GOVERNMENT TO CARRY OUT WILL OF PEOPLE ON PROHIBITION QUESTION

Mackenzie King Launches Terrific Attack at Vernon

Publication of Names of Owners of Sugar Re-
fineries; Manufacturers Give Their Side of
Question

OTTAWA, Oct. 15.—The Governor General in Council
hear the sugar case on October 20. Owing to the
stance of the matter the Premier has postponed his
tour one week. The Government's decision was
after a special meeting of the council held to con-
sider the report.

Mr. C. J. Doherty set out the view that the regula-
tion passed by the commerce board was very probably
and whether illegal or not was of a character never
before by the legislation establishing the board. It was
clear that the order seemed designed to effect a pur-
sue wholly outside the board's authority. On these
points the Government declared the order was inoper-

MACKENZIE KING ATTACKS ADMINISTRATION.

Vernon, Oct. 15.—Charging the Meighen Government
being the tool of the big interests, one of the which
the sugar order was designed to placate, W. L. Mackenzie
King, leader of the Liberal party, launched a terrific at-
tack on the administration at a meeting here. He said:
"I think in the public interest there should be an immedi-
ate disclosure of the persons who at the present time and
within recent years have acted as members of the
boards of directors of the sugar refining companies in
British Columbia, the St. Lawrence refinery at Montreal in particu-
lar. They should disclose by whom and in what
circumstances stocks in these companies are held. I challenge
the Government to see that these facts are immediately
disclosed to the Canadian public."

Vancouver, Oct. 15.—Mayor Gale of Vancouver, the
Vancouver Great War Veterans, the Vancouver Liberal
Association, and other bodies have sent telegrams of pro-
test to the Government against the orders.

REFINERS' SIDE OF QUESTION.

Montreal, Oct. 15.—Huntley Drummond, president of
the Canada Sugar Refining Co., gives the case for the
refineries saying, as a result of continuous Government
control, the refineries have been left with commitments
amounting to \$60,000,000 which they were forced into
making. If they were forced to sell at the same ruinous
prices as in the States the whole industry would be destroyed.
He pointed out that Canadians, owing to Govern-
ment control, had been able in the past to buy sugar
at a price less than the price paid in the United States.

ESSINGTON IS FOR PROHIBITION, SAYS REV. JAMES DUNLOP

Rev. James Dunlop returned
last night from Port Essington in
a very optimistic frame of mind.
He had gone expecting to find, as
the result of reports received
here, that the whole community
was apposed to prohibition. The
result of his visit is that he feels
sure a substantial majority will
be given the prohibition cause at
that point.

A meeting was held in the
church at which the issues were
explained and a number of the
people were visited. Mr. Dunlop
says that while there is much
objection to the manner in which
the law has been allowed to be
broken, there is no intention on
the part of the people to stand
for the open sale of liquor. What
they want is to have importation
shut off, so that none may cope
in.

local sugar refinery has not raised

tailing here at 20c.

Election Soon Says Attorney General

Party will present United Front when
it goes to the Country; Neutral on
Question of Prohibition

VANCOUVER, Oct. 15.—Speak-
ing at the annual meeting of the
Vancouver Liberal Association,
Hon. J. W. deB. Farris, attorney-
general, said it was no secret that
it will not be long in British Col-
umbia, before the Liberals will
be called on to take the field to
make a fight for the return of the
Liberal government.

Mr. Farris denied as scurrilous
rumors the statements made that
there was trouble between M. A.
Macdonald and himself. Liberals
would present a united front when
it appealed to the country.

Curious Attempt To Keep up Prices.

The attempt of the Board of Commerce to keep up prices abnormally is doomed to fail. The same board failed to keep down prices. It does not seem long ago that the price was kept down to about fifteen cents, but the pressure from the refiners became too strong and the cost of this necessary of life soared.

The people of Canada will never stand for an attempt by the big interests to hold them up. They are often fooled and will be fooled again but this is too big a steal for them to get away with.

Serious Charge By Canon Scott.

Canon Scott makes a serious charge against the Dominion Government in regard to the Ross Rifle. If what he says is true, the Government should not remain in power another day.

When a man of the standing of Canon Scott makes a public declaration such as that of yesterday, the government should take quick action. If they fail to do so they will be accused, and rightly so, of trying to evade the consequences of their acts by keeping quiet.

Baneful Effect of Freight Rates.

The News was not speaking without the book when it prophesied the baneful effect of the new freight rates on the business of this district. Yesterday we told of the closing within a few days of the last of the operating mills on the Queen Charlotte Islands.

It is to be hoped that the Railway Commission, after seeing the effect the jump in freight rates has had on business, will stay its hand and not put into effect another check to business.

Can a Golf Course Be Constructed?

Is it possible to construct a golf course near Prince Rupert? Most people think not, but one visitor at least is of opinion that it might be done. Undoubtedly if it could it would be a great boon to many people and would be an attraction that would keep many visitors in the city during the good weather.

A fine course could be made in Section 9, but possibly by the time it was in good condition, that part of the city would be put on the market and the course broken up. A lot of draining would be needed and it would cost a good deal to keep the links in condition, but as the enthusiast points out, it could be done if the people really want it.

New Hotel at Lakelse Soon.

Yesterday H. S. Johnston of Winnipeg was in the city and he told the Daily News of his plans to erect a new hotel at Lakelse. This will be a great thing for the district. It will probably commence with about fifty rooms, but can be increased from time to time. The lake should be one of the big resorts of the province that will bring tourists this way and with a big tourist hotel at Prince Rupert and a few attractions here we should be in a position to keep visitors for at least a few days instead of allowing them to pass on.

Feels Lost Without It

"We had never used Zam-Buk before but would feel lost without it now," writes a grateful Ontario mother, Mrs. T. G. Miller, of Winona.

"Whilst at play," she says, "my little two-year-old laddie ran up against a cross-cut saw and gashed his forehead badly. As we happened to have a box of Zam-Buk in the house I got it down and applied a dressing to the injury. It speedily soothed away the pain.

"After treating the wound with Zam-Buk twice daily for three days, it healed so well that I was able to leave off the bandages. There's not even a scar now, thanks to Zam-Buk."
Our files hold thousands of similar letters confirming the wondrous soothing and healing power of Zam-Buk in cuts, burns and scalds, and for ending obstinate attacks of Eczema, Poisoned Sores, Ringworm, Ulcers, and Fles.

VETERANS PASS RESOLUTIONS

Urge Elimination of Orientals from Industries and Change in Fishing Regulations

VICTORIA, Oct. 14.—The Army and Navy Veterans unanimously passed a resolution urging the appointment of an advisory board in the province to gradually eliminate Orientals from industries. Another resolution was that similar loans be made to veterans in the fishing industry as to those going on land, and the elimination of drag seines, traps and purse seines in all waters between Vancouver Island and the mainland.

GREEK ELECTIONS

Voting to Take Place Between Sunrise and Sunset on Sunday, November 7.

ATHENS, Oct. 14.—The Greek elections are to take place on Sunday, November 7, the polls being open from sunrise to sunset.

General expectation throughout the country is that Premier Venizelos will be returned to power with a good working majority and that he will proceed to revise the constitution limiting the power of the monarchy. As nearly as possible the new constitution will follow the unwritten constitution of Great Britain, giving the cabinet almost unlimited power subject only to the dictates of parliament.

The Man in the Moon SAYS—

THAT a woman once thought she would get even with the newspapers, so she stopped taking it and hired a girl who had been with almost every family in the street.

THAT the price the people of Canada pay for living here is seven cents a pound on sugar.

THAT the Government stuck a big tax on clothes and then reduced it; they stuck on big freight rates which are killing business and have given orders for a revision downwards; they, through their board of commerce, have made an attempt to hold up the price of sugar, but it will come down; in fact the Government is losing out all along the line.

THAT incidentally the same government is losing the confidence of the people, so there you are, as our neighbor would say.

THAT there were a lot of things done during war time that have never been accounted for.

THAT why should Canon Scott be so insistent, when there are a dozen other war time scandals just as bad as the Ross rifle?

THAT it was a Prince Rupert lawyer who said that the most confusing case he ever touched was a case of bootleg, for everything became muddled before he was half way through.

THAT the Alberta export houses are shrieking to the people of B.C. to buy now for the country is going dry. These expert people know more than some of their friends here.

THAT a young lad and a young girl were married in Montreal without the consent of the boy's father. They have lived together since last May and now a Judge decides that the marriage is not legal. Is that in the interests of morality?

THAT there is a B.C. vacancy in the Senate and naturally there are a number of applicants for the job. H. H. Stevens, Bob Green and H. S. Clements are said to be in the running, but Prince Rupert's V.C. may beat them all to it.

THAT why not?

THAT other Prince Rupert names have been mentioned from time to time, but Meighen did not come, so how are they to lay their claims before him?

THAT some boys went fishing in Kansas and caught a bomb. That was nothing to the catching of that big black cod seen in Frazil's window.

TERRACE MEETING IS FOR PROHIBITION

Rev. Dr. Grant Addresses Meeting and Explains Doubtful Points.

Dr. Grant returned last night from Terrace after addressing a meeting in the interests of prohibition in Progress Hall. He says that in spite of the bad night there was a good turnout and much interest was taken in the issue. Rev. Mr. Young presided.

Dr. Grant explained for the benefit of the women voters how the ballot should be marked and urged that government sale would debauch the Government and would amount to no control at all. If the prohibition law was not supported there would be no chance of stopping importation.

If government stores were opened bootlegging would flourish for the stores would not be open in the evening when people wanted the drink.

Dr. Grant said that he was able to clear up a number of doubtful points for his hearers and he was assured that in at least one case a man who formerly voted against prohibition had said he would support it this time after reading the prohibition literature.

DISCUSSION WAS HEATED

D. C. McRae Replies Emphatically to Alleged Statements of Ald. Perry Over Hospital Affairs.

A committee comprising President D. G. Stewart, Secretary George E. Gibson and Alderman William Wilson-Murray was appointed last night at the meeting of the hospital board to investigate the differences between Directors J. B. Roerig and D. C. McRae on one side and Alderman C. G. Perry on the other, over hospital financial matters that resulted last evening in an open break and a burst of eloquence from Mr. McRae.

The matter was brought up by a letter being read from Messrs. Roerig and McRae demanding that the Hospital Board investigate alleged "slandering statements" by Alderman Perry made at council meetings on September 13 and 20. These statements it was stated reflected both upon the personal characters of Mr. McRae and Mr. Roerig and on the hospital board. Directors Collison, Murray, Mrs. McLeod and Mrs. Parsons were all against the bringing of the hospital board into what was termed by Mr. Collison "a little squabble in the finance committee."

Perry Explains.

Mr. Perry then explained his position and apologized for anything he might have said distasteful or injurious although the facts still remained. They still had the appearance of being interested and he cited incidents that had been told him in the presence of others by the late secretary, Mr. Denholm. Mr. McRae had objected to a rubber stamp being ordered from Vancouver when McRae Bros. sold them and Mr. Roerig had objected to an order of meat from the Northern Interior store with the result that the orders had been discontinued. If they could show otherwise he would gladly apologize and would not have the matter carried on.

Mr. Roerig stated that it would be difficult to disprove he had made the complaint alleged for there was only his word for it, but he would admit that a man had been sent out to look over the books of the hospital with a view to improvement. This man had, however, failed to report and no new system had been installed.

Vilest Slander.

"I am surprised at the presumption of Mr. Perry in addressing this meeting after he admits he did not know about hospital affairs and still has made the vilest slander against us," said Mr. McRae. "If he is a man of honor he will either prove his statements or withdraw them. He then proceeded to read the statements that Mr. Perry is alleged to have made at the council meeting and Mr. Perry immediately denied making any such statements. "If what Mr. Perry says is true Mr. Roerig and I should be in jail and if it is not true he should be. Mr. Perry, I am not afraid of any exposures you can make and my honor is worth more to me than a position on the Hospital Board. It is my opinion, however, that Mr. Perry has meant nothing personal but has simply gone off half cocked." The discussion was brought to a close when President Stewart called for Mrs. McLeod's resolution asking for a committee of investigation, which was seconded by Mr. McRae.

Action of Herbs on the System

No sufferer can afford to overlook the wonderful medicinal powers of herbs. They were the first remedy used by man and today herbals have brought their formulas up to a wonderful standard. Years ago a great herbalist combined in one preparation the essential juices of herbs such as gave relief to many organic complaints. After doing marvelous work as a private prescription he placed it on the market under the name of Wonder Health Restorer. It has been used with success by thousands. Ask your druggist for "The Road to Health" and read what these people say. Wonder Health Restorer acts on the blood, freeing it from all impurities, it acts on the entire system, keeping every organ open to throw off waste matter. The specific herbal properties are carried to every affected organ by the blood and quickly correct improper action. No person need be afraid to take it as it contains nothing but herbs—no alcohol and not a trace of any drug. Wonder Health Restorer is sold in Prince Rupert by the Prince Rupert Drug Co. from whom all information concerning the remedy and its wonderful work may be obtained.

LLOYD GEORGE AND TYRANNY

Letter to Candidate at Ilford Gives Interesting Light on British Events

A letter recently written to a Unionist candidate at Ilford by Premier David Lloyd George gives an interesting side light on the conditions in Great Britain and the way in which these conditions are viewed by the greatest statesman of the day. The letter follows:

"Dear Mr. Wise—I rejoice to hear of your resolute fight at Ilford for the supremacy of Constitutional Government. The British democracy has nothing to gain and everything to lose by abandonment of constitutional methods by means of which, during the last twenty years, it has been freed from the material hardships and anxieties entailed by long hours, low wages, old age, ill-health and unemployment; has gained other numerous advantages and now controls the powerful lever of a very wide franchise whereby it can give effective expression to its aspirations in a land than which there is no freer under the sun.

Lost in Night

"In no country does Labor enjoy conditions comparable to those that obtain in this country. If the extremists in the Labor party were to get their way the solid attainments of a generation would be lost in a night. My unflinching faith in the good sense and judgment of the British nation, however, gives me confidence that counsels of prudence and wisdom will prevail. Soviet Government in Russia has reduced that country to conditions that remind one of the Dark Ages. Property is confiscated and Labor is enslaved. The lot of workers is worse than ever before. Their houses are haunted by hunger and such freedom as they enjoyed under the old despotism is completely taken away by the new tyranny.

"This country must withstand all those forces which menace its existence. The electors of Ilford cannot afford to throw away their votes on side issues of more or less moment, but should concentrate on a great and overwhelming attack on forces of unreason and disorder by voting for the Government candidate and returning you as their member."

Moderates Stamped

Mr. Bonar Law has also written wishing Mr. Wise success. He says that for the moment even the moderate leaders of the Labor party have been stamped by the extreme section and by the Council of Action, and in other ways are making a claim that control of the policy of the country should be in the hands of a section and not directed by the chosen representatives of the whole nation. No issue could be more direct or more vital than this, and he feels confident that the electors by returning Mr. Wise at the head of the poll will show clearly what their view on this controversy is.

The contract for kalsomining the General Hospital has been let to Bell & Crosssett. A protest from Fred Seaden on his tender, the lowest, not being accepted was referred to the house committee by the Hospital Board last night.

Colds & Common Sense

You have a cold, or your child has a cold; a cough; a tight feeling across the chest; a soreness in the breathing tubes.

In the past how have you treated such? You have bought some cough mixture, and swallowed this down into your stomach. Now, why? Your stomach was not ailing; and there is no direct connection between your chest (where the trouble is) and your stomach! Then why swallow into your stomach any mixture when the trouble is in your lungs and bronchial tubes?

It's a mistake; and Peps is the remedy provided to correct this un-comonsense treatment. Peps are little tablets, which contain highly beneficial Pine essences, combined with other medicinal extracts. These healing extracts are so prepared that as soon as you put a Peps into your mouth they are liberated in the form of healing vapors. You breathe these vapors down to the throat and lungs, and thus treat the organs that are inflamed, direct. In a way, it is like breathing from a vaporizer or bronchitis kettle, except that there is no apparatus needed, the little Peps providing everything needful for the treatment! The very small portion of Peps which you swallow has a slightly tonic effect upon the stomach and does you good, but the use of Peps is not for stomach troubles, but for lung, throat and bronchial troubles. Peps relieve these as no ordinary treatment can.

Children like Peps and they are best for the little ones because Peps contain no morphine, laudanum or other poison found in so many of the old cough mixtures.

Druggists and stores everywhere sell Peps 50c. box or from Peps Co., Toronto, for price. Remember the name—four letters only:—

Ten Years Ago in Prince Rupert

October 15, 1910

Rapid progress is being made on the demolition of the G.T.P. Hotel Annex to allow for the continuing of Second Avenue grading operations by S. P. McMorde.

Over 150 dancers took the floor at the Hospital Dance in the McIntyre Hall last night. The hall was supplied free by Brin Bros., music by Gray's orchestra and dishes and furnishing by F. W. Hart. Among the ladies responsible for the great success scored are Mrs. A. M. Manson, Mrs. Fred Stork and Mrs. C. H. Sawle.

Over \$100,000 is being offered for the capture of the dynamiters of the Los Angeles Times building.

An alleged scheme for the assassination of President William H. Taft has been reported at Millbury, Massachusetts. Miss Delia C. Torrey, aunt of the president, is the informant, a strange man having told her.

The bald pate of Mount Morse was this morning covered with snow, a sure sign that winter is coming soon. This is rather later than usual but not as late as in 1916.

As a means of warning in case of fire the Hospital Board has decided to install a set of hand bells at various convenient places in the building.

Tonight at the Westholme Mack Sennett's "Down on the Farm" is to be shown with all its freshness and novelty. Critics everywhere throughout the country have praised this production "to the skies," placing it in a class all its own, as a production that reaches the greatest heights that have ever been reached by a producer of comedy spectacles.

Every resource of the enormous Mack Sennett studios in California are involved in the results of this production; every means that was ever contrived in a studio to bring merriment to motion picture lovers has been brought into play and every incident that is brought about by the story which is laid on a real honest-to-goodness farm in the inimitable manner in which none other but a Sennett could do, brings forth results that are thrilling, comic, hilarious, farcical and furiously funny.

Astonishing in the extreme is the wonderful manner in which Mr. Sennett succeeded in training the birds and beasts of the farm to act the leading roles in this production. A dog, a cat, a cow, a flock of turkeys, ducks, geese, and chickens, all lend themselves to parts in the production in a way that has never before been accomplished. The work of these habitues of the farm is of such a calibre that every audience becomes amazed at the manner in which they perform.

OIL WELLS NOT YET GIVING RESULTS IN PEACE RIVER COUNTRY

EDMONTON, Oct. 14.—There are all sorts of conflicting reports from the oil wells in the Peace River, but authorities agree that, while there have been oil strikes, there are no wells yet from which the flow is sufficiently large to make them profitable.

Authorities agree that there is an oil field there, but the doubt is as to who will find it and when. Boring operations will soon close for the winter.

Triple Island Light and Fog Alarm Nearing Finish

Fog Alarm is one of largest on Coast and light will be visible for 25 mile radius

Work is rapidly nearing completion on the Triple Island fog alarm and light station and Contractor J. H. Hilditch is now finished with all the outside work. What yet remains is the interior and the Marine Department at Digby Island expects that the whole plant will be in operation by the end of December. J. H. Nicholson, the fog alarm and light engineer, is now on the ground superintending the installation of the apparatus.

The fog alarm is a most complete and modern one and is the same size as the one at Langara which is the largest one in operation on the coast. It is operated by three gasoline engine units of 15 horse power each. These drive a compressor and the compressed air is forced into a tank and transmitted to the diaphone which makes the sound signal. The interval and length of sound is regulated by a timing device.

The light device will be similar to those now in operation at Cape St. James at the south of the Queen Charlotte Islands. A special grade of coal oil will be used in it and will be forced in a vaporized state to the mantle. The intensity of the light will be increased by a round lens. The flashing characteristics have not been decided upon and neither has the fog alarm. These will be announced later in the official notices to mariners.
