# Preparations for the Big Coal Strike

## ADIAN NATIONAL OFFICIALS VISIT THIS CITY AND TRANACT BUSINESS

### Miners are Expected to Go on Strike Next Monday

and other Transport Men may Join and all Industries be Tied Up; Long Stern Fight is Expected

October 16.—Final preparations are being made for the expected strike of a million miners throughout the emergency measures recommended by the Government carried out by local authorities and there seems to be no position on the part of all to prepare for a long stern

air of confidence prevails among people who apprehend that a strike might bring about a critical situation in the industry.

ocks of coal have been accumulated, but public confidence is considered partial shutdowns.

of the national union of railwaymen and the trans-union hold separate meetings on Monday to determine the attitude of these organizations. They approved the decision of the miners last month and it is feared they may decide to strike.

### RUPERT Tablet Unveiled for Boys Who Served Their Country

Lieut.-Col. McMordie Officiated at Ceremony and Gave an Address; Pupils from All Schools Gathered

Yesterday afternoon the ceremony took place of unveiling the tablet erected to commemorate the patriotism of seventeen pupils of the King Edward School who went overseas to take part in the great war and three of whom were killed. Principal A. M. Macdonald was chairman and Lieut.-Col. McMordie gave an address and unveiled the tablet. The names on this tablet were:

Jack Dowling (killed), Frank Holland (killed), Walter Smith (killed), Fred Ives,

Noel Peters, G. R. Murray, Harry Lloyd Johnston, Frank Dowling,

George Ambrose, Robert Ritchie, Fritz Skjellum, Wallace Anderson, Arthur Mansson, Will Stephen,

Norris Pringle, John Currie, Arnold B. Dunn.

The pupils and teachers from all the public schools and the high school were present. They assembled outside the school building and stood at attention as the words of "O Canada" were sung.

Will Edmunds then played a selection on the cello before the actual unveiling took place.

Col. McMordie.

In addressing the students, Col. McMordie referred to the boys who had freely given themselves

for their fellows. Britishers everywhere had responded and these boys had not been one whit behind. As these boys had sacrificed themselves for an ideal, in times of peace, he urged that we should all try to learn the lessons of sacrifice for our ideals. He hoped that remembrance of the boys who had given their lives would help to make people kinder to each other, less bitter in their partizanship, and always ready to respond to the call of duty whenever it happened to lead or whatever the consequences.

As the curtain was withdrawn the Last Post was sounded by Will Edmunds, everyone standing at attention. Mrs. Jarvis McLeod sang patriotic selections and Will Edmunds played again on the cello, the singing of the National Anthem concluding the proceedings.

### LLOYD GEORGE ON BIG STRIKE

Says Government Tried to Avert Calamity and Now Would Resist.

LONDON, Oct. 16.—Premier Lloyd George addressed a message to the nation regarding the strike in which he said the Government had done everything possible to avert the calamity but the miners rejected all offers and were now trying to gain their ends by force. The nation would resist such attempt with all the strength it had and there can be no doubt as to the issue.

Some miners are already quitting work, having ended their shifts. The Government plans for the distribution of food has been perfected during the railroad strike last year have been extended. A comprehensive system of transportation has now been worked out for the whole country.

### TO BLOW UP PENITENTIARY

Nitro-Glycerine Found Inside Walls Sufficient to Destroy Building

KINGSTON, Oct. 15.—The Kingston Standard this morning says that enough nitro-glycerine to blow up the Kingston Penitentiary was found inside the walls of that institution together with fuses and a number of deadly weapons. The paper says it was part of a plot to destroy the penitentiary and secure the release of four prisoners.

KINGSTON, October 16.—The Kingston Standard claims that prison officials are implicated in the plot to blow up the prison. Many files have been found in the building.

Reindeer and Musk Oxen to be Caught in the North and Brought South.

WINNIPEG, Oct. 16.—The Hudson's Bay Reindeer Co. has been incorporated to acquire domestic wild reindeer, musk-ox, etc., and convey them from the far north for grazing purposes.

The new company say they expect to deliver the goods by airplane, a project which is the direct result of Stefansson's mission.

#### BELGIAN STRIKE

BRUSSELS, Oct. 16.—Belgium is facing a miners' strike commencing November 1.

### Missing Fishermen Had An Exciting Experience

Captain Briggs of Bremerton brought Carruther's men home in his "coast trader" yesterday afternoon

Aboard the trolling boat Idaho, Captain B. J. Briggs, the four missing fishermen from the trawler James Carruthers reached this port yesterday afternoon and the fears that they might have been lost have happily been dispelled. The names of the four men are J. Mansfield, A. Murray, C. Kerr and G. Anderson, and the story of their adventure and rescue is quite interesting.

"It was about 1:25 on the morning of Wednesday last when we left the Carruthers in our dory," said Mr. Mansfield, seen by the News yesterday afternoon, "and we headed for Green Island light about 8 or 9 miles distant. The wind, a howling gale,

#### None the Worse.

Immediately on arrival here Captain Briggs reported to the customs and thus the first information came to town that the four fishermen were safe. All are well and little the worse for their exciting experience. Such things go with the rigors of the seafaring life, and the hardy fishermen make little of their close call. No doubt nothing but sheer nerve and cool seamanship when afloat before a raging gale was responsible for making shore safely.

#### Captain Briggs.

Captain Briggs is a resident of Bremerton, Washington, and has been up in the North all summer in his small trolling boat on pleasure bent. He has cruised over southeastern Alaska and was on his return southward when anchored at Foggy Point. He called in here last May on the way North on his "coast trader" as he laughingly describes his 35 foot, one man boat. He left today continuing his journey southwards to Puget Sound.

### Railway Officials On Visit to City

General Manager Warren says this Not Branch Line, but Section of Trans-continental; Cars not yet delivered

The president and three of the directors of the Canadian National Railways accompanied by other officials of the lines arrived in the city early this morning on a trip of general inspection and left again at noon on their special train. During the presence of the party here there were numerous conferences and consultations and all were busy men. The party comprised D. B. Hanna, president of Canadian National Railways; Colonel Thomas Cantley, R. T. Riley and Robert Hobson, directors; R. P. Ormsby, secretary of the Canadian National Railways; S. J. Hungerford, vice-president in charge of operation; C. B. Brown, engineering assistant, D. Crombie, transportation assistant; G. E. Brokos, mechanical assistant; C. Szwarczki, construction assistant; A. E. Warren, general manager; J. R. Cameron, assistant but the local dealers state that they are of no use for their shipments and offer practically no relief to the present situation.

yards had been placed at the disposal of the fish business here. A. E. Warren, general manager; A. H. Eager, general superintendent of rolling stock, and H. A. Dixon, chief engineer. There were also a number of secretaries and other staff members.

#### Cars Not Delivered.

This morning the sawmill and cold storage were visited and a general look at the railway yards taken for the benefit of the directors and others who had not yet paid a visit to the city. Mr. Hanna had conferences with Col. Peck, M. P.; J. W. Nicholls, comptroller of the Canadian Fish and Cold Storage, and with Acting Mayor Dybahn.

Asked as to the car situation in regard to the deliveries of the cars recently ordered at Montreal, Mr. Hanna said that deliveries had not yet been made. It was explained by Mr. Hungerford, vice-president, that besides labor troubles the Canada Car Company, which company is building the cars, has had difficulty in obtaining the material for the work.

Station plans are now coming forward and are at Toronto at the present time. The ground was looked over today as was the roundhouse site.

#### Not Branch Line.

"The line from Jasper to Prince Rupert is not a branch line," said A. E. Warren, general manager, with emphasis to the News. "No transcontinental is merely split at Jasper, one section going to Vancouver and the other to Prince Rupert. If one section is late the other goes on, thus making two sections independent of each other. There should be no unnecessary delay other than those usual in the operation of a railroad."

Speaking of express refrigerator car shortage, Mr. Warren said that 47 freight refrigerators in

Provincial Election  
In Near Future.

There will be a provincial election in the near future, unless all signs fail. Attorney-General Farris intimated so in an address at Vancouver and on that account it will be time to begin thinking about it as soon as the prohibition plebiscite is over. Realizing that the people are hopelessly divided on the question of prohibition, the Government is taking no part in the campaign, but simply putting it up to the people themselves to decide what they want. Whatever the people decide to do, the Government will carry out. That is the democratic method. They could not do otherwise in a country where the people are the arbiters.

People are Still  
Talking of Sugar.

The sugar fiasco is still the subject of conversation. There is no debate, as all are agreed that the attempt to hold up the price of one of the necessities of life in an arbitrary manner would not be tolerated. Just how the Dominion Government will come out of it, no one can say. It looks as if these commissions and boards were being used by the Government to carry out the wishes of the big interests and that an effort was being made to hold themselves blameless. What is certain is that if the people had not been heard, the order would have gone into effect and remained indefinitely. As it is, the order will be set aside.

Veracity of Dr.  
Ernest Hall.

A correspondent whose letter we publish today under the nom de plume of "John Barleycorn" makes some slighting references to the veracity and experience of Dr. Ernest Hall, one of the best known and most reliable physicians and surgeons in Canada, several of whose letters have appeared in this paper.

Dr. Hall has practised in Victoria and Vancouver for the past forty years and he could tell hundreds of true stories of the horrors of the drink traffic. As a result of his experiences he is a pronounced prohibitionist, so imbued with the necessity of stopping the traffic that he gives an immense lot of his valuable time to lecturing against it, and loses thousands of dollars a year through his aggressiveness in the cause. No one that knows him would ever speak of him as a fledgling or as getting his information from crags. He has the real goods.

However Dr. Hall is not the issue in this campaign, neither is any other man or woman an issue. The issue is "wet" or "dry," and judging from all accounts that come in, it is likely to be dry.

Correspondents Forget  
Rules as to Time.

Correspondents forget that it is necessary to have letters in the office of the Daily News on the day previous to the date of issue to insure being published. For Tuesday the letters are being set into type this afternoon between three and six o'clock and for Wednesday the letters are set on Tuesday afternoon. In a small office where a good deal of news is published, this is necessary. There are occasions when the telegraph service fails or for other reasons it is possible to get letters published on shorter notice, but not as a rule. Just now so many letters are offering that a selection has to be made.

EXAMINATIONS FOR THE POSITION OF  
ASSISTANT FOREST RANGER.

**Object.**  
These examinations are for the purpose of filling present vacancies and to enable candidates to qualify for future vacancies and increases in staff.

**Assistant Forest Rangers.**

Assistant Forest Rangers are employed during the first year only to supplement the permanent staff and this period is extended where possible by working on improvements such as trails, etc. Re-appointment is made each year as long as satisfactory services are given. Promotion to the permanent staff is made by merit and examination as occasion offers. The salary is \$110.00 per month the first year and \$120.00 per month the next year. Travelling expenses are also paid.

## Qualifications for Candidates.

Candidates must be British subjects not more than forty-five years of age, resident in British Columbia for at least one year, of good character, good physical condition and with woods experience.

They should have experience in fire fighting, possess the ability to organize work and handle men; and have knowledge of the Forest Act.

The examinations are partly written, partly oral and are designed to test the knowledge and qualifications of applicants.

All statements made by applicants as to experience, education and fitness are subject to verification by the examining board.

**Preference is given to returned soldiers with the necessary qualifications.**

## The Examination.

The examinations will be held at the places and on the dates named below. Each intending candidate should apply to the District Forester in his district for application forms and for information concerning the hour of the examination and the building in which it will be held. Application forms should be filled out and mailed back to the District Forester in time to reach him before the date of the examination.

## When The Sea Gives Up Its Dead

*A Talk On Thanksgiving*

### Do you really give thanks?

What does Thanksgiving mean to you? Has it any spiritual significance, or is it merely an occasion for feasting?

It is not our purpose to preach, but it is our purpose to bring home to you some things for which, as a Canadian, you should give thanks.

Consider your welfare in contrast to the hopelessness of many Europeans, remembering that but for the spiritual and personal sacrifice of hundreds of thousands of our Soldiers and Seamen, Canada might be suffering as Europe is to-day.

Then consider those who still bear the loss of husbands and fathers and sons and who must continue to suffer this loss until the sea gives up its dead.

There are, in this country, wives and mothers and children whose husbands and sons and fathers just as surely laid down their lives for Canada's welfare and protection as did soldiers and sailors who died in battle.

Canada's Merchant Sailors—the unsung dead—the plain men of undaunted courage and spirit, who won for their grave the boundless deep. Cypress nor Yew shall weave for them their shade. Their memory is graven in the lonely hearts of waiting women and uncomprehending childhood.

During the war the people of Canada undertook to provide for such as these. They are the people's charge. The Navy League is merely their trustee—you are their hope and their refuge.

### Special Note.—

After this year, the League expects to cease asking for funds for the relief of the Canadian dependents of Merchant Sailors who were killed on Active Service. With the Trust Funds now in hand, together with the sum set aside in the Budget, to be raised by public subscription this week, it should be possible to establish an endowment, the income from which will be sufficient to provide for these dependents until the need no longer exists.

But as many of these dependents are young children, the endowment must continue for a number of years, until they become self-supporting.

*Their Faith is in You. Ye cannot—ye dare not Break Faith.*

**In the Letter Box****MENACE TO SOCIETY**

Editor Daily News—It has cost the American Government \$14,000,000 to enforce prohibition. Through its enforcement they have saved \$2,000,000,000, a very fair return that gives back \$140 for every dollar expended.

In B.C. we have closed four provincial jails and the number of inmates in the penitentiary is the lowest on record. We have gained financially and morally through prohibition. More than that we have become socially conscious and are learning that it pays all round to give the other fellow a chance.

These are some of the arguments that are leading thoughtful men to say, as one man said to me: "Last time I voted against prohibition, but I have studied the question thoughtfully since then and now I feel that no man has a right to indulge himself when his act is such a grave menace to society." H. R. GRANT,

**MODERATIONISTS  
CANNOT CONTROL**

Editor Daily News—It is foolish for the Moderation League to tell us that the Government can control the drink traffic. The B.C. Government cannot prevent importation and the recent outbreak of drink convictions is due to the fact that the Federal Government lifted the wartime act prohibiting importation from one province to another. The figures since Prohibition was adopted by the Province and before this inter-provincial traffic was restarted show a tremendous falling off in crime. This is the reason the Moderation Party do not use the figures of 1918 and 1919.

**Stop Importation**

In the event of Prohibition being sustained next Wednesday the B.C. Government is pledged to ask the Federal Government to give us the right to vote on importation and the Federal Government must give us that right. The Moderation Party does not include this in their platform, nor do they want it. To vote for "Moderation"—and what a word—is to vote for the sale, but not the control of liquor.

Prohibition alone can control and even that will not control fully until importation is stopped.

**BONE DRY.****JOHN BARLEYCORN'S VIEWS**

Editor Daily News—"In answer to Ernest H. Hall, M.D." Your interesting and thrilling little story of October 14 was read and appreciated, but it lacked a title, a moral and mainly—a few truths. It seemed to savor of the pulpit rather than business man and M.D.

No man who has the right kind of home, the right kind of wife and children, would ever stoop to drink the lowly cocktail, if it bully, devoid of all decency—turned him into a wife beating scallywag, so, if he was a good provider, clever, capable, considerate and affectionate. It somehow seems a paradox to me.

Now for a few "home grown" statistics noticed "en passant," I have seen more bestial drunkenness in Charlottetown, P.E.I.; Sydney, Glace Bay, New Glasgow, Yarmouth—all of Nova Scotia (and all "Scott Act" for many years)—in a week than I ever saw in the following "wet" towns which averaged more bars per capita than probably any cities in North America: Montreal, Louisville, Ky., New Orleans, La.

In a ten day trip to Jackson, Ky., where there are seven or eight open bars and white "moonshine" fresh from the still selling at fifty cents per quart in the side streets, I never saw a drunken man among the fifteen hundred or two thousand population.

Ste. Anne de Bellevue with five open bars—and when I say open I mean from 12 p.m. Saturday night to 12 p.m. Saturday night—and a population of less than five thousand—I never saw an inhabitant of that town under the influence. True I have seen some summer visitors fairly well "jazzed," but on enquiry found they were from dry Ontario.

No, Mr. Ernest A. Hall, M.D., you have not gone deeply enough into the subject to voice your fledgling literary views with the assurance of truth that carries conviction. You have lapped the cream fed you by the satellites of Pussyfoot Johnston.

Any man who wishes to be callous, to lack compassion, sym-

pathy and all human traits must have some alibi, else humanity would revolt. And if you delve a little deeper on your own account and not partake of temperance tracts without at least a shake of salt, you shall find that the man himself is to blame and not JOHN BARLEYCORN.

**DOWN ON FARM IS  
A GREAT PICTURE**

Mack Sennett's Masterpiece, a Five Act Comedy shown Again Tonight

Everyone was delighted with the Mack Sennett five act comedy, "Down on the Farm," at the Westholme last night. It was a scream. There were a number of farm animals and birds taking part and it is safe to say there never before was anything like it. "Down on the Farm" is an exceptional feature and it goes out to the world along with the productions of such artists as Mary Pickford, Charlie Chaplin, Douglas Fairbanks and D. W. Griffiths. It is a real feature and one of the funniest that has been seen here for a year and a day.

## MORSE CREEK FOR SKATING PURPOSES

Work Must Commence at Once if  
Place is to be Ready

Last winter local athletes received permission from the city council to use the Morse Creek pond as a skating rink, but it was found too late to get it in shape for use then, so the only skating local folks had was by going over to the Salt Lakes. Sometimes the trip to the Lakes is not altogether pleasant in the cold winter nights and a rink in town would be a great boon. Before the Morse Creek pond can be put in shape, however, the dam must be repaired so that it may be flooded. If Morse Creek is to be used this winter the work on the dam ought to commence at once, for a long cold spell might come within a few weeks and some valuable skating might be lost if the matter is delayed.

### Sport Briefs

All set for the News pennant speed boat race on Monday afternoon at 2 o'clock! Final arrangements will be made on Sunday as to the exact course and other details. In the meantime a good deal of interest is being shown generally as to the outcome and lots of people figure on turning out to see the "speedfest." Tommy Hooper's "Folly," the present city champion, is to enter, as are also the "Buddy" and the "Violet III." Sugu's boat had a misfortune the other day and the engine was out of order, but the boat is expected to be in the race. M. M. Stephens is going on a hunting trip and will not run the "Echo." "Anyway, it's a run-about and not a speed boat," says Mr. Stephens.

The Intermediate All Stars and the Port Simpson Indians have put up two excellent ball games already and tomorrow there is to be another between them. Both teams are well balanced and evenly matched and on both occasions they have already met have put up interesting and closely contested matches. Next Sunday's game should draw a number of fans to the Acropolis Grounds.

There are going to be lots of basketball teams this winter. The Intermediates are going to be just as important as the seniors and their games will be just as interesting. It took the intermediates to keep baseball going in town during the summer when the senior team fell down and they have thus taken an important place in local athletic circles. It is to be hoped that the seniors will be able to hold up better in basketball than they did in baseball. When the entries are considered by the basketball executive next Tuesday night they will have a busy time, for entries are coming in from many organizations and the players are going to be evenly split up.

In the practice basketball game between Edinburgh and the World at the St. Andrew's Hall Thursday night the latter were victorious by a score of 29-15. There was a good deal of good basketball talent shown and with practice the Callies ought to put a very fair team into the Basketball League this winter. Last night's players were: Edinburgh—W. G. Dennis, W. D. Smith, H. M. Foote, T. B. Black and M. M. Lamb; the World—W. R. Martin, H. A. Charlton, Don Graham, W. A. Matheson and J. M. Campbell. Will Martin, Jr., was referee.

The Sons of Canada had an enthusiastic turnout at the first meeting in the new rooms Thursday night and they are going to take an active part in all the winter sports and are even trying to launch an indoor baseball league. A sports committee last night consisting of Wm. Blythe, Charles Blythe, George Johnstone, W. Anderson and Harry Menzies was named. A team is entered for the Basketball League and Harry Love has been delegated as the society's representative. A committee was also named to fix up the new rooms, which are being used for the Whist League games.

Dr. Alfred Thompson, federal member for the Yukon, arrived last night by the Princess Alice from the north. He goes to Hazelton today and on his return on Tuesday will proceed east by way of Vancouver.

"There must be a beginning in  
any great matter, but to continue  
unto the end, until it be thor-  
oughly finished, YIELDS THE  
TRUE GLORY."

SIR FRANCIS DRAKE.

### To Continue in Public Service

# The Navy League of Canada Needs \$760,000

Since the money must come from the people, explanation is due to them of the need for it. The work of the Navy League is:

#### To Continue the Sea-Conscious Spirit in the People and in the Government.

To enlighten people upon the importance of the sea; so that Canadian products may be shipped, through Canadian ports, in Canadian ships, officered and manned by trained Canadians.

#### To Continue the Sea-Conscious Spirit in the Schools.

As a Merchant Navy is the first step to sea power in any nation, so is the seed-sowing of fundamental national ideals in the schools, the first step to national greatness.

#### To Continue Training 2,000 Canadian Lads for the Sea.

The continuous training of over two thousand Canadian lads, in the Boys' Naval Brigades of the Navy League of Canada, is to-day having an effect upon our maritime future.

Since May last, sixty of these lads have completed their training and passed into the Canadian Merchant Navy. Fifty more have gone to England to man the new ships of the re-organized Royal Canadian Navy.

Under the guidance of Experienced Sea Minds, it is being planned to give chosen lads from the Boys' Naval Brigades an ocean-going education second to none, so that Canada will have efficient master seamen.

#### To Continue to Relieve Distress of Canadian Merchant Sailors.

After this year the League expects to cease asking for funds for the relief of the Canadian dependents of Merchant Sailors who were killed on Active Service. With the trust funds now in hand, together with the sum set aside in the Budget, to be raised by public subscription, it should be possible to establish an endowment, the income from which will be sufficient to provide these dependents with a pension equal to that granted to the dependents of Naval men killed on Active Service.

As many of these dependents are young children, the endowment must continue for a number of years, until the children become self-supporting.

#### To Continue Upholding Every Sailor's Home, Institute and Sailors' Welfare Society in Canada.

The Navy League seeks to make life comfortable for our sailors when ashore. After all, Canada is their home; and the home, while they are here, of the sailors of other lands.

The Navy League endows, maintains or assists in maintaining every Sailors' Home, Institute and Welfare Society in Canada. And every dollar subscribed for the maintenance of these Homes and Institutes will be money well invested and redound to our national prosperity.

*These objects can only be achieved through an organization representative of public responsibility and outside party politics.*

**The obligation is apparent, simple, easy! Borne in proportion, from coast to coast, the weight is felt, but not the strain. The public expect this work to continue and to be maintained by public subscription "until it yields the true glory."**
