Formal Opening of Legislature Today

Mr. Speaker Chosen and Program of Legislation for Session Outlined by Lieut. Governor E. G. Prior This Afternoon.

VICTORIA, January 29.—The fourth session of the present legislature opened this afternoon with all the formalities usual on such an occasion. The Lieutenant-Governor, Lieut.-Col. E. G. Prior, officiated for the first time. Arrayed in the usual regalia of office he entered the building promptly at 3 o'clock, preceded by a guard of honor. Before taking his seat Secretary Muskett performed the sergeant at arms that His Honor would not declare the House open until they had elected a speaker.

The Lieutenant-Governor then retired and John Keen, member for Kaslo, was chosen, and a message to that effect sent to His Honor.

On his return Lieutenant-Governor Prior read the speech from the throne, which had been prepared by the Cabinet, announcing the policy of the Government for the present session. After a bill had been read a first time and a resolution presented, the House adjourned.

CAPT. BERGMAN SUSTAINED PAINFUL WOUND

Wound in Tackle of Fishing Boat Commonwealth and Leg Fractured in Three Places.

Word has just been brought to Prince Rupert of a very painful accident sustained by Captain Martin Bergman, of the big fishing schooner Commonwealth, on the Yakutat fishing grounds last week. According to the men of the "Tom and Al," who brought the report to the local waterfront, Captain Bergman was working among the tackle in launching the dories from the boat and getting caught in the gear was dragged into the winch. His leg was fractured in three places, one of the breaks being a bad compound one where the bone is protruding from the flesh.

He was immediately taken to the Juneau Hospital where he is now receiving treatment. Capt. Bergman is well over 40 years of age and although hope is maintained that amputation will not be necessary, the accident is very serious and painful and it will be some time before the well known skipper will be around again. No word has been received from Juneau since he was taken to the hospital. The Commonwealth proceeded to Seattle with her catch.

Minister of Lands and member of the Legislature for Prince Rupert, who was one of the prominent figures at the opening of the Legislature this afternoon.

MEMORIAL MAY BE COMMENCED DURING SPRING

Great War Veterans Suggest that Public Library Could be Installed There.

At a special meeting of the Great War Veterans' Association held last night the matter of sending a delegate to the Dominion convention at Montreal in March was considered. On the recommendation of the executive the question was laid on the table and will be considered later.

A special committee was appointed to arrange a series of entertainments for the purpose of raising funds for the association.

The Association also discussed the memorial building matter and the consensus of opinion appeared to be that it was useless to think of putting up a \$100,000 building in this city. The support of the people should be gone strongly after now and the erection of a building about the value of \$20,000 should be started on the lot granted by the city on Fourth Ave., West, near the City Hall. In view of the fact that the city is considering establishing a public library in this city it was suggested that this might well be housed in the Memorial Building.

SEATTLE, January 29.—In the league hockey match here last night the home team put it over Vancouver by a score of four to three. The game was fast and close.

Weather Report For 1919 Shows Less Rain; Lower Temperature Was General

The annual weather report as compiled by Frank W. Dowling, Dominion Meteorologist here, shows a decrease of over four inches for precipitation at Prince Rupert from the report of 1918 which, itself, was considered a very satisfactory year from a weather standpoint. The total precipitation of 82.58 inches is not considered excessive and there have been, indeed, no extremes. The highest temperature for the year was 77 on August 24, against 81, the highest for 1918, on July 15 of that year. The lowest for 1919 was 6 above zero on February 28, while the lowest for 1918 was 11 above on March 11. It will be seen that the general temperature for the year was somewhat lower than 1918 though no more extreme. This lower temperature was general all through the province.

The month of July last year was an extremely dry month, there being only 1.97 inches of rain, while in 1918 there was 5.09 ins. of rain in the same month. Although recorded with a total of 4.44 inches the snowfall for 1919 computed in rain figures would amount to about 44 inches as rain precipitation is about 1-10 the density of rain. The mean temperature of Prince Rupert, 43.7 compares very favorably with the mean temperature of Victoria, the reputed fine weather

INFLUENZA IS STILL RAGING IN THE EAST

Police and Fire Departments of New York Severely Handicapped By Illness of Men.

(Special via G. T. P. Telegraphs.)
NEW YORK, Jan. 29.—The police and fire departments are hard hit by the influenza. Two hundred policemen and between two and three hundred firemen being unable to report for duty.

It is announced by Bird S. Coler, commissioner of charges, that 800 gallons of whiskey have been bought by the city at \$10 and \$ a gallon for medicinal purposes during the epidemic.

The influenza has reached a new record. Reports show that there have been 5,598 new cases in the last 24 hours. The influenza deaths in the last 24 hours were 65.

CHICAGO, Jan. 29.—The influenza in Chicago caused 87 deaths in the last 24 hours while pneumonia deaths numbered 77, the health department announced. New cases of influenza numbered 1,172 and pneumonia cases 400. Hundreds of gallons of liquor seized by the Government in raids has been distributed to hospitals to be used in fighting the epidemic.

TOPEKA, Kansas, Jan. 29.—There are 778 new cases of influenza reported to the State Board of Health, bringing the number reported to 2,892. The disease is prevalent in 77 of the 105 counties.

BORDEN STILL WITH JELlicoe

Is Said to Be on His Way to England — Is Staying With Ship.

(Special via G. T. P. Telegraphs.)
OTTAWA, Jan. 29.—It was stated yesterday in quarters which are generally accepted as authentic, that Sir Robert Borden is now actually on his way to England with Admiral Jellicoe or wherever the former First Sea Lord is going.

Since the visit to South Africa was cancelled, it was said that when Lord Jellicoe's visit to South Africa was called off the Prime Minister stated he would stay with the ship wherever she was going.

Mr. Justice Murphy Gave No Opinion on Validity of Board

Refused to Pass on Issues Between Erb and Mullen, Which will be Tried at Vancouver Soon.

"That Mr. Justice Murphy directed that it should be distinctly understood he was not prepared to and would not pass upon the merits of either the law or the facts insofar as they affected the issues between the parties. He would not say whether the old board or the new board was a valid board but would leave that for the trial judge." That is the report brought from Vancouver by J. L. Mullen of the J. L. Mullen Construction Co., and organizer of the Prince Rupert Drydock & Engineering Co., who attended the court proceedings in regard to the shipyard injunction.

Mr. Mullen says that he expects the trial will take place in Vancouver in the course of the next five or six weeks and it promises to be quite interesting.

Giving a review of the proceedings in connection with the injunction by Mr. Justice Murphy in chambers at Vancouver, Mr. Mullen said:

"Giving a review of the proceedings in connection with the injunction by Mr. Justice Murphy in chambers at Vancouver, Mr. Mullen said:

"Prince Rupert has contributed to the legal history of the Province in the recent Dry Dock injunction motion, as it is said that this was one of the most important motions ever fought in the province. The material filed by the contending parties was very voluminous and several affidavits of over twenty pages each were sworn to and filed. In the original affidavit filed by Erb in obtaining his ex parte injunction he swore that he had invested \$85,000 in the enterprise and that the company was owing him this amount.

Cross Examination.

"Under the cross examination of Mr. Mayers, Mr. Erb produced what he described as an approximate statement of his investment which showed that he had \$33,610 invested but that he had \$8,000 in the local bank apparently in New York to set off against this. Among the items in the statement produced and sworn to by Mr. Erb on his cross examination was a payment of \$20,000 to the Inglis Company of Toronto and a payment of \$10,000 to the bonding company.

"Mr. Mayers filed affidavits on behalf of Mr. Mullen attaching telegrams from the Inglis Company and from the bonding company showing that only \$15,000 and \$8,000 had been paid them respectively. Another item mentioned in Mr. Erb's statement was one of \$4,000 for Montreal exchange. In reply Mr. Mayers filed an affidavit to the effect that only one mercantile account of \$7,300 was paid in the United States by the New York office and Mr. Mayers argued that \$4,000 for exchange would transfer some \$80,000 or \$100,000 to the United States and the Court was entitled to an explanation of why that amount had been transferred to the United States to pay a \$7,300 account.

Opening of the Legislature.

The Legislature opens today at Victoria and by the time this is in print will have gone through the usual formalities preparatory to starting real work on Monday.

In addition to the real business of the session opportunity will be given members to practice speech making and to air their grievances. In the debate on the address in reply to the speech from the throne, the widest latitude is allowed, members being given the right to introduce almost any subject, from reports of petty graft all the way up to questions of broad policies of social betterment.

Judging from what is heard from the galleries, members often forget that their real business is legislating, and they give themselves up to plotting and counter plotting in order to gain an advantage and to make their case look well before the country. The public interest is forgotten in the desire for private advantage.

Prince Rupert Well Represented.

Prince Rupert is well represented. Three residents of this city have seats in the House and they are all able men. One is a minister of the crown, one is the party whip, and the other always makes himself heard in the interests of northern and central British Columbia, and takes a prominent part in the work of the committees and other institutions connected with the session.

Letter Regarding Premier Mine.

A letter was received yesterday from J. H. Burrough, assistant secretary of the Central Labor Council of the One Big Union in which he states that the men who were fired from the Premier mine were really on strike. They are still at Stewart where "they have organized a commissary and are prepared to stick it out."

The letter speaks of "places which it (the Guggenheim concern) curses with its presence." This language is not suitable for publication. A part of the community think that there are other curses just as bad as the presence of the Guggenheims, but it would not be nice of this paper to say so. If we all said just what we thought about everything we saw and heard this would be rather an unpleasant place in which to live.

Unionism is Not The Last Word.

It is well for labor unions to remember that unionism is not the last word in labor movements. The union has been a great factor in improving the condition of the workers, and it still has possibilities. There is a tendency, however, for members of some unions to consider themselves supreme in everything and to give no consideration whatever to the rights of others.

We believe in unionism. The Daily News is a union shop and it works well. Until something better appears, we hope to stick to it.

Are Washdays Necessary in Winter?

There was a time, back in the days of stone hatchets, when woman was harder than she is today. A biting wind, damp air and slush underfoot did not so much endanger her then.

But is this exposure necessary now? Is woman exercising her best judgment in hanging clothes on the line in winter weather? Is man showing chivalry when he permits it?

A simple and safe solution of this problem is to send your family washing to us—especially during these days while the weather-man is surly.

No washboards or heavy soaps are employed by us. We wash for you in the twentieth century way by letting soft water and billowy suds surge through the fabric. It is a laundering method that saves clothes.

So, also, is our ironing process. We give a charming lustre to your linens not with hot irons, but with special steam heated presses that protect the textiles.

Telephone us. Our driver will call at a definite time for your family bundle. At a definite time also he will return it. Our method saves you labor and protects you from the rigors of wind and weather.

URGE STEWART ROADS BUILT

Government Asked to Provide Means of Transportation for Ore From Mines.

"The crying need for government roads in aid of mining must be apparent to any fair-minded person, and we feel that strenuous efforts should be made to carry on extended road work both on the upper Salmon River near Stewart and above the end of the railway at Alice Arm during this year," says a report of the Prince Rupert Board of Trade committee. "We feel that a big, whole-hearted, vigorous road program should be outlined at once and some extended means of transportation provided. In the Portland Canal region last year the Provincial Government did accomplish a much needed improvement in connecting the town of Stewart with the road leading up the Salmon River, but it required one whole season to build this one mile stretch of road. At this rate of progress it would take about six or seven years to complete the road from the Premier mine to the head of the present developments up the valley only six or seven miles away.

Five New Mines.

Above the Premier mine are at least five prospects approaching the proven mine stage of development, all of them have good commercial ore broken and ready for shipment, but they might just as well have their ore broken at the North Pole for all the good it will do them until a means of transportation is provided. These operators, perhaps, are not able to start out very heroically as did the Premier Company and build their own roads, nor should they be required to do so. We realize that it is the policy of the Government to pay for half the cost of roads built in this way to further the development of mines, and as we understand did repay the Premier Company for half the cost of the road in the British Columbia territory through which it traversed, but they were compelled to build the major portion entirely with their own funds.

Basic Industry.

We think that it is not only necessary but essential that immediate steps should be taken to insure the road being built this season up the Salmon River valley to the last developed prospect having ore ready to ship and we think this can and should be done this year if it takes one hundred or one thousand men to do it and no matter what the cost may be, for we feel sure that the ore is there awaiting a means of transportation and it is our patriotic duty to provide this means and thus assist in furthering one of the most important basic industries.

At Alice Arm.

"We think also that a policy equally as extended should be applied to the district at the head of Alice Arm. It is claimed that at least one of the recent discoveries made there will rival the Dolly Varden in importance. We are of the opinion that the province can well do without unnecessary and unessential roads elsewhere in an effort to stimulate the development of our mines.

"We should like to call attention to that sadly neglected and dangerous matter of the wharf approach at Stewart. It appears that there is a controversy between the Dominion government and the Provincial Government as to which one is responsible for the upkeep of this approach. It is very important that this matter be attended to without any further delay, possibly best by the Provincial Government, letting the merits of the dispute be settled afterwards.

Respectfully submitted,
For the Committee,
"J. B. ROERIG."

LAST DAY FOR NEW LIMERICKS

Contest Closes Saturday After Which Three Prizes Will be Awarded.

The Daily News limerick contest closes Saturday night, after which the judging will take place and the results made known early next week. Those wishing to compete should have their verses in early.

Two verses were received signed by the nom de plume "S. R. Casm," which were not in accordance with the regulations in that they were knockers. One of these dealt with a local business house and cannot be published, the other is as follows:—

Daily News.
This stunt of the bum Daily News is foolish, them's plainly my views;
'Cause along with friend Sam They're not worth a dam
In giving us commensurate news.
St. Regis Cafe.
To St. Regis Cafe we must take off our hats,
Where they feed us calories of sugar and fats,
I fed there a week
And now I'm a freak—
You should see the big bulge in my slats.

At his world famous hot water coils.
With juice he can thaw;
But say girls! tell maw
Disease, with good plumbing he foils.

Where Paul and Ben greet patrons nightly,
And the music it charms,
It soothes and it calms,
And the cinema stars shine so brightly.

METHODIST YOUNG PEOPLE HAD VERY ENJOYABLE SOCIAL

Miss Nymen Speaks on Subject of Organization—Songs, Games and Refreshments.

The Young People's Society of the Methodist Church held a most successful social evening in the basement of the church last night. The gathering was opened by the Honorary President, Rev. T. H. Nuttall, and thirty-one persons were present, most of whom are members of the society. Miss Nymen, president, gave a short address outlining the objects of the organization.

Miss Thelma Knight, the society pianist, then gave a solo and games were indulged in. The gathering was then favored with vocal solos by Messrs. Higgins and E. Graggs, which were enjoyed very much. At 10:30 refreshments were served and the gathering broke up at 11 o'clock with the singing of a hymn. The next meeting will be of a devotional nature on Wednesday next. The following are the officers of the society: Honorary President, Rev. T. H. Nuttall; Second Honorary President, Miss Hudson; President, Miss Nymen; Secretary, Treasurer, W. B. Couldwell; Pianist, Miss Thelma Knight.

FINE PICTURE AND EXCELLENT MUSIC

Mary Pickford in "The Hoodlum" Is Above the Average of Her Films.

One of the best films that has been shown here for many a day was seen last night at the Westholme in "The Hoodlum" with the famous Mary Pickford in the stellar role. It showed to a full house and doubtless tonight again will have a record attendance.

Mary Pickford has lost none of her appeal but rather her ripened experience has made her appeal more genuine and wider. In being able to choose her own plays and put them on under her own direction she makes the most of every situation and gives her wonderful abilities full play.

The transformation from the rich setting to the slums of New York are very marked and shows great versatility on the part of the actress. When she dances the shimmy in the back ally she is splendid, and she is also attractive beyond measure in the wedding scene.

The violin solo by Mrs. Taylor from an arrangement of Scottish airs by Maude S. Kerr was very enjoyable.

YOUNG PEOPLE'S CLUB HOLD JOLLY DANCE

The Young People's Club of the O. B. U. held its second dance in the St. Andrew's Hall last night and met with good success. There were about 50 couples present who danced till well on in the morning to the strains of the Labor Band which shows considerable improvement.

Refreshments were served at midnight in the supper room. J. H. Burrough, assistant secretary of the Central Labor Council, tended the door.

The tug Lorne came off the ways at the drydock yesterday after undergoing overhaul. The Lorne was in the dock only a brief time as she is being kept busy in the towing business. While Chief Engineer Cameron is having his holidays, Wm. Baillie, second on the Prince Rupert, is acting as chief on the Lorne.

LAND REGISTRY ACT.
(Sections 36 and 134.)

Re Application No. 11365-L. File 6274.

TAKE NOTICE that application has been made to register David H. Hays, of Prince Rupert, B. C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 23rd day of October, 1919, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the City of Prince Rupert, more particularly known and described as Lot thirty (30), Block forty-two (42), Section eight (8), (Map 923). You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication in the Daily News, Prince Rupert), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—

"and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of David H. Hays.

AND WHEREAS on investigating the title it appears that prior to the 10th day of October, 1908 (the date on which the said lands were sold for overdue taxes), you were the Crown Granted owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of David H. Hays unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Prince Rupert, B. C., this 7th day of November, A. D. 1919.

WATER RIGHTS BRANCH.
CERTIFICATE OF APPROVAL.

1. WHEREAS the Port Essington Water Company Limited, is a Company incorporated under the Companies Act, its objects and powers as set out in its Certificate of Incorporation published in the British Columbia Gazette of 19 December, 1912, at page 11864, extending to and including the construction or operation of works for the supply or utilization of water.

2. AND WHEREAS the said Company did on the 7th day of January, 1914, obtain a Certificate of Approval of its undertaking so far as it relates to the diversion of water from Cunningham Lake, a tributary of Cunningham Creek, and carriage thereof as set out in a certain water permit No. 125 and the sale, barter and exchange of the said water.

3. AND WHEREAS the said Company did apply on the 19th day of March, 1915, for a licence to divert an additional quantity of water, to wit, one and a half cubic feet per second out of the said Cunningham Lake and for a licence to store four hundred acre feet of water in the said Cunningham Lake.

4. AND WHEREAS the said Company has after due notice by Petition filed on the 29th day of April, 1915, petitioned that the said Certificate be amended so as to include the diversion, storage, carriage and sale of the water applied for on the said 19th day of March, 1915.

5. AND WHEREAS the time for filing objections has expired, and no objections have been filed to the said Petition.

6. AND WHEREAS the Comptroller of Water Rights has advised the Board that the works constructed by the said Company under Final Licence No. 3238 issued in respect of Water Permit No. 125 and additional Licence No. 323 under the provisions of the Water Act, 1914, are sufficient for the storage, diversion and carriage of the whole of the said water.

7. THIS IS TO CERTIFY that the proposed enlargement of the undertaking of the Port Essington Water Company Limited (in so far as it relates to the diversion of an additional one and a half cubic feet of water per second from Cunningham Lake and the storage of four hundred acre feet of water in said Cunningham Lake) is hereby approved and the sale of the said water is also hereby approved.

8. Any Licences which may hereafter be issued shall (notwithstanding the issue of this Certificate) be subject to readjustment by the Board of Investigation.

9. The water may be carried in the works which were constructed pursuant to the provisions of the Certificate of Approval of the seventh day of January, 1914.

10. The territory within which the Company may exercise its powers under this Certificate is the Townsite of Port Essington, being part of Lot 45, Group 1, Range 5, Coast District.

11. The term of any licence issued under this Certificate shall be fifty years from its priority.

12. This Certificate shall not in any way be deemed to be an approval of the plans of any works covered by the proposed undertaking, or to authorize the construction of any such works, but shall have the effect only of a certificate issued under the provisions of section 81 of the "Water Act, 1914," and shall be subject to such provisions.

IMPROVEMENT TO ROADS IN THE INTERIOR

Better Grades Found for Trunk Thoroughfares by Government Engineer.

VICTORIA, Jan. 29.—Delving into departmental costs of road surveys, the Hon. J. H. King, Minister of Public Works, has found a number of interesting comparisons which throw the old system of public works administration into adverse relief against that which has resulted from his re-organization of the Department. To give point to his contention the Minister explained to your correspondent three specific examples of road survey work in which a good deal of public money was needlessly wasted because the individuals who located the roads in question were lacking in engineering knowledge. These examples show the actual expenditure made upon the respective roads from 1907 to 1917 under the old methods and the amount spent between 1917 and 1920 under the new policy. It will be understood, of course, that these latter expenditures were incurred in remedying or trying to remedy improper location, impractical grades and alignment on sections of the road in point.

The Cariboo Road. In the first place the Minister refers to the Cariboo Road from 150 Mile House to Harper's Camp. From 1907 to 1917 the amount expended was \$11,770.37 and from 1917 to 1920 \$5,549.01. Typical examples of poor location were noticeable in parts of this main artery, particularly the portion near Harper's Camp and locally known as Stuart's Pitch. Instead of being located along the sidehill, where a level grade and good alignment were obtainable, this section of the road was made to run up the hillside on a sixteen per cent grade and to descend on a similar grade on the other end. A road diversion, one and a half miles in extent and costing more than \$1,800, was completed last year on a practically level grade, thereby eliminating one of the most impracticable roads to traffic in the province. The new grade, of course, has proved a large factor in reducing the cost to farmers in respect of haulage.

Hazelton-Aldermere Road. A second example is that of the Hazelton-Aldermere road. Between 1907 and 1917 \$124,759.83 was expended and from 1917 to 1920 the sum reached \$9,848.16. On this road ten and twelve per cent grades are common and from recent minor revisions made along sections of the road more advantageous locations are obtainable which would reduce the maximum grade from twelve to eight per cent. A short road diversion costing about \$1,800 was recently completed in this case which eliminated a bridge crossing at Driftwood Creek.

North Francois Lake Road. The third example is that of the North Francois Lake road on which \$24,149.43 was spent between 1907 and 1917 and \$18,000.38 between 1917 and 1920. This is the main road into the Francois and Ootsa Lake country. It commences at Burns Lake on the G. T. P. railway and runs almost due south for fifteen miles to Francois Lake and the ferry landing. The road was laid out by local foremen under the supervision of the road superintendent.

Owing to the bad grades on the old road, which reached a maximum of ten per cent, as well as many dangerous turns in a number of places on steep grades, the Department decided in 1918 to re-locate practically the entire length of the road. A survey was made of the old and new locations and it was found that in every respect the new location was superior to the old. For example, the maximum grade of the new location is four per cent, as compared with ten per cent, on the old road. Moreover, the alignment of the new location avoids the dangerous turns so prevalent in the old. The old road was constructed chiefly in clay, loam and gumbo, while the predominating materials encountered in the new location are gravel, clay and loam, gumbo being almost entirely absent. In addition to the foregoing improvements the new location is 700 lineal feet shorter than the former.

These are but three examples showing the tremendous improvement of the new system over the

old, while they in themselves constitute an effective rejoinder to the opposition leader's desire to go back to an obsolete policy where engineering skill played second fiddle to political color and persuasion.

MINERAL OUTPUT OF ALASKA PLACED AT \$18,850,000

Washington, Jan. 28.—Eighteen million, eight hundred and fifty thousand dollars was the value of Alaska's mineral output for 1919 as revealed in the figures from the annual report of the geological survey. Of this nine million was gold, eight and a half million dollars' worth of copper, six hundred and fifty thousand dollars' worth of silver, three hundred and fifty thousand dollars' worth of coal, a hundred thousand dollars' worth of lead, fifty thousand dollars' worth of tin with platinum, palladium and quick silver, and petroleum, marble and gypsum valued at two hundred thousand dollars.

The Seward Peninsula led in placer gold production with one million, three hundred thousand dollars, Fairbanks being second with seven hundred and seventy thousand dollars, and Iditarod third with seven hundred and twenty-five thousand dollars and the Tolovana district with five hundred and twenty-five thousand dollars.

TO-DAY

In medicines, as in every other
necessity, the public is satisfied
with nothing but the best! This
explains the ever-increasing demand
for Zam-Buk. Not only is this
great balm the best household
remedy to-day, but it is also the
most economical.

Zam-Buk's superiority is due to
the fact that it is all medicine, con-
taining none of the coarse animal
fats or harsh mineral drugs found
in ordinary ointments. Again, the
medicinal properties are so highly
concentrated that they contain the
maximum amount of healing, sooth-
ing and antiseptic power, so that a
little of this balm goes a long way.

Another reason why Zam-Buk is
most economical. It will keep in-
definitely and retain to the last its
strength and purity. Best for skin
diseases and injuries, blood-poison-
ing and piles. All dealers, 50c. box.

MR. JUSTICE MURPHY GAVE NO OPINION ON VALIDITY OF BOARD

(Continued From Page One.)

ever in the whole statement filed
by Mr. Erb to show how his in-
vestment of \$33,610 was made
was one for miscellaneous ex-
penses of New York office includ-
ing salaries of officials to Novem-
ber 30th, \$30,000.

"In argument Mr. Mayers drew
attention to the fact that the mi-
nutes providing for salaries to the
New York officials were passed
when Messrs. Mullen and Schel-
lenberg were on the train on the
way to Prince Rupert in March
last and that they were unaware
of these minutes until eight
months afterwards. Mr. Mayers
pointed out that even under these
minutes not much more than \$12,—
could possibly be paid out for
salaries in New York, an amount
that had never been agreed to by
Mr. Mullen.

Incorrect Affidavits.

"Affidavits were also filed by
Mr. Mayers showing letters from
Mr. Erb to various persons stat-
ing that certain accounts of sub-
stantial amount were paid which
it subsequently turned out were
not paid.

"Mr. Davis, on the other hand
arguing the injunction matter,
confined himself almost entirely
to the law. The argument proper
was very prolonged; commenced
by Mr. Davis on Thursday after-
noon, it lasted the remainder of
Thursday, all day Friday and all
day Monday.

Judges Comment.

"At the conclusion of the argu-
ment, Mr. Justice Murphy com-
mented on the very controversial
nature of the facts and directed
that it should be distinctly un-
derstood that he was not prepared to
and would not pass upon the mer-
its of either the law or the facts
in so far as they affected the is-
sue between the parties. He
stated that he would not say
whether the old board or the new
board was a valid board, but
would leave that for the trial
judge. In the meantime however
he thought that in view of the fact
that Erb had been treated as hav-
ing an interest for some months
that it would be advisable to issue
an injunction so that the condi-
tion of affairs might be retained
as they were prior to the meeting
of the 20th December. The ex-
act terms of the injunction order
have not yet been settled by the
judge."
