NO HALF MEASURES CONSIDERED--600,000 MEN READY TO DEFEND SERBIA ON ALL SIDES--THE RUSSIAN AMBASSADOR RECALLED FROM BULGARIAN CAPITAL

(Special to The Daily News.)
Petrograd, Oct. 5.—Delivery of Russia's ultimatum to Bulgaria was delayed until 4 p. m. yesterday, which would be 9:30 a. m., New York time. Hostilities are expected to commence today, unless satisfaction is given.

Flash.
London, Oct. 5.—Petrograd has recalled Ambassador Savinsky from Sofia.

Evidently negotiations are at an end and war has been declared between Russia and Bulgaria.

No Half Measures.
Paris, Oct. 5.—The quadruple entente is to send a collective ultimatum to Bulgaria today. Russia's ultimatum is welcomed as a means of clearing the Balkan situation.

Arrangements have been made to strike a hard, swift blow at Bulgaria. It is realized that half measures would be worse than useless. The entente powers will send an army of 600,000 men to prevent any danger of Serbia being crushed between the Austrian and Bulgarian armies and to hinder a Teuton army from reaching Constantinople.

MAP ILLUSTRATING THE BALKAN SITUATION

The immediate objective of the Germans attacking Serbia is the railway running to Constantinople, over which, by Bulgarian occupation, munitions could be sent to the Turks.

ST. JOHN AMBULANCE ASSOCIATION MEETING

All those wishing to gain a knowledge of first aid to the injured or home nursing are asked to attend a meeting to be held in the Hays Building, 245 Second Avenue, Tuesday, October 12th, at 8 p. m. A ladies class in home nursing and a men's class in first aid will be organized at the meeting. A working knowledge of first aid would be of great assistance to hunters, engineers and surveyors, prospectors and miners, fishermen, steamship crews, railway, drydock, and cold storage employees, policemen, firemen, teachers, and all others whose work brings them into contact with conditions where sudden accidents occur now and then. The fee charged for the course is merely a nominal one to cover expenses, and the knowledge to be gained is invaluable.

DRYDOCK OFFICIALLY TESTED YESTERDAY

The official test of the Prince Rupert drydock took place yesterday, in the presence of W. T. Donnelly, the designer of the structure, and representatives of the various contractors. All three sections of the dock were joined up, making a dock 604 feet long, large enough to hold the largest liner on the Pacific coast. The dock was submerged to a depth of 26 feet. Everything worked smoothly and to the entire satisfaction of all concerned.

STALWART RECRUITS FROM ALICE ARM

Alice Arm sent four stalwarts to the front this morning in O. M. Watson, John Marshall, V. F. Lade and George A. Young. They are big, strapping fellows who will certainly be able to give a good account of themselves if they ever get Mr. Hun at close quarters.

ROADWAY AT FIFTH AVENUE AND DUNSMUIR

A recommendation, signed by one member of the board of works was presented to the city council last night, that a plank roadway be built between Dunsmuir Street and McBride.

Ald. Maitland said that the work would cost \$1,300 and he thought the money could be put to better use. He pointed out that residents on 7th Avenue, between Claude and Donald Streets had no sidewalk yet, and suggested that this was more pressing than the work mentioned.

The mayor said that the matter had been discussed by previous councils and sidetracked. He thought that the present path was both inconvenient and dangerous, and that the will of a few residents should not be allowed to retard necessary improvement.

Ald. Dybhavn pointed out that last week the mayor had warned them that all possible economy must be exercised. This roadway is not any more dangerous today than it has been in the past, and he thought that, under present financial conditions, it would be foolish to proceed with such work, especially when the residents did not want it.

Ald. Beveridge said he felt that the council should wait until the people asked for such a roadway.

Ald. Montgomery said he recognized that the present roadway caused some inconvenience, but he felt that the \$1,300 could be used more usefully elsewhere. The work was deemed unnecessary in past years, and, under present conditions, it was out of the question.

It was decided to lay the matter on the table for one week.

HEAVY ARTILLERY EXCHANGES CONTINUE ON WESTERN FRONT

BOTH SIDES ACTIVE--ENEMY USING SUFFOCATING MIXTURES IN SHELLS--FIERCE FIGHTING IN THE ARTOIS REGION--FRESH NAVAL ATTACK IN THE DARDANELLES

(Special to The Daily News.)
Paris, Oct. 5.—Following fierce trench to trench warfare, there is a violent artillery bombardment of the enemy's positions in the Artois region.

Throughout Champagne district there are heavy artillery exchanges by both sides. The enemy is using shells containing suffocating mixtures.

In the vicinity of Somme the artillery and machine gun fire has been especially intense.

The Dardanelles.
Athens, Oct. 5.—A naval attack on the Dardanelles is proceeding by means of long range guns

mounted on barges. The barges are in the mouth of the Dardanelles under cover of the guns of the Allied fleet.

RICH SILVER STRUCK IN ALICE ARM DISTRICT

What is believed to be a continuation of the lead of the Dolly Varden mine, has been discovered by accident on an adjoining property in the Alice Arm district.

The report brought in yesterday placed the value at about 200 ounces in silver. Alice Arm promises to be one of the richest mineral districts in the north.

SUNDAY CLOSING OF CHICAGO SALOONS

(Special to The Daily News.)
Chicago, Oct. 5.—For the first time in forty years, Chicago will experience a dry Sunday, as a result of the passing of the Illinois Sunday closing law. Seven thousand, one hundred and fifty-two saloons and cafes are affected by the new law.

The drastic order by Mayor Thompson came as a complete surprise to the liquor interests.

WEDDING BELLS

At 8 o'clock this morning, Miss Alice Carss, daughter of Mr. and Mrs. A. Carss, of this city, was married to Mr. H. P. Wilson, manager of the local branch of the Royal Bank of Canada, Canon Rix officiating.

The wedding was a quiet one, only the most intimate friends of the families being present. The bride was one of Prince Rupert's most popular young ladies, while Mr. Wilson, who opened the branch of the Royal Bank here, is also exceedingly popular. The happy couple left for the south on the Prince Rupert, and on their return will take up their residence here.

INDEBTEDNESS

At the council last night Ald. Montgomery, seconded by Ald. Beveridge, moved that the finance committee report to the council regarding the indebtedness of the city, with a view to cutting down the "paper" debt, occasioned by bylaws under which no work is being proceeded with. The motion carried.

SIR RICHARD M'BRIDE WANTS LIBERALS CALLED

(Special to The Daily News.)
Victoria, Oct. 5.—At the submarine enquiry today, Sir Richard McBride followed his denial of there being any illicit commission in connection with the submarine purchase by a request that the provincial Liberal leader, the members of the Liberal executive, and Liberal newspaper editors be summoned as witnesses before a tribunal to find a basis for the rumors. Sir Charles Davidson is considering the proposal.

"THE BROKEN COIN" AT THE MAJESTIC THEATRE

"The Broken Coin" continues its adventurous career at the Majestic. The action is livelier than ever and there is some of the most realistic "scrapping" seen for a long time. There is wholehearted "slugging" matches on and around box cars and automobiles, then a long chase takes place by road and rail. Kitty has the tires taken from her car and uses it on the railroad track. The individual fighting develops into a national affair and war is looming up, when the curtain drops.

A splendid Animated Weekly, "Persistent Pete" and the "Star Gazer" make up a very fine program.

THE LAST DAY

Someone in Chilliwack has notified the city council that the "last day" is coming shortly, and that the members had better prepare, so that they may not be burned up with the tares. This must be a result of the recent bush fires.

For home use in bottles of carbonated beverages that have cork stoppers, a tap has been invented that can be screwed through the cork, a spring valve controlling the flow of the contents.

Robert A. Grant, of P. Burns & Co., arrived from Prince George last night.

INTERESTING LETTER FROM JACK ENSCH

G. R. Naden has received a most interesting letter from Jack Ensich, who, on September 12th, was well and fit, somewhere in Belgium. Jack gives a vivid description of several air battles he had witnessed. He tells of one British aviator who escaped a fire of 250 shells in carrying out special observation work, returning to the lines unhurt.

He says the boys are all contented, and make a fine looking battalion in their kilts. He says there is great fun amongst the old bear hunters and prospectors when they are climbing into their "dresses" in the morning.

Jack says he has seen a city as large as Victoria reduced to a pile of bricks by shell fire. He says there has been comparatively little doing recently, but that they are ready for the Huns whenever these gentlemen feel like starting something.

"THE DIAMOND FROM THE SKY" AT THE WESTHOLME

"The Silent Witness," the 3rd episode of "The Diamond from the Sky," at the Westholme theatre, provides one of the most thrilling auto stunts ever screened. Last night, when Irving Cummings dashed across in front of a "limited" going full speed, missing disaster by a hairsbreadth the large audience held its breath. Shortly after, this daring actor rolls with his car over a cliff into the sea. It certainly is some thrill.

"The Smuggler's Ward" is a pretty two-act drama, showing some fine cliff scenery and real good acting. "One Kiss" is a comedy in which a gay youngster most laughably gets the best of his dad. "The Discontented Man" is a pleasing little drama.

(Special to The Daily News.)
London, Oct. 5.—Irving O. Reese, a Chicago newspaper photographer, has been arrested as a German spy.

Friends of Reese believe that he is the victim of a double, who has been using a forged passport.

EARLY CLOSING PROTEST

Last night a notice from D. W. Morrissey was read to the effect that he will petition for the quashing of that part of the early closing bylaw relating to grocers.

He gave seven reasons for doing so, the chief being that the bylaw had not been properly signed, one man having signed twice, while others had done so on misrepresentations having been made.

The city solicitor notified Mr. Morrissey's lawyer that the notice was not explicit, in that it did not give names and particulars regarding the various points raised.

CAMP KITCHEN

On the matter of the camp kitchen for the second contingent coming up before the council last night, Ald. Casey, seconded by Ald. Nicol, moved that the council do nothing in the matter. This carried.

SIR WILFRID AND RECRUITING

From time to time Conservative journals of the baser type sneeringly call on Sir Wilfrid Laurier to go out among his French-Canadian compatriots and try to induce them to enlist for military service in the present war. With much better reason the appeal might be made to the French-Canadian members of the Borden ministry to do this very thing. Sir Wilfrid Laurier, in spite of temporary ill health, has been making effective appeals to his French-speaking fellowcitizens in Quebec, and he may be able to make others even more effective before the war closes; but meanwhile Hon. Louis Coderre and Hon. Pierre Edouard Blondin observe a discreet and unbroken silence. The conservative complainants should, for a change, give some attention to these colleagues of Sir Robert Borden. Hon. T. Chase Casgrain has done a little work for the cause, but he should be doing a great deal more, in order to show that his heart is in the campaign.

These appeals to Sir Wilfrid Laurier amount to a virtual admission that he is the only public French-Canadian to whom the French-Canadians will listen on this question; and this is probably true. Whatever else may be urged against him in any connection, it cannot be denied that he has always frankly avowed his liking for British institutions, and that he has taken the same attitude in addressing French-Canadian audiences as he has taken in addressing those mixed audiences that are not even partly French-Canadian. The present appeals to him for help are an involuntary compliment to him as a Canadian statesman.

It is worth while to inquire

in this connection why members of the present ministry fight so shy of the French people of Quebec. The explanation is the anti-naval service campaign carried on by the Quebec "Nationalists" in 1910-11. The Nationalist leader, Mr. Henri Bourassa, took charge of that campaign, both on the platform and in his paper, Le Devoir. He was attended by a few satellites drawn from the Conservative party, one of them Mr. Blondin, now the holder of a portfolio in the Borden cabinet. In the bye-election campaign in Drummond and Arthabaska in 1910 Mr. Blondin reminded his hearers that it was necessary to shoot holes in the British flag to secure liberty in French Canada, and he is probably quite as willing to do so now as he was then.

Sir Robert Borden was then working hand in hand with Mr. Bourassa, and he was supported by the Nationalists when, in fulfillment of the agreement between Canada and Australia, the Laurier government proposed to pass a Naval Service Act. The cry of "conscription" was raised by the Nationalists, who furiously assailed the measure both inside and outside of the House of Commons. By this coalition of Conservatives and Nationalists the Liberal candidate was defeated, and the opposition to the passage of the Naval Service Act was systematized and subsidized by the official Conservatives.

During the election campaign of 1911, Mr. Frank Cochrane being the official Conservative organizer for Ontario, Mr. Bourassa was invited to speak at Sudbury in Mr. Cochrane's constituency. At the station he was heartily, even effusively, welcomed by both

French and English speaking Conservatives. The town was gaily decorated for the occasion. Mr. Gordon, the Conservative candidate, told the people he "welcomed Mr. Bourassa from the bottom of his heart." Mr. McKessock, president of the Conservative Association, declared Mr. Bourassa to be "one of our greatest leaders, and called for three cheers for "Bourassa and Borden," as if to show which was the senior partner in the political firm. Over the platform was hung the legend: "Welcome, Bourassa; tell Quebec, Ontario will do its duty." In the face of all the disgraceful practices of the Conservative leaders in that general election, it is not surprising that French-Canadian Conservative ministers and leaders are prompting their organs to beseech Sir Wilfrid Laurier now to come to their aid.—Toronto Globe.

GERMAN SPY AS A RUSSIAN AGENT

A prominent Russian now in London says that the man at the head of the Russian special investigation service entrusted with the work of discovering German spies in Russia, was himself a German spy. He had been known to the Russian court for years, and only proofs of the most indisputable nature led to his exposure. Then prompt action was taken. He was tried by court-martial and convicted of having betrayed the weak points of the Russian war preparations to the very Germans he was expected to arrest. His execution followed immediately.—World Wide.

BELGIAN RAILWAY TRACKS TRANSPORTED

The Belgian government has protested to neutral states against the action of the German administration in tearing up and transporting to Poland the tracks of the Belgian railways. The protest is based on an article of the Fourth Hague Convention, which stipulates that the occupation of invaded territory shall constitute only an occupation "de facto." Removal of the railways, the note contends, will make much more difficult the transaction of business by a large portion of the population of Belgium.—World Wide.

Mrs. J. W. Macdonald and her daughter, Bertha, left Mr. Macdonald to his own devices at the beginning of last week and wended their way rejoicing to the wilds of Noosatsum to visit Mr. and Mrs. W. The Housekeeper is Right

Sometimes a housekeeper requires a quick leavening agent, and finds she has no baking powder.

What does she do?

She raises her biscuit by a mixture of cream of tartar and soda, or soda and sour milk. She may not get the proportions quite right, but she knows her food is safe. But does she ever use a mixture of alum and soda? Was there ever a housekeeper who bought alum and soda to make a home made baking powder? Intuitively she feels it would be unsafe.

Then why use baking powder made from alum or the same mixture that the housekeeper would not dare to mix and use in her food?

Alum is alum, whether bought in the drug store or in baking powder.

QUESTIONS ANSWERED.

1.—How long am I to serve? Until the end of the war and six months after if required.

2.—What pay shall I receive? Your pay as a private will be \$1.00 per day and 10 cents field allowance. Besides this you will be clothed, equipped and subsisted by the Government.

3.—What will my wife receive during my absence? Every month there will be paid her a separation allowance of \$20 (also part of your pay) and if this be not enough to comfortably maintain your family, the Canadian Patriotic Fund will further assist them.

THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
