SEIZED LIQUOR IS VALUED AT QUARTER MILLION SHIPYARD MAY EMPLOY THREE THOUSAND MEN SAYS PRESIDENT OF G.T.P.

Hinton Announces Rupert Contracts

Accommodation to be provided for 3,000 Men here, says Winnipeg Despatch; Erb expected at Vancouver today

WINNIPEG, August 24.—Announcement was made yesterday by Hinton, vice-president and general manager of the G. T. P. at the Prince Rupert Drydock and Engineering Co. had contract for the construction of five steel tank steamers the same concern had further orders pending for a large of miscellaneous tonnage, sufficient to keep the plant for two or three years. Hinton further announced that arrangements are being made to accommodate at Prince Rupert a staff of 3,000 men. VANCOUVER, August 24.—Newman Erb is expected here this way north. He will be met here by Superintendent of the Prince Rupert Drydock and Engineering Co. and auditor for the same concern.

Manners and Sweet Found Guilty of Selling Liquor

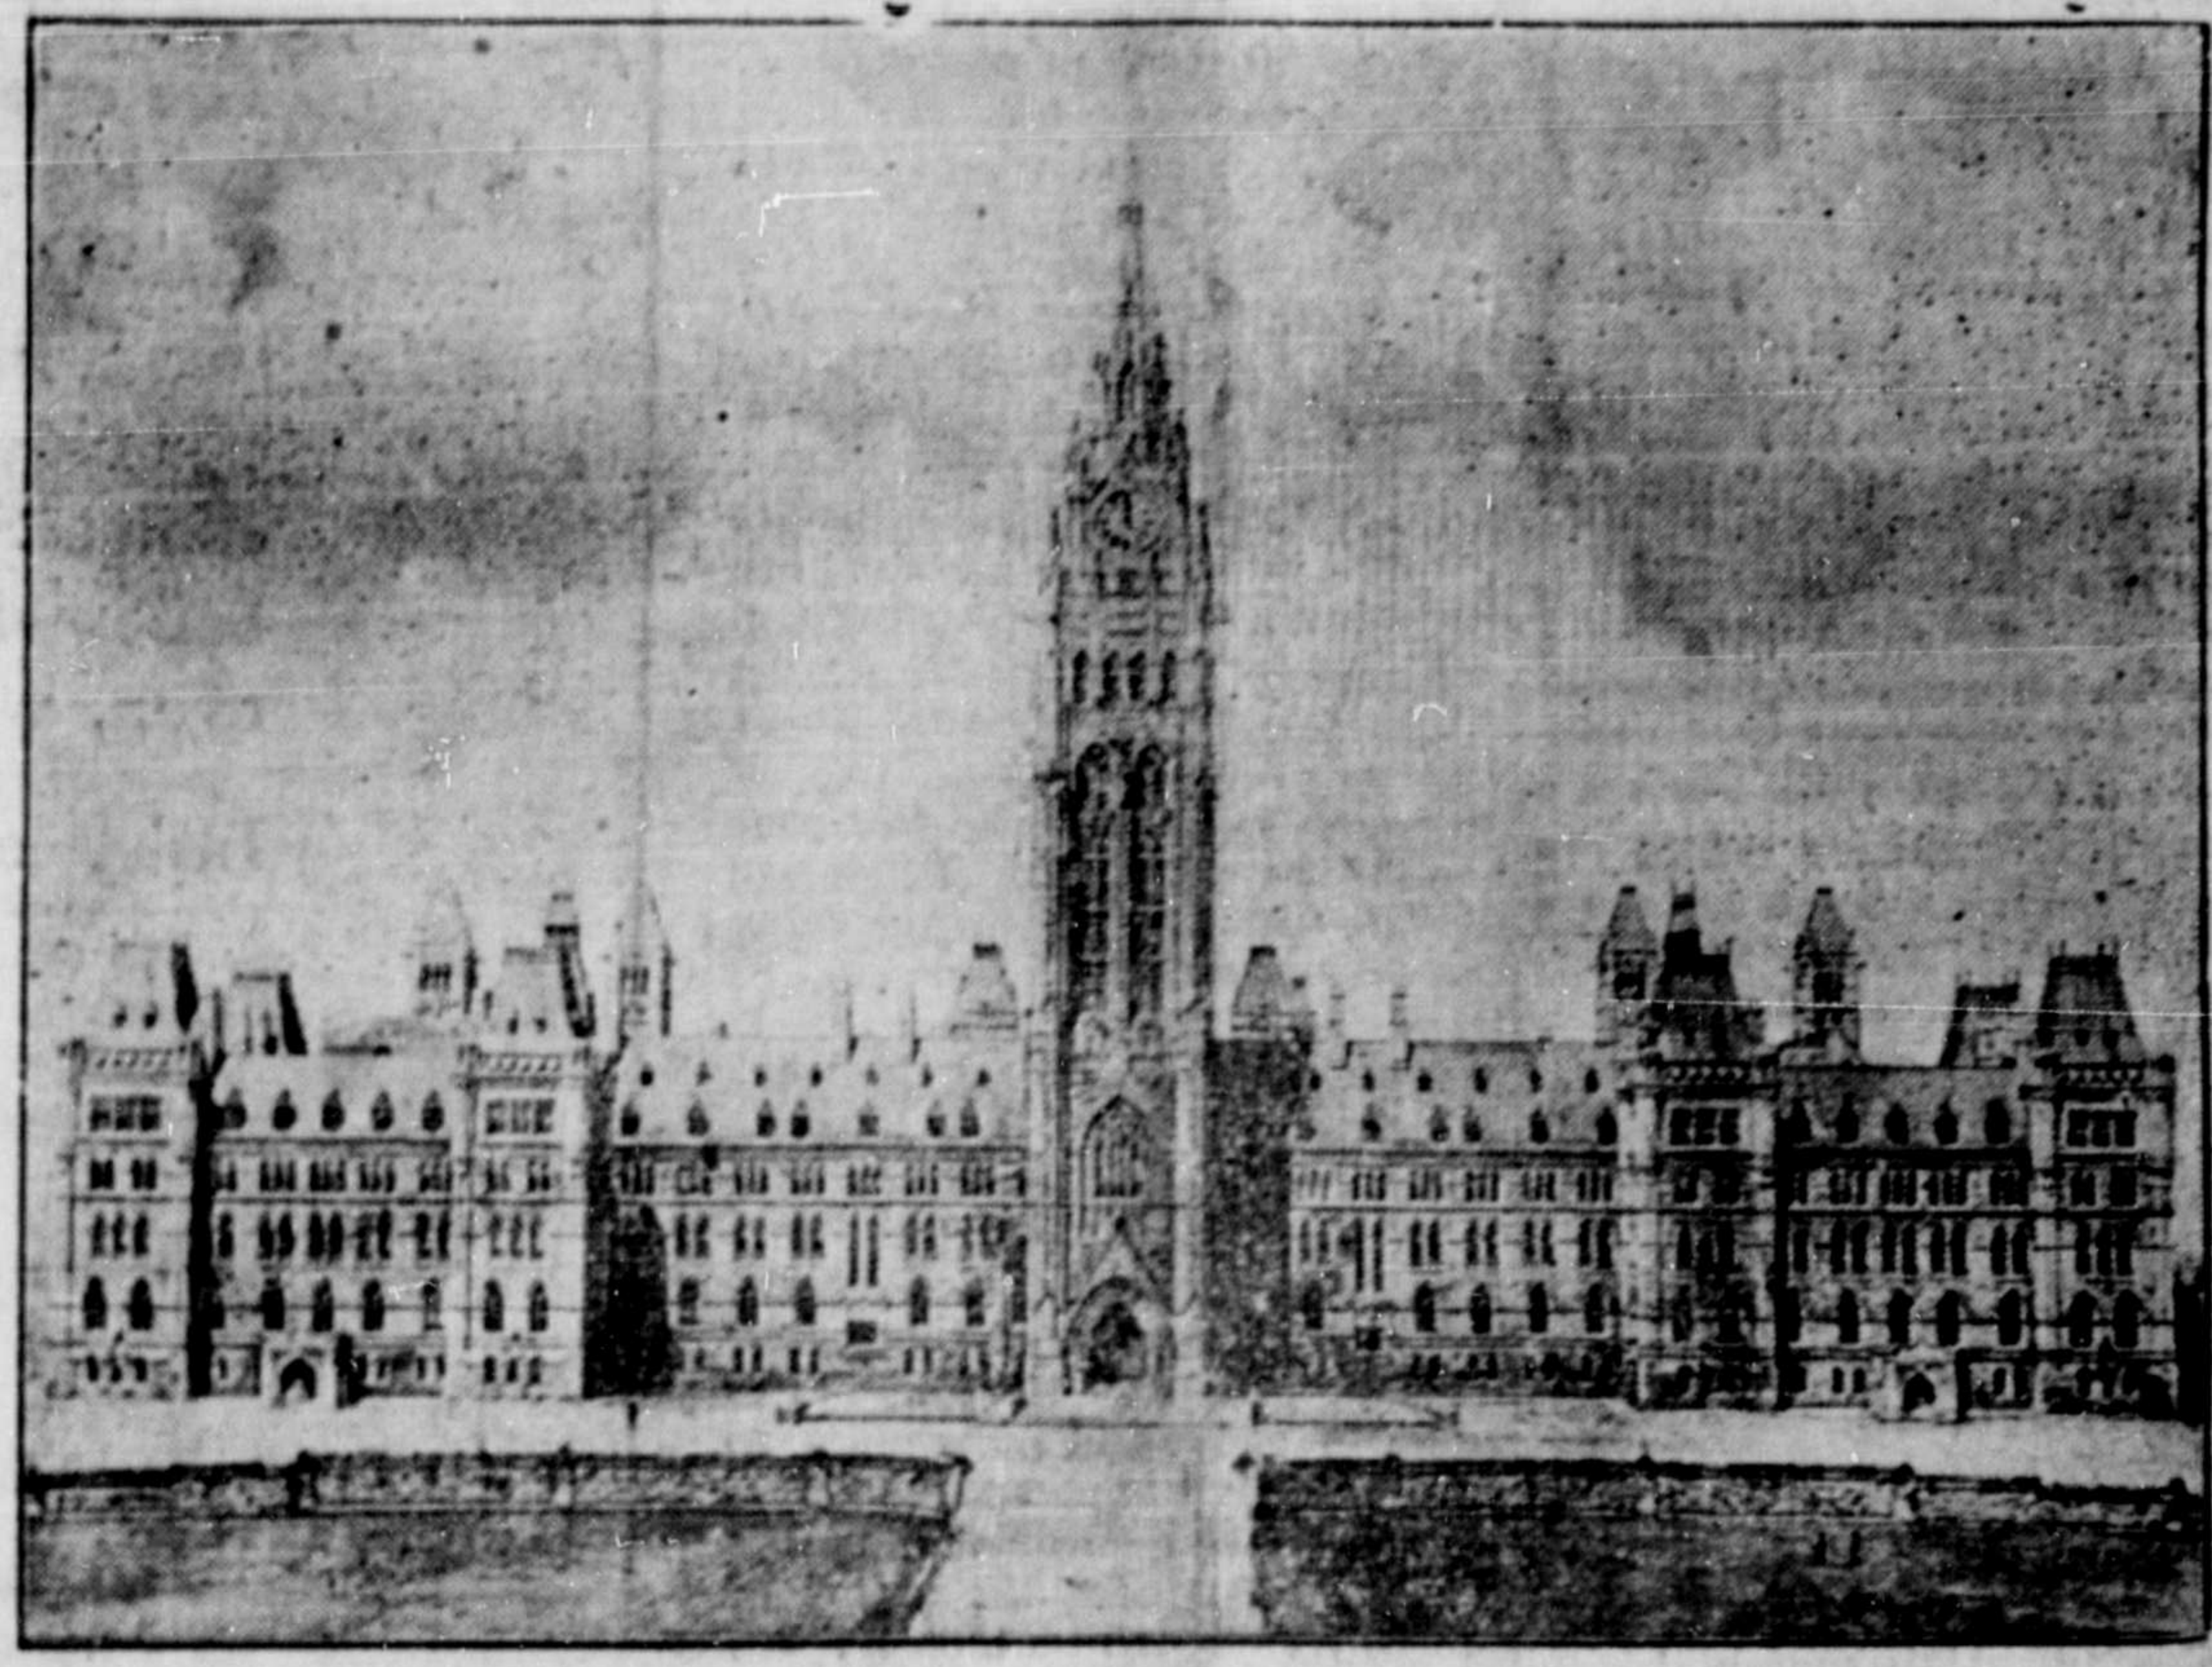

Charged and Cases will be Tried in Police Court Tomorrow Morning

As a result of the activities of private detectives in the past month and raids made in various quarters yesterday afternoon, James Manners and George Sweet were found guilty of selling liquor and cases under charge are pending against Carl Johnson, Oliver Besner, Miley, Thomas Black, D. Zarelli, Charles Olsen, H. J. and J. Miller. Manners was fined \$300 with the option of 10 months at Okalla, and Sweet's sentence is remanded until morning at 10 o'clock to look into his standing as to whether a second offence as he has already been found guilty under a different section of the Prohibition Act in having liquor in his possession, behind the Central Hotel and had been bought a bottle of rum which was produced in court and identified. William J. Smith testified as to the liquor illegally to his being a Thiel detective of 14 or 15 years experience. His story was practically the same as that told by Money.

First Case. Manners testified in his own behalf, maintaining that he sold no liquor to the witnesses but had kept some for them on their request. His testimony became abusive of the witnesses and finally he was checked by the magistrate and ended up by stating that the evidence was all untrue.

Vancouver Detectives. After a short address by T. H. Hooper, prosecutor, accused was found guilty and fined \$300 by the magistrate.

Sweet Charge. The main interest, of course, centred about the case against G. A. Sweet who pleaded not guilty and was represented by L. W. Patmore. The charge against the other detective, he did sell in the house of the accused.

NEW PARLIAMENT BUILDINGS at Ottawa, as they will look when completed. The photo shows the great Central or Peace Tower, designed by the architect, John Pearson. The foundation stone of this tower was laid by the Prince of Wales last year, the work of construction starting this week, and will take three years to complete. This main entrance opens into the beautiful vista or main corridor known as the Hall of Fame.

Twenty Thousand Bottles of Liquor Seized by the Police

Local Force was Busy all Yesterday Afternoon and Crowds Watched Gathering in of Cases

MORE VOTERS THAN EVER IN PROVINCE

VICTORIA, August 24.—It is officially announced that approximately 200,000 voters are registered in this province, which is 45,000 in excess of the registration for 1919. The deduction is that the population is steadily increasing.

PREMIER SAILS FOR THIS CITY

Minister of Lands With Him Will Go East to McBride.

VANCOUVER, Aug. 24.—Premier Oliver and Hon. T. D. Pattullo left last night for Prince Rupert. They will visit a number of points and from Prince George the premier will continue down the Fraser, while the minister of lands goes on to McBride.

GERMAN PLANES FOR CANADIAN AIR FORCE

MONTREAL, August 24.—Several war planes, surrendered by the Germans under the terms of the Peace Treaty, are coming to Canada to be used by the air force.

NOTICE

Nazimova in "The Brad" will be shown at the Westholme Theatre tomorrow, matinee only, and on Thursday evening. Prices, matinee, 15c and 35c, evening 30c and 55c.

Computed at \$10 a bottle, the price at which it has been retailed locally, the value of liquor seized by the city police in numerous raids yesterday afternoon would be nearly \$250,000. It is estimated that between 1,500 and 2,000 cases figured in the big haul and each case contains at least twelve bottles. This is the biggest seizure that has been made in the history of Prince Rupert and proves that an immense trafficking in liquor has been going on here for many months.

The word of the activities of the police yesterday afternoon was soon passed about the city and as the officers went about the business of gathering up the contraband and locking it up, large crowds followed curiously. Especially about the Miller and Besner licensed warehouses which have been seized and locked up was the excitement great.

The whole affair is the outcome of the activities of two detectives, William J. Smith and Hugh Money who have been investigating here lately at the instigation of the city for the past few weeks. Their presence in the city was not known to the public generally until last evening when the word soon spread around and their manner of working was ascertained. One of the detectives was employed for a couple of days in a local cigar store all unwittingly to its owners. Hugh Money is a tall man of medium build, dressed in a greenish suit of English style. He is of fair complexion and talks with an English accent. William J. Smith the chief officer, is of very short, slight stature and has seen long detective service, being connected with the Thiel Agency. He appeared in the court this morning neatly dressed in a grayish blue suit.

Raids Commence.

The raiding commenced shortly after ten o'clock yesterday morning when Sergeant Adams and Constable McGlinchey went to the Knox Hotel and found 2 quart bottles in a room there. Sullivan, who occupied the room, attempted to throw the bottles out but they were retrieved by Constable McGlinchey.

VANCOUVER, August 24.—The big motorship Pacific, bound in from Peru, grounded off Beechy Head on Sunday. She floated off on the next tide and arrived here safely.

W. J. Bowser Scores Oliver Government

Would spend less in Salaries and use fewer Motor Cars; Urges Railway to Peace River

Stating that his policy was one of development of the Peace River country by continuing the P. G. E., that he favored a general policy of development, but that he believed in keeping down the expenditures on salaries, W. J. Bowser spoke to a full house at the Empress Theatre last night for over two hours. He criticized almost everything the Oliver Government did, brought them to task for what they had failed to do and closed by urging the choice of a successful business man in this constituency as candidate in the Conservative interests and that he should receive the support of good Liberals as well as good Conservatives.

C. H. Orme presided and with him on the platform were J. A. Kirkpatrick, O. H. Nelson, E. Love and Col. Graham of Victoria. The chairman introduced the speaker in a few words and Mr. Bowser at once went to the mat and waded in.

The leader of the opposition told of his recent visit to Peace River where the people would have to have a railway or move away. He pictured humorously the raid on blind pigs yesterday and said that was what was going on all over the country and was a sample of the Oliver administration of the law.

Opposition Leader
Not Very Convincing.

The leader of the opposition is a good speaker but his harangue in the Empress Theatre was not very convincing and there was little response except from the faithful few who are always ready to applaud anything a Conservative says. The leader of the opposition criticized the present administration for increasing salaries, for using motor cars in the despatch of business, for failing to interest capital in pulp mills, for favoritism, for not building the P. G. E. into the Peace River country, for not building a court house in Prince Rupert, for refusing oil concessions which he confessed were too liberal, for increasing the debt of the country, for employing engineers instead of road bosses, for being too good to "the boys," for borrowing money from the bank, for the failure of returned men to stay on the land, and for paying too much for the Christian Ranch for soldier settlement.

There was nothing constructive about the address except in regard to the opening up of the Peace River country with a railway and in throwing wide open the coal, iron and oil resources of the province in order to encourage the prospector. The present Government is building the P. G. E. and making as good progress on the work as the money available will allow. In regard to the other matters it will be for the ministers themselves to answer when they arrive.

We strongly urge all those who attended the Bowser meeting to also attend the Oliver meeting in order that both sides of these questions may be heard. After hearing it will be for them to judge.

Bee Keeping
In Interior.

In his address last night W. J. Bowser made a great point of the fact that a Provincial Government bee expert visited Smithers, a railway town. Mr. Todd also was at Terrace and a Daily News representative met him as he boarded the train. "Tell the people," said Mr. Todd, "that this is the best district I have yet found for bee keeping." Mr. Todd did not have time to explain why, but we know it is because of the large amount of white clover, of fruit blossoms and of willow herb flowers there. People have already started keeping bees at Terrace and in the Bulkley and the visit of Mr. Todd in an advisory capacity is a distinct advantage to the community.

TENTH AVENUE WALK
IS NOT TO BE MADE

Petition Was Faulty and Work is
Not of Sufficient Benefit.

Last evening on motion of Ald. Dybhavn, seconded by Ald. Rochester, the city council decided to rescind its resolution of July 26 ordering the putting in of a five-

foot sidewalk on Tenth Avenue and the residents thus affected are to be notified.

Since the decision was made to do the work under the local improvement scheme, it has been found that the petition asking for it was faulty insofar as it was not sufficiently signed and was, therefore, not in order. Moreover the sidewalk is not a great enough improvement in proportion to the money to be spent.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

DIVERSION AND USE.

TAKE NOTICE that the Taylor Engineering Co., Ltd., whose address is Credit Foncier Bldg., Hastings St., Vancouver, B. C., will apply for a license to take and use ten second feet of water out of "Woir" Creek, also known as Davidson Creek, which flows easterly and drains into Kitsault River, about two and a half miles north of the Daily Varden mine.

The water will be diverted from the stream at a point about one mile from the Kitsault River and will be used for power purposes upon the lands described as the Woir Mineral Claims and Daily Varden Mineral Claims.

MR. BOWSER SCORES
OLIVER GOVERNMENT

(Continued From Page One.)

of the grain, and this port should get a fair share of the shipments.

Turning to discuss the mineral resources, the speaker said his government had initiated a policy of aiding the prospector by building roads to the mines once there was sufficient ore on the dump. The McBride mineral policy was the best that had been discovered and Mr. Sloan was still putting it in force, but roads were built for political favorites. Stuart Henderson, a former member of the legislature, was the first to receive aid under the present administration.

Refused Concessions.

Mr. Bowser criticized the Government for putting a reserve on coal lands, thus enacting a monopoly. He objected to the idea of tying up coal against location. Now iron had to some extent been shut out, at least in one district. If the prospector had not been given a free hand where would Anyox have been and where would Stewart have been? Hon. T. D. Pattullo had refused to grant oil concessions to the D'Arcy Exploration Co., which was a subsidiary concern to the Anglo-Persian Oil Co. Perhaps the oil people wanted too much, but Pattullo turned a deaf ear to them and instead put a reserve on the oil lands for the crown. There was no excuse for this. The oil belonged to the people and they should have it if they discovered it. He believed in encouraging the prospecting for oil or coal or iron. That was his policy. It was no good to wait for the Government to do this.

Five Cents an Acre.

The opposition leader then discussed the timber policy of the Government; he urged that they had not encouraged capitalists to come in and build pulp mills so that settlers could sell the timber from their clearings by the cord. He defended the action of the Government of which he was a member in granting pulp leases at 5c. an acre, as a result of which the industries at Powell River, Ocean Falls and Swanson Bay had been built up. He thought the present Government would do better to try to interest people in establishing industries such as these rather than criticizing the late administration.

Mr. Bowser said his answer to all criticism of himself was that he was looking forward and not back. He was not interested in what he had done in the past, but in the present administration. People had been more than kind in pointing out his shortcomings, but in spite of the fact that before his defeat his Government had been selling the people's coal, timber, and public lands amounting to millions of dollars and spending the money, there was not a single criticism of the way they had handled the money. They had built roads and bridges and the wharf in Prince Rupert was a sample of their work. He thought it fortunate that they had been relieved from office for they had been in too long. The people thought they were putting in a better government, but now, what had they got?

Too Many Motors.

Mr. Bowser went on to tell of the large number of government officials in the country and the too free use of motor transportation. Salaries had increased since he left office to the extent of \$1,500,000; patronage had not been abolished, not a mile of new road had been built. He preferred the old hard-headed road bosses to the present engineers. It was no wonder that no public works had been carried out when "it takes all the money to keep the boys." Twenty-five per cent of the revenue of the province went in salaries. He believed the employees of the government were entitled to a living wage but he would reduce their number. Some men, who were not political favorites were earning only \$100 a month. Later appointees were getting more. Yet they say they can't give Prince Rupert a court house because Bowser spent the money.

The speaker referred to the increase in the public debt since he left office and to the large bank overdraft. He went into some detail in regard to soldier settlements and criticized the various settlement areas and the methods of purchase.

Wants to Assist.

In closing he said he had been criticized for being a czar and some had called him Napoleon but

THE NEXT WAR

Canada Would Side with U.S. against Japan, says Bowser

In his address last night W. J. Bowser, arguing in favor of granting concessions to the big oil-prospecting concern for the Peace River, said that the next war would be probably on the Pacific between Japan and the United States and we should be drawn in with our Anglo-Saxon brothers. This was a reason why an effort should be made to secure a plentiful supply of oil here.

INTEREST IS KEEN IN NEW AIR MAP

Board's task will soon be finished, it is believed—Will mark the beginning of Aerial Service throughout Country

OTTAWA, August 21.—Occasional word of the enterprise of Americans in surveying an air route from New York to Alaska via the Canadian west to Edmonton and Prince Rupert and northwards through Dawson city, makes interest keener in the forthcoming Canadian route map which will soon be completed for the air board of Canada. While details are withheld for the time being the air board itself is composed of enthusiasts sure that the future of transportation in great part is in the air, and that it behooves Canada to bestir herself if she is to keep pace with progress in other countries.

Matter of Time

It is now certain that it is only a matter of time until passenger, mail and express services are being run between cities on a trans-continental route in the Dominion. It is being done already in Europe, and air journals to hand show that the tariffs published by airplane companies have been becoming progressively lower until now they are under the ordinary rate charged by land and sea transportation companies. For passengers who want the experience, or who are in a great hurry, these companies charge greatly enhanced rates. The mail service between London and Amsterdam, it is stated, is cheaper than by the regular routes for important letters, replies being received in 30 hours where formerly it took five or six days. Precious freight and important passengers are using the air route, and so far without encountering air bandits.

Air men who trained in Toronto say that the wing which remained in Toronto in the winter of 1917-18 did as much flying as those wings which went to Texas to complete their flying. By adding skids or runners some air men even claim that landing is easier in winter than in summer.

Would Use Seaplanes

The vast expanse of water scattered over the eastern half of Canada in lakes, rivers and inland fresh water seas, makes it sure that during a great part of the year seaplanes will be used in this part of Canada. For exploration purposes, where landing places cannot be provided beforehand, the seaplanes will be invaluable. However, the trans-continental route will be the first air necessity, and it will make it necessary for municipalities and the councils thereof to rub their eyes and waken to the necessity of a new orientation.

Every 20 miles there must be a landing place, and if these points wish to be in the routes and places of call they will have to provide landing places.

Meanwhile the next move must be from the air board, and its map will be inspected with interest.

Public meeting at the Empress Theatre Wednesday night to be addressed by the Premier. 99

SOME STREETS IN BAD SHAPE

Certain Points on Fifth Avenue Need Repairs—Cow Bay Road is to be Stopped up.

SEEKING WIDENING OF APPROACH TO WHARVES

The condition of certain streets in and about the city came in for discussion at last night's council meeting. The subject was brought up by Ald. Wilson Murray who stated that the condition of Green Street in front of the hospital was not safe. The mayor said that he would see that it was attended to.

Ald. Dybbavn said that certain points on Fifth Avenue were weakening as a result of the heavy loads of material for the new school passing over recently. Ald. Kerr said that the street foreman would be sent to investigate.

Stop Cow Bay.

The city is going to take active measures to stop traffic from the Cow Bay road. Ald. Rochester felt that the city had a certain moral responsibility even if it was not financial. Perhaps stopping the road would hasten improvements by those responsible.

The mayor is to take up with Superintendent A. Kilpatrick the question of the present approach to the Grand Trunk wharf from Second Avenue and Sixth Street. This is wholly inadequate and, in fact, two persons carrying suitcases cannot walk abreast on it. Alderman Rochester felt that it should at least be eight feet wide.

Mayor McClymont mentioned the dumping of coal on the streets. Steps are to be taken to stop persons leaving it out overnight for it is a great menace to cars. A bad accident was narrowly averted only recently when a car piled up on a big heap of coal.

Sport Briefs

Colts Won Game.

The Colts outclassed the Sawmill baseball team in a seven-inning baseball game last evening at the Aeropolis grounds. The match was a free and easy competition and at no stage did the sawmill appear dangerous to the Colts. Hagstad opened in the box for the lumber men and was replaced by Harry Astoria in the fifth but it was too late to stem the tide of the opposing aggregation. The final box score was 11 to 5. Wallace Anderson umpired and Clementson attended to the base runners. The teams lined up as follows: Sawmill—Hagstad, pitcher; McKay, right field; Fowler, centre field; Sherman, left field; Abbott, catcher; Astoria, first base; Fotos, second base; Alice, short stop; Maxwell, third base. Colts—(in same order), Butler, Eddie Clapp, Eddie Smith, B. Smith, Hill, Roberts, Baby, Mitchell and Sherman.

Box and Colts Lead.

By winning last night's game, the Colts have placed themselves one full game ahead of the Red Sox in the league race and special interest will, therefore, be centred on the game between these two teams on Friday evening for it may prove the deciding match. If the Colts win they will carry away the season's honors without further dispute, while if the Red Sox win, the leadership will be tied up and a play-off will become necessary. With both teams extending themselves to the utmost on Friday night, the match will probably prove the most interesting of the season. The Sawmill and Beavers, of course, are now eliminated from the leadership in the intermediate league.

KITSELAS MT. CONCENTRATOR WORKING WELL

Good Results Being Obtained and Much Free Gold Taken Out.

USK, B. C., August 24.—The Kitselas Mountain Copper Company's new concentrator is doing good work. There were some little difficulties to overcome at first, but these have now been adjusted and the mill is running steadily and the first shipment of concentrates will be made very soon.

Good Values. The mill is located near the foot of the mountain close to the railway and on the wagon road to Usk. The ore being mined is mostly from the surface showings and runs about 46 oz. to the ton in silver, 48 oz. in copper and 824 in gold. There is a quantity of free gold which in places shows itself in the form of nuggets and gold wire.

The company has installed and is operating a 30-ton Gibson mill with a Wilfully concentrating table. The gold is caught in mercury cells and the finer gold on amalgam plates. Then the crushed granite is separated from the metals on the table, a flow of water washing it off while the heavier minerals are carried to one end and caught.

A crusher breaks the rock fine enough to pass through a 2-in. mesh screen and the mill does the rest.

Considerable Development. On the property there is about 700 feet of tunnelling and some rich ore has been struck but the extent of the ore body has not been determined nor its value. There are several veins and all will pay for working so there is no danger of running out of ore. For a long distance along the face of the mountain the vein has been stripped and there is always the probability of striking a larger body of ore as they work into the mountain.

Officers. The Kitselas Company was formed to mine the Cordillera group of claims located in 1914 by Jas. Darby and J. D. Wells. The present company was formed in 1917 and the mill installed last fall although it did not commence operations until this summer. P. M. French is president of the company and engineer, while Mr. Thompson is a director in the concern and mine manager.

DAVID DONALDSON ILL IN VICTORIA

Down With Appendicitis—Vice-Consul Hill Coming Soon.

VANCOUVER, August 23.—The American consulate has been advised from Victoria that David Donaldson, vice-consul here, has been taken with a sudden attack of appendicitis. Vice-Consul Hill is going to Prince Rupert at the end of this month.

LORD DROVE TRAIN

GOLDEN, August 24.—Lord Burnham drove the press train at Berta, B.C., for some distance. The party is due to arrive in Vancouver on Wednesday.

The Man in the Moon SAYS:—

THAT the bear skin on Second Avenue was a close contestant with the liquor seizures as a topic of public interest yesterday.

THAT the visit of the Conservative leader from Victoria did not cause so much as a flutter compared with these other momentous subjects.

THAT love is blind, judging by some of the things women have married.

THAT love is blind judging by the appearance of some of the wives after the paint has worn off.

THAT the wheat crop is the most baffling thing of which we have heard.

THAT we are told that Manitoba, for instance, will sell 47,000,000 bushels and if the price is two and a half dollars a bushel how much is that in terms that a plain man can understand? How many dinners will it buy?

THAT there are an immense lot of loggers judging by the prevalent practice of "throwing the ball" in this country.

THAT the visiting Empire pressmen say there is a falling off of the quality of liquor in this country but so far as they have been able to observe no diminution of the quantity.

THAT a correspondent wants to know if it is proper for a youth with a smooth face to take off his hat to a girl with a moustache.

THAT there is great difference between silk stockings in a store window and the same stockings properly filled.

THAT one thing on which no statistics have been as yet published is whether there has been an increase or decrease in the consumption of gloves since the advent of prohibition.

THAT Mr. Bowser could not complain of the attendance at his meeting last night.

THAT the faithful few did what they could to arouse enthusiasm but it was not continuous.

THAT the little lapses from fact and the introduction of fiction may have been the result of the lack of knowledge.

THAT the leader of the opposition is a good speaker, but the people will take more than four years to forget. Time may mellow but it does not efface.

THAT people who were at the meeting last night are wondering who Mr. Bowser had in view when he insisted on the selection of a successful businessman for Conservative candidate in this constituency.

THAT he knows only a successful businessman could afford to lose in a constituency like this.

MACDONALD'S CUT "BRIER"

"Brier" Smoking Tobacco has become a Canadian institution. More men smoke "Brier" than any other tobacco in Canada. It leads in quality—and leads in value.

Now "Brier" comes in new form—Macdonald's Cut "Brier"—the same tobacco—prepared under the Macdonald standards established in 1858.

Still leading in value. Macdonald's Cut "Brier" gives more tobacco for the money in the 1-12 lb. package for 15c.—\$1.80 per pound.
