DRAMA AND COMEDY AT MAJESTIC THEATRE

The Majestic Theatre presents a powerful two-reel drama entitled "His Nemesis," tonight and Monday. This is followed by a laughter-provoking comedy "At The Mask Ball." "The Heart of Jim Bruce" is a drama of great human interest, while "The Pollywogs Picnic" is a screaming comedy.

No matter how warm the weather is, the Majestic is always delightfully cool and airy, thanks to the new system of ventilation.

VANCOUVER RATEPAYERS AND GOVERNMENT LOAN

(Special to The Daily News.)

Vancouver, July 3.—The Central Ratepayers Association passed a resolution urging the city not to accept a loan from the government for relief work. The association claims that the government should look after the men who are out of work.

FOOTBALL

In a league game at Recreation Park last night, the Merchants football team defeated the Drydocks by 3 goals to 2. It was hard luck on the ironworkers that they had to face a stiff league game so soon after a strenuous cup final, as several of their players were obviously suffering from the effects of Thursday's encounter. The play was never of a very high order, many chances being missed by both sides. Mr. Eardley, who refereed, had the game well in hand from the start, and did not tolerate any rough work.

GERMAN AMERICAN FANATIC ATTEMPTS TO KILL J. P. MORGAN

**ASSAILANT HAD MADE ELABORATE PLANS FOR ESCAPE BUT
IS FELLED BY BUTLER--MR. MORGAN'S WOUNDS
NOT SERIOUS--A BOMB OUTRAGE AT
WASHINGTON**

(Special to The Daily News.)

New York, July 3.—J. P. Morgan, who is chief purchasing agent for the British government in the United States, was attacked and shot twice at his country home at Glen Cove, L. I., last night by a fanatic who claims to be F. Holt, an instructor in German at Cornell University. The assailant said he felt that it was his duty as a christian gentleman to kill Morgan if he could not induce him to end the war.

The wounds are, fortunately, not serious. The assailant is injured, having been felled by a coal box thrown by the butler. A

satchel was found at the door, filled with dynamite. The assailant is of German descent. He had numerous railway tickets which he had purchased in order to effect his escape by any road, and had a fast auto waiting. His hand bag bears the name of Schwartzheimer, but his real name is said to be Marcoe.

Bomb Outrage.

Washington, July 3.—The public reception room at the capitol was wrecked by a bomb at midnight. A letter to the Times, posted early in the evening, said that the writer, R. Pearce, would do the deed as the crowning act of his career.

MAJESTIC STOCK CO. AT WESTHOLME THEATRE

The Majestic Stock Company will present the great racehorse comedy drama "Wildfire" at the Westholme on Monday.

In "Wildfire," the greatest racehorse comedy drama of the age, made famous by Lillian Russell, the owner of a string of horses, the John Duffy stables, dies, leaving his widow, Mrs. Henrietta Barrington, with his horses but without money.

Her only chance to get money which she needs, is to enter "Wildfire," one of the horses, in the Ocean stakes. She is compelled to do this secretly, because her sister is engaged to the minister, who is opposed to horse racing.

It is a fine and interesting theme, as presented by the Majestic company, and in the end John Garrison, played by Fred Cantway, wins the hand of Mrs. Barrington; "Wildfire," of course, wins the race and money and everything finishes in a way that makes glad the hearts of the spectators.

In addition to the fine parts played by the leading lady, Miss Vane Calvert, and Mr. Cantway, special attention may be bestowed upon W. W. Craig, as the trainer of "Wildfire," who thwarts the efforts of the alleged John Duffy to fix the race, and of Charles E. Ellis, as Bud the stable boy. The show will commence at 8:30.

A party of Alberta school teachers came in on the train last night and left for the south on the Rupert.

R. F. Green, member for Kootenay in the House of Commons, and George H. Hubbard, representing Victoria in the house, came in on the train last night and went south this morning.

G. L. Clayton's cold storage proposition was brought before the Board of Trade last night, and referred to the fisheries committee for report.

ARTHUR NOBLE EXPECTS TO BE INVALIDED HOME

The following letter from Arthur Noble to his father is taken from a recent issue of the Peterboro Examiner:

Lincoln, England, June 2nd. "You will note by this that I have left France and am now in England. I had the misfortune to be slightly wounded on the 22nd of May at a place called Fismard in France. However, I am practically better now, although I am still in hospital. I will in all probability be discharged soon and sent to a convalescent home for some time, and then sent home. I expect to be home in about three months."

At the Board of Trade meeting last night, the secretary was instructed to write to Col. Theodore Roosevelt, inviting him to visit Prince Rupert at an early date.

Mrs. F. McB. Young and Miss Young returned from a visit south, on the Prince Rupert.

GERMAN PEACE TALK

According to the San Francisco Argonaut, Count Von Bernstorff and a Dutch gentleman called Geldemeester have all the plans prepared for an honorable peace. All that is required is the assistance of the United States. What the allies may have to say in the matter is not of any great importance. The important point is that German diplomats are evidently of the opinion that Uncle Sam is a gullible old gentleman who will do anything so long as it sounds peaceful. The utterances of W. J. Bryan have doubtless helped them to this belief.

Von Bernstorff's idea of peace is an arrangement which shall give Germany time enough to get back her lost wind; create a new fleet of submarines; release her interned ships, and build up a new army. In other words, Germany realizes that she made a false start, and incidentally brought about the slaughter of a million or two human beings without gaining her object, and now, with peaceful America's assistance, she hopes to get time to start the war all over again at some future date.

When the time comes, the allies will provide the terms for peace, and that time will be when Germany has called "enough." Meanwhile, Von Bernstorff may mingle his tears with those of William Jennings Bryan, but America will keep right on filling British orders for guns and munitions, and the allies will keep on doggedly fighting. Germany has started something she cannot stop by means of suave diplomacy.

Peace now would be as great a calamity as the war itself, for it would simply produce another war. When the Prussian eagle is put in a cage, with

his wings clipped and his claws filed, the allies will begin to think about peace. Until then, the only message is more men and more munitions.

ROYAL COMMISSIONS

A royal commission is to be appointed by the federal government to investigate the question of increased agricultural production in the Dominion together with the related questions of wider markets, further employment for the unemployed and kindred subjects.

There are three departments at Ottawa maintained at large expense by the people of Canada which should be competent to conduct this investigation. One is the department of agriculture, presided over by the Hon. Martin Burrell, the other is the department of trade and commerce, of which Sir George Foster is minister, and the third is the department of labor, of which the Hon. Thomas Crothers is the head. There is absolutely no reason why these departments should not undertake the work that is to be entrusted to a commission.

Canada's experience, federally and provincially, with investigating commissions of this kind, has not been reassuring. While in many cases the personnel has been above criticism and the recommendations

valuable, their reports invariably have been filed and never heard of again. The late government appointed a royal commission to inquire into the subject of technical education. This was both desirable and necessary because there was no federal department which could have undertaken the task. A most illuminating report was submitted to the new administration, which promptly pigeon-holed it. We had a commission to investigate the high cost of living, but its deliberations were farcical and, of course, came to nothing. British Columbia's experience with the royal commissions on coal prices, labor conditions, agriculture and Indian lands is too fresh in the public mind to require further reference.—Victoria Times.

TOOK THE ADVICE OF HIS FRIEND

Stomach Trouble and Rheumatism
Relieved By "Fruit-a-tives"

MR. L. LABRIE

594 Champlain St., Montreal.

"I have been restored to health by taking 'Fruit-a-tives'. For two years, I was a miserable sufferer from Rheumatism and Stomach Trouble. I became very weak, had frequent dizzy spells and when I took food, felt wretched and sleepy. I suffered from Rheumatism dreadfully, with pains in my back and joints and my hands swollen.

A friend advised me to try 'Fruit-a-tives' and from the outset, they did me good. After I had started the second box, I felt I was getting well and I persevered in the treatment. I can truthfully say that 'Fruit-a-tives' is the only medicine that helped me.

H. A. Peck, secretary of the Bulkley Valley fair, was here on Thursday and secured many promises of support from local business men. He went to Prince Rupert yesterday.

"Suicide while temporarily insane" was the verdict of the jury impanelled by Coroner Hoskins in the case of John Barrett, who cut his throat at Smithers on Friday night of last week.

J. R. Barker, of Francois Lake, is paying Hazelton a visit. He states that wheat and other crops are looking well. The government experimental station at Francois Lake is proving of great benefit to settlers.—Miner.

TEA IS A WAR MUNITION

Tea is being used as the most portable beverage ration in the trenches in Europe. The belligerent governments are buying immense quantities and the troops are acquiring a taste for tea that will greatly increase the future consumption. Cheap tea is a thing of the past now that the demand has arisen, and rising prices may be expected for some time.

Make Monday Ironing Day

LET Sunlight Soap do your washing Monday morning and you can do the light ironing Monday afternoon. The rub, rub, rub at the board has no place in the Sunlight way—so with the hardest part of washing cut out you'll feel like making it a good day's work by doing at least part of the ironing.

Follow the directions that cut your work in half and remember there's nothing in Sunlight to injure fine fabric or dainty hand. A \$5,000 guarantee backs this statement.

SETTLERS ON FINDLAY RIVER WASHING GOLD

Bringing more than half a ton of choice raw furs for the Hudson's Bay Company, Gus Montan, an old-timer in this district, arrived on Monday last from Fort Grahame. Travelling by canoe over the Giscombe-Summit Lake route, Gus made the trip out in 16 days. He reports considerable travel over the all-water route to Peace River and many prospective settlers are now on the way in to spy out the land.

Mr. Montan states that probably fifty settlers are washing gold on the bars of the Findlay River and its tributaries, and all are making good wages despite the high cost of living in that region. Flour is worth \$24 per hundred, and all other necessities are proportionately high priced.

Settlers have planted small areas in vegetables, grain, etc., and these show wonderful growth and promise big yields. The potato crop looks especially promising and no frost since April has been evident. Potatoes were planted early in May and are well advanced.

Mr. Montan is highly pleased with the Findlay country and expects to start on his return trip in a few days.—Prince George Herald.

HART BLOCK THIRD AVENUE

In the Letter Box

Prince Rupert, July 3, 1915.
Editor Daily News:—I notice by action of City Council last Monday night, that my former letter helped produce the desired result—a reduction of civic expenditures. I am sure the majority of ratepayers will agree with me that the acts of some of the council members in this matter are worth recording; the acts of others are worth remembering until after next election.

Now while we are thankful for small favors, we still have right to ask for larger ones. Many more reductions could be made without impairing the efficiency of the city staff. I think the city has no need for an assessor for the remainder of this year and part of next year, and there appears no reason why the city clerk's duties should not be performed by Mr. Johnson in addition to his duties as treasurer. Ald. Montgomery's attitude in this respect is well taken. And the salary of the city solicitor could also be saved. Competent legal service could be obtained for one quarter the amount paid Mr. Peters.

Next let me suggest that the duties of the purchasing agent could be performed by the chairman of each department. At present all orders given by the purchasing agent must pass some department. Each superintendent could place order direct and eliminate much red tape.

In the police department it seems no more than three men are necessary in a town of the size of ours; the chief to do day duties, and two men at night.

In the fire department, would ask our council why the ratepayers of this town need provide apartment houses for employees. We have two families living in the fire hall, and it is stated that they receive free coal, free light, free water and free rent. Since many men paying taxes have empty houses to rent, would suggest that in this respect the ratepayers are not fairly treated.

We now own the electric light and telephone departments, and were led to believe that on completion of present hydro electric plant, electricity could be more cheaply generated. Instead we find as many or more men employed by the city in production of electric energy than formerly. The city provides a gasoline launch and maintains same for employees at the lake, and hires a man or two to do chores and wait upon them. In this connection would like detailed information concerning charges to the city for street lighting.

In conclusion would suggest that if essential for a city engineer to be employed, such engineer should have charge of the water, light and telephone, the whole of such service not to cost more than two hundred dollars per month.

Yours truly,
WM. ANGLE.

- FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to search for them? Odd, that some manufacturers still withhold the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised.

But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that can be told through Advertising.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.
If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
