Fish Catch in 1919 Worth \$4,607,903

Canadian Boats Landed Here Halibut, Salmon and other Varieties Valued at \$3,143,236 and American Boats \$1,465,667.

The total value of the fish marketed at Prince Rupert last year, according to official figures just made public, is \$4,607,903. This is made up as follows:—

Canadian boats, 46,901,000 lbs., valued at \$3,143,236.
American boats, 11,891,370 lbs., valued at \$1,465,667.
Halibut and salmon are the most valuable catches, but considerable business was done in flat fish and herring, black cod and other varieties of cod. The fish marketed include besides those already mentioned skate, crabs, oolachans, whiting, shrimps.

There is no record to show how many American boats did business here, but the total number of Canadian fishing boats operating full or part time was 529. Of these were steam vessels; the Andrew Kelly, G. E. Foster, and James Carruthers, each carrying a crew of 25 men and being registered as of 95 tons.

36 Over 10 Tons.
The gasoline boats over ten tons number 36 and are the Sitka, Sumner, W. R. Lord, Grier Star, Fredelia, Phippen, Louisiana, Chief Skugaid, Chief Zybassa, Dolphin, Kitgora, Teuton, N. and B. Bayview, Nakano, King George, Alton, Mollie May, Alti, Reynolds, Alliance No. 1, Nornen, Mayhew, Giffen, Advance, Fairbanks, Murineaz, Margallice, Palma, Haysport 1, Haysport 11, Camp, and Gilford, Navigator, Seville and M. M. Christopher.

There were 37 boats under ten tons engaged in halibut fishing, and 159 salmon trollers averaging 3 tons each, as well as 187 boats averaging half a ton. Value at \$1,790,000.

The total tonnage of the boats engaged is 2,702. They carry a total crew of 1,487 and are valued at approximately \$1,790,000. Some of the salmon boats go on for halibut and halibut boats engage in salmon fishing during the season.

There were during the year something like 1,400 skates of various sizes used in halibut fishing and this is valued at \$50 a skate.

These figures for the year 1919 are the most complete yet published in regard to the fishing business of this port and give a very good idea of the value of the fishing industry and what it means to Prince Rupert.

MOBILIZATION OF TURKS REPORTED

Question That They are About to Attack Greek and Other Allied Troops.

(Special via G. T. P. Telegraphs.)
LONDON, Feb. 2.—The Turkish minister of war, according to reports from Constantinople, has secretly ordered the printing as early as possible of 10,000 copies of a proclamation of general mobilization of the Turkish forces, says a despatch to the Exchange Telegraph Co. from Athens, dated January 29.

The report says that the order provides that the war minister contemplates mobilization in Anatolia preparatory to an attack on Greek and other allied troops there.

PLAN TO ERECT NEW BUILDINGS PRINCE RUPERT

Sum of \$100,000 Likely to be Provided for in Estimates For This City.

(Special via G. T. P. Telegraphs.)
VICTORIA, Feb. 2.—The legislature will meet this afternoon after adjourning from the opening on Thursday, according to custom.

While no official announcement has been made, and the final pruning of the estimates has not yet taken place, it is understood that Prince Rupert is to have new Government Buildings to cost in the neighborhood of \$300,000, of which \$100,000 is to be spent this year. The buildings will be on a new site on Market Square, where the Provincial Government owns property which is said to be well suited for the purpose.

The budget will not be introduced for several weeks and in the meantime there may be changes in the plans.

INDIAN FOUGHT WITH OFFICER

Frederick Dudoward, of Port Simpson, Faces Three Charges in Police Court This Morning.

Frederick Dudoward, a Port Simpson Indian, was in the police court this morning charged with drunkenness, having liquor in his possession and assaulting a police officer. He pleaded guilty on the first two charges and was fined \$10 and \$50. On the last mentioned charge he pleaded not guilty, but the court made its finding otherwise and adjourned the case till tomorrow when the sentence will be passed.

Dudoward was found yesterday afternoon in a drunken condition on Second Avenue by Constable Leek. He resisted arrest and the constable has considerable bodily evidence to show for the fact. Finally after quite a tussle the boisterous native was taken to the station where he now remains.

YACHT TO PLY TO STEWART

Fine Little Craft Being Refitted in Vancouver, Says "Province."

ABLE TO CARRY ABOUT FORTY PASSENGERS

The Mou Ping, one of the best-known steam yachts in the harbor a few years ago, is to be brought out of the back waters of Coal Harbor, where she has been moored for some years, and will be refitted by her new owners, Pascoe & Co., for service between Prince Rupert and Stewart, says the Vancouver Province.

The Mou Ping is built entirely of teak and gumwood, with brass fittings and nails throughout. She was brought to this coast by the late B. T. Rogers as a private yacht, later being transferred to other owners, among whom was Mr. C. D. Rand. Alvo von Alvensleben is said to have owned her for a short time.

Shortly before being laid up, the Mou Ping was fitted with new Scotch oil-burning boilers, while her engines are said to be in excellent shape.

Pascoe & Co. are refitting her and expect to have her placed on the northern ferry service this summer. She will have accommodation for forty passengers.

WHEAT AND FLOUR ADVANCE IN PRICE

Dollar and Quarter More per Barrel Must be Paid by Bakers.

(Special via G. T. P. Telegraphs.)
WINNIPEG, Feb. 2.—Regulations, issued by the Canadian Wheat Board Saturday, raise the price of British Columbia, Ontario, and Quebec wheat mills in Canada 25 cents per bushel and also increase the maximum wholesale price of the Government standard winter wheat flour from \$10 per barrel to \$11.25 per barrel on the basis of f.o.b. cars at Montreal.

COAL BUNKERS FOR CONSUMERS COMPANY

Contract for Their Erection Let to D. H. Morrison.

The contract has been let for the erection of coal bunkers in the G.T.P. railway yards for the Consumers Coal Company. J. Lorne MacLaren, manager of the concern, says that the demand for their coal has increased to such an extent that it has become necessary to double the capacity of the bunkers.

LETTER MAY HASTEN TREATY RATIFICATION

WASHINGTON, Feb. 2.—It is believed here that Gray's letter to the London Times stating that the American amendments to the Peace Treaty were justified from the American point of view, will hasten the ratification.

Opposition from both Democrats and Republicans is growing in regard to universal majority training movement.

INFLUENZA IS ON DECREASE

Engineers and Firemen in New York Remains at Work to Keep City Warm.

(Special via G. T. P. Telegraphs.)

NEW YORK, Feb. 2.—Two thousand engineers, firemen and oilers, employed in hotels, apartment houses and office buildings, hospitals and public institutions voted not to leave the city heatless in the midst of the influenza epidemic. A strike had been called, but it was decided to heed the appeal of the city health commissioner and postpone action for 48 hours.

There has been a decided decrease in the number of deaths and new cases both of influenza and pneumonia in the last 24 hours. Since the epidemic broke out there have been 28,858 cases of influenza reported with 772 deaths and 7,507 pneumonia cases with 1,913 deaths.

Fliers Expect to Follow Railway to Hazelton and Telegraph to Yukon

(Special to The News via G. T. P. Telegraphs.)

NEW YORK, February 2.—More particulars regarding the tentative plans for the proposed air race to Nome by way of Edmonton and Hazelton have been announced by the American Flying Club. The distance is 4,870 miles.

The route over United States territory from Minneola to Minot, N. D., is 1,673 miles. At North Gate, N. D., the course crosses into Canada and northward to Edmonton, thence along the G. T. P. railway line in the direction of Prince Rupert, B. C., as far as Hazelton.

From Hazelton the flight will follow the course of the telegraph line to Atlin and the Yukon, this route being considered the best from a supply point of view.

In Alaska the route runs from Fort Yukon to Fairbanks by way of Fort Gibson and thence to Nulato and Nome.

COLONEL PECK RETURNS FROM DISTRICT TOUR

Learns Needs of Places Between Here and Bella Coola; Good Reception Accorded Member.

Returning from a successful tour of the coastal part of his constituency which took him as far south as Dean Channel, Col. Peck, M. P., V.C., arrived in town on the "Walrus" yesterday afternoon. Many points were visited and in several of them non-political public meetings were held with pleasing attendance at them all. The needs of the district are many and improvements are clamored for, but it is doubtful if they all can be filled this session.

Col. Peck encountered very rough weather at many points and with the cold weather prevailing the sturdy craft in which he travelled was forced to tie up at a few places. He was accompanied on the trip by E. P. Gingras, assistant public works engineer.

The first point visited was Osland Park, Smith Island, where a float for small boats is required. Then they proceeded across the river to Port Essington. Here a float is being built and the structure was inspected. At the old village of Kitimaat was the next call, and gas and water was taken on at Butedale Cannery.

Visited Pulp Mills.
At Swanson Bay the member went through the pulp and paper mill. Extensive and important additions and changes are being made here and the place is a hive of industry. Preparations are being made for the use of the new car ferry service between the mill and the G. T. P. railroad here.

After being held up in Finlayson Channel on account of wind and snow, Ocean Falls was visited. Here, on account of the severe weather, three days were spent. During that time a public meeting was held and the need for a public building at the busy little paper town was emphasized.

Public Meetings.
From Ocean Falls the trip up Dean Channel to Bella Coola was made. Important public works, including a dock and breakwater are wanted and a public meeting was held. The next day in a driving snow storm the member drove into Hagensborg where another meeting was held. Col. Peck expressed his particular pleasure with the excellent turnouts at the meetings at both Bella Coola and Hagensborg.

On the way home Namu Cannery, Bella Bella, Butedale and Oona and Spiller Rivers, on Porcher Island, were visited before arriving back in Prince Rupert.

JANUARY FISH IS CONSIDERED SATISFACTORY

Catching of 854,200 Pounds Shows Considerable Increase Over Same Month Last Year.

TRAWLERS ARE GOING OUT DURING THIS WEEK
According to figures compiled in the office of one of the fish companies at the waterfront, the total catch of halibut landed here during the month of January, just past, was 854,200 pounds. Of this 842,200 pounds was American fish landed in bond and shipped to cities in the Eastern states while the remaining 12,000 pounds was from Canadian bottoms.

These figures show considerable increase over last year. During the latter part of January fishing was very good and the weather favorable, so some good catches came in. Further, there were none of the Canadian Fish & Cold Storage Co.'s trawlers out and the fish all came from smaller boats. The only trawler calling last month was the Celestial Empire last Saturday with 5,000 lbs.

The local trawlers are outfitting now and two of them are expected to sail for the banks this week.

MORE U.S. MONEY IS NOT WANTED

Statement Issued by British Government Says There is no Intention of Borrowing Further.

WASHINGTON, Feb. 2.—The positive assertion that the British Government does not plan to seek further loans in the United States but on the contrary is reducing its obligations already incurred, is included in a statement from London transmitted to Secretary of the Treasury Glass through R. C. Lindsay, their charge d'affaires. The statement also denies emphatically the repeated allegations in the press that the British Government desires to borrow large sums in the United States.

COLD AT NEW YORK CAUSES MANY FIRES

People Overheat Furnaces and Stoves in Effort to Keep Warm.

(Special via C. T. P. Telegraphs.)

NEW YORK, Feb. 2.—Desperate efforts of New Yorkers to keep warm during the most severe cold weather of the winter is responsible for most of the 68 fire alarms which were turned in between Saturday night and eight o'clock Sunday morning. Overheated stoves and furnaces and attempts to thaw out frozen gas and water pipes caused most of the fires, which rendered more than 300 families homeless or drove them into the streets.

Hospital Worthy Of Better Support.

For the first time in many years it is the intention of the directors of the Prince Rupert Hospital to ask the public for funds with which to make improvements, full particulars of which will be given before the drive commences. At the meeting on Friday night Judge Young on behalf of the local Red Cross Society presented the directors with a marked check for \$2,000 to be used toward the erection of a new nurses' home. The home is badly needed as the young ladies have to live right in the building where they work, and where they have no suitable recreation and sitting rooms.

The nurses work hard and they should get the very best treatment. The public owes it to them to make conditions better. Because the hospitals have always been kept up by public funds, nurses have been expected to work long hours and to put up with inconveniences which no other people would think of tolerating. Now it is being recognized that even nurses have rights and that the profession must be made attractive.

President D. G. Stewart, when elected on Friday as a director, said he had intended to retire but he had reconsidered the matter and would stay with the hospital until the erection of the nurses' home was an accomplished fact. He felt sure the people of the city would respond to a call when asked.

Territorials for Great Britain.

Great Britain intends to continue her territorial army, the body of men who during the great war were the first to answer the call to go overseas and who, because they were trained, were the ones who helped to stay the Germans in their first onrush. The value of a militia was then clearly shown.

In Canada it is proposed to reorganize the militia, and Prince Rupert will likely get one unit. The Canadian militia corresponds to a large extent to the British territorials. They give a small portion of their time to military training so that if they should be needed at time of national danger they may be called to the colors. They will not be sent overseas unless they volunteer their services.

Currie was a colonel of militia before he went overseas. Hundreds of the best officers that served in the late war received their training in the civilian army.

Valuable Asset To Community.

The value of the fishing industry to this port is well set out in the statistical article published in this paper today. It is shown there that the fish landed at this port last year is valued at over four and a half millions of dollars. That is an immense sum of money to be spent, for a large part of it is spent here. Anything that we can do to aid the fishing industry should not be left undone.

Government Aid to Soldier Fishermen.

From Vancouver exchanges it seems clear that the Dominion Government is about to arrange for aid to returned soldier fishermen much as they have done for returned soldier farmers. If there is a training school for fishermen established it should be located here. This is the fishing centre of the province and is the logical place for the fostering of the industry. The Dominion Government will receive every possible support from everyone here, if they undertake this work in a businesslike way; that is, in such a way as to be of the greatest possible advantage to the men.

No Auctioneer at Fish Auction Here

Only Seven Possible Buyers and each Buyer Records his Bids; very Informal Affair, but Bidding is Keen.

When it is mentioned that several car loads of fish were sold by auction, most people picture a man standing on a stool with a crowd of eager buyers around him, bidding against each other as the auctioneer extols the value of the fish and urges them to go higher. The fish auction is nothing like that. There are at this port now just seven buyers, representing seven fish exporting firms. They are J. E. Davie, representing the Canadian Fish & Cold Storage Co.; W. J. Gash, Booth Fisheries; C. E. Starr, Pacific Fisheries; J. Lee, Atlin Fisheries; John Dybhavn, Royal Fisheries; S. Antonsen, National Fisheries, and J. Sinclair, Pacific Sea Products, Ltd.

The buyers and sellers gather in the little Fish Exchange on the Fish Dock between ten and twelve o'clock three or four days of the week and there the fish is listed on a blackboard, the description including the name of the boat, quantity and class of fish, and when and where caught.

Boats Grouped.
Before the auction commences the boats are, by mutual agreement among the buyers, grouped in such a way as to make them easy to handle in car load lots. Then the bidding commences.

Yesterday there were five boats in port with their catches. Some of the buyers were not present at the usual time of opening so the others waited until all had arrived before completing the sales. There was no auctioneer and all the lots were put up at the same time, each buyer keeping a complete record of all bids on all four of the lots. Bidding commenced at 12c for first grade and 7c for seconds and the lots were eventually sold as follows:—Mable A., 25,000 lbs., 14c and 7c; Anna J., 26,000 lbs., 13.8c and 7c; North, 8,000, and Fortuna, 18,000, at 13.6c and 7c. Evolution, 13,000 lbs., at 13.4c and 7c. The fish was finally sold after all the buyers said that they were satisfied.

The second class fish are the large or whale halibut, the small or chicken halibut, and the grey halibut which do not look as nice as the others. The first class fish are of medium size and clear white.

Age of Fish.
As mentioned before, the master of the boats report the age of the fish or in other words the time that has elapsed since the first were caught. While most fishermen are extremely honest there is occasionally one that misreports the age of the fish. The buyers, however, usually know when the boat left port and about how old the fish should be. If they get stung once, however, the master of the boat is a marked man and allowance is always made when he lists his fish. As in all other businesses "honesty is the best policy." It never pays to be blacklisted.

While there is keen rivalry among the buyers, as a rule a spirit of camaraderie prevails. They joke and laugh and jolly each other, and make the work as pleasant as possible. No one really conducts the auction but all help.

NINE MONTHS BEFORE LINE TAKEN OVER

Board of Management Will be Created in Spring After Agreement Ratified.

OTTAWA, Feb. 2.—It is believed that it will be nine months before the G. T. P. is formally taken over. The shareholders of the company will not meet until some time in February to ratify the agreement of arbitration and, assuming that they do, the arbitration will not begin till the early spring. It is likely to be protracted. However, once the agreement is sanctioned, a board of management will be created and the operation of the Grand Trunk will be conducted with the C. N. R. without waiting for the arbitration.

This board will consist of two appointed by the National railways, two by the Grand Trunk, and a fifth to be agreed upon by the others. Provision will be made in the estimates for the construction of a number of western branch lines already authorized by parliament.

LAND REGISTRY ACT.

(Sections 36 and 134.)
Re Application No. 11365-1. File 6274.
TAKE NOTICE that application has been made to register David H. Hays, of Prince Rupert, B. C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 23rd day of October, 1919, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the City of Prince Rupert, more particularly known and described as Lot thirty (30), Block forty-two (42), Section eight (8), (Map 923). You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication in the Daily News, Prince Rupert), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—

"and in default of a caveat or certificate of its pending being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and barred from setting up claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of David H. Hays.

AND WHEREAS on investigating the title it appears that prior to the 10th day of October, 1908 (the date on which the said lands were sold for overdue taxes), you were the Crown Granted owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of David H. Hays unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Prince Rupert, B. C., this 7th day of November, A. D. 1919.

BOTH DOG TEAMS AND HORSES BEING USED IN TAKING OUT ORE

Treacherous Road Requires Much Skill in Handling Horses and Teams—Railroad Grade is Used.

Quantities of high-grade ore are being brought out steadily from the Dolly Varden mine at Alice Arm by both dog teams and horses. The railroad grade is used as the highway and the spaces between the ties on the bridges are boarded up and guard rails put on so that little danger of accident is possible.

The handling of the horses around Deadman's Curve near the mine, where the road is built in a box canyon and from one side, takes a precipitate drop of 1,000 feet, requires the best of experience and care in horsemanship.

A. B. Armstrong, A. Falconer and Wm. McLean are in charge of the transportation of the ore to the beach.

Major North, mine superintendent, has returned to Alice Arm from a holiday visit in the south.

MARGUERITE CLARK HERE FOR TWO DAYS

In "Come Out of the Kitchen," starring Marguerite Clark, which is at the Westholme tonight, Claudia Daingerfield is a member of an old aristocratic family of Virginia, which is sadly impoverished. Her father becomes ill and it is decided to send him with Mrs. Daingerfield to New York for treatment by a specialist. To obtain sufficient funds for the purpose, Claudia decides to sell her horse, but Randolph Weeks, who loves her, comes to her rescue when he induces Burton Crane, a rich man from the north, to lease the Daingerfield home for the hunting season for \$3,000. Crane hates negroes and agrees to pay the price on condition that the colored servants are replaced by white persons.

It develops that the white servants engaged refuse to go to the country, whereupon Claudia, who is desirous of leasing the home to Crane, announces to Elizabeth, her sister, and her two brothers, that they themselves will have to act as servants. Elizabeth rebels but finally consents to serve as upstairs girl, while Paul is the butler, Charles a boy of all work, and Claudia herself, the cook.

JANUARY BUILDING SHOWS BIG INCREASE

Totalled \$20,330 With 11 Permits Issued — \$11,680 Under Soldiers' Housing.

The building permits taken out at the city building inspector's office in the month of January totalled \$20,330, showing a big increase over last year and, in fact, the last five years. These permits were made up of \$11,680 under the Soldiers' Housing plan and the remaining \$8,650 regular city permits.

In 1919 the permits for January totalled \$1,800 and in 1917 the permits for the same month were \$1,200 so looking at the building situation from any standpoint, the building situation in the city looks most promising. A good deal of building is looked for during the coming year, with the present scarcity of housing in the town. It is likely too that a better class of buildings will be put up.

WANT GOVERNMENT TO TAKE TRANSPORT

London Services Do Not Pay, So
Would Have Country
Shoulder Loss.

LONDON, Feb. 2.—The traffic combine comprising all the local and metropolitan railroads, including the subways and motor omnibuses, has asked the ministry of transport to take over these traffic systems and administer them along the same lines as those under which the government is now controlling the main railroads of the country. According to the Mail, the ministry is willing to take over the railroads, but not the omnibuses and is preparing to adopt measures for the control of the former. The application to the transport ministry is said to be in consequence of the prospect of a large loss for the year. This prospect led to the recent proposal to ask parliament to sanction legislation enabling the combine to double the statutory maximum fares. This resulted in a great popular outcry. The combine, with its petition, submitted to the ministry details of revenue and expenditures, and estimated the loss for the coming year at 2,600,000 pounds. The advisory committee of the ministry, after examining the figures came to the conclusion that of this loss 1,600,000 pounds was sustained through running the omnibuses.

LARGE INFLUX OF SETTLERS IN 1920

EDMONTON, Feb. 2.—Advices received by the Canadian National Railway Resources Department from representatives in the States indicate that the movement of settlers from the central, southwestern and northwestern States will be larger this year than it has been for the past ten years, declares John Wardrop, general agent of the C. N. R. Resources Department. "Western Canada," he avers, "may look for an exceptionally large influx of settlers during 1920."

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$100 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 21, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers raised; priority for established owners. Stock-owners may form Association for range management. Free, or partially free, permits for settlers, campers or travelers, up to ten head.

Breaded
Chops
Without Egg

Mrs. S. — has given us a new use for Pacific Milk—Breaded Veal Chops and Cutlets. She first dips the chop in Pacific Milk and then in dried bread crumbs, repeating till sufficient quantity is adhering. Cook in the usual way. This saves eggs and Mrs. S. says the chops are really much nicer this way. Try them.
