PREMIER MEIGHEN ADDRESSES TRADES AND LABOR

IT'S MEXICAN GOVERNMENT THAT WANTS SHIPS BUILT IN THIS COUNTRY

Too Great a Gap Between Wealth of Few and of Many

Premier Meighen in Addressing Trades and Labor Congress of Canada Urges to Strike Steadily along Path of Reform

WINDSOR, Ont., September 14.—Premier Meighen, addressing Trades and Labor Congress of Canada at the opening of annual convention yesterday, urged that labor strive steadily along the reform path. He said that Canada leads the world in proportion of those who are "neither rich nor poor and they are the happiest."

If there were any Canadians who believed in the communistic system, he said, their nice theories must have been badly shattered by the results of the first test in Europe, which resulted in war and starvation.

The Premier emphasized the need of consideration by employers of their workers' needs and vice versa. He said there "too great a gap between the wealth of the few and the wealth of the many."

NO BAIT AT KETCHIKAN

Unless Humpback Run Continues There May be General Shortage—Humpbacks and Cod Used.

The bait question is one that is causing concern along the waterfront today. Word was received that there is no bait at Ketchikan, so boats will probably come here. The stocks at this port are none too large and it is possible the shortage may become general but a continuance of the humpback salmon run would save the situation. The present shortage is caused somewhat by the small herring run this spring, humpbacks and cod now being used for bait.

Sales were light at the Fish Exchange this morning. There were few boats in and only one refrigerator car which will be filled by the catches of a number of small boats bought by the Booth Canadian Company.

Following are the arrivals and sales:

Success, 7,500 pounds, sold to the Canadian Fish and Cold Storage Co. at 12.3c and 7c.

Thor, 7,800 pounds, sold to the Canadian Fish and Cold Storage Co. at 12.2c and 7c.

Pioneer, 40,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 12.7c and 7.5c.

R. L. S., 4,100 pounds, sold to the Canadian Fish and Cold Storage Co. at 15.1c and 8.5c.

Bayview, 8,000 pounds; Cayenne, 7,000 pounds; Teton, 5,500 pounds, and Guildford, 6,000 lbs., sold to Booth Canadian Fisheries Company at 16c and 8c.

ADDRESSED LABOR CONGRESS YESTERDAY

Premier Meighen, who says Communistic Theories have been shattered by first test.

Magistrate McMordie Convicts S. A. Corley

Case is to be appealed to Judge Young in County Court: Liquor Returned to Corley

S. A. Corley was convicted by Magistrate McMordie this morning of selling liquor contrary to the B. C. Prohibition Act and was fined \$300.50, the penalty for the first offence. L. W. Patmore, who appeared for Mr. Corley, intimated in the police court that this case would be appealed before Judge Young. The liquor seized in Mr. Corley's private residence in the rear of the Royal Hotel has been ordered returned to him, there being no evidence to prove that it was connected with the sale of which the accused was found guilty through his servant, Kenneth McKay.

The evidence of Detectives Hugh Money and William J. Smith, which was gone over again this morning, was largely the same as that presented in the Kenny McKay prosecution. The witnesses were submitted to a brief cross-examination by Mr. Patmore which adduced the fact that neither of them could swear that the bottle that was sold by McKay was the same bottle that was alleged to have been brought into the bar by the accused. The bottle sold came out of the same cooler into which Smith testified Corley had placed the one he had brought in.

W. D. Vance, city treasurer, was called and he gave evidence as to the license for the Royal bar bearing in the name of S. A. Corley. Chief Vickers gave evidence as to the bottle exhibited in court having been brought to him by the detective wrapped in a copy of the Daily News of August 20.

Sergeant Adams testified along the same lines, identifying a bottle of the same brand, Wilson's Liqueur, which he had taken from Corley's house in the seizure.

GEN. MORRISON BOUND NORTH RE ARTILLERY

Will Investigate Possibility of Establishing Battery at Prince Rupert.

VANCOUVER, Sept. 13.—General Morrison left for Prince Rupert last night where he will investigate conditions with a view to arranging for appropriations for a peace army artillery battery.

The general says that Canada

is getting from the Imperial government as many new guns as the Dominion left in Belgium during the war.

It is the expectation here that ex-artillerymen in Prince Rupert will take an interest in the scheme of General Morrison and will co-operate in the formation of a battery at the northern port.

Mrs. Elinor Berge and children of U.S. are visiting in town, the guests of Mr. and Mrs. Harold S. Parker, Seventh Avenue West.

Thurston Harbor arrivals on the Prince John this morning included J. Todd and Mrs. Hawkes and daughter.

Large Ship Contract was From Mexican Government

Matter is now before Dominion Government, but no Application has yet been made for Financial Guarantee.

VANCOUVER, Sept. 14.—An Ottawa despatch received here says: "It is now definitely ascertained that it was the Mexican Government, which recently offered a large ship contract to Prince Rupert for part distribution among other shipyards of the country. The form of contract is now before the marine department but no application has yet been made for government financial guarantee.

When making the announcement in Vancouver recently of having received an offer from an unnamed foreign government to build 58 vessels, if the Dominion Government would finance the project, Newman Erb said the contract was to build 20 steel revenue cutters, 6 passenger steamers, 20 cargo carriers, and 12 steel tankers. He said that he had already accepted the contract, subject to Government approval. Should the contract be carried out it would keep all the shipyards in Canada busy for a long time. The question of payment is the only one at issue.

This contract has nothing to do with the contract for five tankers to be built at Prince Rupert.

UNIVERSITY WOMEN DISCUSS EDUCATION

URGES PROVINCE TAKE OVER ALL EDUCATION

TORONTO, Sept. 14.—Twenty per cent. of our school population are not utilizing our schools owing to non-enrollment. Only 52 per cent. are taking adequate advantage by regular attendance. About 70 per cent. of the children enrolled are in the first four grades and only a small percentage of the enrollment reaches Grade Eight.

"Only 6 per cent. of the school children of Canada are receiving the high school or vocational education necessary in a democratic country for good citizenship and adequate living."

These statements were made yesterday in the report of the committee on education to the Federation of University Women in Canada. The report was read by Miss G. Misener of Edmonton, and those helping her in its preparation were: Miss Florence Blackwood, B.A., Halifax; Miss Gladys Borden, B.A., of Mount Allison University, New Brunswick; Miss Enid Price, M.A., McGill University; Miss Alice Wilson, B.A., Riverdale Collegiate Institute, Toronto; Miss Gertrude Patrick, B.A., Saskatoon Collegiate Institute; Miss Grace Stewart, M.A., University of Alberta, and Mrs. Farris, B.A., Victoria.

BEHIND UNITED STATES

In Ontario, the report points out, the attendance at high schools is 6.7 per cent. of the school population; in Nova Scotia, 8.5 per cent.; in Saskatchewan, 5.48 per cent.; in Alberta, 6.25 per cent., and in British Columbia, 8 per cent. The approximate average, 6.2 per cent., is considerably lower than that of the United States, which is 10.5 per cent.

Trampling on
The Union Jack.

There are so many attempts to trample on the Union Jack these days that it is no wonder some people are very touchy about even an appearance of doing so. At the entertainment in the rink last night the Old Jack was used to drape the front of the platform and it was so large that it covered a good deal of the floor and was indeed "trampled on." Some of the Daughters of the Empire objected to this and they entered a protest.

There was no thought of anything of the sort on the part of Mr. Grossmith, but yet it was a good thing to call attention to the matter. The flag represents constitutional authority. It is the emblem of the government we have set up, and if we do not respect our own constitution we cannot expect strangers who come here to do so.

Union Jack is
Emblem of Progress.

The Union Jack is the emblem of progress. None of us have much use for the flag waver, especially for the one who uses the flag as a cloak for oppression or deceit. The flag in politics is altogether out of place, just as would be the king or the governor-general. The flag represents the Empire, the whole of it, both sides of politics, Grit and Tory, capital and labor.

It is under the British flag that the highest possible degree of liberty has been obtained. For over two thousand years, the struggle has been going on, and the end is not yet. The flag then becomes the emblem of struggle, of striving toward freedom. Like the United States we are the land of "the partially free and the more or less brave." All the time, however, there is a struggle going on, a movement toward betterment. Sometimes this is shown in an outburst against constituted authority which threatens the old flag and all the development for which it has stood. Happily these outbursts have been checked and the flag still waves, the emblem of progress, of freedom, of bravery and of opportunity.

Spots Have Tarnished
Emblem of Country.

Unhappily there are many dirty spots on the old emblem. The British people have not always been wise or honest or brave, nor have they always shown signs of freedom. Sometimes instead of progressing they have moved backward temporarily, but they have learned the lessons and done so without much bloodshed, as compared with other countries. Men who have gone too fast have languished in prison, but their sufferings have inspired others to go forward. It is always so. It is the history of all progress. And over all this movement toward better government, better conditions, and a better life the Union Jack still waves and will continue to do so. There is no disgrace in having a blot on the escutcheon. The disgrace is in not recognizing it and in not rising above it and profiting by the lessons of the past.

British Are Not
Flag Waving People.

The British are not a flag waving people. There is nothing blatant in our loyalty. British loyalty is to an ideal or principle rather than to a person. We are not loyal to Great Britain any more than Great Britain is loyal to us. In this commonwealth of nations, the King and the flag are the only common emblems except the eternal verities. For this reason it is well to learn to respect our flag, to be ready to protect it, and to be glad to see it wave clean and fair as typifying that which is cleanest and best in the life of the country.

MURDER CHARGE
AGAINST LILLYSole Survivor of Gas Boat Sea
Breeze Fails to Explain
Satisfactorily

Exchanges just received from Juneau tell of a charge being laid against E. S. Lilly of murder in the first degree. Lilly is the man who was picked up in Chatham Strait after having left the gas boat Sea Breeze, in which his companion was burned to death. There was also a third man on the boat, E. S. Jack, whom the accused says left the boat prior to her catching fire.

Lilly made two statements and they are said not to agree very well. In the first he mentions that Jack and Woodworth had a violent quarrel almost terminating in a fight and Jack then hailed a passing troller and left for Port Alexander.

According to one story the engine of the Sea Breeze broke down and apparently Woodworth was trying to start it, with Lilly at the wheel. Then there came smoke from the cockpit and Woodworth failed to answer when called. Lilly then prepared to leave the boat, which was on fire and was so hot, he alleged, that he burned his face. No such burns could be observed on the prisoner, however. He made no effort to aid Woodworth although he could have broken in the skylight. He said he was afraid of an explosion of the gas tank.

The authorities have been trying to find the third man, Jack.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

ZAM-BUK

This illustrates but one of the many uses which Zam-Buk, the great herbal balm, is daily put to. Accidents will happen, especially where there are children. Mothers should never be without Zam-Buk. Zam-Buk is the best "First Aid." Its strong antiseptic properties kill germs, preventing blood-poisoning and inflammation. It is purely herbal and contains no poisonous coloring matter. Take no substitute. See the name on every box before buying.

ZAM-BUK HEALED SEVERE CUT

Mrs. J. E. Bierwirth of Carduff, Sask., writes: "My little son cut his end off his finger. As it was such a severe cut, I was going to take him to the doctor, but in the meantime to ease the pain, I applied some Zam-Buk. This stopped the bleeding and gave him such relief that he ceased crying and seemed quite at ease. I therefore decided to see if Zam-Buk would heal the wound. Next day I replaced the dressing, and continued to do so each day, using nothing but Zam-Buk. Complete cure resulted."

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$4 an acre; second-class to \$3.50 an acre.

Pre-emption now confined to surveyed lands only.

Records now granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1 acre before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years and has made proportionate improvements, he may, before 1st January, apply for other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided application made to the Minister of Lands to extent of \$200 per annum and provided each year.

Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 3 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his original claim, and if the application, providing an agreement for sale from the Crown in respect to the purchase at auction of Town or City lots or lands within the site or suburb of a town payment for which has been made to the Crown and who wishes to obtain a proportionate amount of such land in consideration of the monies already paid must file application in that respect on or before the 1st day of November, 1920, on which date the privilege of obtaining the proportionate allotment will cease and any person in arrears of payment under an agreement for sale as aforesaid failing to make application as stipulated will thereafter be barred from the same and the privilege will be subject to the fulfillment of the terms of the sale and the provisions of the "Land Act," governing the purchase money in connection with which special attention is drawn to the notice appearing in the current issues of this paper.

LESS PRODUCTION IN BRITISH MINES FOR WORKMEN EMPLOYED

LONDON, Sept. 13.—The preliminary figures regarding the output from British mines, which have been issued for 1919, have aroused particular interest here because of the struggle in progress between the coal miners and the government. While they are not a complete record of the mine output, they are substantially complete for coal, copper, lead and zinc. Despite the number of men demobilized in 1919, which increased the number of employees in mines by no less than 183,286, the yield of minerals, with the exception of coal, is generally lower, while in the case of coal the increase was inappreciable.

The returns bring out the reduced per capita production of miners employed under the coal mines act. The number of men employed in 1919 exceeded those employed in the same industry in 1913 by 64,423, yet the output of 1919 was only 229,74,126 tons, compared with 287,430,473 tons in 1913. The contrast is striking when this is worked out in terms of production per workman. In 1913 this was 332 tons per man underground, while in 1919 it was only 23 tons.

THRIFT CAMPAIGN IN SOUTH AFRICA

Men and Women Organize to Bring Down Prices

CAPE TOWN, South Africa, Sept. 13.—A number of economy and thrift campaigns have been organized in cities and towns throughout South Africa in an effort to bring down the prevailing high prices of food and clothing. Most of the organizers are women, and their main purpose is to induce greater simplicity in the make, material and number of dresses and to aim at a simpler standard of living.

As an incentive towards thrift, some 150 savings clubs have been formed in the Cape Peninsula for the purpose of purchasing Union Government certificates. These are similar to the Canadian war savings stamps. Their popularity is spreading rapidly.

The City Council at its meeting last night decided to arrange for a meeting with the committee of the Board of Trade to discuss the "Cow Bay" question on Friday evening at 8:00 following the meeting of the board of works.

NOTICE IS HEREBY GIVEN that in accordance with an Amendment to the "Townsite Proportionate Allotment Act" passed at the 30th session of the Legislative Assembly, including an agreement for sale from the Crown in respect to the purchase at auction of Town or City lots or lands within the site or suburb of a town payment for which has been made to the Crown and who wishes to obtain a proportionate amount of such land in consideration of the monies already paid must file application in that respect on or before the 1st day of November, 1920, on which date the privilege of obtaining the proportionate allotment will cease and any person in arrears of payment under an agreement for sale as aforesaid failing to make application as stipulated will thereafter be barred from the same and the privilege will be subject to the fulfillment of the terms of the sale and the provisions of the "Land Act," governing the purchase money in connection with which special attention is drawn to the notice appearing in the current issues of this paper.

JACK SHARKEY BEAT HERMAN

Champion Bantam Saved from Knockout by Superior Generalship

EAST CHICAGO, Sept. 13.—Jack Sharkey, who fought Jimmy Wilde, English featherweight champion, outfought Pete Herman, bantam champion, in a ten round bout. The title holder was saved from a knockout by superior generalship.

The Man in the Moon SAYS:-

THAT if everyone was as tall as every other one, what a jam of umbrellas there would be on a rainy day.

THAT some people sleep so sound you can hear them all over the house.

THAT new babies mean fresh squalls on the ocean of life.

THAT the way to make toast is to put it on the stove and burn it and then take it to the sink and scrape it.

THAT a man who sold his rattle found he had to buy another rattle for his baby.

THAT "keep your money at home" would sound better if there were not so many trying to intercept us staying at home.

THAT—
A little scandal now and then is relished by the oldest hen.

THAT there is one consolation about these railway fares. A lot of relatives will now have an excuse for staying at home.

THAT—
Freight rates are soaring.
Geel what a deal!
The only thing cheap
Is the way we all feel.

THAT some people are always late.

THAT when opportunity calls they are still too late for they have formed the habit.

THAT if ever they reach the golden gates of paradise they will be too late for the gates will have been closed just five minutes and, thank heaven, will never reopen to them.

THAT the man who is late habitually is as bad as a criminal. He upsets all the arrangements of organized society and deserves punishment accordingly.

GROSSMITH IS CLEVER

**Talented Artists Were Received
With Enthusiasm at Rink
Last Evening.**

Prince Rupert audiences have probably never heard an actor, impersonator, pianist and composer combined in one person before and Leslie Grossmith, who seems to be equally proficient in any of these roles, was received with great enthusiasm in his recital at the auditorium last evening. The large hall was filled to capacity and emergency seating room had to be provided before the many persons in attendance could be seated. The concert was a signal success both from the standpoint of the entertainer and the entertained.

Mr. Grossmith's programme abounds with numbers from the classical to the everyday humorous. It is different from the presented by the common run of entertainers and there were many surprises in store for his listeners. The music was undoubtedly good, the humor of a bright kind and decided dramatic powers entered into the character work.

Classical Numbers.

Among the classical numbers played by Mr. Grossmith as piano solos were Mendelssohn's "Concerto f in G Minor," William Pope's arrangement of "Annie Laurie" with variations, Henri Kowalski's "Grand Galop de Concert," and Donizetti's Fantasia from "Don Pasquale." Power and remarkable technique characterize Mr. Grossmith's solo work and this was especially evidenced in the last mentioned number which was played with the left hand alone.

Interspersed with the classical selections were many comedy sketches, monologues, songs and burlesques of an exclusive nature. The humor is mainly along English lines and gets away from the ordinary attempts of the kind.

Violin Soloist.

Hugh S. Barbour, who is accompanying Mr. Grossmith on the present tour, has exceptional talent as a violinist. His work is not of the brilliant, powerful type but is more quiet and refined and is very delicate. His notes are clear and sweet and his stage manner is very pleasing. Count Szeda, who was here with the Chautauqua last week, and Mr. Barbour are altogether different types of artists. Mr. Barbour is a Vancouver violinist, another proof that art of the highest class may be found right in British Columbia. Among the numbers played by Mr. Barbour were "Sartarella," "The Swan," "Spring Song," and a composition of Fritz Kreisler.

Following the concert last night the floor was cleared and a dance enjoyed to the excellent playing of Mr. Grossmith and Mr. Barbour.

In the absence of Mayor Clymont from the city Alderman Dybahn has been appointed acting mayor. He presided at the meeting of the city council last night.

Sheena River arrivals at the Hotel Prince Rupert this morning were H. W. Chambers, of Balmoral, and Thomas Dawe, of Port Essington.

Income Tax

"It is not unfair to say that the
income tax, if thoroughly and
forcefully applied in this country,

WOULD HAVE TARIFF FOR REVENUE ONLY

Farmers Lay Case before Tariff
Commission at Winnipeg

WINNIPEG, Sept. 14.—In laying before the Tariff Commission their case for a tariff on a "strictly revenue basis" the Canadian Council of Agriculture here today attacked the protective policy of the present government as being the most wasteful and costly method of raising money for national purposes and urged that there are gross injustices connected with its application. Last year the cost of collecting \$158,000,000 was over \$5,250,000. Added to that the consumer had to pay in profit twenty per cent twice, once to the wholesaler and once to the retailer, on the total amount of money collected, so that in order to collect for the Government 30 per cent the consumer had to pay 58 per cent. It means that the consumer had to pay \$395,000,000 for the \$158,000,000 which was collected in the way of customs revenue.

The case set before the commission says—

"These are only instances to illustrate the false basis upon which our present customs tariff rests. The demand for reform in the existing method of federal taxation, strike at the costs of living and production. For example, it is urged that the customs duty on goods imported from Great Britain should be reduced immediately to one-half the rates charged under the general tariff.

The result of such a reform would be to lower the cost to the Canadian consumer of such staple textile products as woolens and cottons. If there is one industry more than another in Canada which ought to be made to stand on its own feet, it is the textile industry. Abundant evidence as to the capitalization and financial returns to the principal textile companies in this country has been provided in the report of the special parliamentary committee on the high cost of living which sat in Ottawa in June and July of 1919, and also in the report of the board of commerce.

There are now eighty boys enrolled in the naval brigade.

FARMERS' CANDIDATE

PETERBORO, Ont., Sept. 14.—J. C. Campbell has been chosen as farmers' candidate in the West Peterboro by-election.

sought to yield a revenue of at least 200 million dollars per annum at the present time. As has already been said it is not the desire of those who are represented by the farmers' platform to bring about any immediate drastic changes in the customs tariff or the fiscal policy of this country which would endanger the business interests of the country as a whole, but it is submitted with all sincerity and earnestness that it is possible to establish a national policy for this country that it will rest upon the principle of direct taxation rather than upon the principle of tariff protection. By reducing the tariff immediately and providing for the reduction in revenue which might follow, by a more rigid enforcement of the income taxes, the federal government of Canada would have taken the first step towards adopting the recommendations which are put forth by the organized farmers of Canada through the Canadian Council of Agriculture."

PRINCE GEORGE

W. J. Thompson, president of the Edmonton Board of Trade, was a visitor here last week. He was much impressed with the opportunities and prospect for the future of Prince George.

Alexander Ogle has been formally committed for trial by Magistrate Herne on the charge of having murdered Thomas Dodd, the Mud River rancher.

J. H. Johnson, proprietor of the Prince George and Alexandra Hotels, broke seven ribs and sustained severe head injuries when his car went over the hill at Bednest Lake returning from the Vanderhoof celebration. The new Franklin car was completely wrecked, but no one else was hurt.

The marriage was solemnized here recently of Herbert Hanson and Elizabeth Clara Skelly. The ceremony was performed in St. Michael's Church by Rev. S. Pollinger.

proportion of school population in the lower grades are: (1) A low age limit of compulsory attendance, together with lax enforcement of the attendance laws; (2) retardation in the earlier grades. Saskatchewan inspectors ascribe the marked retardation in rural districts to the following causes: (1) Irregular attendance; (2) incompetent teachers; (3) constant change of teachers; (4) overloading of teachers in the primary grades.

"The attendance laws throughout Canada are not uniform," says the report. "Ontario, with its recent Adolescent Attendance Act, stands highest. Full time attendance is required up to sixteen years, with exceptional cases of part-time attendance of 400 hours permitted between fourteen and sixteen years. Adolescents between sixteen and eighteen are required to devote 320 hours in the year to school duties. The compulsory age limit in Alberta is fifteen, in Saskatchewan and Manitoba fourteen."

Teachers are Underpaid

In a discussion of the salaries of Canadian teachers the report insists that they are insufficient to meet the present cost of living and insufficient in comparison with the remuneration of other branches of skilled labor. They are not a return for services rendered and not large enough to insure a supply of well qualified and experienced teachers.

Emphasis is placed upon the necessity of increasing consolidated schools. In Manitoba they have proved a success. In that province there are 106 in operation and 4 in process of formation. Saskatchewan has 35, Alberta 63, British Columbia 3, Ontario 2 in operation and 7 in process or formation. In New Brunswick there are 4 and in Nova Scotia none. In Alberta 52 of the 63 consolidated schools offer high school work and an equally large percentage in Manitoba do the same. They are recommended because they would make possible better paid and better qualified teachers, also the engagement of specialists to teach agriculture, domestic science, music and art. They would also furnish a continuous educational system of twelve years for both rural and urban children.

Sport Briefs

The result of the game between the Callies and the Trail Athletics last Saturday in which the latter team won the right to engage in the exhibition football play-off seems to have been popular all around. The Trail Club played all season and played well, but came out with no awards. The league championship was won by the Grand Trunks and the Gilhuly Cup by the Callies, so they have something to show. It is for this reason that many football fans hoped to see the Sons of England and the Trail meet at Fairtime. J. Day Bell is working hard now organizing a team for next Saturday, so the Sons of England may give the Veterans a run. The latter are more or less black-horses for they have not been seen collectively in action though many of their members have been scattered throughout the various league teams.

One hundred Prince George citizens spent Labor Day at the Vanderhoof celebration. Besides the special train many cars made the trip. Prince George took many of the prizes—and made an excellent showing. In the 100 yards dash, Dickinson, of Stewart Lake, and Watkins, of Vanderhoof, were the winners. Eddie Brown, of Prince George, and Charles Smith won the broad jump, while the former also won the high jump and putting the shot. McLeod, of Vanderhoof, and Terry Johnson were second and third in the latter event. Vanderhoof was first and Prince George second in the relay race.

Prince George defeated Vanderhoof at baseball on Labor Day in a well contested game which ended up with a 5-4 score. The \$100 prize and the cup, therefore, went to Prince George. Thomas Smithers was the umpire and the batteries were Johnson and McKinley for Vanderhoof, and White and McLeod for Prince George.

Two-color window cards take the eye quickly. See them at the News Job Department.
