Argument over Possession Drydock

GERMAN SAYS GREAT ARMY SHOULD ENTER RUSSIA TO QUELL BOLSHEVISM

Hodges Makes Report in Vancouver on Dry Dock

Dispute as to Possession may be Taken into Courts; Both Receiver and Government Claiming It

VANCOUVER, December 24.—After completing a full investigation of the affairs of the Prince Rupert Drydock and Engineering Co., W. E. Hodges, the receiver, has returned and announces the liabilities to be \$600,000 which includes \$147,000 due the Dominion Government for steel. The \$103,000 due Inglis & Co. of Toronto, for the unpaid balance on the engines for the ships is also included. These engines are stored with Inglis & Co., ready to ship on payment being completed. The total contract price for the engines is approximately \$257,000. The Vulcan Iron Works of this city has claims approximating \$27,000 for boilers and wages amounting to \$112,000 are also owing.

Possession Disputed.

Mr. Hodges took possession of the plant on December 14 and it is generally known that there is a controversy between the receiver and the government as to which has the right of taking possession. The sheriff was put in charge with Mr. Hodges in possession, and the matter will undoubtedly be fought out in the courts. H. R. Butt, who was to make an estimate of the cost of finishing the ships, has not yet reported.

Hardship to Workmen.

The provision that no workman can receive payment who has assigned his time check or who did not present his claim in person is working a severe hardship on some who have left Prince Rupert. One instance is a workman here who has \$99 coming. To go to Prince Rupert and collect would cost nearly the value of his check.

EDITORIAL

CHRISTMAS.

Tomorrow we all forget our regular avocations and enter into the spirit of the Christmas festival. It is a season of joy and peace, of feasting and mirth, of family reunions, of unselfish pleasures. It is a time when we forget our worries and constant daily strife and remember that it is a season of good will and peace among men.

Tomorrow the business man forgets that he lives to serve his community and to make a living for himself. He shuts out his business and lives in another world, the world of festivities. The laborer no longer labors and the master no longer superintends. All are on a level on Christmas Day for we all throw care to the winds and forget.

"The Spirit of Christmas,"
by Archbishop Du Vernet.

Back of all the outward manifestations of the festive season; behind the greetings on the street, the gatherings in the home, the giving of presents, the crowding to decorated churches, and the singing of joyous carols, there lies that which gives a genuine value to all this exuberant expression. It is the spirit of Christmas.

Viewing all these festivities we may well ask, What is the spirit of Christmas? It is the spirit of the Mother and the Child. It is both parental and filial love in its purest and sweetest form. Christmas is above everything else the children's feast. Let no one be afraid of being too human on Christmas Day. The closer we come to the heart of children the nearer we draw to the Christ of Bethlehem. It is a profound mistake to try and separate human and divine love as though they were not of the same essence. All human love which is truly unselfish flows from the same source. This is the Christmas message which is expressed so clearly by St. John: "God is love, and love comes from God. He who lives in love lives in God and God in him."

It is Intensely Human
And is Not Exclusive.

Religion is not something apart by itself, a strange and foreign element which comes into our life in an uncanny manner. Religion is that which unifies our whole being by giving us a supreme purpose and motive round which we can organize all our scattered interests. Religion is that which re-enforces our noblest natural instincts, such as parental and filial love, with a fresh inflow from the Infinite and the Eternal. Religion is that which enables us to revalue all our values as to what is highest and best in life, and in the Christian revaluation the Mother and the Child are not given a lower, but a higher place. "We shall find a babe lying in a manger."

The spirit of Christmas while intensely human is not exclusive. While it brings sunshine into our own dwelling and makes our children peal with laughter it always carries us further afield with the longing to make other homes brighter and other children happier. And so rising like an aeroplane in circles from the earth we discover that the spirit of Christmas is the Spirit of the Universal Father revealing His infinite love for all His children in a visible and a practical manner. God so loved the world of men and women and children that He gave of His Inmost Being a part to live and labor and suffer in our very midst and in our outward form so as to bring the Divine and the Human into the closest possible fellowship.

The Spirit of Christmas
Indeed the Spirit of Christ.

In a word the spirit of Christmas is the Spirit of Christ. It is the spirit of self-sacrificing love for the good of all; assisting the needy, guiding the perplexed, cheering the despondent, comforting the sorrowing, strengthening the weak, and inspiring the brave. The spirit of Christmas aims at bringing peace and goodwill into every hidden nook of the human heart, and into every dark corner of the social world.

The spirit of Christmas can never die. The story of the Mother and the Child will be told with renewed interest from age to age. The message of the Eternal Love of the Universal Father will go ringing down the centuries with ever-growing value, because however men may advance in intelligence and develop in character the need for fellowship both human and divine will never die.

The Spirit of Christ must be made incarnate in us as individuals and humanity as a whole before the spirit of Christmas can be outgrown.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance.

I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back.

In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since.

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

J. J. Shipton, a Vancouver electrical engineer, is now in Victoria making an effort to obtain a loan to establish an electric iron smelter at North Vancouver.

Mr. Shipton proposes obtaining his ore from Collison Bay, Moresby Island, where he has contracted for a supply. He proposes to start producing five tons a day, increasing to twenty tons. The plant would be established to produce both iron and steel.

He claims to have in sight 25,000,000 tons of magnetite ore on the Queen Charlotte Islands. The ore is 70 per cent iron and is practically free of sulphur and phosphorus.

HIGHLAND MARY'S
TOMB WAS REMOVED

Extension of Shipyard Necessitated This Being Done

GREENOCK, Scotland, Dec. 24.—With great solemnity the remains of Mary Campbell, Robert Burns' "Highland Mary," have been transferred from the Old West Kirkyard here to a new grave in Greenock cemetery. The removal had been necessitated by an extension of a local shipyard.

From the spot where Mary was buried 134 years ago, the coffin was borne reverently on the shoulders of representatives of Burns Clubs from all over the country to its new resting place, and a large crowd of Burns admirers attended an impressive funeral service.

Mary Campbell, a beautiful Argylshire girl, plighted her teeth to the poet after a romantic courtship, but she died of fever. By her Burns was inspired to some of his most famous Scottish love songs.

The monument which Burns admirers erected on Mary's grave in 1812 now covers the new tomb.

MOTION PICTURE MAN
IS GOING INTO FAR
NORTH THIS WINTER

Charles E. Berger, the New York moving picture man, who has been taking pictures in the vicinity of Prince Rupert for some time now, will leave shortly for Skagway after which he will go to Banff. He will return from Banff in a short time and will go north to Dawson, from where he expects to leave with one of the mounted police mushing parties over the snow to Herschel Island. He will probably be the first motion picture man to ever get into that country in the middle of the winter.

Mr. Berger has been taking pictures of the wrecked steamer Prince Rupert during the past few days.

Ten Years Ago
in Prince Rupert

December 24, 1910

Substantial progress towards the upbuilding of a fine modern city marks the close of the year 1910 in Prince Rupert. With plans and specifications prepared for city improvements approaching three quarter of a million dollars, and contracts for work to the value of \$500,000, practically all in hand, the city is surely forging ahead.

A charming entertainment was given by the scholars of the Presbyterian Sunday school at the Empress Theatre last night. Santa Claus appeared on the stage with his capacious bag and made all the youngsters happy with his generous gifts.

Three building permits were issued at the city hall during the past week, the amount exceeding \$7,000.

Ensign and Mrs. Johnstone, Captain Kerr and Lieutenant Wright, are working with unspiring energy towards making the Salvation Army Christmas dinner an event to be remembered by all who partake of it. The best of good cheer will prevail and a most cordial invitation is extended to all whether wealthy or otherwise.

SWUNG ON ANTLERS OF BULL MOOSE

Miramichi River Guide Has Exciting Experience and Narrow Escape.

FREDERICKTON, N. B., Dec. 22.—George Hinton of Doskstown broke two of his ribs on the last day of the moose hunting season when he was hurled from the antlers of a gigantic old bull crashing his way through the thick woods near here. Hinton had wounded the moose and was turning his attention to a band of six others in the vicinity when the noise of his "kill" staggering to his feet made him turn around. The huge bulk of the infuriated bull was almost atop of him. Grasping the massive antlers with both hands Hinton was swung clear of the trip-hammer hoofs and carried off at a great pace into the woods clinging to the head of the injured moose. After a ride of some distance Hinton was thrown from his exalted position, his steed continuing his wild career.

Hinton is one of the best known moose hunting guides on the Miramichi.

WAS IN ROME**Tells of European Conditions and
Says Signs are Very
Hopeful.**S BEEN AWAY FROM
RUPERT SIX MONTHS**

The Right Rev. Bishop E. M. Bunoz, O.M.I., returned to the city on the Prince George yesterday after an extended visit to Europe lasting six months. His reverence left Prince Rupert at the beginning of June and sailed again for Canada on the 28th of last month.

While greatly enjoying the change and the opportunities afforded at first hand of seeing for himself the results of the devastating terrible five years that such a large area of Europe went through from 1914 to 1918, the bishop expresses great pleasure at being home again among the people of the north, where he has lived for so many years and is so well known.

Much Travel.

Upon arriving in London at midsummer of this year and booking for Bologna at the big London railway station of Paddington, His reverence found himself in a seething crowd of excursionists, all bent on the same thing, a trip to Belgium and France to visit the battle fields. Three loaded trains were all leaving at the same hour, where under normal conditions there would be only one. The heat was intense and altogether travelling not very enjoyable.

One of the reasons for the extensive travel on the continent this year has been the advantage gained in the exchange of money, especially is this so with American money, the bishop stating that in Italy twenty-five dollars would procure an armful of Italian lire, and a man would feel like a millionaire—twenty-seven lire going for one dollar, where at the normal rate five would be all that one would receive.

Hopeful Signs.

His reverence had special opportunities of course of studying the political and economic conditions as they exist at the present moment and left Europe with a most hopeful spirit that matters are adjusting themselves gradually. Signs are plentiful that happier and more prosperous times are coming in the near future.

Bishop Bunoz visited most of the principal Canadian cities on his return journey, as well as crossing to the United States to call on friends at Washington.

**The Man in the Moon
SAYS:-**

THAT a surprising thing about this Christmas is that there are as many wanting jobs as there are wanting holidays.

THAT Germany has an awful nerve asking Canada to start business with her so soon after 1914.

THAT now is the time you ought to know what you are going to give for Christmas.

THAT the Daily News staff is going to be given a holiday tomorrow, with a double dose of work on Monday, so what's the use?

THAT several persons who won bets over the election aren't able to buy Christmas presents with the money because the stakeholders won't turn over the coin until the final returns are out.

THAT, therefore, there should be a special effort to have the count made before this evening.

THAT one reason why so many people eat loose at Christmas after leading a quiet life all year is that New Year's comes a week later and then are going to turn over a new leaf and be good again.

THAT this time next year Santa Claus will be able to get to the Scms of England Christmas tree without getting his reindeers stuck in the mud on Third Avenue like he did last Friday, because then there will no more mud, the streets will be paved with tarvia.

**WHERE THE STRANGE
PART OF IT COMES IN****All Things Considered, Newspapers are Remarkably Accurate**

Persons who complain of the "inaccuracies" of newspapers may be helped a little by the reflection that newspapers are the only enterprises that attempt to deal exclusively in facts, says the St. Louis Republic.

To obtain these facts their representatives must depend on human beings, not all of whom know as much as they pretend, not all of whom have correct views of their own achievements and merits and not all of whom are fair in their views as to others.

When we consider that truth is more elusive than fortune and that the greatest labors and expenditures of newspapers are always in pursuit of the former, it is remarkable not that errors are made, but that there are not more of them.

Millions are spent in running down falsehoods and the matter excluded every day from a well conducted paper is greater in amount and often in cost than that which is printed.

Last Summer's Drive

WARSAW, Dec. 24.—Camels hauling long trains of small carts are frequently seen in the streets of Warsaw, one soldier acting as driving, with other soldiers looking after the vehicles. The camels are used by the army authorities in the transport of goods about the city and suburbs, having been trained for this kind of service by the Russians. The animals were captured from the Bolsheviks by the Poles in a drive on the northern front last summer.

VAUDEVILLE ON TONIGHT

Perqueta Courtney and Bobby Mack will appear in Jazz and Comic Numbers

A particularly excellent program, enhanced with the addition of high-class vaudeville, is the special holiday offering at the Westholme tonight and tomorrow, when, in addition to one of the year's most spectacular moving picture successes, "Treasure Island," a screen version of Robert Louis Stevenson's greatest story, six vaudeville numbers will be offered.

The vaudeville is headed by Perqueta Courtney and Bobby Mack, both well known comedy artists, and their program comprises a variety of comedy, singing, dancing and novelty turns that promise to be a revelation to local theatre goers. Miss Courtney is claimed by the company's manager as being one of America's most popular ragtime and jazz song singers, and her program tomorrow includes the latest song hits in this class of singing, while a generous number of serio-comic numbers written especially for her will also be offered.

Horse on Parson

Bobby Mack is a comedian of the droll, quaint variety and is said to have an abundance of original comic songs, while his feature tomorrow is the well known Wilkie Bard success, "A Horse on the Parson," which is one of the most ludicrous comedy sketches seen in the London halls for some time.

A novelty number called, "A Night in Chinatown," a mirthful telling act, "Bits from Pantomime," and the usual singing and dancing numbers go to make up what gives promise of being one of the best vaudeville bills seen locally in some time, while an unusually splendid picture feature completes a really worth while program.

Archdeacon Collison's memoirs are mentioned in the article and Captain Edenshaw, Alfred Adams, Peter Hill and Harry Weir are spoken of. THUGS HEADED FOR THE NORTH

Clean Up in the Pacific Coast Cities Drives Them into Alaska

Seattle police have issued a warning to federal and municipal authorities in Alaska that flocks of undesirables are drifting north by reason of a general police clean up of California, Oregon and Washington cities. It is believed that many of the yegg men seeking cover have left Seattle and Vancouver during the past three weeks for Alaska towns.

Logging Camps Closed

Heretofore when the annual early winter clean up of undesirables started, this class of citizens would seek the Washington logging camps for a hide out. All those camps are closed, so Alaska offers the best haven for the crooks. The last two steamers sailing for the north were closely watched. Charles Wappenstein, expert employed on the docks at Seattle, has been instructed by the Alaska Steamship Company to report to the port officers if there is a migration of crooks northward. Wappenstein knows most of the northwest crooks who have a police reputation.

Continued holdups are worrying the police departments in the Northwest. Many of the crooks are organizing gangs for desperate operations and the untrained police departments of Alaska municipalities would have difficulty in coping with such a dangerous element.

Your Christmas Gift

To Those You Love Should Be One That Adds To Their

JOY OF LIVING

MUSIC gets into our inmost being and moulds our character, chases out discord with melody and dispels despondency with cheer.

It makes no difference whose Christmas gift you are considering—husband or wife—parents, whose hair has silvered, or children with golden locks. Bring more music into their lives and your present to them will be happier days.

God sent His singers upon earth
With songs of sadness and of mirth
That they might touch the hearts of men,
And bring them back to Heaven again.—LONGFELLOW

Give special thought to your children whose lives are entrusted to your care. The joy of living is what you want your child to have.

Money? Yes. Education? Yes. But a recourse within himself whereby he may extract the joy out of life—may obtain pleasure from his money—may still obtain pleasure if he loses his money.

Teach your children to love music by making them familiar with it when they are young and you will give them a friend which they will treasure more and more as the years go by.

Give the family a musical instrument so that the children may live in an atmosphere of music and they will absorb it as they do air and sunshine. You will find greater zest to your own joy and a contentment which music alone will bring.

Health Hints

FOR MOTHERS

Timely Pointers for Keeping
Disease out of the Home.

This is the season when we are all
subject to colds. If you want to save
yourself trouble start treating that cold
as soon as it comes. Selecting it means
that it may advance to the grippe stage
or even wind up in an attack of pleurisy
or pneumonia.

Taken right at the start, Grip-Pix will
break up a cold in a single night. For
over 10 years it has been the stand-by
of mothers all over Canada. It contains
nothing but what your doctor might re-
commend. It comes in capsule form so
as to assure prompt action and convenience
in taking. Get a box today and have it
in the house in case of emergency. It may
save a bad spell of sickness.

You can get Grip-Pix from any druggist,
25 cents per box.
