PRICE FIVE CENTS

Russian Soviet Pays Britain Much Gold

MANUFACTURERS' ASSOCIATION STRONG FOR ADEQUATE PROTECTIVE TARIFF

Trade Agreement is Made With Russia by Great Britain

Individual Concerns Commence Dealing with Russia Immediately; That Country to Pay \$300,000,000 in Gold

LONDON, June 9.—Under the British agreement with Russia following the conferences between Premier Lloyd George and Gregory Cassin, who came to England for that purpose, it is arranged that individual commercial concerns can commence doing business with Russia at once. Under the agreement concluded with Cassin, Russia is to pay the Bank of England \$300,000,000 in gold, which is now in Moscow. Further, under the arrangement Lenin agrees to abstain from further overt acts against British interests and to release British prisoners now held by the Russians.

Two Trains Blown from Tracks in North Dakota During Electric Storm

ST. PAUL, Minn., June 9.—Two persons are dead and one is wiped out as a result of an electric storm which swept both Dakota and Northern Minnesota today. Several trains were wrecked through the ferocity of the wind. Northern Pacific Number 1 passenger train was blown from the track at Foxholme, Minn., and a freight train was blown from the track at Gardner, Minn. Scores of persons are injured, but so far only two deaths have been reported.

Fortunately it is too early in the season for any very serious injury to crops over a large area.

EMPSEY TRIAL USED BAYONET SHOWS INCOME ONLY \$2,500

Man Decoyed by Woman and Two Men in Vancouver and Then Robbed.

WOMAN SAYS SHE WAS SOLD TO HER HUSBAND

Boston Declared He Had Wife, Widowed Sister and Two Children Depending on Him.

SAN FRANCISCO, June 9.—Evidence given in the trial of Jack Dempsey, heavyweight champion boxer who is being tried here for draft evasion, showed that the boxer in a questionnaire declared that the champion's only income in 1917 was \$2,500. That payment was made to his wife and widowed sister and her two children, all of whom were dependent on him.

Other evidence given showed that income was received by the parties mentioned.

The trial is continuing.

FINDLAY REMAINS IN JAIL AWHILE

Efforts to Have Him Released are Without Avail at Present.

OTTAWA, June 9.—The cabinet refuses to release W. J. Findlay who is serving time in the penitentiary for theft of liquor following other irregular acts in connection with the importation of liquor into the province. Findlay was prohibition commissioner.

CAUGHT SMUGGLING

SEATTLE, June 9.—Seven city police officials were fined \$500 each this morning for smuggling liquor into the States from Canada.

Earl McLeod has been appointed first pilot navigator.

ARRIVAL OF FISH PEOPLE

Being Entertained Today by Cold Storage Co.—Luncheon in Central Hotel To-morrow.

The delegates of the Fisheries Convention held in Vancouver this week, who are returning east by way of the Grand Trunk Pacific Railway, reached the city by the Prince Rupert this morning and are this afternoon the guests of T. H. Johnson, manager of the Canadian Fish & Cold Storage Co. They are being shown about the big plant and are getting first-hand information as to the carrying on of the fish business there. Various entertainment has been planned for them during their stay in the city and tomorrow they will be guests of honor at a Board of Trade luncheon in the Central Hotel. A number of ladies also comprise the party and they are being received by Mrs. T. H. Johnson and Mrs. Thomas McClymont. The party leaves for the east on Saturday morning's train.

Among the group who arrived here this morning are J. A. Paulhus, first vice-president of the Canadian Fisheries Association and manager of the D. Hatton Co. of Montreal, and Mrs. Paulhus; F. Wallace, secretary of the Canadian Fisheries Association and editor of the Canadian Fisherman of Montreal, Mrs. Wallace, Jr., and Mrs. Wallace, Sr.; J. T. O'Connor, of O'Connor's Market and member of the executive of the Association, Montreal; James H. Conlon, officer in charge of publicity and transportation branch of the Department of Fisheries, Ottawa.

Mr. and Mrs. Frank James will arrive by the Prince George on Saturday. Mr. James is the son of F. J. James, of Toronto, head of the firm bearing his name. Mr. McIntosh, of Ottawa, will also come through here on his return east.

Alderman Dybhavn, the municipal delegate to the convention, returned to town this morning. George W. Nickerson, the Board of Trade delegate, will probably be back on Saturday. Mr. Dybhavn was no sooner off the boat this morning than he had to rush over to his Royal Fisheries plant and get a car of halibut off for the east.

MANUFACTURERS ELECT OFFICERS FOR YEAR

J. S. McKinnon New President; Tariff Board is Urged.

VANCOUVER, June 9.—(Noon.) J. S. McKinnon, of Toronto, has been elected president of the Manufacturers' Association. The directors for the B. C. division are F. E. Birk, E. W. Hamber, W. S. Leckie, and J. J. Coughlan.

The convention urges the appointment of a tariff board to advise the Government.

AGAIN GIVES FORTUNE TO CHARITY

NATHAN STRAUS.

It has been said that "charity is good for the health," and so it must be for Nathan Straus, well over seventy years of age, as spry as a man of thirty or forty. One hundred thousand dollars to Nathan Straus is more than ten million dollars to John D. Rockefeller, who has also given millions to charity. In proportion to the wealth of Straus he gives more than anybody else in the country. Recently a gift by Mr. Straus of \$100,000 for the Medical Research and Health Service Department of the University of Jerusalem was announced. Mr. Straus said:—"I want to say one word about the charity I have done. I do it the same as a drunkard drinks—I do it because it makes me feel good. I have not done my full duty by the Jews, but I have toward the Christians. Of the money I have spent, and I have spent a good deal more than I have left—ten-tenths of it went for the Christians and I am very glad of it. As soon as we get to Palestine we will show the world how liberal a Jew we are when he is in command."

Golshiesh Mines Shipping Ore to Smelter at Anvox

Assay of One Sample Gave Values Aggregating \$3,721.15 a Ton of Silver and Gold; Bunkers Being Erected

ANYOX, June 9.—Several small shipments of ore have been made recently from the Golsheisheh mines at Silvester Bay about three miles from here. The ore is rich in silver and gold and there is good prospect of the mine becoming a very important one. It is under the able management of W. Heideman, an experienced man who has charge of similar operations at other mines.

The ore is not only a number one fluxing product, but carries a content in silver and gold, that is worthy of being rated high-grade. Two assays so far of this ore have been made, and the second assay gave in values, gold, \$82.44 and silver, 69.95, making an aggregate value per ton of \$3,731.15. The work is being pushed into shape rapidly, and the prospects are bright with respect to the full development of the property, at an early date. Stripping along the blossom of the vein has been done for a distance of three hundred feet which is exposed for a distance of 1,500 feet, and the vein has a width on an average of six feet. A number of men are at present employed in the work of developing the Tite's Furniture House to buy property, and preparing the foun-

dations at the water's edge for the erection of ore bins, wharf, and the installation of a three-drill compressor. In addition, a new tunnel is being commenced at an elevation that will permit of the ready delivery of the ore from the mine directly into the bins, from whence it will be taken by scows to the smelter at Anvox. This is another property of promise, added to the many valuable mining properties of this particular section.

Take advantage of the sale at Tite's Furniture House to buy

Manufacturers Ask for High Protective Tariff

Report of Committee outlining this is Adopted at Convention; Class Group Legislation is Deplored by Speaker

VANCOUVER, June 9.—Before the Manufacturers' Convention on Thursday, S. R. Parsons of the British America Oil Co., Toronto, deplored the growth of class groups in legislation. He said that if the farmers and laborers continued the practice of sending special representatives to Parliament, the manufacturers must do the same.

The report of the Tariff Committee, which was adopted, urges tariff protection for Canadian industries. Practically all the nations of the world fence their borders by protective tariffs

and the report advocates that Canada do the same. The overwhelming commercial weight of the United States must be considered in framing legislation. Last year each inhabitant of the United States bought Canadian goods worth \$4.21, while each Canadian bought United States goods valued at \$102.62. The tariff induced American industries to establish branches in Canada. The policy of the Manufacturers' Association is that there shall be a Canadian customs tariff adequate to conserve and develop the natural resources of the country.

MAKING PLANS CELEBRATION DOMINION DAY

Committees Named and Progressive Arrangements at Sons of Canada Meeting Last Night.

At the meeting of the Dominion Day Celebration Committee in the Sons of Canada rooms last night, various matters pertaining to the celebration were taken up, committees were appointed and reports received. The feeling was very enthusiastic and a number of societies have joined hands with the Sons in their efforts in making the day one of the most successful yet held in the city. Carrying out the various sports, securing a band, furnishing 1,000 flags for the school children, advertising and fire works will require a sum of \$1,200. It is intended to raise this by public subscription and by admission to the games on the Acropolis grounds.

Ketchikan Coming.

There will be more games than ever this year and between baseball and football there will be something on at the sports grounds almost all day. The cup of the Prince Rupert Amateur Football Association are to be pulled off and the annual double-header with Ketchikan at baseball will prove as interesting as ever. The Ketchikan-Rupert game has been the sport event of every year for some time and is more than ever so this year. A special boat will be run to the Alaskan city to bring the baseball players and the crowd of fans that always takes advantage of the excursion. For the football medals \$50 was last night voted to be turned over to the Football Association.

Celebration Officials.

W. E. Thompson has been elected chairman of the celebration, George Johnson, secretary, and W. D. Vance, treasurer. The sports committee comprises B. F. Self, J. R. Beatty, Harry Love, Harvey Fraser, Charles Blythe, R. Shockley, S. D. Macdonald, Harry Bigen, and J. Day Bell. On the finance committee are J. R. Beatty, Fred Gilhuly and Stanley Parker. The advertising committee consists of B. F. Self, S. D. Macdonald, and George Johnson. Decorations are in charge of Harry Breen, Jack Knight and J. Day Bell.

The closing feature of the day's celebration will be a grand ball in the St. Andrew's hall and arrangements are now under way for it.

Young and E. S. Adkins arrived from Alice Arm yesterday morning.

REPUBLICANS CONSIDER THE PEACE TREATY

League of Nations Likely to Cause Trouble in Convention.

CHICAGO, June 9.—The League of Nations issue may be thrashed out in public view at the Republican Convention here. The drafting of the treaty plank in the platform of the party is likely to be unsatisfactory to the Johnson-Borah wing of the party.

The color ery is being raised by the delegates from Tennessee and is causing worry to party managers.

FIGHT FIRE SAVE TOWN

Men, Women and Children of Boston Creek Try to Stop Ravages of Flames.

COBALT, June 9.—For three days and nights forest fires have raged in this district and during all that time men, women and children of Boston Creek have battled bravely to save the town. The undergrowth in the woods is dry as tinder and it is difficult to stop the onrush of the flames.
