Bolsheviki 20 Miles from Warsaw

PRELIMINARY TRIAL IN PRINCE GEORGE MURDER CASE; STORY OF ESCAPE

Artillery Roar is Heard at Warsaw, Direction of Plonsk

Lacking Russians are within Twenty Miles of Poland's Capital and may reach it before peace is made

WARSAW, August 14.—Russians are attacking Plonsk within ten miles of the Vistula to the northwest of the Polish capital. The roar of artillery on the battlefield could be plainly heard here on Friday.

PARIS, August 14.—News has been received here that the Russian troops are closing in upon Warsaw from the northeast. The Bolsheviki are reported to be within twenty miles of the Polish capital. Little doubt is felt that they will reach the city before peace negotiations are concluded.

LONDON, August 14.—A preliminary peace treaty has been signed between the Russian Soviet and Armenia, says a Moscow dispatch.

WARSAW, August 14.—(p. m.)—The Russians are encircling the rear of Warsaw and lengthening their front.

GRAND LODGE YUKON PIONEERS

Maxime Landreville is New Grand President.

DAWSON, Aug. 14.—The Yukon Order of Pioneers at their Grand Lodge meeting yesterday elected Maxime Landreville for its grand president; vice-grand, Frank Brock, and grand secretary George Brimstone.

The constitution of the order is being amended to allow to membership anyone living in the Yukon watershed who was there by August, 1900, instead of 1906 as formerly.

The Pioneers expect to hold a celebration on Tuesday when they hope to greet the Nome bound planes.

Mr. Landreville will later visit Pacific coast points to form branches of the organization. They will invite George Snow, a charter member, to Seattle to be the guest at the Discovery Day celebration in 1921.

COAL ARRIVES FOR DOCK WORK

Scow With Construction Outfit Expected Here Tomorrow.

Two large scow loads of coal arrived in port this morning in tow of the tug Clayburn. The coal will be used in connection with the firing of the various boilers for the new dock erection.

The tug with the outfit, which was stalled on account of unfavorable weather conditions, has not yet reached port but is expected in by tomorrow. The tug Esud lost a scow load of piles and only something over thirty of these have been recovered.

BAD FALL FROM WALK ON THIRD AVENUE

Man Topped Over Twenty Feet and Fell on Head But is Uninjured.

A phenomenal accident occurred on the main thoroughfare of Prince Rupert yesterday afternoon when a man by the name of Parker fell from the railing of the sidewalk between McBride and First Streets on Third Avenue. All that the man can remember of the accident is that he sat on the top rail with his face to the sidewalk. He is subject to fits and it is thought that he suffered a dizzy spell and toppled over.

The distance he fell was well over twenty feet and this morning is none the worse for his experience. In the fall, Parker must have landed on his head, but all that is wrong this morning is a sore neck. A slight skin scratch was inflicted on his head but there were no other wounds.

RAILWAYS GET INCREASE ON THIS SIDE

RAILWAY COMMISSIONERS granted increases in through rates to United States roads in order to conform with those approved by the Interstate Commerce Commission at Washington. This will apply to all railroads except coal and coke.

FIRE LOSSES OF DOMINION NOT BIG

TORONTO, Aug. 14.—The fire losses of Canada for the month of July throughout the Dominion of Canada totalled \$1,426,850.

BOY HURT LEG

Trouble Was Averted by Prompt Action on the Steamer.

A shriek from a boy spread into the hearts of many on the Prince George steamer approaching the dock. The boy had been standing near the line from the steamer had been fastened to the rope and it was merely pinched when the ship started to leave the dock. Quick action at the wharf saved the situation, however, and the boy was released from all directions and everybody, for many thought that a boy yelling because he had fallen off the wharf.

LABOR LEADERS ARE HEARD IN LONDON

Ald. Heaps and Jack Kavanaugh Slate Mounties at Mass Meeting.

Charging that labor officials in the United Kingdom deliberately obstruct their work, but that the rank and file ardently supported the Winnipeg delegates, Ald. A. A. Heaps, S. E. Gage and Jack Kavanaugh, of Vancouver, gave an account of their activities on behalf of the convicted strike leaders in England, before a mass meeting in Victoria park, Sunday afternoon. Ald. A. A. Heaps made some serious charges against members of the R. N. W. M. P. and said that the government used the mounties to incite returned soldiers to riot.

Mr. Gage charged Tom Moore, secretary of the Canadian Trades Congress, and Samuel Gompers, president of the American Federation of Labor, with being the instigators of the opposition tactics said to be employed.

PROCESSION IN BELFAST

CROP REPORT ENCOURAGING

Harvesting Commenced this Week in Several Districts.

The outstanding feature of this week's crop report of the Canadian National railways is the fact that harvest is becoming general throughout Manitoba and the southern sections of Saskatchewan and Alberta this week, while in the central sections of Saskatchewan and Alberta the reaper will not be at work except in isolated districts until ten to fifteen days later. It is also shown that the west as a whole is on the eve of a very satisfactory harvest. Considerable barley and rye have been cut in all parts of the country. The hay crop is reported to be good almost everywhere, while other fodder crops are doing well. Rain fell in all sections last week and was very beneficial to grain and vegetables, grain in some districts being improved from fifteen to forty per cent.

Conditions along the C.N.R. main line to Edmonton and in the territory served by the Saskatoon-Calgary and Edmonton-Calgary lines continue highly favorable and there will be an immense output of grain from this large area. Several points report that the crops are equal to those of 1915.

The Athabasca, St. Paul de Metis, Turtleford and Shellbrook districts are also on the eve of reaping most bountiful harvests. Hail has occurred in a few localities in all the provinces, but resulting damage has been comparatively small. In every instance it is stated that first reports of hail storms were grossly exaggerated. Only three districts report the appearance of rust, but the grain in each case is too near maturity to be seriously affected and the areas concerned are small.

Cheering Message

Sioux Lookout, Quibell, Slate River and Rainy River in southwestern Ontario, where there is steadily increasing agricultural development, contribute cheering messages to this week's report. In each of these districts enormous hay crops have been gathered and all grain will give big yields.

In Manitoba east of Winnipeg, and throughout southern Manitoba, crops are ripening rapidly and large areas of grain will be in stock by the end of the week.

Ogle Trial Opens at Prince George

Prisoner drifted down the river on raft constructed by himself after eluding Police at Mud River

PRINCE GEORGE, August 14.—The preliminary hearing of Oryal Ogle commenced here today in a crowded court room before Magistrate Daniels.

Little Haddy Dryman, having identified Ogle as the man who assaulted Dodd, broke down and sobbed. Ogle was guarded in the dock by three policemen.

The story of the successful efforts of the provincial police to locate the alleged murderer as told at the trial showed that he was traced through having given a Grand Trunk Pacific construction man a letter addressed to his wife.

After eluding the police at Mud River, Ogle drifted down the Fraser on a hastily constructed log raft as far as Quesnel, and, it being necessary to eat, he obtained temporary employment. It was then that the provincial police took him.

RAILWAY COMMISSION WITHHOLDS DECISION ON FREIGHT RATES

OTTAWA, August 14.—The decision of the Railway Commission on freight rates has been withheld, presumably for the purpose of gathering more information and hearing from interested parties who have not yet presented their views.

GIVENCHY ON WAYS

VANCOUVER, Aug. 14.—The Fisheries patrol boat Givenchy went on the marine ways here at noon today for overhaul.

and threshing operations will begin next week, providing present favorable weather conditions continue.

West of Winnipeg, north of the Assiniboine as far west as Brandon and northwest of Dauphin and Canora, Sask., wheat cutting is well under way. Late rains have made a great improvement in the Neepawa district and adjoining districts to the west, and fair yields will be realized in this extensive grain-producing section of the province.

Swan River and the districts west and northwest of that point will also produce good average yields generally and in some localities thirty to forty bushels per acre.

COULD HAVE WHEAT TRADE

Ship Through Prince Rupert if Facilities Were There

WINNIPEG, Aug. 14.—If Prince Rupert had the facilities there might be a quantity of wheat shipped from that port this year en route to Japan. That country will need a good deal of wheat now that the supplies from Siberia are cut off. It is not thought likely that there will be heavy production under the present unsettled conditions in that country, perhaps for years to come. Canada is the logical place from which to get the wheat and Prince Rupert is the nearest port to that country, the natural outlet from northern Alberta.

On Sunday the Telkwa baseball aggregation came down to Smithers and walloped the boys at the divisional point to a score which would have required an adding machine to register. While the Smithers team squabbled about decisions, the Telkwa boys romped round the bases until the score stood well over the two dozen mark. The visitors had considerable base running practise which will serve as a splendid training for the next sports gathering.

Recent arrivals from the Queen Charlotte Islands report that one of the most popular activities amongst the younger set there is tennis playing. Only a small piece of ground is required for this superior outdoor sport. In smaller communities, where there are not sufficient residents to warrant the support of a football or baseball teams, tennis takes very well and local tournaments can be arranged very easily.

On Thursday afternoon a fast football game was played at Smithers between the G. T. P. and an eleven representing the merchants of the town. Many fans were out to root for their respective favorites in this rather interesting fixture.

There were one or two particularly bright incidents during last evening's baseball game between the Beavers and the Colts. One particularly bright play showed up at second base when Curtis caught George Mitchell on the run from second to third. Curtis was playing short stop and he fielded a ball quite close to second base where George was waiting to get round to third. The Beaver short stop made as if to throw it first and George came off his sack and Curtis tagged him out quite easily. It was a heady piece of play and the young Colt fell for it.

Butler, pitcher for the Colts, played a wonderful game last evening. In the six innings which the Beavers batted he had ten strike-outs and four assists. In the first inning when three runs were scored against him he had swatted two men and then the third up Curtis knocked a long drive into left field and he was able to clean up the bases and get home himself. In the last of the Seventh when the Beavers were hedging as to whether it was worth while going out to take their bats or not, Butler was ready in box prepared to serve

CANADA anticipates a period of growth.

Her raw materials remain the envy of her competitors.

She commands capital and skilled workmanship.

Her position in the British Empire gives her prestige and opportunity.

But whether she realizes her hopes fully or only partially rests to no small degree upon her steam railways.

CLOSER to Orient or Europe than is any other part of the New World, Canada

would lose this advantage if her railways proved unable to carry her goods quickly to these well-placed ports.

She must be prepared for any development of traffic east-bound or west—or south.

HER rail service must be elastic and dependable.

It must have reserve capacity, whether to roll a bumper wheat crop east, or some other Canadian product west-bound for Siberia or the Antipodes.

Elasticity, dependability and reserve capacity are profoundly affected by the overwhelming increase in operating expenses as compared to revenue.

THIS is another reason why increased freight rates are necessary in the public interest!

NO INTEREST IN THE TARIFF IN THIS CITY

Commission Opens at Winnipeg on September 15, But Passes Prince Rupert by Unheard.

OTTAWA, August 13.—The Tariff Commission will not visit Prince Rupert although every other centre in the country will receive attention, according to the present plans of Sir Henry Drayton and his fellow commissioners.

The commission will commence its sittings at Winnipeg on Wednesday, September 15. The commission will consist of Sir Henry Drayton, minister of finance (chairman), Hon. J. A. Calder, president of the Privy Council, Senator Robertson, minister of labor.

"It is necessary," said Sir Henry Drayton, "that the commission's sittings should commence as soon as possible, so that the labors of the commission be completed in time for consideration at the next session of Parliament."

"It has been determined to open the meetings at Winnipeg on Wednesday, September 15. The commission after the initial sittings in Winnipeg will proceed direct to the coast and take evidence in British Columbia and hold sittings in the Prairie Provinces on the return journey in October so as to meet the convenience of those whose farming operations would render their attendance in September difficult. On the return journey a second meeting will also be held in Winnipeg. The exact dates of the sittings at other points will be stated in the near future."

Meetings Arranged
The proposed itinerary of the commission is as follows: Winnipeg, September 15; Vancouver, Victoria, Vernon, Nelson, Calgary, Edmonton, Saskatoon, Regina, Brandon, Winnipeg, Port Arthur, Sault Ste. Marie, Windsor, London, Hamilton, Toronto, Kingston, Montreal, Sherbrooke. Three Rivers, Quebec, St. John, Moncton, Sydney, Charlottetown, Halifax and Ottawa.

BEAVERS LOST TO THE COLTS

Pitcher Crossley Out of Form, While Butler Full of Pep.

Last evening's baseball match was marked by a lack of playing spirit by the Beavers as they seemed to lie down to their opponents the Colts and were beaten by the score of 24 to 5. The game started off all right, but after the third the Beavers completely blew up and in the first of the seventh their rivals tallied eight.

Johnny Crossley seemed to be absolutely out of form whereas the exact opposite was true of his opponent Butler, who was full of pep. Even Joe Hatchford was not hitting the pace last evening and had to retire to left field from his stand at short stop. The Colts boys played first class baseball and easily found young Crossley's delivery for they whanged out some fine hits. The Beavers were so depressed that even though they had their last bats in the seventh they did not stand up to the box.

Harry Day and Sid Winsby officiated as umpires. The teams batted as follows: Beavers—Halverson, Hatchford, Crossley, Curtis, Miggins, McDonald, Elmer Smith, Chenoski, and Sweet. Colts—George Roberts, George Mitchell, Baby, Butler, Ralph Smith, Eddy Smith, Eddy Clapp, Sherman and Hill.

EXPRESS RATES ADVANCE WILL KILL INDUSTRY

So Say Members of the Local Fisheries Association at Meeting Here.

At the meeting of the Prince Rupert branch of the Canadian Fisheries Association a protest was made at the proposal to advance the express rates at least forty per cent. It was pointed out that while the fish dealers recognized that there must be some advances in order to allow the express companies a reasonable profit on their operations, fish was one of the staple commodities that was least able to bear any considerable increase, and that the cheaper grades of fish especially should be exempt from any further increase in the rates. It was stated freely that advanced express rates would kill the business altogether.

The association decided to notify the association at Vancouver that it was willing to stand a share of the cost of legal expenses in connection with the freight and express rates investigation.

HARRY FLYNN HAS DONE SOLDIERS HARM

So Says Dr. Cowan, M.P., for Regina in Address to Veterans

REGINA, Sask., Aug. 14.—The Agrarians may win elections, but they could never run a Government, was the declaration of Dr. Cowan, M.P., in addressing the Great War Veterans here.

Dealing with the indemnity increase and the soldiers' requests for a gratuity, the Regina member gave the audience carte blanche to examine his bank account, and offered to give any one who could show that he had made a dollar from his indemnity the entire sum accrued since he had been in the house.

He cited taxation burdens as the reason for refusing the soldiers' requests, and in the course of his remarks declared that Harry Flynn had done the soldiers' cause harm which it would take them many years to recover.
