WITNESS SAID TO BE STUPID

Patmore Argues that Keir is not Bright and did not Intend to Mislead.

William Keir, charged with perjuly in connection with a recent disorderly house case in the police court, was up for preliminlary hearing this morning. It is alleged that his evidence in the first case was not according to fact and he freely admitted that he had made a statement in the trial that was not true. The defence put in by L. W. Patmore, defending, was that the accused was stupid and that he did not understand the questions asked by Prosecutor Williams.

False Evidence.

Germany Seems

Becoming Settled.

Judging from latest press reports the German revolution is proving a fizzle and the old Government will continue to conduct the affairs of that country. It seems like a final squirm of the old military party, an effort to forcethe hands of the Government in order to bring the military idea once more to the front.

The difficulty there as in this and other countries is that fancy that they are the country. When they find that the people as a whole are not with them, they find themselves in a difficult position. It is so easy to become imbued with the ideas of the or tract of land and premises situate, lying small circle of people in which we move. That is what keeps more particularly known and described as Lot Seven (7), Block forty-one (41), up the enthusiasm for a losing cause at election time. The committee room is the centre from which the enthusiasm radiates. Sometimes a club is the centre.

There is in Germany a military set that associates almost of the "Land Registry Act" with amendexclusively with military people. They talk among themselves from: and enthuse each other until it seems to them that the whole country is beset with militarism. They are mistaken and they have now discovered their mistake. They have struck earth.

German Government

Is Democratic.

The present Government of Germany was endorsed by the people of Germany only a little more than a year ago, in January, 1919, to be exact. The election at that time was under the proportional representation plan and the party allegiance of those returned was Majority Socialists, 163; Catholic Party, 88; Demo- made for a Certificate of Indefeasible Title crats, 75; Conservatives, 42; Independent Socialists, 22; People's Party, 21; Bavarian Peasant's League, 4; minor parties 6, making a total representation in the Reichstag of 421. For this parliament all German people, men and women over 20 years of age, voted. It sits for three years and the president is elected for seven years.

Socialists Like Other People.

It will be noticed that the Government of Germany is prac- Prince Rupert, B. C., this 20th day of tically a Socialist Government. In spite of that we find the affairs being conducted much as they are under any other group of To Paul Hartman, Esq., legislators. They have abolished all class privileges or disadvantages of birth, class or creed and guarantee freedom of speech and press and the right of meeting. In fact they have provided the same rights and privileges that are found in the

constitution of Canada. As we have said before freedom is more a matter of education and training than of constitution, but a good constitution for a country is an aid in working out a condition of freedom. As long as such a condition is possible the country has not arrived at the democratic stage.

Lessons for Canada Are to be Learned.

With regard to the above letter, I wish to say that as have complied with section and paragraph 38 of the Patent Act, and therefore do not come under Section 44 of the said Act, and as I am equipped and willing to install, make and sell said "Water Heater" to any and everybody, I therefore according to law can, and hereby do withdraw the privileges of others making these water heaters.

I am willing to negotiate for an agency to make my water heater, with anyone willing to pay the royalty of \$2.00 on each one installed on the distinct understanding that a year's guarantee goes with it.

SETTLEMENT AT MERVILLE IS SUCCESSFUL

Four to Five Hundred Acres of Newly Cleared Lands to be Cultivated This Year-

Between 400 and 500 acres of newly cleared lands at Camp Merville, the soldiers settlement near Courtenay, will be under cultivation this summer, according to a statement given by the Hon. E. D. Barrow, minister of agriculture. Pending appraisals by representatives of the Soldiers Settlement Board, in carrying out the co-operative arrangement made between the federal and provincial governments, the work will be under the control of the Land Settlement Board, as heretofore, with an agricultural corps as well as a clearing corps, engaged. The men will continue to receive the four dollars per day wages, and every available acre will be farmed.

Forty Allotments Made. Mr. Barrow stated that some forty allotments had been made already, and in some instances those who were given selections would be in a position to farm their own lands. Applications would be made by these men to the Soldiers Settlement Board for loans. They would have to comply with the requirements of the Board in so far as qualifying is concerned. This, said the minister, would not occasion any difficulty, since most of the men had already qualified. He stated that during the wet winter months it was found necessary to continue clearing operations in sections of the settlement which were not affected by the weather.

Various crops will be sown, said the minister, who informed the press representative that the 'potato" plans would not be so comprehensive as at first planned. This was due, he said, to the extremely high cost of seed, as much as \$120 per ton being asked for good seed. This, he felt, was too great a handicap for the returned men to face in the potato market. It is also understood that stock will be purchased shortly and turned over to use of the property. Mr. Hart the veterans.

The Man in the Moon SAYS:-

THAT "held up at the border" the latest news in regard to spring.

THAT the gossips in the moon have been discussing why it is there are so many grass widowers in Prince Rupert. They have decided that it is because they are too fond of being boss to live with their wives.

THAT the reason hens do not thrive in Prince Rupert is because they are ashamed of the number of ancient eggs offered to customers in the various places where eats are sold.

THAT poets thrive on the prairies. Here is an example of what they can write:-

Little puffs of powder, Little dabs of paint Make the little girlies Seem like what they ain't.

THAT it was an Irishman who said he liked to express himself in English but got up his enthusiasm in Scotch.

THAT the girl of 21 who is accused of marrying 22 husbands seems to have been carrying the matrimonial craze too far.

THAT it is easy to understand a girl caring to own a lot of gowns or hats, but husbands-No Siree!

THAT if there is one thing a person hates more than anything else it is paying taxes.

THAT usually politicians camouflage the taxes by adding them to the price of sugar and tea and other necessaries of life.

THAT just now the income tax man is the particular bugbear.

THAT T. Eaton Co. is putting up a fine building from the profits made out of Prince Rupert and other similar places.

THAT the forward movement of the churches has proved very successful.

THAT a forward movement for this city should be the next move-

THAT we either move forward or drop back. It is almost impossible to stand still.

THAT a business which does not make progress is bound for the bone yard.
