Forest Fires in Maritime Provinces

CLOUDBURST IN ENGLAND CAUSES FIFTY DEATHS AND DESTROYS MANY HOMES

Thousand Homeless in New Brunswick; Town Destroyed

Nearly Million Dollars in Damage at St. Quentin and Two Points in Nova Scotia Suffer from Forest Fires

Over Quarter Million is Loss at Londonderry Mines

Hundreds of Miners Fighting Fires on River Heberts but Fire Rages with redoubled fury; Four Churches and many Houses Lost

ST. JOHN, New Brunswick, May 31.—Thousands of people are homeless and few buildings remain at St. Quentin, New Brunswick, as a result of forest fires which have been raging on crown lands for the past ten days, and which has practically wiped out the town.

The town of St. Quentin has a population of 2,000 people. It is a centre of the pulp industry. Here the damage is estimated at nearly a million dollars. The losses include 65 dwellings, three lumber mills and two hotels. The Canadian Northern station is wiped out and much valuable lumber is lost.

On River Heberts.
AMHERST, Nova Scotia, May 31.—The forest fire on the River Hebert is raging with redoubled fury. Hundreds of miners are fighting the advance of the flames day and night but with little success so far.

Much Damage Near Truro.
HALIFAX, Nova Scotia, May 31.—Londonderry mines near Truro have been destroyed by forest fires which swept through the country and which it was impossible to stop in spite of all efforts. Other damages include the total loss of four churches, a school house, a hall, and many homes, all of which have been burned. It is estimated that the damage is well over a quarter of a million dollars.

ALLEGATIONS ARE ALL FALSE, SAYS PREMIER

Mandalous and Tend to Embarrass and Delay Fair Trial.

VANCOUVER, May 31.—Premier Oliver's latest affidavit filed in the libel suit against R. T. Elliott, the Victoria lawyer who sent the infamous telegrams to try to influence the legislature against passing the latest Dolly Varden legislation confirming the title on the Taylor interests, reiterates the declaration that the telegram to which exception is taken, was sent deliberately and with malicious purposes.

The Premier swears that all the allegations and insinuations contained in it are false. "The whole mass of defamatory charges, in the Elliott statement of defence," he declares, "are superfluous and unnecessary, scandalous, and tend to prejudice and embarrass me in this action and to delay a fair trial."

A delightful Cinderella dance was held in the St. Andrew's hall Saturday night under the auspices of the Ladies' Auxiliary of the St. Andrew's Society. The attendance was much larger than usual.

SIR R. KINDERSLEY IS TO VISIT CITY NEXT SATURDAY

CUMBERLAND, V.I., May 31.—Sir Robert Kindersley, K. B. E., Governor of the Hudson's Bay Co. throughout the world, and Lady Kindersley are now here and are leaving Vancouver on Thursday on the Prince George on a return pleasure trip to Prince Rupert and Stewart.

MOTOR RACES WORLD PRIZES

Winner of 500-Mile Event at Indianapolis Today Gets \$85,000.

INDIANAPOLIS, Ind., May 31.—Twenty-three world's racing stars were sent away at 10 o'clock this morning in the eighth renewal 500-mile automobile race on the Indianapolis speedway, for a prize of \$85,000, the richest purse in the history of motor racing.

SWIMMING RECORD BROKEN YESTERDAY

Mitrie Kenowloff Now Holds the Record for 500-Yard Event.

PORTLAND, Oreg., May 31.—Mitrie Kenowloff of the Seattle Crystal Club last night broke the Pacific Northwest swimming record for a 500-yard free style event. He did the distance in 55 1-5 seconds. The former record for the same distance was 59 3-5 seconds.

SHIPYARDS MAY BE BUSY

Proposal to Back French Bonds For Shipbuilding Purposes.

Victoria, May 31.—While there is no money for the building of further steel ships in the Harbor Marine Yard, the French Government is endeavoring to have the Canadian Government back its bonds to the extent of forty million dollars for the construction of steel vessels in Canada, and the Victoria plant will have first consideration should the plan go through.

This hopeful situation was outlined yesterday to the workmen of the Harbor Marine Yard by the two delegates, Capt. Orford and Major Kirkpatrick-Crockett, who have returned from Ottawa, where they endeavored to secure further contracts on behalf of the Harbor Marine Veterans' Association. Premier Sir Robert Borden told the delegates that there was no money for further contracts from the Government, but he mentioned the French proposition. He added that every yard in Canada would be kept busy if the plan materializes.

Fourth Anniversary Battle of Jutland

Today is the fourth anniversary of the historic Battle of Jutland, where the British covered themselves with glory and Admiral Sir David Beattie became the hero of the hour. The battle marked the only naval engagement in which the German fleet was engaged as a whole in the entire war, being bottled up at Heligoland and in the Kiel Canal. Tempted out by the appearance of Admiral Beattie's light cruiser close to Heligoland the fleet came out only to find itself in a short time confronted with the main body of the British Grand Fleet as the result of Beattie's coup, one of the most daring in modern warfare. The German fleet soon retreated to its base but not until much damage had been wrought to both sides in the engagement.

Fifty Deaths from Flood in England

Cloudburst Swells Stream which Carries Away Bridges, Fences and Houses; Hundreds of People Homeless

LOUTH, Lincolnshire, England, May 31.—Fifty deaths took place here from the overflow of a small river as the result of a cloudburst on Saturday. The rapid spread of the waters engulfed houses and carried away bridges and fences.

One terrace of fifteen houses was entirely swept away, most of the people being in their homes when water, three feet deep, rushed along 200 feet wide carrying cottages, automobiles, wagons and furniture. Dead animals were included in the swirl and today hundreds of people are homeless.

German Rebellion Thought An Immediate Possibility

Commanders of Garrisons in Greater Berlin Take Oath of Allegiance to Republic as Preventive Measure

LONDON, May 31.—Rumors of an impending revolt in Berlin are steadily growing. Potsdam is believed to be the headquarters of Prince August Wilhelm, son of the former Emperor William, who is generally regarded as the leader of the military party.

BERLIN, May 31.—Vigorous steps are being taken here to prevent any recurrence of the recent coup, when the president had to leave the city and the place was temporarily held by the military reactionary party. Commanders of the garrisons of Greater Berlin visited the Minister of Defence today and took the oath of allegiance to the German Republic. They swore that they and their corps were ready and willing to protect the constitution by force against any armed attempt from right or left.

COURT AWARDS MAN \$25,000 FOR LEG

Was Injured by Truck and Amputation Followed.

NEW YORK, May 31.—For the loss of his right leg Frederick Gaffrey was awarded a verdict of \$25,000 against the owner of a store where the man was employed. Plaintiff charged that the truck struck him, injuring his leg permanently and necessitating amputation.

LOST FEET IN AN ACCIDENT

Man Crawling Under Car in Railway Yard at Cranbrook Was Run Over.

NELSON, May 31.—Run over by a train, Harry Leaman lost both his feet at Cranbrook on Saturday. He was crawling under a train in the Canadian Pacific yard when the yard engine bumped it and the wheels passed over the ankles of the man. The feet have to be amputated above the ankles.

Thomas Trotter is going to move his feed store building from its present location at the corner of Third Avenue and Eighth Street to his own lots on Second Avenue near the Inlander Boarding House.

Freight Schooner Lady Mine Is Here from South

Carried 100 Tons of Freight for Different Points, including Road Outfit for United States Government; Ply to Stewart

The schooner Lady Mine, of the Lady Mine Fishing and Shipping Co., arrived in port from the south yesterday afternoon after a smooth and uneventful trip up the coast. The Lady Mine is to enter the freighting business from Prince Rupert to outlying points such as Alice Arm and Stewart, making this her home port. On the journey north she had 100 tons of freight, the most of which was unloaded before reaching here. Calls were made at Van Anda, Campbell River and the Skeena canneries. There still remains in her holds and on deck 20 tons of freight for Mill Bay, Arrandale and Stewart, among which there is a road-making outfit for the U. S. Government which was taken on at Seattle and will be discharged at Hyder.

The Lady Mine is a vessel of 55 tons gross, 100 feet in length and 18 foot beam. She is equipped with a 6-cylinder 120 h. p. Harbeck light duty engine which gives her good speed, although her draft light is 12 feet. She is well suited for freight work as she has ample hold space. Her working crew is six men, although she can accommodate 12.

Captain W. H. Smith, her master, and a large share-holder in the company owning her, is a veteran deep sea skipper. He has held positions of high command with the C. P. R. Ocean Services, and was master of the steamer Milwaukee when she was torpedoed near the coast of Ireland in the latter days of the war. He retired from the sea recently but the call got into his blood once more and being associated with the company he took command of the schooner. He is eighty years of age.

OFFICE WILL CLOSE TODAY

C. C. Kernahan, Professional and Business Representative for B.C. in City

RE-ESTABLISHMENT SUCCESSFUL WORK

The Prince Rupert branch of the Soldiers' Civil Re-establishment Bureau closes today and C. C. Kernahan, the professional and business representative for British Columbia, is in the city in connection with the winding up of affairs. In future the business of this branch will be attended to by the Unit Service officer at Vancouver. The only branches of the bureau left in this province after today will be at Revelstoke, Kamloops, New Westminster, Vancouver, Victoria and Nelson. These will carry on the active business until June 30 when they also will be closed.

Mr. Kernahan, in speaking to the Daily News this morning was very complimentary as to the work conducted in the local office under H. F. Wearmouth assisted by A. J. Gollison. It has been the head office in Northern British Columbia and as such has been very successfully conducted. The best of co-operation has been given the branch by J. M. Campbell of the Provincial Labor Bureau and the offices have worked in complete unity. Mr. Kernahan returns to Vancouver by the Prince George this evening.

J. McGivern and Alex Egner were each fined Ten Dollars in the police court this morning for being drunk.

MAY BE MORE LABOR TROUBLE IN IRELAND

Irish Trade Congress Promises Full Support to Striking Railwaymen.

BELEFAST, Ireland, May 31.—The railway workers of Dublin are out on strike and full support in their struggle with the companies has been promised them by the Irish Trades Congress.

It is feared that the present industrial dispute may lead to a repetition of the deadlock which occurred recently over the hunger strikers.

BOLSHEVIKI ON CASPIAN SHORES

Enter Right and Occupy All the Surrounding Country.

CONSTANTINOPLE, May 31.—Resht, an important city of Persia, the most important port on the Caspian Sea, has been occupied by the Russian Bolshevik troops who have invaded the whole of the surrounding country.

FINE FISHING UP ECSTALL RIVER

Dr. Bayne and Party Went as Far as Mud Creek in Power Canoe.

After a most enjoyable and successful fishing trip up the Ecstall River, Dr. A. H. Bayne, H. B. Bayne and Joe Greer returned this morning, having made the trip in the doctor's power canoe with a three and a half horse power engine. They left at four o'clock Saturday morning, going as far as Mud Creek about fifty miles up the Ecstall. There they had some splendid fishing, making big catches.

Coming home the weather was bad at the mouth of the Skeena and they had rather a hard time getting across into safe waters.

Swimming Club Deserving Institution.

The swimming club has done good work in the past under the able presidency of T. G. Duncan and doubtless will do good work in future under W. D. Vance. It is one of the institutions that serves the public in a public-spirited manner. The officers receive no pay and they ask no recompense except the general support of their efforts by the public. Very few but enjoy a visit to the Salt Lake some time. The place makes for the better health and happiness of the community and should be well kept. This year it is proposed to repair the landing stage, to make some more improvements at the lake and the Provincial Government will improve the walk. The result should be that the resort will become more attractive than ever before.

Surveying Land By Aeroplane.

The news dispatches on Friday last carried a story of a survey party about to go into Bella Coola to look over some land. This is another use to which the aeroplane is to be put. The party would have to travel for days with packhorses. That is the old method. By the new they would be on the ground in a few hours and the whole work be completed and the party returned in a few days. Truly the aeroplane is a useful invention.

Recognition Difficult To Secure.

It is difficult for a small city to secure recognition. Prince Rupert is all alone in its fight for a place in the sun. With the exception of the railway company there has been no big interest to pull for us. When one was proposed the city refused to cooperate. The result has been more or less stagnation. Now we are on the move, and we must continually impress upon the Government the fact that we are here and that we have needs to supply. This, not in a spirit of hostility, but as a right which we, in common with others, have.

Speeding Up at Shipyard.

There is to be a speeding up at the shipyard. It is understood that two shifts a day will be worked in order to get the vessels off the stocks within a reasonable time. Derricks have already been erected and the work will go ahead in a business-like manner.

Recently the Victoria shipyards, backed by the returned soldiers of that city, made overtures to the Dominion Government for further contracts for the yards there. The Government refused the request, saying they had no money. That seems to be an indication that nothing can be expected from the Government here. It is to be hoped, however, that contracts will be secured from private firms and that the yards will continue to operate.

Ship Strike Is Settled.

None of the dispatches are very clear in regard to the settlement of the ship strike. That it is settled, however, is clear and that to most people is the important thing. Now it is possible that business will pick up and continue good throughout the summer. Happily the city was only just beginning to suffer as a result of the trouble. From this on there should be an improvement.

HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON
 P. O. Box 123, Parrsboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back. In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since."

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson. The height is in feet and tenths of feet above the average level of lower low water.

EX-SERVICE MEN ORGANIZE AT ESSINGTON

Skeena River Services Club is Name Chosen, With George Durham first President.

PORT ESSINGTON, May 31.—A meeting of ex-service men employed in the Skeena River canneries was held here on Saturday in the Caledonia Hotel at 9 p. m., George Durham presiding, and Percy Tinker acting secretary, for the purpose of forming a social club that would organize a series of smoking concerts and promote general good fellowship among the service men engaged in the fishing industry.

It was decided that the club be called the Skeena River Services Club and that the fees be \$1 for entrance and \$3 yearly subscription.

The matter of affiliating with some other veterans' association was discussed and left over for further discussion.

Officers elected were:—
President, George Durham.
Vice-president, W. F. Binns.
Secretary-treasurer, J. Smith.
Executive, Messrs. Jones, Morry and Gibson.

Entertainment committee, Messrs. Jones, Chambers and Perkins.
The next meeting will be held on Saturday evening next at the Caledonia Hotel at 8:30 and will be followed by a smoking concert.

WIDOWS PROTECTED AGAINST FREAK WILLS

Notice is given in the current week's Provincial Gazette that the "Testator's Family Maintenance Act" passed at the recent session of the Legislature, will become of force and effect on July 1 next. By the provisions of the act it will no longer be possible for a testator to leave his or her property in such fashion as to fail to provide an adequate part thereof for their maintenance. While designed to protect a wife from being left without a share of the estate of her husband, it applies equally in the case of a husband in respect of an estate left by a wife.

R. J. Powell, a Metlakatla Indian, appeared in the police court this morning charged with theft and was let off on suspended sentence. It appears that he returned the goods alleged to have been stolen. The magistrate, however, reprimanded him severely.

Mrs. J. M. Carmichael, matron of the local chapter of the Eastern Star, is leaving for Victoria today where she will attend the meeting of the Grand Lodge. She will also visit with Mr. Carmichael's relatives in Vancouver.

A branch of the British Colonial Agencies is being opened here by C. C. Kernahan, of Vancouver, who is the president of the concern.

STOCK MARKET IS NOT STRONG

Decline in Mining Stocks Follows Drop in Price of Silver.

VANCOUVER, May 31.—The general easing off of prices in mining stocks during the past few weeks has undoubtedly been contributed to by three principal factors, which are:

1. The decline in the price of silver from \$1.35 to about \$1.10 at time of writing, and absence of definite information regarding an increased price for gold;

2. The general weakness of all stock markets caused by scarcity of money and a strong selling movement;

3. New finance, contingent upon the organization of new mining companies, which has accounted for the disappearance of speculative capital usually in evidence.

Though there have been no violent recessions in the local market, the general trend of business has been anything but strong. It is certain that the basic conditions underlying the mining industry are more solid than ever before, therefore the reason must lie in some other direction.

In spite of heavy selling, an absence of anything less concerted buying, and a more or less stagnant condition arising therefrom, it is encouraging to note that few individual stocks show any alarming depreciation; a favorable feature and an infallible indication of the confidence held generally in the successful development and operation of provincial industries.

Below Actual Value.

The condition, therefore, in evidence is that a number of really high-grade mining stocks are selling at prices far below their actual worth. The fact that some particularly meritorious stocks have received such scant consideration on the part of investors leads us to believe that there is an absence of the careful analytical buying on the local market which characterizes the operation of most markets.

Mrs. Furoth Has a Special Way

Perhaps other cooks have used Pacific Milk in the same way. At any rate this is the right method.

When Mrs. Furoth is making a cake, say it calls for 1/2 milk. She takes first 1/4 water and adds Pacific Milk till the cup.

It is much better to pour the milk into water than to pour water into 1/2-cup of milk. Which way do you dilute Pacific Milk?

JURY CRITICIZES JAIL AT TORONTO

TORONTO, May 31.—"We are of the opinion that the present structure has long outlived its usefulness. This building is a disgrace to the country and citizens do not realize the conditions existing there. A modern building should be erected to meet present-day requirements."

Such is the report contained in the presentment of the Grand Jury delivered at the opening of the Assizes as to the state of affairs existing at the Toronto Jail. It refers to the fact that other Grand Juries have harped on the same conditions, and mentions that those in authority have as yet seen fit to disregard all such reports.

There were 89 men and 10 women in the institution when it was visited by the Grand Jurors. Their presentment states that the building is not a fit place in which to keep men and women who are awaiting trial. It refers especially to the insanitary conditions existing there.

The Man in the Moon SAYS:

THAT down in Ottawa they feed paper into a printing press and it comes out money at the other end.

THAT the same thing is done here. Merchants in Prince Rupert purchase a space in the Daily News to let the people know about their wares and as a result the credit side of their books shows profit.

THAT the man who does not help to feed the printing press is not in line with the spirit of the age and sooner or later is bound for the business dump heap.

THAT furs have dropped in price, but the St. Louis auction realized \$23,000,000 in spite of that.

THAT there seems to be money in the world for luxuries, but it always seems to be the other fellow that has it.

SOLDIER PROSPECTORS MUST SIGN AGREEMENT

Full Particulars in Regard to Scheme may be Secured from George Clothier

Further information has been received by the district mining engineer in regard to the grubstaking of returned soldier prospectors by the Provincial Government. Each man must sign an agreement with the Minister of Mines that he will fulfil the conditions prescribed, including the sharing of all claims with his partner in the field.

The Government agrees to provide a miner's certificate, pack sack, blankets, tent and such other tools and equipment and food as may be necessary; also to provide transportation to a point nearest the prospecting field allotted them; and at the end of the season to pay the leader \$125 and the second man \$100.

People living in Prince Rupert should apply to George Clothier, District Mining Engineer. Action should be taken at once in order that the local party may be sent out as soon as possible.

Sport Briefs

Failed to Win.
 Mike Lynch, veteran pilot of the Northwestern League teams, will succeed Dave Hillyard as manager of the Seattle Club in the Pacific International, according to an announcement made last week. Failure of Hillyard to get the Seattle team into a winning streak this season was given as the reason for the dismissal by President William Duthie.

Unique Fan.
 "If all baseball fans were like Charley Eulme of Sacramento the turnstiles wouldn't do much business and the game would soon go out of vogue with the professionals. Eulme is one of the biggest fans in the valley city, but he never attends a game. He reads it out of the papers next day. Eulme says: "I don't enjoy watching a game because I don't know the players' faces. I haven't time to get acquainted with them so I'll know them by sight. I also don't know anything about their ability. But I enjoy the game next day by reading the newspaper accounts of it. I like to read about it more than I like to see the game."

Nine Home Runs.
 In a baseball game between Victoria and Vancouver at Victoria last week there were no less than nine home runs made and the final score was 18 to 8. The right field fence was alone responsible for the big score for no less than nine drives cleared the boards, Victoria grabbing five of them and Vancouver 4. In a larger field all the runs would have been gathered in by the right fielder. The fence is too close and the balls are knocked right over it.

Sailed in 999 Races.
 Captain W. P. Burton, master of Sir Thomas Lipton's challenger, Shamrock IV, arrived in New York last week accompanied by his wife. Captain Burton declares he has already participated in 999 races. Asked if his wife would accompany him on the thousandth race, as has been reported he said: "Mrs. Burton has not missed any of the 999, so draw your own conclusions." His wife was described by him as being one of the best yachtswomen in Europe. Captain Burton would make no comment as to the probable outcome of the race.

REAL ESTATE IS ACTIVE IN ALL CANADA

Demand is Largely for Improved Properties Rather Than Vacant Lots.

TORONTO, May 13.—Real estate conditions throughout the country and especially in the industrial cities are showing signs of activity on a broadening scale. In every centre of any importance the demand for all form of residential properties is remarkably keen, and prices are steadily on the upward trend. The demand has so far been confined practically to completed buildings, but many homes are being constructed for occupation by owners, and interest is being shown in building lots by those who plan immediate construction or who are looking forward to the time when costs will be on a lower level. Prominent real estate brokers are predicting a boom for all important industrial and commercial centres within the next five years.

The demand for residential properties was never more keen in the larger cities than at the present time. There is an acute scarcity of housing accommodation, but in view of the high prices for labor and materials, efforts are directed mainly toward the purchase of properties on which construction has already been completed. This has had a tendency to boost prices and rents to a high degree. Investors, notwithstanding this fact, still find it more profitable at the present time to purchase than to build. There is a comparatively small demand for vacant lands as yet and prices are moderate.

Industrial Properties.

While the demand for factory properties is in a degree less than a similar situation prevails. More factories have changed hands in Toronto in the past year than in the previous ten years and his reflects conditions as they exist elsewhere. Companies already established are expanding, and opening branch factories in various centres, and many American firms are contemplating the establishment of branches in this country.

As in the case of residential properties the demand is principally for premises already completed, rather than vacant properties. In Ontario there is much speculation as to the effect that the repeal of the Moratorium Act will have upon the prices of vacant lands. It is generally conceded that many who are at present in debt on their property will be unable to hold it longer when mortgage payments may be exacted. The result will be that a large quantity of vacant land will be placed on the market.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, in amount of payments, less 3% taxes on soldiers' pre-emptions.

Interest on agreements to purchase town & city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Association for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

2,000,000 LBS. OF COD CAUGHT IN 1919 SEASON

While cod is probably the largest line of fishing in Newfoundland it is by no means the only one. During the 1919 season no less than 2,000,000 lbs of cod were taken. It must be borne in mind that this represents the catch of Newfoundlanders only. How much was taken away by Canadians, Americans, British, French and other fishermen from abroad it is impossible even to estimate, but the gross total must be enormous.

Newfoundland fishermen also obtained large quantities of herring, lobster and salmon.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre, second-class to \$1.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 4 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 4 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$100 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$100 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 400 acres may be leased by one person or company.

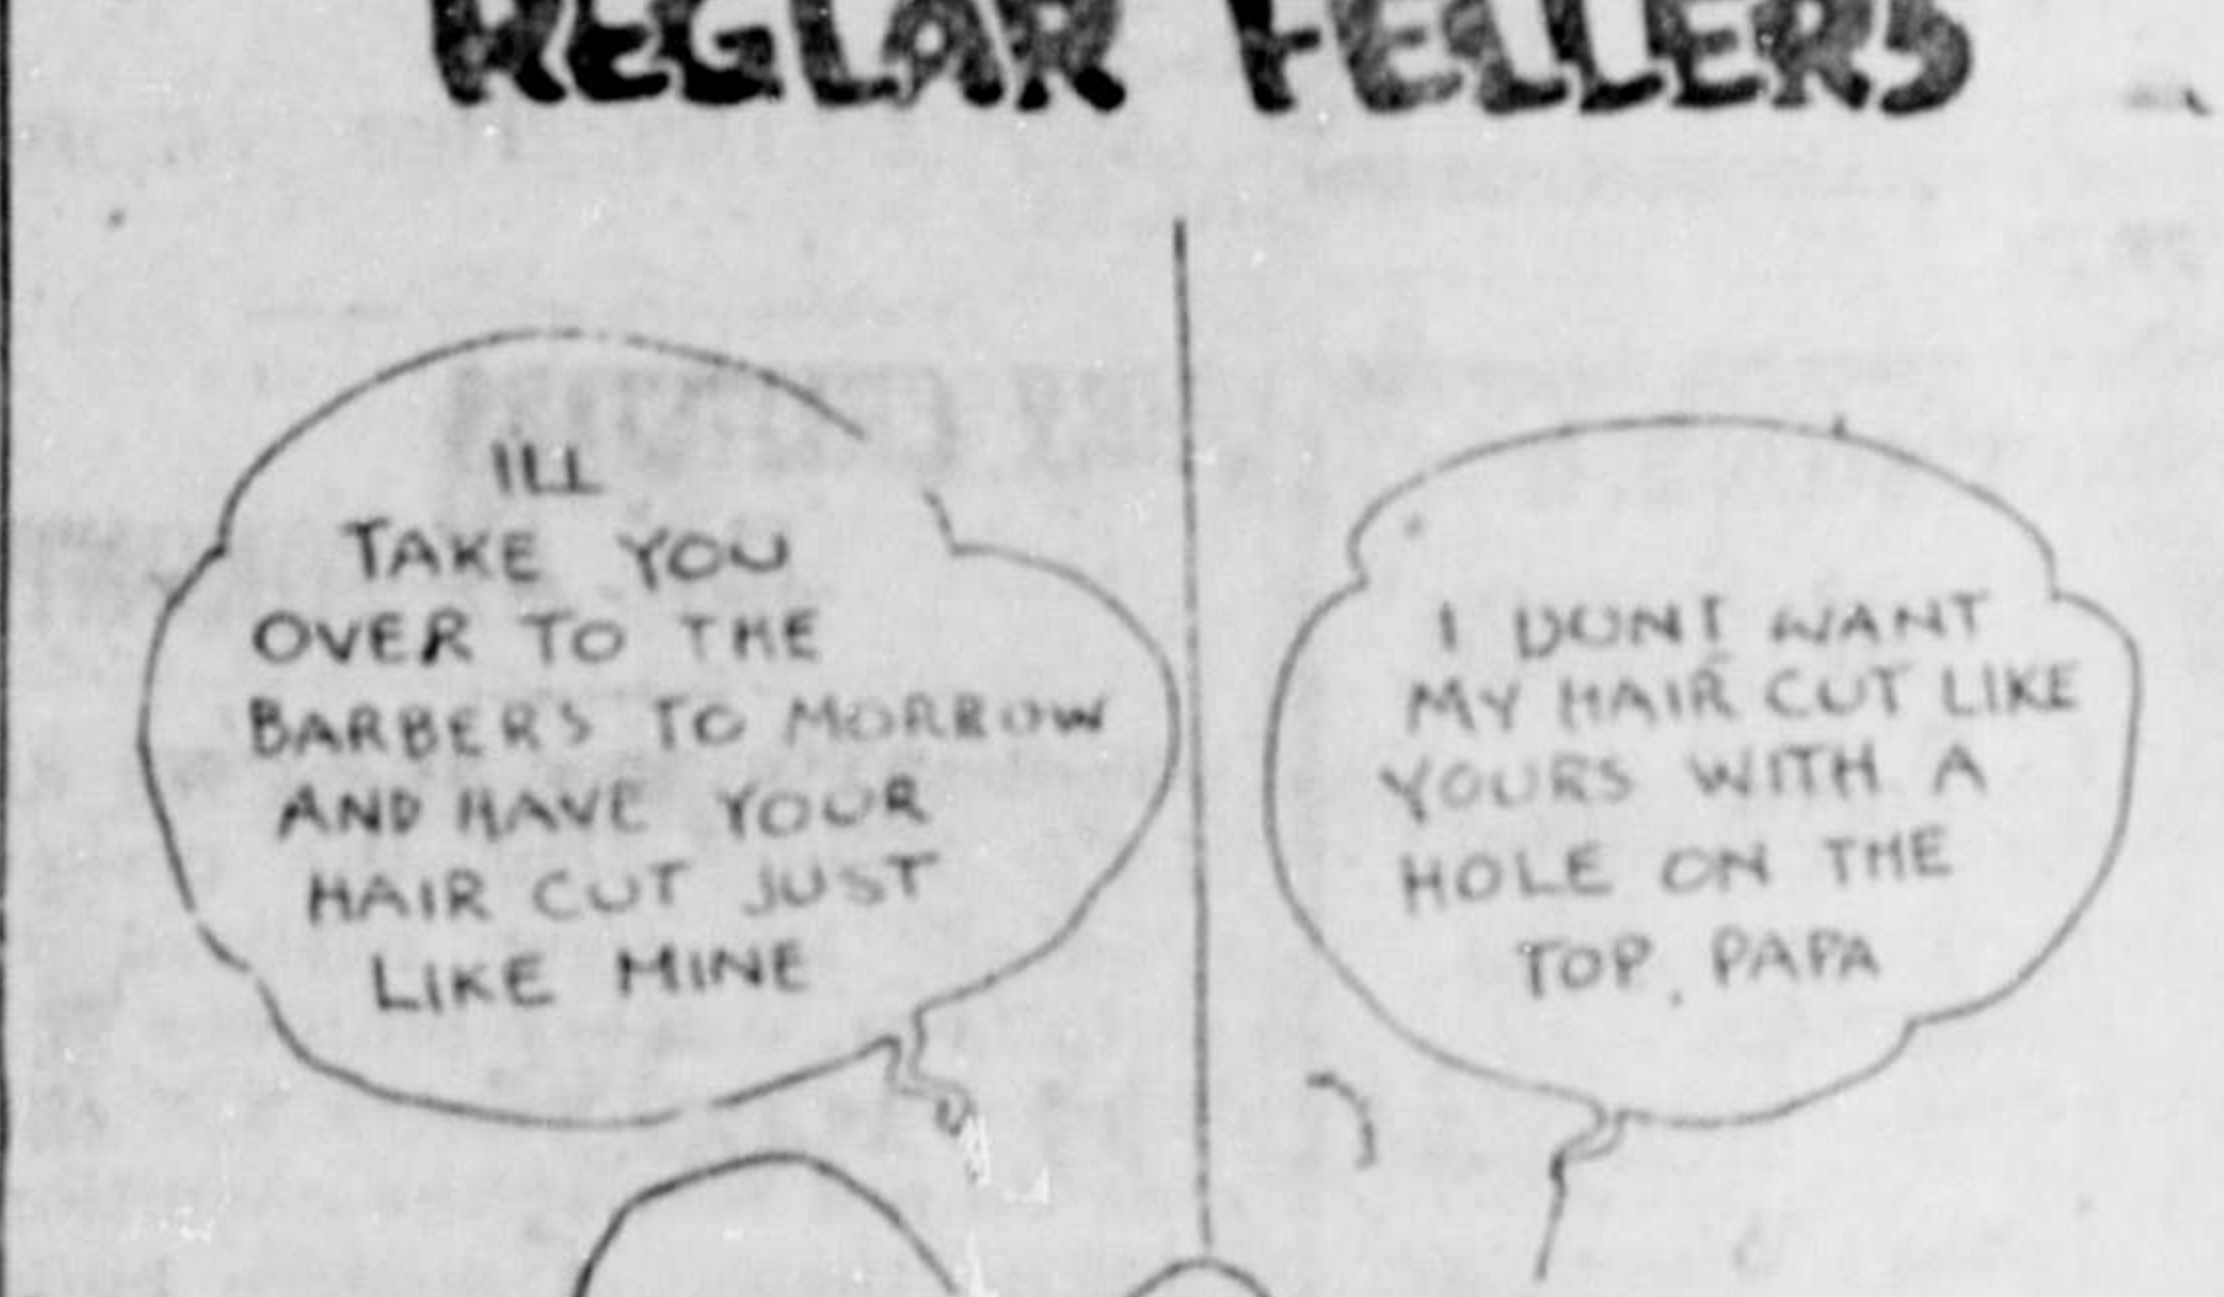

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased, conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.
