AVIATOR SINKS A SUBMARINE—GERMANY IS TRANSFERRING TROOPS FROM EAST TO WEST—FRENCH AVIATORS ACTIVE—WELSH MINERS CEASE WORK—BERLIN CRAWFISHING

(Special to The Daily News.)
London, August 27.—Details of the naval attack on Zeebrugge show that the harbor defences were damaged and several German submarines destroyed.

Flight Commander Bosworth, in an aeroplane, sunk a submarine off Ostend yesterday.

Transferring Troops.
The Germans are transferring troops from the eastern front to the west.

Aviators Active.
Paris, August 27.—French aviators continue their activities on the western front. Numerous attacks are reported.

Miners Dissatisfied.
London, August 27.—To show their dissatisfaction with the government report, 25,000 South Wales miners ceased work today.

Steamer Sunk.
The steamer Palmgrove has

been torpedoed. The crew was saved.

Berlin Crawfishing

Washington, August 27.—Developments with respect to the relations between the United States and Germany have been reduced in intensity. The situation foreshadows a declaration by Berlin on the subject of submarine warfare which will eliminate all source of discord. Baron Von Bernstorff has informed Secretary of State Lansing that the statement issued on Tuesday was intended to imply that submarine commanders would be ordered to attack no merchantman without first giving warning.

Von Bernstorff has also notified Secretary Lansing that Germany will make full satisfaction for the sinking of the Arabic, if it is found that she was sunk without warning.

DECOMPOSED BODY IS FOUND IN SECTION TWO

The badly decomposed body of Louis Knudsen, a Norwegian was found in Block 17, Section 2, near Tate Street this forenoon.

About June 16th Knudsen tried to commit suicide by jumping from a window of the Grand Hotel. At that time his brother promised to take care of him, but it seems that, shortly after being released by the police, he disappeared, and had not been heard of since.

Judging from the condition of the body, he must have been dead for several weeks. Death was due to strangulation, self inflicted.

MORE RECRUITS WANTED FOR 62ND BATTALION

More recruits are wanted for the 62nd battalion at Vernon. Lieut. Nicholls has been notified to report for duty at Vernon at an early date, and will take care of men going forward from this city and district. Recruits are requested to make application to Major J. H. McMullin without delay.

MERCANTILE MARINE OFFICERS ARE WANTED

As a member and representative at this port, of the Mercantile Marine Service Association, Captain McGee has been notified by the Admiralty that mercantile marine officers are urgently required for entry into the Royal Naval Reserve as temporary sub-lieutenants.

The qualifications are that they must hold a first mate's certificate and be between the ages of 21 and 33, but applications from officers slightly over the latter age will be considered. Mercantile marine officers possessing these qualifications are requested to communicate with Captain McGee.

PLACER MINING ON QUEEN CHARLOTTE

(By F. S. Wright.)

Placer mining is always a subject that appeals to most men and no subject has been more abused. The word placer gold to the average man leads his thoughts towards bonanza, multimillionaires and all the frills and excitement of Klondykes, and Californias.

Very few can realize that some men are content to work placer ground which gives them only modest, yet steady returns, and are inclined to be sceptical when placer is mentioned in any form except dollars to the pan, etc.

A few miles from Massett there is a sandbar, older than the hills around it, covered with heavy growth of timber, and to all intents and purposes a most unlikely looking place for placer deposits. Yet on this bar has been found deposits of black sand running very fair in gold and platinum values. It has been experimented on by several, mostly though by men who were coarse gold miners, and not familiar with the finer art of saving gold in a flour state. They took out a little, but not enough and gave up the job. A short time ago there arrived at Massett an old time prospector, who had mined the beaches of Oregon and other places, where the black sand carried gold values, which can only be saved by careful handling and knowledge. He investigated, and thought it looked good enough and is taking a chance.

He has gone about it quietly and steadily, has thoroughly prospected his ground, and stripped and laid bare the ground to be worked, and notwithstanding lack of water, always a great drawback to placer mining, has started in on the pay dirt.

He can show you a small face about five feet high and six feet long where he has taken out \$200 in gold and platinum values; he can take you to other places where he is working, and if you are a placer man, a pan or two will show you that while it is an hydraulic rather than a straight old time placer prospect, it carries surprising values.

There is no room for doubt to the experienced eye, he has pitched on likely ground, prospected

GERMAN INVADERS TO ATTACK BREST-LITOVSK-MOSCOW LINE

OLITA FORTRESS IS REPORTED EVACUATED—GERMANY TO MAKE IRON PENNIES—THE AUSTRIANS FAIL TO STOP ITALIAN ADVANCE—TURKS HAVE MASSACRED ARMENIANS

(Special to The Daily News.)

London, August 27.—The Austro-German invaders are now in Russia proper. It is reported that the fortress of Olita on the Nieman has been evacuated. The main object of attack is the railroad between Brest-Litovsk and Moscow.

Iron Pennies.

Berlin, August 27.—The Bundesrath has passed a law for the making of iron five pfennig pieces. A five pfennig piece is equivalent to one cent.

Italian Front.

Rome, August 27.—An official report says:—"In Val Sugana our troops have extended their ground and occupied points above Trento. As far as positions on Mount Amentera and Mount Saluto, the enemy failed to prevent our advance. In addition, they left a few prisoners in our hands."

"In Seebach valley our artillery opened fire on an encampment hidden at a bend on the left bank of the Torrento. The enemy was forced to flee in disorder. They were pursued by a shower of well directed shrapnel.

"In the upper Isonzo, our Alpine troops captured several strong entrenchments of the enemy along the steep southern slopes on the Rombon."

Armenian Massacres.

Nearly 14,000 Armenian Christians have been killed by Turks and Kurds in one of the massacres at Trebizond. This is according to a statement of the former Italian consul at Trebizond.

On Saturday you will have an opportunity to help provide doctors, nurses and surgical appliances for the boys.

HOW FRITZ PETERS EARNED HIS D. S. O.

City Solicitor Peters has just received from Mrs. Peters, who is in England, particulars as to how their eldest son Fritz won the D. S. O. Like most men who have done daring deeds, Fritz is very reticent regarding the exploit, but his cousin has found out that, during the action in the North Sea early in the year, his ship, the Meteor, took fire inside. Lieut. Peters stayed by his ship, and, calling for volunteers, led his men in, putting out the fire, in spite of the fact that the ammunition on board might have exploded at any moment. The men who accompanied him were also decorated.

In correspondence with German Red Cross authorities, Mrs. Peters has learned that their son Jack, who was reported as taken prisoner, is not located where reported. Further efforts are being made to locate him.

CRICKET

The first eleven of Prince Rupert Cricket Club will play the next fifteen at Recreation Park at 3 o'clock Saturday afternoon. The game between the club and the Sons of England will be concluded on Tuesday evening. In the first innings the club made 65 and the Sons 35. On going to bat a second time, the Sons lost five wickets for 41 runs.

SKEENA RIVER CANNERIES' SPLENDID CONTRIBUTION

As the result of the machine gun campaign along the Skeena river, Mrs. F. Chawner Williams has forwarded to the Minister of Militia, through the Canadian Bank of Commerce, the sum of one thousand, six hundred and ninety dollars. The fund was started by Mr. Williams, on the suggestion of Mr. Angus McAllister, of Claxton Cannery. Every man in the various canneries "did his bit."

Your dime, quarter or dollar tomorrow will help to alleviate the suffering of some brave soldier.

Charles Lestor, the Socialist orator, will address a meeting in the Empress Theatre on "Present Day Economic Conditions."

DEVELOPMENT

Professor Adam Shortt, in his address on "Present Day Economic Conditions," handled his subject in a most clear, concise fashion. He handled cold, hard facts in a way which was interesting to his audience. Economics is simply chystallized common sense applied to financial and physical conditions.

Dr. Shortt did not hesitate to point out the weakness of much of the rush development of western Canada, especially as regards railroad construction. Of course the speaker was dealing solely with the financial aspect of railroad construction, in order to show that the huge amount of capital tied up in three transcontinental railways would take a long time to show a return on the capital invested.

It must be remembered, however, that, in the case of the Grand Trunk Pacific particularly, the opening up of a vast area of hitherto unknown territory compensates to a great extent for the lack of immediate return in the shape of earnings. Many thousands of settlers have been placed on the land, especially in the prairie provinces, as a direct result of this railroad construction, and these settlers are all producers, whose earning capacity is only reflected in railroad returns to a small extent. Every virgin acre brought under the plow is so much added to the contra account against the building of the railroad.

Dr. Shortt held out great encouragement to Canada in its prospects of prosperity after the war. Being a young country, he emphasized the fact that it had not yet become a large producer of luxuries, and that its future is bound up in producing meals and living accommodation. This is particularly interesting to the Pacific coast in view of the rapid development of its fishing industry.

try. As the interior of the northern part of this province is more thickly populated, a large number of cattle will be raised, while crops will be harvested every year to a greater extent. The lumber business would now be booming if transportation to Europe could be procured. The mills in the south have orders on hand for two years ahead, at substantial prices. When the war is over the European demand for lumber is bound to increase for several years, and British Columbia will ultimately return to a condition of solid business prosperity.

SUBMARINE WARFARE

Von Bethmann Hollweg's statement regarding the sinking of the Arabic is evidently intended an unofficial reply to America's note. We will probably learn that the submarine had no instructions to sink the Arabic, and that it was a mistake, and that compensation will duly be paid to any Americans who suffered loss. In plain English, Germany will continue to beg the question, and will continue her submarine warfare just as before. If any American citizen is careless enough to sail on a British ship of any description, he is liable to meet death or serious injury, but, if America raises a holler about it, an enquiry will be made, compensation paid, and the submarine commander duly rewarded. Mistakes will continue to happen.

EXPERIENCE SHOWN BY THE CITY OF REGINA

Regina, Aug. 26.—Among other municipal enterprises entered into by the city of Regina is that of grain raising. The city's artesian wells, from which the water supply is secured, are located at various points on a 400-acre farm. Up to the present year this ground has only been used for the purpose of securing

an adequate water supply, but as large quantities of oats are required to feed the horses employed on street cleaning, etc., it was decided to sow oats on all available ground on the city farm. It is now expected that the average yield per acre will be 50 bushels, or a total yield of 20,000 bushels. If this expectation is realized the saving will be a big one.

BELLA COOLA NOTES

Mr. H. G. Anderson of this place, while away at the capital, took the great step in life to better his condition by entering into marriage with Miss Potts, formerly teacher at the Mackenzie school. They have taken up their residence here and the Courier joins their host of friends in wishing them a long and happy union.

A number of our residents after a successful and busy season availed themselves of a less busy time to go down the inlet for an outing. One party went to the head of South Bentink Arm a week ago today and intend to be away about a week. They were: Mr. and Mrs. B. F. Jacobsen, Mrs. W. F. Roland, Mrs. Capt. Thorsen, Misses Ellen Thorsen and Annie Liverton.

Another and larger party made the Hot Springs on the same inlet their destination. They left Tuesday morning, but will be back in time for the picnic tomorrow. The party is composed of Olaf Urset, T. Jacobsen, Theo. Liverton, I. Olsen, Olaf Fosbak, Clara Widsten and Mattie Peterson.

As the disposal of the butter produced by the farmers is looming up as a problem that must be solved soon we are glad to announce that arrangements are being made to have a dairy expert visit the settlement at the time of the fair.—Bella Coola Courier.

FAIR NOTES

Efforts are being made to get the Dominion government to make a fishery display at the 1915 Fair. The value of the fishing industry to Prince Rupert is now fully recognized and Prince Rupert halibut has become a by-word in the east. The Dominion government is keenly interested in encouraging the greater consumption of fish products, and there is no doubt that a good fishery display at the Fair would aid materially the government publicity campaign in the Northern part of British Columbia.

Atlin district has been heard from. They are sending an ex-

hibit to the Fair. They report an unexcelled year for successful agriculture, and while the furthest north, there is no doubt that they will give a good account of their district. Where does the growing belt of Northern B. C. end? Not in British Columbia at any rate. They can grow the stuff right up to the northern boundary and then on.

480 BANK OF COMMERCE BOYS ARE AT THE FRONT

A striking pamphlet has just been issued by the Canadian Bank of Commerce showing the extent of the "bit" which the staff of the bank is doing in the great war. It gives the names of the 480 men who have enlisted in the forces and also prints the bank's honor roll of 17 names of those who have already given their lives in the struggle. A most interesting portion of the publication is that which contains extracts from the bank officers at the front.—Toronto Globe.

"THE HOUSE OF SECRETS" AT WESTHOLME THEATRE

"The House of Secrets," the first episode of the mysterious serial entitled "The Road of Strife," will be shown at the Westholme tonight and tomorrow. There are fifteen episodes of the serial, one of which will be shown every Friday and Saturday.

The bill for tonight includes "The Lad from Ireland," a touching drama, "By Whose Hand," a drama depicting the devotion of an old butler to his master, a very fine Hearst-Selig Gazette, and a roaring comedy entitled "The Deadly Battle of Hickville." The latter is calculated to make anyone laugh.

BILLY REEVES AT THE MAJESTIC THEATRE

The Majestic tonight and tomorrow presents a Broadway star feature entitled "Mother's Roses." This is a most beautiful drama. One of the best items in a good program is the first appearance of the famous English music hall comedian Billy Reeves in "The New Butler." Reeves, who was a great success on the stage, is rivaling Charles Chaplin for screen popularity. "On the Border," a thrilling western drama, concludes a real good program.

On Monday and Tuesday the fifth episode of "The Broken Coin" will be shown. This great serial continues to draw crowded houses every week.

TO WHOM IT MAY CONCERN

To Mrs. Daniel Porter,
Madam:—I hereby admit that I did in the month of July last make false and slanderous statements regarding your character and charging you with being a woman of immoral habits. I made these statements to Norman McLeod and have repeated them to others.

The statements made by me were all absolutely untrue, and I knew them to be untrue when I made them, and I made them with the object of injuring you.

I now absolutely withdraw all said statements and humbly apologise for ever having made them, and I further admit that my conduct has been shameful in the extreme.

(Signed) A. R. F. HALVERSON.
(Witness) F. Peters, Aug. 25, '15.

Greater than Panama's Bridge of Water

The Panama Canal is the logical outcome of the trend of modern commerce—it is monumental evidence of the present-day need for shortening distance—for lessening time and for reducing cost of distribution between maker and consumer.

In point of distance, the Panama will bring the Pacific nearer to the Atlantic by 1,000 miles. In point of time, the sea voyage between Halifax and Vancouver will be shortened by 24 days. In point of cost, the canal will very materially lessen the expense of carrying freight between these places. But there is a stronger factor than even the Panama in shortening distances, lessening cost and saving time between manufacturer and user.

It is Advertising—

It is the quickest—
It is the most direct—
And it is the cheapest—
means of communication between the maker and user of goods.

For instance, Advertising enabled a manufacturer in Nova Scotia to carry a demand for his product

from his factory to the Pacific Coast
— in a few days
— at an insignificant cost
compared with slower and more laborious selling methods.

In one week, thousands learned of his product where it would have taken years for the news to get around without advertising.

To the Manufacturers of Canada:

You will be alert to take advantage of the Panama route for the physical transportation of your goods. Have you considered how quickly, how far, and at what small cost the Advertising Trade Route will carry demand for those goods?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
