SUPPOSED PLOT TO BLOW UP LINERS AT SEA—HOLT INTENDED TO DESTROY NEW YORK BUILDINGS—LINERS ARRIVED AT HAVRE WITH UNEXPLODED BOMBS ON BOARD

(Special to The Daily News.)
Glen Cove, N. Y., July 7.—Following the suicide of Frank Holt in his cell last night, a letter to his wife was discovered, announcing that the Cunarder Saxonia, or the liner Philadelphia, or both, would be destroyed by explosion today.

The navy sent a warning to both vessels, which are at sea, of the danger of an internal explosion, and advising them also to steer toward each other as a mutual convoy in case of an explosion. The Philadelphia replies all well, but there is no reply from the Saxonia. The police discovered 124 sticks of dynamite

in Holt's trunk. He intended to dynamite New York buildings. Sixty sticks of dynamite are still unaccounted for.

Holt Identified.

New York, July 7.—Frank Holt has been positively identified by former friends as Erich Muentler, the former Harvard instructor, who disappeared in 1906 after being indicted for the murder of his wife, Leona, by gas poisoning.

Bombs on Liners.

The authorities admit that three ships, which sailed from New York to Havre, France, in May, arrived with unexploded bombs on board.

PROTEST AGAINST LICENSING METHOD

The following letter from M. M. Stephens Co., Ltd., was read at the city council on Monday night: The Mayor and Council, City of Prince Rupert, B. C.,

Dear Sirs:—Herewith find bill for \$17.90, overcharge on account of licence issued to George A. Tessier, June 30th, 1915. Briefly the facts are that Mr. Tessier went out of business on June 21, having run from January 15 without having paid any license fee until June when he paid \$18.00 on account. The business formerly conducted by Mr. Tessier was taken over by Mr. Ben. F. Hunt on June 28th, but the city treasurer insisted on the Tessier license being paid up and completed, although Tessier was already out of business, or that a new license should be charged of \$40.00, although there remained only seventeen or eighteen days until the new license would have to be taken out. Mr. Tessier paid \$18.00 for the privilege of conducting the same business that we paid \$22.00 for the privilege of permitting Mr. Hunt to

Farewell will be taken of Prince Rupert's third contingent tonight. Lieut. Van Der Byl, with his complement of men from the interior will arrive on the train at 6:45. They will be met by the men from here, headed by the city band, pipers and the boy's bugle band and a parade will be made to Recreation Park.

Up to this morning the following Prince Rupert men had enrolled for the third contingent for active service. There are 33 Scotchmen, 6 Canadians, 2 Australians, 4 Irishmen and 4 Welshmen.

THE MANITOBA MACHINE

The following is an extract from an editorial in a recent issue of "Saturday Night." In parts it is peculiarly applicable to McBride-Bowser rule in British Columbia.

"To one who has followed the progress of machine politics at their worst in Manitoba during the last few years, the ignoble fate of the Roblin government did not come as a surprise. The system, ever growing bolder, had long ceased to worry about public opinion and ordinary political decency or honesty. The members of the Ross government were modest in their machinations compared to the Roblin-Rogers machine. Fawning on favorites and spurning opponents, or those who disagreed, autocratic boss rule always prevailed. One of their favorite pursuits was to pose as the ultra-loyal, holier-than-thou, flag-flapping, honor-of-the-nation saviors, while at the same time, behind the scenes, Tammany's worst tricks were being remodelled. Given a background of Union Jacks, and an audience packed with applauding henchmen, they could always be relied on to carry a crowd with touching fervor. At the same time, some chosen machine leader, in a foreign colony, might be found pouring out eloquent effusions, to those under his care, as he clamored undisturbed for separate flag schools, and even a little kingdom of their own within the province.

Mr. Rogers' organizing genius along this line having won national recognition, he was rewarded by a seat in the Borden Cabinet. Deprived of one of the main operators, except on occasional consultations, the Roblin-Rogers machine has since seemed to work with a creaking noise, which constantly tended to arouse emparassing suspicions, and

gradually lost much of its former power. Frequent amazing revelations in time had the effect of allaying the enthusiasm of even many former supporters, who tired of defending or apologising for one scandal after another. The honest, independent people of Manitoba simply rebelled against machine politics of this type. It will, therefore, be seen that the system which culminated in the big graft scandal in connection with the new Parliament buildings, was not of recent origin. It was merely the inevitable fruits of a boss-rule policy unscrupulously pursued. In this instance the truth chanced to percolate through and produce the shock necessary to thoroughly arouse the dormant public conscience, long lulled to sleep by charges and counter charges.

COAL PROPERTIES TO BE DEVELOPED

Active development work has been started on Lake Kathlyn coal properties located on Hudson Bay mountain about seven miles from Smithers and will be prosecuted steadily during the next few months. An expert from the Pennsylvania anthracite fields arrived in Smithers the first of the week and at once set about gathering a crew and arranging for permanent camp quarters. This gentleman will have charge of the development. His name is Mr. Mitchell.

These coal properties are showing good under the work already done and the owners are confident they have a splendid mine. Five large coal seams outcrop in the canyon below the Hudson Bay glacier falls and have every appearance of permanency. One drift of fifty feet has opened a vein that contains a coal said to be similar to the Pennsylvania anthracite.

Should this property, under development, fulfill the expectations of its owners it will mean much for the future of Smithers and this part of the Bulkley valley. The property is within three miles of the G. T. P. as it passes Lake Kathlyn and can doubtless be handled in an economic manner. Its development will be watched with interest, as a good coal mine here would probably also mean the establishment of large smelting works.—Smithers Sentinel.

"THE DEEP PURPLE" AT THE WESTHOLME THEATRE

The Majestic Stock Company made another big stride into public favor last night, when they presented a 5-act comedy drama entitled "The Deep Purple," at the Westholme.

The story deals with the luring of an innocent girl, the motherless daughter of a parson, from her home in Buffalo to New York to act as decoy for a gang of crooks. William Lake, a young engineer, who has struck it lucky in the west, is marked as the "lamb." Forewarned by "Frisco Kate," a reformed thief, Lake turns the tables on the crooks and rescues the girl, and sends her back home.

Miss Vane Calvert, as Mrs. Fallon, an ex-thief known as "Frisco Kate," acted with rare restraint throughout, while Miss Helen May, as Christine, Mrs. Fallon's Swedish maid, provided lots of amusement, and as Mrs. Lake, the mother of the mining engineer, acted with becoming dignity.

Albert Lawrence, as Harry Leland the chief of the gang, acted the part of a callous, double-dyed villain splendidly, while Hugh O'Connell, as "Pop" Clark, a snivelling old sneakthief, with a wholesome regard for his own skin, earned hearty applause.

Edward Tisne, as William Lake, a young mining engineer, played the hero and protector of girlish innocence, with a delightful air of unassuming good fellowship. W. W. Craig, as inspector of police, looked and acted the part truthfully, while Charles Ellis, as a Hotel copper, did well in a part which gave little scope for his abilities.

Miss Julia Gray as Doris Moore the innocent cause of all the trouble, claimed the sympathy of

Don't Send Money in a Letter

WHEN you send subscriptions to magazines, or order goods out of town, or pay small accounts at a distance, do not place the actual cash in the envelope. Thousands of dollars are lost every year through fire, robbery or mis-direction. Use the Bank Money Orders, issued by this bank. They are payable in Canada and the United States in any sum up to fifty dollars.

Their protection is well worth their small cost.

The other parts were in capable hands, and the piece was heartily applauded all the way through. Tonight the company presents "The Old Homestead," an old time favorite, which never grows old. PROTEST AGAINST LICENSING METHOD

(Continued From Page One.)

conduct until June 15th; eighteen days. The city treasurer allowed Mr. Tessier to run nearly five months without a license but refused to allow Mr. Hunt the same privilege. We have had to make good the difference between the pro-rata proportion of the license which Mr. Hunt was entitled to pay and what we had to pay, and hence lost \$17.90, or would have lost our tenant through the neglect of the city treasurer to perform the duty of collecting the license which he is paid a good salary to do. We who are paying taxes and incidentally paying, with other tax payers, the salary of the treasurer to perform the duties of the collector find that these matters are not being attended to and that we are asked to make good the losses to the city through that official's neglect of duty.

It may come as a matter of surprise that this official is permitting businesses to run in this city without licenses for months at a time and sending policemen to collect licenses from men who have not been in business for a week.

We maintain that it is most unfair to the ratepayers and to those who are paying their trade licenses when due that such a state of affairs should be allowed to exist, and that there should be permitted the interpretation of the license bylaw by the collector in different ways to suit the cases of different individuals.

Firms have gone out of business during the last six months without having paid their license, although the bylaw states that they shall have a license before they may transact business.

We also believe that when the collector is permitted to compel those, not in any way interested in a business for which he has neglected the collection of the license fee to make good the loss to the city that too much power is being delegated to that official and that a great injury is being done the citizens, not only through loss of license fees, but through unfair competition in business by those without a license against those who are license holders.

Yours very truly,
M. M. STEPHENS CO., LD.

The city treasurer's report on the matter stated that the rule of collecting licenses in advance had never been lived up to, and went on to show how little had been lost by this procedure. The treasurer pointed out that he had placed the collection of licenses on a much better basis than formerly; that it was impossible for him to go out collecting himself, but that the police department was handling the collections carefully. He contended that the action taken in the Tessier case was the only possible one.

The city solicitor upheld the action of the treasurer and the finance committee recommended that the report be sustained.

Alr. Edge, seconded by Ald. Dybhavn, moved that this be endorsed. Ald. Casey, seconded by Ald. Montgomery, moved that it go to a special committee. Ald. Nicol, seconded by Ald. Kerr, moved that it be referred to the license committee. This carried.

It is especially adapted as a food for invalids, or persons with poor digestion, owing to the fact that in sterilizing it is heated to an even higher degree than ordinary pasteurization heat. - FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to search for them? Odd, that some manufacturers still withhold the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised.

But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that can be told through Advertising.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
