BRITISH ARE NETTING GERMAN SUBMARINES

IMPORTANT DARDANELLES POSITION TAKEN — RUSSIANS SHOWING STRENGTH

FIFTY GERMAN SUBMARINES CAPTURED IN SIXTY DAYS

OFFICER ON ADRIATIC REPORTS SUCCESS OF BRITISH METHOD OF NETTING SUBMARINES — CREW OF ARABIC DESTROYER ARE PRISONERS — A BRITISH STEAMER SUNK — THREE MISSING

(Special to The Daily News.)

New York, Sept. 2.—An officer on the Adriatic says that the submarine which sank the Arabic was captured in a steel net, and the crew captured. He says that, within the past sixty days, the British have captured over fifty German submarines. The captured vessel is one of the largest type and carried a double crew for training purposes.

Steamer Sunk.

London, Sept. 2.—The British steamer Savona, 1,180 tons, has been sunk. Three of the crew are missing. The Savona was owned by James Currie and Company, of Leith, Scotland.

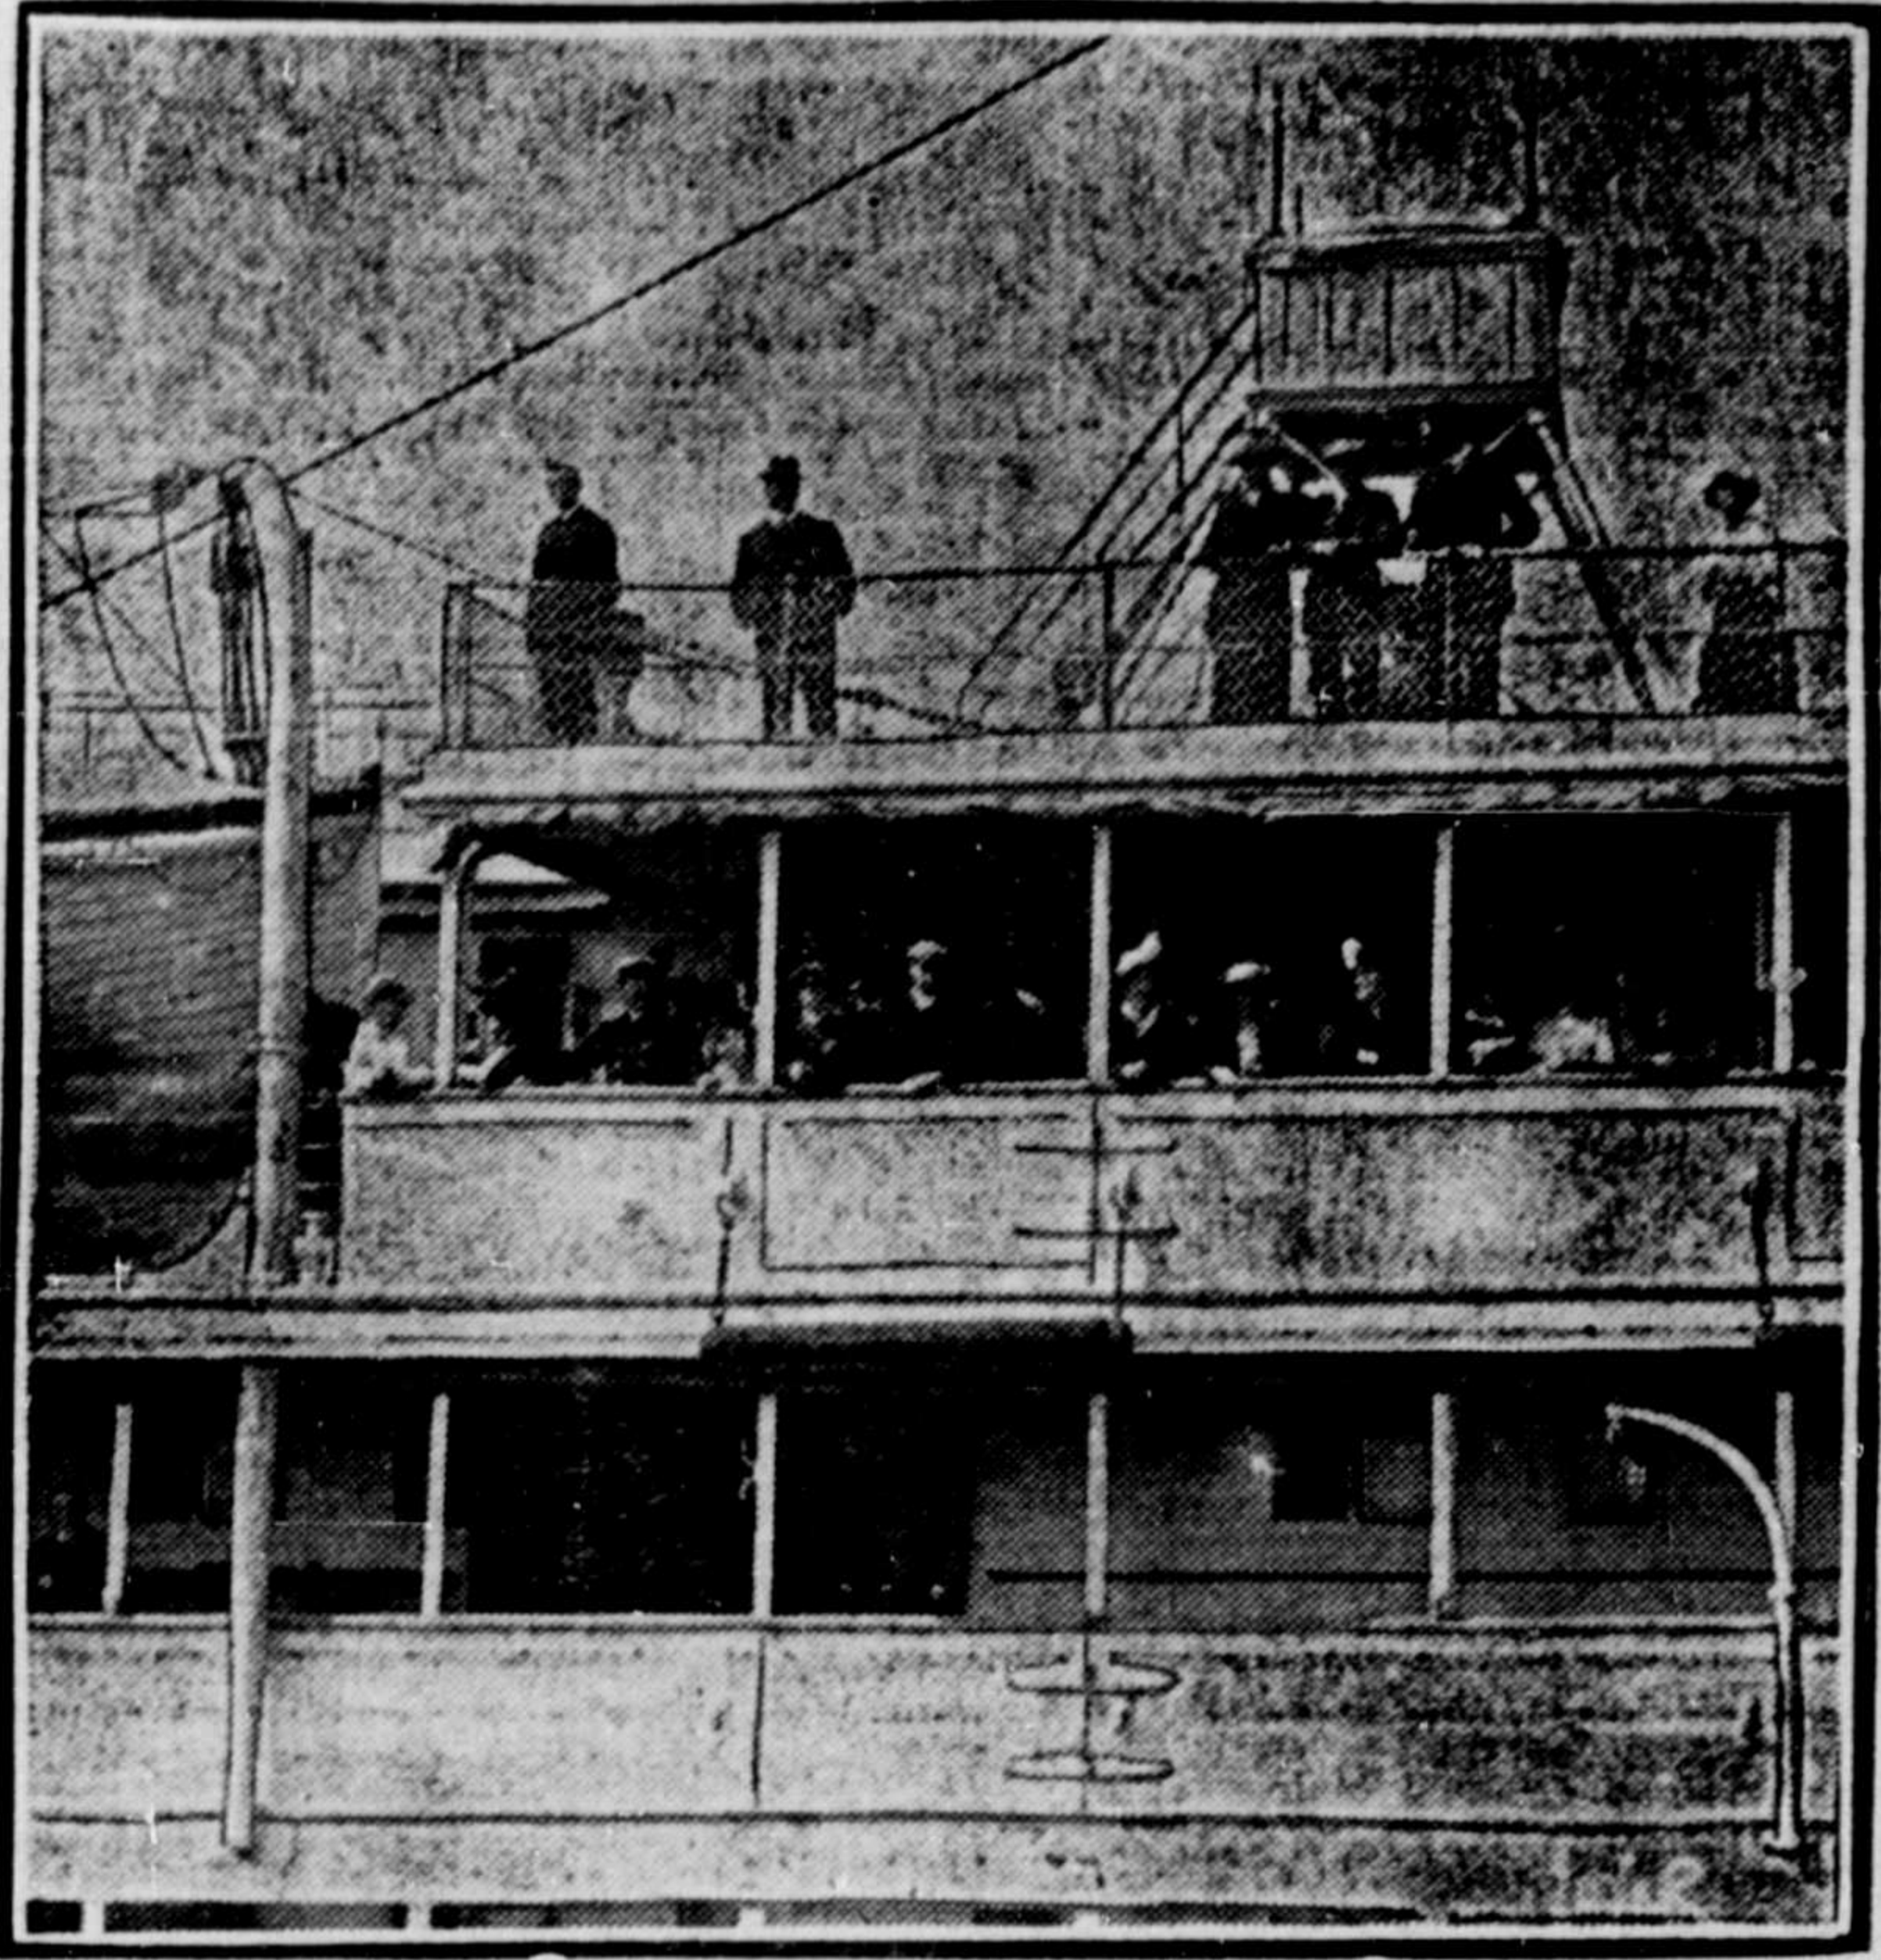

Western Front.

Paris, Sept. 2.—Artillery actions have occurred in the sector north of Arras.

In the region of Hoge and Queenvievers the enemy has thrown some shells on Soissons and Rheims. Our artillery directed very effective fire against the enemy in the trenches on the front on the Aisne and Champagne.

In Argonne the Germans, during the course of the day, bombarded our front on several occasions with bombs and guns of various calibre. Our batteries and trench guns replied and silenced the guns of the enemy.

On the night of August 28, our aeroplanes bombarded the German camps at Ostend cantonments, Middelkirke station and Thorout. The enemy's aeroplanes dropped bombs on Luneville. It is reported there have been some victims among the civil population.

PLACER MINING IN OMINECA DISTRICT

George W. Otterson, manager of the Kildare Mines, Ltd., arrived from the interior last night and left for the south on the Prince Rupert this morning. Mr. Otterson says that the property in the Omineca is looking well, though this summer they have been hampered through lack of water, owing to the light snowfall last winter and an extra dry summer. Later on, he expects to put in a pipeline from German Lake, when a full supply of water will always be available.

Mr. Otterson reports that there has been a lot of prospecting done in that district this summer, and that individual placer miners have been making \$12 per day. He has great faith in the future of Prince Rupert as a mining centre and believes that big results will be obtained as the territory is more freely opened up.

"SUNSHINE MOLLY" AT THE MAJESTIC THEATRE

The Majestic tonight presents a five-act Paramount Bosworth comedy drama entitled "Sunshine Molly." Molly, an outcast, wanders into a California oil camp, becomes kitchen maid, and by her happy disposition becomes the most popular member of the community. The varying fortunes of the camp are depicted and the social efforts of a family who have suddenly struck it rich provide a lot of amusement, while Molly, of course, has a love story all to herself. A real good topical Gazette completes a pleasing program.

FAREWELL BANQUET TO LIEUT. NICHOLLS

Last night at a banquet served in the dining room of the Hotel Prince Rupert, the office staff of the Canadian Fish & Cold Storage Company took leave of Lieut. Nicholls, who left today to join the 62nd Regiment at Vernon, in preparation for leaving for the front. Mr. Nicholls has been in charge of the accounting department of the cold storage ever since it opened.

A very pleasant evening was spent. Following a most tempting banquet, a number of after-dinner speeches were given, in which tribute was paid to the efficiency and the courtesy shown by Mr. Nicholls.

ALABAMA REJECTS WOMAN SUFFRAGE

(Special to The Daily News.)

Montgomery, Alabama, Sept. 2.—Woman suffrage has been defeated. Alabama rejects the bill by 21 to 10.

REV. DR. PIDGEON HAS GONE TO TORONTO

Rev. Dr. Pidgeon, accompanied by his wife and family arrived on the Prince Rupert this morning en route for Toronto. Dr. Pidgeon has accepted a call as colleague and successor to Dr. Wallace, of Blooer St. Presbyterian Church in that city.

Charles A. Halsey and A. E. Brandt left for Work Point this morning, to put in a term of military training.

IMPORTANT POSITION IN DARDANELLES IS CAPTURED

TACTICAL POSITION COMMANDING DUNWICK IS TAKEN—RUSSIANS HOLDING VON HINDENBURG—TURK TRANSPORTS SUNK—BERLIN REPORTS CAPTURE OF RUSSIAN FORTS

(Special to The Daily News.)

London, Sept. 2.—The public is cheered by reports of heavy fighting in Gallipoli. Sir Ian Hamilton reports the capture of an important tactical position on the northern sector, commanding Duvuk, in the Anafarta valley.

Russian Success.

As expected, the Russians are developing strength in the north, holding Von Hindenburg and scoring a success near Vilna.

Submarine Success.

Paris, Sept. 2.—Four Turkish transports have been torpedoed by a British submarine in the Sea of Marmora.

Berlin Report.

Berlin, Sept. 2.—The Germans have captured the outer forts of Grodno.

Contraband.

Paris, Sept. 2.—An agreement has been signed by Greece promising the strict suppression of all trade in contraband goods.

MR. AND MRS. ED. DUKETTE ARE AGAIN BEREAVED

Mr. and Mrs. Ed. Dukette lost their second little girl this morning. The heartfelt sympathy of all will go out to the parents whose second bereavement this is within a week.

Interment will take place tomorrow afternoon from Hayner's chapel to Fairview Cemetery. Father Bunoz officiating.

Chief Gammon, of the provincial police, left for the south this morning.

C. P. R. OFFICIALS ARRIVED LAST NIGHT

D. C. Coleman, of Winnipeg, assistant general manager of the C. P. R. western lines, accompanied by Isaac Pitblado, K. C., of Winnipeg; Sidney Junkins, of New York, formerly vice-president of the Westinghouse, Church, Kirk Company, and Franklin Lee, principal assistant to the chief engineer, arrived from Edmonton on last night's train.

The party, which is more on pleasure than on business, travelled from Winnipeg over the C. N. R. to The Pas, the Hudson Railroad terminus, thence to Edmonton and Prince Rupert. Mr. Coleman says that the harvest is well advanced, and everything points to a big crop. He does not look for any great difficulty in shipping grain to Europe, the general opinion being that the Imperial government will take care of that part.

The party went south on the Prince Rupert this morning.

Follow the crowd to Self's Cafe. There is a reason. Next Majestic Theatre. 1022f.

PROHIBITION VOTE IN NEW FOUNDLAND

(Special to The Daily News.)

St. Johns, New Foundland, Sept. 2.—The government has decided to take a vote on prohibition in November. The approval of forty per cent. of the electorate is necessary for the measure to become law.

FITZI SCHEFF AT THE WESTHOLME THEATRE

Westholme patrons last night were delighted with Fritzi Scheff in "Pretty Mrs. Smith." Mrs. Smith, who has been married to three very different Smiths, without being able to get along with either, unexpectedly encounters all three in a hotel at a summer resort, with rather embarrassing results. The story is rich in funny situations, while the staging of the piece is perfect.

"A Substitute for Pants," a western election story, completed a most enjoyable program.

BASEBALL GAMES FOR FAIR WEEK

Baseball will be a leading feature of the Fair days. Arrangements are being made to bring in outside teams. It is expected that Hazelton, Ketchikan and Prince George will send teams, and the games should be, therefore, of more than usual interest.

The directors are arranging for a series of Indian baseball games at the Fair. This feature is receiving favorable notice from the Indian population. A cash prize of \$40 is offered the winning team and nearly all the natives are out after it. Baseball among the Indians is assuming as much importance as lacrosse does among them elsewhere, and there is no doubt that with their well known ability, it will not be long before they can give the white teams a run for the big money.

RECRUITING

Britain has now a complete register of every person between the ages of 15 and 65, who is not serving the government in some way. The minutest details regarding present and past employment have been collected, and it is expected that, at an early date, a new plan of recruiting will be adopted. The country has been divided into districts, and it is proposed that each district be asked to furnish its quota of soldiers.

There are several millions of single men, without dependents, who have not yet offered their services to their country, and, as many more men are needed, it is expected that the new plan will be effective in bringing along the necessary number of recruits. Care has been taken gathering employment information in order that no men capable of making munitions may be sent abroad. Britain is at last getting down to business in organizing her supply of men, so that the best results will be obtained both at the front and in the munitions factories.

Conscription is repugnant to most Britishers, but it is freely admitted by men of all shades of opinion that, if men do not come forward in sufficient numbers, some form of compulsion will certainly be adopted. During the past few weeks munitions have been produced in largely increased quantities and many more men must be got into training immediately. With the responsibility thrown upon the various communities, there should be no difficulty in securing as many men as are needed.

per inexhaustible? The question may well be asked when in the campaign in Poland big gun ammunition is being used upon a scale never before attempted. At Kovno six hundred guns directed their fire upon a single fort, and literally blew it into the air. While this prodigal but paying expenditure of ammunition was going on along the eastern front artillery actions were taking place in Flanders and northern France of a most violent sort, in which the Germans must have expended many thousands of shells daily. Some time ago the copper contents of the daily output of German shells were estimated at 318 tons. This must have been almost doubled of late, for the shell output, instead of totalling a quarter of a million projectiles daily, as in the earlier months of the war, is believed to be now much nearer half a million.

Assuming that for all war purposes Germany requires 500 tons of copper daily, where is the metal coming from? The sources of copper production controlled by the Germanic powers, or open to them in neutral countries such as Sweden, cannot provide more than 50,000 or 60,000 tons a year, while the consumption must be about 180,000 tons. Already the copper contained in domestic utensils has been commandeered, and much of the other copper in the form of statuary and household bric-a-brac has been turned over to the government. Church bells in the conquered districts of Poland are eagerly seized and shipped to the German munition factories. It would take a great many finds of the sort mentioned to keep the German armies in shells for a

single day. Where is the balance to come from for another year of war?

The electrical installations throughout Germany contain much copper, and the general in charge of the munitions branch of the war department said recently that he would not hesitate to take the lighting and power wires and turn them into ammunition material should that prove necessary. Le Genie Civil, a French technical publication, has been figuring on the result of such a drastic step. There were 4,100 electric generating stations in Germany in 1914, which developed about 4,500,000 k.w., and used some 50,000 tons of copper in transmission to the consumers. In addition, some 4,400 tons of copper were contained in traction wires. Not all of these wires could be dispensed with even if aluminum, or some other suitable metal, could be found in sufficient quantities to do the work. When Germany gets down to stripping the electric plants of their copper wire she will be within about ninety days of exhaustion. The present amazing expenditure of ammunition cannot go on indefinitely. The very intensity of the artillery fire in Poland and in northern France materially lessens the duration of the war.—Toronto Globe.

OFFICER'S "REMOVAL" OFFICIALLY CANCELLED

In the London Gazette of the 6th of August a notice appears cancelling the removal from the service of Captain H. S. Smart, Indian Army, which was notified in the Gazette of the 4th of June last.

The circumstances of the case are as follows:—Captain Smart, 53rd Sikhs, attached Kyber Rifles, was granted short leave in December last, and did not rejoin on its expiration. All inquiries failed to trace him and he was, therefore, removed from the service. It has since been ascertained that his action was due to his strong desire to join the force in France. It appears that he came to this country and enlisted in the name of Thomas Hardy into the 2nd Battalion Queen's Royal West Surrey Regiment. While serving with this battalion as a private he was killed in action at Festubert on the 17th May, 1915, where he displayed such gallantry that he would have been granted the medal for distinguished conduct in the field had he survived.

In view of the special circumstances of the case, the Secretary of State for India, with the concurrence of the Army Council, decided to submit to His Majesty that the removal from the service of Captain Smart should be cancelled, and His Majesty has been graciously pleased to approve of this proposal.

NEW GERMAN SHRAPNEL WHICH BURNS FATALLY

London, Sept. 1.—The correspondent of the Morning Post at Petrograd telegraphs:

"A new application is reported of the German invention I have previously mentioned. It serves to show how Germany develops the scientific side of her efforts as the war proceeds.

"The incendiary fire bombs, which contain some composition producing sufficient heat to start flames in anything that will burn, are now familiar. The Germans have invented a method of using something similar in the form of or combined with shrapnel.

"Reports say any man struck by shrapnel from these things is terribly burned, the burns often proving fatal, even when only a limb is struck. Presumably phosphorus enters into the composition of this new weapon, as also do certain poisonous bullets."

IMPLEMENTS IN BIG DEMAND ON PRAIRIES

Regina, Sept. 1.—Regina implement houses at the present time are exceedingly busy in an effort to meet the demand for binders, threshing outfits, binder twine, etc. Great inconvenience was caused by delay on the part of the farmers to order binders early, owing to the uncertain weather conditions. Now that an exceedingly good crop is assured, the demand for binders, threshing outfits, binder twine, etc., is very heavy and the implement company have a big problem on their hands.

Your King and Country Need You

RECRUITS WANTED FOR 62nd OVERSEAS BATTALION, CANADIAN EXPEDITIONARY FORCE.

RECRUITING OFFICE AT PROVINCIAL GOVERNMENT OFFICE NOW OPEN.

In view of the recruiting which is in progress at present throughout the Province, it is apropos to answer a few of the questions which are considered by those who contemplate entering the Service. The following is a list of pertinent queries, together with the information which each elicits.

QUESTIONS ANSWERED.

1.—How long am I to serve? Until the end of the war and six months after if required.

2.—What pay shall I receive? Your pay as a private will be \$1.00 per day and 10 cents field allowance. Besides this you will be clothed, equipped and subsisted by the Government.

3.—What will my wife receive during my absence? Every month there will be paid her a separation allowance of \$20 (also part of your pay) and if this be not enough to comfortably maintain your family, the Canadian Patriotic Fund will further assist them.

4.—What will happen if I am wounded or sick? You will be cared for by the Government and your pay continued until you are discharged. If you are permanently disabled an allowance will be paid you, varying according to the extent of your injury or disability.

5.—What will be done for my wife and children if I die while on Active Service? The Government will provide an adequate pension, that will enable the family to live comfortably until the children are old enough to look after themselves. The widowed mother of a single man, if the son be her sole support, is treated in the same way as a wife.

How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He asks for Underwear for a child of six. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise. The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—If the name Brown was as synonymous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
