Valley of Upper Yukon is on Fire

FIGHTING FOR POLAND WOULD BE INTOLERABLE CRIME SAY LABOR LEADERS

Forest Fires Are Raging in the Pelly Valley Region

ANS AND WHITES Concentrate Efforts to save Ross, a river post; Rivers low and country very dry

WSON, August 10.—Forest fires are raging in the vast area between the banks of the Pelly River, extending forty miles from McMillan to Ross, a distance of 100 miles in each direction. Millions of feet of magnificent timber has been destroyed. Efforts are being made to save Ross, a river post. Two hundred Indians and whites are concentrating their efforts to stop the spread of the conflagration in that direction.

Everything here is dry. There has not been rain for a long time and the rivers are very low.

A steamer Thistle, which carried a party of fire fighters to Ross, is stuck on a bar near Ross and is likely to remain indefinitely.

Pelly is another name for the upper waters of the Yukon. It rises in the Pelly mountains some miles north of the Canada-Columbia boundary.

MAN WAR VESSELS ARE AT NEW YORK

YORK, August 10.—Four vessels have arrived here as the result of the German surrender by the Germans, and two destroyers, all in bad shape and are now in port.

GIANTS AT STEWART MINES

Collart Accompanies Them Salmon and Bear Rivers.

Collart, Belgian consul, on Sunday after accompaniment of Belgian Danco, a mining and professor of the University of Liege, to Stewart. They visited mines on both Bear and Bear rivers. With a twin sister well known in the Vancouver social set, with a director of the Canadian Wheat Crop Co., a Belgian concern doing development work in the Stewart district, Collart was away a week, and the site for the mill installed at the Prendergast mine has been cleared and work is well there.

The young wife of Dr. Percy W. Barker was drowned here this morning in False Creek. She was diving from a raft close to shore taking it out over the in the presence of her sister-in-law.

CANADIAN WHEAT CROP 226,000,000 SAYS OGILVIE'S

WINNIPEG, August 10.—The estimate of the big milling company's representatives in regard to the crop is very optimistic. Ogilvie's report says that the Canadian wheat crop this year is likely to be 226,000,000 bushels, which is 50,000,000 bushels over that of last year. The increase is in spite of the small acreage in wheat as compared with 1919.

CITY FIREMEN DISORDERLY

Four Arrested Last Night and Fined at Police Court this Morning

DAVID RAY SENT UP FOR BITING OFFICER

Four city firemen appeared before Magistrate McDermid this morning on various charges as the result of a drunken brawl in the Fire Hall last evening which necessitated their arrest. The most serious charge is that lodged against David Ray who has been committed for trial for assaulting a police officer and biting the officer's thumb. He was also fined \$50 for wilfully obstructing police officers in the execution of their duties. J. W. McIntosh was fined \$50 on the same count and also \$40 for being drunk and disorderly. Hughie Smith pleaded not guilty to the charge of obstructing a police officer in his duties, but the magistrate accepted the evidence of the two constables and the prisoner had to fork out \$50. J. W. Moorehouse pleaded guilty to the charge of being drunk and was fined \$10.

Not Wilful

When McIntosh answered to the charge of obstructing the police officers Leek and Wisely in their duty he said that he did not do it wilfully. However the magistrate reminded him that this did not relieve him from the seriousness of the act. Even though he had been so drunk the penalty had to be paid just the same and so he was relieved of \$50 or 60 days in default of payment. He was fined \$10 besides for being drunk and disorderly.

Bit Constable's Thumb

After being fined \$50 for wilfully obstructing officers Leek and Wisely, David Ray appeared on the charge of assaulting special constable William Wisely and biting his thumb. In giving his evidence Constable Wisely told of having responded to a call from the Fire Hall from acting chief Jack McIntosh at 6:45 last evening that the men were drunk and fighting and he couldn't do anything with them. When he got there all appeared to be under the influence of liquor and he asked them to be quiet and cause no more trouble. Jas. Parks said that he would look after them.

Upon returning to the station Jack McIntosh phoned about fifteen minutes later and before they could get there the party on the other end of the line had come over to the City Hall. On going over a second time Constables Leek and Wisely went to the kitchen where they found Ray holding Moorehouse in his arms. It seemed as if they had been fighting, for there was blood on both. They were asked to be quiet, but it was decided that Moorehouse would have to be taken in. The accused hit Wisely on the head with his fist and grabbed him by the vest. They got into grips and started wrestling and they went to the floor with the husky fireman beneath him. Finally the handcuffs were placed

THREE DROWN WELL KNOWN

Miss Helen Sheridan and Mrs. Percy Barker Among Victims.

VANCOUVER, August 10.—Helen Sheridan, 17 years of age, one of the twin sisters well known in the Vancouver social set, with a young companion, Rosie Clifford, 9 years of age, were drowned in Shuswap Lake near Kamloops, where she was spending her holidays with her sister, Miss F. Sheridan of the S. G. R.

Miss Sheridan was born in Montreal and with Miss Clifford attended the Sacred Heart convent here.

The young wife of Dr. Percy W. Barker was drowned here this morning in False Creek. She was diving from a raft close to shore taking it out over the in the presence of her sister-in-law.

Financial Wizard Refuses Reveal Source of Wealth

Charles Ponzi is Puzzle to Financial World of New York; Bank Commissioner Refuses Cashing of further Checks for him

NEW YORK, August 10.—Charles Ponzi, who has made millions of dollars dealing in international postal exchange, refuses to tell how he made his money. He declares he will die before revealing the source of his immense wealth.

The bank commissioner forbids the further cashing of checks on his behalf.

Ponzi has created a sensation here through his operations. Many people thought him a fake, but when there was a demand made for their money by people who had loaned it to him, he paid all claims and seemed to have plenty of cash left. He is the puzzle of the financial world and opinion is fairly well divided in regard to him.

When McIntosh answered to the charge of obstructing the police officers Leek and Wisely in their duty he said that he did not do it wilfully. However the magistrate reminded him that this did not relieve him from the seriousness of the act. Even though he had been so drunk the penalty had to be paid just the same and so he was relieved of \$50 or 60 days in default of payment. He was fined \$10 besides for being drunk and disorderly.

Officer Leek in giving evidence at the time of the attempt to take Moorehouse in custody for the brand of language that he was using, Ray had interfered.

City Solicitor Hooper: "Then you say the constables are not telling the truth."

Witness: "Yes, I am telling the truth."

However, the magistrate had to remind the accused that there were two constables against him and although he would like to ask of the two witnesses and he was committed for trial.

Upon giving evidence against Hughie Smith when the latter pleaded not guilty to the charge of obstructing a police officer, Constable Leek told of having been pulled off David Ray whilst trying to place him under arrest. It was Smith who did this. The accused had obstructed him from doing his duties as a police officer. He had placed Smith under arrest.

Constable Wisely told of having been present at the time of the arresting of Ray. The accused Smith had jumped on Constable Leek's back and tried to pull him off. He had later inter-

British Labor Leaders Warn Government Against Trying to Save Poland

Say it would be "Intolerable Crime Against Humanity" for Allies to fight for Poland against Soviet

LONDON, August 10.—Labor leaders here have warned the British Government that a war of the Allies against the Soviet of Russia to save Poland would be an "intolerable crime against humanity."

PARIS, August 10.—The general official opinion here in regard to the Polish situation is that "Warsaw must fall."

HYTHE, August 10.—While the Allies have decided to reimpose the blockade against Russia, they will not send soldiers to Poland. That country is to get every possible assistance from England except waging actual war. Lloyd George and Millerand are discussing the report of Marshal Foch and Marshal Wilson. Foch says that Poland is far from beaten.

INDIANS IN COURT

Annie Moore Fined \$20 Under the Prohibition Act for Having "Home Brew."

Before Indian Agent C. C. Perry on Saturday afternoon the charge entered against George Moore for supplying was dismissed on the grounds of insufficient evidence. E. W. Paterson defended.

Annie Moore was fined \$20 for a breach of the Prohibition Act. She had been carrying on operations on a very large scale at Sunnyside Cannery when she was dishing out quantities of home brew to her friends from a large tub. The mixture was hot stuff and effective. It was made from mixture of berries, fruit, tomatoes, etc., with a very liberal supply of pain-killer and such concoctions added.

During the fishing season the Indian Department has considerable trouble with the Indians from the interior who come to the coast during such time. They take very strongly to the home brew, something to which the Tsimshians and other coast Indians have never been greatly addicted.

WRIT AGAINST FORTY-NINE CO.

Mining Suit Commenced at Vancouver by Stewart People Regarding Salmon River Property.

VANCOUVER, August 10.—A writ has been filed against the Forty-nine Mining Co. by William Murphy of Stewart and Laura McEwan administratrix for H. Stephenson of Stewart under the Mineral Act.

Plaintiffs oppose the granting of a certificate of improvement to the defendant company on the Million Dollar claim on Salmon River. Overlapping is alleged by the owners who ask for a declaration that the Yellowstone claim is valid and that they be given an injunction against trespassing on their property.

Ignorance Seems to Be Cause of Crime.

Ignorance seems to be the cause of some of the crimes committed recently. It is curious that the man Ogle should expect to be able to escape the police by going to work on a nearby farm. He must have been very ignorant of the capacity of the British Columbia police system.

Three men held up a train in the Crow's Nest Pass and expected to get away with it. They could not have been wise to the conditions in this country or they would scarcely have ventured on such a foolish stunt. The men were foreigners, apparently, and could not have read the newspapers or they would have known that in almost every case the criminal is eventually caught.

Busy Port Often During the Summer.

On Saturday Prince Rupert was as busy as any harbor on the coast. There were nine boats here, all at the same time, and numerous small craft were moving back and forth in the harbor. We have the largest mosquito fleet of any place in British Columbia and the result is that the harbor never has the appearance of being deserted.

The tourists from Alaska come here and walk up Third Avenue and returning to the steamer say they have seen Prince Rupert. It seems a pity that there cannot be an effort made to drive visitors in sightseeing cars from end to end of the city so that they may see the cold storage plant and mill and find out that there is a good deal to the city outside of the mere business section. They would then carry away with them a much better idea of the city and its importance.

At the week-end a lady, who called herself a "magazine writer" called at the News office and on being questioned said she thought she had seen about everything there was to see here. She had not been to the shipyard, the cold storage, the lumber mill, nor had she seen the fleet of fishing boats at Gwai Bay. She had not the faintest idea that this was a fishing port and she seemed profoundly ignorant regarding everything on this northern coast. It was suggested she get around and see things a little and she was told how to do it. People such as that are a danger. It is difficult to educate a person who gets this far without already having acquired at least a rudimentary knowledge of what there is on the coast.

Prepare to Give Facilities to Industries.

The City Council doubtless finds itself in a difficult position in regard to finances. At the same time it is necessary for the life and prosperity of the city that every inducement be given to those wishing to establish industries of any kind here. Just now there are proposals to develop the waterfront at Shawatlans Passage beyond Seal Cove. A wagon road is needed in order that this part of the city may be used. If there is a real intention of the industries to go ahead, the city will be well advised to give them every support, and we believe they will get it. There is already one business on the ground, and it seems likely that fish docks will be built by the Dominion Government in that locality. A road will be necessary all along that frontage to the city limits before long. If we are to have a real city we must have industries, and the northeast section of the city seems to be the place for them in view of the fine waterfront there. We suggest that the road be laid out in such a way as to be the beginning of a shore road to the back of the island.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

The Sons of England football team in competition with the Callies tomorrow night, for the Gilhuly cup is as follows: Winsby, Darton, Wearmouth, Shimmons, Crisp, Kelsey, Hardy, Lambe, Tinker, Fanthorpe, Farquhar, Reserves—Tabrum, Smith.

Knights of Pythias picnic will be held at Tugwell Island tomorrow, Wednesday, August 11. A good time is assured. Boats leave from Prince Rupert Boathouse, west end of government wharf at 1:30 and 2 o'clock sharp. Tea, coffee, milk and sugar provided.

The question of garbage disposal was mentioned at the City Council meeting last night. Mayor McIlroy explained that the city had no other waterfront than where the scow now was, but they were making conditions as good as possible under the circumstances.

Sport Briefs

Bill Sherman made his appearance on the line-up of the Sawmill baseball team last evening and held the position of left field. Bill is the fast-stepping short stop of the Butchers' team and his appearance on the intermediate league shows that all the teams are out to gather in the best material they can. The fine feature is that all the team managers have been coaxing out all the local boys they can.

Sid Jones the first baseman of the Red Sox was off at a flying pace last evening when it came to batting. As clean-up man his hits generally did good work. At first base a number of the rival players ambled down to second when the ball went by Sid and hit the rock pile. However, wild pegging was to a great extent responsible for this.

It was the greatest satisfaction to players and fans alike to have two such competent umpires as Harry Day and Dick Rossen last evening. Their decisions were given and it was not with any doubt that they pronounced verdict on any play. This was brought out especially in the play at second base in which the runner went home on a pop fly and never came back to touch the bag.

He went right home but Dick Rossen had called him out a long time before the opposing factions had started to squabble around the benches.

Tomorrow night will be the first football game of the Gilhuly Cup series. When the Sons of England and the Callies meet in football it generally means a good game. Last week's match in which the Englishmen decidedly slipped it over the Scotchmen has put new life into both sides.

Tommy Sherman, playing in left field for the Red Sox last evening, caught some dandy flies. His batting helped out considerably for he was connecting pretty well last night. His rival for fielding honors in the Sawmill team was Maurice Fowler, who was grabbing them off thick and fast in the centre section.

Joe Abbott was working hard behind the plate last evening. He was well harnessed for the catching game and in spite of all the jests from the grand stand maintained a good steady hold of the play and his team. His trick play would not have been so well engineered at second base if Louis Astoria had not been content to put him out and then fall over him while the man on third went home.

Last evening's match was one of the most largely attended that has been staged this year. Ideal weather conditions prevailed and it was a pleasure for the fans to see such a close and thrilling game. The evening being so mild and warm it was more than pleasant to sit outside apart from watching any baseball that might be going on. Very few of the large number of fans left before the very last play was made, for the issue had been rather see-saw, all evening and a last minute blow-up meant much for one team or the other.

BEHIND every industry in Canada—

—from the patient truck-gardener bowed over his lettuces—

—to the young manufacturer struggling to prove the worth of Canadian skill and Canadian material in some new enterprise—

—stand the railways—the intelligence, the power and the hopes of the railways of Canada.

Not, like the Exploiter, watching to take harsh advantage of hard-times or the follies of a boom—

Not seeking by a moment's shrewdness to "clean up a million and get out!"

Not interested in the price of real estate in just ONE town, or the prosperity of just ONE province—

But, instead, employing their widely-gathered intelligence in the interests of all Canada for all time to come!

For the railways of Canada cannot be lifted up and carried away to serve any other master than Canada!

Their services cannot find any buyer but Canada!

They injure themselves if by asking too high returns To-day they damage the prosperity of the citizens of To-morrow.

The request for increased freight rates is made with these facts in view.

Canada will still have the cheapest, the fastest and the most reliable railways in the world!

DEVELOPMENTS AT SEAL COVE

City Council Planning a Wagon Road to Serve Industries Going There.

There are developments in sight at Shawatlans Passage beyond Seal Cove and the works department of the city is planning a wagon road to serve the business places just as soon as it is shown that work is really going ahead.

At the City Council meeting last night Alderman Rochester asked why nothing had been done towards building the trail to the Seal Cove Marine Ways.

Alderman Kerr said they had been planning a wagon road there. One plan was to build it from 44th Ave. to the waterfront, but difficulties had developed and they now thought it might be better to build in from 8th Ave. They were preparing plans for a road going in by the Japanese building.

Alderman Casey said they had tried to meet the requirements in that direction and the engineer had authority to carry out the work. They had no old plank just now, however.

Waiting Policy.

The Board of Trade had asked that a wagon road be constructed to serve the proposed P. Burns' packing house and other developments which were proposed there.

If they built the wagon road it would serve everybody. It would not be wise to build a footpath even at a cost of \$200 if they were to build a wagon road.

Alderman Kerr said they had looked over the ground and were prepared to go ahead just as soon as business warranted it.

CLOSE BALL GAME, RED SOX WINNING

Score of 10 to 8 at Acropolis Hill Last Night.

Last evening's baseball game with the Sawmill was carried away by the Red Sox by a 10 to 8 score. In the first of the eighth the score stood 6 to 5 in favor of the Red Sox and they made no runs when they came up to bat. The Sawmill went round the diamond totally three which put them two ahead. The Red Sox came to bat and gathered in three runs which gave them the lead. In their last innnings the Sawmill failed to register, for Sherman went out on a pop fly at second, Rossiter fanned the next two men up, namely Fotos and Hagsted, and thus the game ended.

There were no particularly outstanding plays or players except that good baseball was played to the very end. Pitchers Astoria and Rossiter lasted the whole period and made a splendid showing. The runs by ing.

The line-ups were as follows: Red Sox—Jas. Mitchell, L. Astoria, Charlton, Jones, Frizzell, Rossiter, Sherman, Davidson, Butlers and Graham (spare).

Sawmill—Hagsted, McKay, Alec, Abbott, Astoria, Maxwell, Fowler, Sherman, Fotos and Woods.

Umpires—Harry Day and Dick Rossen.

OBJECT TO BEARS

William Forest of Stewart Writes Taking Exception to Bruin's Depredations.

A letter received in Victoria from William Forest, dated Stewart, July 25, but written twenty-eight miles back in the hills, says:

"We have had beautiful weather and many prospectors are in the hills. We are much troubled with bears around our camps. My neighbor, Hansen, had a visit while he was gone. On his return he found his tent in tatters and his grub all destroyed or eaten. A. Bryan had a visit also and the bears destroyed some of his grub. Even in Stewart a bear came into a woodshed and took chickens. Why that fool law preserving bears instead of paying a bounty for their scalps is what I cannot understand. Our 'old wives' in session imagine that wild animals are harmless and tame. Several hundred dollars' worth of damage has already been done in this neighborhood by these animals. The rivers have gone down the last few days and the snow has gone from the mountains in quick order. Grouse are scarce, the nesting season having been late. Goats are plentiful; I saw seven the last time I was on the Comin. I do not carry a gun, but like to see the wild creatures in their native element."

On motion of Alderman Rochester; the amusement-tax bylaw was again laid over by the City Council, necessary data not being to hand in regard to it. Alderman Perry said when it did come up he would like to hear something in regard to the principles of the measure.

DISCUSS ROAD TO ACROPOLIS

City Council Will Consider Matter of Improving Present Narrow Drive.

At the City council meeting last night considerable discussion took place in regard to the improvement of the road between the summit Apartments and the exhibition grounds. It was precipitated by a letter received from the secretary of the fall fair asking that the council take steps to safeguard against possible accidents at that time. The present narrow road was a menace.

Alderman Casey said the road had been a bone of contention for two years. On a former occasion the council did not see fit to conform to the wishes of the Exhibition Association. Now he thought they were in a worse predicament. He would like to hear the views of the other members of the council. If the improvement was essential they should see if they could get it going.

Varied Views.

Alderman Dybahn thought the letter should go to the Board of Works for them to decide what was necessary.

Alderman Perry said a loop had been put in last year. If the present road was made safe, he thought that was all which was required.

The mayor suggested that the present road be fixed up this year and next year they could have it graded and do away with the planking.

Alderman Rochester thought a turn table farther down, near the Summit Apartments might fill the bill and not allow the cars to go up the narrow part except with goods for the fair.

Permanent Grade.

Alderman Kerr fancied they might put a permanent grade alongside the planking and the cars could then go up one way and down the other. The present roadway was at the end of its life very nearly. Then next year they could complete the graded roadway.

Alderman McLennan suggested that a couple of turnouts be made in the narrow part.

The letter was eventually sent to the Board of Works for report.

COW BAY WILL BE DISCUSSED

Committee of Council to Meet the Board of Trade and Thrash Out Matter.

On Friday next a committee of the whole City Council will meet a committee from the Board of Trade to thrash out the Cow Bay question in all its ramifications and deviations with a view to a settlement. The matter came up at the council meeting last night on letter from the secretary of the Board of Trade being read asking for such a committee.

Mayor McClymont in appointing the council as a whole to meet the Board of Trade, said the people fancied there was a fly in the ointment. He had found, however, that when the Grand Trunk railway did not want to go on with anything, they usually blamed the city for blocking it. The council did not object to the closing of Cow Bay. All they asked was that when the matter came before the Board of Railway Commissioners, they should be allowed to be heard. There was no intention to hold up the development of the city. The wholesalers were anxious to find locations on the railway where they could locate permanently if they were turned out of their present positions.

LATER CLOSING FOR WEEK OF FALL FAIR

Proposal Made to City Council is Discussed and Laid Over.

A letter from D. McD. Hunter, secretary of the Agricultural Association asking that if possible the Early Closing Bylaw be made non-effective for the fair week, was read at the meeting of the City Council last night.

Alderman Kerr asked that it be laid over as another petition was being circulated by the clerks asking that closing generally be at 6 instead of 6:30. If the business men were willing to close at 6 the clerks would be willing to meet them in regard to fair week.

When the bylaw was being amended that week might be excluded from its operations.

Alderman Rochester thought it would be a good thing to do away with early closing for fair week, as long as the employers could arrange with the employees.

Alderman Casey said that if it was mutually agreed on, he had no objection, but if the clerks thought it an imposition he was absolutely opposed to it. The functions in the evening on fair week were looked forward to and unless they came to an arrangement he would not favor the relaxation of the rules.

Mayor McClymont said it was up to the interested parties to arrange. The letter was then laid over until next week.

A report by Harry Wighton, engineer, in regard to road making in Prince Rupert, being a written record of what took place at a previous meeting, was filed last night by the City Council and a copy ordered to be provided for each alderman.

The Provincial Government has appointed William Somerton and Mrs. Caroline Charlotte Ogilvie as members of the hospital board at Prince George.

FISHING IS SUCCESSFUL THIS YEAR

Pack on Rivers Inlet Will be About 120,000 Cases Says Inspector.

LARGE CATCH ON SKEENA THIS YEAR

Plenty of Fish Have Gone Up All Rivers to Seed Spawning Beds.

J. T. C. Williams, inspector of fisheries, has just returned from a visit of inspection to the southern portion of the district. He brings most favorable reports from Bella Coola, Kinsquit, Bella Bella and Namu, Rivers Inlet and Smiths Inlet. The run of all varieties of salmon has been most encouraging, all the canneries and fishermen have done well financially. The canneries on Rivers Inlet have put up large packs of sockeye, one of the heaviest runs in the history of the Inlet. It will be in the neighborhood of 120,000 cases.

The run of sockeye is now almost over in the southern portion of the district but the pinks are showing up well, and immense quantities of this variety are being captured by the purse-seiners.

Every care is being taken to conserve these fisheries and to enable a sufficient quantity of salmon to reach the spawning grounds. Already at Rivers Inlet and Smiths Inlet all gill-net fishing, with the 5% inch mesh net, has been stopped and the lakes at the head of these waters are plentifully supplied with spawning sockeye.

The cohoes have not commenced running at present in any quantities, but undoubtedly will appear later on, as it is early for these fall fish.

Skeena River.

The run of sockeye to the Skeena river is improving daily, and averaged last week about 25 to the boat. Sunday night's catches increased to about 40, the pinks and cohoes are running strong and the prospects for a good run of cohoes are most encouraging.

The Skeena salmon pack, taking it as a whole, will probably equal last year, but the sockeye run will fall a little short, as 1919 was an exceptionally heavy run of sockeye, the run of this variety, however, will show an increase on 1916, and as the sockeye is a four year fish on the Skeena it proves that the sockeye are on the increase.

Boats Capsized.

Last week was exceptionally stormy on Chatham Sound, heavy southeast gales blowing, which made the fishing in this area most dangerous. Fourteen boats were capsized and one fisherman was drowned. This interfered with fishing operations and drove the fishermen into the river.

It was considered desirable to lower the upper fishing boundary on the Skeena for sockeye fishing and this has been accomplished, thus giving the sockeye a better chance to escape the nets and reach the spawning grounds. The change has been decided upon in the interests of conservation. Already reports from the upper Skeena spawning grounds are to the effect that large quantities of

spawning sockeye are passing up the river and have reached Kispiox and will shortly arrive at the Babine lake. The fisheries officer stationed on the upper boundary of the Skeena reports that ever since June 1 he has noticed sockeye passing up river and lately that large quantities may be seen jumping as they pass the boundary.

Frank Purvis, contractor for drainage work for the G. T. P. on this part of the line, received a bad fall from his speeder when it jumped the track while crossing the Sealy Gulch bridge. His hip received a nasty wrench but he is now able to be up and around again.

Mrs. D. R. Willemar and Miss Bosley have returned from a holiday visit spent at Smithers.

Mrs. E. R. Cox and children of Prince Rupert are visiting here for a few days.

Miss Sutherland is the guest of Mrs. C. H. Sawle here, having arrived from Vancouver last week.

Mrs. A. M. Ruddy has returned to Burns Lake following a brief stay spent here with Mrs. Peter Smith. Mrs. Ruddy was accompanied home by Miss Jessie Smith.

Miss Norah Wallace entertained a number of friends on Friday afternoon at her new home.

George Hodgins' log building at Five-Mile creek has been purchased by John H. Willan. It will now be converted into a barn.

LAND REGISTRY ACT.

(Sections 36 and 134.)

Take Notice that application has been made to register John A. Murray, of Prince Rupert, B.C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 22nd day of October, 1919, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the City of Prince Rupert, more particularly known and described as Lot Six (6), Block Twenty-nine (29), Section One (1), (Map 923). You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication in the Daily News, Prince Rupert), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:

"and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up claim to or in respect of the land sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title in the above-mentioned lands, in the name of John A. Murray.

AND WHEREAS on investigating the title it appears that prior to the 9th day of October, 1918, (the date on which the said lands were sold for overdue taxes), you were the owners thereof, as stated opposite your respective names.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of John A. Murray, unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Prince Rupert, B.C., this 16th day of April, A.D. 1920.

H. F. MACLEOD,
District Registrar of Titles.

To Elia Mason,
Miner, B.C., registered and assessed owner.

To Priscilla G. Hurrell,
