ELECT OFFICERS FOR FISHERIES ASSOCIATION

A. L. Hager of Vancouver is the President for Coming Year.

The election of officers for the Canadian Fisheries Association took place here on Saturday, resulting as follows:

President, A. L. Hager, of Vancouver.

Vice-president, J. A. Paulus.

2nd Vice-president, A. Boutillier of Halifax.

Secretary, Capt. F. W. Wallace of Montreal, re-elected.

T. H. Johnson of Prince Rupert who was not present, was nominated for secretary. The election closed the business of the convention.

Directors for B. C. Division:

T. H. Johnson of Prince Rupert, and R. Gosse, J. E. S. Eckman, H. Doyle and H. B. Bell-Irving, all of Vancouver.

Resolutions were passed with a view to having them embodied in new regulations. They include the establishment of a school of fisheries, a Federal Government appropriation for the establishment of a biological board of scientific investigation on the Pacific with a view to the discovery of the life history of the halibut and new fishing grounds; the international standardization of fish names. They asked for legislation providing for the Government standardization and inspection of fish products and canned goods for all who may wish to avail themselves of such regulations.

Capt. Wallace leaves today for Prince Rupert.

FOUR DROWNED PRINCE ALBERT

Went Out in Motor Boat and Failed to Return.

PRINCE ALBERT, June 7.—It is believed that Frank Newton, Anton Gould, Geoffrey Henning and Robert Kinnard were drowned in Stony Lake. They went out in a motorboat on Sunday a week ago and nothing has been heard of them since. On Saturday some wreckage picked up on the lake shore was identified as part of the boat.

OLOF HANSON NOW CONSUL

Will Open Office at Victoria and Represent All B. C.

Olof Hanson has been appointed consul for Sweden for the entire province of British Columbia according to an official announcement. This will necessitate the opening up of an office by Mr. Hanson in Victoria, which he will probably leave in charge of a vice-consul.

Canadian Manufacturers Open Vancouver Convention Today

President says Moderate Labor is Gradually Eliminating Revolutionary Element; Prince Rupert and Shippirg Mentioned

VANCOUVER, June 7.—Two hundred delegates from all over Canada have arrived here to attend the convention of the Canadian Manufacturers' Association which opened here today. The convention will discuss big industrial and financial topics and will consider the Canadian budget which has just been passed by the House of Commons. The session will last for three days. T. P. Howard, of Montreal, presides. Mayor Gale opened the convention this morning.

In his presidential address Mr. Howard discussed the relations of labor and capital and said that the more moderate labor was gradually eliminating the revolutionary element. Greater production was needed to meet the increased taxation and reduce the cost of living.

The president in touching on the question of public ownership, said he was in favor of the public ownership of utilities only where private ownership had proved a failure.

Mr. Howard in discussing the shipping outlook, spoke of Prince Rupert in an optimistic manner in connection with the possibility of shipping on the Pacific ocean.

The eight-hour day was opposed by Mr. Howard as having been proved a failure in France and elsewhere.

ARRANGE FOR FLIGHT FROM N. Y. TO NOME

CZECHO-SLOVAK TROOPS RETURN

March Through Vancouver from Steamer to Railway Station.

First Landing This Side of Edmonton to be Jasper and then Every 350 Miles.

VANCOUVER, June 7.—Captain Howard Douglas, U. S. A., air service, who is here making arrangements for the 2,500 mile jump across the continent from New York to Nome by way of Edmonton, confirms the report that Edmonton is to be the Canadian supply centre and says that four military flyers will make the flight, landing at Jasper National Park and then following the G. T. P. will make landings every 350 miles.

The aim of the expedition is to establish a military air route to Nome, which is only 150 miles from Asia.

BUS SERVICE TO HOT SPRINGS AT LAKELSE

GOVERNMENT PROFITS FROM LIQUOR SALES

VICTORIA, June 5.—The Government's profits on liquor sales for the year ending March 31 were \$733,000, stated Attorney General Farris.

VICTORIA, June 5.—Magistrate George Jay dismissed the case against the two Victoria daily newspapers which were charged with publishing news relating to a rally for an auto at the recent "Hello Victoria Revue" in aid of the hospitals.

CHARGES DISMISSED

Other resolutions advocated the extension of the vocational training facilities, the granting of easy government jobs to badly disabled men and increased S. C. R. allowances. The granting of the vote and other rights to foreigners who had fought for the British in the expeditionary forces was carried after a hot debate by a vote of 24 to 10.

The executive was elected on a zone basis and included Comrade Kelly, who represents zone eleven extending from Vancouver to Alaska and east to Prince George.

POLICE REPORT MONTH OF MAY

Disorderly Houses are Discussed Again; Barristers Urge Formulation of Policy.

The report of the chief of police received by the police commission at its meeting this morning showed a collection of \$2,429 by the department in fines for the month of May. There were 63 cases, with 59 convictions, there being 21 drunks. \$1,600 was collected through fines under the B. C. Prohibition Act. Bread and coal weights were reported to be correct during the month.

The matter of disorderly houses coming up in connection with the report, Commissioner Hill stated that he would not approve of bawdy houses in the city and if he knew of any police officer who knew of such and did not take measures against it, he would move for his dismissal. A letter in the same connection was read from Williams & Manson urging that the commission not show discrimination and that some definite policy either for the allowing or complete eradication of disorderly houses.

ENGLISH WAGE BOARD GRANTS INCREASE

LONDON, June 7.—Fourteen persons were killed and several others wounded and many buildings were destroyed as the result of the touching off of 80 carloads of explosives in a suburban station of Turin last night, according to a despatch received here from Rome.

Eighty Car Loads of Explosives Destroyed Many Buildings.

LONDON, June 7.—Fourteen persons were killed and several others wounded and many buildings were destroyed as the result of the touching off of 80 carloads of explosives in a suburban station of Turin last night, according to a despatch received here from Rome.

LONDON, June 5.—The wage board has granted the railwaymen an increase of two to eleven shillings a week.

Launch Alice B. Phone Blue 548.

Inherited Wealth.

Born at Fort Vancouver, Washington, on July 8, 1915, the son of Robert Dunsmuir, one of the earliest pioneers of the province, James Dunsmuir inherited much of his father's coal and land properties and at the time of his death

was rated as a many times millionaire.

Robert Dunsmuir, the father, was a son of a Scottish coal master and was born at Ayrshire, and educated at Kilmarnock Academy. He married when young and sailed for the Pacific under the auspices of the Hudson's Bay Co. to open up the coal lands in the Fort Rupert district. This project was not entirely successful so in 1854 he turned to the development of the mines on Vancouver Island, that afterwards became the holdings of the New Vancouver Coal Co.

Robert Dunsmuir discovered the Wellington mines and built the Esquimalt and Nanaimo Railway, which was a few years ago taken over by the C. P. R. together with the lands contiguous to it.

Liver Near Victoria.

Of late James Dunsmuir had taken little interest in public affairs, but had lived at his country house at Hatley Park, near Victoria. Mrs. Dunsmuir kept a town house, formerly the residence of Mr. and Mrs. J. H. Todd, and the family took a leading part in the social life of the city.

WAGES OF POLICE

New Scale Adopted at Meeting of Commission this Morning.

The new scale of wages for the police force was adopted at this morning's meeting of the police commission. The increase provides \$195 a month for Chief Vickers, \$160 for Warden Bailey and Sergeant Adams, and \$150 for constables. New men will commence at \$140. Raincoats, boots, uniforms and hats will be provided. A day off once a week is also provided for.

Take advantage of the sale at Tite's Furniture House to buy that Chesterfield.

B. C. Undertakers. Phone 41.

VICTORIA, June 7.—The Government Labor Bureau returns from May 1 to May 29 show the number of applications for employment in Prince Rupert 184, with the number placed at 171. The interior of the province is short of labor.

Tax Payments
In the City.

The decision of the city to insist on the payment of taxes this month in order to secure the rebate, is causing a good deal of worry to some tax payers who object to being mulcted with ten per cent additional when a month or two later they would be able to care for the payments without difficulty.

Not only are the general taxes payable on or before the end of June, but the local improvement assessments have to be paid by the same date. As it is only about eight months since the last taxes were paid, it seems rather like crowding the men who keep the city going financially, to insist that everything be paid up by the end of June or a ten per cent penalty be added. If it is necessary to make the payments come earlier, it should be done gradually, in order that those who pay may be in a position to make arrangements. The present plan is all the more difficult in view of the fact that the banks are not advancing money for clients who would increase their overdrafts.

Close Season
For Halibut.

It seems as if it would be necessary to have a close season for halibut fishing. In the late autumn and early winter the fish are schooling and are easily caught if the weather is good. Then is the time they are about to spawn and fish caught at that time on the banks means that the banks are being robbed, and future seasons made unproductive. Everyone seems agreed that a close season is necessary- extending over about three months.

International
Negotiations Difficult.

International negotiations between the United States and Canada are very difficult. Owing to the irresponsibility of the U.S. executive, it is impossible to make a treaty with that country with any certainty that it will pass into law. In this country when the Premier and his cabinet agree on any course of action, it is practically assured that it will be implemented in legislation.

For many years Canada has been pointing out the desirability of some arrangement for the protection of the salmon in the Fraser and Naas rivers, especially the former. Numerous efforts have been made by Canadians and by some of the interested people in Washington State to have a joint commission or some other method of arranging for the protection of the fish. Up to the present there has been nothing done, however, although several times the matter has been before the United States Congress.

An international commission is of no value unless Congress first gives it executive power. If the scheme has to go back to Congress, there is always some interest sufficiently powerful to overturn it.

Skeena Only
River for Canadians.

The Skeena River is the only large Canadian river on this coast that does not contribute a large part of its salmon to the traps on the American side. The waters of the Fraser, which once teemed with fish, have been almost wholly denuded and that mostly by the fish traps of Washington State. The same process is now going on at the Naas. Very soon there will be no fish in that river, if the present system is continued.

The American experts talk glibly of the desirability of conservation, but when it comes to making an attempt to do anything definite, the big interests on the other side step in and treaties or conventions are annulled by the action of Congress.

Sunday, June 6.

High, 3:40 a.m., 18.5 feet.
16:44 p.m., 17.4 feet.
Low, 10:19 a.m., 4.6 feet.
22:27 p.m., 8.8 feet

Monday, June 7.

High, 4:27 a.m., 17.6 feet.
17:29 p.m., 17.2 feet.
Low, 10:59 a.m., 5.2 feet.
23:18 p.m., 8.9 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

NOTICE.

NOTICE IS HEREBY GIVEN that in accordance with an Amendment to the "Townsite Proportionate Allotment Act" passed at the last session of the Legislature any person holding an agreement for sale from the Crown in respect to the purchase at auction of Town or City lots or lands within the site or suburb of a town payment for which has not been made in full and who wishes to obtain a proportionate allotment upon the cancellation of the original agreement must file application in that respect on or before the 1st day of September, 1920, on which date the privilege of obtaining a proportionate allotment will cease and any person in arrears of payment under an agreement for sale as aforesaid failing to make application as stipulated will thereafter be deemed to have taken advantage of such privilege and will be subject to the amendment of the terms of that act and the provisions of the "Land Act" governing overdue purchase money in connection with which special attention is drawn to the notes appearing in the current issues of this paper.

GEO. R. NADEN,
Deputy Minister of Lands
Department of Lands,
Victoria, B.C.
May 5th, 1920.

CREAMERY AT
VANDERHOOF

Will be Ready to Commence
Operations in a Few Days.

VANDERHOOF, B.C., June 7.—In a few days now the recently established Nechako Valley Cooperative Creamery will commence receiving shipments of milk and cream at Vanderhoof. It has taken a number of weeks to get the plant into operation as the equipment is the best that can be procured for an institution of its size and scope. The establishment of the creamery speaks well for the progressive spirit of the farmers of the district who will by contract take over the plant next year.

This creamery is the only one between Edmonton and Prince Rupert so that its field for cream supply is a very large one. In the district surrounding Vanderhoof a conservative estimate has placed the number of cows at four hundred. Farmers all along the line will be invited to send their produce here. Eggs will be handled from the same point and should furnish a convenient shipping place. Later ice cream will be manufactured and it is expected that Prince Rupert will be one of the largest consumers in this line.

Various Apparatus.

The motive power is furnished by a gasoline engine, but a boiler has also been installed for the pasteurizing of the cream. The rest of the equipment includes a churn with 600 lbs. capacity, and a pasteurizer of the Acme type capable of handling 300 gallons. Amongst the other smaller fixtures are the turbine tester, the acid tester, the butter moisture tester and the cream test scales. All this equipment is new.

Mr. Valentine is the representative of the agricultural department of the Provincial Government here and he is very pleased with the bright prospects. In many places the creameries shut down for the winter. However, it is Mr. Valentine's opinion that after this year the Nechako Valley creamery will be in continuous running, especially if the farmers take up the matter of ensilage as widely as is anticipated.

WAGON BROKE IN TWO
WHEN HORSE BOLTED

Exciting Episode for Passers-by
on Third Avenue Yesterday Afternoon.

With a crash of breaking bottles and the din of empty milk cans, the milk wagon of the Prince Rupert Dairy, R. McKay, came to a sudden end yesterday afternoon on Third Avenue about 3 o'clock. The horse and wagon was standing in front of the Boston Lunch, where the driver was making up his weekly account, when the horse, annoyed by flies, loosened his halter and made a dash across the street and the wagon upset striking the motor truck of the Rapid Transfer which was loading beef at Burns' butcher shop. The horse then became even more frightened and dragged the wagon past the truck and broke it in half, leaving only three wheels intact. When things became quiet the horse was standing on the sidewalk in front of the butcher shop and quite a crowd of Sunday afternoon walkers had gathered. The only damage was the shattering of the wagon and its contents.

Asks for Formation of United
Opposition to Present Govern-
ment at Victoria

VANCOUVER, June 7.—At a meeting of Conservatives here at the week end W. J. Bowser said he hoped the veterans would join with the Conservatives to vote against the Oliver Government. With the independents they could agree on candidates and form a united opposition in readiness for next election.

Mr. Bowser said he believed the ministers' jaunts were a sign of an election.

FISHERIES COLLEGE
NORTH ARM FRASER

That is Proposal Made at Fisher-
ies Convention at Vancouver

VANCOUVER, June 7.—At Saturday's session of the Fisheries Convention it was suggested that a college should be established on the north arm of the Fraser River similar to that at Seattle, which would be eventually linked up with the university. The aim of the institution would be the advance of the scientific end of the industry.

OUTLINE BOUNDARY

J. D. Craig, of Ottawa, the engineer who marked the boundary line from Portland Canal to the Arctic Ocean, was in the city Saturday en route to Stewart to carry on the work. Stone cairns, bronze monuments and a 20-foot lane through the forests will mark the line when the engineers have completed their work. A party of surveyors from the United States working southward from Unuk River will erect marks also until they meet the Canadian party.

SUNLIGHT SOAP

She lets Sunlight do the work

Read Sunlight \$5000 guarantee of purity

Sunlight dispels the shadow that once hung over wash day

In fact many women do not say "wash day" any more. They say "Sunlight Day". It's a genuine pleasure to use Sunlight Soap because it means an economical wash, it means a quick wash. Why? Because, Sunlight is absolutely pure—you need only half the quantity as compared with ordinary soaps, nor will Sunlight harm any delicate fabrics, or hurt your hands. And it really takes the labour out of the washing in surprisingly little time as you will see by following the directions.

Insist on getting the Soap you ask for—**SUNLIGHT SOAP**.

HALL CAINE'S GREAT STORY

Picture at Westholme Theatre is taken from Novel "The Woman Thou Gavest Me."

Hall Caine, considered by many the world's greatest novelist, wrote a great story, "The Woman Thou Gavest Me." From this is taken the picture story that is being shown tonight at the Westholme Theatre. It is a big story with a big theme. Katherine Macdonald takes the leading part.

The story is one of the sacrifice of a girl for a title, of illicit love, according to present day conceptions, and of final happiness after the interested parties have been down into the valley of humiliation. It is full of tragedy and pathos, and is looked on as one of the great films of the day.

SUDDENLY ILL

Chief Vickers Taken to Hospital Following Seizure.

Chief of Police W. H. Vickers was taken suddenly ill in his office on Saturday and was removed to the General Hospital in the afternoon where he underwent an operation. Reports from the hospital this morning say that he passed a fine night and is progressing most favorably.

BIDS FOR BONDS

TORONTO, June 5.—Hon. John Hart has received two bids on \$4,000,000 six per cent, five year bonds.

TIMBER SALE X 2218.

Sealed tenders will be received by the Minister of Lands not later than noon on the 2nd day of July, 1920, for the purchase of Licence X 2218, to cut 6,600,000 feet of Spruce, Hemlock and Cedar on an area adjoining S. L. 1719p, Cutshaw's Inlet, Queen Charlotte Islands District. Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

NOTICE

NOTICE IS HEREBY GIVEN that all persons holding Crown Lands or Lots in Townsite subdivisions, under agreement or sale from whom the purchase money in such lands or Townsite Lots remaining unpaid or overdues are required to pay the same, with interest thereon from the date of this Notice, either of the full amount due, together with interest thereon, if any be due, or a substantial proportion of such amount which may at least cover the full amount of the tax or taxes together with evidence that all taxes, whether Municipal or Provincial, have been paid, failing which the agreements for sale will be cancelled as provided by Section 70 of the "Land Act," Chapter 129, Revised Statutes of 1911.

G. R. NADEN,
Deputy Minister of Lands
Department of Lands,
Victoria, B.C.,
April 1st, 1920.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND.

In the Cassiar Land District, Recording District of Skeena, situate in the vicinity of Lot 1074A, Cassiar.

To take notice that we, Allen Falconer and Albert B. Armstrong, of Alice Arm, B.C., occupations, cartagener, intend to apply for permission to lease the following described lands:

Commencing at a point in the easterly boundary of Lot 1074A, Cassiar, 375.1 feet northerly from the South-East corner of said lot, thence eight angles to said boundary, easterly 175 feet more or less to the intersection thereof with the projection of the westerly boundary of Lot 3643, Cassiar; thence north 57 deg. 11 min. West along projection of said last mentioned boundary to the southwesterly corner of said lot 3643; thence 375.1 feet northerly along the easterly boundary of said Lot 1074A to the point of commencement, and containing ten acres, more or less.

ALBERT B. ARMSTRONG,
ALLEN FALCONER,
by Allen Falconer, Agent.

Dated 12 May, 1920.

NOTICE

The population for the present is about 325 with a school attendance of 86. Two schools have been erected and another one is already considered necessary. The Anglican and Presbyterian churches are both represented here and both pastors are held in great esteem. The Canadian Bank of Commerce is already established and the Royal Bank is opening shortly. Both the Government and G. T. P. telegraph lines come in and this summer a telephone exchange will be established which will further increase the value of the system now in use. An extension will also be carried to Chileo to serve the northern district. Although there is no hospital at the present time, a site has been donated and plans are being got ready for the edifice. Dr. W. R. Stone attends to the medical needs of the people. The G. W. V. A. is a very important organization and has a membership of seventy members. The Farmers' Institute has also done much to advance matters in the interest of the settlers.

ALBERT B. ARMSTRONG,
ALLEN FALCONER,
by Allen Falconer, Agent.

Dated 12 May, 1920.

Shampoo Parlor

In an interesting illustrated article on a trip to the coast and southward to Victoria appearing in the Winnipeg Free Press the following is the description of Prince Rupert:

"We stayed several hours at this quaint town of the fish trade and the shipbuilding industry. Quaint is indeed the name for it, as it is built in the rocks and all the streets are either staircases or bridges. One part of the town is high on the hilltops and another lies deep in the valley. Huge rocks abound and in many cases the streets have been cut clean through them, leaving massive piles on either side."

Vanderhoof Grows with Development of District

Is close to Geographical Centre of Province; Farming is well advanced and Soldier Settlement in Neighborhood; Fishing and Mining

As the central point for one of the largest agricultural tracts in the whole of the province of British Columbia, Vanderhoof has been receiving a great deal of attention during the last few months. The town has been steadily growing and with its large supplementary district should continue to prosper. The present inrush of settlers is certainly indicative of what may be expected in a short time. Naturally the present residents are proud of the fact that only a few miles to the south at Tsinkut Lake a stone monument marks the geographical centre of the province. More and more inquiries flowing in to George Ogston, the secretary of the Board of Trade, and they come from far and near. Although the town came into existence in 1914, the war time conditions held back its progress, but now it is blossoming forth, and last year and this spring the results have been more than gratifying.

Sheep and Cattle.

Mixed farming is generally favored and already some of the ranchers have the full 160 acres under cultivation. Oats, barley, hay and potatoes are the most popular crops at present but the range of possibilities is a wide one. Sheep raising is being tested by George Snell, who came here from Australia. Four years ago Mr. Snell first came into this district and last year his flock increased 130 per cent. This percentage does not include a number of the weaker lambs which were killed off for the betterment of the others.

The claim sets out several particulars. The plaintiffs ask for a declaration of the court that they are entitled to two-thirds of the stock of the Silverleaf Group Mining Company, Limited, held by John M. Irving in trust for Hancock. They claim similar interest in the Prosperity, Carney, Little Joe and Laplander mining claims. They also ask for two-thirds of the money payable by the McLellan Silver Mines, Ltd., to Hancock in connection with the purchase of the Royal Group silver mines, consisting of seven claims in the Kitsault district of Alice Arm.

The only other specific claim is for an accounting of all moneys advanced by the plaintiffs to the defendant for development work in progress on prospects of the United Metals, Limited. All of the many activities of D. J. Hancock are covered, however, in the claim for an accounting of all dealings of the defendant in connection with Alice Arm and for a declaration that Nutter and Pidduck are entitled to a two-thirds interest in them all.

Sturgeon Fishing.

One of the most recent ventures is the commercial fishing of Sturgeon. At the present time the project is only being carried on in a small way with an ice house on the river bank where the fish are stored until a car load has been caught. Already the nets are out and some splendid specimens have been brought out of the water. Later on when the scheme has been sufficiently proved a cold storage will be erected near the track which will also be a great convenience for the shipping of beef.

Iron Deposit.

Mining, too, comes in for its own here and about sixty miles to the south is found one of the best iron ore deposits that have ever come in for analysis. Joe Murray, an old-time prospector, has been out on the hills for many years, and as a matter of fact has never been to the coast. Mr. Murray claims that this deposit is going to be an important one in the future history of the province, since its occurrence is so unique. The silica occurring with the hematite is sufficiently high in percentage to make it self fluxing.

Local Institutions.

The population for the present is about 325 with a school attendance of 86. Two schools have been erected and another one is already considered necessary. The Anglican and Presbyterian churches are both represented here and both pastors are held in great esteem. The Canadian Bank of Commerce is already established and the Royal Bank is opening shortly. Both the Government and G. T. P. telegraph lines come in and this summer a telephone exchange will be established which will further increase the value of the system now in use.

An extension will also be carried to Chileo to serve the northern district. Although there is no hospital at the present time, a site has been donated and plans are being got ready for the edifice. Dr. W. R. Stone attends to the medical needs of the people. The G. W. V. A. is a very important organization and has a membership of seventy members. The Farmers' Institute has also done much to advance matters in the interest of the settlers.

The Canadian Manufacturers' Association

(Incorporated)

The Canadian Manufacturers' Association, the National Organization of the Manufacturers of Canada, will hold its Annual General Meeting at Vancouver, B.C., on June 7th, 8th, 9th and 10th next. In order to give some information in regard to the history, objects and organization of the Association the following statement is being published.

HISTORY OF THE ASSOCIATION

THOUGH the history of The Canadian Manufacturers' Association goes back as far as 1872, for many years it consisted of local organizations in two or three principal industrial centres and its activities were necessarily provincial, with the result that, in 1899, when it was launched as a national organization, its membership was only about 300. It was incorporated by Act of Parliament in 1902. By 1905 its membership had grown to 1,604; by 1910 to 2,450; by 1915 to 3,098, and the present membership is 4,100. From a few isolated groups with no common policy, the Association has developed into a national organization extending from coast to coast.

OBJECTS

According to the Constitution "the objects of the Association shall be to promote Canadian industries and to further the interests of Canadian manufacturers and exporters, and to render such services and assistance to the members of the Association, and to manufacturers and exporters generally, as the Association shall deem advisable from time to time."

While the Association has adhered constantly to these objects it has not confined its energies entirely to their pursuit. Through its president, its council, its committees and its members, and its general activities as an incorporated body, it has striven not only to promote and safeguard the interests of its members, but also to contribute in every possible way to the national welfare.

QUALIFICATIONS FOR MEMBERSHIP

Any individual, firm, partnership or corporation, carrying on in Canada, under his or its own name, a manufacturing business that gives employment in its mechanical department to not less than five employees, shall be deemed to be eligible for active membership.

GOVERNMENT OF THE ASSOCIATION

The government of the Association is thoroughly democratic and is based on the theory of responsible government. All members of the various governing bodies are elected. Any member is eligible for the position of president and any member can nominate whom he pleases for any office.

The organization of government is described briefly as follows:

1. Annual General Meeting. The annual general meeting called in June is the supreme governing body. Each member has one vote irrespective of the size of the firm he represents and all policies submitted at the annual general meeting are determined by open voting.

2. The Executive Council. The Executive Council is elected by ballot on the basis of one member of the Executive Council to every fifty members of the Association. The Council governs the Association between annual general meetings.

3. The Executive Committee. The Executive Committee is a small committee elected from the Executive Council, having functions similar to those exercised by a board of directors.

4. Standing Committees. The following Standing Committees are elected annually:

Transportation Committee	Membership Committee	Commercial Intelligence Committee
Tariff Committee	Insurance Committee	Committee
Legislation Committee	Industrial Relations Committee	Publishing Committee

These Committees supervise the work of departments bearing the same name and report to the Executive Council.

5. Officers. The Officers of the Association are:

President Second Vice-President

First Vice-President Treasurer

They are elected each year at the general meeting.

6. Staff. The salaried staff consists of a general manager, general secretary, department managers, secretaries and clerical assistants.

SPECIALIZED DEPARTMENTS

The Head Office of the Association is situated at 1404 Bank of Hamilton Building, Toronto. The Association maintains a number of specialized departments which furnish members with various services. These departments are described as follows:

1. Transportation Department. This department advises members on all matters affecting rail and water transportation, and also telegraph and telephone communication.

2. Tariff Department. This department advises members in regard to rulings, decisions and regulations of the Board of Customs, Orders in Council, entries, post entries, dump duties, refund, drawbacks, seizures, etc. It studies the tariffs of other countries in order to advise exporters in regard to foreign tariff rates and invoice requirements.

3. Insurance Department. This department gives expert advice on all matters pertaining to insurance. It also devotes special attention to the study of fire prevention.

4. Legal Department. This department studies Industrial and Commercial Law.

5. Commercial Intelligence Department. This department keeps up to date a list of all Canadian manufacturers and the articles which they make. It seeks to inform members of opportunities to sell goods, both at home and abroad, and also to furnish information where raw material may be bought.

6. Industrial Relations Department. This department studies questions relating to Industrial Relations between employers and employees such as welfare, industrial councils, wages, hours of work, and conditions of labor. The Association does not interfere in strikes or other labor disputes.

7. Trade Sections Department. Through this department problems of specific lines of trade are studied.

8. Publishing. The publishing department attends to the work of issuing all publications.

9. Education. The Association has always tried to improve the standard of education in the country especially that of technical education.

10. General. The Association encourages all kinds of research. At the present time special committees are dealing with such problems as the development of an adequate fuel supply in Canada, production, industrial and scientific research, and technical education.

DIVISIONS

For administrative purposes the Association is divided into five divisions.

1. Maritime (Nova Scotia, New Brunswick, and Prince Edward Island) Division office, Amherst, N.S.
2. Quebec (Quebec Province) Division office, 113 Board of Trade Building, Montreal.
3. Prairie (Manitoba, Saskatchewan, Alberta) Division office, 503 Northern Crown Bank Building, Winnipeg.
4. Ontario (Province of Ontario) Division office, 1404 Bank of Hamilton Building, Toronto, Ont.
5. Pacific (British Columbia) Division office, 705 Board of Trade Building, Vancouver, B.C.

The Association also maintains an office in the Booth Building, Ottawa.

Workers employed in Canadian factories and their families and dependents number over two millions. The value of products manufactured in Canadian factories this year will be about four billion dollars.
