUNTRY PREPARING FOR CAMPAIGN--TWO MILLION MEN READY.

(Special to The Daily News.)
New York, March 25.—General Dechaurand is returning to Italy after placing \$50,000,000 of war contracts. It is admitted that Italy is preparing for a great campaign. Two million men are prepared for war, and 800,000 of these are of the first line.

into the most important fighting on either front. One hundred and ninety thousand Russians freed from Permyl have been sent to reinforce the Russian forces in the Carpathians. It is felt that the fate of Hungary hangs on the result of this fight.

OUTH VANCOUVER THREE CORNERED FIGHT

(Special to The Daily News.)
Vancouver, March 25.—Stuart Campbell was chosen Conservative candidate for South Vancouver at a meeting held last night.

TOO AMIABLE

Prince Rupert owns the Warko Channel power the way the holder of a second mortgage "owns" a property. The Continental Power Company have been given a preference in spite of the protests of this city. Why didn't William Manson insist that the city be given the whole power? The fact that the Continental Power Company staked this property did not make it incumbent upon the government to grant it. The law specifically states that the government may refuse any applications not in the interests of the people. But the McBride government cares more for the corporations than for the people. Wm. Manson is too "amiable" to oppose them. Let us elect a man who will stand for the rights of the people.

PROTECTING THE FRENCH INVESTORS

Paris, March 25.—A discussion in the Chamber of Deputies on the protection of owners for the case of securities lost through the occupation of French provinces by the Germans developed the fact that the total value of the securities is so important to constitute a formidable loss for French investors. The Chamber passed unanimously a bill providing that the banks charged with the payment of coupons be obliged to withhold the interest after an investigation in all cases where they are advised by members of the loss of stocks or bonds.

PRINCE OF WALES SHARES IN FIGHTING

As Officer of General Staff He Is Busy From Morn Till Night.
London, March 25.—The Daily Mail's correspondent now on a visit to the British headquarters, describing an artillery duel as seen from a hill where British generals were posted, writes:

"During the afternoon a young British officer came tramping up the hill. He wore a British officer's equipment. When he reached the top I saw that it was the Prince of Wales. He is now attached to one of the armies, and, like all the staff, is kept busy from morning till night. "When I saw him yesterday he looked in the very pink of condition, and I am told that he is perfectly happy, for he is sharing in the actual life of the soldiers in the field. "I met him again, later in the afternoon, walking down the muddy road, swarming with soldiers returning to their billets to get their tea. The Prince was going back to his car, which was standing by the roadside, a little farther along, and which he drives himself."

250,000 IRISHMEN NOW IN THE FIELD

John E. Redmond Says German Emperor Did Not Count on United British Empire.

Manchester, Eng., March 25.—John E. Redmond, leader of the Irish Nationalist party, in a speech to 5,000 persons here, pointed out that he had often addressed meetings of Irishmen in Manchester, but never before an assemblage of Irishmen and Englishmen "firmly united in a common purpose."

"Ireland has been admitted to her proper place in the British Empire, with the building up of which she had as much to do as England," Mr. Redmond continued. "She has already taken her proper place, with perfect and absolute good faith and loyalty."

Official figures, covering the period up to February 15, he said, showed that 99,700 Irishmen from Ireland had joined the colors, 115,000 from other parts of the United Kingdom and enough more from the dominions to bring up the total to a quarter of a million. Furthermore, the recruiting of Irishmen was proceeding steadily. "Ten years ago the Kaiser might have found a divided Empire," he said, "but he had forgotten the march of events. The rule of the people has been substituted for the rule of classes, and the Empire is united on the sure foundation of liberty. In fighting for the Empire Irishmen are fighting for Ireland."

McMORDIE PROMOTED.

Friends of Captain S. P. McMordie were satisfied when he left here with the rank of lieutenant that he would soon be promoted to the rank of captain. This took place in due time, and Captain McMordie is now in charge of one of the Companies at The Willows.

BANISH BULLY BOWSER

S.S. "BRITISH COLUMBIA" AND HER PIRATE CREW

The Empire compares Wm. Manson to a steamer carrying passengers. Is he not rather a humble, obedient member of the crew of the good ship "British Columbia"?

Skipper McBride has fired the purser and Mate Bowser has grabbed the job and also the wheel. The skipper wants to make port to sign on a new crew; the mate wants to make for the open sea to stay there for months, out of reach of the owners. They have each hold of the wheel and neither will let go.

Mate Bowser says "Dick, if we make port the owners will fire us and most of our crew. We've been carrying passengers and stow-aways every trip for years and our charter doesn't allow it. The owners are getting wise, Cap; keep away from them. They've got too many black marks against our tickets anyhow. Running on the Songhees and Kitsilano shoals got us in bad, but running that contraband Dominion Trust stuff has queered the whole business. Dick, we had best give them a wide berth."

Skipper McBride is still at sea, wondering whether he hadn't better stay there and hold his job a little longer, or if he hadn't better make port and tell the owners he wants a shore job now. **YOU ARE PART OWNER OF THIS SHIP--ARE YOU GOING TO LEAVE IT IN THE HANDS OF SUCH PIRATES?**

R. H. Williams, ex-Mayor of Regina, and the owner of a large department store in that city, accompanied by J. B. Brown, also of that city, are spending a few days here. Mr. Brown is a brother of the Lieutenant Governor of Saskatchewan. They are today being shown over the city by G. R. Naden and F. G. Dawson.

London, March 25.—Lloyds are betting four to three that the war will be over by the end of September.

DID DECEASED REFUSE TO BE GERMAN SPY?

Vancouver, March 25.—Coroner Jeffs held an inquiry into the circumstances surrounding the death of Peter Wessel, whose body was found by some children last Wednesday evening in a pool at the northeast corner of Hastings and Rupert Streets. The jury, after hearing the evidence as to the deceased action's prior to his disappearance last November, returned a verdict of "Death, on or about November 8, 1914, by suffocation from drowning, while in a despondent mood."

According to the evidence, the deceased enlisted in the 29th (Vancouver) Battalion, coming up from Cambie, Oregon, at his own expense for the purpose, but disappeared on November 7, the general belief being that he had deserted.

Wessel during his connection with the regiment was of a cheerful disposition until he met another soldier named Skrimp, a German from the United States, who claimed to be a German-American, after which he became morose and refused to associate with his comrades.

Skrimp disappeared at the same time as Wessel, and it is now thought by the military authorities that the former was a German spy, who attempted to persuade Wessel to do some work for him, and, upon the latter refusing, the suspicion is that Wessel may have been lured to the lonely spot where his body was found and there stunned, his body being thrown into the pool.

Deceased at the time he disappeared was wearing his uniform, but the body when found was in civilian clothes, another circumstance which lends itself strongly to the theory of foul play.

WAS DREAMING

The morning Journal tells us that the Liberals are disorganized. The inference is that their leaders have come to blows over a seven million dollar grant to the railways; that one of them was the cause of the Dominion Trust failure and that another was found guilty of cattle rustling and that independent associations are being formed all over the country. Wake up, Nels; dreams go by contraries. You have just had a night vision of what has just happened to your beloved Tory party. The Liberals are united and solid as Gibraltar and behind them is ranged all the best element of the Conservative party who believe a change would be as good as a spring house-cleaning.

PORCHER ISLAND NEWS.

On March 17, St. Patrick's Day, Mr. Mike Sullivan, the popular owner of the Shamrock, entertained his many friends in the Porcher Island public hall to celebrate his recent marriage. In spite of the bad weather, which prevented two parties arriving by boat, about forty guests assembled, some of whom walked from distant pre-emptions in the interior of the island. A most enjoyable evening was spent, the dancing being varied by some singing by Mrs. Sullivan, whose songs were much appreciated. Porcher Islanders are hoping that more of the bachelor population will speedily imitate the good example which Mr. Sullivan has set them.

Wm. Manson is spoken of strongly for the Conservative nomination. How can he honestly approach the people of this constituency and ask for their support. Since his first election in 1910 he has failed in every important request that this city has made. He refused to stand up for the city when Bowser threw our prepared charter into the waste-paper basket and gave us one of his own liking that compelled us to pay for an old junk plant at Seal Cove and to return the money the government put in the first plank roadways which were necessary to the sale of lots and for which they were paid at the time by the increased price secured. He also failed to secure for us a guarantee that the Prince Rupert Hydro-Electric would not thrust themselves upon us against our will. He also failed to get the Warkas Channel power. He fell down in his attempt to get a road built around Kaien Island. The Provincial buildings are not yet started, despite his promises. But why go any further. There is not one important thing that he has secured; therefore, why elect him? He had his chance and he failed. Let us try somebody else.

cure a seat in the Borden Cabinet and leave the Provincial sinking ship in the hands of Bowser. There is no doubt but that the Premier is desperate and startling events may happen within the next few weeks.

In the meantime, there is great satisfaction for the Liberals to find their opponents afraid of a test of strength. After announcing the date of election it is the greatest sign of weakness to be compelled to again seek cover. There is no precedent for such conduct in part of Canada and, indeed, in the British Empire. The longer he delays it, however, the worse it gets. News of the discord will be widening and deepening and making his defeat all the more sweeping. All this is further evidence that the political cyclone which struck the Yukon has begun to shake British Columbia and many of the big branches are already falling to the ground. Blow on, wild storm. B. C. needs a clean sweeping.

ONLY INFERIORS CAN HATE.

That Is Why Big Men Have Better Natures Than Small Men.

One cannot hate his inferiors. Always, where one hates, the object of the hatred is his superior. One can have contempt for his inferiors, or a sort of contemptuous pity, but hate applies only to those above. It looks up. So when you hear a man express hate for another, you are sure to find it due to the fact that the hater recognizes his own inferiority and other's superiority.

Stand over a man with a club and he hates you. He cringes in his hatred. But the fellow with the club, however he may be provoked into contempt for the weakling, does not hate. The weakling is recognized as too small to hate. It requires something at least as big as yourself to arouse in you the emotion that goes by the name. That is why so many big men go through the world with sweet dispositions, while so many little men sour souls with hatred.—Columbus Dispatch.

PUGILISTS WHO HATED LIMELIGHT

Whether it was the war, a pair of bright eyes, politics, or merely their respective fists abilities which started the argument will probably remain a mystery, but a big crowd scented a battle last night about 6:30 when two husky young fellows on Third Avenue progressed from words to blows.

Evidently of a retiring disposition, they decided to escape the crowd and settle their differences in peace, as it were, so they set off shoulder to shoulder at a good four miles an hour towards Section Two, followed by an ever-growing crowd.

Past Lynch's store, they turned down to the G. T. P. yards, leaving a crowded grandstand along the sidewalk above. Having shed the audience, they discarded their coats down at the track and sailed into each other in great style. This was too good to be viewed from a distance, and the onlookers were soon falling over each other in the rush to the battlefield.

On the arrival of the first contingent, the duelists grabbed their coats and hats and set off up the track in the most friendly fashion imaginable. A scouting party, mounted on a boxcar, reported them still going strong at sundown. Judging by the pace they hit, the sequel may appear in the Terrace Newsletter shortly.

ROUMANIA HASTENS TO GET INTO FRAY

Gives Austria Notice Regarding Cession of Transylvania.

Rome, March 24.—Information from diplomatic sources is to the effect that Roumania has notified Austria that in case Trent is ceded to Italy, Roumania will claim the cession of Transylvania to her. Since the failure of Prince Von Buelow's negotiations is now regarded as certain, since Austria would be justified in refusing to cede Trent on the ground of the danger that such a concession would lead to the partition of the empire. Meanwhile, Roumania is hastening preparations for war as rapidly as possible.

POPE PRAYS FOR PEACE.

Ceremony Held in Pauline Chapel Before Distinguished Throng.

Rome, March 21.—Pope Benedict, accompanied by the members of the papal court, went to the Pauline chapel today, and in the presence of a few thousand distinguished persons, including members of the aristocracy, and the diplomatic corps and high ecclesiastics, repeated his prayer for peace. The ceremony was the same as that held in St. Peter's last month. The prayer was that which the Pope had ordered repeated in Catholic churches throughout the world today.

GERMANY TAPPING GREAT WAR CHEST

Gold From Spandau Castle Has Already Found Its Way To England.

London, March 24.—The Times says that Germany, despite the cheerful statements of her financial experts as to the adequate supply of her gold reserve, has apparently been compelled to open the secret war chest—the hoard of gold kept in the strong fortress of Spandau, near Berlin.

Originally, the war chest contained \$30,000,000, which was reserved from the indemnity paid by France in 1872 after the Franco-Prussian war. When that sum was placed in the Julius tower at Spandau it comprised a considerable proportion of gold in English sovereigns. A considerable number of these coins have now found their way back to one of the big joint stock banks in London, showing that the hoard, which for 43 years had lain untouched, has now been drawn upon. The bankers, who received the gold by way of Scandinavia—a fact which might suggest that it was used to pay for imports of other than armament—were at once struck by the fact that they had received a number of new, unworn sovereigns bearing the date of 1872, but the presumption that the money came from the treasure-house of Spandau was strengthened by the surprising fact that the original Bank of England labels of 1872 were found on some of the bags containing the coin.

Apparently this consignment of English gold had lain unopened at Spandau since that year. Bankers have expressed some surprise that no effort had been made to conceal the place of origin of the gold by removing the old Bank of England labels, as knowledge that the war chest is being drawn upon might readily, when it became public, be construed as being symptomatic of Germany's position. At the opening of the Reichstag last week, Dr. Hillisich, imperial secretary of the treasury, asserted that the stock of gold is better than in Great Britain, France or Russia. A few days earlier German wireless news stated that the gold reserve of the Reichsbank on February 27 was \$567,500,000.

What, by the way, has become of the old-fashioned father who whipped his son when the latter disobeyed him?

After you have talked with a Californian, nothing the preacher says about Heaven is going to make much impression on you.

UNITED STATES CAN'T SPARE SO MUCH WHEAT

Washington, D. C., March 25.—Warning that the present heavy exports to European nations of American wheat and flour cannot be continued without endangering the wheat supplies for food and seeding requirements at home, was contained today in the department of agriculture's agriculture outlook. In the opinion of the department's experts, exportation at the same rate as during December, January and February until the coming of the new wheat crop would encroach on the normal domestic needs.

Investigation has disclosed that there was on March 1st, an apparent surplus of 91,000,000 bushels of wheat over the domestic requirements for food and seed that was available for export in the four months from March 1 to July 1. While the exports of wheat, including flour, during those four months last year, were 36,000,000 bushels, it is pointed out that those exports during December, January and February last averaged almost 35,000,000 bushels per month, and if that rate of export continued until the new crop is available it would amount to 140,000,000 bushels.

TURNING POINT OF WAR, SAYS OFFICIAL

Austria, Disheartened, May Sue for Peace, General Belief.

London, March 24.—"It's the turning point of the war and was a great victory for Russian arms."

This was the declaration here of a high official of the War Office in commenting on the capture of Przemyśl by Russian troops. Official confirmation of the city's fall was received here, all the newspapers issuing extras. Great crowds gathered in the streets cheering the Czar and his soldiers. More interest was manifested here over the fall of Przemyśl than at any other news since the failure of the German drive on Paris.

It was asserted by government officials that Austria, disheartened by the blow, most probably would sue for peace now on the best available terms.

Unofficial advice received here stated that 6,000 men and 140 officers weak from hunger were found in the surrendered garrison.

ST. JEAN DE MATHA, JAN. 27th, 1914.
"After suffering for a long time with Dyspepsia, I have been cured by "Fruit-a-tives". I suffered so much that I would not dare eat for I was afraid of dying. Five years ago, I received samples of "Fruit-a-tives". I did not wish to try them for I had little confidence in them but, seeing my husband's anxiety, I decided to do so and at once I felt relief. Then I sent for three boxes and I kept improving until I was cured. While sick, I lost several pounds, but after taking "Fruit-a-tives", I quickly regained what I had lost. Now I eat, sleep and digest well—in a word, I am completely cured, thanks to "Fruit-a-tives".

JAPAN WARNED TO CURB HER DEMANDS ON CHINA, IS REPORT

OPINION EXPRESSED THAT MIKADO WILL WITHDRAW WITHOUT MAJORITY OF REQUIREMENTS — UNITED STATES DECLARED TO BE ACTING INDEPENDENTLY.

Pekin, China, March 25.—Official information has reached Pekin that the Russian and British ambassadors at Tokio called upon Baron Takaaki Kato, Japanese Foreign Minister, and informed him that if Japan persisted in pressing upon China demands beyond those contained in her original communication to the powers it would be difficult for Japan's allies to negotiate diplomatically with her in the future.
America Acting Independently.
It is understood that on the same day the United States, acting independently, although possibly after consultation with another power, informed the Japanese government that certain of the Japanese demands were not in consonance with treaty agreements between China and the United States.
American and British opinion throughout China is in accord in this matter, as voiced privately, semi-officially and by the press. Meetings have been held, at which the Japanese demands have been discussed, and protests have been sent to their respective governments by both the American and British associations.
May Withdraw Demands.
The opinion is expressed by both Chinese and foreign diplomats that a substantial proportion of her demands will be withdrawn by Japan because of the attitude of the powers who have called China's attention to the fact that she has no right to make a treaty with Japan contravening existing treaties.
Story Is She Ran on Reef and Was Blown Up by Own Officers.
New York, March 24.—Edward Wadworth, of Newark, N. J., a passenger aboard the steamer Parima, now at this port from the West Indies, said that he had seen in Grenada two lifebuoys with the word "Karlsruhe" on them and that several German officers' caps had been washed ashore in Charles Bay, Grenada, and picked up by fishermen. Mr. Wadworth said it was reported in the West Indies that the Karlsruhe had run ashore on a reef and was blown up by her officers, who with the crew put to sea in a captured ship.

AWARD FOR EMPRESS OF IRELAND SALVAGE

Quebec, March 24.—Hon. Judge Routhier, in the admiralty court here this morning, rendered judgment in the case of the Canadian Salvage Company against the Aetna, Western and other insurance companies, brought by the former company for salvage on the 251 silver bars recovered from the wreck of the Empress of Ireland. Judge Routhier in rendering judgment awarded the salvage company the sum of \$22,685 salvage and \$36,172 additional for expenses attached to the recovery of the bars. The Canadian Salvage Company besides being awarded this sum also received \$10,000 from the postoffice department for the salvage of the mails from the wrecked Empress. In addition to this the sum of \$25,000 was paid the salvage company by the C. P. R. for the recovery of the purser's strong box.

THAT KARLSRUHE AGAIN.

Quietly Exerting Influence.

Washington, March 25.—State Department officials say that since the beginning of the negotiations between China and Japan the United States government has quietly been exerting its influence to have the Japanese demands ameliorated, and to prevent any infringement of the rights of America, either under treaty or the provisions of general international law.

Rather Strong Statement.

That the British and Russian ambassadors have served any such notice upon Japan as that her future diplomatic relations with the two countries would be jeopardized by her persistence in certain demands upon China was believed to be a rather strong statement of the facts, though the officials admitted lack of information.

Japanese Premier Hopeful.

Tokio, March 25.—The Osaka Jiji has published an interview with Premier Count Okuma during which this Japanese statesman said he expected good results from the negotiations going on at present with China.

The premier said among other things that Germany was instigating China against Japan, but that the result would be futile. He said that if Russia secured Constantinople it was his opinion

OFFENSIVE RESUMED BY AUSTRIA AGAINST SERBS

London, March 24.—Resumption of military operations by Austria against Serbia is indicated in a message from Nish received here by the Serbian legation. The telegram follows:
"In an artillery duel near Belgrade on the morning of March 16, our guns showed superiority over the enemy, whose fire was devoid of result, although artillery of very heavy calibre was used.
"Our artillery destroyed numerous boats gathered along the banks of the river. The positions of our guns soon forced the enemy to cease firing."

DRUG CLERK MADE VERY NEAT PROFIT

Cleared Nearly \$9,000 on Field Dressings Sold to the Government.
Ottawa, March 25.—F. Powell, the Ottawa drug clerk in the employ of the Carlton Drug Company, of which W. F. Garland, M. P., is president, was on the grill before the Public Accounts Committee yesterday in regard to \$40,000 worth of field dressings sold to the Militia Department by Bauer & Black, of Chicago, in connection with which Powell acted as the Ottawa agent.
Powell told the committee that including over \$6,000 now in the bank and \$2,600 still owed to him by the government, his profit on the transaction would amount to about \$9,000. Witness said that his salary as a drug clerk was a little bit more than \$15 per week. This had continued. He admitted that the matter of prices to be charged the Militia Department for field dressings had been discussed with Mr. Garland, but denied that the member for Carleton had any interest in the \$6,000 of profits at present lying in the Union Bank or the \$2,600 still owed by the government. A. E. Fripp, M. P., asked specifically if Mr. Garland had any interest in these profits.
"No," replied the witness.
"Then this was simply a side line to enable you to make some money?" queried Mr. Fripp.
"Yes," replied the witness.
Examined by W. M. Martin, of Regina, Powell said that he did not get all the supplies he had sold to the Militia Department from Bauer & Black, of Chicago. He got some from local firms in Ottawa and in some cases he charged the department as high as 50 per cent profit.

NOT LIKE CANADA.
We have now been at war for over six months, and yet there has been no grave charge in respect to army contracts, remarks the London correspondent of the Liverpool Post. Those who have been privileged to see representatives of the contracts branch of the War Office at work have been impressed by the severity of the tests and the ruthless way in which goods not exactly according to standards have been thrown back on the hands of the contractors. There is a new and businesslike spirit abroad, and it is satisfactory to record that our allies are equally on the alert against the fraudulent contractor. Russia had a whole series of scandals after the Japanese war, but there has been no repetition, and the Germans were painfully disappointed to find that Russian shells, instead of being filled with sand, have exploded with deadly effect.

SHIPPING MEN FIRM TO CONCEDE NOTHING

No Immediate Ending of Longshoremen's Strike Is in View in Vancouver.
Vancouver, March 25.—No new developments are apparent in the longshoremen's strike. The employers are determined to continue the stand they have taken—that demands of the union were uncalculated and that they have the right to employ whom they choose. On Puget Sound, to which district the strike first spread out of sympathy with the strikers here, the situation is said to be unchanged.

While the sympathetic strikers first only refused to handle cargoes of ships that had been handled by non-union men in Vancouver, the strike soon spread to all lines on the complaint that men should not be hired except from the hall of the union. Even should the local strike be broken on the original complaint, the men are still under the regulations of the international association, and they would be in the position of still having to strike in keeping with the general orders. However, there seems to be no immediate end of the strike in view as the employers have been able to get along without the union thus far and have asserted their determination to continue to do so.

PREMIER McBRIDE IS NOT CONSISTENT
Editor, The Daily News:
Sir:—When Sir Wilfrid Laurier was in power at Ottawa, Premier McBride was always crying out for a white British Columbia. From 1908 to 1911 he used this with good effect against the Liberals. But in 1911 the Conservatives went into power at Ottawa and the stream of Chinese increased without interruption. In 1910 the head tax on Chinamen amounted to \$350,000, covering 1,425 Chinamen. In 1911 the sum was \$1,064,000, and in 1912, 5,730 Chinamen were admitted; 5,117 entered in 1913 and in 1914, 6,896.
During these years of Conservative rule at Ottawa nothing was done to check the influx of Chinese in spite of the fact that during these years employment was scarce in Canada.
Why didn't Sir Richard insist on some protection for this province as he did during the rule of Sir Wilfrid Laurier.
Under the Laurier rule all government tugs and dredges burned coal, the digging of which gave labor to Canadian miners. Now we have them all burning oil which is a foreign product. If this is the way the Conservatives act there is no reason why the working men of this province should support them.
The only time that the Tory government has anything for the working men is around election time and they are at last beginning to see this.
Although I am a Socialist I am going to support the Liberal candidate this time and perhaps next election we can elect one of our own.
Yours truly,
ALFRED DALSTROM.

Mrs. McMordie leaves on the Prince George tomorrow to join Captain McMordie in Victoria.

WAR ON BRITISH TRADE.

Mr. White is going to borrow from Great Britain all the money required for war expenses, which, for this year, amount to a hundred million. He called Mr. Michael Clarke to witness that money borrowed from England had to come into Canada in the form of manufactures. At the same time Mr. White is, in this budget, placing an additional tax of 5 per cent on all goods brought into this country from England. That is to say, Mr. White has managed his scheme of financing so cleverly for this year that he is going to borrow a hundred million dollars and put a double barrier on the channel by which this money is to reach the country. As British imports are already taxed to the tune of about 5 per cent, taking the total value of manufactured and raw material, this addition of 5 per cent to the duty on British goods will practically double that duty.—Montreal Witness.

BELIEVES FISH LAWS SHOULD BE CHANGED

Editor, The Daily News:
Sir—May I call the attention of all who have the interests of Prince Rupert at heart to the manner in which the prosperity of this city is being threatened by the illegal use of the seine net? Everyone knows that fishing is the most important industry of this part of British Columbia. If the fish are needlessly destroyed or driven away the whole district and in particular the city of Prince Rupert will suffer.
And the fish are actually at this moment being needlessly destroyed and driven away. A few years ago the herring came regularly into Prince Rupert harbor every year. Now they come no longer. Why? Because the seine net has been used there in spawning season and herring will not return to spawning grounds where they have once been seriously disturbed. This year the seine nets are being used on other spawning grounds. Tons of herring are being caught and there is every prospect of the herring deserting the district altogether, if the seine continues to be used.
It may be asked: "If herring are needed for food or bait, why not catch them in the easiest possible way?" Why go to the trouble of taking them by hundreds in a gill net when they can be caught by thousands in a seine?" The answer is that men working with a gill net allow 90 per cent of the fish to escape, while a seine may take every fish. Moreover, the gill net does not involve the destruction of small herring and of other kinds of fish. The seine takes up all kinds and all sizes, and they are generally suffocated before they are thrown back into the water. And, again, men using a seine net take more than they need. They take tons when they only require a few hundred-weight. Tons of fish are allowed to rot. Good food is thus wasted and the supply of fish in the sea is seriously diminished.

"A ROMANY SPY" HIT AT THE WESTHOLME THEATRE LAST NIGHT

Patrons of The Westholme enjoyed a rare treat last night, the entire program being unusually excellent and meritorious. Especially interesting was the three-reel Pathe feature, "A Romany Spy." This story deals with military affairs in Europe just before the outbreak of the war and shows the inner workings of the spy system so prevalent at that time. There is a thrill in every situation and the final developments are entirely unexpected and highly sensational. It is certainly a splendid picture and well worth seeing. Two very fine comedies are also shown which keep the audience in a continuous roar of laughter. The musical numbers by the Westholme Orchestra are up to the high standard of excellence maintained by this deservedly popular organization and includes a number of new selections played for the first time in Prince Rupert. This program will be repeated tonight.
