BRITISH SUBMARINE WRECKS BRIDGE AT CONSTANTINOPLE

RUSSIANS WITHDRAWING WITHOUT SERIOUS LOSSES—HAND GRENADE AND ARTILLERY DUELS IN WEST—ITALY GAINS IMPORTANT POSITION—ALLIED AVIATORS' SUCCESS

(Special to The Daily News.)

London, August 31.—An Athens report states that a British submarine has blown up the bridge between Constantinople and Galata, a suburb of the Turkish capital.

Eastern Front.

The Russian armies along the upper Bug and at Ziota Lipa are being rapidly withdrawn, apparently without serious loss. East of Warsaw, the Germans are advancing and the fall of Lipsk brings the attacking forces nearer to Grodno, the last big fortress retained by the Russians.

Western Front.

On the western front, hand grenade and artillery duels continue. Several German detachments have been blown up by mines.

Italian Front.

The Italians report the capture of the summit of Cima Cista, 6,500 feet high, commanding the Austrian positions on Monte Sabulio.

Rome is optimistic regarding diplomatic negotiations in the near east, asserting that the

Turko-Bulgarian railroad agreement does not affect neutrality.

Turkish Report.

Constantinople reports that there has been heavy fighting in the Dardanelles. The Allies remain silent.

Air Attack.

Amsterdam, August 31.—Residents of Maasbode report that Allied aviators attacked and destroyed a large building at Ghent which was used by the Germans for the housing of aircraft.

WHARF WATER SUPPLY

A report from the fisheries committee to the city council last night, regarding an increased water supply at the government wharf, recommended replacing the present one inch pipe with one of two inches, at a cost of \$150.

A letter from Wm. Manson, M. L. A., was sent in, stating that he had taken the matter of putting in a new main at a cost of \$2,200 up with the government, but they could not undertake to do the work. The report was adopted.

SCHOOL BOARD REQUEST

At the council last night a letter from the secretary of the school board was read asking that something be done towards extending the sidewalk on Fraser Street towards the steps leading up to Borden. The matter was referred to the board of works.

EARLY CLOSING

The necessary proportion of retail merchants having petitioned the city council for an early closing bylaw, a bylaw will be introduced enforcing the closing of retail stores at 6:30 p.m. from Monday till Friday. On Saturdays, and the day before a holiday, and for ten days before Xmas retailers may close when they desire.

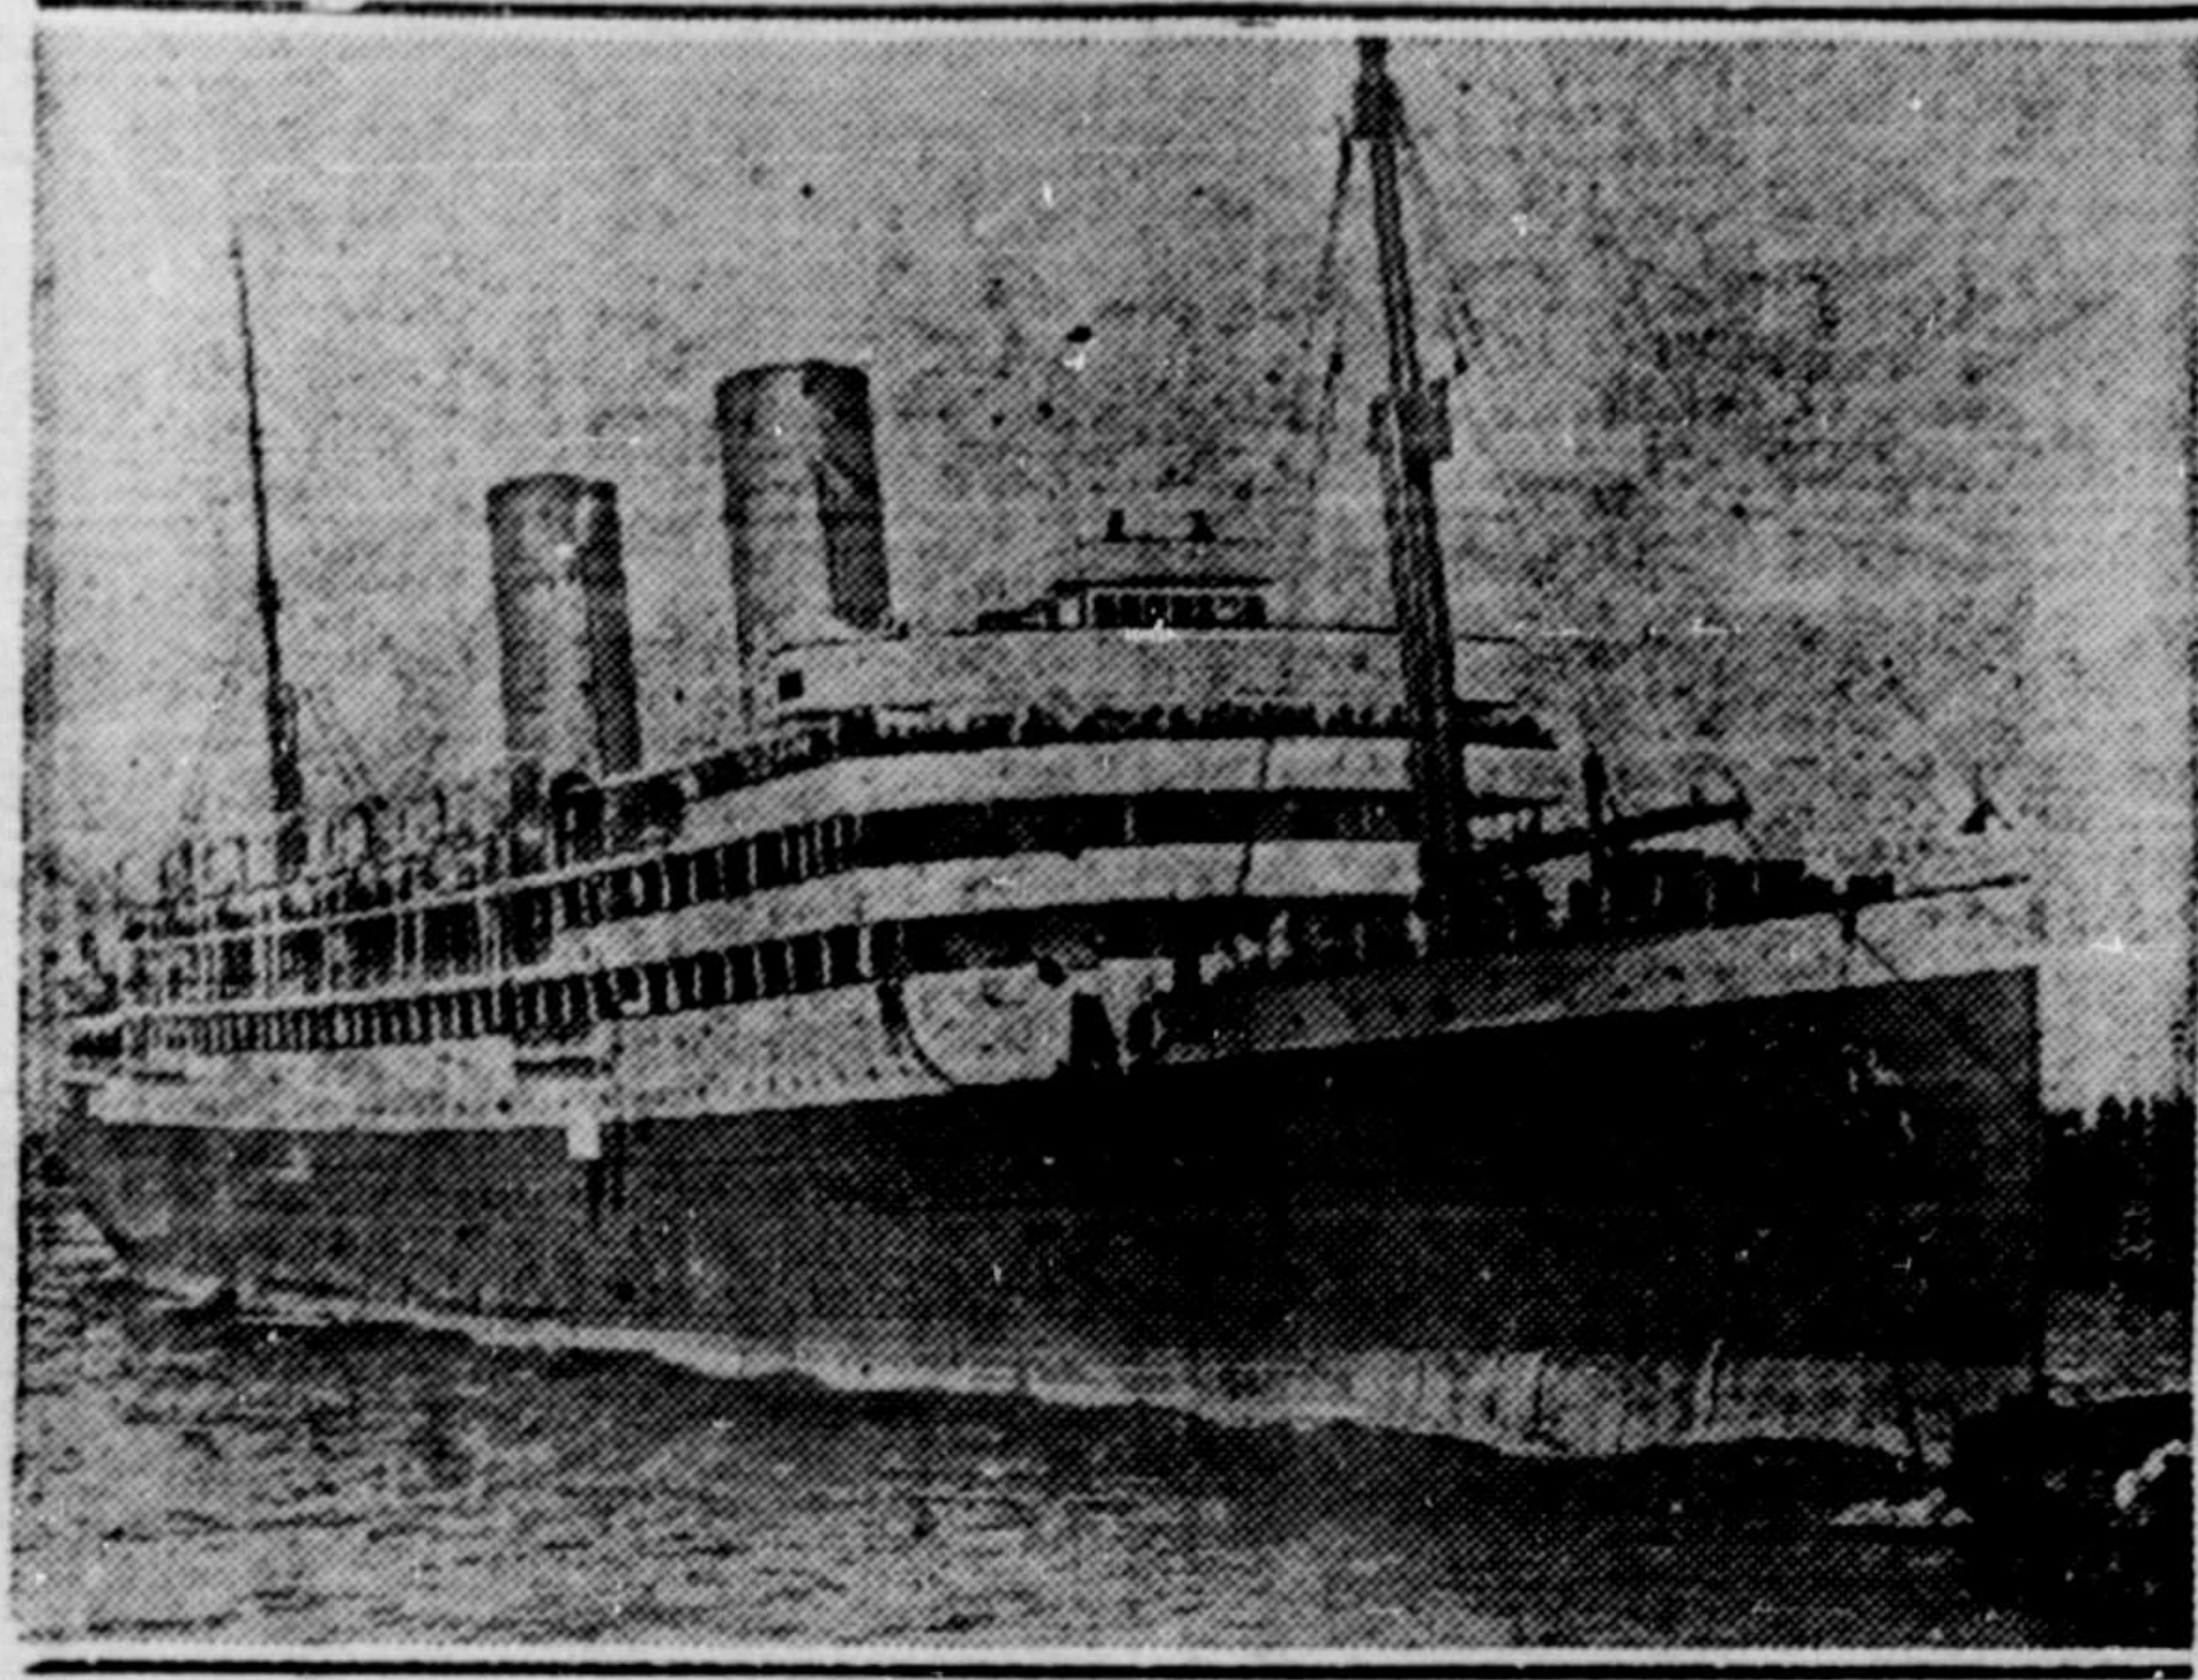

GRANBY DONATES

The employees of the Granby Mining and Smelting Company at Anyox have donated \$1,000 to the B. C. Base Hospital, provided a machine gun, and given another \$1,000 for Red Cross work. This is for the month of July. The same amount will be collected in August and during every month while the war lasts, to be used for Red Cross work. This will place Anyox in the front rank as a Red Cross worker, leading all towns of its size in the province.

ROADWAY TENDERS HELD OVER FOR A WEEK

Sealed tenders for the construction of a roadway to Seal Cove and for the redecking of city streets were on the table at the council meeting last night.

Ald. Montgomery said that, on going through some correspondence, he had discovered that an option on the debentures covering this work has been given to an eastern firm, and, in view of that fact, he held that it would be unfair to open those tenders so long as that option held.

The mayor explained that he had received a letter from this firm just after the last council meeting, and, after consulting the finance committee, had wired a proposition to them. He held that the arrangement was not binding and that it would be well to find out just how much the work would cost. He pointed out that if his offer was taken up it meant \$750 more to the city.

Ald. Montgomery said that he understood that an option was binding, and, as the securities covering the work were under option, he suggested that the tenders lie on the table for a week.

Ald. Maitland, Dybhavn and Edge expressed his opinion that, if the debentures could be disposed of at the price quoted, it would be preferable to having them split up amongst small contractors.

Ald. Montgomery said he was quite satisfied with the price; what he objected to was a minority of the council carrying on the financial business of the city.

It was agreed to leave the tenders over for a week.

VICTOR SIGNORI ELECTS SPEEDY TRIAL

Victor Signori, whose father is Italian but whose mother is German, was brought here from Granby yesterday on a charge of having carried a gun with intent. Before Judge Young this morning, accused elected a speedy trial, and will come up before the judge this afternoon.

It seems that Signori and some others got into a dispute at Granby and that the accused followed two Canadians with the intention of shooting them. He was overpowered and handed over to the police.

DEATH OF MRS. SLOAN

Mrs. F. McB. Young left on the Prince George this morning for Nanaimo. Mrs. Young received the sad news yesterday that her sister, Mrs. William Sloan, had passed away suddenly in the southern town. Mrs. Sloan was known to many here, her husband having formerly represented this constituency in the House of Commons.

DROP IN FLOUR

(Special to The Daily News.)

Ottawa, August 31.—Flour has dropped from \$7.00 to \$6.25. This is the biggest drop in flour since the war began. The price at the beginning of the war was \$5.80.

STRIKE ENDED

(Special to The Daily News.)

London, August 31.—The South Wales coal strike is ended. The government has taken over the mines.

The report of the light superintendent for July shows a deficit of \$111.15 in the light department and a surplus of \$961.91 in the telephone department.

FARMING DEVELOPMENT ON QUEEN CHARLOTTE ISLANDS

ISLANDS PRESENT DIFFICULTIES TO THE SETTLER WITHOUT CAPITAL—PIONEERS ARE GRADUALLY OVERCOMING OBSTACLES—GREAT FUTURE

(By F. S. Wright.)

Masset two years ago and Massett today are undeniably two different places. The Massett of two years ago was a town of tents, which showed that house accommodation was scarce and, therefore, canvas had to house the many seeking new homes on the Islands.

The marked similarity of the English Channel and the Hecate Straits, the low-lying shore, with its beautiful beaches, and the attractiveness of the surrounding scenery has probably been the cause of attraction for the greater part of the population, especially the British section, to whom there is no doubt the natural beauty of Massett Inlet appealed.

Given a greater amount of development, the Massett district, with its equable and temperate climate, offers a home district hard to equal for the man of leisure and means.

Masset and the Queen Charlotte Islands, in the opinion of most people, is not a poor man's proposition. It is one for the man of means, the man who can spend fairly large amounts in development and can afford to await returns for some years.

As one tourist remarked, "Masset and the country surrounding is a rich man's proposition," and there is no doubt that the future will prove his words true. The land is there, capable of growing almost anything, capable of maintaining herds of stock and feeding them all the year round, but it requires money to clear, money to drain, and money to await results. That is the present obstacle to development on the north end of Graham Island, in fact the same applies to most any part of the Islands and the people settled there at the present time are not of the leisured class, not the sort who can afford to wait. They can and have waited a year or so, but communication, markets, and the other facilities needed to make a self-supporting population are not yet there. The pioneer difficulties to be overcome are large, and it is taking the man of prosperity. If they can stay with it, they are bound to win, but the fight will be a long one.

It took fifty years to make Vancouver Island a producer, as all familiar with the struggle of the pioneer on that island knows, and it is the same with the Charlottes. As the upbuilding of Prince Rupert and like towns progresses so will the Islands.

The Islands have no large railway company who take a sufficient interest in their progress at the present time, nor did Vancouver Island in the early days, in fact only in recent years did transportation branch out and take in Vancouver Island proper.

Notwithstanding difficulties of lack of capital, and other things,

development has proceeded and proceeded rapidly during 1915. The same reason as in other places, has been the reason, the necessity in these quiet times for communities to become self supporting. Development with its accompanying ready money has ceased, and compelled the settler to rely upon the natural resources at his door for a living. That these are many on the Charlottes goes without saying when one considers the fact that the country is capable of growing practically all that man requires in the way of vegetables, the amount of fish in the surrounding waters, and wild fowl and other game at certain times of the year available.

True fresh meat is a scarcity and a luxury, but that has always been the case in pioneer communities, and any pioneer can tell you that doing without is part of the game. But to live, and live well, is possible, given a sufficient amount of energy.

Some have thrown up the sponge and are going out. That is always happening in new districts. Continued on Page Three

PLOT TO BLOW UP U. S. POWDER MILLS

(Special to The Daily News.)

Gary, Ind., Aug. 31.—The murderer of Rev. Edmond Kayser reveals the fact that he was a member of a murder gang which had a gigantic plot to blow up all the powder mills in the United States.

MURDER SUSPECTED IN ROBINSON CASE

It now appears certain that David Robinson, the Indian whose body was found in the Skeena, met his death by foul play, as a sequel to a drinking bout among a number of the natives.

Coroner Hoskins continued the inquest last night, adjourning at 1:30 a.m., when half a dozen witnesses remained to be examined. Chief Minty has made considerable progress with the investigation, and hopes to be ready for further proceedings very shortly.—Omineca Miner.

NEWSPAPERS FOR CANADIAN WOUNDED

In a communication received by the local branch of the Daughters of the Empire, Mr. George Perley, acting high commissioner for Canada in London, has sent a request to Canadians that newspapers sent to London for Canadian wounded in British hospitals would be greatly appreciated. He says the Canadian wounded are simply longing for Canadian newspapers. Small bundles of newspapers, with ends of packages left open, should be sent to Lady Drummond, Canadian Red Cross Society, 14 Cockspar Street, London, S. W., to be distributed to the several hospitals. This is a work of kindness, easy for Canadians at home to do and highly appreciated by the soldiers.

"THE BROKEN COIN" AT THE MAJESTIC THEATRE

The Majestic was packed last night to see the fifth episode of "The Broken Coin." This installment is even more thrilling than the earlier ones. Kitty traces one half of the coin to an Apache den and a battle royal ensues. In the fracas, Kitty steals away with the half coin only to fall into the hands of her opponent in the quest.

"Elsie's Uncle", a delightful two-reel comedy, provided no end of merriment. In the course of the story Elsie becomes possessed of quite an embarrassing number of "uncles," with laughable results. The Animated Weekly rounds off a real good show.

NOTICE TO CREDITORS

IN THE SUPREME COURT OF BRITISH COLUMBIA
 IN THE MATTER OF THE ADMINISTRATION ACT
 — and —
 IN THE MATTER OF THE ESTATE OF ROSARIO MAZZEI, DECEASED, INTERSTATE

TAKE NOTICE that by order of His Honor F. M. B. Young, local judge, dated the 18th day of May, A. D. 1915, I have been appointed administratrix of the estate of Rosario Mazzei, late of the city of Prince Rupert, Province of British Columbia, deceased, intestate.

AND NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the said Rosario Mazzei, who died on or about the 28th day of April, A. D. 1915, are required to send to Pamore & Fulton, barristers, Prince Rupert, B. C., on or before the 31st day of July, A. D. 1915, a full statement of their claims and of any securities held by them, duly verified, and after that date I shall proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed.

Dated at Prince Rupert, B. C., this 29th day of June, 1915.

THE RAILWAY PLANK

From an editorial in the Victoria Colonist of Friday, it is evident that McBride is going to have a railroad plank in his election platform after all. In these hard times, Sir Richard, or rather the province, cannot afford to play the philanthropist to any new railroad scheme, therefore he is going to use the Pacific Great Eastern as a "boosting development" line. In the past Sir Richard has made capital, at least political capital, out of the railroads, and the railroads have been able to raise considerable capital in return. Sir Richard without a railroad scheme of some sort would be like a drummer without samples of his best line of goods.

For the benefit of southern electors, the Colonist points out that the P. G. E. is to be a great factor in the development of British Columbia, and that Vancouver is going to get the benefit of the Peace River crops, "if it is completed before trade has got too firmly set in other directions." It is evident that Sir Richard is to make another attempt to raise the funds to complete the P. G. E., and that he is going to make political capital out of the fact. Whether Sir Richard is alive or dead, in office or out of office, the Pacific Great Eastern will be completed in due course. Sir Richard and his friends, by their flagrantly extravagant railroad policy of the past, are largely responsible for the fact that the wells of capital have dried up so far as this province is concerned. It would be interesting if Sir Richard could be got to tell exactly what London financiers told him about his railroad financing, when he rushed over there, after Bowser turned down his April election stunt,

to try to raise \$7,000,000 for the P. G. E. Since his return Sir Richard has been remarkably silent regarding railroads. He left talking railroads, and returned hollering lumber.

LAND SETTLEMENT

Dealing with some suggestions by Mr. Henry Lye, of Vancouver, regarding land settlement, the Victoria Colonist says, "we think it sound economics to give land to settlers only for the purpose of utilization, and not to enable them to speculate with it." Probably the Colonist, along with its Conservative following, thinks that the right to speculate in land should be specially reserved for the capitalist and the railroad magnate, who neither settles on the land nor for the land. The speculator's day is over, and at last the settler is to get a chance, but he must on no account be allowed to follow the example of his predecessor. The speculator is a highly favored gentleman, who must be given special privileges, in fact must be allowed to do pretty much as he likes. He can pay or refuse to pay, for the land he holds, just as he pleases. He can sell land which he has not paid for, and as was the case with the Hardy Bay Land Company, an Alvensleben promotion, the buyer may find that he has paid solid cash for land to which he can get no title, but it is entirely different with the settler. "If the government undertakes to establish settlers in communities, there should be some restrictions upon the sale of the land by the settlers," says the Colonist. It will be time enough to worry about the selling of land by settlers, when the speculators have been made to disgorge the vast acreage they have not paid for.

POWER PLANT REPAIRED

Superintendent Duncan verbally reported to the council last night that the power plant is now in order, the band governor being used, pending an adjustment of the permanent governor by the Canada General Electric.

Ald. Dybhavn, seconded by Ald. Maitland, moved that Mr. Duncan be instructed to use the band governor until such time as the Canada General Electric provide a man capable of putting the permanent governor in order.

FIRE REPORT

The fire chief reported to the council last night that three alarms had been turned in during July, and that the brigade had succeeded in preventing any loss by fire. The cost of maintenance of the brigade for the month was \$831.79.

FARMING DEVELOPMENT ON QUEEN CHARLOTTE ISLANDS

(Continued From Page One.)
tracts. Some people are bound to come in not fitted for the life, but their departure does not mean that the country has failed them. It means rather that they have failed the country. Others will come in, take their place and reap the benefit.

Masset and the North Island, pending market development and further increase in the lumber industry, which is one that must increase in the future, have the fishing to depend on for the purpose of raising the small amount of cash they require, and there is also the tourist trade. This trade is capable of development. The Union Steamship Company, regularly on every trip carry a number of tourists, and, to all, the Islands appeal in a most favorable manner. The climate is most equable, the scenery pic-

turesque, and the boating and fishing hard to equal.

Is there any other place where it is possible to travel as on Massett Inlet? Up for thirty odd miles on one tide at the rate of about five miles an hour without any other motive power but the tide, and down again on the next tide.

Has 1915 been a successful year for the Massett farmer? Well, to a certain extent it has. One man there is talking about shipping a car load of celery to the prairies. Celery, an article that, provided quality is there, always fetches a good price, and there are many acres of celery looking fine around Massett. That is only one line out of many, such as potatoes and other roots.

The herds are not large as yet, but are increasing as fast as nature will allow, and cattle raising is a proved profitable line to follow. They are showing what they have done, at the Fair in September. They are producing quality and quantity, and their place in the running for the Dewar Cup, the district trophy, will certainly not be empty.

Your King and Country Need You

RECRUITS WANTED FOR 62nd OVERSEAS BATTALION, CANADIAN EXPEDITIONARY FORCE.

RECRUITING OFFICE AT PROVINCIAL GOVERNMENT OFFICE NOW OPEN.

In view of the recruiting which is in progress at present throughout the Province, it is apropos to answer a few of the questions which are considered by those who contemplate entering the Service. The following is a list of pertinent queries, together with the information which each elicits.

QUESTIONS ANSWERED.

1.—How long am I to serve? Until the end of the war and six months after if required.

2.—What pay shall I receive? Your pay as a private will be \$1.00 per day and 10 cents field allowance. Besides this you will be clothed, equipped and subsisted by the Government.

3.—What will my wife receive during my absence? Every month there will be paid her a separation allowance of \$20 (also part of your pay) and if this be not enough to comfortably maintain your family, the Canadian Patriotic Fund will further assist them.

4.—What will happen if I am wounded or sick? You will be cared for by the Government and your pay continued until you are discharged. If you are permanently disabled an allowance will be paid you, varying according to the extent of your injury or disability.

5.—What will be done for my wife and children if I die while on Active Service? The Government will provide an adequate pension, that will enable the family to live comfortably until the children are old enough to look after themselves. The widowed mother of a single man, if the son be her sole support, is treated in the same way as a wife.

How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—'phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He asks for Underwear for a child of six. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise.

The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—If the name Brown was as synonymous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
