THE ALLIES DESTROY GERMAN TRENCHES

ROBBERS HOLD UP AND ROB NEW YORK TRAIN--STREET CAR WRECK AT DETROIT

ROBBERS LOOT SILK TRAIN AND GET AWAY WITH RICH SPOILS

50,000 WORTH OF SILK TAKEN OFF TRAIN AND CARRIED OFF IN MOTOR TRUCKS--TRIED TO LOCK CREW UP IN BOXCAR--ENGINEER ESCAPED AND GAVE ALARM.

(Special to The Daily News)
Buffalo, N. Y., April 15.—Twelve robbers held up a New York General fast freight at Sanborn, near here today. A cargo of silk valued at \$50,000 was taken and loaded on motor trucks. The engine was then disconnected from the train and the robbers attempted to lock the crew up in a boxcar. The engineer, however, escaped and reached the engine under a fusillade from the robbers and made a record run for eight miles to give the alarm. The robbers are still at large.

MILITARY GRAFT IS DISGRACE TO CANADA

The revelations at Ottawa have revealed the fact that the enormous amount of money which has been borrowed by Canada to assist in carrying on the war has been very considerably swelled by enormous and illegitimate commissions paid to heelers of the government in connection with the purchase of military supplies. A \$9,000 item for commission on surgical supplies obtained by a clerk in the office of Mr. Garfield M. P., has been returned. How many hundreds of thousands of dollars have not yet been paid of, and will never be repaid. The commission to the company on field glasses was nothing less than a rascality. As usual, the Conservative members of Parliament on the committee investigating these matters shown great astuteness in endeavoring to cover up everything that might reflect upon the government. Mr. T. M. Birkett, one of the most prominent Conservatives at Ottawa, and on a number of occasions a candidate for Parliament, appears to have made a big haul out of the field glass purchases. The whole matter is disgraceful to Canada, and reflects no credit upon the government. A number of persons from whom goods were to be bought was given by General Hughes to the military authorities all through Canada. The report of the committee will be awaited with interest.—*Winnipeg Evening Journal.*

RESERVOIR BURSTS--EIGHT LIVES LOST

(Special to The Daily News)
Holbrook, Ariz., April 15.—The reservoir at Lyman broke at midnight drowning eight persons. The reservoir at Hunt is also threatened, being right in the path of the flood, while the town of Woodruff is also in danger.

WHO WILL START?

The suggestion of Mr. Morley Donaldson with regard to securing a wharf for deep-sea ships at Rupert should be followed up. The Dominion government already holds a splendid piece of waterfront along Morse Creek and there is no reason why it should not be improved. Prince Rupert will never need to have her harbor dredged as has been done at Vancouver, Victoria and St. John. This being so, it would only be right if the government gave us a grant to improve even our rugged townsites. At any rate, harbor improvements in the shape of substantial wharf and warehouses are an urgent necessity if this port is to take its place in international trade, and the government should be urged to do something. Who will be the first to start a public movement in this direction?

THE SOUTHERN GIRL.

Some one has said that when God made the Southern girl He sent His angel messengers throughout all the star-strewn realms of space to gather all there was of beauty and brightness, of enchantment, of glamour. When those angels had returned from their harvesting of beauty and threw down their glittering burdens at His feet He began in their wondering presence the work of fashioning the Southern girl. He wrought with the gold and gleam of the stars, shifting glories of rainbow hues and the pallid silver of a Southern moon. He wrought with the crimson which swooned in the rose's rubid heart, with the pure sweet snow which gleamed from the lily's

ALLIES MAKE GAINS ON WESTERN FRONTIER

(Special to The Daily News)
Paris, April 15.—(Official) At Laboiselle, our heavy artillery completely wrecked the German trenches by shell. In the Argonne we showed our growing ascendancy by taking trenches. We took trenches in the Ailly Woods, commanding the roads. We maintained our gains and resisted counter attacks in the forest of Lapretre. In Alsace, north of La Lauche we advanced one mile.

AFTER SEWARD'S TRADE.

The Board of Trade has decided to take time by the forelock and go right after a portion of the trade of Seward. A meeting of the executive council is called for Friday afternoon at 2:30 at their rooms on Second Avenue to consider the best means of doing this. It is proposed to conduct an active campaign immediately so as to be among the first in the field. With our direct rail connection with the Eastern markets there is no reason why Prince Rupert should not be able to secure a goodly portion of this trade.

MAY MAKE SHELLS IN RUPERT--COLONEL CARNEGIE SENDS WIRE

AT SOLICITATION OF BOARD OF TRADE HE WANTS INFORMATION ABOUT LOCAL EQUIPMENT FOR THE PURPOSE.

The Board of Trade has received a reply to the wire sent yesterday to Col. Carnegie, who is investigating conditions in this province for making war materials for the British war office. The contents of the wire would indicate that something may be done along this line in Prince Rupert. The following is the wire received:
D. G. Stewart, president Board of Trade, Prince Rupert:
Many thanks for invitation to visit Prince Rupert. Regret that I am unable to at present time. Please send full particulars of

ITALIANS FAVOR WAR BUT POLICE DIFFER

(Special to The Daily News.)
Milan, Italy, April 15.—The funerals of the victims of Sunday's disorders took place today and the entire garrison turned out to prevent a repetition of the disorders. The trouble arose when the police attempted to disperse a mass meeting in favor of entering the war. Several workmen died from the result of the wounds they had received.

MILITARY CONCERT.

A concert will be given in the Westholme Theatre on April 27th for the benefit of the First Contingent from Prince Rupert. It will be entirely of local talent. The boys of the 68th Regiment Earl Grey's Own Rifles will be present and give an exhibition of their skill. The intention is to raise funds to supply the boys at the front with tobacco and cigarettes. The concert will be of the same high order that has been recently seen in this city and the object is worthy of every citizen's support.

STREET CAR ACCIDENT WAS RESULT OF INEXPERIENCE

FOURTEEN WERE KILLED AND TWENTY-EIGHT INJURED BY COLLISION WITH A TRAIN--MOTORMAN MISTOOK SIGNAL

(Special to The Daily News.)
Detroit, April 15.—Owing to the inexperience of a student motorman fourteen persons were killed, including ten women, in a collision between a street car and a freight train on the tracks of the Detroit-Toledo railway in the west end of this city. Twenty-eight others were injured, three of whom may die. The motorman misunderstood the signal and ran across the track in front of the train. The wreckage was carried a hundred yards. It was several hours before all were extricated.

BRITISH TRAWLERS TAKEN BY GERMANS

(Special to The Daily News.)
Muiden, Holland, April 15.—Local owners of trawlers have been notified that four of their vessels, flying the Dutch flag, have been seized by German warships and taken to Cuxhaven.

VOTES FOR SOLDIERS

It was quite right on the part of the Liberals to protest at the plan suggested by the Borden government for taking the vote of the soldiers at the front. Their idea was to have each man fill in the ballot in front of a commissioned officer. No one believes that the men at the front should be disfranchised but it is quite in order to object to the method employed. It is evident that the value of the secret ballot would be at once lost, but why have an election at all at present, when the chances are that the soldiers will be home next year. Liberals say that the men who proved dishonest in making boots for the soldiers and buying horses for the army couldn't be trusted with the matter of votes. But to make it a little broader, is it right that any government should be trusted in such a case? Isn't it putting just a little too much responsibility on human weakness? Why not play the game on the square? The boys at the front would probably divide pretty equally anyway.

CHEMICALS TO BE MADE IN AMERICA

Washington, D. C., April 15.—American chemical companies are bending every effort toward supplying textile mills and other industries using artificial dyes with home products to replace German dyestuffs, shut off by the European war. Reports to the Department of Commerce just made public show that at least six plants are in course of construction for the manufacture of the coal-tar derivatives on which the colors used in cloth manufacture, varnishes and other products are based. Approximately \$6,000,000 is to be expended, and within a few months it is estimated that much of the material for the simpler dyes, which heretofore was purchased in Germany at a cost of \$12,000,000 annually, will be turned out in the United States. The more complicated chemicals, however, will require a greater length of time to develop.

Can Save \$100,000,000 a Year.

A report of the dyestuff situation, called for by a resolution of Congress, was given out yesterday by the department. It was compiled by Thomas H. Norton, a commercial agent of the department, who formerly served as consul in Germany and is familiar with the industry. Mr. Norton estimates that American coke ovens are wasting annually \$100,000,000 in by-products that could be saved and employed in other industries, it having been preferred heretofore to depend on German chemicals rather than develop an American dyestuff supply. The coke industry, the report states, could produce twenty times as much coal tar as the world needs for dyes.

For Bureau of Information.

A proposal is now being considered for the creation of a bureau of information on the dyestuff industry in the department. (Continued on Page Four.)

WHAT THE BEAVER SAYS.

A photograph of a beaver which has felled a tree, after weeks of persistent gnawing, is published by the Canada Lumberman and Woodworker. This captain of industry is described as "a successful descendant of the pioneer lumberman of North America." On being interviewed recently as to his view on the lumbering situation, he said:
"Our family still controls very extensive tracts of virgin timber, and, as we do not require financial assistance from the banks, we are retaining our skins, and our season's operations will be about normal."
"To what do you attribute your success, Mr. Beaver?"
"To the fact that we never did more business than we could finance ourselves. Being both free to work and manage our own business, instead of being worried to death by the banks about finan-

EDITORIALS

The announcement that work would start immediately on the Alaska railway is good news for Prince Rupert. Seattle papers in discussing it say that it will mean a bigger thing than the discovery of the Klondike. That being the case, the Prince Rupert stands in the way of securing a goodly portion of the trade. It will be remembered that Seattle reaped most of the profits from the opening of the Yukon, while Vancouver was fast asleep. This should teach us and the railway company to keep awake. Business moves along the lines of least resistance and takes advantage of every economy in distance and time but there must be somebody right there to do the moving. It will not come via Prince Rupert just because it is five hundred miles shorter unless there is somebody there to get the business.

It would appear that the time is opportune for the G. T. P. to put on a weekly steamship service to Seward. Of course, many of the Seattle boats will call at this port but it is not to their interests to ship over the G. T. P. They are looking to take trade away rather than to bring it here and unless every encouragement is given it may pass our door just the way the Yukon rush passed Vancouver. It is possible that the only solution is for the Grand Trunk to put on a weekly steamship service to Seward. It might be good business to put the Prince John and the Prince Rupert on the southern run and the Prince George on the northern run, perhaps calling at Massett en route. At any rate, the time is ripe for an active intellect to work out a solution which, like "time and tide waits for no man."

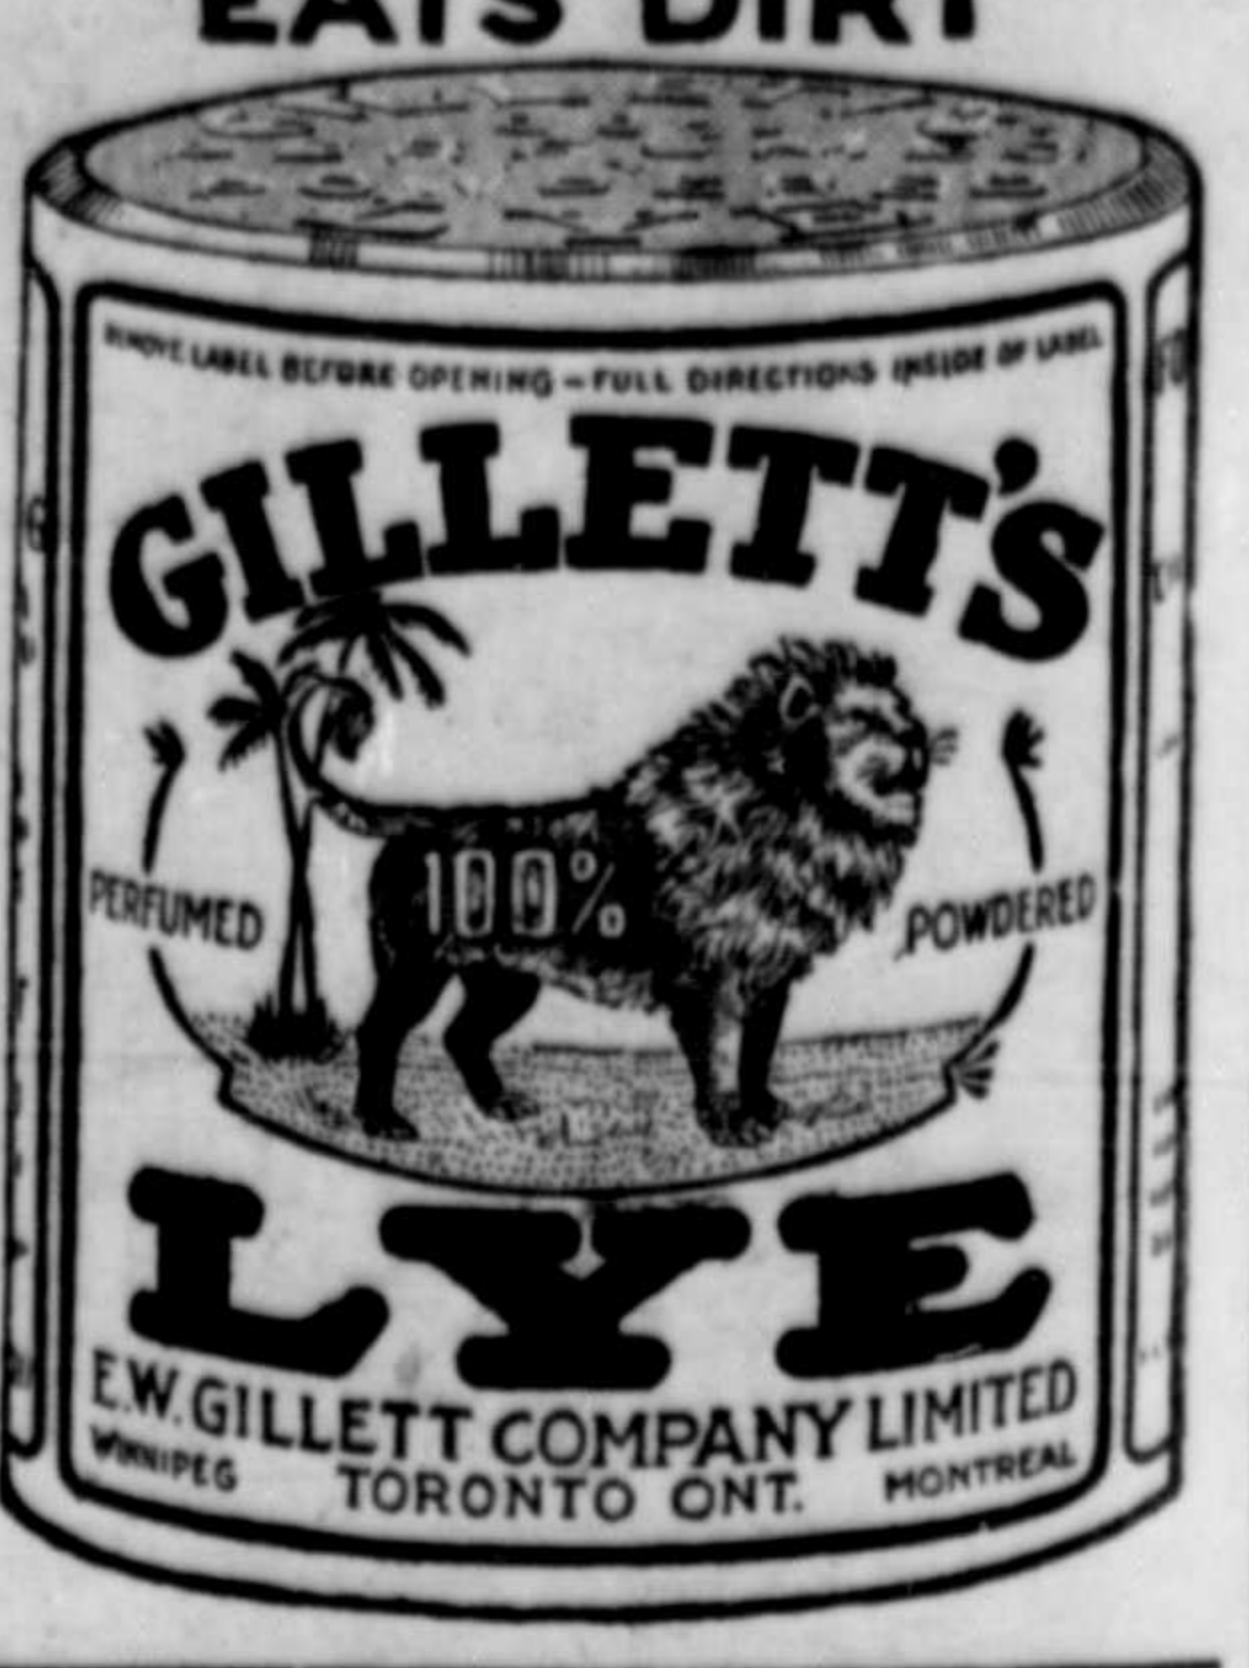

The announcement from Peking that Dr. Sun Yat Sen is again plotting—this time against the new "republic"—will not come as a surprise to those who have followed the career of that remarkable man. Sun Yat Sen made Yuan Shi Kai possible and then stepped aside in order that the latter might become President of the new government erected by revolution on the ruins of the Manchu dynasty.

He has been invested with the attributes of a sincere patriot by his biographers. His aspirations, it is said, are those of an ardent republican and the inference to be drawn is that he is rather a hasty enthusiast than a slow, plodding reformer. Such a man could see ample room for criticism in present conditions in China. Important as have been the constructive reforms effected under the new regime, it is open to criticism because of what it has failed to accomplish.

Not the least of these "errors of omission" is the inability of Yuan Shi Kai so inspire China with a nationalistic spirit. If progress along these lines is being made—and it may be that a change is being wrought—it is so slow that to the Occidental eye it is imperceptible. Lack of this quality, which in other lands gives rise to the strong spirit of patriotism, has always been the ancient empire's chief weakness. China lacks that spiritual, emotional something which makes a nation one in war, no matter how it may be divided in peace.

This is all the more remarkable because it has at its doors an illustration of the elevating influence of this same emotion. If China could be roused to emulate Japan, it would not be long in taking its place in the forefront of the world's great powers. Sun Yat Sen may believe he possesses the power to arouse that sentiment in China and thus rescue it from its traditional position as the football of the earth's militant governments. He may be the man destined to bring about this awakening—but it seems reasonably certain that Yuan Shi Kai cannot do it.—Seattle P.-I.

GILLETT'S LYE EATS DIRT

BIG DEVELOPMENTS BY ALASKA RAILROAD

Speaking about railway work in Alaska, the Seattle Times has the following to say:

For several months past the government has been dickering with the Copper River & Northwestern Railroad for the purchase of that system, and it may be that this will be taken over later. In an event, with the fear of government competition removed, it is probable that the Guggenheim road will be extended to serve other mines in the region of its inland terminal at Kenicott.

Survey of Route.
 The survey for the government railroad runs from Seward to Kern Creek, around the head of Turnagain Arm to the broad, well grassed Susitna Valley and thence through Broad Pass, a low divide in the Alaska range close to Mt. McKinley, and thence to Fairbanks. The Broad Pass region is one of the most highly mineralized in the territory, but its inaccessibility has prevented its development.

Will Open Coal Field.
 The road will open up the Matanuska coal field, which, doubtless hereafter will supply the coal used by the United States navy on the Pacific Coast, and also the Nenana coal fields, which will supply Fairbanks with fuel. These coal lands will be open to operation under the leasing law as soon as the government has made reservations for itself and appropriate regulations have been compiled.

A commission is now working

The Pink of Health is every woman's right; but many are troubled with sallow complexions, headaches, backaches, low spirits—until they learn that sure relief may be found in

BEECHAM'S PILLS

Directions of Special Value to Women with Every Box. Sold everywhere. In boxes, 25 cents.

on a draft of the regulations to be in force for the operation of the coal lands. The Matanuska coal fields also will supply a large amount of the coke consumed on the Pacific Coast and which is now imported from eastern parts of the United States. It is also probable that a small amount of anthracite coal will be brought to seacoast towns on the Pacific from this field.

The members of the commission will be located in different regions. Edes, the chairman, will have his headquarters at Seward; Mears will be at Ship Creek and Riggs in the Broad Pass country.

The commission was directed by the President to proceed to Alaska immediately. Lieutenant Mears, as well as a large number of the office force, are already in Seattle, R. D. Chase, chief clerk, arriving yesterday morning.

The work this summer will be done by station men who will make direct contracts with the commission for work on the units. If at the end of the season the system has proved itself it will be adopted for the remainder of the road. Only a small force will be employed by the committee, all being experienced engineers.

Townsites have been withdrawn by the interior department at Ship Creek, Matanuska Junction, in the rich Susitna Valley, one in the vicinity of Broad Pass and another on the Wanana River.

"The route adopted by the President," said Secretary Lane, "will open up a territory not now served by any railroad line and two of the great coal fields of Alaska—one the Matanuska, with high-grade bituminous coal acceptable to the navy, and the other the Tanana field near the Tanana River, with high-grade lignite, which will serve the Alaskan interior.

Warned to Go Slow.
 "I have received word of a threatened stampede to Alaska this year, but the government does not justify such a rush. The government will employ few men and these are of a high order of engineering experience. There is little chance for employment in that country at this time."

AS SHE IS SPOKEN.
 A school teacher having instructed a pupil to purchase a grammar, the next day received a note thus worded from the child's mother: "I do not desire Lulu shall engage in grammar as I prefer her engage in yuseful studies as I can teach her how to spoke and rite properly myself. I have went through two grammers, and can't say they did me no good. I prefer her engage in german and drawing and vocal music on the piano."

The professor who believes courting should be taught in college apparently overlooks the fact that it already is an elective course in all of the best schools.

Considering the fact that the audience knows it, every candidate wastes a good deal of time telling it that it is intelligent.

An April Story Without Words---That Can Be Printed

TORTURED BY CONSTIPATION

"Fruit-a-tives" Cured Paralyzed Bowels and Digestion

ST. BONIFACE DE SHAWINIGAN, QUE. Feb. 3rd. 1914.

"It is a pleasure to me to inform you that after suffering from Chronic Constipation for 2 1/2 years, I have been cured by 'Fruit-a-tives'. While I was a student at Berthier College, I became so ill I was forced to leave the college. Severe pains across the abdomen continually tortured me and I could not eat at all, and my Digestion stopped. Some one advised me to take 'Fruit-a-tives' and at once I felt a great improvement. After I had taken four or five boxes, I realized that I was completely cured and what made me glad, was that they were acting gently, causing no pain whatever to the bowels. All those who suffer with Chronic Constipation should follow my example and take 'Fruit-a-tives' for they are the medicine that cures."

MAGLOIRE PAQUIN
"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 5c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

PRESIDENT HAS NO OPINION TO GIVE ON WORLD WAR

Washington, April 14.—In a speech before the Maryland annual conference of the Methodist Episcopal Church, in session here, President Wilson said it was his belief that no man was wise enough to pronounce judgment on the European war at this time.

"But," he added, "we can all hold our spirits in readiness to accept the truth when it is revealed to us in the outcome of this titanic struggle."

The President reminded the delegates that in transacting the business of their Church they were like the men in charge of the nation's government, in reality, handling "the phases of the day."

Sees Ideal Beneath It.

"These are days of very great perplexities, when a great cloud of trouble hangs and broods over the greater part of the world. It seems as if great blind material forces had been released which had for long been held in leash and restraint. Yet, and underneath it, you can see the strong impulses of great ideals.

"It would be impossible for men to go through what men are going through on the battlefields of Europe and struggle through the present dark night of their terrible struggle if it were not that they saw, or thought they saw, the broadening or light where the morning should come up and believed that they were standing each on his side of the contest for some eternal principle of right.

Tribunal of World's Opinion.

"Then, all about them, all about us, there sits the silent, waiting tribunal which is going to utter ultimate judgment upon this struggle, the great tribunal of the opinion of the world; and I fancy I see, I hope that I see, I pray that it may be that I do truly see great spiritual forces lying waiting for the outcome of this thing to assert themselves, and asserting themselves even now, to enlighten our judgment and steady our spirits.

"No man is wise enough to pronounce judgment, but we can all hold our spirits in readiness to accept the truth when it dawns on us and is revealed to us in the outcome of this titanic struggle."

ONE HONEST MAN AND WHAT HAPPENED

Seattle, April 14.—Whether a broker, wholesaler or merchant, in selling a box of strawberries on the representation that it contains a pint measure when in reality it holds more than a pint, but is sold at no additional cost, is causing an infraction of the city ordinances and is liable to arrest, is a question which Police Judge Gordon will have to decide.

The question arose in the case against Benton F. Pearce, manager of the Produce Distributors Company, of 63 Madison Street, who was arrested by J. P. Worden, an inspector in the weights and measures department, on charges that he violated the provisions of the ordinance which governs the weighing and measuring of all commodities.

Alpheus Byers, attorney for Mr. Pearce, contended that if a merchant wanted to give a customer a little extra measure he was not violating the law.

Worden contends that, although the purchasers are not being swindled when they receive an excess in measure, the official sanction of such a proposition will result in there being scores of different sizes of boxes on the market, with no set standard, which is in violation of the law.

Pearce said that he was acting as a local distributing agent for a Texas firm. His boxes are 3 3/10 inches bigger than the local standard of 37 cubic inches.

PRINCE RUPERT CADET CORPS. Orders by George Leek, Cadet Instruction, for the Week Ending April 17, 1915:

Saturday, 9:30 a. m.—Drill, not in uniform.

Saturday, 3 p. m.—Ambulance practice at City Hall.

WATER NOTICE. Use and Storage.

TAKE NOTICE that The Port Essington Water Company, Ltd., whose address is 117 Granville St., Vancouver, B. C., will apply for a license to take and use one and one-half cubic feet per second and to store 400 acre-feet of water out of Cunningham Lake. The storage-dam will be located at the outlet of Cunningham Lake. The capacity of the reservoir to be created is about 400 acre-feet and it will flood 9.23 acres. The water will be diverted from the stream at a point about 5 chains below the said outlet and will be used for Water-works purpose upon the land described as part of Lot 45, Range 5, Coast District, being the townsite of Port Essington. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application or to the petition mentioned below may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The territory within which the company desires to exercise its powers is described as the townsite of Port Essington. A petition to amend the Certificate granted to the company in respect of its former right so as to include the right applied for herein will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller. The date of the First Publication of this Notice is March 22, 1915. "PORT ESSINGTON WATER CO., LTD.," Applicant.
"Wilson & Wheeler," Agent. 69-75-81-87

LAND NOTICES.

Skeena Land District—District of Coast, Range Five.

TAKE NOTICE that William Watson, of emo, B. C., occupation Contractor, intends to apply for permission to lease the following described lands:—Commencing at a post planted on the northerly limit of the Right-of-Way of the Grand Trunk Pacific Railway Company, and about 35 chains southwesterly from Mile 84, east from Prince Rupert, B. C.; thence north 20 chains; thence west 20 chains; thence south 46 chains, more or less, to the northerly limit of the Right-of-Way of the Grand Trunk Pacific Railway Company; thence northeasterly along the northerly limit of the said Right-of-Way to point of commencement; and containing about 80 acres, more or less.

WILLIAM WATSON.
Dated December 26, 1914. 25-85

PROVINCE OF BRITISH COLUMBIA.

Department of Lands—Water Rights Branch.

CERTIFICATE OF APPROVAL.

1. WHEREAS the Corporation of the City of Prince Rupert is incorporated under an Act entitled the "City of Prince Rupert Incorporation Act, 1910."—B. C. Statutes 1910, Chapter 41:

2. AND, WHEREAS, by Resolution of the Council of the said Corporation authority was given to stake water rights on the North Arm of Wark Channel:

3. AND, WHEREAS, the said Corporation has applied for a water licence to divert water from Thutme River, a tributary of the said North Arm, for power purpose:

4. AND, WHEREAS, the said corporation has, after due notice, petitioned for the approval of its undertaking as far as it relates to the said application for a licence:

5. AND, WHEREAS, no objection has been filed to the said petition:

6. THIS IS TO CERTIFY that the undertaking of the said corporation in so far as it relates to the said application for a licence is approved, subject to the terms and conditions of the "Water Act, 1914," and to the following additional terms and conditions:

7. Any licence issued under said application shall, notwithstanding the issue of this certificate, be subject to adjustment by the Board of Investigation:

8. The said undertaking has been divided into two parts, the first part consisting of the surveys of such of the works proposed in the said application for a licence as the Comptroller of Water Rights shall consider necessary, and the second part consisting of the construction, maintenance, and operation of such works.

9. The surveys required under the first part shall be commenced on or before the 1st day of June, 1915, and the plans thereof shall be deposited with the Comptroller of Water Rights on or before the 1st day of November, 1917.

10. The second part of the undertaking shall not be commenced until a bylaw under the provisions of which the said Corporation propose to carry out the undertaking has been duly passed and approved, nor until a further certificate of approval under Section 83 of the "Water Act, 1914," has been issued.

11. The territory within which the said Corporation shall exercise its powers in respect of the use of the said water is the City of Prince Rupert.

12. This certificate shall not in any way be deemed to be an approval of the plans of any works covered by the proposed undertaking or to authorize the construction of such works, but shall have the effect only of a certificate issued under the provisions of Section 81 of the "Water Act, 1914," and shall be subject to such provisions, and to the rights of the Continental Power Company under an application filed on the 18th day of August, 1908.

13. This certificate shall become null and void without any notice unless a further certificate as required by Clause 10 hereof be applied for before the 1st day of June, 1917.

Dated at Victoria, B. C., this 10th day of March, 1915.
(Sgd.) WM. R. ROSS,
Minister of Lands.

PIOUS BILL BOWSER

W. J. Bowser refused to address a body of workmen on Sunday in Vancouver recently and a budding poet who knows some other things about Bill penned the following rhyme in his honor:

"Oh, I tell you early training is a thing to con-jure with, and I tell you early piety is other than a myth; in spite of early training they'd have sinned just twice as strong. For instance, Pious Billy, with his bluster and his nerve never turned a hair dividing up the Indian reserve, but his conscience 'gan to prick him in an early training way, when the workers wanted him to speak upon the Sabbath day. Of course, it is our money that he gives to brother Frank—these pickings for the family are smelling kind of rank—yet we ought to feel quite thankful for the early piety that prevented him from bonusing the whole darned family. There's some who cannot understand, and ask the question how old Prices' early training allowed him take that cow? But there, we have no right to view this question with alarm; but for his early training he'd have taken the blooming farm. The pessimists who tell you of the "high ups" in kahoots, with the firms who have been mixing rotten methods with bad boots, should be thankful that they mixed up early training with their gall, or the boys had gone to battle without any boots at all. And the horse the "army" bought in for one hundred-fifty bucks was dear when he was peddled for three worn out mallard ducks? But for the early training of those purchasers I vow, our officers had gone to war astride old Prices' cow. So we must not get down-hearted but keep training up our kids in the way that they should travel, it is what the good book bids. And if some should turn out badly, as no doubt some of them will, they'll have some redeeming feature just like our Pious Bill.—Vancouver Sun.

CHEMICALS TO BE MADE IN AMERICA

(Continued From Page One.) Officials are hopeful that the result will be the establishment of the coal-tar chemical industry in such a position that it would be able to meet German competition, even after the war is over.

In this connection Mr. Norton calls attention to the fact that England has already taken steps to free herself of dependence upon the German dyestuff mills and that similar steps have been taken in France and are contemplated in Russia.

TO THE ELECTORS.

Ladies and Gentlemen: In response to what might properly be called a general request of the electors, I hereby announce my candidacy in the approaching Municipal Bye-Election, April 16th.

If elected, I will adhere strictly to the principles outlined in my address in the K. of P. Hall, April 8th, and published in The Empire on April 9th.

Thanking you for your past consideration, I make one more bid to you for a trial at your official helm.

Respectfully,
GEO. B. CASEY.

Dr. Price's CREAM BAKING POWDER

There is no alum in Dr. Price's Cream Baking Powder. The names of its ingredients, printed on the label of every can, show it to be made from Cream of Tartar, which comes from grapes.

No alum baking powder or food containing alum is permitted to be sold in many countries. To avoid alum read the label and use only baking powder made from cream of tartar.

The Baptist Young Peoples Society will hold another of their enjoyable skating parties at the Auditorium tomorrow night.

The Girls' Chapter of the I. O. D. E. will hold a dance on Friday, April 16, in St. Andrew's Hall. The funds raised will be used for patriotic purposes. 79-80
