ALLIES CAPTURE TWO HILLS DOMINATING MAIDOS FORTS

FIERCE FIGHTING NEAR GALLIPOLI—TURKISH PEACE RUMOR
—EXPERT OPINION ON SITUATION SINCE GALICIAN
SUCCESSSES — SUBMARINES STILL DEADLY.

(Special to The Daily News.)

London, June 12.—The Allies have captured two hills overlooking the Maidos and dominating the forts there. Fierce fighting in Gallipoli marks the advance of the allied forces.

There are rumors that the Turks have opened negotiations for a separate peace.

Expert Opinion.

London, June 12.—Military experts believe that the sharp turn of events in Galicia will prevent

any considerable transfer of German troops to the Italian frontier or the western front.

Submarines Still Busy.

London, June 12.—The steamer Leuctra and the trawler Waago have been torpedoed. The crews were rescued.

Trawler Sunk.

London, June 12.—The British trawler Intrepid has been sunk by a submarine in the North Sea. The crew landed after being in one of the ship's boats for twenty-one hours.

B.C. ELECTRIC HAS LABOR TROUBLES

(Special to The Daily News.)

Vancouver, B. C., June 12.—The working agreement between the B. C. Electric and its employees expires on June 30. There is a deadlock over the new agreement. The company pleads that jitney competition has seriously reduced its business, and asks for a per cent reduction. The men at the present rate continued.

CANADIAN FRATERNITY.

A meeting of the Canadian Fraternity will be held in the Board Trade rooms, Monday, June 14, 8 o'clock.

Subject: First of July celebration. All members are urged to be present.

BUSINESS CHANGE.

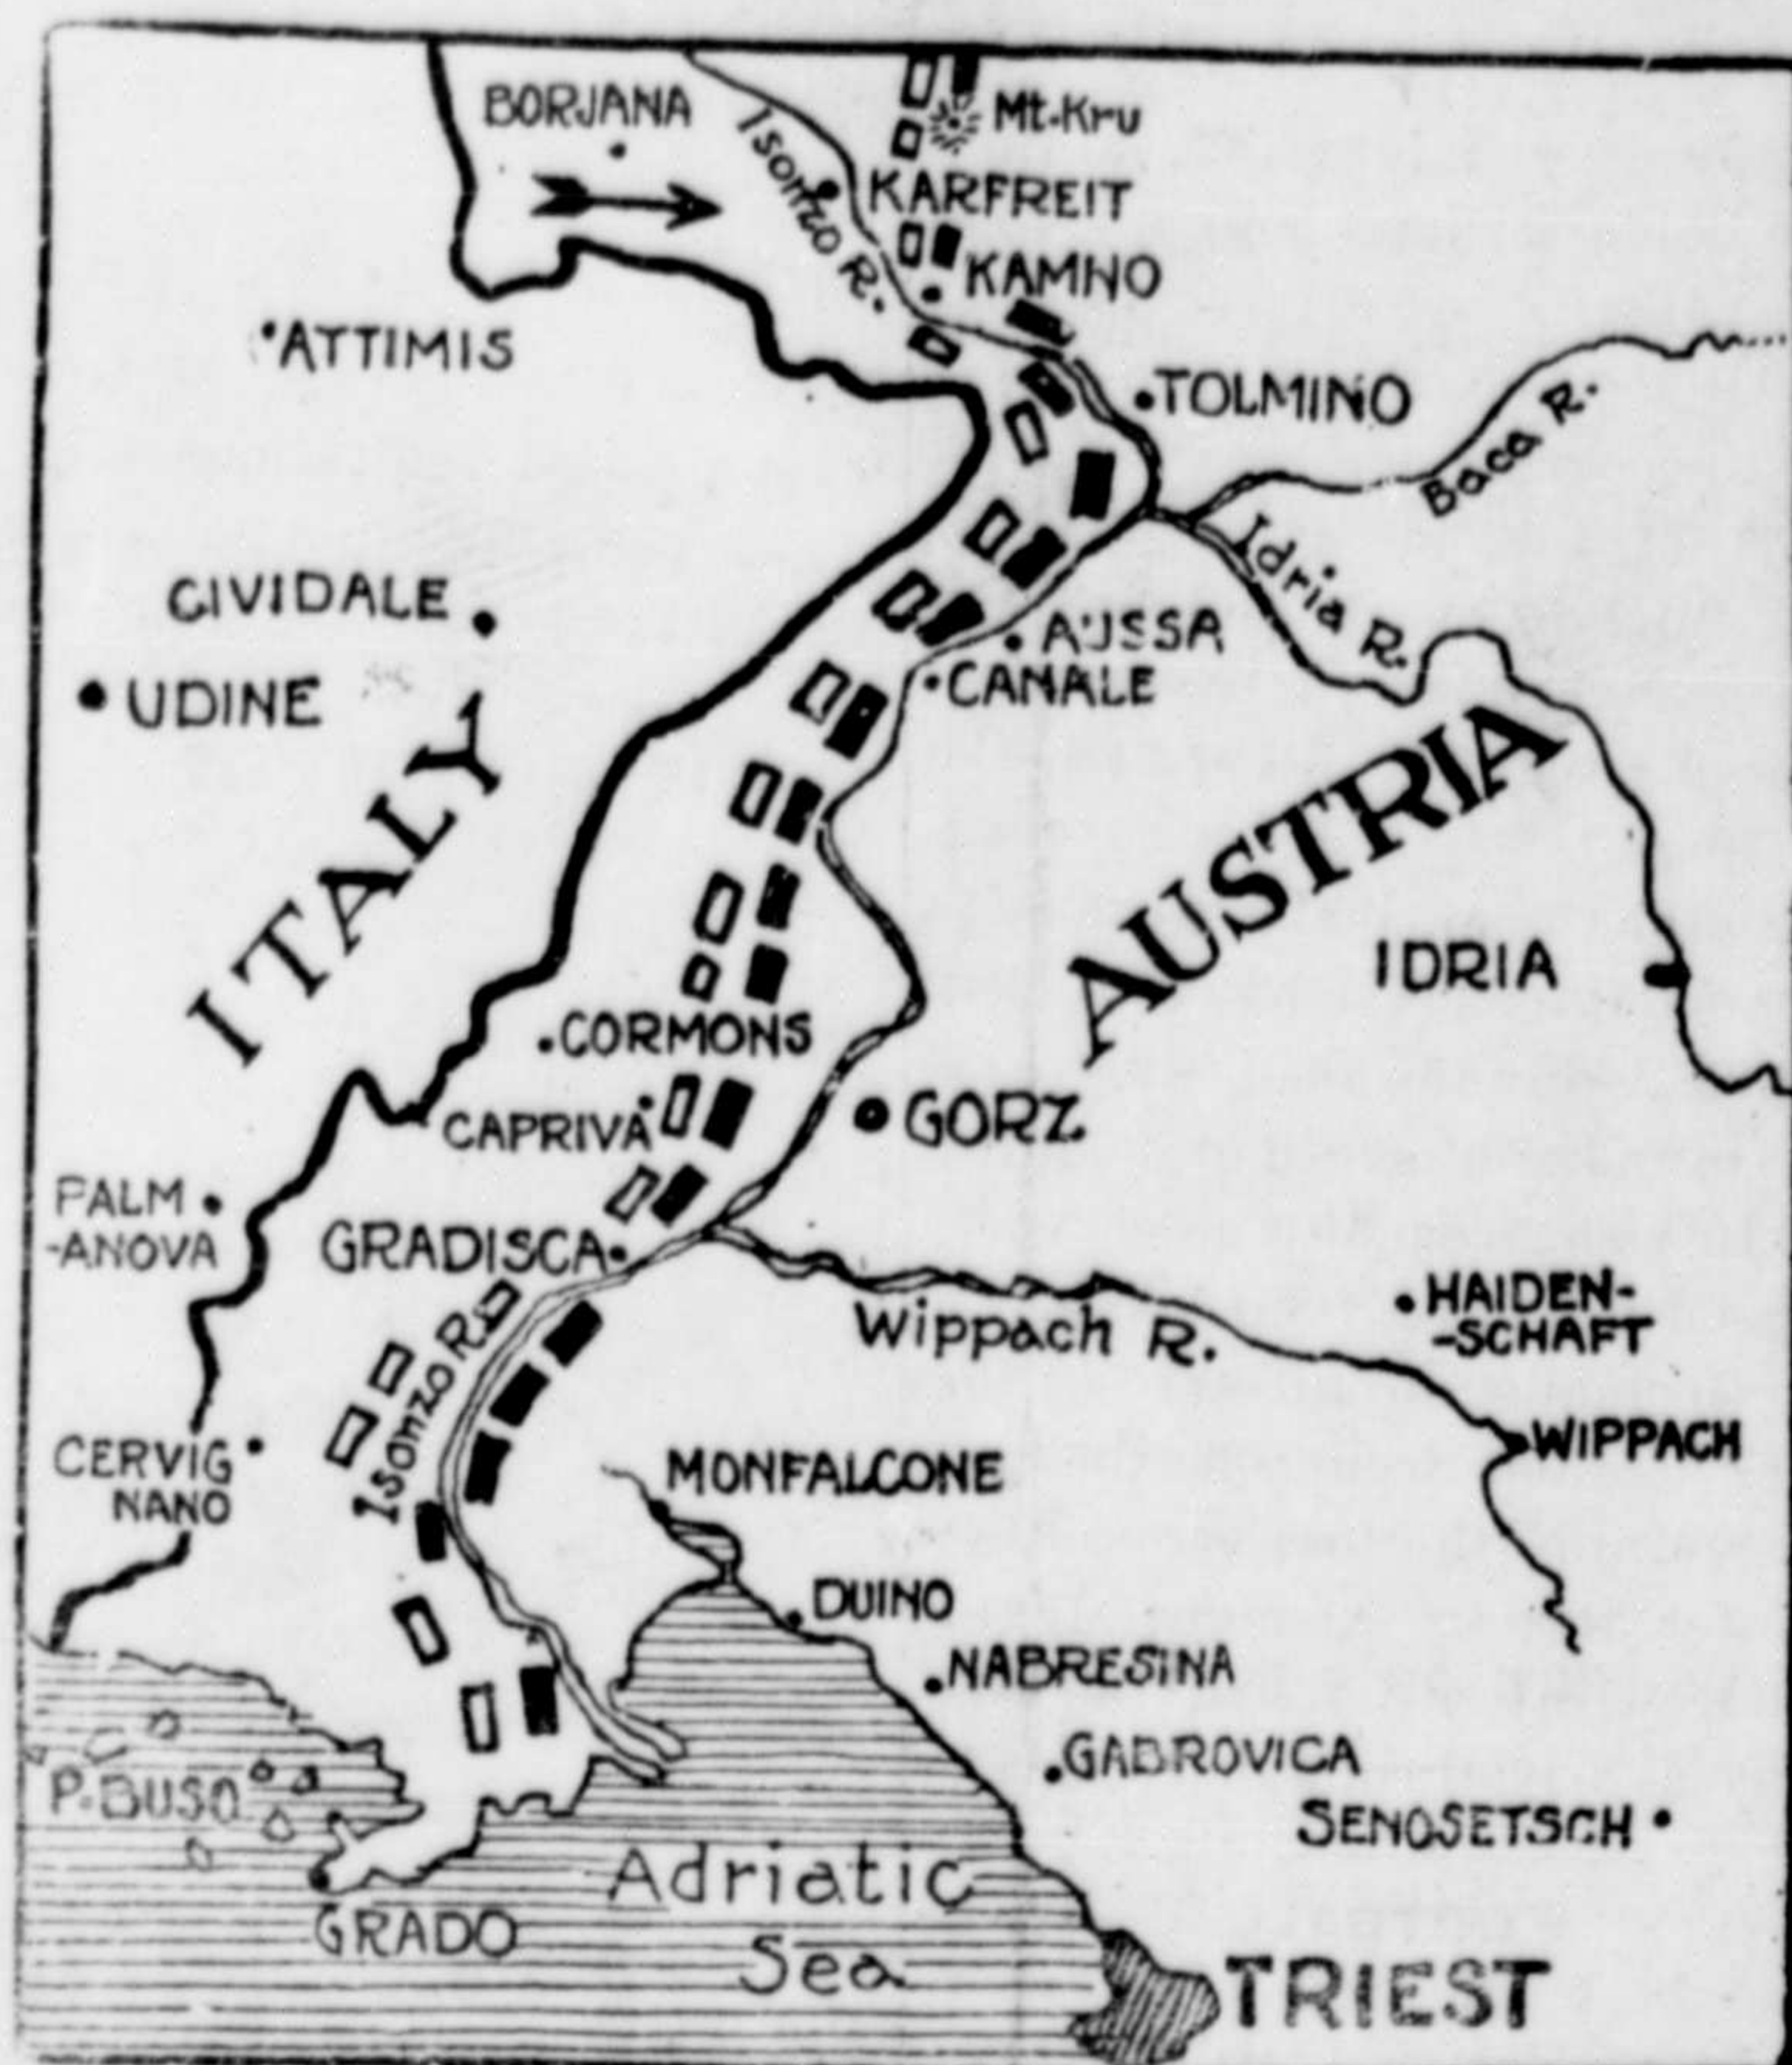

To Whom Concerned:

Having disposed of my interest in the New Wellington coal company to Mr. M. P. McCaffery, who, in connection with Mr. M. Albert, will continue in the coal business in Prince Rupert, I take this opportunity of thanking the public for their trade and patronage during the past seven years, and bespeak for the new firm the continuance of your good will and valued orders.

Very respectfully,

PROMINENT SCOTCH BUSINESS MEN SIZING UP THE SITUATION

**WILL PROBABLY PURCHASE 100,000 ACRES OF WHEAT LANDS
—LIKELY TO SHIP GRAIN THROUGH THE PANAMA
CANAL—LOOKING FOR A TERMINAL
SITE.**

There arrived on last night's train, W. R. Allan, of Glasgow, Scotland, and W. F. Stewart and J. Paisley, of Leith, Scotland, representatives of the directors of the Scottish Co-operative Wholesale Society, Ltd. Mr. Allan is a director of the concern, Mr. Stewart is commercial manager, and Mr. Paisley is milling manager.

These gentlemen have made a tour of the Prairie provinces with a view to purchasing 100,000 acres of wheat lands, on which the society intends to grow the bulk of its Canadian wheat supply. At present this concern has eight grain elevators in Saskatchewan and five in Manitoba, with a central purchasing department in Winnipeg. Their object in visiting the Coast is to size up the situation regarding a terminal elevator site.

Mr. Stewart, who is a grain and wheat expert, holds very decided opinions regarding the shipping of wheat from the Pacific Coast through the Panama Canal to the Old Country. He believes that large quantities of wheat are bound to be shipped by this route, and assured The Daily News that

his company will certainly ship wheat via the canal. Questioned on the possibility of the wheat becoming heated in transit, Mr. Stewart stated that Canadian hard wheat is practically free from any such danger on account of the very small proportion of moisture which it carries. In this respect, he pointed out that it is much safer to ship through the tropics than Siberian or Russian grain, as the latter almost invariably has a slight touch of frost which produces the moisture which leads to heating.

The Scottish Co-operative Wholesale Society is a large manufacturing and trading concern, producing practically everything in the way of food, clothing of all kinds, tobacco and various kinds of machinery, besides doing all their own printing, box-making, brush-making etc. They have 7,000 employees in their business, and disposed of \$50,000,000 worth of goods last year, most of which was handled through their retail department stores throughout the country.

All three gentlemen expressed themselves as delighted with the scenery along the G. T. P., and were greatly impressed with the prospects of Prince Rupert as a grain shipping point. They left on the Prince George for Vancouver this morning, en route for the Panama Exposition.

RUSSIANS SCORE ADDITIONAL SUCCESSSES ALONG DNEISTER

**ENEMY DRIVEN ACROSS RIVER—MANY PRISONERS AND GUNS
CAPTURED — REINFORCEMENTS WITH ARMORED
CARS DRIVEN OFF—STANISLAU VOLUN-
TARILY EVACUATED.**

(Special to The Daily News.)

Petrograd, June 12.—Additional successes are officially announced on the Dneister River near Stry. Several villages have been captured from the Germans, along with twenty-eight guns and many prisoners. The enemy was driven across the river.

Reinforcements with five armored auto cars were driven off and the entire 5th Company of the 70th Austrian Regiment was captured.

On the left bank of the Dubys-

za the Russians took the offensive and, in a night attack, captured 400 prisoners, guns and much booty.

On the Pruth line, at Otynia, the Russians captured 1,400 prisoners, including a portion of the Prussian guard.

Stanislaw has been voluntarily evacuated.

There will be a strawberry supper in the Baptist Church on Tuesday, June 15, from 5 to 8 o'clock. Admission 50c. 134-38

JAPANESE VISITORS LEFT THIS MORNING

Mr. Kahachi Abe, Japanese consul at Vancouver, and Mr. Akira Yamauchi, Minister of Agriculture and Commerce at Tokyo, left for the South on the Prince George this morning.

They have been greatly impressed with the importance of Prince Rupert as a port, and expressed the belief that, at no distant date, elevators will be constructed here, and a regular line of steamers will be sailing between Prince Rupert and the Orient.

They were particularly impressed with the drydock, and it is whispered that their visit will have an important bearing on developments in that quarter.

Quite a gathering of their fellow countrymen were at the wharf this morning to bid them goodbye.

WESTHOLME THEATRE HAS BEEN REDECORATED

Silversides Bros. will today finish the redecorating of the Westholme Theatre. The interior of the building has now a delightfully fresh appearance, and, from an artistic point of view, is a credit to the men who did the work.

CAUGHT ON THE FLY.

Hazelton's crack baseball team, having defeated all the Interior towns, will cross bats with the local team here next week in a three-game series. The Prince Rupert boys are hoping to avenge their former defeats and there should be some red-hot games.

Private Hunter, the Colt pitcher, has a fine record so far, with five wins and no defeats. He and Landis make a first-class battery.

Although handicapped with a damaged ankle, Firstbaseman Breckenridge played in the game between the Colts and the Cubs and hopes to be in shape for the Hazelton game.

The team is having batting practice this afternoon, hoping it will help them to connect with one of Pitcher Rock's speedy benders and lose the ball over the centrefield rock pile.

VANCOUVER COUNCIL CUTS ALL SALARIES

(Special to The Daily News.)

Vancouver, June 12.—The City Council has decided to make a general cut in salaries of city employees. Engineers Bracken, Francey and McLay have been released, their total salaries amounting to \$9,500. Engineer Fellowes' salary was reduced from \$8,000 to \$6,000 a year ago and has now been further reduced to \$3,000. All other officials have been reduced about 30 per cent. City workmen are reduced from \$3 to \$2.25 per day. Bottom men working on sewers will get \$2.50.

CANADIAN RED CROSS SOCIETY.

Gifts of knitted socks and any other articles intended for relief work at the front may be deposited at the Board of Trade rooms, where a receptacle has been provided for the purpose.

The organization will look after the donations and see that they are forwarded.

SPENDING CAPITAL.

The McBride government will go down to history as the administration which lost its opportunity. Coming into power on a flood tide of prosperity, with the richest province in Canada waiting to be developed, it utterly failed to grasp the possibilities of the situation.

Instead of developing the vast natural resources of the province, it disposed of them to corporations which had no intention of developing them. Instead of prosperous farmers building up thriving communities, we have vast tracts of fertile land producing nothing, because no farmer can afford to pay the price demanded by the grabber.

Imagine what British Columbia would have been today, had every section sold to the speculator been placed at the disposal of a farmer. Even had the farmer paid only fifty cents an acre, the province would have been vastly better off. The sums got so easily on the start from the grabber were a mere fraction of what these farmers would have produced. Production, and production only, can ever sustain a country. The money which would have flowed into the province from such production would have been interest earned on a sound investment. The land would genuinely have advanced in value, instead of fictitiously as at present.

The government mistook the money, which for awhile flowed in rapidly from land sales to grabbers, for income, ignorant or careless of the fact that it was capital. Starting out on a career of profligate spending, it squandered this capital as if it were income. What would you think of the business ability of a man who sells dividend-paying property for \$100,000 cash, and then spends that sum, which is his whole capital, at the rate of \$20,000 a

year, and in five years finds himself bankrupt? What would you say if he blamed hard times for his bankruptcy? Is he the kind of man you would hire to run your most important business?

This is exactly the course pursued by the McBride government, and the settlement day is near. The government has not only squandered money which it at one time possessed, but it has got away with millions of borrowed money. There is an enormous adverse account to settle, and there is no escape. You have got to put up your share of that squandered money. Where are you going to get it these days? The millions of acres of fertile land lying idle will not provide a cent. That land owes you \$15,000,000, but that is not forthcoming, and, if it were, it is not revenue, but capital, and should not be used to pay running expenses. Had those millions of acres been producing crops, your burden would have been light, but, under McBride rule, you have got to pay the share of the farmer who ought to have been on the land, and your own as well. It is your privilege to pay up and look pleasant in order that the land grabber may hold up your land for an exorbitant price. How do you like it?

Spending capital is a merry game while it lasts, but there is always a horrible jolt at the finish. The finish is drawing very near. The tragic part is that, in this case, the spenders were not squandering their own capital, but yours. Fortunately, the land still remains, and, with the McBride gang of gamblers out of the way, the speculator can be forced to hand back the land which is not being developed, and, in time, an era of genuine prosperity, based upon solid business lines, will dawn in British Columbia.

SMALL GERMAN TOWNS SUFFER MOST FROM WAR

It is a mistake for people returning from Berlin or Frankfurt to say that the war is not noticeable in Germany. There are many signs of it apart from the large buildings everywhere converted into military hospitals and the number of invalided and maimed soldiers. There is, for instance, much less life, at any rate, in the smaller towns, and in at least one fairly large industrial town the trams are not running owing to there being so little demand for them. In the fields it is almost exclusively women and children who are preparing the ground for the summer crops. The big army contracts have been given by the government entirely to large firms in large centres of population and not to smaller firms, which is another of the reasons why the effects of the war are much more noticeable in the smaller German towns than in Berlin and other chief cities.—Ex.

FARMERS LOOK FOR BIG PRICES FOR WOOL

Regina, June 12.—In view of the fact that last year's experiment in co-operative wool marketing resulted in the sheep owners who participated receiving from 6 1/4 to 8 cents per pound advance on the price of the year before, it is quite natural that the offer of the department to again act as selling agent should be much more widely accepted than it was last year. W. W. Thompson, director of co-operative organizations, in response to the circulars which were sent out to 965 sheep owners, has received assurances that 15,500 fleeces will be shipped this way, as against 10,000 last year, and from present indications a price of 20 cents per pound is quite within the range of possibility.

BASE IN DARDANELLES IS HISTORIC ISLAND

The Island of Lemnos, which the Allies are said to be using as a base for their attacks on the Dardanelles, has a long and varied history, but is now noted chiefly for its medicinal earth. This earth, which has been highly esteemed in the East since classic times as a cure for numerous ailments and an antidote to poison, comes from a dry mound near the village of Kotschinos, and can only be dug before daybreak on one day in the year—Aust 6—when Greek priest and Turkish hodja both attend and go through an elaborate ceremonial.—Ex.

EASTERN PROVINCES AND FISHING CONCESSIONS

"Tis said 'It is a long lane that has no turning,' and the New England fishermen must be thinking this when they read that Boards of Trade and other civic bodies of Eastern Canada are petitioning their government to remove the many onerous restrictions which hedge about an American fishing vessel when it approaches or enters a Canadian Atlantic port, and the precedent that these bodies are quoting for this action are the exceptional favors recently accorded to our Pacific Coast halibut fishermen by the Dominion authorities. Visions of the reputed thousands of dollars which it is expected our vessels will leave behind them in the British Columbia towns have evidently been vouchsafed to the Easterners and they wish to get a little of the same themselves.

The Halifax, Nova Scotia, Board of Trade called the attention of the Canadian Minister of Marine to the fact that in British Columbia fish can be landed in all American bottoms for the purpose of forwarding same to the United States, also to sell fish in bond to such local dealers as may be licensed therefor, who may export it, while in Nova Scotia, American sailing vessels may land fish to

be forwarded by rail to the United States, but when brought there in auxiliary power vessels or steamers this privilege does not hold good. Those vessels authorized to land and ship their fish are not permitted to sell it in bond to local dealers, who might export it.

The board thinks it no more than reasonable and equitable that Nova Scotia and the other Atlantic provinces should have the same privileges in this regard as British Columbia.

To this plea the Minister of Marine replied that in the modus vivendi between the two countries Canada has been waiving certain of the rights she claimed under the treaty of 1818, and it was a question what effect further modifications and continuation of the modus vivendi would have in effectually preventing her from resuming the treaty. He further pointed out that the permission given to the Pacific Coast was temporary only, and that temporary advantages ought to be weighed at their value against fundamental rights.

The Canadian protestants seem to have the better of the argument and are putting up a vigorous fight, having asked all the fishing centres on that coast to join in with them in protesting against the discrimination in favor of British Columbia, and seem to be meeting with much success, the Yarmouth Board of Trade having not only endorsed the suggestion of the Halifax board, but also gone it one better, by suggesting that the \$1.50 per ton for licenses required from American vessels for the privilege of buying bait, etc., be abolished.

It may eventually result that the courting by the Canadian authorities of the American fishermen on the Pacific may lead to our Atlantic brethren, who have been fighting for many years for such privileges as have been almost forced upon our fishermen, may get them without lifting a finger as the result of the fight being made by the Eastern Canadians.—Pacific Fisherman.

Use and Storage.
TAKE NOTICE that The Port Essington Water Company, Ltd., whose address is 547 Granville St., Vancouver, B. C., will apply for a license to take and use one and one-half cubic feet per second and to store 400 acre-feet of water out of Cunningham Lake. The storage-dam will be located at the outlet of Cunningham Lake. The capacity of the reservoir to be created is about 400 acre-feet and it will flood 2.33 acres. The water will be diverted from the stream at a point about 5 chains below the said outlet and will be used for Waterworks purposes upon the land described as part of Lot 45, Range 5, Coast District, being the townsite of Port Essington. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application or to the petition mentioned below may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The territory within which the company desires to exercise its powers is described as the townsite of Port Essington. A petition to amend the Certificate granted to the company in respect of its former right so as to include the right applied for herein will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller. The date of the first publication of this Notice is March 23, 1915. "PORT ESSINGTON WATER CO., LTD."

CHARLIE CHAPLIN AT WESTHOLME THEATRE

The Westholme was packed last night to see Chaplin in "A Jitney Elopement," and the huge audience literally raised the roof. Charlie is funnier than ever, and just as unconcerned. The piece includes a comic auto chase, which is full of Chaplin "stunts," concluding with a backward dive over a wharf into the sea.

The Gazette shown is particularly interesting, showing the movements of a submarine both on and under water. "The Price" is a drama of quality, while "Convicts, Costumes and Confusion" concludes the greatest laughter provoking bill screened for a long time.

VITAGRAPH PHOTOPLAY AT MAJESTIC THEATRE

The patrons of the Majestic Theatre have another rare treat in store for them tonight. The headliner of the bill is a Vitagraph masterpiece entitled "The Man Behind the Door." This is a picture full of real refined comedy, some splendid acting being seen. The entire play is gorgeously staged, and in the third act a wonderful ballroom scene is seen, the setting of which has certainly never been beaten in any picture. The management has no hesitation in saying that a better picture has never been seen in Prince Rupert. Another very good picture is "Won by Merit," produced in conjunction with the United States Civil Service Commission, a fine story of a young man who by sheer merit wins his way to the top of the ladder and a wife besides. The admission will be the same as usual, no extra being charged for the extra attraction. A matinee is given daily at this popular showhouse from 3 to 5 o'clock.

BOARD OF TRADE RECEIVES BORDEN'S ACKNOWLEDGMENT

The following letter from the Premier has been received by the Board of Trade commissioner, Ottawa, Ont., June 4, 1915.

Sir—Your letter of the 27th May is before me. Will you be good enough to convey to the members of the Board of Trade the deep appreciation of my colleagues and myself for the resolution they were good enough to adopt, with regard to the prosecution of the war.

Believe me, yours faithfully,
R. L. BORDEN.

KEEN FOOTBALL GAME AT RECREATION PARK

Last night's game between the Drydock and the Merchants was one of the most closely contested yet witnessed in the league series, although the football at no time could be termed brilliant. Winning the toss, the Merchants chose to kick into the city goal, but both teams were slow in settling to their game, the spoiling tactics of the halfbacks breaking any attempt at combination. Neither goalkeeper got much to do, although numerous good opportunities went abegging through the forwards failing to take advantage. Brighton, who was playing a good game for the red and black brigade, gave his team the lead with thirty-five minutes gone, putting a long shot past Woods. This made the Drydock more determined than ever to open their account, which they did just in the last minute, but, through an offside decision, which did not seem to be relished or understood by the players or spectators, the point was disallowed by the referee.

The second half opened with the Drydock forwards striving to force home their attack, but all to no purpose, erratic shooting spoiling their good outfield work. If the Merchants had been predominant in the initial period the Ironworkers were now certainly taking a firm hold of the game, but, so far, the only decent shot came from Neilson, but his elevation was too high. A breakaway by the Merchants' forwards was easily checked, and, returning to the attack, McWilliams missed a glorious chance to score from about six yards, but he partly made amends with a lively try from the line which just failed to connect. However, their consistent pressure ultimately bore fruit, as Winsby netted from a cross which Smart should have got away. Excitement was now at fever heat, but, with only a few minutes to go, a draw seemed to be the only result, as both teams were spoiling themselves through being over-anxious. When the final whistle sounded, the score was still one goal each, being the first undecided game in the series so far.

Best for the Drydock were McCrate, Neilson, Jones and McWilliams, while Currie, Doodson, Arthur, Cameron and Brighton all played well for the Merchants. Smart, at goal for the Merchants, would do well to get the ball away quicker, as this fault will cost him a point in some game.

Geo. Sinclair Russell referred and his decisions were satisfactorily received throughout except for that offside decision in the first half.
