Proposal to Establish Enormous Bunkers near mouth of Skeena River for Distribution of Coal to different points

100 Square Miles of Lands Involved in Deal

World's Largest Smokeless Steam Coal Deposit in World may be opened up if Syndicate goes through with proposed plans.

VANCOUVER, October 13.—R. C. Campbell-Johnston, who is in charge of the Groundhog district, announces that negotiations are being conducted between a syndicate representing the British Admiralty and the Government of British Columbia in regard to the purchase of 100 square miles of coal lands. This area forms the largest coal deposit in the world. Campbell-Johnston says the syndicate have plans showing the establishment of coal bunkers on Portland Inlet near the mouth of the Skeena River with distributing bunkers at every port on the Pacific coast. The proposal is that the syndicate shall use its own coal to supply the stations. Campbell-Johnston is a mining engineer with a good record.

#### JAMES PARKER PASSED AWAY

Father of S. E. Parker Died This Morning After Illness of Some Weeks.

After an illness of some weeks, James Parker passed away this morning at 4 o'clock at his residence on Second Avenue. The late Mr. Parker had been ill for some time past and the end did not come unexpectedly. Mr. Parker was born at Stirling, Ontario, on March 7, 1844, and was the son of Mr. and Mrs. Wm. Parker of Ayr, Scotland. At the age of 21 he entered the drug business and continued in that work until 1914, during which time he was located at Stirling and Peterborough, Ontario, and Winnipeg, Manitoba, opening one of the first drug stores in that city. He was married in 1876 and three children survive him, Stanley E. and Edith, of this city, and Robert, of Texas, all of whom were born in Winnipeg and Selkirk. His wife predeceased him in 1889 and in 1892 Mr. Parker went to Chicago where he met with an accident which resulted in permanent lameness. Mr. Parker came here from New Mexico in July, 1914, and was engaged in the transfer business with his son until last month when his illness confined him to his home. During his six years' residence here Mr. Parker became widely known and highly respected and his demise will come as a shock to many friends and acquaintances. Funeral arrangements are in the hands of the B. C. Undertakers.

#### VERY FEW BUYERS AT PROVINCIAL TAX SALE

Most of Property Reverted to the Government and Only \$17 Over Delinquent Taxes Realized.

Yesterday's provincial tax sale was a slow affair and there was only \$17 realized above the amount of the delinquent taxes by the auction. There were only a handful of bidders and the sale was over by noon. The only property bringing in any margin over the taxes were parcels bought by M. M. Stephens and A. W. Cameron. Twenty parcels were sold to outside bidders and all the rest went to the upset price to the government. W. S. Fisher was auctioneer and among the buyers were H. C. C. Black, Robert Stewart, Gerard Bakker, A. J. Wheatley, C. G. Perry, Percy Miller, and C. M. Adams.

Seldom if ever was there such an enthusiastic gathering in Smithers as the farwell dance given by the citizens of Smithers to Mr. and Mrs. A. Kilpatrick on their leaving. An address and presentation was tendered the departing citizens.

The Smithers hospital is now running in full swing. All the water and electric light systems are running in good shape. Vancouver architects are preparing plans for quarters for the lady superintendent and an administration building.

W. L. Mackenzie King addressed a large gathering at the station here last Monday during the ten minute stop of the train.

DAILY EDITION. Wednesday, Oct. 13, 1920.

Can Any Man Ever Be Fair?

Is it within the scope of the mind of man to be absolutely fair? Some people think it is quite easy, but it is not.

Take politics as an example. There are papers who try to avoid taking sides, but they can't.

There are some people who think it unfair if the paper takes sides. They would like a newspaper to be a mugwump.

This is just mentioned to illustrate the difficulty of being fair or rather of being considered fair.

As a rule men are more tolerant than women. They knock about the country more and meet more people.

Interest Charges Continue to Rise.

In spite of the urgings of Socialists that capital is unrighteous and that interest charges are an abomination, the rates of interest continue to go up.

"A natural corollary to the industrial activity and rise in prices of the last six years has been the rise in interest rates.

Prosperity at any time stimulates the demand for loanable funds and the rate that borrowers are willing and able to pay for them;

Standard preferred stocks give a return of 8 per cent in place of an average of 6 per cent before the war, when it was usual to see 7 per cent preferred stock selling at a premium.

Interest rates on securities have therefore risen thirty to fifty per cent in this period, as compared to an average rise in the price of commodities of well over 100 per cent.

Interest rates on bank loans in foreign countries have risen in much the same proportion as those on securities.

In Canada, rates have remained almost stationary and the charges made by Canadian banks for accommodation are now less than those in force in any of the commercial centres of the United States or Europe."

### IN THE LETTER BOX

PERSONAL LIBERTY  
Editor Daily News—Your editorial of yesterday shows me that I did not get my idea to you and therefore to your readers. Put it this way:  
Our forefathers fought for ideals of personal liberty, which Dr. Grant and prohibitionists now deny. Just as an illustration, our early closing bylaw is a piece of democratic tyranny. I have the right to run a store 24 hours a day, seven days a week. The community has no right to interfere with my business unless I injure or threaten to injure someone else. The community has the right to say that I shall not overwork my help, which brings us to the eight hour law.  
We have taken the tyrannical method and issue licenses based not on service, but on when my store shall close. This is not right. The community has the power, but might is not right.  
The prohibitionists have reached the stage of intolerance preceding witch burning or its modern equivalent. I have seen the operation of some of the vigilance committees in the west. These committees were true democracy, with high ideals of life, liberty, and property at the start. Soon the average member became apathetic. A "ring" secured control and tyranny began. The result was prohibition gone crazy. Our democracy has nearly reached the same stage.  
We are none of us so good we can honestly interfere with the private life of our lowest citizen except for the protection of someone else, and those who try for any other reason place themselves still lower. The prohibitionist is a traitor.

### TAXATION HERE NOT EXCESSIVE

Edmonton, Toronto and Victoria Pay Larger per Capita Tax Than Prince Rupert.

According to authentic figures published recently by the Citizens' Research Institute of Canada and figures obtained at the office of the city treasurer of this city it will be seen that Prince Rupert's per capita taxation compares very favorably with other larger and older cities in Canada. The total taxation levied by the municipality here in 1919, including general taxation and local improvement levy, was \$300,706, which, divided among a population of 8,900, makes the total per capita rate \$37.59.

In computing per capita taxation, the local improvement taxes are not always taken into account but just the general tax. In that case the rate here would be \$29.90 for the total general taxation is \$239,216.

Following are comparative figures of leading cities of the Dominion for 1919:

	Per head.
Edmonton	854.54
Toronto	40.90
Victoria	37.79
Prince Rupert	37.59
Vancouver	37.48
Regina	32.32
Winnipeg	29.28
Montreal	27.46
Ottawa	23.23
London	23.01
Hamilton	22.12
Halifax	18.27

### WILLIAM FARNUM IN "THE ADVENTURER"

William Farnum, who is here tonight at the Westholme Theatre in E. Lloyd Sheldon's romantic drama "The Adventurer," made his first stage success in roles of the type he now enacts on the screen. As Don Caesar de Bazan in "The Adventurer" Mr. Farnum is certain of success. While his art has enabled him to portray with success all types, it will be recalled that in the famous "Ben Hur" and "The Prince of India" he scored notable stage successes before he deserted the spoken for the silent drama.

It will be a treat to see this famous screen star as a happy, rollicking hero in "The Adventurer," and the older theatre-goers of this city will recall, when they see him on the screen in his latest Fox production, the power of his interpretation of the hero in each of the famous stage plays referred to—plays in which he put his right to stardom beyond all possible challenge.

#### CHANGE OF FRONT.

Editor Daily News.—When the previous vote was taken on the liquor question, A. E. Tulk was working against government sale of liquor and in favor of the license system with the open bar. At that time a pamphlet was published under his sanction which said:

"Here is a wide open door for political graft and preference. What a scramble for government jobs, selling whiskey, if this act comes into force! It is well to remember the evils of a prohibition government controlled system, such as was in effect before the creation of the provinces of Alberta and Saskatchewan in the North West Territories, and the permit system in the Yukon. Both territories were glad to exchange for the license system."

Today the liquor advocates have changed their tune and want the people to adopt something which a few years ago they declared to be wrong.

## BASKETBALL IS STARTED WELL

Big Crowd Attended Reorganiza-  
tion Meeting Last Night—  
Officers Elected.

### MEMBERS URGED TO JOIN ATHLETIC ASSOCIATION

A large and representative crowd was on hand in the council chamber last evening for the re-organization meeting of the basketball association. Officers were elected and it was decided to hold an executive meeting next Tuesday night when all teams that desire to enter competition in the various leagues are to be registered and general arrangements for the carrying out of the winter's sport will be discussed.

It was decided to use the Agricultural Hall for the games this year and it was strongly urged by E. A. Donohue, J. C. Brady and W. E. Thompson that the members of the basketball association turn out in force at the next meeting of the athletic association and take advantage of the offer of the officers of that association to come into control of that association and its assets. It was felt that a combination of the two bodies would work to the advantage of the basketball association and sport in general.

C. C. Clementson stated that the Exhibition Hall with its shower-baths and conveniences was the best place in town to conduct the games and no heavy gate fee would have to be relied upon to clear expenses.

**Many Teams Enter.**  
From the reports brought in at the meeting last night, there are to be a great number of basketball teams this year in senior, intermediate and junior competition and ladies are going to take part as well as boys.

Mr. Brady reported that there were no less than four ladies' teams at the high school and some stated that there are nine ladies' teams altogether. Juniors and intermediates are also planning and, in fact, there were several of their representatives at the meeting last night. Besides this there is to be a senior league lineup better than ever before. From all appearances the exhibition building should be kept busy every night this winter with at least one game of basketball.

All boys under 16 are to be included in the Junior League. The fee for senior men's teams this season is to be \$5; for intermediates and ladies' seniors, \$2; ladies' intermediates and all juniors will be required to pay no entry fee. The following are the new officers of the association:  
Honorary president, Col. S. P. McMordie.  
President, Fred Ghhuly.  
Vice-president, Principal J. C. Brady.  
Secretary-treasurer, George S. Russell.

An executive consisting of the officers and one delegate from each club participating is also to be named. This executive will deal with all arrangements and disputes and will draw up regulations.

### PLANES AT FARGO

FARGO, Oct. 12.—The planes returning from the New York to Nome trip reached here yesterday.

## 2000 YEARS AGO

the fighting Gladiators of Ancient Rome healed their wounds and sores with rare herbal oils and balms. These are said to have knitted the damaged tissues together in miraculous fashion.

Though the highly-prized secrets of these precious balms were lost with the fall of Rome itself, the introduction of the great herbal balm Zam-Buk, has furnished their true successor. It is so marvellously like them in action.

The soothing and healing touch of Zam-Buk is to-day known the world over. Whether there is a Cut, Burn or Scald, a Poisoning or Poisoned Bite, a patch of Itchiness, Sock Itch, Pimples or Rash, Zam-Buk ends the trouble once and for all. The same with Ulcers, Bruises, and Piles.

Nothing else known to Science performs such marvellous healing, or dispels disease from the tissues so thoroughly as Zam-Buk does. This is due to its pure herbal character and origin. Its absolute freedom from animal fats and minerals found in present-day ointments is another valuable feature.

With production costs at high-water mark, the price of Zam-Buk remains at 50 cents. At the old price you will have the same high standard of curative and healing value. Increased world-wide demand allows this.

### LITHUANIA TO BE SEPARATE STATE

WARSAW, October 13.—The Central Lithuanian Government at Vilna has issued a proclamation making themselves into a new state including the town of Grodno, with the River Niemen the dividing line from Poland.

## TRAFALGAR DAY FOR THE NAVY

Collection will be Made on that Occasion for Boys' Naval Brigade.

October 21 is Trafalgar Day and that famous and memorable anniversary will mark the climax of a campaign throughout Canada to be carried on under the auspices of the Navy League. The direct object of the campaign will be to secure the needed funds to finance and carry on a permanent educational policy in Canada, for the avowed purpose of fostering the sea instinct in Canada, educating our youth to the traditions of the British Navy, and of impressing upon the public of Canada the important part our commerce on the seas plays in the national life of the country and the Empire.

### Local Activity

In Prince Rupert there is to be a tag day on that day and the funds raised on that occasion will be devoted to providing for the needs of the local naval brigade. The Heate, which is being rebuilt under direction of Captain McGoskrie, it is expected will be ready by about that time and the brigade will then get down to practical training. Uniforms for the boys have been ordered and everything will be ready for a good start.

All through Canada a revival of interest in the work of this organization has been manifested through the instigation of those comparatively few whose zealous enthusiasm for the objects of the league has never slackened and this campaign will mark the definite start of a policy that has been recognized since the war as essential to the wellbeing of the Dominion—namely, a constant effort of interest and education which will keep alive in the hearts of the Canadian people, and particularly the young, that interest in and responsibility for the highways of the seas which mean so much to Canada's daily commercial life, her national security and the safety of the Empire.

Mrs. Frank Fitch arrived this morning from Vancouver to join her husband who recently came here to take up his duties in the customs house.

### PRICE OF FURS ON THIS COAST

C. H. French, Manager of Hudson's Bay Company Discusses Matter at Victoria

VICTORIA, Oct. 13.—Conditions at present existing in the fur trade are notable for the absence of buyers, according to C. H. French, manager of the Hudson's Bay Company here and a specialist in the fur trade. In an interview Mr. French explained that, while prices of raw furs were still far above pre-war figures, the values attached to all grades of fur a year ago have completely collapsed and the market is now awaiting the resumption of buying by the general public before any considerable sales of raw furs can take place.

#### Misleading Prices

Speaking of the results accruing at a fur sale held in Seattle on October 5, Mr. French said: "Without explanations these results may cause trappers and storekeepers considerable loss. The prices quoted as being obtained by Messrs. Hibbard and Swenson were: Red fox, \$20; white fox, \$20; ermine, \$1.50; cross fox, \$35, and sable, \$80. Although these figures were quite correct, they are entirely misleading, as the goods sold were of Russian origin, their value being quite different to the values of British Columbia furs.

#### Varying Fox Skins

"A few examples illustrate this point," said Mr. French. Red fox of central British Columbia origin are of a flat nature and light color, their value today being not more than \$12 for good average skins. Skins of Cassiar and Atlin origin carry much heavier fur of finer texture and are worth about \$1 for average quality.

"The furs from the Bristol Bay country are larger than those mentioned, but this is offset by having grey rumps. For dyeing purposes this class of fox is most suitable, provided the fur is heavy and of fine texture. As to the foxes originating from islands of the Pacific Ocean, these are large and very coarse and not worth more than half as much as inland skins."

#### Best Foxes Known

As a comparison, Mr. French said: "The Kamshinka foxes sold by Hibbard and Swenson, although perhaps a trifle small in size, are perhaps the finest produced in any part of the world, carrying a deep rich red color, with a great wealth of rich silky fur. Therefore, while the quotation of \$20 for the Hibbard and Swenson skins was correct, it does not mean that British Columbia skins are worth this, but rather that the very most our dealers can expect to realize is \$15. I may add that, out of perhaps 5,000 skins offered at that sale, only about 500 were sold, showing that the trade is not able to absorb all offered, and therefore it is only reasonable to look for a further decline."

#### Vagaries of Furs

Speaking of the market for marten, a line of much interest to British Columbia fur dealers, Mr. French said that these skins had a pre-war value of about \$5 for average quality and retained this price through the two low priced years which followed. Last year they rose in value until they touched \$50 apiece and are now worth about \$15 or \$20 each. "We often see these quoted at so much per skin, without any mention of the location whence they came," said Mr. French. "Almost every hundred miles of our vast country produces a different class of fur and there are distinct values placed by buyers on this fact, ranging in the following order: Cassiar and Atlin, Upper Yukon, Lower Yukon, Central British Columbia, Cascade, Coast and Island. Each of these contains subdivisions that are made when close values are necessary, and, in addition, each section carries different values depending on the color."

Mr. French cited in point Cassiar marten, a lot from this district carrying good color might sell for an average of \$30 each, while skins from the same section, but carrying less color would be sold for about \$15 apiece.
