John Oliver Talks to Manufacturers

STAGE IS SET FOR CHOOSING REPUBLICAN CANDIDATE AT CHICAGO TODAY

Premier Oliver Urges Need Humanizing Industry; Greed He said was Cause of Strikes

Honest John had heart to heart talk with Manufacturers at Vancouver and urged Developing Better Condition of Workers

VANCOUVER, June 8.—Premier John Oliver, in addressing annual gathering of the Canadian Manufacturers' Association yesterday, plunged into the big question of industrial unrest and handled it without gloves. He drove home a number of truths in a place where he thought they were needed to be emphasized most. The manufacturers being large employers of labor, the Premier urged on them the need of humanizing industry. He said that the greed of capitalists was often the cause of strikes. While it was a good thing to develop the resources of the country, it was also necessary to develop a better condition among the workers. Wealth should be properly used, not flaunted in the face of poverty. He warned his hearers that continued unrest was a danger and that its fomentation may lead to a crack in the industrial life of the country.

MUCH FISH IS AWAITING SALE

Five Cars Arrive Tonight and Catches Probably Turn Over This Afternoon.

One hundred and seventy-five thousand pounds of fish is lying at the fish wharves awaiting sale at the fish exchange. Five cars are expected in on tonight's passenger train so that the fish may be turned over this afternoon. Besides halibut there are considerable quantities of salmon being landed, the most of which is taken by the Canadian Fish & Cold Storage Co.

The following were the boats awaiting sale at the fish wharves at 2 p.m. today:—Rennell, 12,000 lbs; Ingred, 8,000; Agnes B., 6,000; Sunrise, 8,000; Fanny F., 3,000; Caygeon, 7,000; Davey, 19,000; Nidaro, 20,000; Kinmount, 3,000; Nottad, 3,000; Speculator, 9,000; Reliance, 13,000; M. & L., 5,000; Viking, 6,000; Texas, 4,000; Ringleader, 11,000; M. ALDERMAN ROCHESTER WILL NOT PASS BILL

Mrs. Delmonico Rode to and from Shawatlans, Costing City \$10 Launch Hire.

In an inquiring mood last night, Alderman Rochester asked what had happened to the boat that the city had on the harbor to run people backwards and forwards from Shawatlans Lake. His inquiry was based on the fact that on looking through the accounts of the Utilities Department he had noticed boat hire bills from local launches. He had understood that when the city bought the boat for the harbor these would be no more.

Inquiry by the mayor elicited the fact that one bill in question that appeared rather unreasonable was for taking a woman, Mrs. Delmonico, to and from Shawatlans by the Dixie Rupert. The bill for \$10 had been passed through the accounts for the Utilities Department and Alderman Rochester, as chairman of the Finance Committee, has refused to sanction payment of it.

Alderman Perry stated that, as chairman of the Utilities Committee, this was the first intimation that he had that such things were going on in the department. He stated that he would cause an enquiry to be made into this particular point in question.

IMMENSE GROWTH OF TRADE WITH ORIENT

Centre shifting from Atlantic to Pacific says Capt. Robert Dollar to Manufacturers' Association; now 39,000,000 Tons

VANCOUVER, June 8.—At the convention of the B. C. Manufacturers' Association here yesterday Captain Robert Dollar of the Dollar Steamship Line said the centre of world trade was coming to the Pacific. Gradually the west was building up and people on the other side of the ocean were demanding American and Canadian goods. Twenty-six years ago only 7,000 tons of freight across the Pacific Ocean, whereas in 1919 the total was 39,000,000 tons. The growth had been phenomenal.

Captain Dollar urged strong and concentrated efforts to develop the Canadian-Oriental business.

A. E. Bryan, Canadian Trade Commissioner to Japan, who a few days ago spoke of the need of developing the route to the Orient by way of Prince Rupert, said that Canadians greater salesmanship efficiency. With live methods, there is limitless Oriental trade offering.

There were both afternoon and evening sessions of the convention. A strong sentiment is being developed to bring the East and West together. There is a plan for a conference with a view to an amalgamation of the B. C. and Canadian manufacturers.

Likely President Is Being Chosen

Big Republican Convention in Session at Coliseum, Chicago, to Pick Candidate for Big National Convention

CHICAGO, June 8.—Hours before the doors opened into the big coliseum, thousands of persons were waiting hoping to get in for a look at the un-housed Republican National convention. Only a fraction of those who applied for seats could be admitted, however, despite the capacity of the building which seats more than 2,000.

Senator Borah in a speech charged that big business was trying to buy the United States presidency. The Republicans hesitated to give any pronouncement on the treaty proposition.

Lowden, Johnson and Wood are the big three, with Hughes a dark horse in the Republican lineup.

NEW YORK, June 8.—Johnson on the Republican and McAdoo on the Democratic side are still held the favorites in the Wall Street betting on the presidential race. The big Chicago convention which is under way today is the centre of interest. Wood, Lowden and Johnson are all strong candidates.

Passing of Governor.

The passing of James Dunsmuir, one of the rich men of the province, possibly the richest, brings to mind the part that the Dunsmuir family have taken in the development of the province. Robert Dunsmuir came to this country to develop certain coal fields and failed. He made no noise about it, but turned his attention elsewhere. Vancouver Island was his point of adventure this time and he set to work on the coal fields, which have proved very rich and which not only made him rich, but also have been the means of support of many thousands of people. He put Vancouver Island on the industrial map.

There were other things Robert Dunsmuir did besides coal mining. He built seventy miles of railroad on Vancouver Island. True he was given immense tracts of valuable land as well as coal fields for doing it, but at that time no one else was prepared to go ahead with the road, and the people of the Island were immensely pleased at the opportunity to get the road built, even at the price paid. It is also true that the railway lost money for the owner from the time it was built, practically until it was eventually sold to the C. P. R.

It must not be forgotten that Robert Dunsmuir was not alone in his ventures. He had a wife who, it is said, had a better head than he. She co-operated with him and helped him to hold on to his money so that he was enabled to carry out the larger schemes. The influence of women in this connection is often forgotten. The men get the credit.

Different Man From His Father.

James Dunsmuir did not inherit much of the initiative of his father or the tenacity. He, however, kept the development going that his father had commenced. He was a pretty good business head and he made the coal mines pay. The Comox properties were developed to such a point that, when the boom days came, he was able to sell out to the Mackenzie & Mann interests and the Canadian Collieries concern was formed, a concern which was unable to pay dividends for a number of years on the immense capitalization under which it groaned. Dunsmuir received ten millions for the mines and he paid a million dollars commission on the sale to B. J. Perry, B. T. Elliott and others of Victoria, who put through the deal.

It was before the mines were sold, however, that the political condition of the province was in a chaotic condition. Governor McInnes had called on Joseph Martin to form a cabinet and Martin had taken a number of small nonentities in as ministers, much to the disgust of the people. He appealed to the country and was beaten. Then there seemed no political Moses in sight. The province was in bad condition financially as well as politically, and, as a last hope, the people turned to James Dunsmuir. He formed a Government, and, although it lasted but a short time, it served the purpose of giving the people time to think. That was Dunsmuir's only political venture. Later he was appointed lieutenant-governor of the province, a position which he filled with dignity. Then he disappeared from public view and lived the life of a recluse at Hatley Park, Colwood. His family, however, kept the name of Dunsmuir in the limelight socially, although it is fast disappearing as the young ladies are adopting other names.

Sterling Character of 19th Century Type.

James Dunsmuir was not an outstanding figure, but he was a type of man who was able to take advantage of the conditions that arose and to watch his own interests. His employees who knew him personally were very loyal to him and he was always true to them. For the later developments of political and social life, however, he had little sympathy, or if he had, he never showed it. He was a man of the nineteenth century, not of the twentieth. His passing will not affect the world to any great extent.

Ten Years Ago in Prince Rupert

JUNE 8, 1910

The Port Simpson arriving this morning brings news of a disastrous fire at Port Essington last night in which the English Church, three stores and several other buildings were destroyed in a fire originating in a Chinese dive. Captain Jackman and the crew of the Port Simpson did valuable work in finally extinguishing the blaze.

The Prince Rupert Mining Stock Exchange opened this morning with J. B. Talpey as official caller. The first bids were rather timid, but the buyers soon became warmed up to active business.

The district to be served is from Fulton Street west to Eighth Street and from Fraser Street south to the waterfront. The expense will be met by the \$25,000 granted by the government.

A verdict of self-inflicted death caused by intimidation is the coroner's jury verdict over the body of the late Mrs. Alexia Bianco, Blackmail is said to have been the indirect cause for the deed.

SANITARY INSPECTOR REPORTS TO COUNCIL

City is in Clean Condition; Capability of Garbage Wagon Chaffeur Questioned.

The report of the sanitary inspector for the month of May was read at last night's council meeting and adopted with remarks of satisfaction around the council board. During the month of May 131½ tons of garbage had been collected, 37½ tons of this being from vacant lots. There had been 500 feet of new ditching in Sections 5, 6 and 7, and, although some sewers in Section 1 were not yet satisfactory, the city was in a fairly clean condition. The inspector had made 325 calls and rat poison had also been laid down.

In speaking to the report, Ald. McLennan impressed that dairies should especially receive careful inspection. The mayor stated that the dairies had been inspected since the report had been made.

Alderman Rochester took exception to the appointment of A. McKinnon as driver of the garbage car on the ground that he was not a competent chauffeur and was liable to wreck the car as well as endanger the lives of the men riding on it. It was moved by Alderman Rochester, seconded by Alderman Perry, and carried that the Board of Works investigate the capabilities of Mr. McKinnon as a driver.

FREIGHTER AMUR BEING OVERHAULED

VICTORIA, June 5.—For the first time in what waterfront sages claim to be a period of at least six years, the old freighter Amur is here for overhaul. She is now in the Esquimalt graving dock, with the workmen of the Yarrow plant giving her an extensive overhaul which will take about eight days, and she will also have a new propeller fitted.

The Amur has been overhauled in recent years at Seattle. She is now owned by the Griffiths interests of Seattle and is engaged between Tacoma and Anacortes, carrying ore and towing barges of ore from the Northern mining town. Captain Snoddy, well-known skipper on this coast, is in command. Before going into this service she was one of the B. C. Coast Steamship fleet and ran to Northern ports. She came here in the early days.

The Friendly Smoke

There is something mighty comforting and satisfying about "OLD CHUM" Tobacco; a sort of soothing restfulness that pipe smokers have come to associate with this friendly smoke.

"OLD CHUM" is an old, old chum with all pipe smokers.

It has the perfect tobacco taste—the mellow richness—and men know that they can be chummy with "OLD CHUM" all day long and that the "good night pipeful" will be as sweet and cool as the one enjoyed just after breakfast.

For years and years "OLD CHUM" has been Canada's favourite pipe tobacco and today is more popular than ever.

A building has been erected on the Lake Road for the brickyard. A large quantity of clay is close at hand.

Little's Sawmill had a close call from being destroyed last week when fire was unaccountably started in the sawdust dump and gradually crept towards the conveyor. A portion of the conveyor and fence was burned and the sparks started a fire on the roof. With the assistance of the townspeople and the use of chemicals the fire was brought under control and put out.

The schedule has been arranged for the local tennis tournament and the games commenced last week.
