#### Labor Day Program Was Well Enjoyed

Trades and Labor Council put on splendid Celebration on water and land

A fine celebration held yesterday by the Trades and Labor Council proved the big attraction for everyone, both in the morning and afternoon. The water sports were pulled off, and in the afternoon field sports and games were held at the Acropolis grounds. There was a slight sprinkle of rain in the morning but the afternoon was dry so the proceedings were unhampered by the weather and all in charge of the event are pleased with the success. Well over a thousand people entered the gates of the grounds during the afternoon and great enthusiasm manifested over every event on the very complete program.

The Tongass Trading Company was ordered to remove a loading platform from the alley at the rear of the store. A permit was given for the construction of the platform with the understanding that it was to be removed each night so that it might not block traffic. The permit was not lived up to.

Four police "blinkers" are to be established at suitable locations. When an officer is wanted central telephone operator will switch on the lights as a signal.

### GRANBY CO. IS GRANTED STAY PROCEEDINGS

Under the ruling, the company may mine 100,000 tons of coal but no more without the consent of the court.

Oldest Chorister in the World. Approaching his 87th year, Richard Stapells, 54 Spruce St., Toronto, can lay claim to being the oldest chorister in the world.

Entering a church choir in his home town of Rochester, England, about the year 1852 he has been a member of church choirs ever since, a period of 38 years, and as far as can be ascertained, this establishes a record. Just recently Mr. Staples entered on his 47th year as a member of the choir of All Saints' Anglican Church, Sherburne Street, Toronto, and he is still regarded as a very valuable member of that congregation.

No less than 33 halibut boats bringing 373,500 pounds of fish marketed their catches on Sunday and this morning, and the whole is being rushed through to Chicago and other cities in eastern United States in bond, in refrigerator cars for the delectation of the connoisseurs of the east. The average price of the number one grade was fifteen cents, although one boat sold as low as 12c.

In addition to the halibut there was about 30,000 pounds of fresh salmon sold here.

- The following are the arrivals:

#### POOR SALMON PACK BY ALASKAN CANNERIES

Scarcity of Fish in Territory Will Tend to Keep Prices Up

KETCHIKAN, Sept. 6.—Canneries throughout Southeastern Alaska are reported to be closed for the season. The run of fish let up much earlier this year than it did in 1919. Many canneries were operating into the second week of September a year ago. The greater part of the fish used that late in the season, however, came from the West Coast.

Exact figures on the pack for the present season will not be available for some time, but it is known that it is far short of the previous one.

A number of cannerymen discussing the situation expressed the opinion that the short pack this season is a blessing in disguise. Thousands of cases of dog salmon put up in 1919 are still in warehouses below. This holdover stock plus the 1920 strike is said to be about sufficient to supply the demand for the coming year. Had a big pack been put up, it would have created a surplus, thereby forcing prices lower.

#### NORTH VANCOUVER STRIKE IS SETTLED

Lasted Nine Hours and Men Won Practically All Asked.

#### Mayor of Cork is Still Conscious on 26th Day of His Hunger Strike

LONDON, September 7.—Zan MacSwiney, mayor of Cork, is still conscious on the 26th day of his hunger strike at Brixton Jail.

Bonar Law, replying for the Government to the labor appeal, said: "The crown must be upheld. We cannot compromise. His victim asked neither mercy nor compromise. The real sympathy is due to the widows of the policemen slain by MacSwiney's political friends."

The general feeling of the people of England is that the law must be upheld at any cost and that if MacSwiney likes to kill himself he should be allowed to do so.

#### SCHOOL OPENED FOR FALL TERM

All Children Will be Accommodated Immediately if Baptist Church Gives Room.

School reopened this morning with all schools well filled and crowded in some instances. There were 35 new pupils at King Edward, 20 at Borden and 16 at Seal Cove which is a larger number than ever admitted before. It is hoped to open a temporary room in the Baptist Church which will take care of a number of children until another can be secured further toward the west end where the need really arises. The Baptist Church will decide tonight if they will give a room. If their decision is not satisfactory it will mean that the children will have to stay home until quarters are found. Outside of this suitable accommodation will be found and full time will be given all children.

#### CHINESE CONSUL

Dr. Koliang Yih, Chinese consul at Vancouver, was in town Sunday on his way from Anyox, where he has been looking into the fisheries. While here he called on Mayor McClymont and met the members of the local Chinese colony. #### British Commonwealth Under Discussion.

Some of the Eastern papers are discussing the position of Canada in the British Commonwealth, her rights and privileges and incidentally the rights and privileges of the King. The difficulty in discussing a subject of this kind is that there is no documentary evidence for use in connection with this. Words do not mean what they purport to say. The King summons Parliament, the King dissolves parliament, the King approves things, the King declares war, the King issues a proclamation. That looks simple enough, but, as a matter of fact, the King does none of these things. The King acts officially only through his ministers, or it might be more correct to say through the prime minister, and the prime minister is responsible only to parliament elected by the people.

We sing "God Save the King," but we really mean "God preserve the state" or perhaps it would be more correct to interpret it, "With the help of God, we will preserve the state." It is all a matter of nomenclature.

#### People as Free As They Can Be.

People who do not live under the British flag and do not understand our elastic constitution and the manner in which it has evolved, often with blood and tears, think that we are struggling against feudalism. That is not true. There is little trace of feudalism left in the constitution of any section of the British Commonwealth (Empire, some prefer to call it). We are a free people insofar as laws can make us free.

The difficulty when we talk about freedom is to mistake a free constitution for real freedom. In Russia they have a soviet, which in theory is not a bad form of government, but as practiced there, is little more than slavery for a large part of the people. In the United States they have a more or less free form of government, but no one would claim that under it there is no injustice or that everyone has an equal chance in life. Freedom, as we have said before, is a matter of education and training. It includes education in political and social morality and no amount of legislation can make an avaricious, grasping, selfish people into a free commonwealth.

#### Socialist Mirage Not Possibility.

Socialists imagine that it is only the political conditions that keep some people in degradation and give others the luxuries of life. "Do away with the capitalist system," they say, and "there will be no incentive to oppression." The wage system is the only wrong. The men who work for wages are "wage slaves." Unhappily for their argument they can never point to any practical object lesson of the working out of their theory. As a matter of fact there cannot be any object lesson until man is changed, his nature improved and his tendencies curbed. We are possibly on the road toward a better condition. The present is in no sense ideal, but it is much better than has been any condition of any people in the past.

### MABEL NORMAND SEEN IN "PINTO"

Plenty of Fun in Play Shown Here Last Night and Tonight.

Mabel Normand was the attraction for hundreds of people last night at the Westholme. The house was crowded.

Talk about fun! Why there's tons of joy jammed into every foot of "Pinto," Mabel Normand's latest Goldwyn picture. You'll laugh yourself into hysterics when you see irresistible Mabel as the wild and woolly western whirlwind stampede a crowd of non-oiled Montys and lorgnetted Lizzies—stages a real wild west show that winds up in a carnival of gun-play—and puts the finishing touches to her social meanderings by roping a social Romeo and making a flannel-shirted cave man out of him.

There is a first rate picture also at the Empress tonight. Norma Talmadge is the star and many will want to see the play there tonight.

### CALLIES WON GILHULY CUP

Had no Difficulty in Proving Superiority Over Trail Saturday Afternoon.

The final play-off for the Gilhuly football cup was held on Saturday afternoon when the Callies defeated the Trail Club by a 3-1 score. At no time did the Trail Club prove serious contenders and it was only in the last few minutes of the game that they registered their sole tally.

Referee McCulloch was in charge of the game and the linesmen were Ed. Ross and Frank Vickers.

### RED SOX WERE IN GOOD FORM MONDAY

Defeated the Colts in Game for Trades and Labor Council Award.

The Red Sox were in their regular good playing vein and beat the Colts in the final elimination baseball game at the Aeropolis Hill grounds yesterday by 12 to 6 and thus won the \$25 prize put up by the Trades and Labor Council. A lot of errors and poor playing on the part of some of the Colts star players helped to make their defeat even more decided.

E. A. Donohue was umpire and gave complete satisfaction, while Harry Dravis made the base-line decisions.

### CANADIAN IRISH WON AT FOOTBALL

Scotch-English Were Not in Good Form and Game Was Disappointing.

The Canadian-Irish football team defeated the Scotch-English last evening by a score of 2-0. The latter team were not in the best of form and the match was disappointing in the quality of football displayed.

George Russell was referee and Clapperton and McCulloch were on the side lines.

## LUX For Soft Blankets!

Keep your blankets soft, woolly and comfortable! Guard them carefully in the wash and they will repay you with a doubled life. The safest of all blanket baths is with the rich, creamy, cleansing LUX suds.

The best way to wash blankets.—Use two table-spoonsful of LUX to a gallon of water. Whisk into a thick lather in very hot water. Add cold water until suds are lukewarm. Work your blankets up and down in the suds and squeeze the suds repeatedly through the soiled spots. Do not rub.

Rinse the blankets in three lukewarm waters. Pass through a loose wringer or squeeze the water out. Do not twist. Dry in the shade in a moderate temperature.

### Mining News

Mining men from all parts of the United States and Canada will attend the annual convention of the Canadian Institute of Mining and Metallurgy to be held at Winnipeg commencing October 5, Winnipeg commencing October 25.

The Copper Mountain mine of the Canada Copper Company will soon be connected up with Princeton on the Kettle Valley Railway when the Copper Mountain Railway is completed. The station work for the new road which was in charge of W. P. Tierney, of Vancouver, was completed some time ago and since that time the rails have been laid a long distance. The only links that await completion are some of the high bridges, without which steel cannot be laid. The Copper Mountain road is of standard gauge and the large C.P.R. locomotives will be used in the camp is 12 miles from Princeton long up hill grade. The mining and 1,000 feet higher in altitude. Considerable difficulty has been experienced in the road building on account of the shifting character of the gravelly bed.

Applications for leasing permits covering a total of 25,355 acres of land in various oil fields in Central and Western Alaska coast districts have been received by the U.S. land office at Juneau. Katalla leads in the number of applicants filing with six, while Cold Bay is second in number of applications, but leads in acreage. The total acreage in Katalla is 9,210, while in Cold Bay with five applications it is 12,800 acres. Two claims for which leasing permits are sought are along the Copper and Northwestern Railroad near Cordova.

The Bulkley Valley Fair Association has secured the services of D. R. Willemar, the Hazelton assayer, to judge the ore exhibits at the Smithers Fair. This association has made certain changes in the qualifications in the mineral section which call for larger exhibits, thus debarring many small samples of secondary enrichment, the origin of which are not known. The competition is open only to the Omineca mining division including Telkwa, Terrace and Pacific.

Mrs. G. E. Austin and baby were passengers southbound from Stewart on Sunday, going on as far as Vancouver.

### DANCE WAS FITTING CONCLUSION FOR DAY

Affair in Rink Was Largely Attended—Prize Waltzers.

The dance given by the Trades and Labor Council in the skating rink last night was a fitting conclusion to the successful celebration of Labor Day under the auspices of that organization. The big hall was crowded and the assembly was the largest since last winter's dances.

The committee in charge comprised J. R. Beatty, master of ceremonies; Arthur Ellis and Len Dewhurst, on the door; W. E. Thompson, W. A. Shortridge, Joe Hatchford, Mesdames Ellis and George Kerr were in charge of the refreshments.

Much interest centred about the waltzing competition, the winners in which were Harry Day and Miss Davidson.

### The Man in the Moon SAYS:-

THAT if the ball game yesterday was rather loose, there was class to the Goffs' rooters.

THAT the local speed boats have not yet enough speed to annex the Campbell silverware.

THAT if a local boat does not carry off the prize this year, we shall have to recognize that Prince Rupert is slow and that Granby is the only speedy place on the north coast.

THAT there are all sorts of rumors about the "Flying Dutchman" from Ketchikan and the wonderful speed it makes.

#### THE GALA PROTEST

Editor Daily News:-

I ask you, Mr. Editor, for a little space to answer a letter appearing in your Saturday paper under the pen of T. H. Nuttall. The honorable gentleman states that apart from any question of religion it is well known that hundreds of boys and girls are pledged to some loyalty other than swimming. Would Mr. Nuttall inform the public what that pledge is and not keep the people in the dark as to the object of the letter?

As regards "a great temptation," neither I nor the other 800 onlookers on Sunday afternoon saw any temptation other than an invitation to partake of a friedly dip in the Salt Lakes and enjoy a good healthy and clean exercise in the sunshine and fresh air, which fresh air is the best medicine ever known for ailments.

#### Not Care a Nickel.

It is a very poor saying of Mr. Nuttall to speak of sportsmanship, for did he not say at a musical festival, given on a Sunday evening, at his church last winter, that "people did not care a nickel for religion but only came to hear the music." Perhaps this is right. The gala was attended by a large number of his own congregation, who all left in time to get supper and go to service, if they so wished.

Now regarding these things taking place on a Sunday is because the majority of Rupert people and their families cannot be assembled during week days for business reasons, some having a half day Wednesdays, some Saturdays, others only Sundays off, whereas our local clergy have the best part of six days to go boating, launching and picnicking, therefore, it is their duty to stay at home one day in the week.

#### Decent Sunday Pleasures.

During past years the hardest work was done on Sundays by those fighting for civilization and according to the Times there are a few who are trying to bring about the decent stamp of Sunday pleasure to the many mothers who are fed up all week.

Have we not enough days to stay indoors when the weather is bad? The local clergy do not want to take to heart these Sunday afternoon occurrences. Of the recent picnic, practically all who attended go to church occasionally, but do not reap the same benefits as Mr. Nuttall. If we had not been doing good, why did the Great Provider give us good weather and glorious sunshine to help up to a successful day.

Speaking from my experience, there are just as good people out-

side the church as inside. While Mr. Nuttall's protest is justified, he wants to remember that people's ideas of Sunday observance have changed.

I answer Mr. Nuttall's letter personally, having been on both recent committees, not on behalf of either organization.

Thanking you for the publication of this letter.

J. DAY BELL.

#### AGAINST PROHIBITION

Editor Daily News:-Not being an advocate of prohibition, I cannot very well qualify as an entrant in the competition, even for 10 pieces of silver (which, you will observe, is 20 pieces below the scale established by Judas some time ago), but, as the subject has been much to the fore-

front of late, I would like, with your permission, to express my opinion upon it at this time.

The word "prohibition" is enough in itself to sound the death-knell of any reform movement. It is a peculiar trait of humanity (especially so of the Anglo-Saxon section) to desire to attain, by hook or by crook, anything prohibited or forbidden them. Our fabled ancestors in the Garden of Eden seem to have set the fashion in this regard when they plucked the forbidden fruit. The ten "Thou shalt nots" which constitute the Ten Commandments of Christianity are not as favorably received as they might be if otherwise expressed and explained.

Be this as it may, to prohibit the sale of intoxicating liquors, when they are permitted to be im-

ported into the province, is senseless legislation. It is on a par with placing a bottle of "G. & W." in front of an old "drouth" and daring him to drink it. The results are the same.

Difficult Question. Admittedly, the problem is a difficult one to solve, it being a problem of human weakness criss-crossing that of the liberty of the subject; but, like all problems, it offers an approximation.

Light beers and wines never yet caused anyone to dance the highland fling in front of the Presbyterian Church on Sundays, and I believe they are less harmful to the system than the near-beers and pink lemonades offered as a substitute; and I also believe they will not be under the ban much longer. The trouble rests with the spirits—the alcoholic ones, of

course. Any sensible person, no matter how much they may love their "wee drappie," will willingly forego the pleasure if they knew that by so doing they were preventing the weak brother or sister from being on visiting terms with "auld Nick," but what's the use if the weak brother or sister goes in that direction full of wood alcohol or hair-oil, or lemon extract? Both sides are getting the worst of the deal, and the boot-leggers are getting off with the coin.

We should either stop manufacturing and importing the stuff, or else manufacture and sell it under government control, and under the direction of those best qualified to administer it, the medical profession.

Couple this with an educational campaign, to young and old alike,

in school, "movies," and elsewhere, of the effects of the excessive use of alcohol upon the system, and of the mental and physical degeneration and de-education resulting, and I firmly believe we would be heading in the right direction.

## Swimming Gala Proved Attraction at Salt Lakes

Crowd who went across harbor to watch Water Sports placed at 800—Captain Bealey big winner

The sixth annual gala of the Prince Rupert Swimming Club was held on Sunday afternoon under most auspicious circumstances. The day was a beautiful one and there must have been 800 persons who gathered at the Salt Lakes. The improvements made at the lakes in the form of a new diving platform and roadway are noticeable and much credit is due to the committee who were in charge, consisting of J. Day Bell, Wm. A. Matheson and John Gurrie, whose energetic efforts were largely responsible for the success scored.

A high quality of swimming talent was displayed, many young people entering in the events this time who could hardly swim last year. The relay races were especially close and the tug-of-war was very interesting. In the ladies' events there was a noticeable scarcity of entries which was somewhat disappointing to the officials in charge.

### Captain Bealey.

In the men's swimming and diving events a newcomer, Capt. Bealey, who arrived from Vancouver last week, proved a big prize winner, leading easily in many races. He will be a decided acquisition to the local club if he remains in the city and will also encourage local swimmers to greater efforts. Captain Bealey learned swimming in the Old Country but was for years a member of the Vancouver Swimming Club. He recently returned from five year's service overseas with the flying corps.

### Prize Winners.

Following is the result of the events on Sunday's program: Boys' race—William Stewart, Douglas Frizzell. Girls' race—Myra Harvey, Dorothy Thompson.

100 yards championship race of Northern B. C.—Captain Bealey, Calder.

Ladies' 25 yard race—Myra Harvey (35 2-5 secs.), Dorothy Thompson.

Men's 25 yard dash—Bealey (25 1-5 secs.), W. Bryce. Ladies' 25 yard race—Dorothy Thompson, Myra Harvey.

Plunge dive, won by Bealey, but conceded by him to Calder.

Fancy dive—Bealey, Barron.

25 yd. handicap race—Bealey, Bryce.

50 yd. handicap race—Bealey, Boddie.

Relay race—First, Sons of England team, Bell, Fanthorpe, Crisp, and Fanthorpe. Second, Dry Dock, Bryce, Calder, Corkle, Calder. Other teams were: Prince Rupert Swimming Club, George Tite, R. Davidson, Geo. Hill and J. Boddie; G. W. V. A., Barclay, Bealey, Plint and Kelly.

The tug-of-war was won by Boddie's team consisting of Gibb, Boddie, Hudson, Smith and Clementson. The losers were Day Bell, George Kerr, B. Fanthorpe, Crisp, and D. Fanthorpe.

The pillow fight was won by Jack Boddie after W. A. Hudson, Ralph Smith, Gibb and Rod. McTae had been eliminated.
